The Winds of Change

■ A real serious column had been planned for the page this month. The editor had returned a week before from the annual mid-winter meeting of alumni editors, secretaries, and fund raisers. He was full of pontifical thoughts about changes in higher education, the merits of addressing class dues letters by IBM, and the influence of the Surgeon-General's Report on the distribution of free cigars at reunion banquets.

Then, just as deadline approached, the sun broke through a bank of gray clouds that had enveloped the campus since the Brown game in early November. Serious thoughts seemed out of order, what with the sky clearing and turning Columbia blue above Stimson.

One pontification, only one, must be passed along, however, before other authors are called in.

This American Alumni Council gathering we attended heard a recurring message. Activity of alumni organizations by classes is giving way as US colleges turn more to the organization of alumni by regions—for student recruitment, faculty visits, and fund raising.

At many schools, the classes have proved less effective. Activity by regions holds hope for the direct enlistment of more graduates by fellow alumni. Class emphasis grew up in earlier years, when former students organized themselves and had little help from alma mater. As the US college has come to value alumni participation in its affairs, it has shown greater concern for efficiency of the effort.

At Cornell the trend is perceptible today. Regional secondary school committees have always been organized without regard to the alumni class of their members. In recent years, class fund workers in selected

cities have also made calls on non-classmates, as part of a trial of regional Cornell Fund work.

Early last month, all Cornell Fund workers were asked to expect a summons to be included in the Centennial Campaign committee in their own city or region. Efforts by class are suspended for the duration of the campaign, and no one around Day Hall will be too surprised if much more emphasis is placed on regional committees when the Cornell Fund reappears after the Centennial. "The Cornell Fund will continue," reports a letter from its chairman and the Centennial chairman, George Newbury '17 and Jansen Noyes Jr. '39, "the record of Annual Giving will be maintained."

Those alumni who work to keep alive Cornell's strong class organizations will do well to be thinking ahead to when alumni will be summoned to take part in and support city, regional, and state committees even more than they are today. Nothing about Cornell does or can remain constant. The university shows signs of wanting to provide more opportunities for its alumni to keep well informed, and to take part in its life. The classes should be ready to take advantage of this.

Science note: Cornell and state conservation men hope to control rabies by controlling the reproduction of foxes, which spread the disease. Their plan is to lure foxes to eat food containing reproduction inhibitors. One of the two men in charge has taken some kidding about this devious approach. His name is Cheatum, E. L. Cheatum in fact.

Social note: The advice columnist Ann Landers had a letter the other day from a college student, which is reprinted here from her copyrighted article.

Dear Ann Landers: You were very helpful to me four years ago when I wrote about my problem. At that time I had just lost all my teeth and wanted to know if I should enter college in spite of the fact that a gum deformity made it almost impossible to wear dentures. You said to go, and I took your advice. It worked out well.

My present problem is that I am now divorced from an irresponsible no good I foolishly married while a junior in college. I, like so many other young idiots, thought I could reform him. I tried a reconciliation three times, without success.

During the last reconciliation I became pregnant. I filed suit for divorce without knowing my condition and decided to go through with it. I'm now a graduate student and am dating some interesting young men. They know all about me and my condition. I'm in my eighth month of pregnancy and my favorite boy friend wants me to go to a formal dinner-dance in a couple of weeks. I feel fine and would like to go if you think it would be proper. Please advise.—*Undecided.*

Dear Undecided: Any girl who is toothless and in her eighth month and can still get dates doesn't need any advice from anybody. You're doing fine. Good luck.

Political note: A poll of Business and Public Administration students shows a 75-25 split in favor of Republicans among second-year students; and a shift to an 82-18 split in the first-year class. —JM

FUTURAMA

Created by the People of General Motors—One of the highlights of the World's Fair will be the General Motors Futurama. This magnificent, ultra-modern building and the wonders it contains represent the skill and work of GM people—*stylists, engineers, scientists, architects, show specialists.*

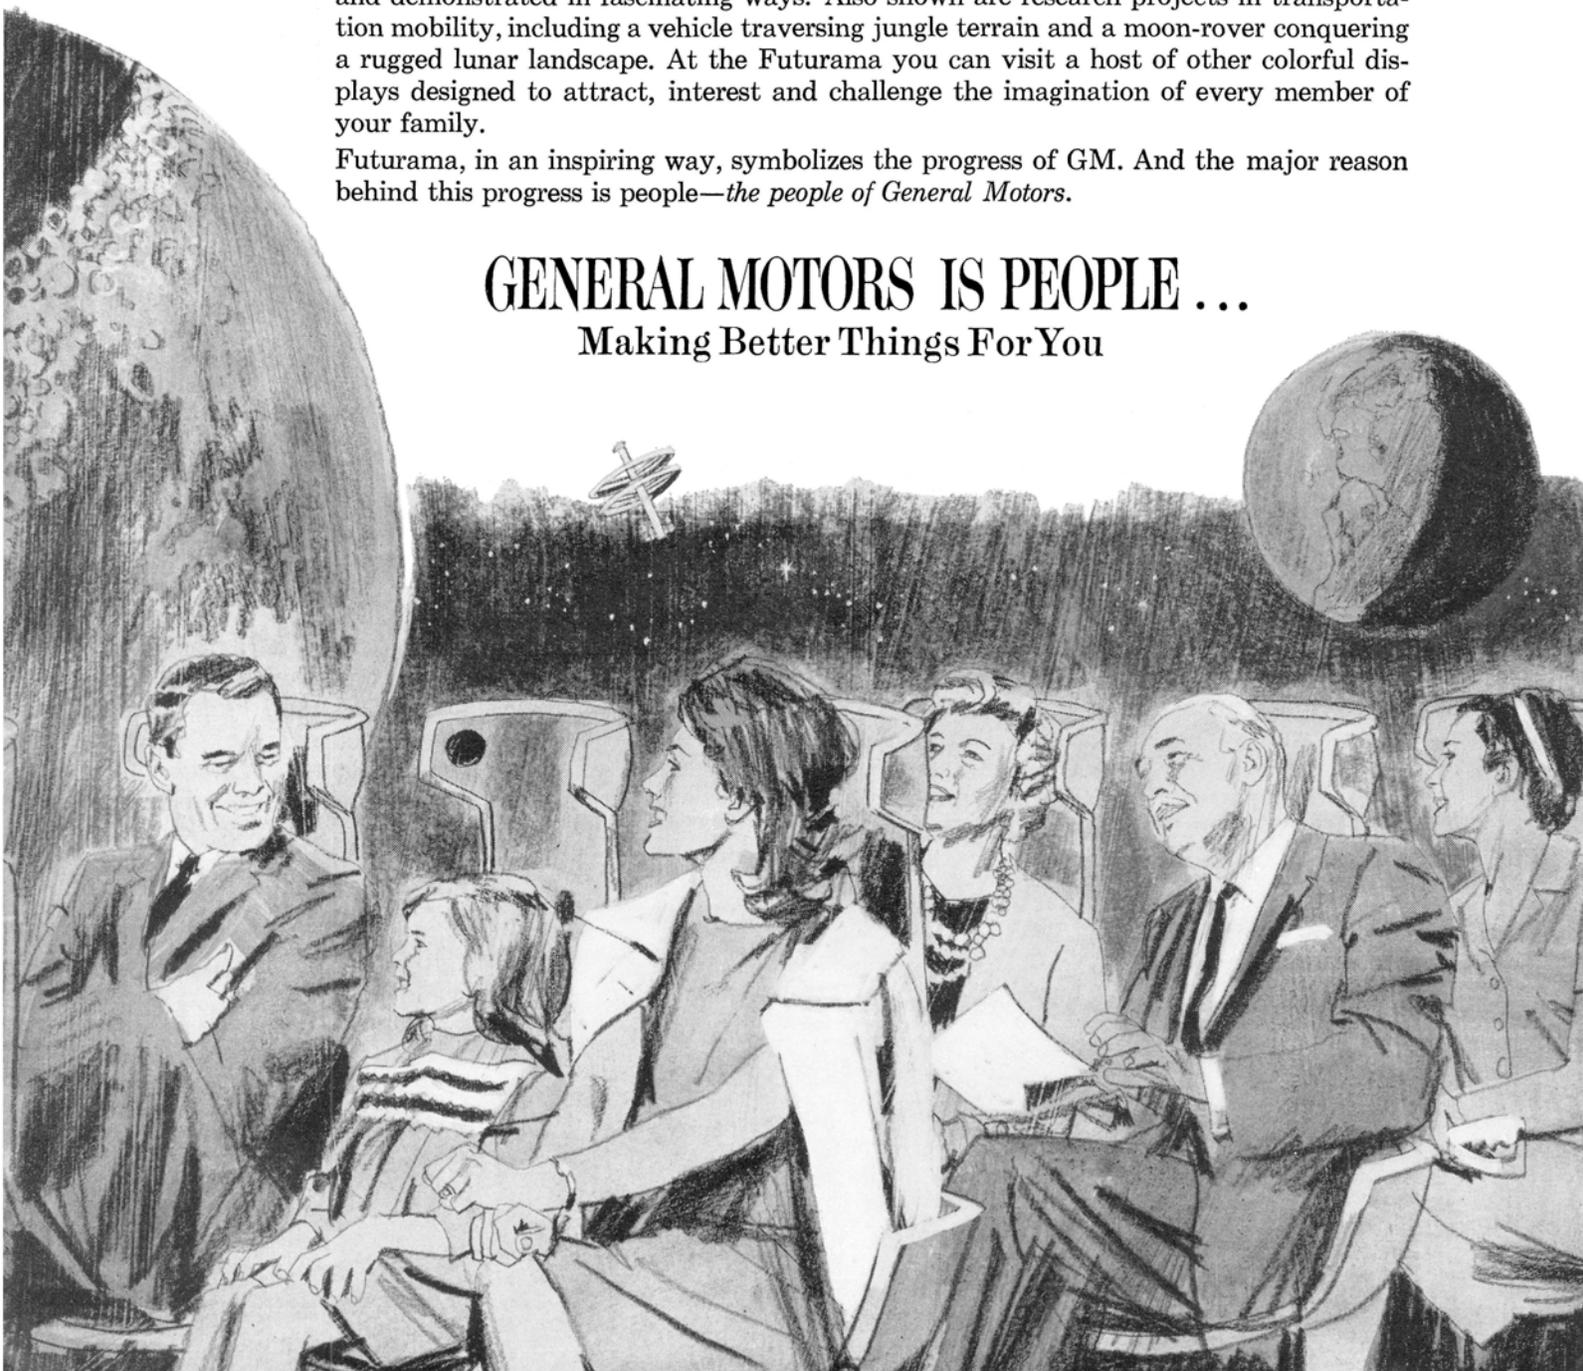

The building is 680 feet in length (a very long par three on any golf course). It's 200 feet wide (forty more than a football field), and from the stark beauty of the ten-story-high canopy entrance to the wide scope of the domed pavilion at the rear, it expresses one thing very clearly: *tomorrow!*

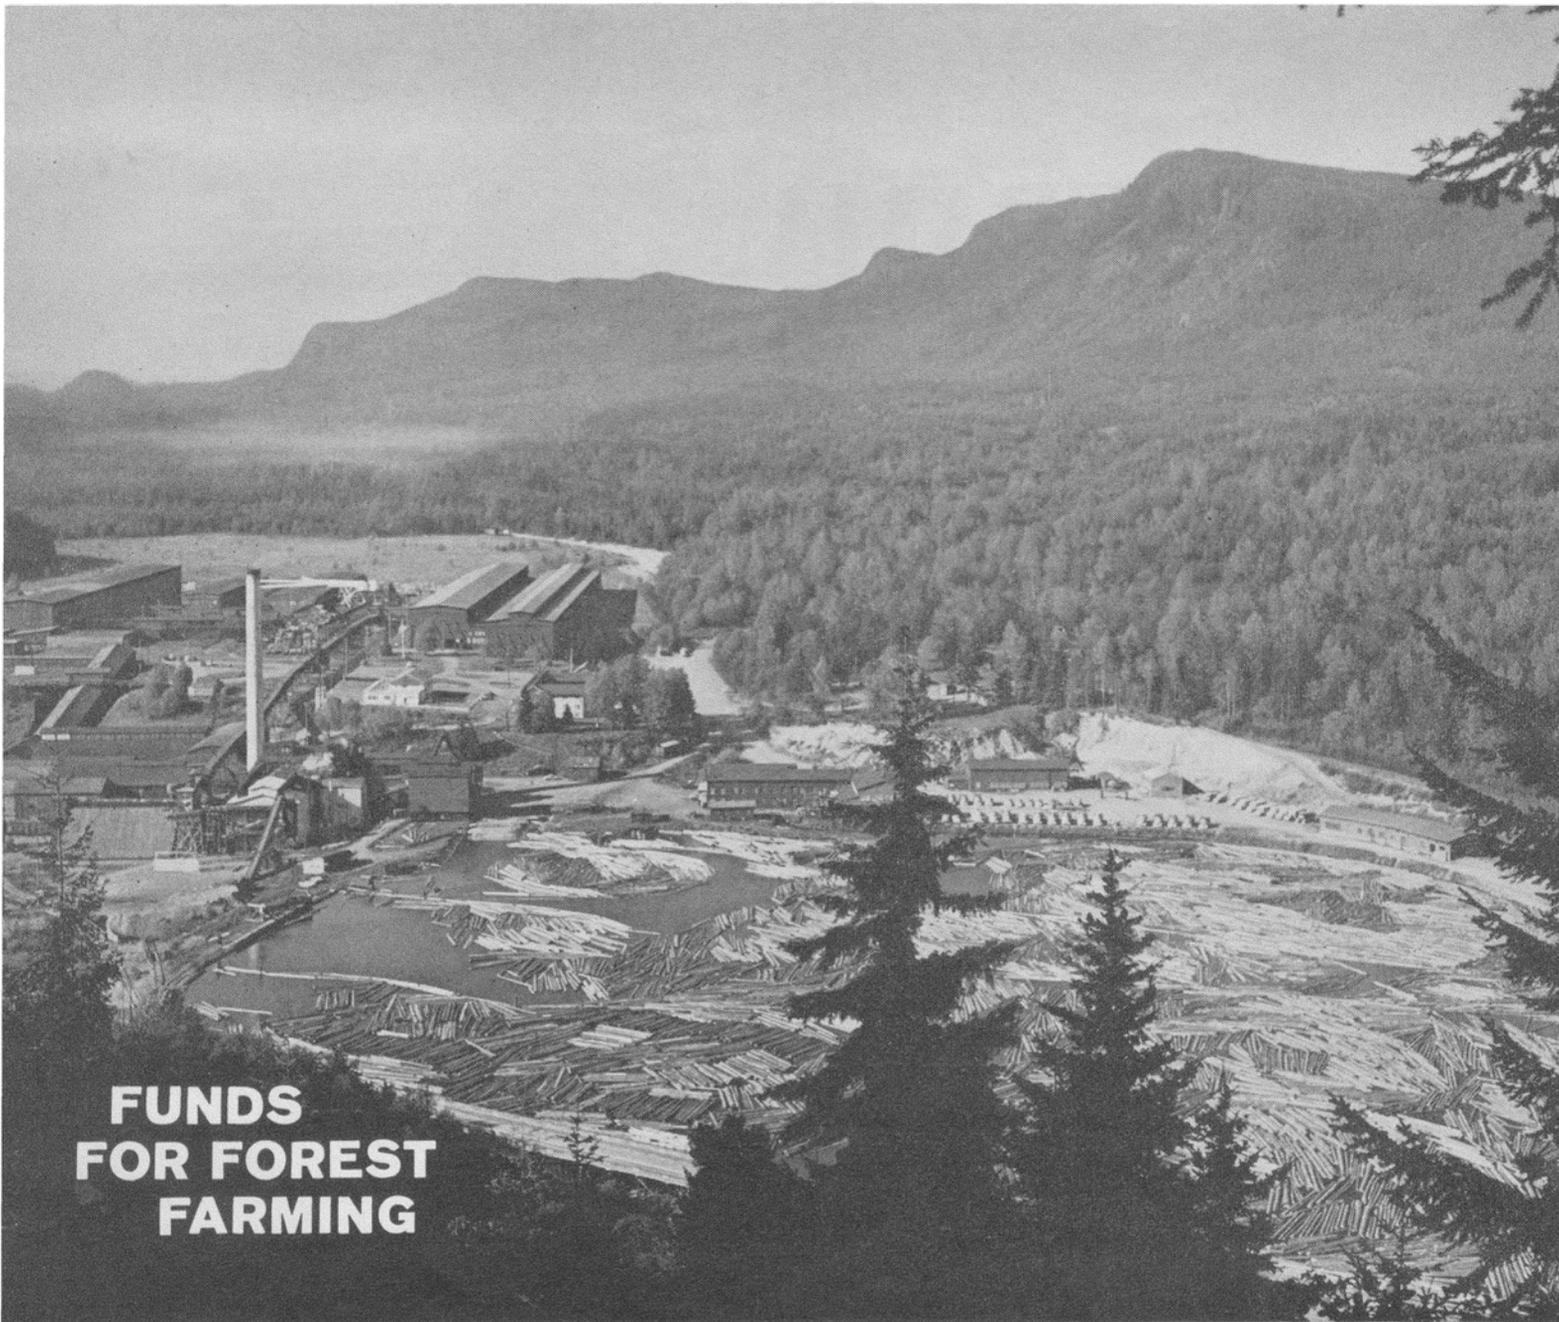

A high spot of the Futurama is a ride that surrounds you with wonders. In an unforgettable experience, you'll be carried through time and space—through desert and jungle—to polar regions and across the ocean floor. In a single day this dramatic ride can accommodate 70,000 people—the entire population, for instance, of Muncie, Indiana or Boulder, Colorado.

In the Futurama's Avenue of Progress, you'll see the newest sources of power described and demonstrated in fascinating ways. Also shown are research projects in transportation mobility, including a vehicle traversing jungle terrain and a moon-rover conquering a rugged lunar landscape. At the Futurama you can visit a host of other colorful displays designed to attract, interest and challenge the imagination of every member of your family.

Futurama, in an inspiring way, symbolizes the progress of GM. And the major reason behind this progress is people—the *people of General Motors.*

FUNDS FOR FOREST FARMING

How Citibank services help turn timber into practical, profitable products

Long before the first tree topples in a stand of virgin timber, a bank has swung into action to provide basic financing. Δ For, while money may not grow on trees—*trees grow on money*. They need land, labor, equipment. Δ The whole length and breadth of lumber-associated industries—from pulp to plywood to chemicals—turn logically to First National City for financing. Their reasons go beyond depth of resources, facilities, service. Like so

many other industries, they look to Citibank for *business counsel*. Δ With branch offices and correspondent banks in every key national and world market, we can furnish facts—and service—fast. Our banker-specialists keep a constant eye on research and development of new methods, new products, new applications. Δ All this is part of First National City's *total banking* . . . a scope of service which covers *all* the banking needs of business.

FIRST NATIONAL CITY BANK

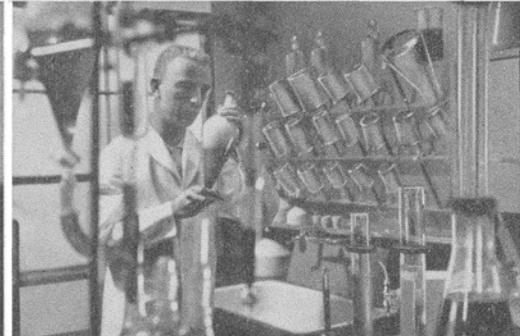

399 PARK AVENUE, NEW YORK, N.Y. 10022 • MEMBER FEDERAL DEPOSIT INSURANCE CORPORATION

Extra! National City financing helps insure a steady supply of newsprint needed for the nation's newspapers.

For a review of business—from lumber to legislation—request "Monthly Economic Letter," above address, Dept. D-3.

Chemicals from sawdust! Working capital from Citibank helps make advanced industrial research possible.

New England Life agent Ken Mellen (Utica College) calls at the home of Mr. and Mrs. Ray Cook in Utica, New York.

How many reasons do you need to change careers?

Two good reasons were enough for Ken Mellen. Although he was already off to a promising start in another business, he chose a new career in life insurance with New England Life. As Ken puts it: "I wanted a chance for unlimited earnings. And I wanted work that would give me freedom to make my own career decisions."

How's Ken doing in his new career? By the end of his first year with us, he had sold more than one million dollars worth of life insurance! (And his income was already well up into five figures.)

That's an impressive achievement. But Ken has the right things going for him. Enthusiasm. Determination. Sound New England Life training. Diligence in applying that training. And the ability to inspire confidence in the people he deals with.

Take his association with Ray Cook, for example. Ray, who owns the Kirby Vacuum

Cleaner Distributorship in Utica, signed up for personal life insurance with Ken. He liked the way things were handled and called Ken in to work out a group insurance plan for his salesmen. These men, in turn, were so impressed that each of them went to Ken for personal life insurance. Begin to see how Ken reached the million mark?

Does this kind of challenging, rewarding career sound good to you? There are wonderful opportunities in it—especially with the guidance and support of a good company. Find out if you can meet our qualifications. Write to Vice President John Barker, Jr., 501 Boylston Street, Boston, Massachusetts 02117.

Four things that make a job ideal for the man who wants to get ahead!

- 1** You work for yourself — you choose the hours, the days.
- 2** You can start in without any capital investment.
- 3** You are paid in direct proportion to your success — regardless of your age or seniority.
- 4** You select the people you work with.

Many men spend a lifetime and never enjoy even two of these ideal job conditions.

But Mass Mutual men tell us these four are just a few of the reasons why they chose careers in life insurance selling with our company. Few fields offer such possibilities for the man with real ability. And few insurance

companies can offer a man as much as Mass Mutual.

Our policies are recognized as second to none. And every Mass Mutual representative is backed by a company with over a hundred years of experience, with over 2.8 billion dollars in assets and with one of the finest reputations in the business.

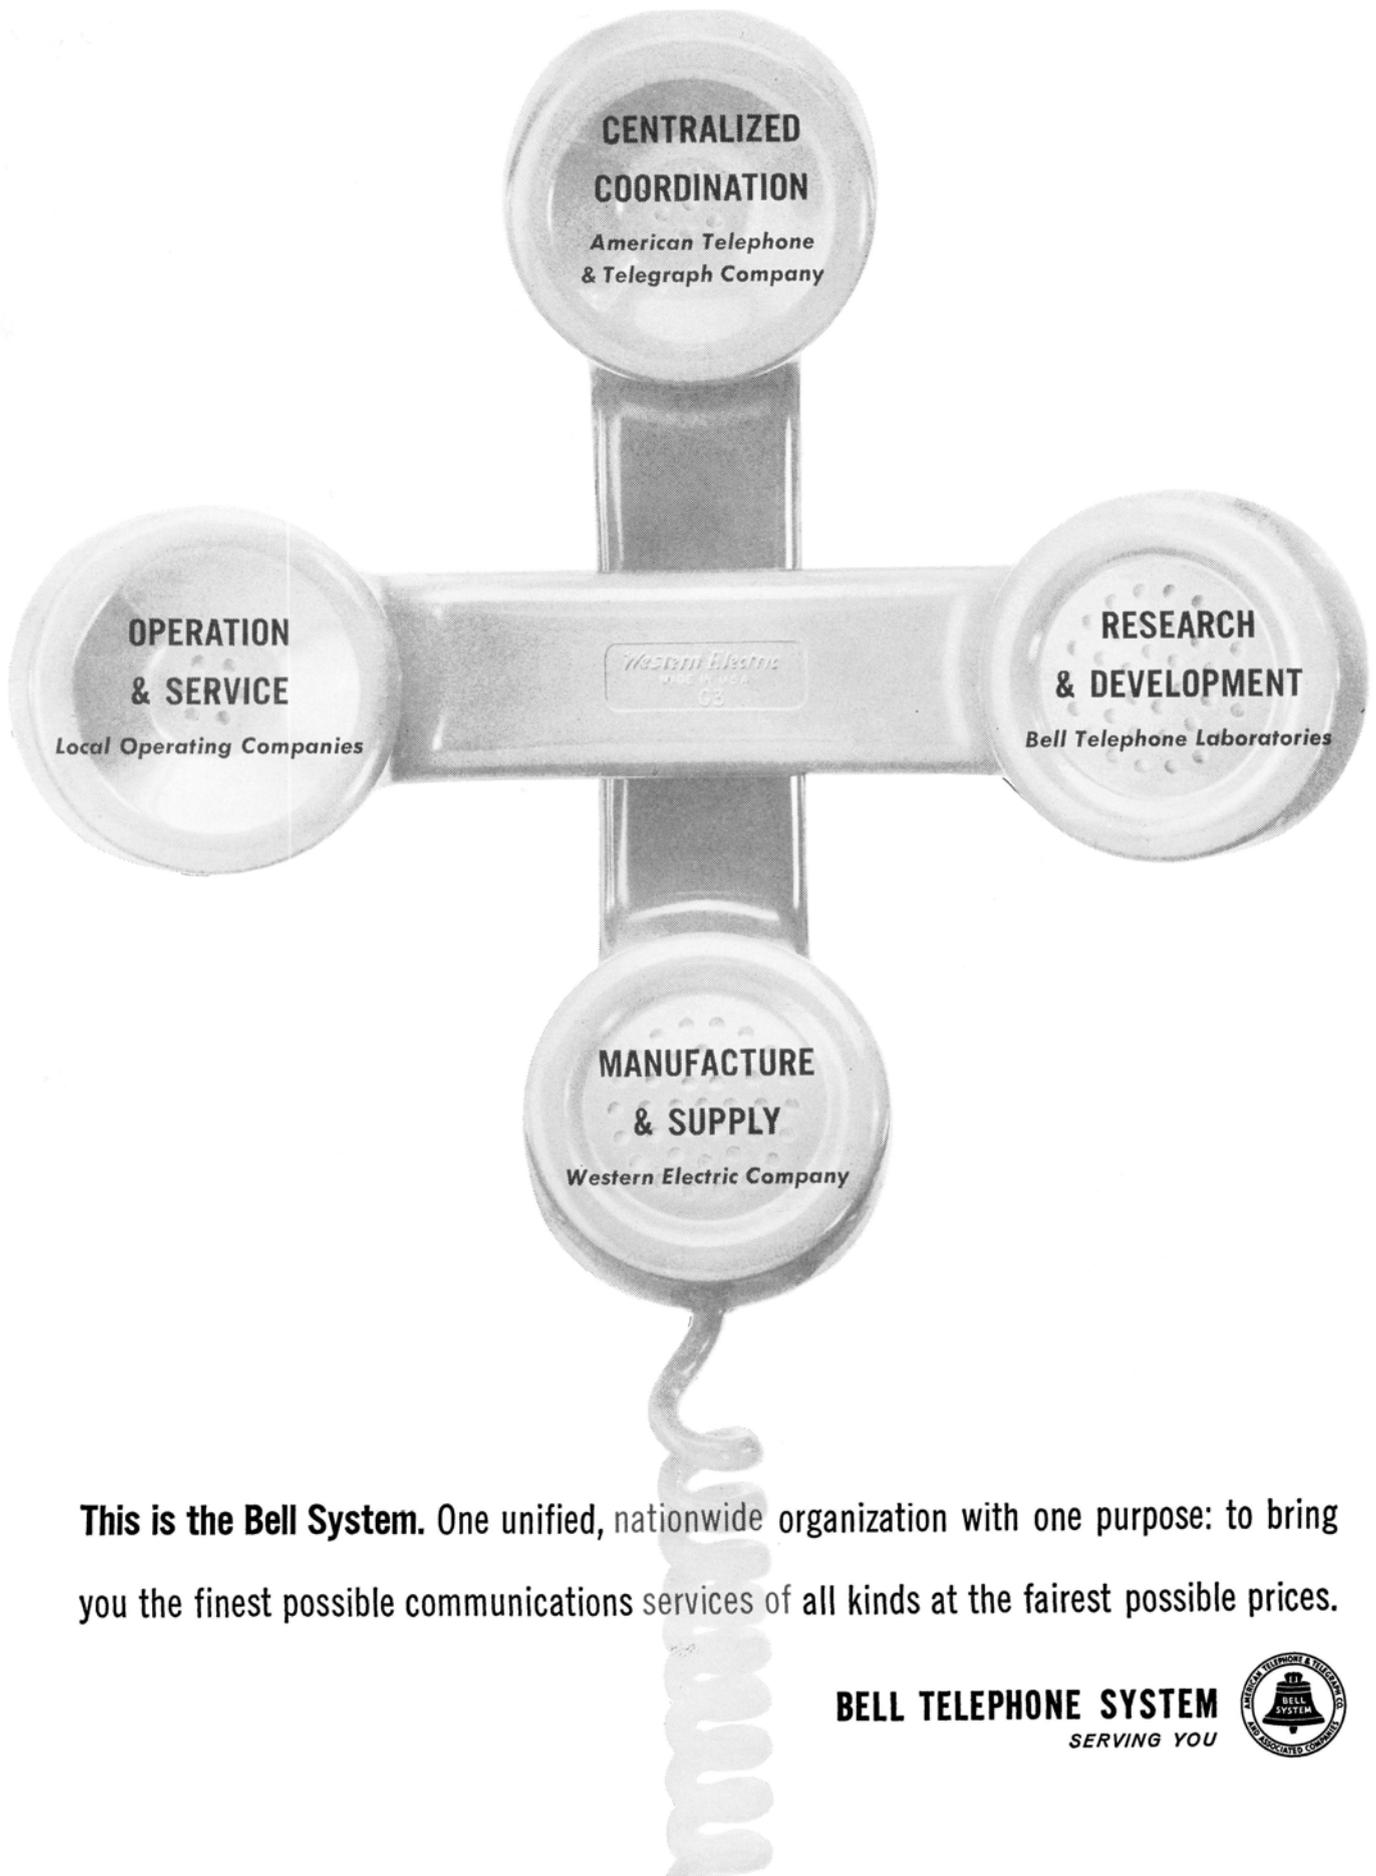

If you're not getting ahead as fast as you'd like, perhaps you should look into a career with us. Write us a personal letter about yourself. Address it to Mr. Charles H. Schaaff, President, Massachusetts Mutual Life Insurance Company, Springfield, Massachusetts. He's always pleased to hear from able and interested men.

Gamble at Cheektowaga

Aero Lab, once a stepchild, enjoys full family status for its research record

■ The airplane was flying itself.

The pilot, hands off the control stick, watched his instrument panel as the twin engined jet skimmed over the ground.

When the aircraft approached a line of hills, the control stick—unaided—tilted toward the pilot. The jet responded immediately, pulling up and over the first rise. Clearing the top, it swooped down into the valley beyond, roared past a farming village and then pulled up, once more, clearing the next hill.

For several minutes the airplane followed the roller-coaster contours of the ground and the pilot made no effort to direct its line of flight.

Impossible? No, this remarkable demonstration occurred several months ago when an automatic flight control system developed by Cornell Aeronautical Laboratory (CAL) was tested over the Finger Lakes region of New York State. The experimental system, intended to develop techniques to permit high-speed aircraft to fly *under* radar, is but one of many innovations developed at the Laboratory since it became the university's applied research affiliate in 1946.

CAL's main facilities are located in Cheektowaga, a suburb of Buffalo. Driving past the Laboratory with its yellow brick office buildings and carefully landscaped front lawns you could easily mistake it for a modern manufacturing plant.

The headquarters building at Cheektowaga.

Engineers in the control room of the high-peak-power radar.

Behind the industrial facade, however, is an organization of scientists, engineers, technicians, and administrators who produce ideas and information rather than finished products. The tools of their trade are wind tunnels, computers, radar ranges, shock tubes, and other devices mysterious to laymen.

This combination of experienced manpower and intricate equipment developed over the years at the Laboratory has enabled it to cope with ever more complex problems brought to its door by government and industry. The ability to grow rapidly in expertise, and even to race ahead of what it is asked to do, have made CAL a research pioneer in such significant areas of technology as ultra-high-speed flight, military and highway transportation, and advanced electronics.

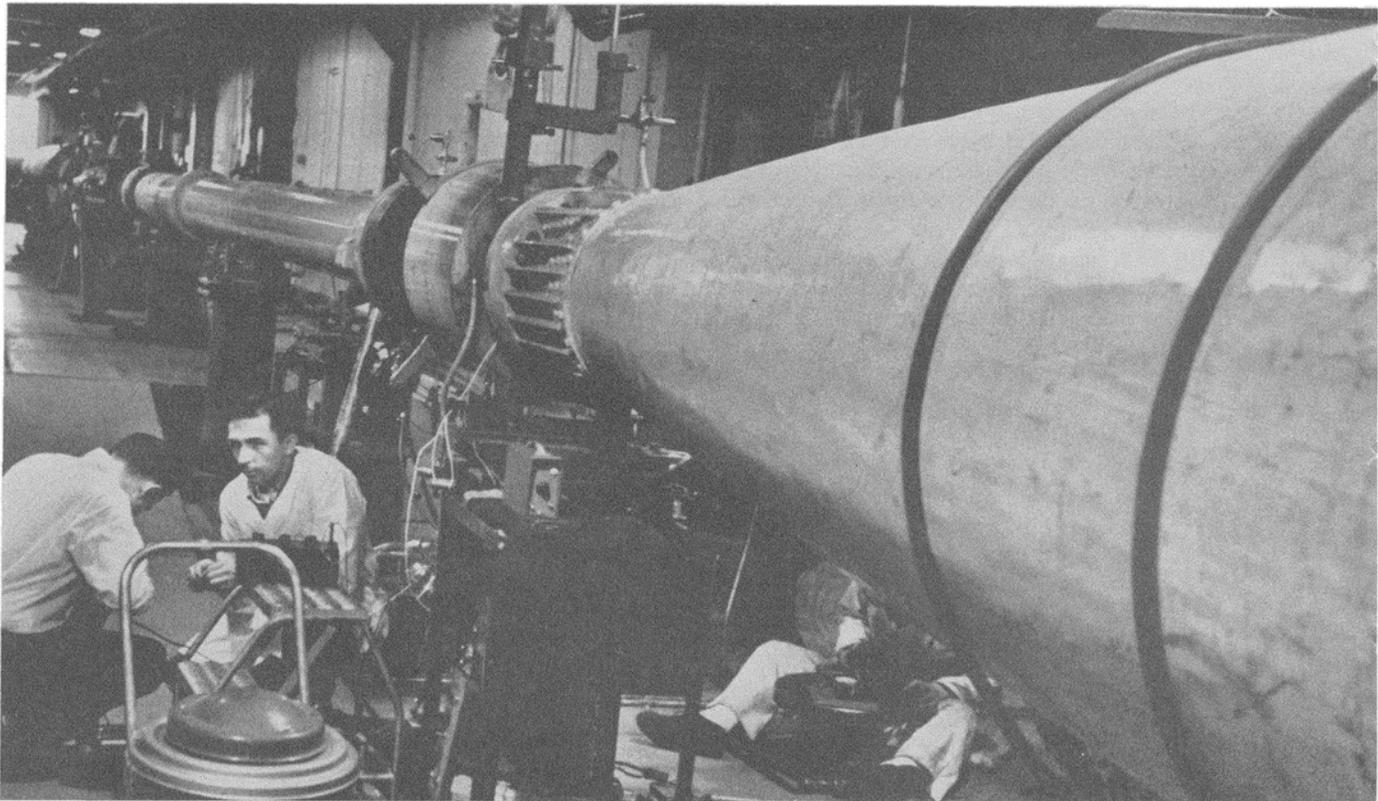

Looked upon by many as an unwelcome stepchild when it became a part of the university, the Laboratory has proven to be for Cornell a most effective instrument for public service. It has completed more than 4,000 important research projects; its staff of 1,200 people includes about 500 scientists and engineers, many of whom are leaders in their fields. By the end of June, CAL will have performed almost \$200,000,000 worth of research since 1946, including some two millions worth paid for with its own funds.

"That Lab in Buffalo," the "stepchild," is today a respected member of the Cornell family.

Checking computer equipment used for ground simulation of aircraft flight. Plane is one of CAL's variable stability aircraft.

Research is CAL's business

'We often begin working on problems before the need for their solution becomes obvious'

□ The Aero Lab's business is research—performed under contract to the military, government agencies, or any organization with a significant problem in CAL's fields of interest.

The Laboratory's program of contracted research averages about two hundred projects, and the annual volume is more than \$18,000,000. Almost 95 per cent of this effort is sponsored by the US armed forces and other agencies of the federal government, with industrial concerns sponsoring the remainder.

The Laboratory's technical program is broadly organized around four basic areas of research—aeronautical, space, electronics, and transportation. Within this broad framework the Lab's sixteen technical departments pursue a broad spectrum of problems ranging from the behavior of space vehicles re-entering the earth's atmosphere to the development of high-power radar systems for detecting and tracking enemy missiles.

Shots in a cannon

Probably the most intriguing work at CAL involves research in hypersonics—the study of missile and space vehicle

performance at speeds five or more times faster than sound.

Test devices, called hypersonic shock tunnels, have been developed at the Laboratory to produce air speeds as high as 12,000 miles an hour and greater—velocities similar to those encountered by space vehicles during actual flight within the earth's atmosphere. By measuring the effect such conditions have on scale models the CAL scientists and engineers are learning a great deal about the flight characteristics of actual vehicles.

A typical shock tunnel looks like a long cannon. Attached to one end is a metal container, the test chamber in which the model is mounted. During operation, high pressure gas, acting like an explosive charge, blasts through the tube section of the tunnel, driving a "bullet" of air ahead of it. The air, accelerated to high velocity by the time it reaches the end of the tube, rushes into the test chamber and flows over the model.

Although a shock tunnel test is completed in a fraction of a second, instruments built into the model accurately measure forces, pressures, and temperatures which build up on the model as the

high speed air passes. Such data enable engineers to estimate how the full-size vehicle will behave under actual flight conditions.

CAL is currently operating three shock tunnels. The largest has a test section eight feet in diameter and produces air velocities up to eighteen times the speed of sound. At such speeds air friction heats the model's leading edges to about 10,000 degrees F., equal to the surface temperature of the sun.

Another shock tunnel, in operation since 1959, has logged more than 7,000 hours of test time for the Department of Defense, National Aeronautics and Space Administration, and the nation's leading aerospace companies. It has been used to obtain data for the design of practically every US missile and space vehicle including the Mercury capsule. Other CAL facilities are studying the more advanced craft now being readied to take US astronauts into extended earth orbits and eventually to the moon.

CAL's shock tunnels have also been employed for basic research into the strange world of hypersonic flows where

air breaks apart into its separate chemical components, and ionized gas particles envelope vehicles in an electronic sheath that prevents normal radio communications. A great deal of what is known today about the behavior of air and vehicles moving at hypersonic speeds was discovered at CAL through its decade of study of ultra-high-speed flight.

Flights in a can

The Aero Lab's research in hypersonics has also led to the development of a new test installation expected to provide the US with a considerable advantage in the missile-space vehicle race being waged with Soviet Russia. Called the Wave Superheater Hypersonic Tunnel, the new device produces hypersonic air flow velocities for periods of up to fifteen seconds—more than 1,000 times longer than is possible with other equipment. Its long test duration simulates the most critical period of space vehicle reentry into the earth's atmosphere.

A huge facility when compared with conventional shock tunnels, the Superheater has a test section twenty feet in diameter, large enough to hold actual-size models of many space vehicle and missile components.

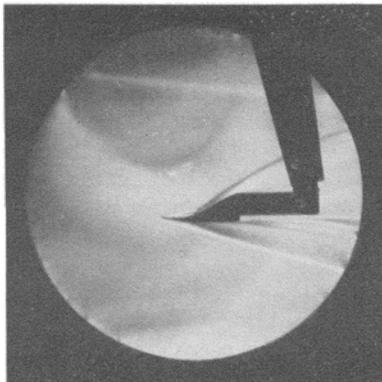

Because of its long test duration and large test section the new CAL facility is expected to produce test data which previously was obtained only with actual flights of full-scale vehicles. For this reason, the savings in time and money the Superheater will bring to the US space program are expected to be enormous. The facility, built at a cost of some \$5,000,000 under Department of Defense sponsorship, went into full operation late last year.

CAL's pre-eminence in hypersonic re-

search is a tangible result of the willingness to take a scientific gamble that has prevailed at CAL since it came to the university as a gift from the Curtiss Wright Corporation in 1946.

The will to gamble

CAL President Ira G. Ross says "we have tried to meet our basic public serv-

Hypersonic test flow past a model.

ice objective by striving for true innovation in industrial and military technology."

"We look for the most challenging assignments within our areas of interest," he explains, "the sort of problems which research centers associated with industrial companies do not find immediately attractive. In fact, we often begin working on problems before the need for their solution becomes obvious."

President Ross points out that the first CAL shock tunnel began operating on an experimental basis in 1951 at a time when the world's fastest aircraft

were barely able to exceed the speed of sound.

"The need for test equipment that could produce air flow velocities up to twenty or twenty-five times the speed of sound was rather obscure in those days but our technical staff was certain the need would arise," Ross continues. "So we gambled, with the result that when such facilities were needed we had a head start."

The automatic flight control system that guides aircraft on low-level flights over treacherous terrain is also the result of a long-range gamble on the part of the Laboratory.

The system uses an airborne computer which adjusts the aircraft's altitude in keeping with information fed to it by a radar which scans along the aircraft's line of flight. The technique had its beginnings at the Lab in the early 1950s. Although many critics warned there was no military requirement for the system, CAL persisted with its research. CAL Autoflite is now being evaluated by the US Air Force as a technique for permitting aircraft to slip under radar screens.

Seat belts and guard rails

This willingness on the part of the Laboratory to gamble, to tackle problems which others avoid, has led it into a number of other research areas that are now of major concern to the nation.

Shortly after the end of World War II, the Laboratory began investigating methods of reducing injuries and deaths resulting from automobile accidents. Tests conducted with life-size dummies under simulated crash conditions proved that seat belts would reduce the hazards. Padding for dash boards, safety lock

CAL test plane hugs the hilly Upstate New York countryside, controlled by a Lab-developed Autoflite equipment, and not by a pilot.

doors, and other innovations now either standard or optional equipment on automobiles were also developed.

An automotive safety project currently under way at Cheektowaga is studying the effectiveness of highway guard rails.

An engineer working on this project explains that most guard rails succeed in preventing an uncontrolled automobile from careening off the road into a ditch or an oncoming line of traffic, "but they often succeed too well. They usually

Controlled crash test a guard rail.

stop an automobile with all the subtlety of a brick wall."

To determine the safest type of guard rails for highways and bridges CAL engineers have been conducting a series of crash tests under sponsorship of the New York State Department of Public Works and the US Bureau of Roads.

Radio-controlled automobiles are driven into standard guard rails at varying speeds and angles of impact. Cameras and other instrumentation record the effects of the crashes. Analysis of the data is providing information that will enable highway engineers to develop effective, but less hazardous, guard rail systems.

SST and rubber airplanes

Although projects in transportation research now include all vehicles, regard-

less of the environment or medium in which they operate, CAL has maintained its original interest in conventional aircraft. One study in this area is an investigation of the top priority Supersonic Transport (SST) concept for the Federal Aviation Authority.

The SST investigations employ one of the unique variable-stability airplanes developed at CAL. These aircraft, nicknamed "rubber" airplanes, are outfitted with computers and special control linkages so that they can be made to give the pilot the feeling he is flying a completely different aircraft—or one still on the designer's drawing board. One of the airplanes is a T-33 jet trainer. Although it cannot exceed the speed of sound, the T-33 can be set up to simulate the handling characteristics of a supersonic fighter flying at more than twice the speed of sound.

Another of CAL's rubber airplanes, a World War II B-26, is simulating the final landing approach of several SST designs. Results of these tests will assist the FAA in selecting the design for an SST aircraft that will be built in the US, aided by government subsidy.

Breaking a barrier

CAL's pioneering has also resulted in a broad program of research in advanced electronics.

A typical project began in the 1950s when Lab scientists decided to ignore a widely accepted theory that radar signals of more than one megawatt (1,000,000 watts) power could not be generated and beamed into the atmosphere. Reasoning that more powerful radar signals would increase the range and target discrimination ability of missile detection systems, they embarked on a high-peak-power radar research effort. Within two years they had developed experimental equipment capable of radiating radar signals of up to twenty megawatts of power. An improved high-power radar has approached fifty-megawatt signals. More recently, CAL studies have produced a new design capable of radiating 1,000 megawatts.

Red ink and rumblings

The Aero Lab's value to Cornell was not always widely recognized.

When the university decided to take a chance and assume responsibility for what had been an industrial research organization filling a wartime requirement there were many loud voices of dissent heard on the Ithaca campus.

A faculty member recalls, "Many of

us feared the Laboratory would be a serious financial drain on the university at a time when Cornell's resources were already being stretched considerably."

During its first few years CAL did, in fact, require financial assistance in the form of a \$400,000 loan from the university for working capital, and the rumblings of discontent grew louder in Ithaca.

In 1948, however, CAL was set up as an independent corporation with the university holding all stock. Theodore P. Wright, who had joined the university staff that year as vice president for research, was elected chairman of the CAL Board of Directors.

The board, which has always included several representatives of the Cornell faculty and trustees and has been headed by university President Perkins since Wright retired last fall, sets broad policy for the Aero Lab. Actual operations are the responsibility of the CAL officers elected by the board. The officers are headed by President Ross.

At the time of its incorporation the Laboratory repaid the loan to the university in full with interest. It has become completely self-supporting and has also contributed to the university's academic program by sponsoring professorships and fellowships on the Ithaca campus.

Pattern for the future

The aero Lab's value to the university as an instrument for public service came in for high praise recently from Franklin A. Long, the new vice president for research and advanced studies.

Long said that because of continuously increasing requests for outside assistance, particularly in the fields of the social sciences and international affairs, "a question worth raising is whether or not CAL is the only 'auxiliary laboratory' needed by the University."

Pointing out that the Laboratory's research program "if directed at the Ithaca campus, would have seriously hampered the effectiveness of teaching and basic research in engineering and the sciences," Long indicated similar reasons might eventually lead to the establishment of additional independent research organizations patterned after CAL.

Thus a gamble that has stamped the Cornell name on many significant research innovations may also have established an organizational pattern for the university in providing public service in other fields of importance to the nation and to the world.

The Lab's end product—final reports—are kept under tight security; most are classified. This vault contains more than 4,000 such reports, covering all projects completed at CAL since it became part of Cornell.

The Cost of Educating

Students and student aid bear the brunt of new increases

■ President Perkins has fought his first "battle of the budget" and come off with a record-high year's projection for 1964-65. The all-university expenses for next year are estimated at more than \$124,000,000, an increase of nearly \$14,000,000 over the present year's budget. Cornell continues to grow, and in all directions.

To meet the new needs, student tuition in the non-state schools will increase next fall by \$100 per year, and heavy reliance put upon the Centennial Campaign to swell the university's income from endowment.

The largest new demands for money next year result from the sweeping across-the-board raises in faculty pay that went into effect this year, and for student financial aid to offset the hike in tuition.

Something like a quarter of a million dollars will go into new positions in the College of Arts and Sciences, which provides 52 per cent of the instruction on the Hill but has considerably less than half the teachers. Book acquisitions and library staff account for another \$300,000 of the added needs in the endowed colleges at Ithaca.

In the overall budget, half of the growth has come in the endowed colleges at Ithaca, and more than two million dollars each in the Medical and Nursing schools, and in the state-supported units at Ithaca. Growth of Cornell Aeronautical Laboratory and the Campus Store, two wholly owned subsidiaries, accounts for the remainder.

To balance this budget, Cornell expects to draw on \$1,375,000 of reserves left from the surpluses of recent years. Student enrollment for the coming year has been frozen at the present level, until the new administration can be certain just what fields of study to concentrate on for growth.

Most immediately affected by the new budget is the student. Tuition and fees in the endowed, or non-state, colleges will go from \$1,700 annually to \$1,800. Cornell has been near the top of the list in this regard for a good number of years, but will have more company among its competitors in the Ivy League next fall. Brown, Dartmouth, and Yale will all be at \$1,800, and no Ivy school will be charging less than \$1,725.

In terms of the minimum total cost of a year of schooling in the endowed colleges at Ithaca, next year's increase will bring the total for Cornell to roughly \$3,350 for freshmen. Only MIT among comparable eastern institutions has been as expensive. MIT will go ahead of Cornell next fall by about \$150, and the other Ivies will move up closer to Cornell in student costs. The spread this year was about \$200 between the rest of the Ivy group and Cornell, but tuition increases of as much as \$250 at other schools have narrowed the gap for next year.

These figures are based on tuition and fees, room and board, books, and a small personal allowance. The Ivies and MIT get together each year at what is called a "compare" meeting, and work from a schedule of annual student costs for each campus.

For any prospective freshman who is applying for student aid at two or more of the participating schools, a determination is made of his financial status. The schools then decide on the amount of financial help he will need, and agree not to offer any more than that.

Financial aid "packages" usually include a job, a loan, and a scholarship which together total the amount required by the student.

The "compare" system is intended to

eliminate dollar competition for students sought by several schools. Yale, Harvard, and Princeton are felt to be able to offer the required aid for nearly every student they agree to admit. Cornell, and the others to a lesser extent, do not have enough in their budgets for aid to cover all students who are admitted and have need.

Thus for the most promising applicants each year, all schools are able to offer financial aid on an equal basis. But for those with less promise, a school such as Cornell is unable to offer aid on a par with the better-endowed schools.

Faculty and Staff

Arthur A. Allen '08 (AM '08, PhD '11), professor emeritus of ornithology and honorary director of the Laboratory of Ornithology in Sapsucker Woods, died of a heart attack on Jan. 17, 1964. A member of the faculty for forty-six years, he had devoted his life to the study of birds and made a number of expeditions into little-known parts of the New World in search of rare birds. In the mountains of Colombia, South America, he discovered more than fifteen species and varieties new to science, and in connection with studies of birds from Mexico and Alaska, he made the largest existing collection of photographs of birds of North America. He was also head of a team which has preserved songs and sounds of birds in all parts of the world for record albums. He is survived by his wife, Elsa Guerdrum '12; two brothers, Howard B. '14 and William D. '06; two sons, David G. '49 and Glen O. '41; and three daughters, Mrs. John Carver (Constance) '39, Mrs. E. Bissell Travis (Phebe) '42, and Prudence '48.

Professor **Alfred T. Anderson**, geology, died Jan. 27, 1964, in Robert Packer Hospital, Sayre, Pennsylvania. Before joining the faculty in 1939, he was with the geology department of the University of Idaho. For many summers he studied problems of Idaho geology for the Idaho Bureau of Mines & Geology and the US Geological Survey, and his findings led to disclosure of the largest cobalt reserves in the country.

Mrs. **Mary Geisler Phillips**, emeritus professor, Home Economics, died Jan. 25, 1964 after a short illness. Widow of the late **Everett F. Phillips**, professor of Agriculture, she was the author of numerous books for children and articles in leading magazines. She was an editorial assistant for the Extension Teaching and Information Department from 1931-1940, when she became assistant editor. In 1945 she became editor and associate professor, retiring in 1949.

Joseph D. Minogue '45 became director of development for Fordham University on March 1. Formerly associate director of development at Cornell, he first joined the office of university development as project director in 1950, and in 1953 became assistant to the executive secretary of the Alumni Fund.

Cornell Log

A calendar of doings on and off campus

Tuesday, March 3

- Ithaca: George Fisher Baker Lectureship in Chemistry, Prof. H. C. Longuet-Higgins, University Chemical Laboratory, Cambridge University, England, "The Electronic Structure of Molecules," Main Lecture Room, Baker Laboratory, 11, (continues each Tuesday and Thursday through April 23)
- White Art Museum, "Arts of Africa" (AFA) through March 12; Shakespeare Festival exhibition, through March 30
- Concert, John Kirkpatrick, pianist, Statler Auditorium, 4
- Freshman and varsity swimming, Syracuse, Teagle Hall, 6, 8
- Concert, Vienna Symphony Orchestra, Bailey Hall, 8:15

Wednesday, March 4

- Ithaca: Poetry Reading, Willard Straight Memorial Room, 8:15
- Basketball, Columbia, Barton Hall, 8:15

Thursday, March 5

- Ithaca: Biology Colloquium lecture, Prof. S. Spiegelman, University of Illinois, Ives Hall, 120, 8:15
- Lecture, Prof. Mary C. Wright, history, Yale University, "The Origins of the Revolution," first in a series of four lectures entitled, "The Communist Transformation of China," Statler Auditorium, 8:15
- Fort Lauderdale, Fla.: J. L. Zwingle, PhD '42, university vice president, Cornell Club of Broward County, dinner, Holiday Inn, 6:30

Friday, March 6

- Ithaca: Lecture, Edward Bennett Williams, attorney, Moot Court Room, 8:15

Saturday, March 7

- Ithaca: Swimming, Dartmouth, Teagle Hall, 2
- Freshman hockey, Princeton, Lynah Hall, 4
- Varsity hockey, Dartmouth, Lynah Hall, 8:15
- Polo, Cornell coaches, Riding Hall, 8:15
- Hanover: Squash Intercollegiates
- New York: Track, IC4A
- Philadelphia: Fencing, Pennsylvania, 2
- Princeton, Freshman and varsity wrestling, Princeton, 2, 4

Sunday, March 8

- Ithaca: Sage Chapel preacher, Alexander Schemann, dean, St. Vladimir's Orthodox Theological Seminary, 11
- Concert, John Hsu, viola de gamba, Barnes Hall, 4

Monday, March 9

- Ithaca: Informal concert, A Program of Elizabethan Poetry and Music, Barnes Hall, 4:30
- 1894 Memorial Debate for juniors and seniors, Lincoln 204, 8

- Lecture, Prof. Franz Schurmann, sociology and history, University of California, "Mechanisms of Social Control," second in series of four lectures entitled, "The Communist Transformation of China," Statler Auditorium, 8:15

Wednesday, March 11

- Ithaca: Lecture-demonstration, Prof. Donald Grout, music, "Shakespeare in Music," Willard Straight Memorial Room, 4:30
- Lecture, Robert E. Kettner, director of nuclear activities, Consumers Power Co., Jackson, Mich., "Computer Control of Nuclear Power Plants," Phillips Hall 219, 8

Thursday, March 12

- Ithaca: Lecture, Ralph Gomory, IBM Research Center, "Network Models of Traffic Flow," Hollister Hall auditorium, 4:30

- Lecture, Ted Velez, executive board, Community Council on Housing, New York, "Harlem, Shame of New York: the Rent Strikes," Ives 110, 8

- Dramatic Club presents "Romeo and Juliet" by Shakespeare, Willard Straight Theater, 8:15

- Lecture, Prof. John C. Pelzel, anthropology, Harvard University, "The Reorganization of Society," third in series of four lectures entitled, "The Communist Transformation of China," Statler Auditorium, 8:15

- Hanover: Swimming Intercollegiates, through March 14

Friday, March 13

- Ithaca: Lecture, Prof. Frank W. Walbank, ancient history and classical archaeology, University of Liverpool, "Polybius and the Roman Constitution," Olin M, 4:15
- "Romeo and Juliet" repeats
- Lancaster, Pa.: Wrestling Intercollegiates, through March 14
- Annapolis: Fencing Intercollegiates, through March 14

Saturday, March 14

- Ithaca: White Art Museum, Paintings by Allen Atwell, through April 16, reception for the artist, 8:30
- "Romeo and Juliet" repeats
- Military Ball, Statler Ballroom, 9
- New York: Polo Intercollegiates

Sunday, March 15

- Ithaca: Sage Chapel preacher, the Rev. Harold J. Ockenga, Park Street Church, Boston, 11
- Concert, Cornell Symphony Orchestra, Chorus, and Glee Club, Bailey Hall, 4
- "Romeo and Juliet" repeats

Monday, March 16

- Ithaca: Lecture, Prof. Doak Barnett, government, Columbia University, "Impact on the Outside World," last in series of four lectures entitled, "The Communist Transformation of China," Statler Auditorium, 8:15

Tuesday, March 17

- Ithaca: Symposium on Shakespearean festival production: Joseph Papp, Thomas Patterson, William Ball, and Bernard Beckerman, Willard Straight Theater, 3:30
- Concert, Quartetto Italiano, Statler Auditorium, 8:15

Wednesday, March 18

- Ithaca: Lecture, Prof. C. L. Barber, English, Indiana University, "Marlowe and Shakespeare: A Contrast in Creative Temperaments," Willard Straight Theater, 8:15
- Jazz concert, Charlie Mingus, Bailey Hall, 8:15

Thursday, March 19

- Ithaca: Biology Colloquium lecture, Ives Hall, 120, 8:15
- Materials Science Center lecture, Prof. Edwin W. Mueller, physics, Pennsylvania State University, "Observations of the Atomic Structure of Metals by Field Ion Microscopy," Olin M, 8:15

Friday, March 20

- Ithaca: Field of biochemistry seminar, Prof. Nathan Kaplan, biochemistry, Brandeis University, "Enzyme Structure and Evolution," Savage 100, 4:30
- Cornell Skating Club Ice Show, Lynah Hall, 8
- "Romeo and Juliet" repeats

Saturday, March 21

- Ithaca: Cornell Skating Club Ice Show repeats
- "Romeo and Juliet" repeats
- Cornell Folk Song Club concert, Earl Scruggs and Lester Flatt, and the Foggy Mountain Boys, Bailey Hall, 8:15
- Polo, Tulsa Polo Club, Riding Hall, 8:15
- Exhibition, Aquatic Arts Festival, International Academy of Aquatic Arts, Newman Hall, 8

Sunday, March 22

- Ithaca: Sage Chapel preacher, Paul Hoon, Union Theological Seminary, New York, 11
- Concert, Cornell Concert Band and New York Brass Quintet, Bailey Hall, 4
- "Romeo and Juliet" repeats
- Dance concert, Pearl Lang and Dance Company, Statler Auditorium, 8:15

Wednesday, March 25

- Ithaca: Cornell Agricultural Leaders' Forum, Statler Auditorium
- Frederic J. Whiton lecture, Prof. Leo Strauss, political science, University of Chicago, "The Three Waves of Modernity: Machiavelli, Rousseau, Nietzsche," Ives 120, 4:15

Thursday, March 26

- Ithaca: NCAA wrestling championships, through March 28, Barton Hall
- Lecture, Prof. George H. Weiss, University of Maryland, "Stochastic Models of Traffic Flow," Hollister Hall, 4:30
- New Haven: NCAA swimming championships, through March 28

Saturday, March 28

- Ithaca: Spring recess begins

Monday, March 30

- Ithaca: High School Natural Science Program, through April 3

Monday, April 6

- Ithaca: Instruction resumes

Title Hopes Dim

With key games remaining, only wrestling seems likely

BY 'THE SIDELINER'

■ As the conclusion of the winter sports season approached the chances were slipping away for Ivy championships in just about everything except wrestling, the durable perennial. The two losses to Yale were ruinous to the basketball chances; a tie with Brown in hockey on home ice diminished the chance at that title. Fencing and track were still slimly hopeful. Swimming was not visionary enough to have held any hopes anyway. Nor was squash—but the squash team hit a historic new high in defeating Yale and achieving two league triumphs in a row, the second against Penn, for another illustrious first. Another near-perennial, polo, is having one of its few down years.

Red Five in Contention

After leading or sharing the league lead all season the basketball team moved back to fourth place with five games to go. Two losses to Yale, at home and away, were the critical blows.

The game with the Elis at Barton Hall on February 7 was one of the poorer performances of the year. It ended 79-67 for Yale. The usual Red speed and coordination were missing. Yale star Rick Kaminsky led the scoring with 21; and David Schumacher, of the Cornell family of Schumachers, had 16. For Cornell Robert L. DeLuca '66 had 14 and James A. Maglisceau '65 and Robert A. McCready '66, 12 each.

At New Haven a week later, the Cornellians made it closer but could not pull off a win. The score was 87-79. Kaminsky was high with 35. For Cornell, Maglisceau and Robert N. Berube '66 each had 12; D. Garry Munson '66 and

DeLuca had 11; and David G. Bliss '65 made 10.

Although losing to Yale twice, the Cornellians beat Brown twice, on February 8, at Ithaca, 84-68, and at Providence, February 14, 97-77. And in two non-league games the Red fattened their overall average by defeating Springfield at Ithaca, 96-79, and Colgate at Hamilton, 98-92.

Season's record stood at 12-7, 6-3 Ivy and presently behind Yale, Princeton, and Penn in the standing.

Five players are in double figures for the year: Stephen J. Cram '66, 11.8; Captain Raymond W. Ratkowski '64, 11.3; McCready, 11.2; Maglisceau, 10.6; Marvin E. Van Leeuwen '65, 10.3. Berube has 8.3; Munson, 7.4; DeLuca, 6.8; Bliss, 4.9.

Sextet Likes the Road

It is axiomatic in most sports that the home team has a 15-20 per cent advantage, particularly in the spectator sports. The Cornell hockey team does not figure it that way. The team is 11-7-1 for the season so far but only two games have been lost out of town.

RPI beat the Red at Ithaca 8-0, on December 18 and on January 2 the Red beat RPI, 5-3, on their own ice. Harvard won 4-3 in Ithaca in a blinger of a game on January 11 and the Red retaliated at Cambridge on February 5, 2-1.

The Harvard game took place just after mid-year finals and was featured by a spectacular performance by Goalie Errol D. McKibbon, a sophomore who has made vast improvement since last season. Goal was expected to be the weak position, particularly notable because of

the loss of Laing E. Kennedy '63, who made such a name for himself in the exciting resurgence of hockey during the past three years. But at present McKibbon is following nicely in Kennedy's tradition. His 2.4-goal average given up in nineteen games is one of the best in the East.

It must be said that Coach Ned Harkness' defensive style of play takes the pressure off a goalie. The Cornell back-checking was the most effective weapon in defeating Harvard. It was the first home-ice defeat for Harvard in twenty-two games.

Jerry J. Kostandoff '64 and Ronald H. Lampman '66 got Cornell off to a blazing start with goals in the first period. Harvard's John Stevens made one in the second period and the third was a hair-raising affair with Harvard banging away and Cornell trying to preserve its slim margin. McKibbon deflected thirty-three Crimson shots, sixteen of them in the last period.

Three days later the Cornellians had another close victory, over Yale at New Haven, 4-3. It took a late Big Red raid to pull this one out. It was a rough game. There were fifteen penalties, including a ten-minute misconduct violation against a Yale player. James R. Stevens '64 received a painful kidney injury which laid him up for ten days.

Charles H. Luther '64 led the Red attack with two goals and it was his twenty-foot slap shot at 12:30 of the third period that pulled it out for Cornell. Murray E. Stephen '66 and Kostandoff got the other Cornell goals.

There was a full house of 2,500 partisan Yalies on hand to create a deafening din.

Hamilton was a relatively easy 6-2 victim at Lynah Rink on February 12, a team which bothered the Red only at one brief juncture in the second period.

The Hamilton goalie, Fred Marks, was quite superb. He stopped fifty-two shots. McKibbon had an easy night, stopping only ten.

An overtime tie game with Brown on February 15 at Lynah Rink brought out an overflow crowd of 4,600. The Red skaters got off to a fast start and Brown was lucky to be in a 1-1 deadlock at the end of the first period; and it was about equitable for the score to be 2-1 favor of Cornell at the end of the second period, but it was McKibbon's fine goal tending that kept it from going to Brown in the third period and in the overtime period. He made forty-two saves, twenty-two of them in the regular third period and in the ten-minute extra session.

JUNIOR VARSITY POLO

Pittsfield PC 18, Cornell 11

Cornell seemingly went on the defensive in the third period to save its lead and when Brown's Leon Bryant made a brilliant solo dash down-ice for the tying goal the Red men could not seem to bring their momentum up to be an offensive threat. Only Captain Stephen H. Poole '64 could seem to get an offensive spark going.

The first Brown goal was a fluke. Defenseman William Oliver '64, moved in front of goalie McKibbin to stop a dying puck—which had been merely deflected goalward—and as he reached for it with his glove it hopped over for the score.

Murray Stephen got one back quickly and came back in the second period with another for both Red counters.

Brown took seventy-four shots to Cornell's sixty-seven.

Cornell now stands third in the league with a 4-2-1 record. Dartmouth leads with 5-1; Brown is second with 4-1-1; Harvard is fourth with 3-3; Princeton is fifth with 1-4; Yale is 0-6.

The undefeated freshman team defeated Colgate on January 25, 9-0; clob-

bered Hamilton on February 12, 21-4; tied St. Mary's of Canada, 5-5. All were at Lynah Rink. It is now 6-0-1 for the Red freshmen.

Wrestlers Strong in Ivy

Continuing a pattern, the Red wrestlers are losing to the powers and clobbering all others. Pitt won 21-6 at Pittsburgh on February 5. Three days later the Red whitewashed Brown, 39-0, at Ithaca's Barton Hall. Colgate was victimized, 33-5, on Friday, February 14, also at Barton.

The record is 4-3-1 and 3-0 in the league. The Red has won sixteen straight in the league.

Outstanding performers are Geoffrey B. Stephens '66, 167 pounds, from Chenango Forks (6-2); Michael Wittenberg '64, 191 pounds, of Bronx (3-1-1); Neal L. Orr '65, 137 pounds, of Greene (3-1); Warren W. Crow '66, of Schenectady, 130 pounds (5-2); Francis J. Ferraro '66, of Chenango Forks, 177 pounds, (5-2); Joseph E. Bruchac '64, heavyweight, of Greenfield Center (2-1).

Fencers Split

A closely fought loss to Princeton at Teagle Hall, 15-12, on February 8 and a win over Yale, 19-8, at New Haven on February 15 were the rewards of the varsity fencing team since the second term started.

The Red men won the saber over Princeton, 6-3. Peter E. Castro '64, Lawrence B. Lombard '65, and Richard W. Weiss '66 won two bouts each, losing but one. Foil and epee were won by the Tigers, 6-3.

In the Yale meet the epee men came through in fine style, winning 8-1. Co-Captain Arthur V. Peterson '64 and Allen S. Weinrub '65 won all of their bouts. In the foil Cornell won 6-3. Ronald H. Schwartz '65 won all his bouts. Yale won saber 5-4.

The fencers are now 4-1 season, 1-1 in the league.

Squash at New Heights

Squash team is riding high. In the eight years of league competition the team has never scored a point on Yale and has never been able to put two league victories together.

It defeated Yale on the Grumman Courts on February 8, 6-3, and defeated Penn at Grumman on February 15, 5-4.

Coach Eddie Moylan and his boys are now 5-2 for the season, 2-1 in the Ivy League.

In the Yale match the well conditioned Red lost the first two bouts and in the Penn match, the first three. The Cornell team lines up in this order: William J. Taylor '64, Captain James H. Cohen '64, Paul S. Fein '66, Peter J. Kortman '64, Robert F. Merrill '64, Craig J. Somers '64, Michael L. Kay '64, Peter A. Marx '65, and Charles R. Henderson '64. As can be seen these men are mostly seniors.

A Track Win over Yale

Yale was walloped, 62-47, by the Cornell varsity track team on February 15 in Barton Hall before a crowd of less than 1,000. It was the first win since 1958 for the Red who now trail 16-15 in the series.

Yale's Wendell Mottley of Trinidad was the star for the losers. He won the 600 over Cornell's Ronald J. Madaras '64 in 1:11.4; and won the broad jump and ran the anchor leg on the winning Eli mile relay team. Yale did little else. Madaras gave Mottley a good race but was beaten by about six yards. Mottley holds the world's indoor record for the 440 (48.0); the 500 (55.5) and has run 1:09.4 in the 600, only one-tenth off the world record. Captain Francis H. Smith '64 did not compete. He was unable to shake scholastic probation and his Cornell career is over. He was 1,000-yard Heptagonal Games champion.

Thomas Gage '65 won the 35 pound weight throw with a heave of 56 feet 6¾ and was second to Chuck Mercein of Yale in the shot put with 54 feet 3¾. Mercein's throw was 54 feet 10. David Hall '66, Al's brother, was second in the 35 pound weight throw with 54 feet ½ inch.

James Byard '64 won the mile (4:31.4); the two mile (9:41.6) and ran anchor on the two mile relay team which lost to Yale in 8:26.8.

The Cornellians lost to Army at West Point on February 8, 71-38. Highlight for Cornell was Madaras's 1:09.8 in winning the 600, a new Cornell record and the sixth fastest 600 ever run.

'Wood Day'

Gary Wood's home town of Cortland put on a testimonial dinner for him on February 9 at Neubig Hall on the Cortland State Teachers campus. There were 385 persons there, including about fifty people from Ithaca and some of Gary's

Cornell teammates. Kyle Rote, until recently assistant coach of the New York Giants, was the main speaker. Coach Tom Harp and Athletic Director Robert J. Kane '34 also spoke, and a letter from President Perkins was read.

Gary expressed gratitude to his teachers and coaches at Cortland High "for their patience" with him and particularly to his mother and sister, who were present, for "sacrificing themselves" to help him. He said he was glad he chose Cornell University. "Cornell is a great school. I am grateful for all it has given me. I would recommend it to any young man." He spoke glowingly of his fellow players and his Cornell coaches.

Polomen Led by Mountan

With a month to go before the Intercollegiate, the varsity polo team went one-down in its series with perennial title-challenger Yale. Cornell lost, 14-10, at New Haven, to bring the year's record to 1-2.

The other two games played by the Big Red since the between-terms recess resulted in wins, against Chukker Valley Polo Club, 24-8, and Georgetown University, 27-8. Georgetown had licked Cornell, 7-0, in what the record books show as a pre-season scrimmage. R. Terry Young Jr. '64 ran up ten goals for Cornell.

Through the Georgetown match, Paul C. Mountan '64 led the team's scoring, with sixty-two goals. Other leaders were: Jan H. Suwinski '63, a fifth-year engineer, 32; Charles W. Bachman '65, 28; Young, 20; and Kevin J. Freeman '64, 14.

The team's regular-season record is now 6-5.

Sailors on Top

The varsity sailing team has won the Middle Atlantic States Intercollegiate Sailing Association Hi-point Team Trophy for 1962-63. Announcement came last month. Daniel D. (Niel) Thomas '64, last year's team captain and MAISA singlehanded champion, accepted the trophy at the association's annual meeting at Stevens Institute.

All regattas sailed by Cornell last year counted in the scoring. Of these, the most notable results were winning the Columbus Star Trophy at Ohio State, and a second-place in the Ivy League championship.

Thomas and Eric L. Aschaffenburg '64 were Cornell's main skippers, with David O. Coy '65 the crew.

The Alumni Write

Of Africa, organs, wrestling, and the White House

Africa: It Is Safer

■ EDITOR: In the December issue, Barbara Lipton '60 writes "many instances are known where white persons traveling through Africa, with a camera, have been attacked, beaten, or worse for taking tactless photographs." She writes "[Steven Koli's] conclusion that 'anyone could travel more easily and safely through a jungle than through Alabama' is generally not true." Can Mrs. Lipton cite specific "instances"? Has she had a personal experience in Africa? Probably not.

For the past sixteen months I have been teaching in a Ghanaian secondary school. In addition to many short trips around Ghana, I have spent about twelve weeks on four long vacation trips. I have traveled by mammy lorry, bus, third class train, and deck passage on Niger River boats and Congo River barge. I have traveled as far north as Timbuktu and as far south as Angola (where I was refused entry by Portuguese border guards).

I use a large, noisy, conspicuous and suspicion-arousing camera. Most of my best pictures are head and shoulder closeups, some taken at three or four feet. Many of my pictures could be called "tactless" by Africans too-sensitive about swish buildings and open sewers. The chief of police in Gao (Mali) told me not to take any pictures of naked women. A woman in Brazzaville refused to let me photograph her little girl (she wanted 100 francs). These are the only "incidents" I have had in some 10,000 miles of African photography.

So much for Mrs. Lipton's statement about picture-takers. About her more general statement that it is "not generally true" that it is safer to travel through a jungle than through Alabama: If the dangers Mrs. Lipton sees in African "jungles" are cobras and tropical fevers, she is probably correct. But if she means safety among "the natives," I think she could not be more wrong.

This summer I traveled from Calabar (E. Nigeria) to Douala (Camerouns) along a road passing through the hills north of Mt. Cameroun. A Camerounian gendarme warned me not to travel at night, lest I be "sold for meat in Bangui." But he was from the French-speaking East Camerouns, and I am sure he imagined the English-speaking

West Camerounians to be much more "bush" than they really were.

This is the only threat of violence I have heard in Africa. I have heard far more plausible threats on the corner of State and Cayuga Streets. —MELVIN W. SIEGEL '62

The Fine Old Organ

EDITOR: On page 4 of the ALUMNI NEWS for February 1964 there is a picture of Leonard Quarles at the console of the original Bailey Hall organ. Mr. Quarles' first name, however, was not Leonard but James.

What he thought of that organ I never knew, but I do know that for the first year or two after it was installed, he had good reason to detest it; for I well remember recital after recital which he attempted to give on it coming to a sudden end, especially in transcriptions of Wagner's music, when a sixteen-foot pipe began to sound like a great deafening fog-horn and would not be silenced. —WALTER MACKELLAR '18

Boak on Boak

EMERSON HINCHLIFF: Your piece on the wrestling dinner and the wrestling scene as a whole at Cornell is a fine piece of work. I wish that I could have made it.

I suppose there is no point in trying to straighten out or maybe bring nearer to the truth, Walt O'Connell's fine story about the freshman who started to wrestle in the winter of 1910-11 [i.e., Boak]. That story is part and parcel of the myth of Cornell wrestling. I am sure that no one who knows me well would believe for long that I "had to be continually encouraged at first to stay out," for a sport with the personal competition of wrestling.

The truth is: I was probably the most nondescript frosh who ever entered Cornell. I was also working for my board and room. I did not rate very high on appearance or promise. When I told some of the boys at the boarding house that I was trying to learn something about wrestling, they laughed at me. Yes, a good horse laugh. Sometime later I related the kidding I was getting to Walt. I had no idea of quitting and did not suggest nor imply as much. However, it is true that he did tell me that if I worked, I might be-

come an intercollegiate champion. He was right.

What the boys at the boarding house did not know was that I packed a lot of muscle in my small body. I had been doing a man's work on a New York State farm since I was 11. I was 20 then. I had, for my weight, powerful arms and a strong grip. On the latter, it was known by the Wrestling Room hangers-on (Louis Wollheim and H. Galajickian were the most steady ones) that no one "ever broke one of Boak's wristlocks" unless he wanted to let go. So I feel that I was not quite the timid weakling that one might assume from the legend.

—THOMAS I. S. BOAK '14

Further Correction

EDITOR: You were kind to publish, in the December 1963 issue, the fact that, at long last, I was named professor of landscape architecture, emeritus, by the Board of Trustees. Inasmuch as the statements that you made concerning me may go into the archives of the University, with a copy of this number of the NEWS, I wish to correct at least one of them.

It is stated that I "was dismissed by President Truman, in a controversy over building a White House balcony," from membership and the chairmanship of the National Commission of Fine Arts. That statement is incorrect for no member has ever been dismissed from the commission in the more than half a century since its establishment in 1910.

In a letter to Mr. Truman, dated November 26, 1947, the commission indicated that they were unanimously opposed to the erection of a balcony on the White House; the letter was acknowledged by the President in an astonishing communication, dated December 2, 1947, the original of which is in the Cornell University Library, together with related correspondence and memoranda. This material I gave to the university at the request of President Day to aid in completing a collection of presidential letters that had been presented to the Library.

I should add that the members of the Commission of Fine Arts serve without pay for terms of four years preferably—as stated in the act creating the Commission—for overlapping terms and until their successors are appointed. Mr. Truman waited until the terms of six out of seven members expired; then he appointed, on July 1, 1950, six gentlemen of his own choice. The only way a member of the Commission of Fine Arts may be "dismissed" is to have charges brought against him; that has never been done.

I wish also to correct your statement concerning the length of my service on the Commission of Fine Arts. I was appointed by President Hoover early in 1932 and served continuously until June 30, 1950; for thirteen, of the more than eighteen years, I was the chairman of the commission.

I should also like to correct my eldest daughter's name; it is Mrs. Peter Tower, not Rower.

"Al" Smith has many times been quoted as saying, "Let's look at the record." When and if my record is ever looked at I should, very naturally, prefer to have it correct.

—GILMORE D. CLARKE

Notes from the Classes

The latest word from alumni, old and new

Addresses in the following columns are in New York State unless otherwise noted. Personal items, newspaper clippings, or other notes about Cornellians are welcomed for publication. Class columns are written by correspondents whose names appear.

■ '72 MS, '86 LLD (Hon.)—Despite the passage of more than 40 years since their original publication, two monumental works by the late **David Starr Jordan** on the classification of fishes remain so indispensable to ichthyologists that they have been reissued by Stanford University Press (*The Genera of Fishes* and *A Classification of Fishes*).

'96 ME—**Henry O. Pound**, consulting engineer, of 56A Westervelt Ave., Tenafly, N.J., was recently honored by the Bergen County Planning Board for his long service to the county. The board's first chairman, he has been a member since its inception in 1935.

'01 **Chauncey T. Edgerton**
1001 Celeron Ave.
Pittsburgh 16, Pa.

Judging by the number of responses to that memory quiz in the December issue of the *ALUMNI NEWS* (exactly none to date), 1901 memories are none too good. But perhaps a few classmates will recollect one of our number who, in junior and senior years, used to careen around the campus on a motor bicycle, a curiosity in those days. It was called a "motoret," and the chauffeur thereof, if you still don't remember, was our own **Walter Janney**.

Walter worked for the concern that made these motoretts, and your reporter thought there might be a story to be had about life in the auto business in those early days. But it seems the connection was short-lived, so no story there. However, Walter has had a varied and colorful career. It included 10 years milling gold and silver ores in the western deserts, then farming for five years, and finally running his own company, the **Janney Cylinder Co.**, exploiting a centrifugal casting process of his own invention.

But it is apparent from the letter he wrote me that Walter's real love is lawn bowling. This, he says, "does not take much exertion, but does require considerable skill." And he extended a warm invitation to your reporter to come to Florida and join in the fun. I feel sure that he will gladly amplify the invitation to include all classmates. His recipe for happiness, "If

you want to live the life of Reilly, come to Clearwater and join the Lawn Bowling Club, where you are always welcome, and have sociability, pleasure, excitement, exercise, and a good all-around time."

Clearwater should be very proud of its loyal citizen and booster, **Walter Janney '01**.

'02 MD—**Dr. James K. Quigley**, Box 742, Lake Worth, Fla., retired in 1954, and writes, "After year 83 there is not much exciting to relate."

'04 AB, PhD '07—A part-time resident of Ithaca for nearly half a century, **Elsie Murray**, 315 S. Albany St., writes: "1904 is still going strong!" Formerly a professor of psychology at Wilson, Sweet Briar, and Wells, Miss Murray is a research associate in psychology at Cornell, with special interest in the unrecognized educational problems of deviate color vision.

'04 LLB—The White Plains Bar Association annual Christmas party was also a belated birthday celebration honoring former Supreme Court Justice **William F. Bleakley** who was 80 years old in November. Judge Bleakley, who has also been Yonkers city judge, county judge, candidate for governor, and Westchester's first county executive, is senior partner in the White Plains law firm of Bleakley, Hart & Fritz.

'06 AB, '07 AM—**Rev. Frank B. Crandall**, 29 Winter Island Rd., Salem, Mass., has been elected to the Order of the Golden Owl as a member of Phi Gamma Delta for 50 years and received a citation from the governing board.

'06 AB, '07 AM—**Rev. Frank B. Crandall**, retired clergyman and Army Chaplain of 29 Winter Island Rd., Salem, Mass., and **Richard J. Fenton '65** were co-authors of the article, "Cornell's 75th," the story of 75 years of Phi Gamma Delta at Cornell, as related in *The Phi Gamma* for October.

'06 AB, '10 PhD—**J. Chester Bradley**, Cornell professor of entomology, emeritus, was entertained at luncheon in Rotterdam given by the officers of the Entomological Society of the Netherlands. The occasion was to welcome Professor Bradley into honorary membership in that society. He is the only American to hold this distinction.

'07 ME—**J. M. Fried**, 2512 Cherry St., Vicksburg, Miss., who has been listed for the past several years in *Who's Who in the South and Southwest*, is now also listed in the *Dictionary of International Biography* published in London.

'09 ME—**H. Edmund Bullis**, retired Army colonel and pioneer in mental health, was awarded the 1964 Josiah Marvel Cup of the Delaware State Chamber of Commerce

in recognition of his volunteer work in retirement. He heads the Delaware chapter of Americans for the Competitive Enterprise System, Inc.

'09 ME—**A. C. Amsler** of 6524 Bartlett St., Pittsburgh, Pa., has been retired since 1950. Son **David C. '36** is president of Pass & Seymour, Syracuse. Son **Frederick D. '41** is purchasing agent (mechanical) for Aluminum Co. of America, Pittsburgh.

'10 **Men: Waldemar H. Fries**
86 Cushing St.
Providence 6, R.I.

Your correspondent thought it might be helpful if he tried to learn something about the job of class correspondent by attending the annual mid-winter meeting for class officers held on Jan. 11 at the Roosevelt Hotel in New York. It certainly was an inspiration to join with the many other alumni at the various meetings devoted to class activities, *ALUMNI NEWS*, Reunion plans, etc., and witness the efforts of such a loyal group in their effort to further the interests of their Alma Mater. It was, in addition, a pleasure to find that the president of the Cornell Association of Class Secretaries, **Robert L. Bartholomew '41**, was the son of **Walter L. Bartholomew**. Then, sitting next to your correspondent at lunch was **Gilbert W. Rose '38**, whose father **Willis Rose** was a member of our class.

Ernest J. C. Fischer, although he retired in 1957, keeps busy with secretarial jobs in Philadelphia. Last fall he was in Ithaca for the Yale game and the 50th anniversary of the installation of the chapter of his fraternity at Cornell. His grandson from Muskogee, Okla. is a freshman. Ernie thinks it might help for the '10ers to spot one another at football games or in the crowded Drill Hall if they took along their '10 caps. He wonders if there are '10ers who have the "philatelic" habit.

In the midst of a New England blizzard comes word from **Jac C. Holman** who, with his wife, is sojourning at Anna Maria, Fla., an island in the Gulf of Mexico near Bradenton. He reports visits from **Howard C. Critchlow** and wife who winter on the mainland some 12 miles away. **John Osborn** with his wife and his sister, **Edith Osborn** also live on the island. A recent visitor was **Bruno Lechler '08** and his wife, who live in Venice, Fla. There is an author in the Holman family, the daughter Felice, whose book, *Elizabeth the Birdwatcher*, has been published by Macmillan and has been received favorably.

Haven't you sometimes wondered what those retired folks down in Florida do with their spare time? Well, here is how one of our classmates **Aeneas Duclos**, of Orlando keeps busy. It happens that his wife has been president of the Orlando Players for five years. Just to help her out, Duc designed and had built the Little Theater used by the Players. In addition, he is secretary of the membership committee.

Should you be driving South one of these days, here is an invitation for a stop-off. **Ainslie T. Carter** of Highlands, N.C., writes: "Nothing much happens in Highlands. A peaceful town of 700 in winter and some 10,000 to 12,000 in summer. Would be delighted to see any 1910er that might land in or near this area. We are 72 miles

Is it true that the leading producer of oxygen for steelmaking had a hand in preparing Tricia McDonald's orange juice?

You'd expect that a company with 50 years' experience in extracting oxygen from the air would lead the field. You might even assume—and you'd be right—that it knows a lot about how oxygen can speed the making of steel. As a result, the company sells oxygen by the ton to steelmakers to help them produce faster and more efficiently.

You'd also expect that a leader in cryogenics, the science of supercold, would develop an improved process for making the frozen orange juice concentrate that starts Tricia McDonald off to a bright, good morning.

But there might be some doubt that two such activities as helping to speed steel production and helping to improve frozen orange juice could come from one company. Unless you knew Union Carbide.

For Union Carbide is also one of the world's largest producers of petrochemicals. As a leader in carbon products, it is developing revolutionary graphite molds for the continuous casting of steel. It is the largest producer of polyethylene, and makes plastics for packaging, housewares, and floor coverings. Among its consumer products is "Prestone" brand anti-freeze, world's largest selling brand. And it is one of the world's most diversified private enterprises in the field of atomic energy.

In fact, few other corporations are so deeply involved in so many different skills and activities that will affect the technical and production capabilities of our next century.

We're growing as fast as Tricia McDonald.

UNION CARBIDE CORPORATION, 270 PARK AVENUE, NEW YORK, N. Y. 10017. IN CANADA: UNION CARBIDE CANADA LIMITED, TORONTO

Springfield 7, Mass.

William J. (Bill) Throne, 512 Dewitt St., Syracuse 3, classifies himself as a retired banker, having completed three years of retirement on Dec. 31, 1963, and seems to be enjoying it hugely. He writes, "In a few weeks we hope to get off to Honolulu and escape some of the winter in central New York. Still president of the Better Business Bureau of Syracuse, an association of over thirty years, and director of the Chamber of Commerce ex-officio. Enjoyed seeing so many back for the informal 52nd Reunion and am looking forward hopefully and prayerfully to our 55th in 1966. In a letter to **H. A. (Steve) Stevenson** he adds, "I must admit it is sort of a shock to realize that I am a great grandfather, by proxy that is,—since my wife has just become a great grandmother."

Claire Hardy, LLB, Altamont Apartments, Charlottesville, Va., writes, "I find retirement somewhat boring despite bridge and golf, and regret the scarcity of Cornell men. **Dick Pietsche '27 AB** is the only one I know about here." **Hans P. Berna**, 9013 E. De Adalena St., Rosemead, Calif., reports, "Starting the year as president, local Masonic High Twelve Club; active in attendance at meeting of So. Calif. Cornell Club, bracing myself for Centennial gift to Cornell Fund. Have been in retirement from Civil Service for five years. Traveling around, helping to organize groups for Old Time Athletes Association with **Al Williams '15**."

A clipping from the *Batavia Daily News* sent to me by **Pat Gouinlock**: "**H. Malcom Platt**, 74, of 47 Ellicott Ave., retired president of the *Batavia Times Publishing Co.*, died at 4:45 this morning (Jan. 7, 1964) at Genesee Memorial Hospital after being in failing health for several years. He was seriously ill a month. A native of Ithaca, Mr. Platt was born Aug. 21, 1889, a son of Chester G. and Minnie F. Brown Platt. He was graduated from *Batavia High School* in 1906 and from *Cornell University* in 1911. Mr. Platt was past president and past secretary of the Rotary Club, a former member of the Board of Education, a member of the Stafford Country Club, the Moose Lodge, and Glenn S. Loomis Post. During World War II, Mr. Platt served on the USS Texas; he was ordered to active duty in the Navy as assistant to the naval inspector of ordnance at the Ford Instrument Co. plant in New York. He retired from the Navy with the rank of commander."

12 Men: *Charles C. Colman*
2525 Kemper Rd.
Cleveland 20, Ohio

Our erstwhile world champion long-distance runner **Tell Berna** of Nantucket, Mass., is still setting a good pace as chairman of the Woods Hole, Martha's Vineyard, and Nantucket Steamship Authority. Besides, Tell writes: "**H. Errol Coffin '13** and I are on the board of the Unitarian Church, and are trying to repair a building that was put up in 1809 without spending

any money. Also I have been fighting termites since 1957, for we do have termites in Nantucket."

Byron Kirk of 152 Eagle Rock Ave., Roseland, N.J., was recently publicly honored by the Roseland Kiwanis Club "as a citizen who has contributed substantially to the well-being of his community by a lifetime of public service." Byron was principal of Roseland School in 1916, then supervising principal of Livingston schools and finally a teacher of history at Southside High School, Newark, for 31 years. His practical experiences in local government were to provide a continuing foundation for the many years of teaching history to high school students. Byron's participation in municipal affairs has included broad diversified service to his community. He was a member of the Roseland Board of Education 1928-1941, serving as president for nine years. Immediately afterwards he was elected a councilman. He became mayor in 1945, retiring in 1949. He was urged to serve again on the Board of Education and did so with distinction as a member of the planning board from 1954-56.

Walter O. Kruse of Davenport, Iowa, who pulled a strong oar in the four-year championship 1912 crew, "had a nice trip through Europe this past summer. In Holland, we visited son **William N. 'Nick' Kruse '42** (and family), who is stationed there as contracts manager for Badger Co., of Cambridge, Mass.—a large petro-chemical designing and construction outfit. Then through Germany, Switzerland, Austria and England." To continue: "in October we were out West visiting other son **John W. 'Jack' Kruse '41** (and family) and our daughter and hers. Have 15 grandchildren, so that keeps us busy."

Under the headline of "Rosenwald Busy at Philanthropy," the *New York Times* of Jan. 11, 1964 had a three-column article about our **Lessing J. Rosenwald**. Since retirement as chairman of Sears, Roebuck & Co. in 1939, Lessing has been a devoted philanthropist and a zealous collector of art objects and books. In 1943, he gave his collection of prints, including about 25,000 engravings, etchings, lithographs, mezzotints, dry-points, and woodcuts to the National Gallery, Washington. Recently Lessing was elected to the National Gallery of Art's board of directors. The illustrated book and reference materials were donated to the Library of Congress. However, during Lessing's lifetime, the collection will remain in its own museum at "Alverthorpe," Jenkintown—outside of Philadelphia. (New address: 511 Meetinghouse Rd., Jenkintown, Pa.) To add to his munificence, Lessing has given much of his beautiful 130-acre early eighteenth-century estate to the town for a public park—first 54 acres and then 61 more acres. Now that their children have moved away, the Rosenwalds have moved from the "mansion" into the "small house." They have five children, 19 grandchildren and five great-grandchildren.

None of us will forget the stirring feats of acting done by **Adolph J. Menjou** in the two brief years at Cornell. We called him "Ad," but in later years (as a letter from him will testify) he added an "e" to his first name and signed himself "Ade." But it was with us that he got his start. All Associated Press releases read the same: "Menjou studied (?)"

mechanical engineering (and Arts), but spent a good deal of time writing, producing, directing, and acting plays with the Cornell theatrical groups," and more: "after graduation"—but we mentioned it differently, for Ad was with us only the first term of the freshman year, and then back only for another year and another try. But he was a great fellow in the theatrical world for over 50 years. "First in stock company in Cleveland and then in 1912 (an important year), he made his first motion picture with the old Vitagraph Company in New York City. Then he went West to pioneer in the industry in Hollywood. He appeared in more than 200 films. In recent years he had been active in television." Ade was aware of Communist activity in this country and spoke out against left-wing tendencies wherever he believed them to be. Unfortunately he was misinformed and misguided in rumors concerning certain individuals at Cornell, which kept him aloof from university affairs. Later he received the correct facts. Our only regret is that Ade lived so far away and that we could not enjoy his convivial company in person.

13 Men: *Harry E. Southard*
3102 Miami Rd.
South Bend 14, Ind.

Edgar V. Beebe and wife Gertrude, 69 Plattekill Ave., New Paltz, made a trip to the West Coast in October and flew jet for two weeks in Hawaii. While in California, they visited with **Moulton Goff** in Los Angeles and with **Col. Gilbert Parker '14** in San Diego, and also saw **Clarence Roy '15** in Yucca Valley. On their return trip they stopped over in Walla Walla, Wash. to see **Paul Potter '15**, and in Vancouver, Canada, they visited the widow and children of Beeb's brother, **Charles N. '05**.

Sam Scudder is now living in Woodstock, 10 Elwyn Dr. Sam describes it as a beautiful spot in the woods of Woodstock, a noted music and art center.

Marcel K. Sessler, 2180 Shade Ave., Sarasota, Fla., is at it again. He is off on another foreign trip, this time to South America. Ses has a winter address in Florida and a summer address in New Hampshire, but I can't see that he spends much time in either place. He is always off and away to some far-off corner of the world. This time Ses and his wife are going to Chile to be the house guests of friends they met on another voyage some eight years ago. And of course he always takes his water colors, his chinese felt pencil (whatever that is), and his sketch book along with him. When you get back, Ses, give me some details and I'll pass it on in this column.

Orrin M. Smith, RD 3, Wolcott, reports that since he retired as district superintendent of schools he seems to be as busy as ever, what with church, Rotary, Retired Teachers' Association, lodge, grandchildren, wife, and five acres to take up his time. But "OM" did find time a year ago to spend a couple of months in southern California and Hawaii.

13 Women: *Agnes Beryl Curtis*
110 Schraalenburgh Rd.
Closter, N.J.

Phillip Hoff, son of Mrs. Olaf Hoff (**Agnes Henderson**) has been elected gov-

ernor of New Hampshire, the first Democratic governor of that state in over a hundred years. Mrs. Francis Stokes (**Gertrude Marvin**) is planning to visit the Nile and Greece some time in April of this year.

Mrs. William Clift ("Sunny" **Fogg**) and **Agnès Beryl Curtis** attended the annual meeting of the Cornell Association of Class Secretaries and news correspondents at the Roosevelt Hotel, New York, on Saturday, Jan. 11.

Dr. **Lucy Crawford**, formerly a professor at Sweet Briar, died Dec. 18, 1963.

'14 Men: Emerson Hinchliff
400 Oak Ave.
Ithaca, N.Y.

Morris Bishop has just been elected to one of the highest posts in the American academic world. He is the new president of the Modern Language Association of America, chosen at the Christmas recess convention in Chicago of that prestigious 17,000-member society. The MLA is the custodian of all scholarly wisdom in the study and teaching of all languages and literatures, including English, ancient and modern. The program for one of its conventions is a young book. I used to belong and am still a member of its Spanish affiliate. Along with the honor, it's a tremendous responsibility; I blanch, or blench, or both, at the thought, but Morris can take it.

This winter he has been doing an interesting stint for national Phi Beta Kappa, that of spending two or three days each on the campuses of 14 (good number) colleges from coast to coast, consulting with faculty and students and preaching the word. Fancy getting an honorarium for so pleasant a task! He also finds time to do things like the Christmas reading at the Sage Chapel Choir's Christmas program and give a talk at the dedication of a new apartment complex on the site of Ezra Cornell's old home at the foot of Ithaca Falls. His latest book, *Petrarch and His World*, continues to receive laudatory reviews; I have those from the *Herald-Tribune*, *Times*, and *Wall Street Journal*. Come back to Reunion and see this Colossus of Ithaca! Perhaps he'll recite a limerick for you.

Talking about Reunion (who isn't?), I know you will have enjoyed the January broadside from the Reunion committee. I

1914 CORNELL 1964

50th REUNION

AT ITHACA—JUNE 17, 18, 19, 20, 1964

can echo every word it says. As you can see from the map, there is a lot to get acquainted with, even for those who were here five years ago. I have heard of some of the brethren who haven't been back for much longer. Don't miss it! Our Cornell campus is unique in this world. There is nothing that can touch it in location and setting. You won't see as many students as you used to—maybe **Hooks Day** with his letter about beatniks won't mind that—but you'll see lots of former students, including many vintage ones, meaning '14ers. I saw **Mead Stone**, of the committee, at the ALUMNI NEWS and class officers meeting in New

York Jan. 11. The **Kuhlkes** were already in Tucson and the **Bert Halsteds** were joining them Feb. 19, then in March they were all planning to drive home, drumming up Reunion attendance en route; I believe they were even going to Florida. Mead told me that **Dave Stahl** and his wife are in Fort Myers Beach for the winter; it's their legal residence. See the new pocket directory for all present addresses. Use it now to get your friends to Reune and then guard it for future reference! **Carl Ward** was also at the luncheon—stimulating, as always, in his thoughts about engineering at Cornell (he's chairman of the Engineering Council) and in the armed forces.

The ALUMNI NEWS gathering was very interesting. In some massive statistics distributed, I was struck by our consistently high percentage of dues payers (who get the NEWS). We have completed ten years of the group subscription. After the first year, **Doc Peters** cut the dead wood sharply and since then we have lost almost none except by death. I have a hunch that I am about the oldest, in point of service, correspondent, too. Haven't missed an issue in years. You are a good class about which to write!

Saw **Alex Hayes** in New York and suggested that he and his Delta Phi delegation endow a professorship. There's no copyright on the idea—any individual or group can play. It would be nice to announce a flock of endowed chairs at Reunion. Alex has a grandson about a year old. Have had nice letters from Rochesterians **Harry Harris** and **Leonard Treman**; Len had arranged with **Tom Milliman** to speak at the SAR Washington's Birthday celebration. **Ted Crippen** was annoyed, as was I a bit, when the Cornell Fund letter apparently solicited the Class of 1929; that office tells me that there was a clerical mix-up on part of the alphabet. Now we know what alphabet soup means. Ted liked **George Barnes's** accompanying letter, "with such convincing arguments." George is certainly working hard in our behalf. **Crawf Duntley** wrote from Milwaukee: "Sure expect to make it in 1964." **Chas. Johnson**, Grosse Pointe, said much the same thing. Ditto from **Sam Goldberg**, Newark and West Orange, just back from a Mediterranean cruise.

Two Christmas cards I especially enjoyed were color-photo embellished: **Tommy Boak** shot the Wepawaug River behind their house after a light snowfall; **Hooks Day's** showed him and Dorothy with a magnificent Norwegian fjord as a background. **Art** and **Esther Shelton** used a brilliant carnelian shade. **Warren Scott**, the comic, added: "Mary drove all over England. Wouldn't let me, too old!!" **Frank Sullivan** wished us simply a "blessed" Christmas. **Quack Quackenbush**, the lazy lobster, added no personal news. An exciting phone call out of the blue Saturday eve Jan. 4 came from **Walter Eagan** from Palm Beach; he just wanted to ask after my health, feeling no pain himself. I encouraged him to come back to Reunion with his Philadelphia pals.

Nai Kim Bee (Phya Prasada Dhatu Karaya), whom I saw in Bangkok a year ago, sent **Doc Peters** two years' dues and warm greetings to all '14ers. We will think of him at Reunion. I wonder if **Frank (Appy) Apeseche** will make it from Buenos Aires.

(Footnote for **Hooks Day** on the beatniks: At a varsity fencing match, a come-from-behind winner came out from behind his mask sporting a handsome beaver! On him it looked good.)

'14 MA—**Norman Bruce Davis**, 338 Third Ave., Ottawa, Ontario, is a mining consultant and president of North West Power Industries and Northern Kyanite Mines. He has three children and six grandchildren.

'15 Men: **Arthur C. Peters**
155 E. 50th St.
New York 22, N.Y.

The meeting of the 1915 officer quartet during the Cornell annual gathering of class officials at the Roosevelt, Jan. 11, was marked by the unexpected for **Art** and **Betty Wilson**. They flew up from balmy Florida, circled New York's finest airport, were weather-stopped, and then flown on to Boston! There, with rebated fare, they shuttled back to New York. With weather still blocking landings, they were again returned to Boston. Finally, forced to entrain for New York on the Owl, they arrived in the wee hours at the Cornell Club. Three days later, they were again snowbound at departure for Florida. Meanwhile, **De Abel** and wife flew down from Providence in time for luncheon, although they were delayed on take-off.

Ray Riley made it from Spring Lake, N.J. and the writer slipped in from Long Island in time to help formulate plans ranging from Reunion 1965 programs to ways and means of serving the class better and improving cooperation between now and then. Ray reported increasing response to his dues campaign, while **De Abel** reported slow but definite progress with the Class Memorial Fund. More good news items from 330 responding classmates confirmed the belief that 1964 is very definitely shaping up as our good year, too. Our class member count for 1962-3 was 706. Of these, 46.7 per cent paid dues and are dubbed "regulars." This made us third-highest among all classes in the university, according to official count.

"Best wishes for 1964" come from our former *Sun* managing editor, **Charles M. Colyer**, still living at 16200 Brewster Rd., East Cleveland 12, Ohio. "Chuck," ever the cavalier, expresses pleasure that a certain co-ed, "who shall be nameless," will be at our 50th, and says gallantly, "She continues to be a sure-fire drawing card at our Reunion." Chuck's postscript reads, "Going to Pittsburgh Saturday (Jan. 11)—**Bill Cosgrove's** 40th wedding anniversary." Heartiest congratulations, Bill!

De Abel and wife evinced interest in the Florida tan now so prevalent and wanted to get down for the Washington's Birthday '15 luncheon being set up with "**Rocky**" **Ford**, Mayor of Naples, Fla., as guest speaker. We go to press before receiving reports, but understand local newspapers headlined his prediction that a record-breaking season may be in store for Naples and southern Florida in 1964 "with the national economy and political harmony at high levels." De told us he has sold his home in Providence, R.I. and acquired a new place at Barrington, Mass. for June occupancy. The **Abels** and **Wilson's** departed with two- to four-foot

snowdrifts clogging New York's streets, while the Peterses took off for Puerto Rico's verdure and 84-degree heat.

The modern miracles of jets and motor cars carried us around the entire island next day, from San Juan via Arecibo and Mayaguez to Ponce. Cornell's "Big Ear" (near La Esperanza) provided a fascinating glimpse of future techniques for space probes and ionosphere research. Through the courtesy of Dr. Gordon's capable assistant manager, Dr. Barringer, we learned that the evidence of water on Mars suggests the present existence of some form of life. Beyond that—*quien sabe?*

The sight of three friendly flags flying together before the Ionosphere Laboratory—the lone star of the Commonwealth of Puerto Rico, the US Stars and Stripes, and the big carnelian and white seal of Cornell—constituted an inspiring symbol of the "brotherhood of knowledge." The project may well become a Mecca for science-minded pilgrims for years to come.

Proceeding to Rincon, past the big atomic reactor plant and dome near the seaside, we paused to inspect the Sea Beach Colony, in search of sun and sand. The bronzed but courteous, familiar-looking stranger who greeted us, proved to be our **Paul Wing**, of Little Falls, enjoying the place for the fourth winter since his retirement. His wife **Anne Kerr '16** proved to be a classmate of my wife, (**Jessie King**) and a delightful four-way chat ensued, developing the fact that Mrs. Lloyd Moore ("Mickey" **Irish '16**) had been down there and Judge **Mary Donlon '20** was due soon. Tight schedule and waiting chauffeur made a real pre-Reunion party impossible, and our efforts to get Col. **Luis Cianchini** at Coama to come down and join us at the Ponce Intercontinental for lunch, as he did last year, were frustrated by inadequate telephone connections. However, Paul and Luis both plan to be at Ithaca in 1965 and a "copita" will then be in order for all of us.

Retired vice president **Robert B. Lea** of Sperry Corp. is busy as vice chairman of the engineers committee, People to People Program, which distributes knowledge by the ton in the form of technical material and textbooks, with government backing here and abroad to interested universities and individuals. Bob expects to be at the Hillsboro Club, Pompano, Fla., through mid-March and asks if any other '15 men will be in the area. **Ray Riley** has the same destination.

'15 Women: **Fannie H. Dudley**
90 Prospect Ave.
Middletown, N.Y.

Courtesy of **Mildred Watt Haff's** holiday notes: **Katherine Stebbins** Doyle, "Each year Florida seems to lure me just a bit more. Sometime I'll go down prospecting." Katherine lives in Constableville.

Hilma Bergholtz Hopkins, wife of **Edwin F.**, of Lake Alfred, Fla. writes, "Ed retired May 1st and I retired from Red Cross volunteer work. We were in California during the summer seeing Betty and Anne and the six grandchildren." They also have a daughter and granddaughter in Orlando, Fla.

Marion Potts of 1413 68th Ave., Oak Lane, Phila., Pa. sends along an appealing "old Gaelic blessing"—"To one and all we pray the gift of light—and wherever you travel, may a star lead you, the wind be at

your back, the road rise to meet you, and God hold you in the hollow of His hand." **Ann Woodward Richardson** (Mrs. Albert S.) of 43 Forest Ave., Cincinnati, Ohio, reports ten grandchildren (six girls, four boys) ages 14 down to 8 months.

From **Mary Thatcher Williams** (Mrs. Carlos F.) of 1912 Lewis Circle, Raleigh, N.C., "**Eva Hollister Benjamin** and husband **Earl W. '11** of Branchport, are now in Englewood, Fla., and have wanted us to visit them, so there's no telling. We've had some cold nights, not bad daytimes. Our camellia buds are frosted—the ones that were about to bloom. 'Lady Claire' have been beautiful all fall. **Helen Estabrook** and **Hugh Macomber** of 2831 Mayview Rd., this city, are just back from spending Christmas with Hugh's sons in Baltimore. Hugh is working for the time being at Wilson, N.C., where he worked before he retired. Helen, Hugh, Carlos, and I have marvelous times together, and often."

Bertha Wood, 229 Kerr St., Concord, N.C., writes, "I like North Carolina, have a very old house, but it's all right for me. I don't have a car any more, but one of my student nurses taxis me wherever I want to go. Today we have snow—more than I've ever seen in N.C."

From **Helen Smith Miller**, (1315 Main St., Honesdale, Pa.) "**Selma Snyder** (Mrs. W. P. Helm. 6111 44th Ave., Riverdale, Md.) and **Marian Sturges**, wife of **John McGlone '06**, 821 Hillside Ave., Plainfield, N.J.) stopped to see me last June, and we had a wonderful time."

Mary Sprigg Summers of 602 N. Tioga St., Ithaca, writes, "Am just recovering from the loss of my only son who died last year as a result of injuries received in a fall on the day after Thanksgiving in '61."

Mabel Flumerfelt Rogers (widow of **Francis E. '14**) of 2940 Brandywine St. NW, Washington, D.C., "Plan to be in Ithaca in June '65, God willing. Might be near Bradenton sooner; have been going to Sarasota during part of the winter season recently."

Others expecting to make our Reunion in '65 are: **Alma Nash Berry** of Poolville, now at Beach Hotel, Ft. Meyers Beach, Fla., and **Sara T. Jackson**, 19 Coleman Creek Rd., Brockport, our Reunion co-chairmen; **Olive Wilkinson Blair**, **Irene Montgomery**, **Helen Smith Miller**, **Mary Sprigg Summers**, **Esther Clark**, **Helen Comstock**, **Thyra Jeremiassen Bliss**, **Martha Whitworth McCloskey**, **Mabel Beckley Millen**, **Elsa Neipp Ritter**, and **Mildred Severance**.

'16 Men: **Harry F. Byrne**
55 Liberty St.
New York 5, N.Y.

Matthew Walzer, MD, of 145 Hicks St., Brooklyn, is engaged in laboratory medical research, and recently enjoyed a two months' sojourn in Italy and Greece. **Willis C. Henderson** of RFD 1, Penn Yan, is still active in the nursery business up in the grape hills of New York, and joins the winter migration to Florida. **Abram F. Bacharach** of 5615 Greenspring Ave., Baltimore, Md., retired some years ago from teaching and since then has kept active in the practice of architecture and engineering, associated with his son, **R. Lee Bacharach '51**.

Fred C. Griffith still travels extensively and is ready to depart on a two-month trip

to Australia and New Zealand. **Harry Liehr** of 163 Congdon St., Providence, R.I., is demonstrating the advances of geriatrics, specializing in tennis and ice skating, and teaching the same to his younger hopefuls. He was featured recently on TV under the billing "Close-Up on Growing Old," demonstrating the conquest of aches, pains, and trauma resulting from the passage of time. **Irving Wise** of 68-63 108th St., Forest Hills, now in semi-retirement, maintains some domestic contacts in trade as well as a few in Japan and Korea in the chemical field. His son **Lester** was '48, and his daughter **Dora**, '51. He's looking forward to visiting the Far East shortly with Mrs. Wise.

Clarence H. Dyer of PO 303, Lafayette, Calif., retired, travels abroad annually, does considerable deep-sea fishing off the West Coast, and continues to admire and marvel at his mother, now 95, she's looking younger than does our correspondent. He motored to Vancouver last spring and thence by steamer via the Inside Passage to Alaska, and was amazed at the scenery. He recently returned from "down under" by a German motor vessel and found it all enchanting, but reports "what they do in way of pronunciation, you'd hardly recognize the mother tongue." **Victor M. Buck**, unhappily bedded down at the Veterans' Domiciliary at White City, Ore., keeps busy compiling illustrated scripture books covering nature stories, missionary experiences, and object lessons collected by him in his life-time activities as a missionary in the Cameroun and Congo in West Africa from 1919 to 1957. Victor suffered a broken hip, requiring surgery.

Donald McMaster was recently featured in the bulletin of the Rochester Museum of Arts and Sciences, with an imposing photograph on its cover, and was honored by a citation as Civic Medalist for 1963. Donald is a devoted '16er, all in his own anonymous way, and his activities after leaving Eastman Kodak would indicate that to him "retirement" is a dirty word. **Emile Mordfin** of Santurce, Puerto Rico, goes in for some snorkeling down in the Caribbean and some casual reporting for state-side medical journals. He recently did island-hopping on so-called "federal" ships through the Lesser Antilles, and spent a good part of the time dodging hurricanes. **Franklin H. Thomas** and wife Louise, departed on Jan. 14 from New York for San Francisco, and then fly to Japan, Hong Kong, and points east.

'17 Men: **Herbert R. Johnston**
81 Tacoma Ave.
Buffalo 16, N.Y.

Here's the date we've been waiting for. Mark it on your calendar! Our 1964 "baby" Reunion will be held at the Cornell Club of New York Monday, May 18. Our chairman **Robert B. Willson** is planning an attractive and unusual program with a "Freshen Up" hour at 5:30 p.m. and dinner at 6:30. Class President **John L. Collyer** has called a meeting of the executive and advisory committees for 4:00 p.m. at the club on the same day to decide several important matters relating to the class.

A list of 1917ers living in Florida (permanent and winter only) with addresses was included in the December issue of *The Call of 1917*. Within a week three classmates sent us corrections to bring the list up-to-

date. They will be included in the March issue of *The Call*.

Theodore H. Townsend, who winters at Lake Worth, Fla., wrote that the list helped him to contact classmate **Willis B. Combs**, whose address is Sanibel, Fla. Ted said he always wanted to visit Sanibel Island where such wonderful shells are found. Willis wrote Ted a "wonderful" reply and as a result the Townsends will cross Florida to the "Shell Country."

Another northerner who winters in warm climes is **Paul H. Harbach**, who, with Mrs. Harbach, is spending four (or more!) months at 2820 E. 6th St., Tucson, Ariz. He reports he attended a meeting of the Cornell Club of Tucson recently and that 1917er **Addison B. Crandall**, now living in Tucson, is secretary of the club. Paul says he and Mrs. Harbach have been prowling the desert with camera, bird books, glasses, and rock hammer. Thus equipped, they "stumble over ledges and washes (creeks to us Easterners!)" They have bagged three deer, several coyotes, an eagle, and a bobcat—eye-wise of course!

A letter from **Edward F. Holt** states that he has retired and moved from Long Island to 23980 Arbor Ave., Los Altos, Calif., where they are near his son and family. Ed's letter continued, "In 1962 **Lloyd Seaver** induced Mrs. Holt and me to go to Ithaca for our 45th class reunion—my first—and it was so good to get acquainted with you and so many other classmates, and we had such a good time, that my wife is threatening to save trading stamps if necessary so that we can get back for that big Golden Jubilee in '67!" We know you folks will get there, Ed!

We had a welcome letter from **Lester S. Manning**, whose address is 13502 Monte Vista Ave., Detroit 38, Mich. He set us straight on a name in the Florida list of '17ers and then said he always read *The Call of 1917* with great interest, especially when fellows whom he knew in the College of Architecture were mentioned, among them Paul Harbach, **Bert Cushing**, **Fred Van Dusen**, and **Les Ernst**. He said he met **Clinton R. Tobey** when the latter was working in Detroit. Clint is now a permanent resident of the Sunshine State at 9896 51st Ave. N, St. Petersburg 8, Fla.

We had a nice luncheon visit a few weeks ago with **Aaron Nadler** who was in Buffalo to visit his niece. Aaron plans on a trip to Europe for a few months but will be back for our "baby" Reunion.

We are very grateful to **Robert N. Jones** for an autographed copy of his recent book *Song of the Family* published by Vantage Press, New York 1. For years, as his family was growing up and he was teaching school, Bob wrote poems and family sketches that are included in this latest book. It is a warmly appealing portrait of a happy, wholesome family life.

Mail has been returned "undelivered" from the following. Do you know where they now are? If so, be sure to send us their present addresses: **William L. Crawford**, Griffin Mfg. Co., Erie, Pa.; **Leon F. Curtiss**, 25 Waverly Ave., Garrett Park, Md.; **Hollis H. Dann**, 116 E. 68th St., New York 21; **Edward A. Hampson**, 120 S. La Salle St., Chicago 3, Ill.

Remember our "baby" Reunion! See you there on Monday, May 18.

'18 Men: Stanley N. Shaw
4732 Kenmore Ave.
Alexandria, Va.

Herb Johnston '17, that extraordinary correspondent of the class whose regular column runs just above this, recently sent me his directory of "'17ers in Florida," and that suggests maybe somebody ought to prepare a similar directory of '18ers. A quick run-through of a somewhat out-of-date mailing list shows 30 classmates with permanent addresses in Florida, and the number of temporary winter visitors could be two or three times that. Well, spring will be here soon so we'll give no further thought to Florida, unless all of you who intend to go there next winter will send me your proposed addresses between now and fall as a start toward such a directory.

Bert (Bertram Y.) Kinzey, 2616 Monumet Ave., Richmond, Va., sent our unique holiday greetings at the year's end — a printed folder describing all the Kinzey family activities for the year past and some of their plans for the future. On the cover was a picture of Bert and his wife (**Gertrude Sampson '19**) taken in Hawaii, with Bert wearing a shirt such as only the Aloha islanders can produce. **Stanley M. Norwood** retired from Union Carbide three years ago, but it's taken all that time to get his new address listed: Farmstead Lane, Brookville, Glen Head.

Jim Perley, back in Los Angeles (2673 Dundee Pl.), reports a continuing pleasant "hangover" from our 45th Reunion last June and an unbreakable resolution to be present at that still faraway 50th. Jim takes a few nasty cracks at me for getting myself kicked out of Russia, since he's made a couple of visits there without difficulty. All I can say is, some people are luckier than others. Speaking of luck, your correspondent (also retired now) will, if all goes well, be enjoying the gorgeous mid-summer (February and March) weather of South Africa (a guest of the government there) as this issue of the News reaches you. It takes less time nowadays to reach Johannesburg by air than Miami by train or car, just a 20,000-mile round-trip jaunt by jet.

Fred Armbruster has sent in his best wishes to classmates for 1964 but no other news beyond reporting his address as still 361 Seneca Pkwy., Rochester 13. **Chet (Chester M.) Robbins** continues to work as a consultant for the plastics industry, representing a Canadian company, promoting some new processes, and "having more fun than in years." Address: 137 E. 66th St., New York 21. **John Weigt**, happily fishing and playing bridge in retirement at Southold, writes of hearing a mutual friend read an account of my Russian travails one wintery night in '63.

And **Bush (Burdge Ogden) Bushnell** writes a long letter of reminiscence about Majorca and other lovely European vacation spots. Bush is, above all else, however, a booster for Hemet, Calif., as a place to live in healthy, happy retirement, and having visited their lovely home, I guess that he and Mrs. Bushnell couldn't have picked a nicer place. **Paul Miller's** letterhead still shows him as director of the New York office of the State Department of Commerce at 230 Park Ave., so all's well for that particular retired businessman.

'19 Men: Colonel L. Brown
472 Gramatan Ave.
Mount Vernon, N. Y.

First of all, have you returned your card to **Dick Dyckman**, telling him, we hope, that you will be at the 45th Reunion? If you have lost or mislaid the card, write Richard P. Dyckman, 910 Belvidere Ave., Plainfield, N.J., telling him you will be there.

All of us have many friends in the classes of 1918 and 1920, and many '19ers have reported that they have enjoyed themselves immensely at their Reunions. We would be happy if as many '18ers and '20ers as possible would come to our Reunion. We are certain they would have a fine time.

According to the latest count, about 50 classmates have already signed up. There will be more wives attending than in the past. We have no list as yet, but a number of classmates in the New York metropolitan area are coming. Out-of-towners from whom your scribe has heard in the last few days include **Warren Benton** of Albuquerque, N.M., and **Paul Boughton** of Middletown.

Our class had a big turnout at the Jan. 11 Cornell meeting at Hotel Roosevelt in New York. Impartial and objective observers stated it was the best-looking group of men there, and we also believe we had a larger attendance than any other class. Those attending were as follows: **John Ross**, **Charles Hendrie**, **Clyde Christie**, **John Shepard**, **George Hiscock**, **Mahlon Beakes**, **John Hollis**, **Richard Dyckman**, **James Hillas**, **Colonel Brown**, **Chilton Wright**, **Rudolph Deetjen**, **Lloyd Bemis**, and **Howard Stevenson**. We have not attempted to count the list but someone said it totals 14. Anyway, we went over a number of details connected with the Reunion.

The Jan. 11 meeting of the scribes with the editorial staff of the *CORNELL ALUMNI NEWS* was interesting and successful. While the scribes were unable to wring a raise in pay from their employers, the work week was reduced from 60 hours to 25, and Christmas and Thanksgiving were conceded as full holidays with pay.

Harold L. Creal of Homer was elected chairman of the state Rural Areas Development Committee at a meeting in Syracuse, Dec. 19. Harold is a citizen representative on the committee, selected because of his wide background in agriculture and wide experience in public service. He operates an 80-acre dairy farm, is a director of the New York State Fair, and is a director of the Co-operative GLF Exchange. He had been a town supervisor, an assemblyman, past president and director of the N.Y. Artificial Breeders Cooperative, and past president of the N.Y.S. Council of Farmer Cooperatives. On Jan. 15 he left on an eight-week trip to India. There were 14 members in the group.

Another of our classmates is retiring from active business, namely, **Charles F. "Mike" Hendrie**. He retired from Worthington Corp. after nearly 44 years, the retirement becoming effective Jan. 31. The Hendries were to leave about the middle of February for a long-postponed vacation in Florida, during which they hope to look up some of our retired classmates.

They will continue to maintain permanent residence at 232 Forest Ave., Glen Ridge, N.J., and Mike will keep busy with

some part-time consulting work. He has also been elected a councilman, no less. **Gene Beggs** is a former councilman, and **George Minasian** is a former mayor. No wonder Glen Ridge has long been regarded as the best-governed village in New Jersey.

Mark N. Turner writes that his son **Frederick D.**, (Dartmouth '58) graduated from the Cornell Law School in June '63. In July he was married to **Margaret D. Stach '61**, and in December was admitted to practice. He is associated with his father's firm in Buffalo. Mark's address is 248 Bedford Ave., Buffalo 16.

E. Winthrop Taylor and wife recently made a three-month trip to England, West Germany, and France. While in Paris, they looked up **Daniel Seydoux '22**. Winthrop complains that his feet are starting to get cold, so they will head for California and also spend a couple of weeks in Hawaii. Their home address is 652 Ogden Dunes, Portage, Ind.

Dr. Ainsworth L. Smith, 175 Adams St., Brooklyn, writes: "Hope to make the 45th Reunion this spring." We'll be looking for you.

Ralph E. Noble, who lives at 2514 S. Yorktown Dr., Beeville, Texas, has thoroughly explored the US during the past year. In February 1963, he drove to Tucson, Ariz., and back. The 2,200-mile trip was such a success that he planned a 15,600-mile journey which took him through 28 states during the April 25-Oct. 13 period. He visited a good part of the country except the Northwest, and some of the Mountain and Great Plains states. Ralph extends an invitation to classmates to come and visit him in Texas. Prior to retirement, he was a water bacteriologist with the Chicago Department of Health and, later, Department of Water and Sewers.

'20 Men: Orville G. Daily 604 Melrose Ave. Kenilworth, Ill.

Riding to the scream of the north wind, blustery old March makes its swashbuckling entrance with the heavy thumping sound of "boots-boots-boots-boots moving up and down again," which is not the rumbling of the mumbbling Ides, or the March hare breaking the sound barrier, but the march of the merry old souls of 1920 who are headed for the pipe and bowl of retirement. But the "reel" surprise is the recent retirement of **John S. Pflueger** as president of Enterprise Mfg. Co., of Akron, Ohio, on the eve of the 100th anniversary of the famous Pflueger fishing tackle firm. John's successor is **Richard B. Uhle** of Avco Corp. in Cincinnati. This is the first time since the firm was founded in 1864 by Johnny's grandfather that it has been headed by someone outside the Pflueger family. Other Pflueger presidents included Johnny's father and uncle. Johnny will continue as chairman of the board, keeping a watchful eye on the bobber, and son John Jr. is presently secretary of the company.

Johnny made his first cast with the firm in 1922 and tackled one position after another until he brought the presidency to net in 1951. Since then he has guided the good ship Enterprise carefully and well to its position of leadership in the industry. John also is president and director of Sec-

ond National Bldg. Co. of Akron, director emeritus of Akron General Hospital, and has many civic and personal interests. He'll have plenty to keep him busily away from the lure of lethargy and "alive for '65."

A retirement dinner honoring **William J. Kuhrt**, chief deputy director, Calif. Dept. of Agriculture, was held recently in Sacramento, announcing his retirement after more than 30 years of state employment. Known nationally and internationally as a marketing expert, Bill was the author of the Calif. Marketing Act, known since 1937 as the "self-help marketing law." Bill was selected by Gov. Brown as a member of a Calif. mission to Chili to assist that government in establishing a program to advance agriculture and marketing. Earlier last year Bill received the superior service award of the US Dept. of Agriculture for his eminent leadership in developing the federal-state relations act passed by Congress in 1962 and signed by President Kennedy. This was the first such award made to a state official.

Bill was also the principal draftsman of a bill now before the US Senate to provide relief to milk producers selling to government contractors. Bill was born on a fruit and dairy farm in Chautauqua County and, after winning his BS at Cornell, took his MA at U of Minnesota. Bill and his wife live at 1160 Theo Way, Sacramento, where he will be practicing his "drive for '65."

Our new Florida West Coast correspondent, **Dapper Don**, has hardly had time to get the **Hoagland** home settled in Sarasota, but he's had time to attend a couple of Cornell luncheons, bend an elbow with **Russ Iler**, send out a doozanooz letter, and dig up **Kay Mayer**. **Kurt** and **Elna Mayer** retired to Sarasota last fall and live at 1930 Clematis St., about two miles from Don. They keep him supplied with lemons as big as grapefruit, for those famous "sour."

In the space reserved for those of us who are still keeping the country's economy moving ahead, let us record that **Sam Alt-house** has gone a step beyond his chosen field of public relations and has embraced public life itself. Sam is now county assessor for the boroughs of Morton, Rutledge, and Swarthmore, Pa., and will learn how to appease the irate property-owner taxpayers. Sam's daughter entered Duke U after turning down Cornell, this being one reason for Sam's anti-retirement program. **Harold Brayman**, public relations director of the DuPont Co. in Wilmington, has received a citation for distinguished service from the Public Relations Society of America. The society's highest award was presented to Harold at the annual convention banquet in San Francisco. Congratulations to a great guy!

Warren S. Weiant, that gregarious grower of greenhouse vegetables in Newark, Ohio, loves his work, and is still having fun restoring antique automobiles in his spare time. His famous 1899 Locomobile "Tillie the Teapot" brought him many honors, awards, and fame in England as well as the US. His latest rebirth is a 1909 Renault Torpedo Tourer which he found in London and recently received practically in a basket. In the rest of his spare time, Wy practices his banjo and saxophone for our 45th Reunion. Wy will help supply the "Jive for '65."

We're off for Florida, where March acts more like a lamb than a lion!

'21 Men: Charles M. Stotz 502 Bessemer Bldg. Pittsburgh 22, Pa.

Special Bulletin For All 1921 Men:

Mark your calendar for the annual dinner in New York on April 27 at the Cornell Club. As most of the members of the class have retired, they have no excuse for lack of time. Those still in harness can arrange special business trips to New York or take their wives on a shopping or show spree or take sick leave or just come anyway. Last year 40 attended. This year we expect 75.

Thad Collum, after arranging for the class dinner, set sail for the Bellevue-Biltmore Hotel in Clearwater, Fla., for a February loaf and will relax through March at the Surfside Club in Naples, Fla. He builds a special sea-going cocktail for any and all visiting classmates, accompanied by exaggerated accounts of his fishing experiences.

Albert (Al) Haywood Jr. of Oenoke Lake, New Canaan, Conn., still tantalizes his less relaxed classmates by reporting that he is "still spending half the year in Alamos, Mexico, raising cattle and growing citrus fruit and enjoying some of the best fishing in the world."

Back in December the *New York Herald-Tribune* in its business and finance section carried a half-page article on that old rascal, **George A. Boyd**. The article was entitled "How to Invest A Billion Safely, by an Expert" and carried a photo of George in his best Wall Street pose, with the caption "The man who knows." Celebrating his retirement as executive vice president of Continental Insurance Companies (he began there in 1926) and head of the group's investment department, the article began by putting this question to him, "If you had it to do all over again, how would you invest a billion dollars in common stock?" You will not find the answer in this column. Ask George, the man who knows. However, the article reflects the sound philosophy and acumen that made his opinion important. Well, George, be sure to come to the class dinner on April 27 and tell some of us retired Cornellians of 1921 how to get out of the rat-race with a whole skin.

Joining the many 1921 men who are working for Cornell, **Julius Hendel** accepted the chairmanship of the Minneapolis area in the Cornell University Centennial campaign. Active in Cornell affairs for the past quarter of a century, Julius has served on the Cornell Council for six years.

Mr. Hendel was born in Russia and completed his secondary education in Germany. He came to the United States in 1914, and after service with the 77th Division in World War I, received his BS degree in agriculture from Cornell in 1921. In 1922, he enrolled in the graduate school at the U of Minnesota, where he later received his doctorate in agricultural economics, with a minor in biochemistry. While still a graduate student, he joined Cargill, Inc., Minneapolis, as director of the new economics and chemical research department. In 1960, he was one of the founders of the US Food Grains Council. Assignments for the US Department of Agriculture have taken him to Japan and Europe.

In 1963, Mr. Hendel and a group of associates formed Experience, Inc., with headquarters in Minneapolis. He is president of this unique organization of retired executives, educators, and former civil servants, who offer experienced and specialized counsel in many fields of industry and government. In line with his lifetime involvement with agriculture, he is now chairman of the board of McNary Farm Management Co. and lives at Crystal Bay, Lake Minnetonka.

We recently received a clipping from the *Kearney (N.J.) Observer* with interesting news about **Kenneth W. (Ken) Pflieger**, a life-long resident of 12 Alpine Pl., Kearny. He recently marked his 40th anniversary with the Bell Telephone System. He is in the switching projects research laboratory, New York.

Pflieger joined the American Telephone and Telegraph Co. in 1923 and came to Bell Laboratories when the development and research department became part of the laboratories in 1934. He has specialized in solving problems on telegraph theory, telephotograph and data transmission, and other transmission systems, has been granted more than 35 patents and has written five technical articles.

A graduate of Nefark Academy, he received the AB and EE degrees from Cornell in 1921 and 1923 and is a senior member of the Institute of Electrical and Electronics Engineers. Ken has been active in community work for Boy Scouts, Boys Club, YMCA and the West Hudson Chamber of Commerce.

Everett W. Pierce of Box 286, Wilton, N.H., writes, "after thirty years with the US Department of Agriculture, including two in India, I am now retired. Mrs. Pierce and I have spent the last two winters in California with our oldest daughter, Barbara (Radcliffe '46) and her husband, Arthur Borecot (Harvard PhD). Arthur is now professor of paleontology at California Tech after spending a number of years on the staff at MIT and nearly two years with Barbara in field work and research in Europe. We plan to try Florida this winter."

We report that **Henry H. Kerr** was married to Mrs. Florence Joslin on June 8. Henry has three children, one married, and five grandchildren. He retired from the US Rubber Co. in 1961, and lives at 5527 Bishop Rd., Detroit 14, Mich.

A belated report from **Waldemar J. Gallman**, dated Oct. 21, 1963 from Seoul, Korea, provides some interesting reading:

"I came to Korea in April under a two-year contract with The Asia Foundation to act as adviser to the Foreign Service Institute recently established by the Korean Ministry for Foreign Affairs. The Institute is the training center for Korean Foreign Service officers. I advise and do some lecturing. My wife and I are thoroughly enjoying Korea and the Koreans. In spite of 38 years in our Foreign Service, we somehow missed the Far East. The opportunity to do this work in Seoul rounds things out globally for us, and we are grateful.

"Between the time I retired from the Foreign Service and came to Korea, I wrote a book on my experiences as Ambassador to Iraq, my last assignment abroad. It will be brought out by the Johns Hopkins Press in February of next year under the title: *Iraq under General Nuri: My Recollections of Nuri Al-Said, 1954-1958.*"

"Cornell Day at Cal"

Charter Day at the University of California at Riverside on Feb. 11 had a distinctly Cornell flavor. Clark Kerr, president of U of C conferred two honorary degrees, both on Cornellians.

Recipients of the LL.D. degrees were Arthur S. Adams, who was assistant dean of the College of Engineering at Cornell from 1940-42 and provost from 1946-48, and **L. C. Graton '00, PhD '30**.

The tenth anniversary of the opening of the College of Letters and Science at UCR, which was celebrated on Charter Day this year, also has Cornell associations. Ten years ago the principal speaker at the formal exercises inaugurating the College was President emeritus Deane W. Malott. On that occasion, he received the first honorary degree ever awarded at Riverside. Our informant is **Raymond F. Howes '24**, assistant to the Chancellor, and former secretary of Cornell.

'22 Men: Joseph Motycka Folly Farm Coventry, Conn.

In 1958 this column reported that **Roger B. Corbett** was the president of New Mexico A & M College, located at College Park, N.M. The same column now has the privilege to report that the same university president married Mrs. Elizabeth Burn Potter, Vassar '45 AB, and New Mexico State '61 MS in chemistry.

Combustion Engineering is a Connecticut outfit located in Windsor. They have a Philadelphia office managed by **Ben Webb**. Ben has been associated with the firm since 1926 and expects to retire in 1965. I don't recall seeing Ben at any of our class affairs over these years, but he seems to keep abreast of things and frequently checks in by means of some interesting letters. Most of us feel lucky to be members of one golf club, but Ben belongs to three, namely, Merion Golf Club, Aronomink Golf Club, and Seaview Country Club. He also belongs to the Union League Club and the Urban Club. If any '22ers would like to try out the famous Merion Club, here's your chance, as Ben will be glad to arrange it. **Pat Thornton** is also a member.

If you are in Florida and would like to do a little inland touring, you should go to Clewiston, at the foot of Lake Okeechobee. That's where the largest and most modern raw cane sugar house in the United States is located. **Frank Conkling** is vice president, engineering, and he will be glad to arrange a guided tour. I have before me a brochure and it looks very interesting. **Jim Mosher** is not too far away, so perhaps he would like to skip golf some day and run over. Jim retired from RCA as district sales manager and is moving to 60 S.W. 10th Ave., Boca Raton, sometime in February. Mose, as he is better known, picked that spot because of the golf course. He and I played a game somewhere in New Jersey back in 1931, the year we won the Poughkeepsie Regatta. His game should have improved since then.

'23 Men: John J. Cole 110 Mountain Grove St. Bridgeport 5, Conn.

When the balloting for the Class Council closed on Dec. 31, the final results showed that in addition to the 32 elected members and the seven officers, who are members ex officio, two additional names are to be added, those of **Charles L. Brayton** and **Charles H. Alberding**, who were each elected by receiving 10 write-in votes. Thus, the 41-member Council is duly elected to serve until a new Council is elected sometime in 1968.

About a year ago, we reported that Dr. **David (Dave) Merksamer** was established as a resident allergist at the Jewish Hospital in Brooklyn. Dave continues to progress in his profession, and he is now a consultant allergist at the hospital; in addition, he has been elected vice president of the New York Allergy Society, and a member of the executive committee of the section of allergy of the Kings County Medical Society. It looks as though nothing is going to stop Dave from continued pre-eminence in the field of allergy. Congratulations on your good work, Dave.

It was only last July that we reported **Elliott B. McConnell** as the recipient of a certificate of appreciation awarded by the refining division of the American Petroleum Institute. The certificate was in recognition of Mac's long and diligent work in the petroleum industry for more than 20 years. Now comes the finale of all this activity. Mac writes that after 40 years in the oil business, he attended the Sixth World Petroleum Congress in Frankfurt, Germany, as the closing chapter in his business career. When the Congress was over, he and Mrs. McConnell began official retirement with a motor trip through France, from Nice to Paris, through Carcassonne and the Chateaux country. I cannot think of a better transition into the easy life, and now that the European tour is over, Mac has settled down in Naples, Fla., where some of his old friends are living, and where the climate is more amenable to some good serious loafing.

Once again the rocking chair brigade gets a new member. **F. Reeves Price**, manager of fabric sales with the DuPont Company's fabrics and finishes department, has retired after a career with DuPont of some 40 years. He joined the company at its Newburgh plant shortly after graduation in 1923, and successively served in New York and Wilmington until his retirement.

Nelson (Nels) Schaenen has sent in a very interesting report on a motor trip he and his wife took through Jugoslavia, Bulgaria, Romania, Hungary, and Czechoslovakia. Those who know Nels are well aware that he is not prone to exaggeration or flimsy thinking. In this light, we think his letter will command the close attention of every reader of this column. His story is so well stated that I report it completely, without condensation or editing.

"It occurred to me that others in our class might be interested in the following—not because it identifies me with these observations, but because anything that suggests that the Communistic concepts and the Communist economies are in trouble may be heartening.

My wife and I had a 2300-mile, 3½-week auto trip last Fall thru Jugoslavia, Bulgaria,

Romania, Hungary, and Czechoslovakia. The weather was good, and the countryside beautiful. But everywhere the agricultural methods were primitive, the production poor, and the population lackadaisical and indifferent, when it wasn't downright despondent. Americans of Bulgarian, Romanian, and Hungarian birth whom we encountered, and who had returned for the first time in 19 to 33 years to the towns of their birth, reported that there had been virtually no economic advance in all those years, and that their relatives were so fearful of the State Police that they were hesitant in talking with them. They remarked that the populace was aware and were resentful of the fact that their leaders had lied to them all thru the years, and there seemed to be a pervasive awareness that Russia was in deep economic and political trouble, and that each of the satellite countries was probing to see how far it could get out from under the Russian influence, and were astonished and pleased to find how far they had gotten in the past six months without being slapped down.

If anyone needed any evidence of the inadequacies of Communism as a way of life, he has only to take this trip. Going from Hungary thru Austria for a day enroute to Czechoslovakia was like coming out of a tunnel into the light, and then back into the darkness again. Hurrah for the free enterprise concept and respect for the individual.

Regards,

Nels Schaenen

There was only one unpleasant incident. All the photographs we had taken in Jugoslavia, Bulgaria, and Romania were destroyed by the Romanian border guards at the Hungarian border. No reason—just policy."

'23 Women: Eleanor Riley Beach 593 Park Ave. Rochester 7, N.Y.

Mercedes Seamon Wrede (Mrs. Frederick W. Jr.) and Adele Dean Morgensen (Mrs. Allan) attended the Cornell meetings in New York on Jan. 11 and had "an enjoyable time."

We all regret the passing of Dr. Elsie C. Ward on Nov. 30, 1963. Her untimely death was the result of injuries received when she was hit the day before by an automobile. Dr. Ward received her AB with the class of '23 and graduated from Cornell Medical College in 1927.

Alice Mouronval Christian (Mrs. Kenneth A.) has announced the marriage of her daughter Joyce Standish to Richard D. Bodig on Nov. 13, 1963 at Trinity Church, Lime Rock, Conn.

May Mattson is "terribly busy meeting requests of churches and civic organizations for counseling service, short-term courses for adults, one-shot programs of various kinds ever since May 1963." Her real delight is square dancing.

'24 Men: Silas W. Pickering II 1111 Park Ave. New York 28, N.Y.

A Doggerel Reminder:

In June
We'll reunite

Here's a partial list of men
Who've said that they will be there then.

Charles Adler, George Ball, Chuck Ballard, Walt Barnes, Paul Beaver, George Bibbins, Fred Brokaw, Carl Brown, Johan Brüder, Hank Buckman, Fred Burnham, Ed Clynes, Dick Coker, Harv Coneby,

George Connelly, Dave Cook, Jack Cramer, Shorty Davis, Hal Deuel, Greg Dexter, Jack Ensor, Fil Fillius, Gordon Fletcher, Paul Fritzsche, Rox Fuller, Vin Gerbereux, Harv Gerry, Hank Givan, Bernie Glick, Jake Gold, Paul Gunsalus, Bob Hays, Jim Hazlitt, Al Hazzard, Bill Hearne, Dave Hill, Count Erik Hollstein of Hollsteinborg, Bill Jackson, Bill King, Dutch King, Ed Kirby, Ellis Knobloch, Bernie Kovner, Bill Leonard, Charles Lippincott, Chet Ludlow, Walt Ludlum, Ot MacMillan, Larry Mains, Don McClure, Clem Merowit, Guy Nearing, Howie Onstott, Jack Pennington, Si Pickering, Alex Pirnie, Don Post, Frank Quillinan, Al Rauch, Chuck Reese, Herb Reich, Max Schmitt, Carl Schraubstader, Ed Searles, Haig Shiroyan, Al Silverman, Chuck Skeele, Bob Sloan, Frank Smith, Ray Snyder, Dick Starr, Chick Stone, Norton Stone, Mort Sullivan, Sunny Sundstrom, Matt Tiffany, Luke Tribus, Harry Turk, Fred Uhl, Harold Uhrbrock, Carl Wedel, Vic Wehle, George Weissenburger, Dunc Williams, Fred Wood. Come and join 'em!

Bill Leonard wants you all to know that through some *inanimadvertence* (obs.), duplicate class dues bills were sent out to many of you. Bill says he'll keep an accurate list of those who are paid ahead and will omit billing them next year.

Frank L. (Sunny) Sundstrom writes that his son Frank L. Jr. is in his last year in the Business School at Ithaca and that he and his wife (Dorothy Allen) have presented him with a grandson, Frank L. Sundstrom III.

We're sorry to report the death of the wife of Fred E. Brown. Fred lives in Ancaster, Ont., Canada; his daughter Sally (Mrs. D. Panaioti) lives in North Vancouver, B.C. His eldest son (Peter L.) is studying for his PhD at the U of London, England, and the younger son received his MD last June from the U of Western Ontario, London, Canada.

Chick Norris (our own, our great) spent the week of Sept. 9 in Ithaca finishing a bit in the movie which is being made for the Cornell Centennial. Chick says, "When I saw, first hand, what it took to make a three-minute bit, I began to understand why *Cleopatra*, even without Liz, would cost 40 million dollars.

"It was," he goes on to say, "a privilege, a pleasure, and an interesting experience. Hope it doesn't end up on the cutting room floor."

Frederick E. Burnham is an industrial engineer with Wedgewood-Holly Corp. (gas ranges) in Culver City, Calif. He has five grandchildren, with another on the way. Fred's oldest son owns a dairy farm in Vermont, his second is with GE X-ray division in Milwaukee, and his youngest is doing a stretch with the army in Germany.

'24 Women: Sarah A. Beard PO Box 348 Cobleskill, N.Y.

Eleanor Bayuk (Mrs. L. S. Green) 162 W. 56th St., New York, has written the first Reunion letter with specifics. Between our class and the university program, in our opinions, there will be no arid moments, whatever your temperament in this year of '64. At this January writing the following plan to come:

From New England: Dorothy Allison (Carlin), Jen Curtis (Dexter), Martha Kinne (Palmer) who says to remember that she is in Vt. see Dec. '63 supplement to Directory). From New York, New Jersey, and Pa.: Miriam Bailey (Williams), Ruth Barber (Schwingel), Hortense Black (Pratt), Mary Casey, Thelma Chapin (Easterbrooks), Mabelle Clark (Snead), Dorothy Cohen (Spitz), Florence Daly, Carroll Griminger, Marjorie Kimball (Gephart), Helen Larkin (Foley), Ethel Leffler (Bliss), Carol Lester, Helen Nichols (Von Storch), Mary Schmid (Switzer), Lenore Sivin (Ettler), Barbara Trevor (Fuller), Mary Yinger.

From the Middle West: Elizabeth Beal, Dorothy Lamont, Genevieve Norton (Taylor). From the South: Marion Dammeyer (Hackett), Alice McCartney (Holgate). From France: Marie Powers. Incognitos, to date, from the "profiles" postmarked—Bath, Colden, Flushing, Ithaca, Wellsville, Pittsburgh "with '24 husband," Hyattsville, Md., and Mexico.

"Hopefuls" and "Open to persuasion," come join this list next month. As Kim Gephart says—life is so brief, this is the year to see your friends of old and far away.

Marge Piggott (Wedell) has come on Class Council in place of Harriet Barton (O'Leary), who is in Europe with husband Paul on his sabbatical. Elsie Smith (Van Hoven) will have to sandwich Reunion between a Smith commencement and a wedding, but she'll probably make it. Doris Hopkins will be driving from Florida, Kappy Myers (Albertson) and S. Beard are near Ithaca, where our treasurer Edith Beasley lives.

Directory changes: Dorothy Allison (Carlin), 39 Braeside Dr., Hamden 14, Conn.; Marjorie Dean (Perry), 351 Bahia Vista, Indian Rocks Beach, Fla.; Mildred Deisler (Wright), 1054 Cayuga Hgts. Rd., RD 1, Ithaca; Esther Eldredge (Huff), 4260 Gunnville Rd., Clarence; Olive Ling (Benzenberg) 567 26th St., Santa Monica, Calif. Add: zone numbers 77 to Lily Ey (McWilliam's) Woodside address; 73 to Helen Larkin (Foley's) Elmhurst address; Rt. 1 to S. Louise Miller (Belden's) address.

From Laura Duffy (Smith) comes news of Edna Wood (Mrs. Kyle A. Lyon) 306 Orange Ave., Santa Ana, Calif. Edna's elder daughter Edith works in the western end of the Pacific Missile Range and lives in Honolulu. Son Richard is manager of operations for the Alaska district of Union Oil Co. of Calif. and lives at Anchorage. He has two sons, and the younger, Douglas, spent his first birthday with his grandparents in Santa Ana, coming along on his father's business trip. Daughter Kyla (Mrs. Russell DeRimer) teaches music at Dyer Jr. High School, Bloomington, Ind., while her husband completes his doctorate at the U of Indiana.

Katherine Keiper (Rodgers) is helping with the third-year French class at the Academy in Patten, Me. The library she set up is thriving, and she reports some stormy adventures with her husband in acquiring new items for the Lumbermen's Museum which had 2,000 visitors in its own separate building this year. Kitty's son Tom is enjoying teaching and doing research in the isotope laboratory of the zoology dept. he set up at Pomona College. Richard is

working for McDonnell & Co. in New York.

'25 Men: D. Harvey Krouse Admissions Office, Day Hall Ithaca, N.Y.

Of most recent and startling occurrence has been the appointment of **John Paul Stack** as manager of the Harvard Club of New York. Well, all of us must stray at some time.

Robert P. Mason, living in North Attleboro, Mass., reports a third grandchild presented by his daughter, and adds that his son is at the U of New Hampshire. After 25 years with Curtis Publishing Co., **H. M. Chestnut** has retired and is taking it easy at his home in Wyncote, Pa. Nice neighborhood, Henry.

Col. Wilber M. Gaige Jr. (retired) heads up the history department at Flint Hill Preparatory School in Fairfax, Va.—which shows that “old soldiers don't retire, they just plug away.”

Now here is a switch! Coming out of retirement and from Solitude Farm in Machipongo, Va., **Wendell K. Webber** is teaching distribution education in the Northampton and Cape Charles high schools. **C. R. (Tip) Roseberry** regretted that he was too busy working on two books at once to attend the '25 class party in Ithaca last October.

The **Linn B. Bowmans (Martha Hawley '24)** attended the fall meeting of the Cornell University Council and then traveled on to San Diego. An active MD, **Nathan Beckenstein** is director of the Brooklyn State Hospital, clinical professor of psychiatry at the Down State Medical Center, and president of the Brooklyn Psychiatric Society.

Another busy fellow from the new and lively community of Cherry Hill, N.J., **Paul H. Smith** reports that he still spends six to seven days a week on technical publications covering the operations of missiles, satellites, and other electronic unmentionables.

'26 Men: Hunt Bradley Alumni Office, Day Hall Ithaca, N.Y.

Remember—Friday March 20—the date of our class dinner at the new Cornell Club of New York, 155 E. 55th St. at the corner of Third Avenue. All classmates in the metropolitan area have—or should have—received Pres. **Steve Macdonald's** official notice. Others visiting the hub of the universe on that date will be warmly welcomed.

After 50 years of leadership in scouting, **Samuel D. Bogan**, scout executive of the Quinnipiac Council with headquarters in Hamden, Conn., retired from active duty. An illustrated picture story in the *New Haven Register* pays great tribute to Sam's fine contribution to scouting. He has been with the Quinnipiac Council for 29 years and before that served in his native state of Louisiana following his first position as full-time executive of the Louis Agassiz Fuertes Council in Ithaca. Sam has been interested in international scouting; he inspired the building of the new \$200,000 Council Center in Hamden, and his books, poems, and articles have had national influence in the scouting movement. One of his books is *Let the Coyotes Howl*, which describes an archeological expedition in the

Thanks for Bradley

■ **Hunt Bradley '26**, general alumni secretary of the university, completed a third term in office with the Middle Atlantic district of the American Alumni Council at its conference in late January at Cherry Hill, N.J. The meeting voted a resolution that read in part, “Hunt Bradley is hereby recognized for his six years of cheerful and devoted service as District II treasurer of the American Alumni Council during which time he acted as faithful and efficient custodian of the district's funds, which at no time suffered a loss . . .”

Southwest. He and wife **Eleanor Johnson '28** live at 106 Bedford Ave., Hamden.

And speaking of retirements, word has been received that **William Wendt** has reached this stage after 34 years of distinguished service with Western Union's law department, and 17 years as general solicitor of that well-known company originally put together by Ezra Cornell and friends.

On a letterhead of the New York Mets National League Baseball Club, Bill writes, “I am now with the New York Mets. My precise duties are as yet unclear, but part of the deal was an understanding that I would not be farmed out. I think I am much too old to work my way up through the minor leagues.” Bill lives at 170 E. 77th St., New York.

Another retirement: **Gordon O. Andrews** bowed out on Feb. 1 as assistant director (since 1951) of the DuPont Company's employe relations department after 37 years of service. He will be succeeded by another Cornellian, **G. Gordon Mitchell '27**. Gordon '26 started in the company's rayon plant in Buffalo in 1926, then transferred to the Richmond, Va. rayon and cellophane plants and arrived in Wilmington in 1938 to become supervisor of the training section in the personnel division of the service department, becoming manager in 1962. He is a director of the Delaware State Chamber of Commerce and charter member of its personnel management committee, a director of the Delaware Safety Council and of the Junior Achievement of Northern Delaware, Inc., and a member of the board of trustees of Group Hospital Service. He is also a member of the Presbyterian Church of the Covenant and former president of its board of trustees. In Cornell affairs he has been active in the Cornell Club of Delaware, served on the Alumni Association's committee on placement and is a member of the Cornell University Council. Gordon and his wife live at West Farm, Greenville.

Our able treasurer, **Eugene M. Kaufmann Jr.** has joined the investment counsel firm of Van Strum & Towne, Inc. as vice president and manager of the Philadelphia office. Gene will continue as investment counsel to his clients, and his address, well-known to all dues-paying classmates, remains the same—1616 Walnut St.

Another vice-presidential announcement tells us that **Warren R. Bentley** has been promoted to senior vice president of the

Lincoln National Bank and Trust Co. of Central New York in Syracuse. Bent is in charge of all installment lending and is manager of the Warren Street branch. Bent and wife Muriel, frequent visitors to the campus, live at 116 Dewittshire Rd., Dewitt.

Melvin A. Albert of 31 Nob Ct., New Rochelle, writes that his daughter **Anita BFA '60** was married in December to **Jack J. Karasu MBA '60**.

Imre Domanok of Budd Lake has donated an undergraduate scholarship for 1964-65 in the College of Arts and Sciences at Cornell to the West Morris Regional High School—its purpose “to develop the student's talents for dedicated service to fellow students, teachers, and the community in which they live.”

It was nice to receive the following note from Dr. **Richard C. Wadsworth**: “Have four grandchildren to keep me active when I'm not occupied with test tubes and microscopes or attending medical meetings or meetings of United Fund, City Hospital, and medical advisory comm., county Red Cross chapter, and state cancer directors. On the side, help to edit state medical journal and in the summer spend as much time as possible sailing in Penobscot Bay. Have a 12-year-old daughter who enjoys winning swimming medals.” Dick's address is 86 Grove St., Bangor, Me.

See you at the class dinner on March 20!

'27 Men: Don Hershey 5 Landing Rd., S. Rochester 10, N.Y.

Ralph Seward, attorney, (picture) specialized in state and federal labor relations

work until 1952 when he became permanent umpire of disputes between United Steel Workers of America and Bethlehem Steel Co., both his employers. Held in high esteem by labor and management, he had the distinction of being made chairman of the peacetime arbitration board dealing with railroad work rules disputes, first ever, created by Congress and approved by the late President John Kennedy. The *New York Times* reported, “Seward is among the top handful of arbitrators in this country. For sheer intellectual capacity, analytical ability, and lawyer-like craftsmanship, he is perhaps the ace of them all.” In reply to my letter Ralph said, “I would be delighted to see any of my classmates or other friends from Cornell if they ever come to Washington. Though in close contact with the Labor Relations School, I would like to see more than I recently have of 1927.” The Seward's live in Georgetown near his office at 3029 M St. NW, Washington, D.C.

Donald Bryant was professor of English at the U of Washington, St. Louis for 21 years until 1958, when he became professor of speech at the U of Iowa. A former editor of *Quarterly Journal of Speech* and *The Rhetorical Idiom*, he teamed up with **Karl Wallace** to write two successful textbooks on public speaking, published by Appleton Century-Crofts. Don stated, “haven't been to Ithaca since the summer of 1957, more's

the pity." The Bryants' home address is 903 Highwood St., Iowa City, Iowa.

Dr. **Nathaniel Kwit** continues practice of cardiology at 525 Park Ave., New York and does research in cardiovascular drugs in the dept. of pharmacology at Cornell Medical College, plus two cardiac clinics in New York. His older son John graduated from Lafayette College, and **Nate Jr.** '63 from Cornell last June. We enjoyed talking with **Herb Moore** at the 35th. A consulting civil engineer since 1939, he now heads the firm of Moore, Vilter & Peterson (**Lawrence E. Jr.** '42), Engineers, Milwaukee 2, Wis.

Year's end brings added inspiration to this column from greeting cards and kind letters. A welcome surprise was a greeting card from **Shub Fuertes**, 6443 Northwood Dr., Dallas 4, Texas, reporting a daughter **Byrd**, a sophomore at U of Texas, son **Louis** in high school, and a letter to follow. Good, Shub, your classmates would like to know more. **Paul Gurney** keeps the old pen working and always comes up with a fine original. His new address is 609 W. Stratford Pl., Chicago 3, Ill. Thanks to **Charlie Schaaff**, pres. of Mass. Mutual Ins. Co., a busy fellow, for his nice comments, and to my loyal correspondent, **Dill Walsh**, who likes to remind me of our great basketball days in the Old Armory, plus the Walsh Ramblers, whom we danced to many times.

Ray Reisler never misses, along with **Dr. Art Trayford**, **Herb Singer**, **Dr. Carl Levenson**, **Jess Van Law**, **Scotty**, **Mitch Mitchell** and **Norm "Reunion" Davidson**, who said I didn't answer his last letter. This is rare! Also, **Syl McKelvy** states the new free wheeling house at 1332 Sunset Ave., Point Pleasant, N.J., works well in retirement, especially when classmates and other Cornellians drop in. I'll write more about Syl later. We attended the Cornell alumni class officers January meeting in fascinating and magnificent New York and enjoyed the comfortable new quarters of the N.Y. Cornell Club, together with its excellent cuisine. As usual, **Scotty**, **Mitch**, **Jess**, and **Norm** were there.

Jess gave a fine treasurer's report. We're in top shape, thanks to our non-salaried officers serving you and also **Eunice Kritsidimas**, **Jess's** fine secretary. **Scotty** says you will be receiving an analysis of the questionnaires as soon as all are received. The class officers voted to keep our 927 members informed about Cornell through ALUMNI NEWS because of your fine dues response. To date over 250 have paid—(continued): **Bill Noonburg**, **Bill Ogden**, **Fred Parker Jr.**, **Dr. Warren Pashley**, **Art Pearson**, **Al Petermann**, **Brad Reed**, **Ted Reimers**, **Ed Roehl**, **Carlton Rowand**, **Charlie Schaaff**, **Lee Schaenen**, **Bill Schneider**, **Andy Schroder II**, **Norm Scott**, **Herb Singer**, **Joe Singer**, **John Snyder**, **Otto Starke**, **Al Steinkamp**, **Fran Townsend**, **Geo. Vannoy**, **Dill Walsh**, **Bill Warren**, **Harry Weiss**, **Chuck Werly**, **Bob Weichsel**, **Jim Wright**, **Ernie Zentgraf**.

Second round—**Jacob Aks**, **Eric Andrews**, **Harry Archer**, **Bernie Aronson**, **Marc Bassevitch**, **Dr. Harold Beaty**, **Sid Berger**, **Norm Berlin**, **Jay Berlinger**, **Fran Bethell**, **Ev Bradley**, **Bob Brown**, **Art Bruckert**, **Burt Bugbee**, **Sam Bullard**, **Fred Colwell**, **Al Cowan**, **Al Craig**, **Bill Cress-**

man, **Roy Conklin**, **Fred Coville**, **Dan Dalrymple**, **Norm Davidson**, **Clarence Dayton**, **Tom Deveau**, and also, but with new addresses: **Chuck Bowman**, 604 Main St., Wilbraham, Mass.; **Emmons Collins**, pres., First American National Bank, 230 W. Superior St., Duluth, Minn.; **George Gerber**, 6505 Wilshire Blvd., Los Angeles 48, Calif.; **John McConnell**, 4720 Huntley Dr., Atlanta 5, Ga.; **Fred Shepard**, 119 Cherokee Rd., Birmingham 13, Ala.; **Franchot Tone**, 9107 Wilshire Blvd., Suite 508, Beverly Hills, Calif.; **Gene Tonkonogy**, 45 N. Station Plaza, Great Neck; and **Al Woodford**, 103 Clermont St., Albany.

'28 Men: *H. Victor Grohmann*
30 Rockefeller Plaza
New York 20, N.Y.

Arthur E. Stanat (picture) is with the Federal Communications Commission, the regulatory agency for the communications industry in Washington, D.C. Previously, he served with the US Air Force for 20 years, retiring in July 1960 with the rank of colonel. Art has a son **Jon '67** attending the School of Engineering. His home address is 4460 Springdale St. NW, Washington 16, D.C.

Through the generous gift of **Muriel Mundy**, wife of classmate **Floyd W. Mundy Jr.**, the Cornell Plantations Wild Flower Garden Fund has been established. The first plantings of wild flowers will be made this spring.

G. Gordon Mitchell has been promoted to the post of assistant director of the DuPont Company's employe relations department. Gordon began his DuPont career as a student operator in the Buffalo rayon plant. He is a member of the joint committee of the US Chamber of Commerce and the N.A.M. on international labor organization, and the board of directors of Wilmington General Hospital, as well as the executive board of Del-Mar-Va Council of Boy Scouts of America. His home is at 308 Cornwall Rd., Woodbrook, Del.

Our class is well represented on the committee for a dinner to honor **President James E. Perkins** to be held in the Grand Ballroom of the Waldorf-Astoria Hotel on Monday, April 13. Your correspondent is chairman and **Hank Boschen** is vice chairman for this auspicious event. We sincerely hope all of you who possibly can will attend this tribute to our outstanding new president. For tickets (only \$10 per person for roast beef) and information just write **Hank** or me at the Cornell Club of New York, 155 E. 50th St., New York 22.

'29 Men: *Zac Freedman*
306 E. 96th St.
New York 28, N.Y.

Bill Colio, 3500 Grays Ferry Rd., Philadelphia, Pa., writes that son **Steve** is doing his service duty with the US Navy. Daughter **Leslie** is a freshman at Akron U, Ohio. "I'll be there for the 35th," says **Bill**. **Al Sulla Jr.**, 152 Harrison Ave., Harrison, is off and running again to be supervisor of the Town of Harrison. No contest is anticipated

there—but who of the '29ers can beat him at golf? Any challengers? Are you reading, **Si Wild**?

Walter Hunt, 10 Vroom Ave., Spring Lake, N.J. (new address) reports daughter **Bonnie** is a freshman at Connecticut College and that son **Walter Jr.** is taking graduate work in architecture at Yale; graduated from there in June. Junior is also a Freshman counselor at Yale. (Daddy won a buck on the game and since Junior is now on his own, it hurt a little). The Hunts have just moved in to a new Cape Cod domicile at Spring Lake.

Dr. Joel F. Sammett, 1225 Lincoln Ave. South, Highland Park, Ill., is engaged in the practice of radiology in Chicago (**Drs. Baker and Sammett**) and in Highland Park (**Drs. Sammett and Greenburg**). Wife **Heila** is Michigan '33. Daughter **Trudy** is a junior at Michigan; son **Michael** is a high-school junior.

Bob Dodge reports grandchild No. 6 arrived in November. Congrats. **Dr. R. R. Northrup** reports granddaughter **Anne Lockett Northrup** arrived in May to the **Robert S. Northrups**. **Robert S.** is a senior at Harvard Medical School. Congratulations.

L. L. Clough, 280 Kenwood Ave., Delmar, reports son **Roger** is in his first term at Chicago U law school and got married on Dec. 27. Daughter **Lucy** was married on Dec. 14. A deep bow to proud daddy from the column. **Dr. A. W. Strom**, 32 S. Broad, Hillsdale, Mich., attended Homecoming, Oct. 19.

An unsigned note from Washington, D.C., dated Oct. 29 read: "I was married for the first time Aug. 10, 1963 to **Mildred Phillips of DC.**" Please identify yourself for the next issue. I'm hardly a "Dear Abby" sleuth!

Dr. Jerome Engel, 196 Main St., Ravena, proudly sends word that **Jerome Jr.** '60 is in his third year at Stanford University Medical School and is also working for a PhD in neurophysiology. Daughter **Judy '62** has spent considerable time in Israel and is now taking art courses.

Harry Chashin, 78 W. 35th St., Bayonne, N.J., with his wife (**R. Bevy Lashinsky**) and daughter, **H. Louise '62**, rounds out three Cornellians in the family of four. Son **Bruce** (Rutgers '58) somehow strayed. For some time **Harry** has been doing trial and appeal work in association with the law firm of **Marcus & Levy** in Paterson.

Orson C. Beaman, 73 Grant Ave., Glens Falls, has been appointed to a new post—superintendent, Imperial Color & Chemical Department, Hercules Powder Co. The **Beamans** have two daughters.

John E. Coleman, 634 Third National Bldg., Dayton, Ohio, proudly sends word that his parents, both 83, celebrated their 62nd wedding anniversary. Bump into any '29ers on that southern vacation trip, **John**? **Col. Jerry Loewenberg**, 71 Plymouth Dr. N., Glen Head, with wife and son, spent three weeks in Mexico where they report landing plenty of sail-fish. Hmmm! Did you have your Polaroid along?

Irving "Murph" Cohen, 1348 Noel Ave., Hewlett, proudly reports he is a top-ranking member of the expanding '29er Grandpop Club with five so far; three belong to son, **Lawrence '54**, and two to **Robert '57**. **Carlisle Hartman**, 22 Godwin La., St. Louis 24, Mo., toured the campus

last summer. Daughter Mary Louise made application for admission this fall.

Howard M. Taylor Jr., 306 Southfield Dr., Fayetteville (new address) is planning a trip with his wife in June, to Stanford, where son Howard III will receive his PhD. He is there on a National Science Foundation fellowship. Glad you're planning to be back in time for the 35th, Howard.

W. W. MacConnell, Aramco, Box 145, Abqaiq, Dhahran, Saudi Arabia, is now in his ninth year there, with three to go before retirement. His wife and daughter are there, too, the latter in junior high. One son, Amherst '60, graduate work Yale '61, is now at Columbia. Another son is at the American Community School, Beirut, Lebanon.

Leo P. Katzin, 90 Aldrich Ave., Binghamton, is with the same law firm, Chernin & Gold (Abraham E. '24) with which he became affiliated on graduation from Cornell Law School 32 years ago. There are two daughters: Mrs. David Friedman (Linda '60) Red Bank, N.J., attending Monmouth (N.J.) College, and Judy '64. Leo is now a member of the '29ers Grandpop Club with Ann-Isabel '80, whose daddy, David (RPI '60 and NYU '62 MS) is with Bell Laboratories, Murray Hill, N.J. With Judy graduating, plus the 35th, looks like you'll be commuting to Ithaca in June. Right?

Paul D. Beers, Hotel Lakeview, 614 W. Hill St., Knoxville 2, Tenn., reports that he is still single. **Robert W. Moree**, 597 Linwood Ave., Buffalo, senior vice president, Merchants Mutual Insurance Co., Buffalo, attended the Homecoming Weekend and particularly enjoyed the Cornell-Yale score. Amen to that, Bob.

G. Lamont Bidwell, Box 114, Upper Darby, Pa., is firming his claim about being the champ "gramp." Total of nine, now. Is "Murph" Cohen next with five, or is a new challenger reading this, or even a friend of a potential challenger? **Julius Cutler**, 80 Rugby Rd., Brooklyn, reports that son **Richard** is attending Cornell, Arts '66. **Robert S. MacPhail**, 348 Highland Rd., Pottstown, Pa., announces his membership in the '29ers Grandpop Club with a strapping new grandson, a future fullback candidate for Cornell.

William E. O'Neil Jr., 5608 Crenshaw Rd., Richmond, Va., has just concluded his 29th year (fitting for a '29er, Bill) with the National Park Service and has found it a very inspiring and rewarding career. Bill is a member in good standing of the '29er Grandpop Club.

Dr. Robert E. Rothenberg, 872 Fifth Ave., New York, has two new books coming out; *Health in the Later Years*, New American Library and *Reoperative Surgery*, McGraw-Hill-Blakiston. Bob's *Medical Encyclopedia for Home Use* continues to be a Book-of-the-Month Club dividend for the third straight year.

35th 35th 35th 35th 35th 35th 35th 35th

'29 AB, '33 PhD—Mrs. **Elfrieda Pope Bestelmyer**, 110 Overlook Rd., Ithaca, has arranged the posthumous publication of *Burning Bright*, a novel by her mother, the late Mrs. Paul R. Pope (**Elfrieda Hochbaum**) PhD '03. Bruce Humphries, Boston, is the publisher.

'29 PhD—**Harvey B. Mann** has retired as president of the American Potash Institute and Foundation for International Potash Research. He spent half his career in the chemical plant food industry, half as an experiment station scientist.

'30 Men: **Arthur P. Hibbard**
Riverbank Rd.
Stamford, Conn.

Bob Bliss, our president, has scheduled our third annual class dinner to be held this year on Thursday evening, April 2. The dinner will be held in the new Cornell Club, 155 E. 50th St., New York. The meeting will start with cocktails at 6:30 p.m. and the dinner will begin at 7:30 p.m. This year we have secured as our speaker for the dinner—**Stanley W. Davis** '41 the new dean of students, who was formerly the associate dean of the Arts College. His subject will be—"A New Dean of Students Looks at His Job." Having heard him speak, I can assure you of an interesting and entertaining evening. I hope that a large number of you will be able to attend this annual dinner which has established such an enjoyable pattern.

"Doc" **Payne**, our class secretary, and **Casey Castleman**, our Reunion chairman, attended the annual class officers meeting at the Roosevelt Hotel in January to get the wheels rolling for our forthcoming 35th Reunion in June of '65. Doc traveled to Houston, Texas last fall to attend the wedding of his daughter Sandra (U of Texas '57). She was married in the River Oaks Chapel to Robert N. Brister, who is outdoors editor of the *Houston Chronicle*. He also works in radio-TV and is a movie-shorts producer. Doc and Kate are planning to visit again the Arecibo Ionospheric Observatory in Puerto Rico this spring as part of Doc's new career as administrative officer for the Cornell Center for Radio-physics and Space Research.

News from **Dr. Phillips K. Champion**, 930 Harmon Ave., Dayton 19, Ohio: Son **Phil Jr.**, 25, is now a senior at Northwestern Medical College. He is married and has a five-month-old baby girl. **Alex**, 23, is in his fifth year at Cornell where he has transferred to chemistry. **Ted**, 17, is a senior at Winchendon School in Massachusetts where he is playing his father's old sports of football and lacrosse.

From **Alfred Lovell**, 8538 214th St., Queens Village 27: son **Fred**, having graduated from Syracuse, is now in the Army. His daughter **Ronnie Fuchs**, who lives in Los Angeles, has had her second child, a boy. **Dr. Lawrence J. Radice**, 501 Linwood Ave., Buffalo 9, is practicing neurology in Buffalo. **Walter White**, 24 Adams Ave., Short Hills, N.J., spent four weeks in India last year on business.

Stu Bonsall, 607 St. Francis Rd., Baltimore 4, Md., and his wife took a trip to Europe last spring. **Raymond L. Love**, American Embassy USIS, APO 205, New York, is now stationed as an attache at the US Embassy in Tehran, Iran.

Col. Eric R. Osborne, whose wife is **Doris Van Derhoef** '30, retired in September as deputy chief of staff, US Army Electronic Proving Ground at Fort Huachuca, Ariz. **Col. Osborne**, who received a reserve commission on his graduation from

Cornell, entered the army for active duty in September 1940. During his 33-year army career, Osborne served as principal designer of several major electronic communications systems and equipment. He was principal designer of a communications control console for Army airfield control towers; a meteorological display console, and a standardization system for installation practice of Army meteorological stations. He also co-authored technical requirements for the position fixing and navigation system being tested at Ft. Huachuca. During World War II, he served as a signal officer with the 2nd and 16th Armored Divisions and with the headquarters of the Armored Command as chief signal officer. Following the war, he was responsible for rehabilitation of the German telephone system in the 3rd Army area. He also served with the Joint US Military Aid Group in Greece as an instructor at the Army Signal School. He was chief of the aviation branch in the office of the Chief Signal Officer and as plans officer for a world-wide communications system. He was graduated from the Armed Forces Staff College in 1950. **Col. Osborne** has joined Pan American World Airways as a staff engineer in Tucson. He will live with Mrs. Osborne and daughter **Jenny** at 2007 E. Edison St., Tucson.

Walter J. Staats Jr., 115 Randle Dr., Cherry Hill, N.J., reports son **Walter J. III** is a senior at Villanova U. His daughter **Margaret**, who is the wife of **Capt. William G. Heath**, stationed at Fort Ord, Calif., has just had her second son. **Walter**, who is still operating his bowling alley, took time off to go to Bermuda last fall.

'31 Men: **Bruce W. Hackstaff**
27 West Neck Rd.
Huntington, N.Y.

We have been somewhat remiss in not announcing that **Birny Mason Jr.** (picture)

was named chief executive officer of Union Carbide Corp. last May. The release was lost in our conglomeration of data and papers and a subsequent release pried it loose. **Birny** joined Union Carbide in 1932 and held various positions in research and production in the Chemicals Co., before he was made manager of the corporation's industrial relations staff in 1952. In 1955, he became secretary of the corporation and the following year was named president of Union Carbide Development Co. In 1957, he became a vice president of Union Carbide Corp. and a member of the appropriations committee. In 1958, he became executive vice president and a director, president in 1960, chairman of the appropriations committee in 1962, and chief executive officer in 1963. He has been the recipient of many awards, the latest being a distinguished life membership in the American Society of Metals, for outstanding contributions to the progress of the metals and materials industry. The award was presented Oct. 22, 1963. **Birny** lives at 12 Preyer Lane, Larchmont.

We had a card and a letter from **James E. Neary Jr.**, who is vice president of Geyer-McAllister Publications, 212 Fifth Ave., New York 10. Jim mentioned that he had seen **Bill Vanneman** during freshman orientation week last fall when both had sons entering Cornell. Jim III is a third-generation Cornelian, his grandfather **James E. '06** being the first of the tribe. His daughter Faith is a junior at Georgian Court College in Lakewood, N.J. Jim also mentioned that **Arthur Hibbard '30**, is a business associate of his. Home from last reports is 20 Haviland Lane, White Plains.

Gilmore N. Cole, 58 Stephens St., Manchester, Conn., chief of engine design, Pratt & Whitney, is the 1963-64 board chairman of the Southern New England section of the Society of Automotive Engineers. Gil is a past president of the Hartford Engineers Club and has served on many committees for the Aerospace Industries Association, the Society of Automotive Engineers, and the American Standards Association. We do know that his oldest daughter **Nancy** was Cornell '58.

We are approaching the time of the year when we hope that all of the class Cornell Fund solicitors are getting to work. One of the mainstays of this group is **C. Rollin Allen**, 20 Corte Algre, San Rafael, Calif. Rollin is in insurance, adjusting claims for major damages and catastrophes. These take him all over the world. He still finds time to send out his letters for the Cornell Fund. His letter of last April 23 should be of great interest.

"Last year my excuse for not writing sooner was a trip to Africa. This year's excuse is not as good—only because of a trip to the Azores. I have been working on the adjustment of a large loss there which entailed two additional New York trips after my first trip to the Islands. In addition I am still working on final adjustments of losses due to Typhoon Karen in Guam last November. Also, as you know, we had storms and floods here in the West which increased my normal work load. All this, together with trips to Baltimore and St. Louis, should give an adequate excuse for the delay in doing my part in the Cornell Fund Drive.

"Results of solicitation direct from Ithaca and from **Bill Brainard** in Maryland have been encouraging so far, with a nationwide increase compared to last year. BUT the Pacific Coast is failing miserably. Only four gifts so far. It behooves the rest of us to seriously consider our responsibility and debt to Cornell. We are so scattered out here that it is almost impossible to make personal contacts, but you have all received enough information in the mails so that you know the situation and the needs of our Alma Mater.

"I'm not going to say more. Just ask you to sit down right now and make a check to the Cornell Fund, and mail it. Then you can throw this letter out and forget about Cornell for another year.—But honestly, can you ever forget?"

Need we say more about the Fund and Class dues?

In addition to the letter, Rollin found time to add a few words about his family and other classmates he had met. He had a two-man reunion in Baltimore with **A. Haslup Forman**. His wife is **Laura Vorhees '31**; his daughter **C. Rolline** graduated from the U of California last June and is now with Wells Fargo. The latest card

Dinner for Perkins

■ Organization of the Cornell dinner to honor President **James A. Perkins** on Monday, April 13th, in the Grand Ballroom of the Waldorf-Astoria Hotel continues at a heady pace. Some 25,000 invitations will be mailed to alumni in the Greater New York area during the first week of March, with a deadline of April 8th for reservations.

A complete line-up of cooperating Cornell Clubs has also been announced:

Men: Nassau County, Rockland County, Westchester County, Fairfield County, Conn., Bergen County, N.J., Essex County, N.J., Lackawanna Club (N.J.), Princeton, N.J., Trenton, N.J., and Union County, N.J.

Women: Staten Island, Brooklyn, Long Island, North Shore Club, Westchester County, Western Connecticut, Bergen County, N.J., and Northern New Jersey.

Cooperating college alumni associations include: Society of Hotelmen, Society of Engineers, I & LR Alumni Ass'n, Medical College Alumni Ass'n, and C. U.-N. Y. Hospital School of Nursing Alumnae Ass'n.

told of another trip, this one to adjust typhoon loss on Marcus Island, three miles in circumference, one mile wide, 20 feet high, flying in via Tokyo on a weekly flight of MATS.

A sermon—I can't, but many of us can do more work.

'32 Men: *Richard H. Sampson*
111 W. Washington St.
Chicago 2, Ill.

Jerry O'Rourke recently wrote me the following letter regarding the plans for this year's class dinner in New York:

"**Ed Fitzpatrick** phoned me recently to say he had a tickler in his file from you to contact you 90 days in advance of the class dinner. I believe we all felt after last year's successful dinner that more advance publicity through your columns might find still more classmates in town for this year. **Whitey Mullestein**, as our new Reunion chairman, expressed the excellent thought that we shouldn't wait five years between the big Ithaca events. So the annual dinner in New York was born last year. A few of us got busy on the phone at nearly the last minute and fifteen classmates had such a good time that we decided then and there to repeat the date.

"So all classmates in and near New York—and those whose traveling itinerary might be arranged—are urged to red circle the date, find an old buddy, and show up for a drink, dinner, and some good talk. **Bob Purcell**, class president, told some wonderful stories of his experiences with his Neffertiti, one of the fine challengers for the America's Cup. Arrangements have been completed for him to bring color film of the trials, and Bob will be on hand with a lot more interesting stories of the '62 trials, plus plans for the 1964 trials this coming summer. Definite reservations have been made for the dinner at the Cornell Club on Tuesday night, April

14. Cocktails as early as you can make it and dinner at 7:00 p.m. Out-of-towners can be bedded down if they will let us know in advance. A general mailing will be made next month with names and phone numbers of several classmates who can take reservations. Those who made it last year were **Bob Purcell**, **Ed Fitzpatrick**, **George Dickinson**, **Al Green**, **Ben Falk**, **Erik Roos**, **Joe Gold**, **Pete Ruppe**, **Morris Traub**, **Milt Smith**, **Bob Reidel**, **Herb Heerwagen**, **Peter Keane**, **Kay Hoffman**, and myself."

Jerry can be reached at **Blaikie, Miller & Hines, Inc.**, 527 Madison Ave., New York 22, if you wish further details.

Dr. Tarmo Pasto, professor of art and psychology at Sacramento State College, has received an \$80,000 grant from the National Institute of Mental Health for a two-year study of the use of art in the diagnosis, therapy, and recreation of patients and inmates in California mental and youth authority facilities. The two-year study which begins in June will include an extended series of consultations and staff conferences with officials and staffs of California mental hospitals and detention facilities from which will emerge more widespread and effective uses of art, both in patient therapy and in psychological diagnosis. Pasto was awarded a Ford Foundation Fellowship in 1952-53 for a semester of study and research at the U of California, Berkeley, and a half-year on the staff of DeWitt State Hospital in Auburn. In 1960-61 he was on leave in Finland as a Fulbright lecturer on psychology and art. For the past fifteen years, Dr. Pasto has made an intensive study of psychotic art and has been a consultant to the state department of mental hygiene.

Robert A. Eyerman writes "Thirty-five years ago when I pledged Delta Tau Delta fraternity, I was told that before I graduated I would be living in a new house. Now, 35 years later, I am proud to be the architect for the new Delt House which will be built at the corner of Stewart Avenue and Campus Road. Construction will start this year, with completion set for September 1965. The house will be built under the newly created university group housing plan." Eyerman can be reached at 54 Public Sq., Wilkes-Barre, Pa.

William S. Bachman sent the following note: "I abhor writing about myself, but offer the following because I would like to read the personal histories of my classmates: Daughter **Louisa '59** married **Karl E. Gerstenberger**, also '59. Two fine grandchildren. Son, **William Stephen Jr.**, senior at Dartmouth. My work: engineering problems of recording and manufacturing phonograph records for Columbia Records division of CBS." He can be reached at 26 Spruce St., Southport, Conn.

David R. Fair writes from Washington, D.C. that he is with the design and construction division, General Services Administration, which is responsible for the construction, alterations, and remodeling programs for all the beautiful monumental buildings in the nation's capital. He also reports that he has a daughter **Ramey E.**, who is a junior at Mt. Vernon Seminary. You can reach him at 4773 Dexter St. NW, Washington 7, D.C.

As a parting remark—I think **Stan Hubbel** would appreciate receiving checks

from those who have not yet paid their dues. Let's give him some prompt action.

'33 Men: Robert H. Wainwright 1828 Sixth Ave. Beaver Falls, Pa.

Let's keep the dues and news coming. **Ted Tracy, Dick Vanderwarker, Dick Wels, Emery Thompson Jr., Charlie Mellowes, and Jack Detwiler** held a meeting in New York to discuss class finances. We are still solvent, but could do better. Please note again your correspondent's change of address.

Robert C. Bacon, Casilla 13473, Santiago, Chile, is managing director, Wells Mining Contractors. He is a member of the board of governors of the American Society of Chile. **Herman A. Dreyer**, 181 Lynbrook N, York, Pa., says he is chief engineer but does not state what business.

William R. Lockridge, 12 Sea Spray Dr., Centerport, is employed at Airborne Instruments Lab., Cutler-Hammer Inc., Melville. **Donald W. Russell**, 601 Pixley Rd., Rochester, is administrative director of the Monroe County Sewer Agency. He is disaster chairman of the Gates branch of the Red Cross. **Harold A. Levine**, 25 Nagle Ave., New York, is a dentist.

William A. Console, M.D., 70 Intervale, Roslyn, is a practicing psychoanalyst and is clinical professor of psychiatry at the State University of New York, College of Medicine. His son **David** is '67, and his daughter **Heloise** anticipates entering the graduate school next fall.

Brig. Gen. Willard S. Magalhaes, 634 Knollwood Ter., Westfield, N.J., has retired from the active reserve of the US Air Force and the Air National Guard after his third recall into active service. He is with Consolidated Edison in the purchasing dept.

Marshall J. Walker, Star Route, Chaplin, Conn., is associate professor of physics and acting department head at the U of Connecticut. His book, *The Nature of Scientific Thought* was published by Prentice-Hall in 1963.

Roger B. Garlock, 6212 Greentree Rd., Bethesda, Md., is contract negotiator, Agency for International Development, Department of State, Washington, D.C. **Edward W. Proctor Jr.**, 40 Creston Ave., Tenafly, N.J., is president of the American Society of Onomatologists. His hobby is sports cars. He drives a 1.5 liter Amara V-8.

'34 Men: Thomas B. Haire 111 Fourth Avenue New York 3, N.Y.

George M. Hand can still be reached at Box 37, Limekiln, Pa., and has just finished a busy and interesting six-year term on the local township school board. **Steve**, his oldest son, is a junior at Cornell; **Terry** is a plebe at West Point; and **Jack**, a sophomore at high school.

Richard F. (Dick) Hardy, 118 Oak Ridge Ave., Summit, N.J., is president of General Telephone Credit Co., and assistant to the executive vice president in charge of finance of General Telephone & Electronics Corp. His son **Richard** is a sophomore at Purdue, but the family is

still represented at Cornell by his daughter **Jinny**, who is a freshman in Home Economics.

Louis Hatkoff, 26 Redbrook Rd., Great Neck, and wife **Janet** have two youngsters, **George**, 17, and **Adriane**, 14. Louis practices architecture and interior design in New York, with spare time devoted to golf, tennis, and recreational architecture.

Richard H. (Dick) Reiber (picture), 66 Lowder St., Dedham, Mass., has been appointed vice president and director of the P. F. Avery Corp. of Billerica, Mass. This company is engaged in the designing, manufacture, and testing of metal products for nuclear, space, and related fields. **Dick**, a native Pittsburgher, was formerly district manager of US Steel supply division.

Joel Trapido, 3615 Alani Dr., Honolulu 14, Hawaii, will be happy to show to any '34s who are out that way the new theater they have opened at the U of Hawaii (where Joel has been for more than 20 years). The theater is unique in America in a number of ways, unusual in others. One of its features is a backstage area which Joel believes is the widest in the country. He writes that the Willard Straight Theater could rattle around on it, and states it was not a matter of money, but the principles on which it was designed.

Sidney Leopold, Rt. 5, Frederick, Md., has left Fort Detrick and accepted a position with the US Public Health Service, Bureau of State Services, 8120 Woodmont Ave., Bethesda, Md.

Stephen A. Voelker, 2558 Chester Rd., Columbus 21, Ohio, and his wife hope to see us all at Reunion. Both of their daughters are married, the Pembroke graduate to a Brown man and living in Columbus, the Radcliffe graduate to a Harvard man and living in New York, where she is studying at the Rockefeller Institute. **Steve** is service manager at the Columbus works of Westinghouse Electric Corp. and will soon become a grandfather, courtesy of his Pembroke daughter.

Major A. I. Rodriguez-Pereira, 58-04 80th St., Elmhurst, is scheduled to retire from the US Army at the end of April. He intends looking over Arizona, Nevada, and California as possible retirement locations.

Dr. William D. Holden, 2195 Demington Dr., Cleveland 6, Ohio, is the Oliver Payne Professor of Surgery and director of department of surgery, Western Reserve U and University Hospitals of Cleveland. He has a son **John** at the U of Massachusetts; a son **Frank** at Western Reserve U School of Medicine; and a daughter **Katherine** at the Hathaway Brown School. The Reverend **John A. Todd** has retired and is now living in Harrison, Arkansas (Box 573).

After nine years in overseas work, mostly with the Food and Agriculture Organization of the UN, **Tuure A. Pasto**, Rt. 4, Box 467-B, Tallahassee, Fla., is now with the Florida Development Commission there. He is married to **Margaret**, sister of **Ben Bradley**. He has two sons in graduate

school at FSU, and a daughter, a sophomore at the same school. He was presented with a granddaughter in November 1963.

Lincoln C. (Pink) Pettit is faculty adviser for Alpha Phi Omega, the collegiate scouting service group for men. He is busy writing a book, working on department reorganization, and changing residences.

After 23 years at the Firestone Tire and Rubber Co. in Akron, Ohio, **Donald H. Ramsey**, Box 584, Mattapoisett, Mass., has been made production manager of the New Bedford Defense Products Co., one of its subsidiaries, located in New Bedford. He and his wife **Marion** have been busy exploring new horizons in historic New England with the gateway to Cape Cod as their base. One son **Richard** is at Bowling Green State U in Ohio, while his other son **Donald** is a senior in high school in Mattapoisett. Both Dons—father and son—spent a lot of time this summer skiing on the waters of Buzzards Bay.

Frederick W. Scott Jr. reports in as being "still alive—but weaker!" He is living in Canada, 3 Melrose Dr., RR 1, Niagara Falls, Ontario, as a "landed immigrant" and is vice president and general manager of Canadian Carborundum Ltd. **Skidmore** has claimed both his daughters; **Cynthia** has graduated and **Susan** is a senior. **Fred III** is a freshman at Hobart, and son **Bob** is in the De Veaux School, and may be **Fred's** only representative at Cornell. **Fred** hopes his wife **Jeanie** will accompany him to our Reunion.

Peter I. Tack, Rt. 3, Grand Ledge, Mich., is chairman, department of fisheries and wildlife at Michigan State U. Both of his children are at Alma College, **Steve** a junior, and **Kathy** a freshman. His wife **Betty** is active in church and educational activities.

Chester L. Landaker has retired from the US Army as Colonel after 30 years' service in the Corps of Engineers. He is now lecturer at the Southern Regional Division of the U of Nevada in Las Vegas, teaching mathematics and engineering. He, his wife **Mary**, and their two sons, 12 and 13, live at 4205 El Pasada, Las Vegas.

Frederick W. Fink has moved to 2354 Dorset Rd., Columbus, Ohio, but will not be found there for some time. He is to be guest lecturer at Danish Technical U in Copenhagen until August 1964. His subject: corrosion of metals.

Herbert E. (Bert) Frazer, left Kissimmee, Fla. in January 1963, and now lives at 5169 Walnut Grove, Memphis, Tenn. **Bert** is general manager of the Summit Club in Memphis, and together with his wife **Muriel**, is looking forward to Reunion. The **Frazer** children are keeping physically fit—**Donald** on the cross-country track team of Christian Brothers School and

Alice Statler Auditorium

Attractive Cornell Chairs For Your Home or Gifts

Hundreds of Cornellians have purchased and enjoy the Cornell Chairs for their homes and offices. They are attractive, substantial, and excellent values; ideal as appreciated gifts for Cornell friends.

Both have hand-rubbed finish of satin black with gold striping and the Cornell Emblem in full color on back slats (Armchair has dark maple arms). They are sturdy and comfortable, built by New England specialists, of selected northern hardwood.

Cornell Armchair

Only \$34.25

Cornell Sidechair

Only \$19

Chairs will be shipped directly from the makers, carefully packed and fully guaranteed. If you wish to send them as gifts, add Railway Express shipping cost from Gardner, Mass. to your remittance: 30 pound carton for Armchair, 25 pounds for Sidechair (2 in carton). Your card will be enclosed, if sent to us with your order. Payment must be enclosed, to Cornell Alumni Association, Merchandise Division. Allow three weeks for delivery.

← **Please Use Coupon NOW!**

Cornell Alumni Assn., Merchandise Div.
18 East Avenue, Ithaca, N.Y.

For payment enclosed, ship Cornell Armchairs at \$34.25 each; Cornell Sidechairs at \$19 for one or \$18.50 each in pairs; express charges collect (or enclosed). Express shipping address is (please PRINT):

Name

City State

Kelly Jean on the Memphis Athletic Club swim team.

Vinson W. Grad, 14 Eastland Ter., Haverhill, Mass., reports his oldest son Jeffrey is in his first year at Columbia Law, while the younger, Bill, is a senior at Phillips Exeter Academy where he is president of his class, captain of winter and spring track teams and on the varsity football team.

Robert S. Grant, 715 Hanshaw Rd., Ithaca, is assistant general counsel, Cooperative Grange League Federation Exchange, Inc., a farmers' cooperative. He has two grandchildren and will, no doubt, have some pictures on hand at Reunion.

The **Groners (Dave and Ruth)** find themselves rattling around the house at 131-65 227th St., Laurelton, now that their daughter **Susan '62** is Mrs. Mike Blumenfield and on her way to a master's degree from Columbia this June, and son Paul (MIT and Brooklyn Poly) is a micro-circuits engineer for Corning Glass in Raleigh, N.C. Dave still keeps busy at Ebasco Services, Inc., as squad leader designing major steam and hydro power generating works.

'35 Men: Albert G. Preston Jr.
252 Overlook Dr.
Greenwich, Conn.

Frank A. Ready Jr., 4 Putnam Hill, Greenwich, Conn. wrote in mid-January that he and his wife (**Evelyn "Peg" Walker '36**) were leaving for Japan for a three-to four-month stay in the Far East. Frank is vice president of Dunham & Smith Agencies, Inc., 39 Lewis St., Greenwich, Conn., engaged in the export and import of food and beverages. Frank indicated that he and Peg have been in Ithaca several times during the past year. Their daughter **Gail '67** is in Arts College, and their son **Frank III '64** is a fifth-year student in electrical engineering. Frank may be reached in Japan at Dunham & Smith (Japan), Ltd., PO Box 169, Yokohama. Frank also reports that he was recently appointed regional vice president for the Cornell Society of Hotelmen, with primary concern for overseas chapters.

John W. Todd Jr., was appointed, effective Jan. 1, vice president-distribution, with US Steel Corp., 525 Wm. Penn Pl., Pittsburgh 22, Pa., with responsibility for heavy products, including shapes and plates, bars, rods and semi-finished steel, tubular and alloy products, and railroad products. Jack started with US Steel at Homestead District Works, Pittsburgh, as metallurgical observer following graduation from Cornell. After several promotions in engineering and sales, he became assistant manager of alloy sales in 1949. In 1954 he was made assistant general manager of sales for Tennessee Coal & Iron Division, Fairfield, Ala., and became general manager in 1956. In 1959 he was appointed to his previous position as assistant vice president-sales distribution. The Todds have two daughters—Virginia, 16, in Ellis School and Wendy (Wells '61), who is now married and the mother of a year-old daughter, Lauren Bidstrup. Jack is active on the YMCA board of directors, is a justice of the peace, and a district Republican committeeman. He is a member of the Duquesne and Allegheny Country Clubs.

Edward H. D. Gibbs, 666 Osage Rd.,

Recent Bequests

■ December bequests totaled \$327,178.88. These included \$146,834.16 from the estate of **Aubrey W. Lawton '18**; \$1,000 from the estate of **Franklin L. Newcomb '13**; \$17,059.56 from the estate of Louis J. Taber; and \$50,000 from the estate of Elizabeth H. Whiting.

In January, bequests amounted to \$726,400.01. Included in this total were \$801.71 from the estate of **Clarence S. Adams '04**; \$500 from the estate of **William C. Hooy '12**; \$15,316.53 from the estate of **Martha Durell Bodine Keeler '11**; \$742.76 from the estate of Edward Steehlin; and \$672,594.41 from the estate of James Vick. In each month, the balance came from estates previously announced.

Pittsburgh 16, Pa., writes that he is vice president-sales for Heyl & Patterson, Inc., a 75-year-old firm of contracting engineers. Ed reports that he has four stepsons ranging in age from 19 to 27 years—one in the Navy and three in college.

Alan H. Barrows, 271 Bermuda Dr., Greenville, Miss., reports that Dillingham Manufacturing Co. recently moved its furniture manufacturing from Sheboygan, Wis., to Leland, Miss., where with assistance of Washington County under the State Industry and Agriculture Act it now operates a modern, 85,000-square-foot, single-story plant.

Sanford H. Bolz, Crocker-Anglo Bank Building, Salinas, Calif., writes "our daughter **Diane** is now a sophomore at Cornell, having entered in September 1962—College of Arts and Sciences. She loves Cornell, as we knew she would, having loved it ourselves." (Mrs. Bolz is **Joy Farbstein '38**.) "Her enthusiasm warms our hearts, even though it makes us feel old to remember how long ago it was when we were experiencing the same great adventure."

Richard L. Katzenstein, 23 Howland Lane, Hingham, Mass., is project manager for nuclear plants for submarines with Bethlehem Steel Co., Quincy, Mass. Dick has been active in the Community Chest, is a former chairman of the budget committee, is also a former treasurer of the Richmond County Republican Committee, and is a past director of the Hebrew Technical Institute.

Thomas B. Harvey, 6356 Washington, St. Louis. The Harveys' son **Thomas III '66** is in Arts and Sciences. Tom was a major in the Army Signal Corps during World War II and is a member of the St. Louis Engineers' Club, Bellevue Country Club, and Missouri Athletic Club.

C. Ridgely Kemp, 16 Essex Lane, Deerfield, Ill., is a partner in Aluminum Mills, Inc., an aluminum rolling mill. The Kemps' son David Ridgely graduates from high school this year and will prepare for the Lutheran ministry at Augustana College. Their married daughter, Kathryn Margaret Lewis, has a daughter and three sons—Janice, 8; Jeffrey, 6; Jonathan, 4; Gregory, 2. Ridge writes that he sees **Frank MacFadyen**,

his wife Kay, and their children, Bonny and Frank Jr., when they pass through Chicago. He reports that "Fadge" is development-engineer for Timken Roller Bearing Co., Canton, Ohio.

'36 Men: Adelbert P. Mills
1244 National Press Bldg.
Washington 4, D.C.

"Round the world Cornell" is the refrain again this month as dues payers have checked in from a variety of remote places, some simply stopover points for tourists and others permanent addresses. Climb on your magic carpet and hit a few high spots with me!

Our man-in-the-middle-of-a-crisis, Col. **Edmund R. MacVittie**, mailed in his check from the Canal Zone. With it came a copy of the Jan. 20 issue of *Spillway, Publication of the Panama Canal*. This contains a message from the Canal Zone Governor deploring US press treatment of the rioting, and promising that "the true story" would come out later. Feature article in the four-page tabloid is: "What Really Happened," billed as "a factual summary of the events of Thursday, Jan. 9."

A bit farther south, **Paul E. Deutschman** mailed his class dues from Colombia, just before leaving for Honduras. Paul has forsaken the government for free-lance magazine writing, based at 411 E. 53rd St., New York 22.

Also in Colombia last summer was **Gordon M. Cairns**, dean of agriculture at the U of Maryland. On a quick trip for the US Department of Agriculture, he also visited Peru. Gordy has a son and daughter at Md. U. Home is at 6506 41st Ave., Hyattsville, Md.

Switching continents, **W. William Wiitanen** relays the news that **Jim Thomas** has stuck to the Middle East but transferred from Beirut to Amman, Jordan. Between assignments, he visited his former home in Hawaii and was briefed in Washington. Bill said that in his annual Christmas letter, Jim told of visiting "the trackless desert in Wadi Rhum, where the nomadic Bodouin, or Bodu, live today in their goat-hair tents as they did before the days of Christ." Jim's address: USAID/AMMAN, US State Dept., Washington 25, D.C.

Dr. **Robert F. Holland** has forsaken Trumansburg temporarily to put his three Cornell degrees to use in Africa. He is spending 1964 at Egerton College in Kenya, setting up a teaching program in bacteriology. His wife and 17-year-old son are with him, in a new three-bedroom house overlooking the Rift Valley.

Moving on to Europe, our '36 tour finds **Don Keeler** "back in Germany for the first time since '44-'45." Don added that he does not expect to return to the US until October 1966, "so will miss the Reunion again." However, he is not easily discouraged and adds: "Hope to make it in 1971." Address: Lt. Col. Donald L. Keeler, G2 Section, HQ VII Corps, APO 107, New York.

Passing through Europe last September was **Richard L. Hibbard**, 1245 Canterbury Lane, Glenview, Ill. Dick and wife visited Naples, Rome, Florence, Venice, Paris, and London. He reported: "Couldn't resist visiting Utah Beach where I once crossed." Dick also mentioned a pleasant evening at the

Cornell Glee Club performance in Chicago in January.

Touching some of the same bases a bit later was **Jim** (It's G-Easy) **Forbes**. He dropped in on London, Paris, Stockholm, Bremen, Stuttgart, Geneva, Milan, and Florence. "Who's this Florence?" asked Jim. "My wife's name is Carol and she was with me!"

One other note from the international jet set and we'll come home. Prof. **Harry W. Kitts** wrote his dues check from Thailand. He will wind up two and one-half years there in time to return to the U of Minnesota next July. His permanent address is 2921 N. Victoria St., St. Paul 13.

The Reverend **Arthur F. Glasser**, an ordained minister of the Evangelical Presbyterian Church in Philadelphia, contributed this item: "Cornell never looked so good as it did this past September when we committed our son **Sam** to its tender mercies and life in the Class of '67. Nostalgic feelings were further heightened as we wandered about the place and had a special reunion with **John McManus & Co.**"

Art is home director for the US and Canada of the China Inland Mission, Overseas Missionary Fellowship. At heart, he is still an oarsman. He reported a visit to the Naval Academy and his pleasure at a commodore's effort to explain away Navy's crew losses to Cornell last spring. Art said he made "some friendly noises" about Cornell's crew making it to the Tokyo Olympics this year.

Howard T. Heintz, who forsook St. Louis to become merchandise manager of Best & Co., New York, is continuing the family Cornell tradition. His eldest son is a senior at Ithaca now, his next will enter next fall, and "three more still to go." The Heintz home is at 79 Glen Hill Rd., Wilton, Conn.

Col. **Franklin E. Schroek**, after 27 years in the Air Force, is back where he started, at Kelly Field. His new address is 350 Wildrose Ave., San Antonio, Texas. Wife Dotty barely survived back surgery last summer. They have two grandchildren, plus Frank Jr., a senior at Rice, and daughter Valerie in junior high.

'37 Women: Carol H. Cline 302 Ryburn Ave. Dayton 5, Ohio

Now hear this: We have finally found a classmate who agrees that it is not fair that one gal (your present correspondent!) should be stuck with meeting the deadline for this column indefinitely. **Ruth Lindquist Dales** has volunteered to take over—if all of you '37 gals and anyone else who may read this column will send her news items, address changes, etc. "Link" has a full-time job teaching biology to high school students at Buffalo Seminary, and she and husband "Gard" '36 have to keep up with the many activities of son Andy, Cornell junior in Engineering, and daughter Judy, a high school senior, who hopes to get into Cornell next year. So make this news reporting job easier for her by sending her at least one postcard each year with news about yourself and other '37 gals. Don't forget to be exact and specific with the facts, including names, addresses, dates, titles, etc. To encourage "Link" and start her off with some material, write to her today. Address your

newsy notes to: Mrs. Gardner H. Dales, 136 Lancaster Ave., Buffalo 22.

Yours truly thanks all of you lovely classmates and kind readers for the news and the encouragement for this column over the years—but I shall be most unhappy if "Link" doesn't get the same cooperation and encouragement and news from you. Keep her address handy and use it often. (But don't throw away mine altogether—if you ever get to Dayton, stop by for a chat.)

I had a nice Christmas note from former Cornell Professor Leonard S. Cottrell, whose daughter Suzi married Montgomery Woolson, a fellow student at Bates College, during the Christmas holidays. Son Len Jr. was also home for the holidays—he's working on his PhD in math and statistics at U. of California at Berkeley. Professor "Slats" says his wife Anita "still works at showing adolescents how to use the library and enjoy it. . . I am still busy with Russell Sage Foundation projects and various research programs I help with in the Federal Government. . ."

Writes **Mary Wood**: "Early in February I'll join the Cornell team at U. of Liberia to study the need for home economics in the university program there—a four-month assignment. I'm pleased that it won't be a 'solo flight' and I'll be with other colleagues."

Joan Slutzker Sharp writes from Minneapolis:

"Mother passed away in November 1962 and Dad has been extremely ill. . . I commuted to Jersey for many months while trying to keep my home going here. Son Jeff is a junior at U. of Minnesota, majoring in advertising, active in student activities, on the dean's list. Son David is in eighth grade at Blake Country Day, ranks third in his class. . . Jeff and I were writing a sonnet for something a couple years ago and looked over some old poems of mine and found that fabulous dilly Lucile Sipson wrote for me on my 20th birthday! . . . I've been on National Board of Brandeis and had to be in Boston for a four-day conference there at the time you all were enjoying our 25th Reunion. . . have been head of youth activities in our Sisterhood . . . and on board of Mt. Sinai Hospital. Ten years ago I dieted myself down to size 12 and have held it. . . I love the easy-going and friendly life of the Middle West. Minneapolis has so much to offer in cultural advantages—art shows, theater (a year late, but so what), symphony, Tyrone Guthrie Theater to boot. I belong to a book club (we've worked our way up from 18th-century literature through France, Russia, England and the US and are now on 20th-century moderns) and a poetry study group for which we have to do a paper every few months. That is the fun of living near a university—we can avail ourselves of the wonderful minds, classes, and lectures. . . . Any of you who come through Minneapolis, call me. It would be fun to renew friendships."

'38 Men: Stephen J. deBaun 2010 Addison St. Philadelphia 46, Pa.

A note from **Vince Pardo** tells us that he is—get this—head, instrumentation (facilities), space environmental facilities branch, Manned Spacecraft Center in Houston. He says, "Texas is pleasantly warm and not nearly so expensive to live in as California. Yes, it was beautiful in California and we have slides to prove it; but Texas is fun-loving, and one doesn't grow old here

either." Vince's new address: 1926 Huntress Lane, Clear Lake City, Houston 58.

Newell Cummings is a captain in the Navy, currently in Bonn "serving here as logistics advisor to the Federal German Navy—most interesting assignment." Address: APO 80, Box 810, Postmaster, NY. **Carl Wilson** was toastmaster at a Milwaukee Cornell Club dinner at which President Perkins spoke last fall. **Jim Vaughn** was made chairman of the Akron area in the university's Centennial campaign for \$73.2 million. **Carl Wilson** was named vice chairman of the Milwaukee area for the same campaign.

Dave Curtiss, a Cornell Law School professor, is serving as chairman of a New York State committee studying the problems of municipal police jurisdiction, benefits, and liabilities. **George Batt** officiated as president of the Beacon-Newburgh Bridge Celebration committee at the new bridge's opening in Newburgh late last year. **Henry Klein** was elected president of the Lexington School for the Deaf in New York.

A poultry scholarship in memory of **Bob Marshall**, who, before he died in 1962, was an Ithaca hatchery operator, has been set up by the College of Agriculture. A group of Bob's friends and associates collected \$4,000 from the poultry industry, which will make possible an annual \$200 award to a deserving Cornell student interested in the field. Bob's widow, **Jean Smith '39**, and his father presented the first scholarship check to Dean Charles Palm on behalf of the scholarship committee.

And now for a children's report card. **Ted Hughes'** oldest daughter Kitty graduated from Northwestern. "Still struggling to make enough to keep a second kid in college & feed the rest of the family. Threadbare but happy, that's me!" **Dutch Gardner** has three children — Nancy, 17, and twins Dick and Doug, 13. **Henry Hofheimer's** oldest girl Nancy is a senior at William Smith College, next oldest Ellen is a sophomore at Connecticut College, and youngest Barbara goes to Scarsdale High School. **Johnny Pistor's** oldest son is at Rollins College in Florida. **Milt Porter's** daughter **Susan** is Class of '66 at Cornell. So is **Bill Rockwell's** daughter **Anne**. Both of **Bill Rosenberg's** daughters, 10 and 14, "are avid Cornell rooters." **Julian Silverman** is "still raising chickens"—three boys (17, 12 and 11). **Alan Raphael's** two children are now 14 (Cathy) and 13 (John).

For the interest of anyone in the areas: Sorry, Charlie, Your Time is Up, the Mask & Wig show of the U. of Pennsylvania, which I've written this year, will be on tour this month: Mar. 10, Boston; Mar. 11, King's Point Merchant Marine Academy, L.I.; Mar. 12, Pittsburgh; Mar. 13, Buffalo; Mar. 14, Syracuse. Check the Penn clubs in each place for tickets (plug) and I hope to see you there.

'38 Women: Eleanor Bahret Spencer Titusville Rd. Poughkeepsie, N.Y.

The certificate reads "Cornell Fund Achievement Award." This citation is awarded to **Sylvia Gluck Grossman**, whose excellent performance as class representative inspired the Class of 1938 to achieve honors in the 1962-63 Cornell Fund."

Sylvia received this recognition at the Cornell Fund meeting in New York in December. Attending also were two of her able assistants; **Elizabeth Tompkins** and **Germaine Miller Gallagher**. Our heartiest congratulations to a gal whose determination, persuasiveness, persistence, and patience increased the number of donors in our class by 33 per cent, hence the award. When we heard from Sylvia, she was looking forward to a dinner meeting with President Perkins to discuss aspects of fund raising in regard to the Centennial Fund of \$73.2 million. And in practically the same breath in which she mentioned that staggering sum, Sylvia mentioned that she is working part-time as a dollar-a-year woman assistant to the county attorney of Nassau Co. The rest of her time she devotes to her family who are also acquiring honors—oldest son Bill was elected to the high school honor society in his junior year, and second of her trio, Edward, was elected vice-pres. of his freshman class.

In January, **Muriel Cook Thomas**, **Carol Thro Richardson** (substituting for **Elaine Apfelbaum Keats**), and your correspondent attended the class officers meeting in New York. At the officers' workshop, a hard-working committee presented a long overdue and most welcome pattern for uniformity in the class organizations. It suggested a common date for class reports to the university, minimum class dues, a model constitution, and it made available a manual designating specific duties and responsibilities of each officer. This concrete plan will provide a comparative view of the activities and achievements of all of the classes. It should also be a tremendous help to nominating committees in selecting a slate of officers, and to prospective candidates who will be aware of what each position entails.

A report from our Reunion Chairman, **Cookie Thomas** relates "**Bobbie Sumner Cutler** relayed the 1938 blue and gray banner to me. Now it is moth-proofed and ready for our thirtieth in '68. You will be interested in hearing that **Pauline Schmid '25** announced at the Reunion chairmen's meeting that registration for Reunions will be back in Barton again. She said that the university was pleased with the way the "new look" had worked out last June. Pauline is going to be a great help at Reunion time—she has all of the answers and angles. All we have to do is go back." **Cookie** adds "Shame on 4/5 of us. Heard that out of 104,000 alumni trustee ballots sent out from the university to living Cornellians last spring, only 1/5 were returned. Don't let your children see this."

We enjoyed a respite from business when we joined '38 men **George More**, **Roy Black**, **Ed Pfeiffer**, **Jack Thomas**, and **Steve de Baum** at the lunch table. Incidentally, **Elaine Keats** intended to go to the meeting, but she and her husband received an unexpected invitation to visit in Jamaica, B.W.I., so she asked **Carol** to fill in. Wouldn't you have done the same?

I hope that you keep your directory close at hand for changes and corrections in address. Here are some more: Mrs. **Norman F. Harrington Jr. (Le Vantia Smith)**, East Ave., Naples; Mrs. **Merritt W. Means (Laura Smith)** Eddy Ridge Rd., Marion; Mrs. **Phyllis P. Whitworth (Phyllis Per-**

ABOUT 60 Cornellians gathered to hear Tom Harp and Harrison "Stork" Sanford discuss football and crew at a recent stag smoker held by the Cornell Club of Fairfield County at the Silvermine Tavern in Norwalk, Conn. Pictured here in the usual order are: **Charles E. Dykes '36**, director of the Club; **Norman L. Christensen '42**, president of the club; "Stork" Sanford; Tom Harp; and **Howard F. Hall '29**, director of the club.

rine) P.O. Box 63825, Oklahoma City, Okla.

'39 Men: **Aertsen P. Keasbey Jr.**
392 Harris Rd.
Bedford Hills, N.Y.

Al Lentz has settled in Little Rock, Ark., and is with the American Advertising Display Corp., P.O. Box 2658. This bit of intelligence comes from **Art Slocum**. The following rundown on **George Carrier** was received from Ithaca, "Professor Carrier received his ME and PhD from Cornell University. He has been a professor at Brown University and, since 1952, Harvard University. He is a member of the American Mathematics Society, the Society of Industrial and Applied Mathematics, Sigma Xi, and a Fellow of the American Academy of Arts and Sciences. Professor Carrier is on the committee on atmospheric sciences of the National Academy of Sciences, and member of the Corporation of Woods Hole Oceanographic Institute. He is a consultant for the Atomic Energy Commission, the Los Alamos Scientific Laboratory, and the Scientific Advisory Committee, Ballistic Research Laboratories, Aberdeen. He is associate editor of both the *Quarterly of Applied Mathematics* and the *Journal of Fluid Mechanics and Physics*."

On Dec. 1, 1963 **Henry Nearing** was promoted to assistant superintendent of electrical distribution engineering, Rochester Gas and Electric Corp. Henry lives at 47 Coolidge Ave., Spencerport. **Gerard Hollander** has moved to 1245 Ruffner Rd., Niskayuna (near Schenectady). **Paul Rapaport** and his wife intend to attend the Twenty Fifth. Doc **Bob Ferber** writes that his son is a freshman in the Ag School. **Bob Lull** reports that for the last fifteen years he has been practicing law in Corning, where he lives at 231 Watauga Ave.

Jack Kavanagh can prove he is getting old because his first daughter has presented him with a grandson as well as a granddaughter, his second daughter is in school in Florence, Italy, and one son is in college and the other in prep school. He says he is

well and expects to be at the Twenty Fifth. **Charles Hunt** sends us the following: he is vice president of the Liberty National Bank and Trust Co. of Buffalo and manager of the Oakfield branch. The children are called the Seven D's, five girls and two boys ranging from 23 and married, to 4 years old. He lives at 40 Coe Ave., Oakfield.

Bob Nagel lives at 4406 Sunset Rd., Knoxville, Tenn., and writes, "Still secretary-treasurer of the Tau Beta Pi Association, with headquarters at the U of Tennessee. Do much traveling in the job. Oldest child, Virginia, entered Cornell as a freshman in Arts this fall. Two other children, Robert, 15, and Cynthia, 12. Wife former **Ruth L. Davis '38** and I have just celebrated our 24th wedding anniversary."

Peter Granson is doing general surgery, is married to **Otelia Allen '46** and has three sons and one daughter. He lives at 355 West Whipp Rd., Dayton, Ohio.

Bill Kunsela writes from his home at 14-2 St., Delhi, "After one and a half years in Israel as project director for State University of New York, I am now settled back into the routine and challenging job of overseeing an expansion and building development program on the Delhi Tech campus where I have been president of the two-year unit of State University since 1955."

'40 Men: **John L. Munschauer**
Placement Service, Day Hall
Ithaca, N.Y.

Rolfe F. Schell has written a book called *Yank in Yucatan*. It is an adventure story which will be of interest to travelers. It covers some little-known ancient and medieval history of the Maya and early Spanish in Yucatan, Campeche, and Quintana Roo. It is published by the Island Press in Ft. Myers Beach, Fla.

Paul C. Wolters is manager, product production engineering, in the meter department of General Electric, the company he has been associated with for 17 years. He lives at Woodland Lane, Rochester, N.H.

Bennett Woods has a daughter who is now a senior at Penn State majoring in

mathematics. Daughter **Elaine**, is a freshman at Cornell. They live at 514 Boulevard, New Milford, N.J.

Bill (William C.) Mogk Jr. now lives at 628 Carriage Hill Dr., Glenview, Ill. He writes:

"On February 1st of this year, I accepted a position with Helene Curtis Industries, Inc. I am now the national sales manager of the Lenthalic Parfum division. This necessitated a move to Chicago. So in June we left sunny California and drove across the country. We are now living at 628 Carriage Drive and enjoying it very much. It is hard to believe, but there are more fine golf courses in this area than in California. As you can tell, golf has now become my favorite hobby and, as a matter of fact, my wife Vivian has taken it up too. Our daughter Pat is living in Cincinnati, Ohio and has made us grandparents twice (can anyone in our class beat that?)—our son Bill is in the Army and spending two years in Germany, at present in Stuttgart—that leaves us with a nine-year-old at home, and the way he is growing, he should make a good fullback or tackle. Will be traveling all over the country from time to time so hope to see some Cornellians. Attended a convention in Philadelphia this summer and ran into **Bob Bennett**, who is at the Ben Franklin and **Dan Westervelt** who was up on a trip from Florida."

'40 BS-HE—Mrs. Karl M. Mayhew Jr. (**Bette Limpert**), 18 Pleasant St., Canton, writes: "Enjoyed representing President Perkins and Cornell at the inauguration of President Foster Brown of St. Lawrence U here in Canton. Received five-year 4-H leader pin recently. Continue as chairman of home demonstration unit." The Mayhew children include Stella Ann, 15; Beth, 12; Jamie, 10; and Karlie, 3.

'41 Men: **Robert L. Bartholomew**
51 N. Quaker Lane
West Hartford 7, Conn.

Guest speaker at the luncheon for the annual class officers' meeting held in the ballroom of the Hotel Roosevelt, New York, on Jan. 11 was Dean of Students **Stanley W. Davis** (picture), who outlined the scope of his department's responsibilities in an informative and entertaining manner that drew many questions from some of the 250 class representatives in attendance. Stan, former associate dean of the College of Arts and Sciences, became dean of students last September. Prior to his return to the Hill, he served as manager of life sciences at the General Electric Advanced Electronics Center in Ithaca. Among those seated at the speaker's table were **Virginia Buell Wuori**, member of the executive committee of the Association of Class Secretaries, and **Robert L. Bartholomew**, outgoing president of the organization.

Donald Luxford writes, "Still with Union Special Machine Co., 400 N. Franklin St., Chicago. Son Bruce will graduate from U of Illinois at mid-year to be commissioned an ensign. Daughter Brence is in her third year at Ohio U and Dale is in high school. Our daughter Jody celebrated her first birthday in October."

Hays Clark, 26 Deer Park Dr., Green-

wich, Conn., is vice president and director of the foreign department for Avon Products, Inc., 30 Rockefeller Plaza, New York. The Clarks have two sons and a daughter. Larry, the oldest, attends Loomis School. Cornellians in Hays' family include his father, **W. Van Alan '09**, and his brother, **James M. '44**.

George H. Callaway, Orchard Hill, Argyle, writes, "We five (John, Alice, and Sandy—our children) live in the hills of Upper New York where we have been for 16 years and whence I operate Llenroc Tree Experts. Sandy, our oldest girl, is in Antioch College after a wonderful year working and traveling in Europe. Momma runs a pottery shop making "originals," and plans to go see what Sandy saw, come winter."

Dr. Edward A. Brady, 280 Easton Ave., New Brunswick, N.J., is chief of the department of urology at St. Peter's General Hospital in New Brunswick. He still maintains his teaching association with the Cornell division of urology at Bellevue Hospital in New York. Mrs. Brady is the former **Mary Keane '37**. Their children are Carolyn, 18, Edward, 12, and Barbara, 8.

Samuel D. Lambert, 38 Beechwood Rd., Hartsdale, happily writes, "Our oldest son Roy Douglas has been accepted on early decision in the Engineering School at Cornell." Mrs. Lambert is the former **Rita G. Krasnow '44**.

William C. Don, 11 Kingsbury Ave., St. Johnsville, ran across **Donald G. Ross** at the Instrument Society Exhibition in Chicago last fall. Bill said that they had not been in touch since graduation day. Don is sales manager of Presin Company, Bridgeport, Conn. and lives on New Street, Katonah.

Stanley E. Cohen, 1106 Edgevale Rd., Silver Spring, Md., writes, "I was elected a vice president of Advertising Publications Inc., publishers of *Advertising Age* and other trade papers, which I have represented as Washington editor since 1943. Sarah Betsey, oldest of our three children, who has entered her senior year in high school, was on the Cornell campus last summer participating in the advanced placement program for high school students. She came back from a six-week intensive course in Spanish starry-eyed over Cornell, and eager to return as a full-time student."

'42 Men: **Robert L. Cooper**
Taconic Rd.
Ossining, N.Y.

Gov. William Scranton has appointed **P. Richard Thomas** (picture) to serve an interim term as second judge of Crawford County. The ceremony, which included his parents, members of the judiciary, officials, and many friends, opened with an invocation followed by a biographical sketch presented by the president of the County Bar Assn. Dick was robed by his parents and it was the feeling of all that Governor Scranton had made a wise selection in naming him as judge. Dick's official statement was

"I shall work diligently, guided by the broad experience of my associates to reduce the backlog of cases and provide the people of Crawford County with a swift and impartial dispensation of justice."

Incidentally, in 1953 Dick was cited by Meadville Junior Chamber of Commerce as "Outstanding Young Man of the Year" for his work in revitalizing the Red Cross program in western Crawford County. He served as a director of the Crawford County Mental Health Center and has been secretary-treasurer of the District Attorneys Assn. of Pa. since 1961. Dick has been most active in community affairs and has received high recognition from several national church organizations for his work on their behalf. He has been a member of the Meadville Lions Club and has also played championship golf. He and his wife Josephine have three children, Sally Jo (14), Carol Lee (12), and David Charles (5), and live at 738 Chestnut St., Meadville. Those who know Dick are certain that the people of Crawford County will confirm Governor Scranton's confidence by returning him to office when he runs in '65.

A skiing trip to Europe is planned by **Francis Warner Bacon** (4919 Wolf Rd., Erie, Pa.), vice president of the Erie Tool Works, a manufacturer of hand pipe tools. He and his wife Nancy have four children—Nancy, Edwin, Matthew, and Catherine. His father is **Edwin W. Bacon '16**.

1963 was a big year for **Robert Eckert** (2841 Woodbridge Rd., Hudson, Ohio). He was transferred to St. Paul, Minn. as one of the merchandising managers for Montgomery Ward's new zone. After three boys in the family, a girl, Heidi, was added to the household.

There are two DVM's living at 55 Greenridge Ave., White Plains—Dr. **Alvin Evans** and his wife **Kathrin Levy '43**. Their family includes five children.

'42 Women: **Lenore Breyette Roche**
Box 119
Whitehall, N.Y.

Am indebted this month to **Prudence Sumner Gamard** (Mrs. Edward), who sent me a note on her recent contacts with class members. Deedie, who lives at 63 Longview Rd., Port Washington, writes: "I went to the Cornell Fund-raising lunch in December and saw **Jean Fenton Potter** (Mrs. **Frederick A. '42**) and **Kay Rogers Randall '43**. Jean's teaching English in the Washington, Conn. public schools. Her husband, Art, was recently named "Farmer of the Year." They have a son in the Vet School at Cornell, and another boy at Hamilton College, besides others at home. **Elaine Hoffman Lupescu** (Mrs. Harvey) came over to say hello, and we plan to get together. She lives at 5 Greenway in Roslyn, near me. Received a stunning Christmas card from **Liz Clarke Tower** (wife of **Peter '43**) which she had made. She has been painting a lot and has sold some of her work. The Towers live on Lower River Rd., Youngstown, and the Potters at Tamarack Hill Farm, Washington, Conn.

Another long letter from Mrs. **James (Alice Popp) Whitaker** told of the exciting eight months spent by her daughter Sandy in Gisborne, New Zealand, living with a family there and going to school under the exchange student program of the American

Field Service. Poppy writes: "Sandy spoke to various groups in New Zealand some 40 times, telling of her home, school, and community, and answering questions on the American educational system, racial problems, etc. Living as she did in the heart of the Maori area, she picked up quite a bit of the native Polynesian culture—dancing, games, songs, and crafts." The Whitakers other daughter, Carol, is a cheerleader and spent the summer at camp in Vermont, while Jim and Poppy enjoyed a vacation in the Adirondacks. The Whitakers live at Storrs Heights, Storrs, Conn.

Received a card at Christmas from **Renee Dick** Gould urging me to come and see her in Albany, and a few nights ago, there she was on the late news on WAST-TV, Albany, being interviewed by a reporter. Renee is a big wheel in PTA circles and was protesting proposed bus rate increases in the capital city. She is married to Henry S. Gould, a lawyer with the State Court of Appeals. They have a daughter, Kyna, and live at 118 Winnie St.

Ruth Dillenbeck Kiligas, husband **Dewitt '40**, and daughter Patti stopped to see us and joined us for lunch during the holidays on their way home after a few days spent skiing in Vermont. The Kiligas are active members of the Ski Club of New Jersey and travel up to the club's lodge at Chittenden, Vt., every weekend they can during the season. Their home address is 586 Sparrow Bush Rd., Wyckoff, N.J.

'43 Women: *Mary June Linsley Albert*
402 Wildwood Ave.
Pitman, N.J.

Just about had time to catch my breath after Reunion when my husband and I took out long-awaited jet trip to California. While we were in San Mateo we spent a wonderful evening with **Barbara Prescott Arnold** and husband **Carl**, in their home. Everything about the Bay Area of California appealed to us, so it is no wonder we plan to return this summer.

Christmastime brought the customary notes on cards from Connecticut to Uruguay. **Pat Rider** Huber writes glowingly of the wonderful time she had at Reunion and already looks forward to 1968 at Ithaca. Her oldest son takes guitar lessons, the second son, accordion lessons, and her daughter is the horse- and bird-lover of the group.

Anne Vawter Peckham has retired from working at her husband's office after eight years. She has three sons and one daughter ranging in age from 17 to 10.

Ruth Russell Faulkner and her family returned from Turkey in December just in time to celebrate Christmas after a memorable six-months' stay in a town outside Ankara. While there, husband **Frank** visited the Turkish electric distribution projects in various parts of the country. The five Faulkner children have all thrived from their experiences overseas and found it difficult to leave their friends in Turkey. Ruth's enthusiasm for that fabled land is boundless.

Ruth Dunn Gessler tells me, "It may be our 50th before I get to Reunion. Daughter Mildred is a freshman at St. Lawrence U and one of her classmates is Carla Davidson, whose mother was **Norah Patrick '42**."

Betty Irish Peters writes from Phoenix,

"I was really sorry to miss Reunion, but 2500 miles is a bit far. We have two boys in high school, plus one seventh grader and one in kindergarten. Who has time to get old!"

Dorothy Krisher Spinuzza had a busy but wonderful year in 1963, and among her activities was attendance at a White House reception.

Kay Rogers Randall, Alumni Fund chairman, keeps busy attending Cornell Council meetings and is now lining up classmates to work for Alumni Fund. Kay's enthusiasm for Cornell is an example for everyone. She also teaches gym to the girls of 3rd, 4th, and 5th grades at a small school on Staten Island, is chairman of Red Cross residential drive, head of Cornell secondary school work and last but not least, is president of the local Cornell Club.

Sally Lockwood Bradley wrote me after Christmas and describes their present location in Uruguay as a cross between the 'Twenties and 'Thirties with a few 1950 ideas thrown in here and there. As an example, she tells me that mayonnaise and a few spices are available in stores within the past year. My idea is that she will be glad to get back to her home on North Trip-hammer Road this spring sometime.

'44 Men: *M. Dan Morris*
1860 Broadway
New York 23, N.Y.

Treasurer **Sam Pierce** reports that to date 115 members of the class have paid their \$10.00 dues bill. Why don't you? Among those responding, the following say:

Stanley E. Smith Jr., "I am an obstetrician and gynecologist with the Carle Clinic, Urbana, Ill., since 1955. Married **Marie Perry**. Have two children, a son Roger, 14, who has his eye on Cornell in 1965. Complete biography in *Who's Who in the Mid West*."

Alan W. Kaplan announces the arrival of a son Jonathan Carl, born September 1963 to join sister Betty, 14, and brothers, Mike, 12, and David, 7. **R. A. Van Sweringen** sent a brief message: "Plan to attend the Big 20th." **Robert D. Greenburg** advises that he is assistant general counsel of the Federal Communications Commission in Washington.

Blancke Noyes — "Expecting another child in the spring—#4. Looking forward to 20th Reunion." **George W. Bishop** saw **Al Beehler** in Baltimore last week. He and **Joe File** are working with the secondary schools in the Princeton, N.J. area. **Charles H. Hoens Jr.** writes from Elizabeth, N.J. that "nothing very startling is new. Still married to the same girl, still four children, and still at same job—lawyer in Newark, N.J."

From **E. C. Sargent** in Aurora, Ohio comes word that he is "currently planning to fly in for the 20th with three seats available from Cleveland. (He owns a plane—Clevelanders, take note.) **C. Gates Beckwith** in Darien, Conn. is a "partner in the architectural firm of Eggers & Higgins in New York" and has three sons. **D. R. Lueder** has re-organized his company and is now president of International Resources and Geotechnics, Inc., a firm of earth-scientists.

Robert L. Schiffman is a full professor of

civil engineering at RPI and lectures weekly at MIT. **Jimmy Miller**, varsity coach of wrestling at Cornell, will be host to the Nationals this year.

Under the gavel of Reunion Chairman **Art Kesten**, the "committee of ten" met in New York for the fifth time to move the Big Twentieth Reunion. The dates again are 17–21 June '64. Planned are a banquet, a picnic, a trip to the IRA regatta at Syracuse, two big nights at the tents (in new location), music, beer, festivities, etc.

John Whittemore and **Bill Falkenstein** are working on a permanent blazer; President **Joe Driscoll** has arranged for bands and billeting. **Bob Ready** will handle banqueting; **Joe File**, based on the successful Princeton party, will handle the beer; **Ed Kelley**, the regional expediting (if you don't come, he'll get you!); Treasurer **Sam Pierce**, the money; I, of course, the records and propaganda, and **Bob Dillon**, entertainment (he may raffle off a Rolls). In case you haven't noticed, '44's own **Charlie Williams** is managing editor of the NEWS. Charlie was a bomber pilot during WWII, and left the wilds of Wall St., where he had handled advertising and PR for a couple of top-notch firms, to return to the ivy-covered walls. He says his ulcer has cleared up completely.

'45 Men: *William F. Hunt*
7 Park St.
Demarest, N.J.

Greetings again, 45ers. **Joe Minogue** tells me that class dues are coming in slowly but surely. Please keep them coming and do it now if you have not already sent your ten dollars for 1963–64. Of equal importance is news of yourselves, so be sure to take a couple of minutes and jot down a few lines about your activities in the last year.

I had a card from **Rick Carlson** the other day and much to my surprise, he was in Florida. He has left the Graduate Nurse Fund and, as of receipt of his card, I gathered that he had not made a new connection as yet, although he mentioned that he had an interview on a Miami radio station recently. Perhaps some of you Floridians heard him. **C. P. Argana**, 3315 Heritage Dr., Wilmington, Del., reports he is still with DuPont electrochemicals department as manager, sales development. He and his good wife have two children, a boy and a girl. These chemists always did know how to make things come out evenly.

Henry M. Berger, 514 Richmond Rd., East Meadow, is v.p. and general manager of Omega Chemical Corp. He lives on Long Island with his wife and three boys, Scott, 14, Glenn, 10, and Clifford, 7. Henry states they all intend going to Cornell and that his firm is looking for several good Cornell chemistry graduates from this June's class.

Willis L. Davis, 2831 Weybridge Rd., Shaker Heights, Ohio, writes that since 1946, when he was released from the Navy, he has been with the Albert Rees Davis Co., a family insurance agency. He and his brother **Albert R. '39** are in the firm together. Willis is president of the Cleveland chapter of CPCU. He is also treasurer of the Cornell Club of Cleveland. He was active in organizing a group of Cornell, Yale, and other Ivy school grads for the last year's game at Ithaca. Cornell won that one, and

I personally think you should do it every year, Willis. Every time I attend a Cornell game the Big Red comes out on the short end. If all of us losers stay away and all of you winners go, we could have an undefeated season again. It has been a long time.

Charles R. Gredler, 119 Burlington St., Lexington, Mass., is assistant librarian for the Slavic Collection in the Harvard College library. His wife **Eloise Proper** teaches adult education classes in sewing and tailoring in Lexington. She is also much interested in teaching reading to very young children, having worked with five-year-olds last year, and is now working with four-year-olds. Charles and Eloise have six children, ranging from 16 down to 4. They also raise fruit, vegetables, and chickens, and contemplate adding a horse to the family. Charles wonders what ever happened to **Hal Mack**, **Carlton Whitman**, and **Frederick Allen**? Can anyone tell him? **Hugh Gordon**, 30 Barberrry Rd., Lexington, Ky., made a delightful three-week trip to England last August with his wife Felice and daughter Jennifer. They mixed business with pleasure and visited several china factories in the Midlands. Earlier in the summer they met the **David Rothschilds** unexpectedly one evening while attending the Tanglewood concerts in the Berkshires.

Thomas W. Greenlees, 20 Legion Dr., Cobleskill, writes that he and his partner have taken a third surgeon into their business in Cobleskill. Tom saw **Al Berkenfield** in La Jolla, Calif. while attending an American College of Surgeons meeting. Al is practicing surgery, but Tom didn't say where.

Jerome Kempler, MD, 25 Dogwood Lane, Newburgh writes that he is president of Kempler Metal Supply Co. in Newburgh and is married with two children. Dr. **Saul B. Seader**, 8 Copper Beech Pl., Merrick, tells us that he is operating a small animal hospital in Rockville Center, and that his wife was expecting their fourth child due last December. Saul is staying younger than most of us, because he won the South Shore indoor tennis tournament last summer. His only concession to advancing age was the fact that he played in and won the doubles.

Donald R. Smith, 6037 Logan Ave. S., Minneapolis, Minn., built a new home in Edina, Minn., and moved in sometime between Thanksgiving and Christmas with his wife Barbara and five sons, Jeffrey, 14, Stephen, 11, Charles, 7, Donald, 4, and William, 2. Don now has a basketball team and I wonder if he is going to go for a baseball team. Sounds like a grand family.

Donald C. Sutherland, 9226 Balcom Ave., Northridge, Calif., was recently elected to the presidency of the National Association of Hotel Accountants. Congrats to you, Don. Comdr. **P. L. Vivoli**, VEC, USN, NAD Oahu, Navy NR 66, FPO, San Francisco, tells us that his wife had their fourth son in October. They also have a girl. At least his wife has someone to stand up with her agin all those males.

James W. Falk, Washington Valley Rd., Morristown, N.J., is administering patent work at Bell Telephone Laboratories and lives in a farmhouse in a beautiful rural area. Jim states that he is trying to be a good alumnus to all the colleges the Navy helped him attend.

See you all next month and please let me

remind you once again to keep the dues and the news liquid and flowing.

'45 Women: *Jane Knauss Stevens* 1 Green Ridge Road Pittsford, N.Y.

A miniature Reunion was held in New York on Jan. 11 when four of your class officers gathered for the annual meeting at the Hotel Roosevelt. With much groundwork to be laid for our 20th next year, new Reunion Chairman **Gloria Urban** was all ears, with **Ruth Henne Meyer**, **Mary Jane Dilts Achey**, and your correspondent helping out. Ruth gave me a raft of news items, and so here goes!

Gertrude Durfee Allen and **Norm '44** are living on RD 1, Schaghticoke, where he not only runs their farm but also has a farm machinery dealership. With these activities, plus a great deal of 4-H work, they have had many reasons to visit the campus since graduation—lucky people! Now that their children are all in school, she is doing substitute teaching. They have three girls, 16, 15, and 7, and two boys, 13 and 10.

Reporting a new address is **Constance Ruderisch Bartels**, at 14367 Erie Rd., Apple Valley, Calif. They have had quite a nomadic existence in the past, what with living in Mexico, England, Belgium, and Italy from 1953-57, and then Huntington, L.I. until last July. Her husband is now the director of C. K. Williams Co. division of Charles Pfizer Co. in Victorville. Debra Ann is almost 12, and Jeffrey, 6. Connie teaches Sunday school as well as doing volunteer hospital work.

Also in a new home are **Bob and Nancy Blanche Ellis**, 3441 Charring Cross Dr., Stow, Ohio, near Akron. He is the chief engineer, agricultural tire engineering, for Goodyear, and a Penn State graduate. With David, 13 and Carol, 10½ to keep track of, as well as getting the new house to look like a home, Nancy reports that she is busy enough! They visit Ithaca every summer, too, she adds.

Marilyn Betz and **Bob Kugler** moved from our Rochester area several years ago to 18601 Poplar Ave., Homewood, Ill., where Bob is a technical representative with the mid-western sales division of Eastman Kodak in nearby Oakbrook. Son Dave is now a sophomore at Northwestern; Doug, 16, is a junior at Homewood-Flossmoor High School. Marilyn's spare time is spent doing volunteer library work, reading (not surprisingly!), gardening, and a little bridge.

For any of you with prospective brides in your family this summer, and if you live anywhere near Kingston, I'm sure that **Doreen Orel Scott** would love to see you! She and her husband have their own bridal shop, although I'm not quite sure whether it is at their home address of 311 Lucas Ave. A phone call would straighten you out, I'm sure. With children, Eric, 16½, Candy, 14½, and Eve, 12 to care for, and being a saleslady in the shop, Doreen finds that she has her hands full—and loves it!

'46 Men: *Stuart H. Snyder* Cahill Rd. Manlius, N.Y.

Dr. Paul Z. Frisch was recently appointed acting chairman of the psychology depart-

ment at Adelphi U. His official address has been changed to read c/o Adelphi U, Garden City.

John E. Montel (picture) holds the title of Agricultural Attaché to US Mission to the European Communities (Common Market) at Brussels, Belgium. His ability and experience have earned him the USDA certificate of merit for developing foreign markets for US agricultural exports, and his present assignment requires him to travel extensively throughout Western Europe. I don't know what kind of fish John is catching in Belgium, but at his last State Department post in Guatemala, he caught a 185-lb. tarpon on a 36-lb. line after several hours of fight, which culminated in his shooting the big fish for fear of a late return to base camp in the jungle. I guess there's some truth in that proverb: "Here today, but Guatemala" (?). John is doing a splendid job for his country. He is married, has a 12-year old daughter, and can be reached at USEC American Embassy, Brussels, Belgium, c/o Department of State, Washington 25, D.C.

Dr. Sheldon C. Kravitz, of 5604 Green-spring Ave., Baltimore 9, Md., has his own private practice of internal medicine and specializes in the field of hematology. He also teaches at the Sinai, Union Memorial, and Baltimore City hospitals. He and his wife **Ruth Bayliss** have three boys and a girl. Their oldest son, Kenneth, 16, is thinking about college applications and for some strange reason, his dad has planned a little "excursion" with him to Ithaca. Their 12-year old son, Richard, is an all-around athlete and, as a member of the Lancers Boys Club, was chosen to the all-city basketball team of Boys Clubs players. Sheldon plays golf, tennis, and duplicate bridge for relaxation, and he and Ruth are members of the Woodholme Country Club. Ruth is on the executive board of the Mount Washington Improvement Association and she has also organized a community summer playgroup for children. Sheldon and Ruth had a wonderful vacation in Miami Beach and Nassau last summer, and I hope they will keep us informed of their next vacation plans and events.

Edward O. Shakespeare, 675 Sproul Rd., Bryn Mawr, Pa., is chairman of the English department at the William Penn Charter School in Philadelphia. Ed is also married and has three sons.

Dr. Francis C. King states that he is "in general practice of medicine here in St. Louis with six children to our credit." The King family lives at 49 Fair Oaks, St. Louis, Mo.

Robert O. Sinclair Jr., of 11 Burch Dr., Morris Plains, N.J., was recently appointed head of the data analysis department of Bell Telephone Laboratories, Whippany, N.J. His new position makes him responsible for plans for obtaining, analyzing, and disseminating test data from NIKÉ test sites at White Sands, N.M., Ascension Island in the Atlantic, and Kwajalein in the Pacific. Bob joined Bell Laboratories in 1947 and has been concerned with military fire control and guided missile systems ever since.

Robert Heider, 855 Laurel Dr., Lake Park, Fla., writes that he plans on substituting the electric blanket at Hartford, Conn., for five years of Florida golf game improvements. Bob is an assistant project engineer of automatic data recording for Pratt & Whitney Aircraft, and he expects to move to Hartford in the near future. He is married, has a 7-year-old daughter, and is anticipating increased activities with fellow alumni after several years in California and Florida. Better let us know your new address, Bob, so we can tell those '46 and '47 golfers!

James E. Edison reports his new address to be 936 Rusk St., Colorado City, Texas. Jim is the area superintendent in charge of drilling and oil production for the Sun Oil Co. He has a 12-year-old girl and a 10-year-old boy.

Edwin A. Edberg reports that he is manager, technical services, panel dept, of Koppers Co., Pittsburgh, Pa., and that he holds positions of chairman and vice-chairman in SPI and MCA committees. Business travel last June took him to Puerto Rico and the Virgin Islands, but when it comes to recreation, Ed writes: "just simply don't play golf often enough." Ed and wife Eunice have a boy and two girls, 14, 11, and 6, and he can be reached at 67 Genesee St., Greene.

J. Alan Berkenfield, 8335 Sugarman Dr., La Jolla, Calif. is a surgeon with several related outside activities which include being scout master of a medical explorers troop. He also participates in the Flying Samaritan Program of Medical Missions into Mexico. Al is married to Virginia and they have three daughters, 11, 6, and 5, and a 12-year-old son.

John D. Edwards tells us that he is division manager of oil and gas exploration for California Shell Oil Co. He also caught four 120-lb. sailfish in one day in Mazatlan, Mexico, apparently while vacationing last June in Mexico City. Jack and wife Joan live with their two boys and three girls at 2837 Alturas Dr., Bakersfield, Calif. **Gabriel V. Pesce**, 39 La Crescenta Dr., Camarillo, Calif. is manager of Jarry Hydraulics, Calif., which is a division of American Brake Shoe Co. He is married and has five children.

Richard D. Beard, 308 Lansdowne Rd., Dewitt, is a product service specialist responsible for electrical components in the Empire District for General Electric Co. He is also president of official board (and deacon) of the Eastwood Baptist Church, Syracuse; past president of Toastmasters International District 34. He also serves as advancement chairman for Boy Scout troop 163 in Dewitt. Dick and wife Lorraine have a 13-year-old son and two daughters, 9 and 11.

Martin H. Buehler III is a sales engineer, technical products operation, for General Electric Closed Circuit Television Systems. Bud and wife Patricia have two boys and two girls ranging in age from 1 to 7, and an English Setter named "Mike." With regard to his children, Bud says, "well engineered; retired!" (Any bets?). They live at 111 Dewitt Dr., RD 3, Baldwinsville.

Charles A. Swerdlove, 203 Lincoln Ave., Hillsdale, N.J. writes that he is a project engineer and that he and wife Anne have a 1-year-old son and a daughter, 3.

Robert H. Bosworth is senior engineer, hot gas group, at Eclipse-Pioneer Division of

Bendix Corp. Bob is married to Astrid, and they have three boys and two girls with ages from 12 to 2. They live at 14 Green Knolls Rd., Morristown, N.J.

Howard B. Loomis, 180 Main St., Groton, is director of field service for the New York Dairy Herd Improvement Cooperative. He and wife Elda have a 16-year-old son and three girls, 12, 9, and 2.

'45-46 Grad—**Harley N. Trice**, manager of marketing services for Mine Safety Appliances Co., Pittsburgh, has been named to a four-year term as a director of the American Standards Association. He is a member of four sectional committees now developing American standards for eye protection, respiratory protection, industrial head protection, and vehicular head protection.

'47 Men: *W. Barlow Ware Cornell Fund, Day Hall Ithaca, N.Y.*

Mailed your Class Council ballot to **John Gnaedinger**? The address is Soil Testing Services, Inc., PO Box 284, Northbrook, Ill. John and Prexy **Larry Aquadro** are looking for a right smart turnout in the vote. Please don't fail 'em. A quicky from Larry: he and Anne went to Europe Feb. 8-March 1 on a pleasure trip! A penned note also informs us that **Jim McConnon** is doing well with his patent law practice with his fine family in Philadelphia. Jim's work has taken him frequently into the Carolinas.

Ernest Leins is assistant branch manager of the Boston sales office of Solvay Process Division of Allied Chemical. Ernie joined Solvay Process in 1949 and has had a series of promotions since then.

From way out west, in Seattle: Clean and Beautiful, a regional anti-litter and

beautification organization, has named **John Strander** (picture) as landscape consultant. John also hangs around as Mayor of Tukwila. The word is that he will assist in developing community landscaping programs and

in advising communities and organizations throughout Washington and Oregon. John has a string of activities including a past presidency of the Cornell Club of Western Washington and the Washington State Nurserymen's Association. He has served on other state and local beautification, planning, and natural resources groups. If you want to reach John at business . . . try Strander's Nursery in Tukwila. John has been quite involved in these recent projects: Rocky Reach Dam Grounds near Wenatchee, the Pacific National Bank's Queen Anne Hill branch, the Ford Motor Company in Seattle, and churches in the greater Seattle area.

Going back to John Gnaedinger, we have in our files a very important-looking document from the National Academy of Sciences, National Research Council. It appears that our secretary was invited to accept a three-year appointment to the building research advisory board of the division of engineering and industrial research

AT THE annual stag meeting of the Cornell and Pennsylvania clubs of southern California are (l. to r.): **Stuart Snyder '47**, president of the Cornell Club of Southern California; **Hank Broderson**, Penn Club prexy; **Mike Giddings**, USC defensive coach; and **Joseph R. Mangan '34**, former Cornell track star.

commencing July 1, 1963. All those names seem to give a classic example of Washingtonese. Since we have nothing but a copy of a November letter relative to this whole business, we shall assume that John accepted the appointment to BRAB. The National Academy is a private non-profit corporation; it seems that members of the Council serve as individual scientists, technologists, and research workers, contributing their personal scientific knowledge to the Academy-Research Council. Members are not compensated for personal services. They are selected for their knowledge and experience in various fields of building technology and for their interest in the progress and advancement through research of the whole science of building.

Dr. Willis A. Wood has been elected a counselor-at-large for the American Society of Microbiology.

Andy Geller, 6915 Barquera, Coral Gables, Fla., received his CLU designation in September 1963. He strayed somewhat from his Cornell degree A.E. (M.E.) and the Bureau of Sibley School of Mech. Engr. At the bottom of his note he referred to a need for help in organizing the Cornell Fund effort this year. With the recent news of Cornell Fund-Centennial combination, a few things might change and Andy might have a different schedule. However, if you're living in Area VII, and you really want to give Andy a big assist, write to him and tell him that you're ready and willing to step on the wagon anytime he gets around to halting it in front of your door.

Phil Kennedy, 503 Morris Pl., Mifflin Park, Shillington, Pa., reports, "Presently exec. v.p. Marco Elec. Mfg. Corp., Womelsdorf, Pa., motor mfr. Busy making portable hairdryers. Wife **Elinor Baier '46** steals all news for '46 women's column."

And a word from our pal **Charlie Cox**, 489 Thornycroft Ave., Pittsburgh 34, Pa. goes as follows: "Nancy, my wife, and I had #4 child Ann Elizabeth 9/16/63. Visited campus at Homecoming in Oct.—was delegate from Cornell Club of Pgh.—**Stu La Dow**, treas. of local club—looking forward to Cornell Glee Club visit to Pgh. Dec. 27 followed by annual Cornell Pine Cone Ball."

There is no smoke around **Cal Carver**. In September he was elected president of the

N.J. Gas Assoc., which is an association of the gas public utilities in N.J.

In the February News column, Bud Haberl got his last name misspelled. We called him Taberl. Curses and apologies.

'48 Men: *L. Pearce Williams*
R.D. 3 Townline Rd.
Ithaca, N.Y.

Having been "conned" by Messrs. Mar-
cham and Williams (my older brother and,
therefore, pretty persuasive) to start up a
'48 column on a "for the time being basis,"
here goes:

Class Veep, Alexander (Al) Stark has
asked me to mention that there were 65
of us '48ers on hand for a class get-together
after the Princeton game (football, that is)
last fall. Plans are already in the works for
a repeat next year. Prof. Peter Harriott,
chemical engineering, has just finished
teaching a special two-week course in
"Chemical Reactor Scale-up and Design"
at Esso Research & Engineering in Floral
Park, N.J.

Fred Ludden has been appointed mar-
keting manager for electrical trade accounts
of the film and allied products division of
3M Co. Before his appointment, he was
sales manager of capacitor trades and spe-
cialty cable accounts for 3M's Irvington
division. Fred joined the company in 1950.

Jim Eichner, nee Euchner (Jim says he
had the spelling changed by court order
for phonetic reasons), is an assistant city
attorney for Richmond, Va. He lives at 702
Seneca Rd. and is also an instructor in busi-
ness law at University College of the U of
Richmond. Jim got his LLB in 1956 from
Richmond, thereby "terminating a journal-
istic career which commenced on the *Sun*
and continued for 5½ years on the *Rich-
mond Times-Dispatch*. He has also written
a book called *Law* which was published last
August by Franklin Watts, Inc. of New York,
as part of its "Young Adult Library" series.
By this time you've guessed that it's an ele-
mentary law book.

Lawrence S. Pollock Jr. (picture) of the
Pollock Paper Co. has been named chair-
man of the Centennial

Campaign in the Dal-
las, Texas, area. Says
Larry: "The purpose
of the Centennial
Campaign is to en-
sure that Cornell's
contribution to higher
education is commensurate with the needs
of our time and that
Cornell shall continue to extend the frontiers
of knowledge, discover new opportunities for
service, and transmit to succeeding genera-
tions of students the knowledge and sense
of purpose which will serve our society and
nation."

Allen H. Benton, who graduated with us
and then went on to get his PhD from
Cornell in 1952, is co-author with Margaret
M. Stewart, PhD '56, of *Keys to the Verte-
brates of the Northeastern States*. The
book, which was scheduled for publication
in early '64 by Burgess Publishing Co. of
Minneapolis, is designed for undergraduate
courses in field biology, vertebrate zoology

and nature study. Al is now professor of
biology at State University of New York at
Fredonia.

Robert W. Fogel, an economic historian,
has been appointed associate professor in
the department of economics of the U of
Chicago. Prior to this appointment, Bob
had been an assistant professor at the Uni-
versity of Rochester. His area of academic
specialization is the application of mathe-
matical and statistical techniques to eco-
nomic history. His published works include
*The Union Pacific Railroad: A Case in
Premature Enterprise*, published by Johns
Hopkins Press in 1960. He is married and
the father of two children.

Ben Lipetz of Partridge Lane, Carlisle,
Mass., writes that he is "just rounding out
my first year of independence as a consultant
on information management problems
(which include automatic indexing and
publishing methods, document control
methods, and information service opera-
tion). This summer wife Carolyn launched
an independent venture of her own by es-
tablishing the Carlisle Gallery for the dis-
play of works of contemporary professional
artists. Our two enterprises share a single
building, making business a pleasure."

Adelbert C. Matthews Jr. of 417 East
72nd St., New York is now a member of
the law firm of Havens, Wandless, Stitt &
Tighe. The firm's offices are at 60 East 42nd
St. in New York.

Lester V. Wise, 37 Hollywood Dr., Plain-
view, is vice president of Federal Business
Products, business form printers. He and
his wife (Marilyn Tobler, Ithaca College
'51) have three children. Benjamin Berman,
33 Claremont Rd., Scarsdale, is vice presi-
dent of Chesterfield Jewelers and the father
of John, 5, and Jessica, 2.

The business manager, assistant treasurer,
and assistant secretary of Worcester Poly-
technic Institute is David E. Lloyd, Birch-
wood Dr., Holden, Mass.

Please send me news of yourselves; what
you're doing, family status, and most im-
portant, where you are now.

'48 Women: *Mrs. John W. Hosie Jr.*
7 Carlisle Dr.
Northport, N.Y.

Have news of Marge Labash Young (Mrs.
Harold C.) She tells of the birth of her
daughter Oct. 26, 1963. The Youngs
also have a son, Jeffrey, 20 months old.
Marge is doing part-time bibliographical
work for Gale Research Co., a Detroit pub-
lisher, and is also a member of the Dear-
born branch of AAUW and serving on the
program committee this year. Her address
is 3854 Brewster Rd., Dearborn, Mich.

Barbara Tarrant Wiggans and husband
Don spent two weeks in Scotland and Eng-
land last summer when he gave a talk at the
International Congress of Nutrition which
met at the U of Edinburgh. She writes that
they stayed in a private home in Scotland
(overnight and a 3-course breakfast for \$2).
Barbara has four sons and her address is
4129 Northview Lane, Dallas 29, Texas.

Nancy Horton Bartels is another traveler.
She and Hank had a wonderful trip to
Europe in October. The Bartels have two
sons. Their address is 95 Crescent Hill Rd.,
Pittsford.

Eileen Peck writes that she is sorry she
missed Reunion. She enjoys her job as nu-
trition consultant with the state department
of health in Michigan. She fills up her spare
time with a junior high Sunday school class
and field trips for bird and flower study. Her
address is 531 Glenmoor Rd., East Lansing.

I am running out of news so get out your
pencils and paper and write me.

'49 Men: *Donald H. Johnston*
241 Madison Rd.
Scarsdale, N.Y.

The new constitution was approved over-
whelmingly by the class council. Elections
will now be held for a new council which,
in turn, will choose new officers to start a
five-year term at Reunion in June. The con-
stitution provides for an executive commit-
tee to act between council meetings.

Mounting returns for our 15th Reunion
reflect the surging interest in class activi-

ties. We should threaten those attendance
records again. Send your reservation and
fee to Bob Williamson, First National Bank
Bldg., Ithaca.

1949 continues to have among the biggest
delegations at university meetings. Class
representative Neil Reid had seven associ-
ates with him at the December gathering
for the Cornell Fund in New York. In Janu-
ary, President Reynolds, Treasurer Palmer,
Secretary Johnston, Reunion Chairman
Hagen, ALUMNI NEWS Chairman Geery
and Constitution Committee Chairman
Keegan attended the class officers meetings,
also in New York. By request, Geery and
Palmer reported on the successful operation
of our ALUMNI NEWS group subscription
program.

According to tradition, Reunion classes
strive for special, high contributions to the
Cornell Fund. Our target for our 15th year
out is \$15,000. That's double last year's. If
we round up more new donors, and the old
dependables give twice as much as before,
we'll hit the target easily. Watch for a call
from Neil Reid and his boys.

Full report on the annual FFF dinner in
next month's column. Dues-payers are push-
ing 300. Have you sent yours?

Personals—Our man in Saigon is Maj.
John J. Bilon, who is serving as adviser to
the South Vietnam army's logistical com-
mand. John says he hates to miss our big
15th, but his tour against the communist
guerrillas runs to next July. His family is
living at 4124 "A" St., Little Rock, Ark.

Time marches on. Roland J. White, 315
Wayland Rd., Cherry Hill, N.J., has a son
ready for college this year, and Jerome Far-
ber, 4345 Vallejo Dr., Salt Lake City, Utah,
hopes to have a boy start Cornell in 1965.
Roland has two other kids, and is equip-

ment programs manager for RCA aerospace communication. Jerry heads production engineering in the Hercules Minuteman program.

Two '49ers came home to roost. **Edward L. Delane**, after two years in France and Turkey, is now at 3225 Paseo Del Campo, Palos Verdes Estates, Calif., still working for the Tumpene Co. **Arthur Amick** returned to 1014 Baylor Dr., Nottingham Green, Newark, Del., after 2½ years in Argentina. He is with the international dept. of DuPont in Wilmington. **Paul Lochak** went the other way and is working in Paris (38 Ave. Friedland) as representative of Gibbs & Hill Inc., a US consulting engineering firm.

Walton S. Elliott is finally in business with his new Glen Ellen ski area in Vermont. Walt left his job in New York two years ago, moved from Stamford, Conn., to Box 111, Waitsfield, Vt., and worked like a BEAR to develop the ski resort which now boasts two double chairlifts and one T-bar lift, plus miles of trails and slopes.

A clean sweep as a coach for kids is the goal of **Paul Kiely**, 116 Warren Rd., Ithaca (asst. Reunion chairman). Paul's teams won the Kiwanis baseball championship last summer, the Small Ivy football cup in the fall, and he is pushing for Bantam hockey honors this winter. In his spare time he was appointed regional vice president and director of the New York State Association of Real Estate Boards.

Gabriel Rosenfeld (picture), who recently moved into a new house with his wife (**Louise Passerman** '50) and three kids in Chappaqua, is interested in starting an association of Cornelians in the brokerage business. Gabby left the construction business four years ago for Wall Street, and now is managing partner of Kahn, Peck & Co., 74 Trinity Pl., New York.

Donald Roberson, who's with DuPont, has moved into a big old house in Niagara Falls with rooms galore, swimming pool, woods, etc., to keep his four kids happy. New address is 924 Creekside Dr.

Another guy with plenty of woods is **Herbert Luxon**, 11 Brescia Ct., Waterville, Me., who is plant accountant for the northeast division of Scott Paper Co. He also has four kids who enjoy the sailing and fishing in summer and skiing in winter.

'49 Women: **Barbara Linscheid Christenberry**
8-A Howard Dr.
Bergenfield, N.J.

Happy news—the wedding of **Inez Wiggers Bock** to Douglas Lyle Liston on Dec. 8, 1963. (Inez is the widow of **Albert A. E. Bock ME '48, MME '50.**) Doug is president of Thompson-Liston Engineering, civil engineers. After combining forces, Inez and Doug have a family of six handsome children, three boys and three girls, ranging from 14 to 7½. They live in an eleven-room house (necessarily, Inez says), at 100 Highland St., Holden, Mass.

Inez mentioned that **Betsy Merrill** Guillan is still living in Colorado, **Eileen Bennett**

Class Reunions in Ithaca

June 18-20, 1964

'94, '99, '04, '09, '14, '19, '24, '29, '34, '39, '44, '49, '54, '59

Maglathlin is in Greenfield, Mass., and **Eleanor Flemings Munch** now in Florida and loving it. More details, please!

'50 Men: **Robert N. Post**
640 Vine St.
Denver 6, Colo.

Richard M. Rabkin, 245 Delaware St., Westfield, N.J., reports that he is busy in patent law as assistant patent counsel for the Federal Pacific Electric Co. in Newark. He adds that he still has the same two girls who are reaching the young lady stage and the same wife, **Natalie Lax '48**. **Thomas V. Gargan Jr.**, 1107 Wilde Ave., Dreyer Hill, Pa., wife, and five children recently moved to the above address. Tom is president of the Energy Elevator Co. in Philadelphia, and the Chelsea Elevator Co. of N.Y., an elevator contracting firm.

Robert C. Schutt Jr., 102 Hennepin Rd., Grand Island, reports that along with duties as executive vice president of John Schutt Jr., Inc., dry bulk and heavy hauling trucking company of Buffalo, he has just assumed the additional position as terminal manager of Niagara Terminal of E. Brooke Matlock, Inc., a large chemical and petroleum carrier.

Lt. Cmdr. **Ian V. Johnson**, USN, 5904 Windsor Forest Dr., Jacksonville 10, Fla., recently completed five months deployment to Spain and is now operations officer of a replacement training squadron at the Naval Air Station in Jacksonville. **David Carl Smith**, 25 Page Rd., Newtonville 60, Mass., was recently promoted to chief of instrumentation, Nortronics branch of Northrop.

Edward J. Daly Jr., 55 Craigmoor Rd., West Hartford, Conn., writes, "I have been practicing law here in Hartford for about seven years at the law firm of Lehman & Daly. We had a son born Oct. 25, 1963, named Edward J. Daly III. We also have a 4½ year-old-daughter Patricia." Ed sees a number of the members of the Class of '49 in and about Hartford, among whom are **John Harris** and **Lou Daukas**. **Howard A. Acheson Jr.**, 51 St. Michaels Ave., Bramhall, Cheshire, England, writes that as of last October he became general manager of the colloids division of Acheson Industries. This division operates four plants in the United States, Canada, Great Britain, and Holland. Howie felt that he would continue to live in Europe for another year or so. **John R. Friedman**, 236 Walnut St., Brookline, Mass., reports that after working for four years in the motion picture department of Bell Telephone Labs, he has moved on to a producer-director position with Educational Services, Inc., Watertown, Mass. One of his recent films, *Random Events*, with two professors from the U of Toronto, won

an award at the International Institute for Scientific and Educational Films in Rome. The Friedmans have two children, Eric, 9, and Vanessa, 8.

Edward A. Karsten, 445 Hampshire Rd., Drexel Hill, Pa., is continuing the Class of '50 tradition of producing children. Ed married Joan Hesse, Bronxville, N.Y. in 1957; now has Edward A. Jr., 5, Suzanne M., 4, and Deborah M., 3. He is an industrial sales manager for the International Salt Co. in Philadelphia.

James A. Brandt, 316 Schenck Ave., Dayton 9, Ohio, writes as follows: "Decided we liked Dayton, returning in May to accept a position as assistant manager of Master Vibrator Co. We manufacture a complete line of construction equipment and also make portable space heaters serving both the farm and construction industries." Jim adds that it is a smaller company than his former one and that it offers greater growth potential.

Rodney C. Leland, P.M.B. 2119, Lagos, Nigeria West Africa, writes:

"A geology major from an eastern college who winds up in the oil business is usually considered by his professors to have betrayed the science. Such a move can lead, however, to a mobile and exciting existence. Since our Ithaca days we have explored South America from Venezuela, Ecuador, and Bolivia to Tierra del Fuego in Argentina, and now after Spain and the Spanish Sahara, we find the oil search has brought us to Nigeria. During these travels Jeanne and our two children have found time for many interesting and rewarding side excursions, mostly in Europe. Here in Nigeria where the paramount desire of all young students is to study abroad, we have found a most fertile ground to broadcast the achievements and advantages of Cornell. Hopefully this will lead to mutual benefits."

Finally, **David D. Gardner**, Apt. C-311, 1600 S. Joyce St., Arlington, Va., sent the following summation: "Briefly: Still single—Located in hometown of Wash., D.C.—Selling newspaper advertising—Hobbies: 'What Else!?'—Welcome mat out any time for any of my many friends of the Class of '50."

'50 Women: **Barbara Hunt York Munschauer**
105 Comstock Rd.
Ithaca, N.Y.

We have a new address for **Marilyn Manley Smith** (Mrs. Jerrould W. Jr.) at 27 Hering Rd., Montvale, N.J. Marilyn writes, "We have finally settled in our new home in Montvale and love it. It is wonderful to have enough room for our five children—Addison, 10, Jerrould III, 9, Mark and Loring, 7, and Elizabeth, 2. We had a delightful dinner recently at **Midge (Downey)** and **Bill Sprunk's '49** when **Dottie (Patter-**

son) and **Doug Dodds** were down for the weekend."

'51 Men: *John S. Ostrom*
364 Argonne Dr.
Kenmore, N.Y.

Although it may seem a bit late, now is the time when I sit down and review Christmas cards received from many classmates. Each year the number seems to increase and it seems to be an easy way to pass on news. **Erich** and **Connie Weber** send greetings from Walnut Creek, Calif. Erich happily reports that his traveling for Bechtel Chemical Co. has diminished, and he is beginning to enjoy home life again.

Jim and **Pat (Gunderson '53) Stocker** sent best wishes from Media, Pa., where Jim relaxes when not hard at work as advertising and marketing manager for Scott Paper Co. **Russ** and **Carol Schuh** used a fine picture of their two daughters as a Christmas card. Russ is still in sales engineering with Taylor Instruments and took off for a visit with his parents in Florida right after Christmas.

From Indianapolis came a lovely card from the **Jim Rices**. Jim is selling for Kodak, and combined business with pleasure to turn out a beautiful color picture of his wife **Gracie** and their five children. **John** and **Jean Roberts** sent along season's greetings from Milwaukee. **Mary Mealey** wrote that her husband, **Rapid Robert**, has been keeping himself busy playing politics in the Town of Huntington on Long Island. She also reports they made the Princeton game this year and cried all the way home. I'd recommend to them and the rest of you to try Homecoming. We've been having pretty good luck these past few years in the quality of the game. Bob is still flying for United and hard at work expanding his home to accommodate his half-dozen children.

I saw **Paul** and **Shirley LaRochelle** at the Columbia game and then received a nice card from them at Christmas. My fellow Straight deskman, **Dick Hinz**, was heard from. Dick is a captain in the Air Force and currently stationed in the South. **Betsy Zobel Hannan** sent greetings from **Jesse** and herself. (Why is it the wives always seem to get nailed for Christmas card writing?) **Jesse**, with his brother, maintains a fine dairy farm just outside Rochester.

Bob and **NormaLou Caplan** sent greetings from the Boston area where Bob was working on his doctorate at Harvard, the last I knew. **Bob Clark's** wife **Joyce** let me know that Bob was still at work on the finishing touches to their home which he built himself. Bob is educational vice president of his Toastmasters group and works on the Secondary School Committee in the Rochester area. He is still attempting, without success, to get a deer with a bow and arrow. He succeeded the first year he tried—which must be ten years ago now. Perseverance.

Al and **Louise (Squire) Bishop** recalled their visit to our parts for the crew races last summer and hope to be able to make it again this coming year. Should be a good show this year, since they will be going for the Olympics. The **Brandts** found some time from their busy life to send out a card. **Bob** had been up to his eyeballs with moving his home and his business, but still finds time for class activities. **Charlie** and **Sue (Pickwick) Ray** wrote to report that **Charlie** had

finally seen the error of his ways and has now claimed allegiance to the Class of 1951. When not fighting off his two boys, **Chas.** is hard at work at Cal Tech. Last, but certainly not least, our bridge-playing friends, the **Jack Howells**, said "Merry Christmas" in person and by card. **Jack** and **Betty** live a short distance away at 57 Avon Dr., Tonawanda.

'52 Men: *Michael Scott*
1857 Union Commerce Bldg.
Cleveland 14, Ohio

Richard J. Helfman, MD (picture), opened his offices for the private practice of dermatology in Coral Gables, Fla. on July 1 of last year. **Dick** and wife **Susan** have three children—one M and two F—and live at 1325 SW 86 Ct., Miami 44.

Al Rose's response to the class questionnaire of last year was a full mimeographed page of activities, the significance of which is probably indicated by the fact that in 1962 Al was elected Young Man of the Year for Cayce, S.C. Al is engaged in motel management in Cayce, 713 Jansen St., and boasts of the addition of a new baby boy to his family of girls (one wife and two daughters) on May 25, 1963.

Donald E. Henn, 26 Pickwick Hill Dr., Huntington Station, writes that he became a partner in August 1962 in John A. Bingham, Inc., builders. **Don** and wife **Abbie Lee** have a son and two daughters, the most recent of whom (daughter **Stacy**) was added May 15, 1963.

Merton D. Meeker Jr. (picture), 1121 So. Country Club Dr., Schenectady, is in industrial sales for General Electric Co., acting as an application engineer specializing in the steel industry. He is presently enrolled in an electrical engineering graduate study program sponsored by GE at RPI.

When not studying, he finds time to enjoy his family, consisting of his wife, **Phyllis Bivins '54**, and two daughters, aged 8 and 5.

Late last year, we received word that **Bart Treman**, whose untimely death was reported in this column some months ago, has been posthumously promoted to the rank of captain in the US Army Reserve. **Bart** served in the Army on active duty in Korea, and was active in the Reserve while attending Harvard Business School, and while living in Ithaca after his graduation.

Robert J. Driscoll, who operates a 130-acre dairy farm at RD #3, McCann Rd., Canandaigua, has recently been assigned to the staff of the Lincoln Rochester Trust Co. in Canandaigua. **Bob** was formerly associated with the New York Artificial Breeders Cooperative, and is a past director and past treasurer of the Canandaigua YMCA-Scuba Club. He is married, and has four children—**Kathryn**, **Cheryl**, **Daniel**, and **Richard**.

Jack Bradt, 3370 Mountainview Ave., Easton, Pa., was recently appointed co-

chairman of the Easton area for the university's Centennial Campaign for \$73.2 million.

Bud Freeman writes from 8905 Seven Locks Rd., Bethesda, Md., that he is a government representative in Washington, D.C. for IBM. **Bud** married **Joann Halbrader** of Milwaukee in 1958, and now has two children, **Paul Jr.** and **Laura**. **Bud's** major leisure-time activity is driving an Austin-Healey Sprite in sprint races with the Sports Car Club of America.

Lewis B. Ward, MD and wife **Barbara** became the parents of twin girls (**Helena Mary** and **Liana Heather**) on Oct. 20, 1963. The twins join sister **Naomi Lisa**, aged 4, at 152 Trafalgar St., Rochester. **Lewis** has recently completed his training in child psychiatry at Strong Memorial Hospital and was appointed staff psychiatrist at the residential treatment center of the Convalescent Hospital for Children.

We find it hard to work up too much sympathy for **Donn L. Terhune**, who is the newly-named manager of the Gainesville Golf and Country Club, PO Box 64, Gainesville, Fla.

Philip F. Gottling Jr., 511 Oliver Ct., Wyoming, Ohio, is manager of a Procter & Gamble plant making Crest, Gleem, Secret, Prell, and Lilt. **Phil** and wife **Barbara Johnson '54** have two children, aged 8 and 6. We assume they are well scrubbed. **Israel S. Hurwitz, MD**, 250 Raymond Rd., Sudbury, Mass., started private practice last July 1. **Bud** and wife **Eleanor** have two daughters.

Luis Montero-Pinillos, Hacienda Caveato Alto, Pisco, Peru, writes that he is manager of his own plantation and is a dealer in International Harvester equipment. His activities include presidency of the Air Club, executive director of the ICA corporation, Rotary, and a near-miss in a campaign to become a senator. **Luie** and wife **Tulita** have two sons.

'52 Women: *Cynthia Smith Ayers*
School Lane, RD 3
Huntington, N.Y.

A Christmas card from **Phebe Vandervort** and **Sid Goldstein** reports they bought a house last summer and their address is now 29 San Gabriel Dr., Rochester 10. **Phebe** said all was well but that **Caroline** was really keeping her on the go.

Another card from the **Clarks**, (**Pat Dexter**), reported all well with their family which includes **Debbie 7**, **Pan 3**, and **Greg 2**. They spent a month in New Hampshire last summer and reunited with some fellow Cornellians at the Cornell-Harvard game, **Hazel Lowe** and **Ted Von Rosen**—village among them.

Ellie Hospodor Conti wrote a long note on her card about the activities of her family. They spent their vacation at a Y camp in the Poconos. **Rick** is in 4th grade this year and in scouts. **Amy** is in 3rd grade and is a Brownie; **Ellen** is in kindergarten and loves it. **Julie** at almost two is terribly trained and adorable. (That is **Ellie's** quote.) **The Contis** have joined the local country club so that **Bob** can play some golf. They also get together with the other six Cornell couples in the area of Easton, Pa.

I am saving the news about the **Macklins (Sally Ennis)** because **Jon '50** and I are leaving in two days for a vacation in Wash-

ington, D.C. and expect to see the Macklins and Russell Hiers '51.

The News forwarded this information about **Helen Icken Safa**. The Safas now live at 926 S. Crouse Ave., Syracuse. Helen is an anthropologist and reports that she and her husband Manu are now settled in their home. She finds it a relief after spending six months as a weekend wife. Manu completed his master's in public administration at Harvard in June and is now continuing for the doctorate here as well as working part-time in research at the Overseas Operations Center of the university. His two children are with them; his son is a freshman at Syracuse. Helen is expecting a child in April, and says that the family is really growing rapidly.

Now how about news from the rest of you?

'53 Men: Samuel Posner
516 Fifth Ave.
New York 36, N.Y.

Mort Bunis recently formed the law firm of Bunis & Frank, 32 Broadway, New York. He and Anita (**Brown, Grad '54**) still live at 1800 Avenue L, Brooklyn, with an ever-increasing brood of future Cornellians: Larry, 7, Vicki, 5 and Linda, 2. Meanwhile back at the campus, **George Wolga** has been promoted to associate professor of EE and engineering physics & materials science. George's mailing address is RD 2, Ithaca. And **Dave Allee** has been appointed assistant professor of agricultural economics, having just completed a tour of duty at Berkeley. Dave is married and has two daughters, but the press release provided no names.

Mark Usiskin has been supporting his brood as a developer and builder of homes and apartments in Trenton, N.J. The Usiskins (**Esther Kresh '55**) celebrated their 10th anniversary last June, as evidenced by children Cathy, Seth, and Serge. Their address is 5 Millbrook Lane, Trenton.

Donald J. O'Connor has become a member of the law firm of Davis, Graham & Stubbs, Denver, Colo. It's nice to receive those announcements, and we trust that all you attorneys will keep us on your mailing list. Among the class restaurateurs, **Bill Van Gilder** is the host of the "Cock and Bull" of Peddler's Village, Rt. 263, Lahaska, Pa. In a neighboring white farmhouse, Bill has housed his family (wife Jean, and children Susan, Bill, Diana, Judy, and Jill).

Some more wedding bells: **Dave Marcham** was married last Sept. 14 to Elizabeth Jeanne Shay of Fall River, Mass. Dave is the son of Professor and Mrs. Marcham, and the brother of the ALUMNI NEWS' editor, John Marcham, who served as best man. Dave is the director of operating management controls for the New York Central Railroad in New York. **Robert Cantwell** was married on Oct. 19 to Barbara Jane Hurlbert of Buffalo. The Cantwells are now living in London, where Bob is legal director of the European staff of Colgate-Palmolive Co.

Our military doctors overseas include **Walt Zuckerman**, who is now in the Navy and stationed on Okinawa (where he is performing surgery and learning Japanese), and **Tom O'Connell**, who is in the Navy and stationed at the Japan Hospital, near Camp Zama (where he too is performing surgery and learning Japanese). With Tom

... And One For All

■ When the new Howard Johnson's restaurant and motor lodge in Ithaca opens shortly, it will be the result of a cooperative effort amongst several Cornellians. It all started over a year ago when **Arthur Shull '53** and **Robert H. Abrams '53** decided that Ithaca needed another motel. They picked a piece of property just north of the Ithaca town line on the new Route 13 expressway at Triphammer Rd. owned by **Karl D. Butler, PhD '40**. Butler was represented by **Manley H. Thaler '50**; the real estate broker was **John C. Burns '46**.

Shull and Abrams were represented by **Bernard West '53**, of the firm of West & Wolk, New York. In looking for a general contractor they selected the New York City firm of Hyman, Johnson, Harrison & Co., whose president is **John W. Hyman '52**.

Once they had purchased the property and obtained a contractor, they decided to seek a motor lodge franchise from the Howard Johnson Co. They called the company's franchise locations office in Wollaston, Mass., and found themselves talking with **Richard Wakeman '28**. Wakeman then put them in touch with **Wallace Lee '36**, general manager of Howard Johnson's motor lodge division. The deal was consummated and construction began.

Supervising construction is director of operations for Howard Johnson's motor lodge division, **Bob James '54**. **Mike Eicher '60** is Lee's administrative assistant. Handling publicity for the Ithaca restaurant and motel is **Burton (Skip) Sack '61**.

in Japan are his wife Rosemary and their three children.

Warren Haas has joined the staff of DuPont's central research department, Wilmington, Del. Prior to joining DuPont, Warren received his doctorate in physics from the U of Pennsylvania. **Albert Steffen**, a career officer in the Army since 1953, is attending a special officer career course at the Infantry School, Fort Benning, Ga.

Be sure to tune in next month for the latest information from our West Coast correspondent, **Bob Beyers**, and for a detailed report about the annual class dinner at the Cornell Club of New York.

'53 Women: Guion Trau Taylor
1070 Old Gate Rd.
Pittsburgh 35, Pa.

Several Christmas cards and letters from classmates have made my job easier and more pleasant. **Dorothy Clark** writes that the **Clint Richie** family, seven in all, visited her this past summer; she also says that the summer of 1964 should be "politically interesting. . . . With the Republican Convention in San Francisco, there will be more involvement than ever." She lives at 62 Darrell Pl., San Francisco 33.

A letter from **Marlene Kroker Wilbur** gives her address as 240 Colonial Oaks Dr.,

Mountain View, Calif. She and husband **Lem '54** moved west in March with their four boys, Mark, Chris, David, and Matthew. Lem was transferred there by Western Electric and is head of their accounting department in the Burlingame office.

Another California address is that of **Rose Carpenter Gernon**. It is 1302 E. Mountain View Ave., Glendora. She sends word of the birth of Alane Anne on June 28, making a fifth girl for the Gernons. Included with their new house is a 40-foot pool, and Rose would welcome '53 visitors.

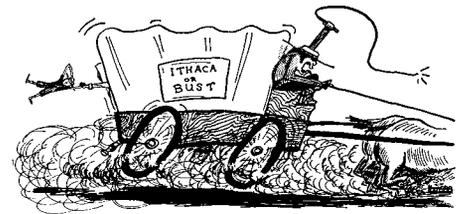

Debbie Knott Coyle moved in January 1963 to 235 Croyden Dr., Pleasant Hills, Calif. She, **Harry '52**, and their children David, Dee, Jenny, and K.C. sent a clever and unusual Christmas letter outlining their year month by month in sketches.

Next month I will bring you news from the Atlantic Coast and in-between. California does sound like good "camping" grounds for any '53 women with vacations in mind.

'53 PhD—Last September **Jessie Walker Bateman** (Box 3867, TWU Station) became Dean, College of Household Arts and Sciences, Texas Woman's University, Denton, Texas. She had previously worked with graduate students, directing research studies, and taught graduate courses in home economics education.

'54 Men: Dr. William B. Webber
428 E. 70th St.
New York 21, N.Y.

Go East, Old Man! Back to Ithaca. Join the "Transhumance" June 18-20 for the big Tenth Reunion. Those already sure to be there are: **Doug Pierson, Bob Kennedy, Phil Davis, Tom Arnott, Marley Halvorsen, Ken Hershey, Frank Rigas, Frank Hummel, Fred Wood, Jack Perrollaz, Breck Breckenridge, Bill Blake, Al Neuwirth, Pete Plamondon, Marv Anderson, John Almquist, Jerry Halsband, Skip Byron, Jim Little, Colin Tait, Frank Quinn, John Clarkson, Bill LaLonde, George Stewart, Bill Ebel, Ellis Duell, Bill Waters, Bailey Smith, Al Eckhardt, Clancy Fauntleroy, and Foster Cunningham**. On the tentative schedule are a clambake, cocktail party and

roast beef dinner, with golf, swimming, all the beer imaginable, and the good times inherent in reuniting with old friends. So set the date aside, mark it well, and we'll see you there.

Class Prexy Stanley (Skip) Byron has made one jaunt to the East on business, and in late January, met briefly with your correspondent and **Boyce Thompson** at Boyce's home at 6 Vine St. in Bronxville. He looks great, with a new sprinkling of that distinguished grey some of us have been sprouting. Skip is manager of the fluid mechanics department for the Philco Corporate Research Laboratories in California, and is

involved in research on high temperature gas physics, lasers, explosive and rocket motors, and wind tunnel testing. The Byrons have a new daughter Leslie, born in April, and are enjoying life in Laguna Beach to the fullest. Wife **Carol (Rittershausen '55)** is taking up ceramics, and the whole family goes skiing and camping. Address: 1046 Madison Pl., Laguna Beach.

Alvin Beatty has moved to a new address; 1449 N. Astor, Chicago, Ill., and has welcomed quite a few Cornellians. **Dick Miller** arrived when up from Mexico in June; **Louis Pradt '53**, who lives in Chicago and works for Sterling Drug; **Marv and Pat (Wehman) Anderson**, **Dick and Ethel (Denton) Groos '53** and **Nancy Hofmann**. Al writes: "Began to travel some for Harris Bank in New England and Upstate New York this year—haven't managed to detour to Ithaca yet, though. Unfortunately I will probably miss Reunion as I'll be attending the Graduate School of Banking at Rutgers the second and third weeks in June. Also planning a trip for March and April to Greece, the Greek Islands, Istanbul, Beirut, and Damascus."

Bert Card is living at 343 E. 30th St., Apt. 1P, New York, and has a new position, that of assistant director of food service at Mount Sinai Hospital on Fifth Ave. **Stuart Loory**, of the *Herald-Tribune*, can now be heard on WNEW radio Monday through Friday at 6:30 p.m. with a program on space news. **Edward Pollak** is now an instructor in the department of mathematics and astronomy at Lehigh U. Ed received his MS at North Carolina State College and did further work toward the PhD at Columbia. He has been a statistician with the American Cancer Society and is a member of the Institute of Mathematical Statistics, the American Statistical Association, and the Biometric Society.

Vincent S. Rospond of 82 Farrandale Ave., Bloomfield, N.J., is an attorney and a partner in the firm of Rospond & Rospond. He was elected councilman-at-large for the town of Bloomfield.

Again . . . don't forget Reunion!

'54 Women: 'Peg' Bundy Bramhall
123 Brookside Lane
Fayetteville, N.Y.

Our big TENTH is coming up fast! Hope a lot of you are making plans to attend.

Ruth (Behrens) and John White have moved to Philadelphia where John has a new job on the sports desk of the *Philadelphia Inquirer*. He was formerly with the *Ithaca Journal*, as was Ruth until this move. She has now "retired" and is redecorating their new apartment in Rosemary Gardens, E-22, 209 Rosemary Lane, Philadelphia 19—putting to use some of the ideas she got while women's editor of the *Journal*.

Mary Racelis Hollnsteiner, wife of **Helmut '51**, has distinguished herself in the past few years with her many accomplishments. She is associated with the Ateneo de Manila U, both as research associate of the Institute of Philippine Culture and as an assistant professor in the department of sociology and anthropology. Her book, *Dynamics of Power in a Philippine Municipality*, was published recently by the Manila Community Development Research Council, U of the Philippines. In 1962, she repre-

sented the Philippines at the Second Biennial Conference of the International Association of Historians of Asia in Taipei. She served as president of the Philippine Sociological Society for 1962-63. With all these honors Mary has still had time to raise a family. Her fifth child Maria Theresa arrived on Sept. 8, 1963. Three other girls and a boy complete the Hollnsteiner family. They live in Quezon City, at 49 Horseshoe Drive.

In September, the **Thomas '55** and **Leslie Papenfus Reeds** made a move to Texas, settling at 3722 Overbrook Lane, Houston 27. Recently Tom has been instrumental in forming a company, Supercon, which manufactures superconductors. The new company is doing "splendidly" according to reports. The Reeds' two children are Carolyn, 4½, and Gordon, 2.

It would be good to get news of as many of you as possible in this column from now until Reunion. Let me hear from you.

'55 Women: Anne Morrissy
530 E. 88th St.
New York 28, N.Y.

It's been a major problem to find the time and place to sit at my typewriter and catch you up on the news of our classmates. Now a blizzard, which is venting its wrath on New England, is keeping me motel-bound in Concord, N.H., so I'll take advantage of the elements.

Since last talking with you I've traveled from one end of the nation to the other, moved into a new apartment, and stopped smoking. The last is probably the major accomplishment—if I can stick to it. The apartment has made me the happiest, although since moving in November, I've barely spent any time under its roof. It's one of those unbelievable New York discoveries with 13-foot ceilings, a fireplace, a private garden, and it's rent controlled. Now if I could only stay in New York long enough to finish decorating.

The travel has been by far the most interesting activity. I spent several weeks in California in January trying to untangle that state's political picture. Believe me, it was some assignment, because both sides are waging a free-for-all for the June primary. I had hoped to get to Sacramento for a visit with **Joan (Weisberg)** and **Bob Belden**, who have been living there for several months. However, my plans were abruptly changed when New York sent an SOS and ordered me to New Hampshire to beat the bushes for the March primary here.

The Beldens will soon be heading back East to their permanent residence in Buffalo. They've loved the sojourn on the coast, where they found time to see most of the famous spots. However, Joan says it will be a joy to get out of the confines of a small apartment and take the three active boys back to a spacious house.

I expect to be sent back to California sometime in May to organize ABC's coverage of that important primary. So I do hope I will get some visiting done.

'56 Men: Stephen Kittenplan
505 E. 79th St.
New York 21, N.Y.

After two mid-winter meetings in New York and watching the mailbox for news

from our class, we finally have enough items with which to write a column. Please let me know what you are doing these days.

The town crier of the New York metropolitan area is moving on to the City of Brotherly Love. With lantern in hand, **Jerry Tarr** is leading his wife and son into territory where the news doesn't flow too quickly. His new address will be 32 Conshohocken State Rd., Bala-Cynwyd, Pa. We wish him the best of luck.

David Ellison is with the department of sociology at Purdue U in West Lafayette, Ind. **Albert G. Boos** is a career officer in the Air Force and may be reached at 9400 Albert Rd., Ozone Park 17. Dr. **George Pomerantz** is with the 2nd General Hospital (APO 180, N.Y.) in Germany. Dr. **William Mancoll** is a resident in ent with Johns Hopkins Hospital, Baltimore, Md. His home address is 285 No. Quaker Lane, West Hartford, Conn.

Nathan Schiff is the president of the Schiff Construction Corp. in Quakertown, Pa. He is presently completing the largest prestressed foot bridge in the US. Nate and his wife Ethel (Berlin) live with their two daughters at 3103 Washington St., Allentown, Pa. **Robert D. Bradford Jr.** is superintendent of polyethylene production with Dow Chemical. He is the father of two children and lives at 5006 Nurmi Dr., Midland, Mich.

From Australia comes news from **Paul C. James**. Paul is manager of tire construction with B. F. Goodrich. Paul lives at 14 Keam St., Ivanhoe N. 21, Victoria, with his wife Brenda, who is originally from Akron, Ohio. He writes that Australia has the friendliest people, the biggest beaches, and the best beer in the world. Brenda is having to learn the British spelling system for her job as schoolteacher. Paul expects to be in Australia for three more years.

Ralph Molter is now the general manager of the Military Park Hotel in Newark, N.J. He lives at 295 New Hempstead Rd. in New City.

Brief notes that have crossed this desk: Dr. **Leonard Pisnoy** married Margaret Gage last December. **Allan Martin** has been promoted to assistant superintendent by Dow Chemical. **Stan Witten** was married last June to Rose Mc Nerney. He lives in Washington, D.C., where he has seen **Dan Hunter '57**, **Hank Lloyd**, **Jack DeKorte** and **Pete Schluter '55**.

Jim Lee has sent us the proud news that he and his wife Tammy have adopted a baby girl, Karen Elizabeth. They are being kept busy by their little one at 92 Mallory Rd., Tonawanda.

Fer goodness' sake, Fitzy has finally done it. The old lawyer and restaurateur of New Haven, **Edward Browne Fitzgerald** has taken himself a wife, Susan Fisher Brown of Hamden, Conn. Fitzy attended the Taft School and the U of Conn. Law School, as well as Cornell. We have no new address for him as yet.

Charlie Bernstein recently married "a lovely New York girl (a non-Cornellian of course)" and honeymooned in California and Hawaii. He is now living at 29 Bay Ave., Atlantic Highlands, N.J., where he is with the Asbury Park Press.

John H. Maltby and wife (**Dorothy Vandercher '54**) are living at RFD Ridge Rd., Monmouth Junction, N.J., where he is the

minister of the Miller Memorial Presbyterian Church. Other news from the Garden State is that **John Ahearne** has received his MA in physics from Princeton.

Dwight Rath is a dairy farmer with Lenape Dairy Farm. He lives on Wawa Rd., Wawa, Pa., with his wife and two children.

Again, I am looking forward to hearing from you, letting me know the latest events in your life.

'56 Women: *Pete Jensen Eldridge* 65 Baywater Dr. Darien, Conn.

Don't ask me why, but the class seems to have been struck by the urge to move—just everyone who is anyone has a new address. Read on: **John** and **Nancy Galusha**. Thomas recently became New Yorkers when they moved to 31 W. 89th St. in New York. John, an opera singer, studies music full time. Another gal starting to make her mark in the big city is **Ginny Bieser**, who left Procter & Gamble and Cincinnati to come to New York and take a job with NBC. Her new job is in radio spot sales traffic, and her new apartment is at 135 E. 50th St., Apt. 5-B, New York 22.

Still another mover is **Diane Chippendale** Holz. Husband Lou has retired from the Army, and they have since moved to 1838 Ashurst Rd., Philadelphia, Pa. Just for a switch, **Dick '55** and **Betty Oshman Stratton** don't have a new address, but they *did* recently move to a new apartment. Main reason for the larger home? A new baby, what else? Lynne Robin was born on Dec. 13, 1963, and with Jonny, 6, and Kathy, almost 3, already on the scene, an expansion seemed in order. The Strattons may be found at 531 E. Lincoln Ave., Mount Vernon.

Ginny MacDonald and **Jon Lindseth** are another couple who found that their family was outgrowing their house, so they built a nice new colonial at 1424 Hollins Rd., Waynesboro, Va. Ginny says that "the house is big enough for all of us." It must be a pretty sizable place, as they have a pretty sizable brood: Andy, 7½, Steve, 6, Karen, 4, and Peter, 2. If you feel in the mood for a tasty Virginia ham you might write to Jon—he has started a mail-order business. When not hamming it up, or dabbling in politics of the Republican variety, Jon works for General Electric.

'57 Men: *David S. Nye* 8 Pearl St. Woburn, Mass.

One year ago we reported **Jim** and **Carol Wright's** move from Staten Island to New Jersey. For this year's move we must look farther south—to Florida to be exact. The move actually took place in March 1963 when Jim was offered a position in Humble Oil's Coral Gables International Petroleum Co. office. Jim is engaged in salary administration work, representing the company in their overseas installations. Jim, Carol, David, and Charles live at 14701 SW 82nd Court, Miami 56.

Robert Lengelmann is assistant resident in surgery at New York Hospital-Cornell Medical Center. Bob's home address is 226 Hutchinson Rd., Englewood, N.J. **Charles Yon**, wife, and 2-year-old daughter live at

Academic Delegates

■ Academic delegate at the inauguration of Donald C. Dearborn as president of Catawba College on Feb. 20, 1964, was **Maurice B. Gardner '14** of Statesville, N.C.

Dr. **Howard S. White '42** of Lexington, Ky., will represent Cornell at the inauguration of John W. Oswald as president of the University of Kentucky on April 28, 1964.

906B Boxwood Dr., Mount Prospect, Ill. Charlie is now plant manager of a foundry there. Fellow met. engineering graduate **Ted Olt** lives at 1320 Joan Dr., Palatine, Ill. He is a technical adviser in Olin Aluminum's Chicago area office. The Olt's have two children, 3 and 1.

Joe Thomas is regional sales manager of McCormick & Co.'s bulk and institutional division. Joe and Ruth moved from Towson, Md. to 144-30 Sanford Ave., Apt. 6V, Flushing 55, a year ago. Joe's region includes New York and Pennsylvania.

A few old notes that may well need updating: **Jim Rockhill**, wife, and four children are at a relatively new address at 17 Ashwood Ave., Whitesboro. Jim is teaching fourth grade, and is working on a master's degree at Plattsburgh State College. **Bob Chatterton**, 137 Maple St., Needham 92, Mass. was last reported working in endocrinology at the Harvard School of Dental Medicine. He has, I believe, completed work on a doctorate in animal physiology at Cornell.

James Taylor Jr. is working on a PhD program in agricultural economics at the U of Wisconsin. **Paul Gladstone**, 23 Clinton St., Mt. Vernon, is a project engineer at Johns-Manville.

John Fisher, having given up the food business, has been in advertising for the last three years and loves it. John lives at 1424 Hillside Rd., Wynnewood, Pa., **John White Jr.**, 76 Westover Ave., Bolling AFB, 25, D.C. is a captain in the Air Force and is assistant secretary-treasurer of the Bolling officers' mess.

Steven Loden, class representative for the Alumni Fund, has released a partial list of regional chairmen for the year's all-important big drive. Here in the East, **Bob Boffa**, **Pete Buchanan**, **Phil Kneen**, **Colin Campbell**, **John Fisher**, and **Steve Smethurst** will be leading the way. We will be counting on your personal as well as dollar support.

'57 Women: *Barbara Redden* Leamer 163 Vermilion Dr. Lafayette, La.

A new address came with the annual Christmas newsletter of the "Alan Richardses"—**Sharie (Flynn)** and **Dick Bump '55**. They are now in Mainz, Germany, at Ricarda-Huchstrasse 6, 65 Mainz. Sharie writes that they moved to Mainz late last May after the completion of a highly successful first year in opera at Flensburg. He has been signed in Mainz for two years, and

she says "Being more familiar with the language this year, Dick is also singing in classical operetta, which contains spoken dialogue." They have an apartment with "floor-to-ceiling windows" on the 12th floor of a building, and can see the Rhine and the Rhine hills beyond. Sounds lovely, Sharie, and again, for the New Year, we all wish Dick well in his opera career.

One of my own roommates has come up with a novel and interesting new career, totally unrelated to her major at Cornell! **Olga Duntuch Krell**, who graduated in architecture, is now the women's editor for a Brazilian fashion magazine, similar to *McCall's* and the *Journal*. Olga, who lives at Alameda Jau 1709, Sao Paulo, Brasil, with husband **Bill '57** and two boys, Charles and Robert, was asked by an old friend to interview for the job, did so as a lark, and got the job! She says it is very interesting, fun to do, and since very few women work on magazines and there has never been a household section in any of them before, she is on her own with no precedents to follow. She handles their experimental kitchen and writes about recipes, interior decoration, etc. Bill is second man in an electrical equipment plant in Sao Paulo. Olga says they often "go nuts" with the political and financial situation and, at the time of her writing last October, had "practically no water and electricity due to the droughts." She has volunteered to be alumnae council representative for South America, but says there are few women from Cornell there. Cornellian **Vittorio Sicherle '58** works in Sao Paulo also.

Robin Lloyd Hart writes that since her oldest child is in third grade and her second in kindergarten, she has only one at home, and is finding time to do technical typing for the local IBM once in a while. The Harts live at 20 Dimond Ave., Peekskill. **Mabel Anne (Hutch) Hutchinson Lee**, husband **Charles '56**, and three boys, David, John, and Robert, have left their home at 1925 Wadsworth Way, Baltimore, Md. for several months to live in Guaymas, Mexico, where Charlie is working on a job for his engineering firm. They will be there until the summer, and I suppose mail will be forwarded from their home address.

There was a baby boom in the last few months. **Fredda Ginsberg Fellner** and husband **Michael '56** announced the arrival of their first child, Jonathan Robert, on Dec. 22. Fredda is busy completing her residency and fellowship training in pediatrics and Michael is doing a fellowship in dermatology. Their address is 601 Kappock St., Riverdale 63. **Ritalou Rogow** and **Bob Harris** announced both the birth of their second child, Gail, on Sept. 10, and their new address: 3665 Upton St., NW, Washington, D.C. Their little Peter was two in August. **Mina Rieur Weiner** and husband **Stephen** sent news of the birth of their first child, Karen Lessall, on Dec. 17. The Weiners live at 431 E. 20th St., N.Y. 10. Mina says that **Sue Davidson Braun** and husband **Dick** and two-year-old Jennifer have moved to New York from Baltimore and they see a lot of them. Also in New York, **Judy Richter Levy** and husband **Alan** have a new baby, and their first, Douglas Benjamin, born Dec. 29. The Levy family can be found at 15 Washington Pl. Still another first baby arrived at the home of the **Robert**

Cypruses, 3441 Rutherglen, El Paso, Texas. Mother **Jo Ann Eastburn** Cyprus, father **Bob '57** and baby, Robert Bruce, born Nov. 12, are doing fine.

'58 Men: **James R. Harper**
582 Waterloo Rd.,
Devon, Pa.

Larry Kaufman and his wife, the former **Judy Moore**, have settled in St. Louis, where Larry is bureau manager for *Business Week*. His address is 816 Craig Dr., Kirkwood, Mo. A sailor soon to be home from the sea is **John Morrison**, who expects to return to the Chicago area (home address: 930 Oakwood Ave., Wilmette, Ill.) in the next month or so. **Neil Jones**, Burr Hill Rd., Pawling, is a sales representative for the National Cash Register Co., and if any classmate has bushels of cash at this point, Neil will be happy to register it on one of his machines.

Lee Jacquette remains on the same island (Manhattan) as when we last heard from him. His address is 200 E. 17th St., and he is now the assistant to the controller of Chemical Bank New York Trust Co. He divides his free time between work towards a doctorate in economics at NYU, and an instructor's position at the American Institute of Banking. Lee appends this thumbnail sketch: "single, awarely conservative, humorously serious, affably arrogant." Which sounds like old Lee.

We had a long letter from **Art Edelstein**, who is now Navy Lieutenant Edelstein, located at Camp Pendleton, Calif. Art is married to the former **Ellyn Dickman**, and the couple has a two-year-old daughter **Sharon**. Art graduated from Cornell Medical School and did his year as an interne at Genesee Hospital in Rochester. "Since October," he writes, "we have been living in sunny southern California. We are on the Pacific, 35 miles north of San Diego and 80 miles south of Los Angeles. Best regards from the avocado capital of the world." The Edelsteins' address is 204 Wonsan Dr., Oceanside, Calif.

Like Art, **Pete Bloom** is a Navy physician, stationed in New Mexico (where Navy physicians outnumber able seamen). Pete and wife **Marcia** live at 3267 47th St., Sandia Base, Albuquerque. **Kathleen Elizabeth**, the Blooms' first child, was born in May 1963. **Bill Stitt** and his wife, the former **Susan Keene**, are parents of a son, **Alexander** (or perhaps a daughter, **Alexandra**) born Jan. 4, 1964. The Stitts' address is 702 Oak Grove Ave., Menlo Park, Calif.

Bob Delaney writes that he is serving "about the best remote tour the Air Force has to offer." He's in command of Grand Bahama AAFB, the first downrange tracking station on the Atlantic Missile Range. Bob is now an Air Force captain, and evidently planning to stay some time in the service. His wife **Anne**, son, and daughter live at 120B NW Drive, Patrick AFB, Fla. Bob spends about one weekend a month at "home;" the rest of the time on his "remote" islet.

'58 Women: **Ann Steffen Bradley**
71-01 Loubet St.
Forest Hills, N.Y. 11375

Recently **Bernice Goodman Henderson** (class treasurer) and I had the good fortune

to attend the annual class officers meeting, held Jan. 11 at the Hotel Roosevelt. In addition to the fine workshops, the assemblage heard the new Dean of Students, **Stanley W. Davis '41** speak at the luncheon, and the women were treated to a special "impromptu" talk by Judge **Mary H. Donlon '20**. Miss Donlon urged those present to remember to vote the alumni trustee ballot which will be mailed the first of April. It is not only our privilege but also our responsibility to help select the women and men who have as their duty all the many phases of Cornell's cultural development and physical growth and maintenance. It is also important that the women have full representation on this Board! So please, vote your ballot as soon as you receive it; also mail it the same day. It is a shame to think that only 20 per cent of the 103,000 former Cornellians returned their ballots in '63.

Lois Cohen Tucker wrote from their new home at 116 Roby Dr., Rochester 18, that their first son, **Dean Graham**, was born Oct. 12, 1963. Their daughter **Belinda** is 1½. While Lois attends to the wants and needs of their expanding family, her husband works as an ophthalmologist.

From 2334 N. 46, Lawton, Okla., we heard from the Fort Sill **McHughs**. The former **Jean Bleckwell** is kept busy tracking the wanderings of **Kevin**, 5, and **Stacey**, 3, and teaching Sunday school while **Mickey (Earl '58)** is practicing dentistry for the Army. In July they hope to return to Kansas City, where Mickey will set up his own private dental offices.

After spending a year in Newfoundland, **Xenia Vurgaropoulos** Wright, her husband **David**, and their 3-year-old daughter returned to California (1323 Barry Ave., Apt. 4, Los Angeles 25), where **Xenia** is continuing her studies for a PhD at UCLA. **David** received his doctorate in 1961. She mentioned seeing **Bob Lasiewski**, who is now an assistant professor of zoology, and **Ralph Miano**, PhD '62, who is on a post-doctoral fellowship in UCLA's department of chemistry. **Ralph's** wife, **Margaret McPhee '60**, MA '61, is busy with their two-year-old son **John**, and **Anne**, their new daughter. The Mianos live at 1451 Armacost Ave., Apt. 2, Los Angeles.

The Millers, **Beverly Blaw** and husband, have recently moved from the Garden State to 105 Hurlburt Rd., Syracuse. **Mel** is in the college sales division of **Allyn & Bacon**, publishers, and although I couldn't glean whether **Bev** was a working woman of the world or not, she did mention that she was active in AAUW in Syracuse.

Adria Goodkin Kaplan received her LLB from Harvard last June and is now doing adoption work in New York. Married to **Lewis Kaplan**, a concert violinist, she lives at 175 Riverside Dr., New York 24. Is **Adria** our only lawyer?

While chillblains seem to be the order of the day in the north, **Sandy Thomas Meyer** and **Bill** are enjoying the warmth of North Palm Beach, Fla., (757 Fairhaven Dr.), where **Bill** is manager of the Seminole Golf Club. Following the seasonal closing of the club at the end of May, **Sandy** and **Bill** hope to journey north for the World's Fair. We hope we see them there.

This is a two-way process; you write more letters, I write more news next month.

'59 Men: **Howard B. Myers**
67-41 Burns St.
Forest Hills 75, N.Y.

During the Christmas season, I received greetings from **Jim**, **Judy**, **Jay**, and **Peter Lindy**, 5597 Manley Rd., Memphis, Tenn. The above address appears to be temporary for the young architect and family who have recently bought a house nearby into which they will soon be moving. Greetings also came from **Joe** and **Faith Braff**, 31B Alcoma, Eggertsville, near Buffalo, where **Joe** is with Bechtol Construction Corp.; **Bob** and **Lorna Rosenberg**, 1105 Lexington St., Waltham, Mass.; **Gail Roy**, and **Laura Bailey**, 10 Garden St., Great Neck, (Roy's with the new Americana in New York); and **Kenny** and **Judy Riskind**, 680 Roger Williams, Highland Park, Ill.

The pair of Riskinds came about as a result of a Nov. 30 wedding held in the Merchandise Mart, with dinner and reception in Chicago's Convention Hall. **Tim Malkin** came all the way from Memphis, **Harold Edward "Buddy" Leidner** all the way from Shaker Heights and **Jim Horwich** from East Cicero, just to partake in the festivities presided over by **Larry Schnadig**, who also picked up the tab. I'm told it was the social event of the North Shore and I am sincerely sorry I was unable to attend.

Richard C. Newman, 43 Marvin Lane, New Brunswick, N.J., is a grad student and teaching assistant in geology at Rutgers. **Dick** completed a tour of duty with the Army Engineers after finishing at Cornell. Traveling from Korea to Ft. Dix, N.J., was interesting, but **Elizabeth Ann Rogowski**, whom he married while at Ft. Dix on June 9, 1962, was even more so. The Newmans have no set plans, at least until **Dick** receives his master's this coming June.

Ken Rand, 4730 Pine St., Philadelphia 43, Pa. was married on Dec. 28, 1963 to **Lois Anne Gill**. The Rands are attending the Wharton School at the U of Pennsylvania. **Vic Samuelson** and wife may now be reached c/o Treasury Dept., International Petroleum Co. Ltd. (Colombia), Apartado Piereo 3533, Bogota, D.E. Colombia, S.A., where he is the assistant manager of the above department. **Vic** and wife moved to Bogota in June 1963 from Coral Gables, Fla.

Stephen L. Rosen, is an assistant professor of chemical engineering at Carnegie Tech, Pittsburgh. **Richard N. Hosterman**, 28 Grove St., Mechanicville, is an engineer, nuclear reactor control design, at Knolls Atomic Power Laboratories, Schenectady. This is a new address and occupation for **Dick** as of September, but he reports "the same old wife, **Connie** . . . and children **Doug** and **David**, 5 and 4."

Jack Lieber, 1236 Waverly St., Philadelphia, recently wrote of a six-month, sixteen-country tour of Europe beginning last April. **Jack** saw **Angelos Cocconis '57**, while in Athens and reports his address as 33 Prince Constantine, Palais Pychico, Athens. In Athens **Jack** also ran into **Gil Herr '58**, who represents Caterpillar Overseas S.A. in Beirut, Lebanon. **Richard A. Gatz Jr.**, 914 Hoyt St., Saginaw, Mich., is a project engineer with the Eaton Manufacturing Co., Saginaw.

"On Jan. 11, the writer attended a Cornell dinner in New York and there met Class President **Ched Haab**, **Bill Woods**, **Nels**

Joyner, Harry Petchesky, Dale Goodfriend, Tony Baker, and Dan Fitzpatrick. Dan is planning rather big things for the fifth Reunion this June. You have doubtless received some information concerning the Reunion, and it's not too early to begin planning to attend."

'59 Women: *Cordelia Brennan Richardson*
5500 Fieldston Rd.
Riverdale 71, N.Y.

Included in a letter from **Mimi Petermann Merrill** was news of other Cornellians as well as her own. **Anne McCaugherty** was married to Donald Wolf in August. They live at 421 Burlington, Apt. 8, Downes Grove, Ill. Anne is continuing her work as a security analyst at Glore, Forgan & Co. in Chicago. **Nancy Stone Jenkins** and **Orin** had another son, Scott, in August. They recently moved to a new address, 85 Waldon Rd., Fanwood, N.J. **Shirley Downs Quinn** also has a new addition, Jennifer, and a new home at Woodside Acres, RD 2, Cumberland Center, Me. On Oct. 23 **Coleman** and **Nancy Willman Burton** had a son, Mark. The Burtons live at 4612 NW 60th St., Oklahoma City 22, Okla. As for Mimi, she has a son, Peter Wesley, born Sept. 25. Mimi's address is 1408 N. 116th St., Wauwatosa, Wis.

Here follows news gleaned from Christmas cards. At the end of January, **Joan Corbett** left the teaching profession and Rochester to work in Archives in Washington, D.C. Here she hopes to stay. In Washington with Joni, **Pat Williams** started a new job in December, in personnel with the Bureau of Reclamation, Dept. of Interior. She likes her job very much. The Cornell Club down there had a very successful egg-nog party one weekend in December.

From Long Island, **Gail Brazilian Bailey** sent greetings. She and Roy bought an English provincial home in September, 10 Garden St., Great Neck. Gail's little girl was walking at 11 months! (I shall have to wait until the end of March to see if my Jacqueline can match that one.) Roy is at the Americana Hotel as assistant banquet manager. **Sandy Roberts** and **Tom Byers '58** sent a picture of their blond son Stephen, as a Christmas card.

Lois Beard Kempster '61 now has four males to spoil her! They are husband **Tom '60**, Karl, 2, Keith, 1, and Kurt Arthur, born on Dec. 27. This youngest Kempster weighed in at 8 lbs., 8 oz. Lois reports that all are doing well. The boys love their baby, and Kurt is being very good.

Nola Rosanoff Marx is a fourth-year medical student at the Cornell University Medical College in New York. She lives at 428 E. 70th St. **Marianne Smith Hubbard** is active in the United Foundation, also with Detroit Artists Market, and an "Art to the Schools" project—slides and "conversation" with as many as 250 students—sponsored by the Detroit Board of Education, Detroit Institute of Arts, and the Junior League, a rewarding and badly needed project. It is all volunteer work. Marianne's husband **Hank '58** is assistant divisional merchandise manager at Hudson's in Detroit. Charlie (Henry H. IV) is 3½ years and Kitsi, 1½. The Hubbards' address is 407 Lothrop Rd., Grosse Pointe Farms 36, Mich.

Also in Michigan, **Nora Smokler Barron**

You Can Eliminate . . .

ONE MAJOR

RISK

IN YOUR FINANCIAL PROGRAM!

. . . that being the possibility of outliving your accumulated dollars during retirement. You won't, though, with OT-PAL-RI, a unique option in our new policies which permits you to convert investments and other asset dollars into a guaranteed lifetime income upon retirement based on today's attractive rates. No insurance or investment program is complete without OT-PAL-RI. Ask your insurance counselor to write us for full details.

(Mrs. Guy) is a psychiatric social worker. She writes,

"I work at a family agency in Detroit and also have a research grant for the second year at Children's Hospital. Last year I worked with children who had been seriously burned. This year I am working with children who have cystic fibrosis. My husband and I took a two-month vacation in September and October and traveled around the world—mainly to Russia and the Far East. It was a fantastic experience."

Back in Michigan you can find Nora at 8941 Nadine, Huntington Woods.

South Glens Falls, N.Y.

I received an interesting letter from **David Gurin** who is working for the Mobilization for Youth, Inc., 214 E. Second Street, New York 19. Dave received a Master of City Planning degree at Harvard, and is now a community planning associate with a delinquency control project on the Lower East Side of Manhattan. Dave is living in the tenements and working towards decent homes and reasonable rents.

Jim and Lynne Keefe Verna are living at 5 E. Buckingham, Scarsdale. Jim attends dental school at NYU and Lynne is doing research, development, and technical services for Union Carbide. This summer Jim was an usher in **Stan Stevinson** and **Karen Schon's** wedding. Stan and Karen are living in Washington, where Stan attends Georgetown Law School. Later in the summer,

Jim was also an usher for **Larry Steenberg** and **Judy Miner**, who are living near Chicago, where Larry is a chemical engineer for an oil firm.

The American Society of Composers, Authors and Publishers announced the winners of the Nathan Burhan Memorial competition, with two classmates in the ranks. **Richard Longworth** won first prize at St. John's U School of Law, and **Robert Savelson** is the first-prize winner at the Columbia U School of Law. Bob's paper, "Electronic Music and the Law," also won honorable mention in the national competition.

Steve Russell received his MBA from Cornell Business School in June '61. Now he is a senior financial analyst with the Ford Division of the Ford Motor Co. Steve, wife Margery, and their year-old daughter Mellissa Beth live at 24447 Filmore, Taylor, Mich.

William (Bob) and Kathy (Perun, '62) Foltin have recently moved into their new home (6 Caroline St., Latham). Bob has left Dupont, and is now a process engineer at General Electric's silicones department. The Foltins number four now, with Carolyn Diane at 10 months, and Susan Lynn at 2 years, rounding out the family portrait.

A letter from **R. Scott Scheer** comes from the U of Buffalo School of Medicine, where Scott is in his junior year. Scott and wife Beverly live at 20 Tillinghast Pl., Buffalo 16. **Robert A. Schnur**, 75C Yorktown Dr., Fort Lee, Va., having graduated from Harvard Law School and passed the Illinois

WHO IS THE ALE MAN?

A History of Cornell

By Professor Morris Bishop '14

"I anticipated that this book would meet the sternest tests of scholarship, insight, and literary finish. I find that it not only does this, but that it has other high merits. It shows grasp of ideas and forces. It is graphic in its presentation of character and idiosyncrasy. It lights up its story by a delightful play of humor, felicitously expressed. Its emphasis on fundamentals without pomposity or platitude is refreshing. . . ." —ALLAN NEVINS, *Pulitzer Prize biographer & historian*

663 pages. Delightfully illustrated by Alison Mason Kingsbury (Mrs. Bishop). Fully indexed.

bar exam, is now a 1st Lt. in the Army. He is an instructor in business law at the Quartermaster's School. At Fort Lee with Bob are wife Phyllis and his 5-month-old son Daniel. Bob reports that **Bob Jaye** is also at the fort as acting assistant inspector general.

Brooke P. Russell, 33 E. Grand St., Fleetwood, was married this past summer in Virginia, and honeymooned in Bermuda. Brooke is secretary for Young & Rubicam Advertising Co. **Ted Dimon** was recently promoted to manager of quality control in the Johnson & Johnson New Brunswick operation. Ted's specialty is Band-Aid brand adhesive bandages, and his address is 41 Vermont Ave., Franklin Park, N.J. **Philip J. Gerb**, 180 Woodland Way, Piedmont 11, Calif., is a management trainee with Pacific Tel & Tel, after two years in Army Ordnance.

George Hubbard is a development engineer at Eastman Kodak Co., and lives at 160 Rand St., Rochester. **Robert A. Kullen**, 48 Park Terr., Caldwell, N.J., and wife Ellen have announced the birth of their daughter Holly King. Bob is now working at the Dumont Laboratories as a development engineer in the tube division. **Tucker Coon** can be reached at the U of Michigan, where he is working on his MS in English.

During the recent reorganization of our class, we have acquired some new class officers. The job of Cornell Fund representative now belongs to **Jim Dowd**. Jim is tackling a hard job and will soon be enlisting a committee of several hundred class members. An equally difficult position has become the responsibility of **Edward D. Cloggott**, who is our new class treasurer. You will be hearing from both of these classmates in their new capacities in the near future.

'60 Women: *Valerie Jones Johnson*
Apt. 201A, KCOS Married
Student Housing
Kirksville, Mo.

Donna Blair Read had a busy 1963, which included three different homes, two teaching jobs on opposite coasts of the country, and a vacation trip up 1,222 miles into Alaska. Donna and her husband Denny moved from Long Beach, Calif. to a lovely home in Pacific Grove, near Monterey during the summer—Denny was supposed to report to post graduate school there in the fall. Real camping and adventure and breathtaking scenery were parts of the Read vacation trip north. In late August, Denny was sent new orders—nuclear power school in Bainbridge, Md.

Now the Reads are settled in Aberdeen, Md., and Donna teaches French and English and coaches junior varsity girls' basketball there; but sometime in April they will be on the move again. This time to West Milton. Perhaps we can catch up on an address for them there.

Partly for sentimental reasons and because their home in Cork, Ireland, overlooks water, **Carol Dioguardi O'Sullivan** and husband **Tony PhD '62**, have named their house "Cayuga." Last August the family, which includes a little daughter, Dara Anne, left Ithaca; and in Sept. Tony took a position as lecturer in the dairy science department of U College, Cork. Their address there is "Cayuga," Well Road,

Douglas, Cork. Carol writes that they're in the process of settling down to a new life in a different society, "but the Irish people abound in kindness and generosity."

Also heading for the British isles are **Margaret Tsao Creasy** and husband **Lee**, who are going to be at Cambridge U this March.

Jane Zautner Potter and husband **Willard '59** announce that Scott Fred Potter arrived Nov. 16. He was a pre-Christmas present for brother Bruce, 19 months, and his parents. The Potters are farming in Truxton, where their address is Rt. 91.

Another pre-Christmas baby, Paul Keblish, arrived Dec. 16 to parents **Barbara Kielar Keblish** and husband **Pete**. Paul's big brother Gary is now two years old. The Keblishes are living at 10-A Wissahickon Gardens, Phila. 44, while Pete does a one-year residence in general surgery before heading for El Paso, Texas, where he will do a three-year residence in orthopedics at William Beaumont Army Hospital, beginning in September.

Barb passed along the news that **Carol Knoop** Buffett and husband David now live at 6811 Clyde St. in Forest Hills, N.J. David is employed by Penney's and Carol works part-time in Forest Hills. Barb also mentioned that **Sydney Clark Menger**, husband **Bob '57**, and their little daughter have moved into a new house. We'll report the address later.

'61 Men: *Burton M. Sack*
12 Park Circle
Hingham, Mass.

Bill Schapp will graduate from the U of Chicago Law School in March and will be married on April 5. He and his wife will live in New York. Also at the U of Chicago is **Paul Peckar** who is doing graduate work in physical chemistry and working on a PhD. Paul has moved into a new apartment which is big enough to accommodate any friends passing through the Windy City. His address is 5445 S. Harper, Chicago.

Bill Onorato, **Mike Wahl**, and **Chris Brown** have rented a 20-room mansion while they attend school in the Philadelphia area. (No sacrifice is too great for graduate work.) Mike and Chris are first-year MBA students at Wharton and Bill is in his third year of law school. After graduation in May, Bill is heading for San Francisco to work for McCutchen, Doyle, Brown, Trantmant & Enersen, the second-largest law firm in the area. Their address is Hickory Hill, 905 W. Mt. Airy Ave., Philadelphia 18.

Bob Case is working as an assistant in a small animal practice in Albany. After graduation, Bob married Nancy Carver and they now have a 10-month-old daughter, Kimberly. Their address is PO Box 107, Guilderland Center.

George Malti is practicing law in Oakland, Calif., where he has joined the firm of Reed, Robinson & Stewart. George lives at 5499 Claremont Ave., Apt. 37, Oakland 18. **Eric Nordlinger** recently received an MA in politics from Princeton's graduate school. Eric lives at 506 Fort Washington Ave., New York. **Mike Altman** is in his third year of medical school at Stanford. Mike's address is 223 Cowper, Palo Alto, Calif.

When we last heard from **Ken Binder**, he was stationed in Iwakuni, Japan, but now

he should be back in the States and assigned to Cherry Point, N.C. Ken is a 1st Lt. in his last year of service. His permanent address is 605 N.W. 39th St., Oklahoma City 18. **Henry Bliss** is in his second year of graduate study in nuclear engineering at MIT. He rooms with **Charlie Brau '60** at 779 Washington St., Brookline, Mass.

After touring the world since graduation, **Larry Bortles** has settled in Honolulu. Settling with him is the former Leinani Keppeler. They were married last October. While Leinani receives her MA in Russian language and history, Larry is working towards entering law school in September. The Bortles can be reached c/o Mr. Herbert Keppeler, 307 Elelupe Rd., Honolulu 16.

Doug Brandon got his degree in February. The delay was due to a leave of absence resulting from his father's illness. His permanent address is 2130 Willowbrook Dr., Huntington Valley, Pa. **Stu Carter** is assistant resident officer in charge of construction at the Naval Air Station in Sanford, Fla. His address is AROICC, USNAS, Sanford. Stu wrote that he heard from **Charlie Green**, who spent the past year studying rural housing in India.

Carl Clauss tells us that the ChemE's working for DuPont recently had a reunion at **Ron Curry's** house. In attendance were **Bruce Herbert**, **Greg Crowe**, **Pete Shields**, **Carl**, and **Ron**. Also working for DuPont is **Jim Latimore**. **Gerald Christen** is a student at Temple U School of Medicine in Philly. His home address is 1305 Prospect Rd., Pittsburgh 27. He also wrote that **Humberto "Joe" Cordero Jr.** is married, has a daughter, and is living at 81 Massachusetts Ave., Johnson City.

Al Eddy is attending Wharton Graduate School, majoring in finance. His address is 117 S. 38th St., Philadelphia 4. **Dick Lipinski** is stationed at Fort Belvoir, Va. with the 87th Eng. Constr. Bn. Dick, wife **Janet Nelson**, and daughter **Diane**, 1, live at 405 Bellevue Blvd., Alexandria 7, Va.

Frank Loew is in his third year at Cornell's Veterinary College. He's living at 120 Highland Pl., Ithaca. **Lewis Mantel** is in his third year at Albert Einstein College of Medicine. His home address is 202 Herick Ave., Teaneck, N.J.

Al Master writes that he is working as a senior analyst/account head in the credit dept. for the Chemical Bank N.Y. Trust Co. Al says that he is keeping in touch with **Dick Siefert** and **Mark Ettinger '59** and a few coeds he isn't about to name. His address is 139 N. 12 St., New Hyde Park.

A nice letter from **Dave Haworth** tells us that it's the time of year when we should dig down deep in our pockets for the Cornell Fund. Last year's drive was a marked improvement over past years with increases both in dollars given and in class donors. Yet, in spite of what appears to be a success, only one man in seven contributed from our class. Those of us who have good jobs, or are in graduate school, or are officers in the service, would not be where we are today if it wasn't for Cornell.

Dave writes:

"It is important to remember that Cornell, in order to provide the leadership and direction necessary to meet the fast-growing needs of today's society, must add to her facilities and potential at an increasingly greater rate. Thus, in order to help Cornell meet these growing demands, our contributions must

Send a mouse to college.

Research scientists, in university laboratories, see evidence in their experiments with mice that a virus causes leukemia. If human leukemia is caused by a virus, how can we speed the search for a vaccine that will prevent this form of cancer? The American Cancer Society is spending \$2,000,000 this year on leukemia-related research. It should be spending much more. It can't unless you help. Send money.

continue to grow in both size and number. Last year's gifts were important, but this year's are even more so. I sincerely hope that, as we begin to achieve more solid financial status, a greater number will be able to contribute even more to Cornell this year."

'61 PhD—**Thomas Timusk** has been appointed research assistant professor of physics at U of Illinois beginning May 1, 1964.

'61 Women: *Brenda Zeller
Rosenbaum
2101 Chestnut St.
Philadelphia, Pa.*

This column is written by Ellie Rubin while former roommate Brenda is on her honeymoon in Jamaica with Paul Rosenbaum '57.

Betsy Little Bodman writes a news letter of classmates in the Boston area, where she and **Sam '60** live at 52 Oxford St., Arlington 74. Cornellians the Bodmans saw after the Cornell-Harvard football game last fall include **Barbara Potter** and **Peter Sperry '60**, **Steve '60** and **Marge Paradis**, **Charlie Gray**, **Bill Krossner**, **Gus Wulf**, **Phil Platt**, **Carl Volckmann**, all '60 and **Harry '60** and **Marlene Skilton**. Betsy also writes that **Sue Rand Hutchings** and **Don** live at 700 Welsh Rd., Apt. E20, Bethayres, Penna.

Also in the Boston area are **Frances Goldreich Raab** and husband **Robert '60**, who live at 27 Jacqueline Rd., Waltham. Bob is a structural engineer at the MIT Lincoln Laboratory in Lexington and Fran is a substitute teacher.

Lynn Rothenberg is an assistant in film programming at WNEW-TV—Channel 5 in New York—and is living at 444 E. 57th St.

Debbie Kaufman is a student of voice and opera at the Juilliard School of Music and starred in a production of *Fiorello* last spring to rave reviews. She played the wife of the colorful mayor of New York. Debbie lives at 5270 Independence Ave., Riverdale 71.

At the other end of the country, **Roberta Singer Gang** and husband **Leonard '60** are living at 404 E. Lee St., Carson City, Nev., where Bobbie is a systems engineer with IBM and Leonard is law clerk to the Supreme Court of the State of Nevada. They invite any Cornellians passing through Lake Tahoe or Reno to visit or call. Also in the wild and woolly West, **Judy Rensin Mandell** and **Jerry '58** are at the Public Health Service Indian Hospital in Tuba City, Ariz. The Mandells and year-old son Jimmy will be on the Navajo reservation for two years while Jerry is in the service.

Barbara Schultz Weiss and **David** live at 6 River Hill, Van Rensselaer Blvd., Albany, where David is a sales manager with the Royal McBee Co. Before her marriage in April 1962, Barbara was working as assistant food editor at *McCall's*. Also upstate, **Patricia DeWitt Dutcher** and family are living at 13 Duzine Road, New Paltz.

A batch of new babies represents Cornell's contribution to the population explosion. **Janet Hoffsis Sanderson** and **Sandy '57** announced the birth of Judith Anne Nov. 5 to join Betsy Anne born April 1961. The Sandersons live at 2618 E. Portland St., Phoenix 8, Ariz., where Sandy is a salesman with the Borden Co.

Sue Atlas Rudd and **David** are the proud parents of Michael Seth born March 3. David graduated Cornell Law School in

June and is now a 2nd lieutenant assigned to the Philadelphia Procurement District. The Rudds live at 329 E. Mt. Airy Ave., Philadelphia 19.

Phyllis Mark Turner and husband **Daniel** are parents of Bruce Craig born Oct. 26. The Turners live at 3950 Blackstone Ave., Riverdale. Last March Arnold Louis arrived at the home of **Sabina Klein Millens** 67 Millers Lane, Kingston. And **Beth Wilson Klepeis** and **Jim, MAE '61**, became parents of John Emrich on Sept. 27. Beth and Jim live at 1 Albert Dr., Apt. 2, Woburn, Mass.

Sarita Daniels Berkenbilt and husband **Ronald** announce the birth of Scott Ira on Jan. 3. They live at 3619 Bedford Ave., Brooklyn 10. And to **Ruth Bohrer Reich** and **Paul**, Marjorie Beth arrived on Nov. 19. The Reichs live at 10427 Montrose Ave., Bethesda, Md., where Paul is doing cancer research at the National Institute of Health.

Justine George Fowler and **Paul '58** are living on a dairy farm on Lake Winnebago, Wis. Paul is president of the county Farm Bureau and Justine is vice chairman of the newly organized Farm Bureau Women. The Fowlers have two daughters and live at 6170 Fond du Lac Rd., Oshkosh.

Justine writes that former roommate **Carol Moore** married **Harry Hershey '60** in June 1961 and is living in Rolla, Mo., where Harry is getting his PhD in chemical engineering at the Missouri School of Mines. Carol is active in AAUW and is vice chairman of Rolla's Fine Arts Association.

Linda McCarthy, Nancy Cooper, and **Peggy Monkmeier** are now living at 60 E. 12th St. in Manhattan. Linda is with Scribner's, Nancy with IBM, and Peggy is teaching at Hunter High School.

Judith L. Light of 2020 W. Farwell, Chicago, has been sworn in as a Junior Officer Trainee of USIA. Judy, who graduated from Middlebury College Russian School in 1962, will train for six months in Washington before being assigned to "on the job training" at an overseas post. USIA tells America's story abroad using all the techniques of mass communication: press, radio, TV, libraries, exhibits, the arts, and personal contact by its overseas officers.

E. V. Dobbins has just returned to the US after two years in the Philippines with the Peace Corps. She is studying for a graduate degree in education at the University of Illinois. E. V. lived with **Clarinda ("Britt") Horner** for several months in the Philippines when summer classes were in session. Her address is 110 N. Prospect Ave., Champaign, Ill. **Marcia Allen Peck** writes that she and her husband **William** have just begun their tour with the Peace Corps. After 11 weeks of training at Hilo, Hawaii, they were also assigned to teach in the Philippines. They are concentrating on teaching English as a second language, math, and general science, with home economics on the side. **Marty** and **Bill**—who are at Padre Burgos, Quezon, would love to hear from Cornellians.

'62 Men: *Richard J. Levine
1815 Avenue O
Brooklyn 30, N.Y.*

Written by his mother Dorothy Levine, while Dick is in Europe with his wife Neil Stuckey '63.

A very cordial note from **Pete Johnson**,

Cornell Alumni News

592 Main St., Oneida, who is reporting to active duty as a 2nd Lt., Army, to Fort Bliss, Texas for 15 weeks of training with the Hawk Missile and then to Germany to round out his army tour.

Donald P. Shaffer, 1624 Montgomery Ave., Villanova, Pa., is at Wharton Graduate School at the U of Pennsylvania and hopes to graduate in May '64. **Christopher J. Berry**, 201 Gloucester Terr., London W 2, England, is working at the Dockland of Eastern London for Yardley of London, Ltd. **Howard H. Weisswasser**, 2215 Newkirk Ave., Brooklyn, is now at Brooklyn Law School, after a year with the N.Y.C. Dept. of Welfare.

David Rattner is attending Columbia Graduate School in Economics. **Bill Appelbaum**, completing studies for his master's at the U of Illinois, can be reached at 1209 W. Main St., Urbana. **William A. Walters**, 228 W. 11th St., New York, is currently employed at Colgate-Palmolive's central engineering department and really enjoying New York from a cool apartment in the "Village."

Stephen Schmal, 1777 Lanier Pl. NW, Washington, D.C. or 110 Cobb St., Ithaca, is working toward an MA at American U. From **Pedro Sanchez**, 120 Highland Pl., Ithaca, a note concerning a classmate, **Otto Doering**, who is at the London School of Economics as the first Cornell-London exchange student. "In between classes and trips to Austria, he is in the third boat of the LSE Crew!"

Donald P. Reed, RD 2, Cortland, is working with Reed's Seeds as a plant breeder. **Frank Quirk**, 1031 Taughannock Blvd., Ithaca, will get his MBA degree this June from the Cornell BPA School. Both in Army service are **E. Joel Peterson**, Main Rd., Woods Hole, Mass., in for six months, and manager of Dome Restaurant in Woods Hole during the summer, and **Frank M. Robbins**, 502 Military Intelligence Detachment, Army, Ft. Hood, Texas.

John G. Berzinec was married to **Cynthia Rosenbaum** on Nov. 30, 1963. They are living at 1983 St. George Ave., Rahway, N.J. John is currently doing post-graduate work in nutrition at Seton Hall College of Medicine. **E. William Kobernusz**, 527 E. State St., Ithaca and **Helen Zawatsky** were married on Sept. 7, 1963. Both are doing graduate work for master's degrees at Cornell—Helen in education and William in industrial engineering.

William M. Graff Chase, C-33 Soldiers Field, Boston, Mass., is attending Harvard Graduate School of Business. **Walter E. Ens Dorf**, Rockledge, Ithaca, sends news of the marriage of **Bob Adelman** to **Mary Hutchins '64**. Both are now in Ithaca. Another Cornell marriage: **Laurence C. Alden** to **Rosemary Almendinger '63**, in Orchard Park. They are living at 619½ W. Springfield Ave., Champaign, Ill. Laurence is a civil engineer for Clark, Dietz, Painter & Associates in Urbana, Ill.

Timothy M. Considine, 1422 Sixth Ave., San Diego, Calif., is now the proud father of Kevin Charles Considine, born Aug. 21, 1963. **Robert A. Engle**, 120 Highland Pl., Ithaca, is back in school at Cornell. **Terry Randal Beal**, 415 N. Aurora St., Ithaca, is attending graduate school at Cornell, in industrial engineering. By air mail, an invitation to all '62ers from **Rudy Muenster**, to

drop in on him at the Frankfurt Continental, in Frankfurt-Am-Main, Germany, where he is the general manager of a growing sales office. (Did Dick drop in to see you? He was in Frankfurt-Am-Main a short while back!)

Bill Brozowski has been working since graduation as an assistant county agricultural agent in Steuben County; he can be reached c/o the Agricultural Dept., PO Box 791, County Office Building, 119 E. Steuben St., Bath. Bill mentions that he does a great deal of interstate traveling and would like to know the names and addresses of classmates in order to make visiting possible on his tours.

Keep sending news of yourself and your classmates.

'62 Women: Jan McClayton Crites
923½ King St.
La Crosse, Wis.

Toni L. Rogers reports her marriage last June 1 to Jonathan Black '61. The Blacks have recently moved from Jersey City, N.J., to 4468 Forest Glen Ct., Annandale, Va., where Jonathan works as a research leader for Melpar Inc. in nearby Falls Church. Toni, who had worked for Employer's Mutual of Wausau, has retired to housewifery.

Another new name and address is that of Brenda Shencup, now Mrs. Marvin Laderman of 11 Lilac Dr., Rochester 20. Brenda and Marv, an intern at Rochester's Genesee Hospital, were married Nov. 10. Guests at their wedding included Len and Carole Gerber Koldin, proud parents of six-month-old Stephen Keith. Len is a lawyer in Syracuse and the three Koldins live at 7 Caton Dr., Dewitt. Brenda also mentions that Arlene Horenstein's course schedule at MIT wouldn't permit her to join the festivities. Arlene's address is 108 Oxford St., Cambridge, Mass.

Nancy Berger Hauger and Odd left Rochester last fall for at least two years in Norway. Nancy reportedly has a retailing position in Oslo and would enjoy hearing from Cornell friends; write to her at Oygardsveien 66, Bekkestua, Baerum, Norway.

Still in Ithaca, Michael '61 and Linda Goldfarb Roberts are living at 1502 Slaterville Rd. Michael is doing graduate work in electrical engineering while Linda teaches second grade. Linda also passed along news of some traveling classmates: the Ron Weckers (Barbara Byrd), who had just returned to Kansas City after a California vacation from Ron's med school studies and Barbara's junior high teaching duties, and the Mike Blumenfelds (Sue Groner), who spent last summer in Israel. The latest address I have for the Blumenfelds is 261 Lenox Rd., Brooklyn 28.

Dec. 4 was the date little Margaret S. Benson chose to join her parents, Thomas MA '61 and Margaret Sandelin Benson, at 1018 Parkside Dr., Buffalo 16. Margaret now plays a dual role as grad student and housewife; Tom is on the faculty of the State U of New York at Buffalo.

Marcia Lee Goldberg Greenbaum, wife of William N. '63, has recently had a pamphlet entitled "The Shorter Workweek" published by the ILR school and is working as assistant to Saul Wallen, the arbitrator. Bill, who is with the Gloucester Daily

Times, and Marcia, live in Boston at 183 Commonwealth Ave.

A quick check of the little file I keep on you-all and your appearances in the column adds up to only 250, leaving the remaining ¾ of the class unaccounted for since graduation. Now is a good time to take pen in hand and make yourself heard if you're in the latter group, or to bring me up to date if you're in the former. Since our two-year group subscription expires with the June issue, here's your last chance to make your whereabouts known to the entire class. (Of course, we do hope that the entire class will renew in June. Start saving shekels from the grocery money.)

'63 Men: Thomas L. Stirling Jr.
3230 University Halls
Cornell University
Ithaca, N.Y.

Orlo Clark (president of the class of 1967 of Cornell Medical College) dutifully sent along to me a roster of his co-workers, which includes Kermit Dewey, Dean Edell, Richard Lumiere, Mark Miller, William Miller, Susan Moss, Richard Muchnick, Donald A. Schlernitzauer, John Shenasky, Bruce Simonds, Tony Turel, James Wedner, and James B. Wirth. Also Yale Fisher and Steve Severance, '64, George Telesh, and Russ Zelko, '62, and Anita Hollander and Steve Muller from I-don't-know-what-class-but-they're-Cornellians.

Although many of us do manage to avoid the cold, cruel world by remaining in cold, cruel grad schools of sorts, it is well to note that some of our comrades are already out fighting. At last count, Blair Crum was a sales trainee for the Norton Co. in Worcester, Mass., and had taken a bride, Patricia A. Williamson. Rexford James Daunan is a store manager for P&C Food Markets, Inc. in New Hartford. Frederick F. Worthen is now an agricultural marketing specialist (meat grader) and is reachable at 760 Livestock Exchange Bldg., Kansas City 2, Mo. Writes Fred, "After graduation in June, I entered upon a six-month training program with the US Dept. of Agriculture at several field stations preparatory to becoming a grader. I believe that I am the first Cornell graduate to enter the department in this capacity."

Ernest L. Manchin lives at 467 Lillian Ave., Syracuse, with bride Barbara Timerman and, on the side, is a technical writer for Carrier Air Conditioning Co. P. Scott Gibbs, 8 Westervelt Ave., Tenafly, N.J., is a production coordinator for Elliot, Unger & Elliot Film Co., a division of Screen Gems, Inc. Norm Goldstein is a representative of Top Trading Corp., an export-import firm, and lives at 23 Rose St., Freeport. R. L. Juliano lives at 421 W. 22nd St., New York 11, with his wife, Eve-lynn Grutz, and is a research technician.

Eric Craven, as all of us who knew him would have expected, is still in the thick of the civil rights struggle. He's now a staff member for the Northern Student Movement of Baltimore and can be reached at 622 N. Asquith St., Baltimore, Md. Writes Eric, "I am currently working in the freedom movement in Baltimore, specifically on the tutorial project and other types of community work."

Thomas E. Fink is working toward a PhD in chemistry at Carnegie Tech as a

Smith, Kline & French Fellow and is reachable at 660 Ridgely Ave., Pittsburgh, Pa. **Frederic L. Faudie** is engaged in studio art work at SUI, address 422 Brown St., Iowa City, Iowa. **Michael A. O'Dockerty**, 20 Triangle St., Amherst, Mass., is in plant pathology at the U of Massachusetts.

Quite a few of our boys are in the medical racket. **Rick Clark** even conned his Cornell Med School classmates into electing him president of their class. A soft job, Rick tells me. Elsewhere, **Frederick G. Bergmann** is at Temple Med School and is reachable at 16 E. Main St., Sussex, N.J. **Stuart S. Cohn**, 6239 N. 16th St., Philadelphia, Pa., attends Pennsylvania State College of Optometry. **Preston R. Clark** is with the College of Physicians and Surgeons and lives at 50 Haven Ave., New York 32. **Larry Dirksen**, 821 San Francisco Ct., Stanford, Calif., is at Stanford Med School. **Tommy Newman** lives with his wife at 3001 S. Pkwy., Chicago, 16, Ill., and attends Chicago Med School with **Richard Albin** and **Stan Pollock**. **Stuart Gould** operates out of 74 Phillips St. (that's backside Beacon Hill—Boston's answer to Greenwich Village), and goes to Tufts Dental School on the side. He reports seeing **Jim Wedner**, **Mark Miller**, and **Dick Loumier** in New York—they're all at Cornell Med—and also ran into **Steve Rostler**, who's at Boston U Med School. **Lawrence M. Stone**, recently wed to Joan Lubow, is also at Tufts Dental, living at 27 Ramshead Rd., Medford, Mass. **David B. Apfelberg** heads from 710 N. Lake Shore Dr., Chicago, Ill., to second-year classes at Northwestern Med School.

Jacques Forest slipped me a note to let me know in no uncertain terms that he is an Army second lieutenant (and is now doing basic training in the Ordnance Corps at Aberdeen Proving Grounds, Md.). Seems I had him enrolled in the Air Force a couple of issues back. I apologize, stand corrected, and invite any and all other criticisms (as well as news!).

'63 Women: 'Dee' Stroh Reif
26 Copeland Ave.
Reading, Mass.

Wedding bells rang on Sept. 21 for **Sara Hart** and **Richard Olson '62** and included in their wedding party were **Tom** and **Carol Sammis Heltzel**. The Olsons are now living in New York, where Sara is a research assistant with Kenyon & Eckhardt, and Richard works for Richardson Merrell. Their address is 850 Webster Ave., New Rochelle. An Oct. 26 wedding was that of **Sarah Wickham** to **Robert D. Shappee '61**. The Shappees will spend the next two years in Bamberg, where Bob is stationed with the Army. They may be reached via 100 Wolver Hollow Road, Glen Head.

Jean Lynne Cuneo is working in Cornell's New York Hospital and sharing an apartment with **Connie Long** and **Blanche Floyd**. All three girls received their BS in nursing, '63. Also living in New York are **Emily Cho** and **Sally Simpson**, who share an apartment at 3 Montague Ter., Brooklyn Heights. Emily is in the executive training program at Bloomingdale's in New York.

Louise Salwitz and **Mary Dunn** are both studying for an MA in teaching at Harvard U. Louise lives at 19 Wendell St., Cambridge, and Mary shares an apartment with **Sara Mills** at 6 Ellsworth Ave., Apt. 24;

Cornell University, Ithaca, N.Y.

If you move

Recent changes in postal regulations have greatly increased the expense for copies of the ALUMNI NEWS that are not correctly addressed.

If you move without notifying us or giving instructions to your postoffice, your issues are not forwarded. They are destroyed. The local postoffice may notify us that your copies were not delivered, but each such notice now costs us ten cents. This, plus the cost of the lost papers and the expense of tracking down your new address, multiplied by the thousands of subscribers who change addresses each year, can be a waste of money and office time that we'd much rather put into more improvements of the NEWS. And missed copies are usually hard to come by.

So it is important to us, yourself, and all readers of the paper to notify us at least a month ahead if you plan to move or be away for a while. Your post office or carrier will supply cards for change of address without charge. Send card or letter with address label clipped from a recent copy to

Cornell Alumni News
18 East Ave. Ithaca, N.Y.

Cambridge 39. Sara works as a programmer for the Smithsonian Astrophysical Observatory, a division of the Smithsonian Institute, in Cambridge.

Jennifer Patai and Nancy White are living at 216 S. Ingalls St., Apt. 22, Ann Arbor, Mich. Both girls are doing graduate work at the U of Michigan, Jennifer in genetics, and Nancy in education. Joann L. Pohl, whose address is 102 Woodland Ct., Apt. 104, Laurel, Md., is an analyst with the Department of Defense.

Hattie-Jo Pursglove received her BA in English from the U of Iowa on June 7 and was married to Ronald Gift Mullins (University of Iowa '62) on Aug. 17. The Mullins's live at 23 Orchard Circle, Suffern. Helene Gold and Richard E. Penn, were married on June 6 and may be reached c/o Gold, 525 W. End Ave., New York 24. Marcia High and Kenneth Pursely '62 were married in June and are now making their home at 484 W. 16th St., Chicago Heights, Ill. Marcia is teaching junior high school social studies and reading, while Ken is in his second year at the U of Chicago Law School.

Judith M. Feigin is a student at the Downstate Medical School, Class of '67, and is living at 178-19 80th Dr., Jamaica Estates 32. Frances Fowler is teaching freshman English while working for her master's degree in English at the U of Illinois. Frances lives at 1010 W. Green, Urbana, Ill.

Among the many who remained in Ithaca following graduation are Ella Andresen, Barbara Hartung, Elaine Gerber, and Nancy Ruby. Ella lives at 706 E. Seneca St. and is working as an Extension associate, housing and design, at Cornell. Barbara and Elaine are doing graduate work in education, while Nancy is employed by Cornell as an administrative aide in charge of special events. The latter three share an apartment at 934 Stewart Ave.

Nancy Cook and Jenny Frisse live at 330 E. 85th St., New York 28. Nancy is the assistant merchandising editor of *Mademoiselle*. Kathleen McKeegan lives at 400 Central Park West, Apt. 14D, New York 25, and is working in the personnel department of Hilton Hotels, eastern division. Sharing the apartment with Kathleen are Sharon Reed, Karen Kerr, and Pat Erwin.

John and Sandra Luburg Beeman are doing graduate work at Stanford U in California. John is in the business school, while Sandra is in education, and the couple lives at 943 Bryant, Palo Alto.

Geraldine Ciko writes that she would welcome a visit from any Cornellians passing through her neighborhood, particularly members of the class of '63. Geraldine is doing graduate work in chemistry at the U of Arizona and lives at 2603 E. First St., Apt. 9, Tucson.

Gail Erpenbeck is teaching English in Japan and may be reached c/o Sophia University, 7 Kioi-Cho, Chiyoda-ku, Tokyo. Nancy Kuphal Jones is an English teacher for foreign students at the International Language School in Montreal. Nancy was married on Dec. 21, 1962 to John Jennings Jones (U of Minnesota '59) and after a leave of absence from Cornell during spring term '63, completed her degree *in absentia* during the summer at Michigan State. The Joneses live at 3525 Shuter St., Apt. 408, Montreal 18.

Necrology

■ '97 BS—Charles H. Blair of 226 E. 70th St., New York, Jan. 23, 1964, after an illness of several weeks. A retired member of the New York Stock Exchange and the last surviving grandson of Ezra Cornell, he was the last of a group of Cornell men who, beginning in 1900, met at dinner in New York once every five years until 1955. He was president of the Cornell Club of New York from 1934-41 and a Cornell trustee from 1934-39. Psi Upsilon. Sphinx Head.

'97 AB—Helen Knox of Wideacres Rest Home, Sheffield, Mass., Dec. 15, 1963, at the age of 101. In 1928 she retired as head of the language department at Ithaca High School after a 27-year career there, and served as a language tutor until 1948. Brother, Herbert W. '94.

'97 PhB—Bessie D. Cooper of La Co-tonniero, Vence, Alpes-Maritimes, France, June 1963.

'97 LLB—Spencer Brownell of Oswego, Dec. 14, 1963.

'98 ME Wilton Bentley of 202 Ramona St., Palo Alto, Calif., Jan. 13, 1964. He was manager and executive vice president of K. W. Battery Co. for over 30 years, retiring in 1952. Sister, the late Ruth Bentley Shreve '02; brother, Gustavus E. '12; son, Richard S. '31; and daughter, Mrs. R. B. Ryan (Margaret W.) '34. Quill and Dagger.

'99—Dr. Samuel A. Gluck of 2914 Alton Rd., Miami Beach, Fla., May 29, 1963.

'00 AB—Rabbi Marvin Nathan of 3517 Ridge Ave., Philadelphia, Pa., Dec. 12, 1963. He was founder of the Jewish Community Chaplaincy Service, which provides religious services for prisons, hospitals, and homes for the indigent. For 25 years he was rabbi of Congregation *Beth Israel* in Philadelphia.

'00 LLB—William D. J. Kelly of 320 Brooklyn Blvd., Sea Girt, N.J., Nov. 25, 1963. For many years he worked in the fiscal department of the State of New Jersey, being appointed state tax commissioner in 1941, and retiring in 1951. Phi Kappa Psi.

'01—Norman L. Ritchie of 179 Nelson Ave., Saratoga Springs, Dec. 9, 1963. He was associated with newspapers in New York, Pittsburgh, Cleveland, and other cities, and for 12 years was editor and publisher of *The Weekly Review* in Chicago. Delta Phi.

'02-'03 Sp Agr—Edwin K. Morse of Moravia, April 28, 1963.

'03 MCE, '05 Phd—Richard R. Lyman of 1084 3rd Ave., Salt Lake City, Utah, Dec. 31, 1963, engineer, educator, and businessman. He was consulting engineer on three of the seven "modern civil engineering wonders of the United States," so named by the American Society of Civil Engineers. Well known for his street-naming and house-numbering plan now in use in Salt Lake City and County, he surveyed

and laid out the present U of Utah campus, and served on the faculty for many years. Sigma Xi.

'04-05 Sp Agr—Fred G. Weaver of 10 Proctor Blvd., Utica, Nov. 26, 1963.

'05 CE—James C. F. Shafer of 2126 Belle Ave., Lakewood, Ohio, Jan. 1, 1964. A civil and structural engineer, he specialized in industrial plant and factory construction.

'05-06 Med—Dr. Margaret N. Sullivan of 2787 Hudson Blvd., Jersey City, N.J., March 24, 1963.

'06—Mrs. Radcliffe Swinnerton (Edna Huestis) of 333 E. 68th St., New York, Jan. 12, 1964, a painter of miniatures. Her work was on permanent exhibition at the Philadelphia Museum of Art, and she had exhibited in many art shows.

'06 CE—Paul L. Pierce of 1 N. Orange Ave., Orlando, Fla., Dec. 30, 1963, executive vice president of the investment banking firm of Leedy, Wheeler & Alleman.

'06 AB—Mrs. Charles F. Landmesser (Jane Button Cheney) of 107 Old Niskayuna Rd., Loudonville, Dec. 11, 1963, after a long illness. Husband, the late Charles F. '06; brother, the late Monroe G. Cheney '17; son, Charles M. '39. Delta Gamma. Raven and Serpent.

'06-'09 Med—Dr. James C. Donovan of 182 Grand St., Newburgh, June 27, 1963.

'07—Robert R. Rosan of Port Chester, Jan. 20, 1964. He was in his 54th year of law practice in Port Chester and Fairfield County, Conn. Son, Richard A. '33.

'07 Sp Agr—Marion I. Case of 186 N. Main St., Canandaigua, Nov. 8, 1963.

'09 CE—William H. Hilborn of 208 Church St., Phoenix, Oct. 18, 1963, a retired engineer. Sons, Edwin '36 and Allen '41.

'09—Ivan H. Wright of 13 E. State St., Gloversville, February 1963.

'09-'10 Sp Agr—Wilson McKnight of 125 S. Second Ave., Mechanicville, Nov. 6, 1963.

'10 Grad—Mrs. Cecil Yampolsky (Helen Marie Boas of Cornwall Bridge, Conn., Dec. 20, 1963. Her field was botany, but she devoted much of her life to editing the papers of her father, the late anthropologist Franz Boas.

'11 AB—James E. Bennett of 21 Riverside Dr., Poland, Ohio, Jan. 8, 1964, in an automobile accident. An attorney for over 30 years with the Youngstown firm of Manchester, Bennett, Powers & Ullman, he served as secretary and general counsel of Youngstown Sheet & Tube Co. from 1948 until retirement in 1959. Brother, Wendell H. '13; sons, James E. Jr. '41, George O. '43, Hugh N. '43, and Franklin S. '51. Phi Beta Kappa.

'11—Bernard T. Hunt, 55 E. State St., Albion, Nov. 11, 1963.

'11 DVM—Dr. Roy Rowe of 514 Gramaton Ave., Mt. Vernon, Jan. 1, 1964. A practicing veterinarian for eight years, he was associated with the Borden Co., New York, from 1919 to 1953, when he retired. Alpha Psi.

'11 ME—William A. S. Somerville of 166 E. Main St., Frostburg, Md., Dec. 8, 1963.

'12 ME—Charles F. Merz of 7022 Marsden St., Philadelphia, Jan. 8, 1964. Executive secretary since 1933 of the Philadelphia Association of Life Underwriters, he was also secretary of the Philadelphia Estate Planning Council. Phi Sigma. Quill and Dagger.

'12 Sp Med—Dr. Enoch Blackwell of 18 Edgewood Rd., Yardley, Pa., Oct. 25, 1963.

'13 AB, '23 PhD—Lucy S. Crawford of Sweet Briar, Va., Dec. 30, 1963, a retired faculty member of Sweet Briar College.

'13 ME—Mason Evans Jr. of 102 Fairway Dr., Youngstown, Ohio, Jan. 2, 1964, of a brain tumor. He had retired as credit manager and assistant treasurer of Sharon Steel Corp. in 1960. Son, Mason III '43; granddaughter, Nancy Hutt Moorhouse '63. Delta Phi.

'13 LLB—LeRoy S. Ward of Saint Elizabeth's Hospital, Washington, D.C., Dec. 27, 1963. He practiced law in Buffalo before military service in World War I.

'13 MD—Dr. Ann L. Martin of 2525 Rose Walk, Berkeley, Calif., July 1963.

'14 BChem—William J. Donnan of Chapel Hill, N.C., Nov. 25, 1963.

'14 ME—Boudinot S. Loney III of Florida State Hospital, Hollywood, Fla., Sept. 22, 1963. He was a partner in an insurance and real estate firm in Superior, Wis. for 35 years. Sigma Phi.

'14 DVM—Dr. John D. Andrews of W. Henrietta Rd., Avon, Jan. 13, 1964, of cancer. He practiced in Wolcott until he contracted undulant fever in 1925. Continuing as a consultant, he established a real estate brokerage business in Rochester. Daughter, Mrs. Orville Sweeting (Mary) '39; sons, James D. '37 and John B. '44.

'15—Alvin E. Chapin of 15323 Goodhue St., Whittier, Calif., Nov. 4, 1963, of a heart attack. He had been president of the Chapin Cafeteria Co., and Suburban Residential Development. Sigma Nu.

'15—Joseph G. Malone of 14719 Clifton Blvd., Lakewood, Ohio, Nov. 30, 1963, for a number of years president of Industrial Specialties Co., Cleveland, Ohio. Chi Psi.

'15—Daniel K. Wallingford of 64 W. Ohio St., Chicago, Ill., Jan. 11, 1964. An architect who was in advertising as an account executive for firms in the building and engineering fields, he went into industrial designing in 1934. He designed the humorous maps, "A New Yorker's Idea of the US," and "A Bostonian's Idea of the US." Sigma Chi.

'15 BS—William V. Ellms of 1119 N. 15th St., Boise, Idaho, Oct. 10, 1963. He was with a division of Standard Oil Co. for many years. Telluride.

'15 ME—Harold H. Van Kernen of 1200 State St., Ogdensburg, July 4, 1963. Beta Theta Pi.

'16 BS—Miles W. Bryant of 1115 S. Main St., Princeton, Ill., Jan. 4, 1964, following a long illness. He was president of Princeton Nurseries.

'17—Ray T. Hoffman of 202 N. 30th St., Penbrook, Harrisburg, Pa., Oct. 27, 1963.

Williams D. Bailey, Partner '24, Erik B. J. Roos, Partner '32, Stephen D. Teetor, Partner '43, Harold S. Woodward, Partner '22, Irving Weiselberg '23, Frederick J. Kircher '45, William J. Gladstone '46, R. H. Thackberry '47, Donald D. Haude '49, James D. Bailey '51, Donald M. Crotty '57.

Before retirement, he was a mechanical and electrical engineer with Gannett, Fleming, Cordry & Carpenter, Harrisburg.

'17—**Frederic B. Osler** of Waterford, Va., Jan. 18, 1964.

'17 BArch—**Lester Ernst** of 17 Coville St., Victor, Jan. 8, 1964, for many years an architect in Rochester. Daughter, Mrs. Raymond Phillips (Joanne) '53.

'17 Grad—**Jack R. Uhler** of 1461 Lawrence Rd., Trenton, N.J., July 2, 1963.

'18 BS—**Henry Negus Boucher** of 4801 Connecticut Ave. NW, Washington, D.C., Dec. 18, 1963, in Wilton, Conn. He had retired last May from the Air Force, where he served as a community and regional planner and civil engineer. His government career included master planning of Air Force bases, missile sites, public housing, and veterans' hospitals throughout the US, and his private practice as a landscape architect included the design of a number of estates in the northeast. Daughter, Mrs. Robert L. Bien (Theodora) '45.

'18, MLD '22—**Justin R. Hartzog** of Fayetteville, Ohio, Dec. 22, 1963. A planning consultant, he had held many positions on federal, state, and municipal planning commissions throughout the country. He was instrumental in the planning of Greenhills and Mariemont, Ohio.

'19—**James C. MacDougall** of 366 Turrell Ave., So. Orange, N.J., Dec. 29, 1963, Eastern representative of the Hoffman Combustion Engineering Co. of Detroit. Sigma Nu.

'19 BArch—**Mrs. Frank D. Boynton (Helen Palmer)** of 227 Cloverly Rd., Grosse Pointe Farms, Mich., Dec. 22, 1963, in Fort Lauderdale, Fla. She was a member of the original board of directors of the Pioneer Finance Co. and served as secretary for several years before being named honorary secretary. Husband, Frank D. '17.

'20—**Walker Mason** of 70 Elmgrove Ave., Providence, R.I., of a heart attack while visiting Washington. A high-ranking federal officer during World War II and the Eisenhower administration, he was executive vice president of the Narragansett Electric Co. from 1946 to 1950, and later, president of the Ancor Tool & Die Co., and of American Associates Manufacturing Co.

'20 BArch—**Boyd T. Hill** of 1210 Sheridan Rd., Lake Forest, Ill., Jan. 6, 1964. An architect for 40 years, he was at one time an architectural adviser to the *Chicago Tribune*. Examples of his work are the 1540 Lake Shore Dr. building and the Aragon ballroom. Quill and Dagger.

'21 BS—**Adrian F. Blume** of 209 W. Mistletoe, San Antonio 12, Texas, Aug. 15, 1963. He was in the landscaping business. Pi Kappa Phi.

'21 BChem, '30 PhD—**Raymond H. Fleckenstein** of Camp Woods Lane, Ellenville, Dec. 31, 1963, following a heart attack. After leaving Cornell, he became resident supervisor for E. I. duPont de Nemours Co. in Wilmington, Del., resigning in April 1960. Wife, Ellen Watson '25; brothers, George A. '13, and John R. '28.

'21 ME—**Thoburn G. Cleaver Sr.** of 8309 Talbot St., Kew Gardens, Dec. 22, 1963,

for many years chief of experimental production control at the engine division of the Fairchild Engine & Airplane Corp. in Deer Park. A specialist in equipment and test engineering, he retired in 1959. Phi Delta Theta.

'21 MD—**Dr. Irving Schwartz** of 181 E. 73rd St., New York, Dec. 30, 1963. He had been associated with the New York Eye & Ear Infirmary.

'22—**Michael S. Small** of 470 Country Club Rd., York, Pa., Dec. 3, 1963. Delta Upsilon.

'23—**Arthur L. Coit** of Highway 101 S., Florence, Ore., Sept. 8, 1963.

'23—**Dr. Israel S. Schwartz** of 143 Union Ave., Lynbrook, December 1963.

'23 BS—**Mrs. Charles P. Muhl (Elsa Ernst)** of 2216 Barrington Rd., Cleveland, Ohio, Dec. 24, 1963.

'23 AB—**Mrs. J. Hubert Fenner (Helen Stevens)** of 260 Renwick Dr., Ithaca, Jan. 9, 1964, a retired secretary at Cornell. Sons, James H. Jr. '53 and Charles F. '57. Delta Delta Delta.

'24 MD—**Dr. Evelyn Holt** of N. Rumford, Me., Dec. 30, 1963, an internist and former chief of staff of Overlook Hospital, Summit, N.J. She was a specialist in cardiovascular diseases.

'31 AB — **Ella M. Matson** of 405 N. Geneva St., Ithaca, Dec. 22, 1963. She was a secretary and bookkeeper for C. J. Rumsey Co. in Ithaca.

'32 PhD—**Harry E. Bradford** of 1615 S. 20th St., Lincoln, Neb., April 8, 1963. He had been a professor of vocational education at the U. of Nebraska.

'34—**John J. Janikas** of 17 Limerick St., Gardner, Mass., April 28, 1963.

'36 AB—**William S. Eddy Jr.** of 205 Fifth St. N., Naples, Fla., Dec. 21, 1963, of a heart attack. He was president of Interbrite Corp., White Plains, for a number of years. Sigma Phi Epsilon.

'38, '40 AB—**Leon E. Seddon** of 2710 41st St., Lubbock, Texas, Dec. 9, 1963.

'40—**Lawrence H. Smith** of 7950 N. Lake Dr., Milwaukee, Wis., Nov. 7, 1963, in an automobile accident. A member of a long-time Milwaukee hotel family and vice president of Smith Hotel Enterprises, he held managerial posts in the Hotel Pfister for 20 years. Brother, Ray Jr. '32. Alpha Delta Phi.

'42 AB, '44 MD—**Dr. George E. Peabody** of 21 Amberson Ave., Yonkers, Dec. 24, 1963, in Ithaca after a short illness. He was the medical director of Pfizer International Pharmaceutical Co., New York. Father, G. Eric, '18; sister, Mrs. T. R. Williams (Mary) '46. Phi Beta Kappa.

'47 AB—**Jerrold A. Lamb** of 4024 Spring Hill Rd., Louisville, Ky., Jan. 9, 1964, by suicide. An employe of Carl Byoir & Associates, a public relations firm, he had been a newsman for Station WHCU in Ithaca for five years and was then associated with Lee Hamrick in a public relations and advertising business there.

'55—**Henry G. Favrot** of 436 W. 47th St., Kansas City, Mo., Nov. 5, 1963.

**"My Estate Plan provided 'Everything to my wife,' too
...until I learned about a Pilot Trust"**

"Like most executives, I didn't think I was wealthy enough to set up trusts for Janet and the children now. I knew I wasn't what they call a 'Man of Property' with extensive personal investments in stocks and bonds or real estate.

"Then my banker showed me their booklet, 'Financial Planning for Management Men,' and I realized my estate was potentially a sizeable one. When I added the value of my deferred benefits — *group life insurance, pension and profit sharing arrangements* — to the value of our house, cash, securities, and ordinary life insurance, the total came close to three hundred thousand dollars.

"The booklet made the point that my kind of plan, with everything to my wife, not only would subject my estate to maximum taxes, but would also create investment and administrative headaches for Janet.

"My attorney, working with one of the Bank's trust officers, set up a Pilot

Trust into which all my deferred benefits and my ordinary life insurance would go. Our home, cash in bank and personal effects go directly to my wife, but all the rest flows into the Pilot Trust where it is split into marital and non-marital trusts to take advantage of favorable provisions in the tax laws. The big advantages of a Pilot Trust are that it coordinates estate and investment planning for my family, puts all my assets under one roof, and reduces taxes and estate expenses. The potential tax savings would be as high as thirty-six thousand dollars. As my estate

grows, the savings could be a lot more! And I can change my Pilot Trust at any time.

"But what's really reassuring is that Janet and the children would enjoy the benefits of competent investment service under uniform management and, at the same time, have considerate attention given to their changing financial needs by The Bank of New York."

The Bank of New York would be pleased to address any group of corporate executives interested in this idea. Also you may wish to receive a new, 24-page booklet which fully analyzes today's Management Man's financial and estate problems and offers a complete explanation of what a Pilot Trust is, how it is set up and what it can achieve. It also includes a comprehensive Financial Inventory Form. Just write to Financial Planning, Dept. E, The Bank of New York, 48 Wall Street, New York, New York 10015.
