PRICE 10 CENTS

PRESIDENT SCHURMAN is now on his way to this country from Greece, where he has served as United States Minister for a year. He will reach Ithaca about the first of September. His annual address to the students will be delivered on September 25, the first day of instruction. The President went away for a rest and accepted a diplomatic post as an incident. But the country to which he went has been at war all the year. So he has had little leisure. But he has had a complete change of occupation, which is said to be the best kind of rest. The University will welcome his return.

AN ORGAN HAS BEEN ORDERED for the auditorium of the College of Agriculture, after a long and careful investigation by Dr. Andrew D. White and the trustees' committee on music. It will be built by the J. W. Steere Organ Company of Springfield, Mass., and will cost about \$20,000. It is to be completed before April 2, 1914. The money for its purchase was given by Mr. Andrew Carnegie, Dr. White, and other friends of the University. Although it will be placed in a building belonging to the State of New York, the understanding is that the organ will remain the property of the University.

A PARTY OF STUDENTS of the department of geology, under Professor Gilbert D. Harris, spent six weeks this summer in field work near Warren, Pa. That region is a better field for stratigraphic study than the neighborhood of Ithaca is.

RALPH W. CURTIS, B.S.A., '01, who was for four years assistant superintendent of the Arnold Arboretum of Harvard University at Jamaica Plains, Mass., has been appointed assistant professor of landscape art in the College of Agriculture. Professor Curtis was born at Burlington, Wis., in 1878. He entered Cornell with the class of 1900, but his course was interrupted by a year of absence and he graduated in 1901. Three years afterward he received the master's degree and was then, for a year, assistant in nature study in the College of Agriculture. He left Ithaca to become connected with the

department of parks of Boston, Mass. In 1909, when assistant superintendent of parks, he resigned to accept an appointment as assistant superintendent of the Arnold Arboretum. Since April 1st last he has been in the office of Warren H. Manning, landscape architect, in Boston.

THE BOARDMAN SCHOLARSHIP has been awarded for 1913-14 to Harry Zelic Harris, of Olean, N. Y. The award was made by the Trustees on the nomination of the Faculty of the College of Law. The scholarship is awarded at the end of the junior year to the student who, in the judgment of the Faculty, has done the most satisfactory work during the preceding two years in the college. It was founded by Judge Douglas Boardman, the first dean of the college. Its value is one hundred dollars. Other prizes won by Harris in his course are the Sherman Bennett prize (for the best essay discussing the principles of free government) and the Eighty-six Memorial prize in declamation. He was the editor-in-chief of the 1914 *Cornellian*.

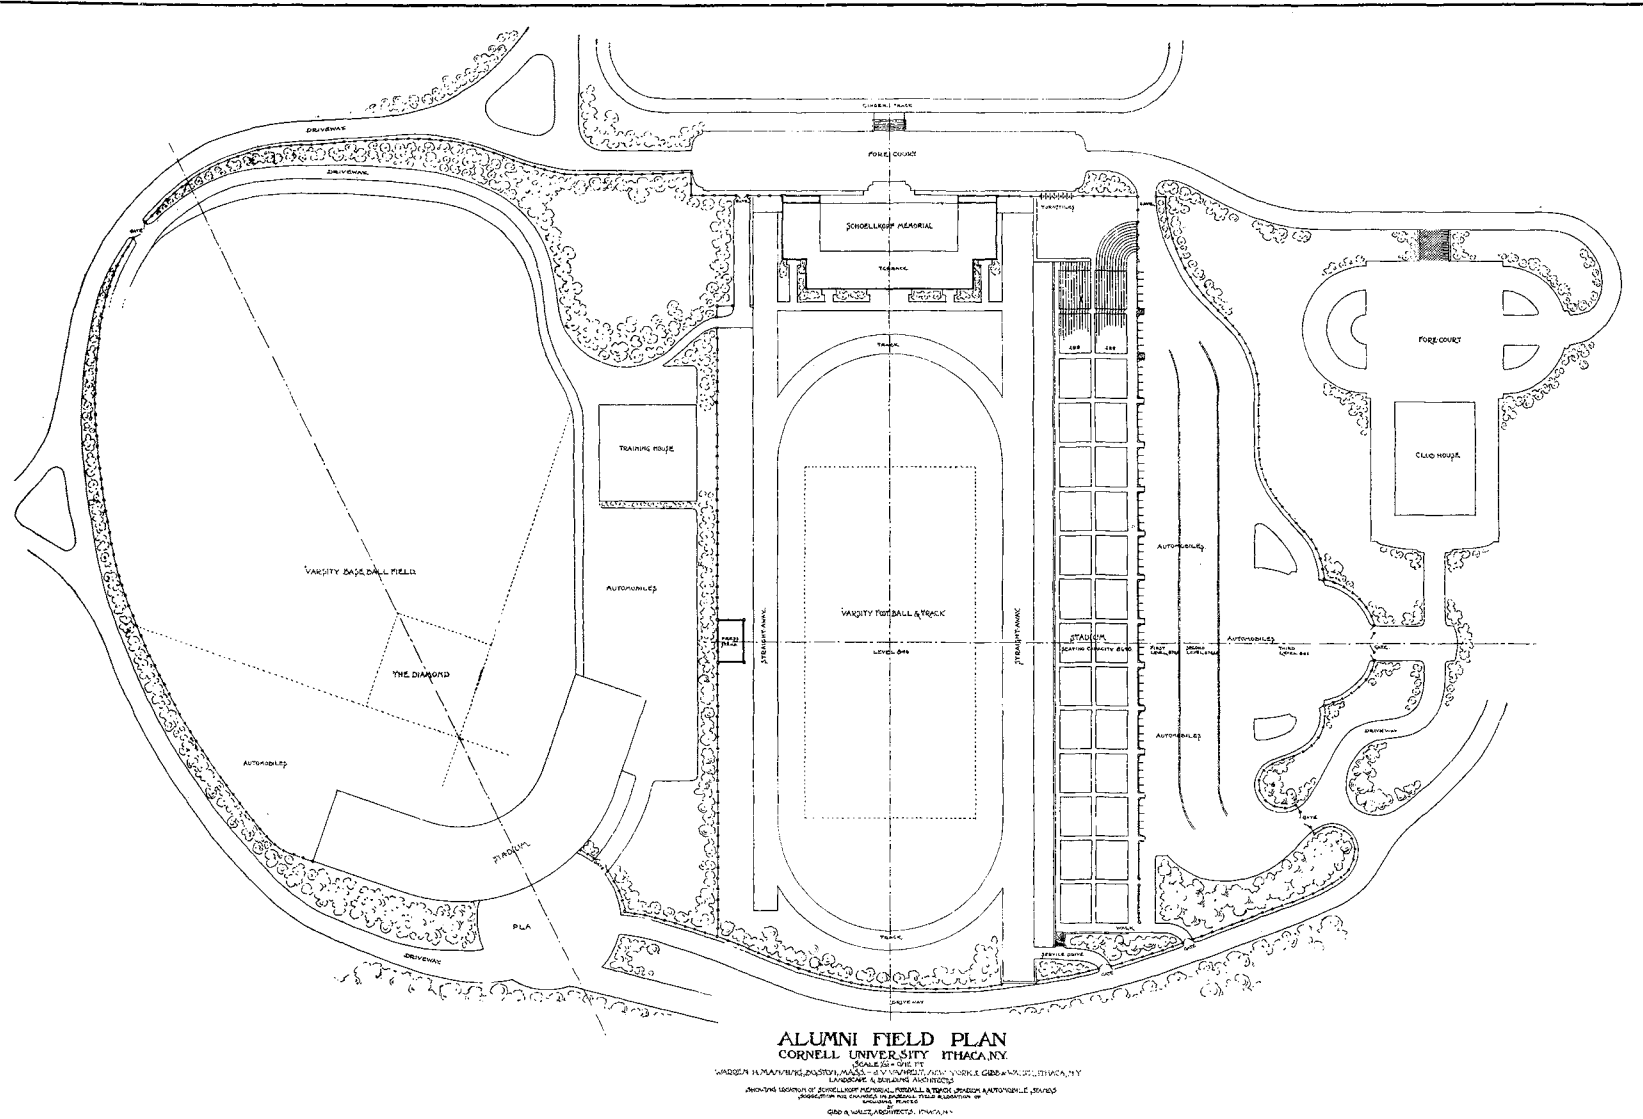

A GOOD SHOWING was made by the graduates of the Cornell law school in the New York State bar examinations last June. There were twenty-six members of the class of 1913 who took those examinations; nineteen of them passed in both branches, procedure and substantive law; seven passed in one of the two branches; no Cornell candidate failed in both. The percentage of success was well above 70. Usually the percentage of success in the state as a whole is about 50. There was effected this year in the conduct of the bar examinations a reform which may or may not have been a factor in the good showing of the men trained at Cornell. The examiners were ordered to frame their questions so as to test not so much the student's memory of decisions in specific cases as his training in legal reasoning.

DREDGING in the Cayuga Inlet has been completed from outside the lighthouse to a point just above the university boathouse. All that distance the channel has been made 250 feet wide, with a depth in the middle of at least fifteen feet. Concrete retaining walls and breakwaters

will be constructed. All the silt pumped from the Inlet has been poured on the flats and more than a hundred acres of marsh on both sides of the stream has thus been converted into good land. The land thus far reclaimed is the property of the City of Ithaca. A large area of swamp belonging to the Lehigh Valley Railroad Company is to be treated similarly when the Inlet is dredged from the boathouse to Buffalo Street. After that is done there will be no marsh left west of the Inlet and very little on the east side. Opposite the university boathouse a canal terminal, with slips for barges, is being constructed.

THE HOME ECONOMICS DEPARTMENT conducted a school on wheels during July. With a coach provided by the Lehigh Valley Railroad, journeys were made to several towns near Ithaca for lectures and demonstrations. The towns visited were Geneva, Stanley, Interlaken, Trumansburg, Sayre, Milan, Owego, Cortland, Freeville, New Woodstock, and Cazenovia. The car used was an old dining coach refitted. It was kept in Ithaca subject to the order of the department, which would ask the railroad to have it in a certain town on a certain day and would then send three or four lecturers, usually in an automobile, to meet the car and spend the afternoon in giving lectures and demonstrations. There was a good-sized audience at every place, especially interested in the demonstrations.

THREE CORNELL MEN are candidates for nomination for Supreme Court justiceships in the Sixth District, which comprises ten counties in the southern-central part of New York. There will be two vacancies. Justice Gladding's term expires and he has reached the age limit. Justice Albert H. Sewell '71, of Walton, whose term also will expire, is a candidate to succeed himself. Other aspirants for nomination are Judge George McCann '86, and Senator John F. Murtaugh '98, both of Elmira. Professor Alfred Hayes, of the College of Law, is likely to be nominated by the Progressive party for one of these offices.

This is the architect's suggestion for the final development of the varsity section of Alumni Field. The part of the field shown here does not include the twenty or more acres of the Playground and the Common, which are completed and which lie to the north and east. In the middle of the picture is the football field and quarter-mile cinder path. East of that field is placed a long concrete stand for spectators, and beyond that, on different higher levels, are three tiers whence games may be seen by spectators in automobiles. Still further east is a site for a clubhouse and athletic headquarters. North of the football field is Schoellkopf Hall, now under construction. To the west, on a lower level, is the baseball field and stadium.

This is a copy of the architect's drawing of the south elevation of Schoellkopf Hall, now under construction by the Alumni Field Committee for the use of the varsity athletic teams. It shows how the building will look viewed from the football field. The first floor, opening directly on that field, is for the major sports. The second floor, which opens upon the Playground, to the north, will be used by the minor sports. The first story will extend practically the entire width of the north end of the football field. Above it, around three sides of the second story, will be a wide tiled terrace.

Building for Athletics

Construction of the Schoellkopf Memorial, on Alumni Field, Begun

Work has begun on the construction of the Schoellkopf Memorial, a building on Alumni Field which will contain the quarters of the varsity athletic teams when they cease to use Percy Field for games and take full possession of the new field on the hill. The building will in all probability be ready for use a year from this fall, but there is no certainty that the teams can use it then, because the field will not be ready in other respects. The committee has no funds for building permanent stands for spectators. Provision for the stands is about all that remains, now that handsome quarters for the teams are assured, to enable the athletic plant to be moved to the Campus.

Schoellkopf Hall will cost about \$100,000. The money has been provided by a group of alumni—chiefly by a single alumnus.

The building will have two stories and an attic. The main entrance will be in the center of the north side, facing the College of Agriculture, with the full sweep of the University Playground between. From the main entrance a vestibule will enter Schoellkopf Memorial Hall, which will be paneled in white quartered oak, with a terrazzo floor and a dark green marble base. The memorial hall proper will be octagonal in shape. On the right and left are corridors opening off the hall. The eastern of these will lead to two dressing rooms and a shower room, a locker room and a physician's office; the other, similarly, will reach two dressing rooms, a shower room, a locker room, and a room to be used as an office by visiting officials.

Going straight through the memorial hall to the south, one will come to a stair hall, with stairs going up on either side of the hall. Halfway between will be a doorway corresponding to the main entrance on the opposite side of the building. This doorway will give access to a large, open, tiled terrace, thirty-five feet wide, bordering the building on the south, east, and west sides. The staircases referred to will lead to the attic story, which will be open to the roof and plainly finished. It will probably be used by the track men in bad weather.

All of the building described above will really be upper stories. For, although the main entrance is nearly on a level with the Playground, the football field,

A GLIMPSE OF PRUDENCE RISLEY HALL, THE NEW DORMITORY FOR WOMEN STUDENTS, SITUATED ON CORNELL HEIGHTS, OPPOSITE SIBLEY COLLEGE. THE BUILDING WAS THE GIFT OF MRS. RUSSELL SAGE TO THE UNIVERSITY, AND IS NAMED FOR MR. RUSSELL SAGE'S MOTHER.

on the south side of the building, is fourteen feet below the grade of the Playground, and that has made it possible to put in a ground floor, or basement, much larger in area than the floors already described. It will be better than a basement because it will all be above ground on three sides and will be lighted on the north side through a wide area. The second floor, on the Playground level, will be used by the minor sports teams. The larger ground floor is designed for the major sports—track, baseball, and football. This lowest story will now be described.

Going down from the stair hall mentioned above, stairs will lead to a wide corridor just outside the south main wall of the building proper and under the terrace. This corridor extends practically the whole length of the ground floor and opens at each end and along its length into various varsity team rooms. At the extreme eastern end is the varsity track room, connected with which are the necessary showers and lavatories.

The next room on this corridor is a special track room. Then come rooms for the freshman track men and for visiting track teams. Between the latter are showers and toilets, accessible from either room. On the west the corridor similarly connects with a large baseball and football room, an emergency room, a lecture room, and a freshman team room.

In the center of the ground floor, also connected with this corridor, are storage rooms, the boiler room and the coal bunkers, besides freshman shower and toilet rooms. An open area runs practically the whole length of the ground floor on the north side, giving light and ventilation to the rooms on that side, as well as access to the boiler room. Here also is placed the service elevator or sidewalk lift to handle ashes and incoming and outgoing baggage. Baggage coming in may be taken from the elevator directly to a trunk and drying room, where a modern clothes dryer will be placed.

From the north or Playground side the appearance of the building will be

that of a one-story structure on an extended platform three or four feet above the Playground. The south front, facing the football field and stadium, will show the full two stories. The lower story will have exterior walls of native stone laid up at random with wide, white mortar joints, this material extending to a concrete cornice and balustrade at the level of the terrace. The upper and smaller part of the building is to be faced with wire-cut gray brick with brushed concrete trimmings. The roof has a very heavy overhang and is covered with fire-flashed Spanish tile. Flagpoles with ornamental metal bases are placed at the east and west ends of the building, on the terrace, for the flags of Cornell and any visiting team.

All the fixtures are to be of the highest type of porcelain fixture. The showers will be of both the overhead and the breast type, about equal numbers of each, every shower head being controlled by individual valves. The shower rooms will be floored and wainscoted with sanitary flooring. Locker and team rooms will be equipped with standard steel lockers, some in one tier and some in two. The staircases will be of ornamental wrought iron and steel, with alberene stone treads and cement platforms. The building will be entirely fireproof, except the roof, which will be of wood. The floors will all be of reinforced concrete and the partitions of hollow tile. The wood trim throughout is of the simplest type, all doors being plain flush veneered. Every team room or dressing room is to have direct outside access to the field.

The building is 200 feet east and west by about 90 feet north and south on the ground floor. The upper story is 128x44. The difference in the two areas is taken up by the terrace. The story heights are about fourteen feet.

Contracts for the building have been let to the Jones-Beers Company of Binghamton, which will do the masonry and carpenter work; the Forest City Plumbing Company, of Ithaca, and the Buffalo Electric Contracting Company.

Work done on the field this summer consists chiefly of planting. Thousands of shrubs and trees have been set out along the borders of the various sections and on some of the terraces and slopes. A good deal of this planting is a part of the plans for enclosing the varsity section of the field, where the intercollegiate games are to be played.

It will be possible to use the new field for baseball and football, as has been said, when it can be enclosed and when stands can be erected. If the money were in hand that could be done so that football games might be played there in the fall of 1914 and baseball games in the spring of 1915. The playing fields will by that time be well sodded. Grass is already well started on the football field. Cinder paths for the track games have not yet been constructed, but their cost will be comparatively small.

In their latest financial report, which was made last December, the Alumni Field Committee estimated that permanent stands for the two fields would cost about \$100,000. Their resources were about exhausted. Including cash on hand and subscriptions which have since become fully due they had about \$68,000 in sight. Out of that they have had to pay about \$45,000 for the baseball cage, which is completed. With the remainder, somewhat less than \$25,000, they estimated that they could meet the expenses of building the running track, seeding, fencing, planting, road construction, water piping and drainage, all of which would be necessary before the field could be used. In order to complete the field by building stands, the committee must obtain further funds.

EXECUTIVE COMMITTEE

July 22, 1913

Charleton Wallace was appointed assistant professor of clinical surgery, department of orthopedic surgery, in the Medical College, for the year 1913-14.

Guy B. Muchmore was appointed assistant professor of oratory for the year 1913-14, in place of George A. Everett, transferred to the College of Agriculture.

In Sibley College, F. E. Klinck was transferred from the department of machine design to the mechanical laboratory; D. S. Cole was appointed instructor in the mechanical laboratory, succeeding A. G. Bierma, transferred to the department of electrical engineering to succeed L. W. W. Morrow, resigned.

Other appointments: A. S. Yount, A. W. Davison and Alan Leighton, assistants in chemistry for 1913-14; William Edward Beitz, instructor in civil engineering, in place of Ashley F. Wilson, resigned; Charles Arthur Dutcher, Nathaniel Lester and Bentley Matthews McMullin, assistant librarians in the law library for 1913-14.

Acting Director

Professor W. A. Stocking, Jr., Temporary Head of the College of Agriculture

William Alonzo Stocking, jr., professor of dairy industry, has been appointed acting director of the New York State College of Agriculture in succession to Professor L. H. Bailey, whose resignation was accepted to take effect on July 31. The appointment was made for one year or until a director is appointed permanently by the Board of Trustees of the University. The arrangement for filling the office temporarily was made by the executive committee of the board, upon the recommendation of the Agricultural College Council. When the board accepted Director Bailey's resignation in June it referred the duty of filling the vacancy temporarily to the acting president, the Agricultural College Council and the executive committee.

The council met at the College of Agriculture on Saturday, July 26. Those present were Thomas B. Wilson, chairman; G. W. Sisson, president of the state agricultural society; William F. Pratt, president of the state grange; Dr. Frank H. Miller and J. T. Newman, of the Board of Trustees; and the acting president. The council voted to recommend to the executive committee the appointment of Professor Stocking. On the following Tuesday the executive committee met and made the appointment.

Professor Stocking was born in Connecticut on May 13, 1872. He graduated from the agricultural college at Storrs in 1895 with the degree of Bachelor of Agriculture. A year later he came to Cornell, and in 1898, after two years of study here, received the degree of Bachelor of Science in Agriculture. From 1901 till 1904, while teaching at the Storrs Agricultural College, he was registered as a graduate student in Cornell, specializing in dairy bacteriology, and in 1904 he received the master's degree. In 1906 he accepted an assistant professorship in the dairy department of the College of Agriculture at Cornell; three years afterward he was promoted to a full professorship of dairy industry. After Professor Raymond A. Pearson (now president of the Iowa State College of Agriculture and the Mechanic Arts) resigned from the faculty to become State Commissioner of Agriculture, Professor Stocking was made head of the department of dairy industry. In June, 1900, Professor Stocking was married to Miss Harriet M. Bliss, a graduate of the University in the class of 1898.

Professor Stocking was in the Adirondacks when he was informed of his appointment as acting director. He came to Ithaca early this month and took charge of the director's office.

Resolution of the Council

At its meeting on July 26 the Agricultural College Council adopted the following minute:

"In view of the fact that the present meeting of the council is the last during the incumbency of Director L. H. Bailey, whose resignation takes effect July 31, 1913, the council desires to record its regret at his resignation and to express its appreciation of his services to the University and to the State of New York.

"The council was called into being on the sixteenth of December, 1911, and was intended to represent the various interests of the state, the university and the college. Its members during the brief term of its existence have been brought into intimate relations with the director and have admired the breadth of his views and his grasp of the complicated business of the college.

"The extraordinary growth of the college, rendered possible by the enlightened bounty of the state, is in large measure due to Director Bailey's genius and far-reaching plans.

"The personal intercourse of the council with the director has been most pleas-

ant and its members deeply regret that their official relations with him must now cease. They trust, however, that their friendly connection strengthened by the cooperation of the last two years, may long continue unbroken, and that they may still enjoy, for the sake of the university and college, Director Bailey's advice and sympathetic interest.

"They wish, finally, to assure him that he takes with him into his well earned retirement their cordial wishes for his future usefulness and happiness."

The Summer Session

Attendance About 1,400—About 600 of Them Were Teachers

There were almost fourteen hundred students attending the University during the Summer Session, which closed on August 15. The exact number was 1,392. Last year the attendance was 1,276. In the Summer School of Agriculture there were 338, as compared with 223 last year.

The following table, prepared in the director's office, shows what kind of students make use of the Summer Session, and in what proportions:

Total number of persons registered in the University.....	1392
Number registered in the Summer School in Agriculture.....	338
In other departments of the University.....	1098
Of the students present:	
Cornell University undergraduates	411
Undergraduates from other colleges	144
Graduates of Cornell.....	57
Graduates of other colleges.....	222
Total number of teachers in attendance.....	598
Colleges.....	42
Normal Schools.....	21
High Schools.....	186
Grammar or Elementary Schools..	236
Private Schools.....	23
Superintendence and Supervision..	90

The following states are represented by more than 10 teachers each:

New York.....	265
Pennsylvania.....	124
New Jersey.....	52
Maryland (with District of Columbia).....	31
Massachusetts.....	17
Virginia.....	16
Connecticut.....	11

ITHACA'S NEW HOSPITAL is completed. It stands on the north bank of Six Mile Creek, near Quarry Street.

THE UNFINISHED BUILDING OF THE DEPARTMENT OF FORESTRY, AS SEEN FROM THE NEW POULTRY HUSBANDRY BUILDING. MOST OF THE KNOLL ON THE LEFT IS TO BE REMOVED. JUST BEHIND THE BUILDING IS THE CARNEGIE FILTRATION PLANT. BEYOND THE WOODS ON THE RIGHT ARE FALL CREEK GORGE AND BEEBE LAKE.

Lectures on Citizenship

A Two-Hour Course Arranged by a Committee of Alumni

A course of lectures on citizenship will be given in the College of Arts and Sciences during the first term next year. The lectures will be given in Goldwin Smith B at 12 o'clock on Mondays and Wednesdays. Readings, written papers and reports will be required of students registered for the course, and credit of two hours will be given. The lectures each Wednesday will be by some non-resident lecturer, and each Monday by a member of the department of political science. The course has been arranged, in co-operation with the department, by a committee of Cornell alumni who are actively engaged in civic and social work. The course is under the general charge of Professor Willcox.

Those who have already agreed to speak include John Ihlder '00, field secretary of the National Housing Association; Lee F. Hanmer '00, of the Russell Sage Foundation; Munson A. Havens, secretary of the Cleveland Chamber of Commerce; Henry Bruère '02, director of the Bureau of Municipal Research, New York City; Franklin Matthews '83, of the Pulitzer School of Journalism, Columbia University; Clinton Rogers Woodruff, of Philadelphia, first vice-president

of the American Civic Association; Porter R. Lee, '03, of the New York School of Philanthropy; Professor Jeremiah Whipple Jenks; John M. Glenn, director of the Russell Sage Foundation; Dr. Herman M. Biggs '82; Dr. Edward T. Devine, and Robert W. de Forest.

The introductory lecture, by Mr. DeForest, will be "The Citizen and His Community." Following this are "The Citizen and the Homes of the Community," "The Citizen and the Schools," "The Citizen and Public Health," "The Citizen and the Recreation Needs of the Community," "The Citizen and the Problems of Poverty," "The Citizen and the Problems of Crime," "The Citizen and Labor Problems," "The Citizen and Problems of Immigration," "The Citizen and the Physical Development of His Community," "The Citizen and Politics," "The Citizen and the Church," "The Citizen and the Press," and "The Citizen and Social and Civic Organizations."

EDWARD JOHNSTON, for four years the University organist, has resigned and has left Ithaca. Mr. Johnston plans to visit his mother in Scotland. Music lovers will regret his departure. His weekly organ recitals in Sage Chapel have been largely attended. His place has not yet been filled.

A VIEW, ACROSS THE FACULTY TENNIS COURTS, OF THE NEW AUDITORIUM OF THE COLLEGE OF AGRICULTURE

Two Great Conventions

Ithaca the Meeting Place of World Student Congress and Chinese Student Alliance

Two conferences of international interest are to be held in Ithaca within the next month, and delegates from all the world are now assembling in this country on their way hither. The eighth International Congress of Students will be held August 29 to September 3. This is a regular meeting of the Corda Fratres, International Federation of Students, with which the American Association of Cosmopolitan Clubs is allied. Just before that meeting, namely August 21 to 29, will be held the ninth annual conference of the eastern section of the Chinese Students' Alliance.

The Congress of Students

The Cornell Cosmopolitan Club has been making preparations for the entertainment of the delegates to the eighth International Congress ever since the last convention in Rome two years ago, when its invitation to hold the next meeting in Ithaca was presented and accepted. It has received from the Carnegie Peace Foundation a grant of \$3,000 toward the expenses of the convention. Several other contributions from public bodies have been received, and the club has depended upon its own efforts to raise about \$2,000 and complete a fund of \$6,000, the amount needed.

Many European countries and both North and South America will be represented at the congress. Thirty-eight delegates from Europe arrived in Boston on August 7. Dr. George W. Nasmyth '07 was in charge of the party. Most of the delegates came from Germany. Two came from England, one from Denmark, one from Portugal and one from Switzerland. They planned to spend three days in Boston, visit Yale University, New York City, Albany, Schenectady, Chicago, Milwaukee, Madison (Wis.), Detroit, Cleveland and Buffalo, and to reach Ithaca the day the congress opens. This is a special party arranged by Dr. Nasmyth. Other delegates will come independently. Many are coming from South America. The whole number of delegates to this congress in Ithaca may be as large as 400.

Following is the program of the congress:

The Program

Friday, August 29.—2:30-4:30 p. m.

Inspection tour of Cornell University. The party will be divided into groups of about twenty persons.

The members of the Central International Committee will meet at the Cosmopolitan Club, to elect the officers of the Congress, and to consider special rules of procedure for the Congress.

4:30-6 p. m.

Reception to the delegates in the quadrangle of Cornell University.

Address of welcome by President T. F. Crane, of Cornell University.

Address by Suh Hu (China), president of the Cornell Cosmopolitan Club.

Response on behalf of the foreign delegates.

7:30-9:30 p. m.

"Progress of the Corda Fratres Movement and a Statement of the Task and Problems," Dr. George W. Nasmyth (North America), President of the Central International Committee of the Corda Fratres, Fédération Internationale des Etudiants.

Presentation of the newly elected officers.

Address by the Chairman, and statement by him of the special rules for the deliberations of the Congress.

Report by Louis P. Lochner (North America), Secretary of the Central International Committee of the Corda Fratres F. I. D. E.

Saturday, August 30.—9-11 a. m.

"The Corda Fratres Movement in Italy," Dr. Raymondo Falci, editor of the *Corda Fratres Rivista*.

"The International Student Movement in South America," Ricardo d'Alessandro (Argentine), representing the Liga de Estudiantes Americanos.

"The Work of the Cosmopolitan Clubs in the United States," T. L. Ling (China), president of the Corda Fratres Association of Cosmopolitan Clubs.

11:15 a. m.-12:30 p. m.

"The International Student Movement in Germany," Dr. Walter A. Berendsohn (Germany).

"The International Relation of the French Student Movement," Marcel Viard (France), president of the Association Générale des Etudiants de Paris, and of the Union Nationale des Associations d'Etudiants de France. In Mr. Viard's absence, the paper will be delivered by Mr. Jean Gerard, President of the Société Générale des Etudiants de Nancy.

"The Educative Work of the Finnish Students, and its Suggestions for Student Organizations in Other Countries," Dr. Henry Hartman (Finland).

"The Corda Fratres Movement in Hungary," Dr. Zoltan de Hindy (Hungary).

"International Student Movement in Switzerland," Alfred Knapp (Switzerland).

Reports of the Corda Fratres Movement in other countries from which representatives are present.

2:30-4:30 p. m.

Addresses of representatives of student organizations having aims similar to those of the International Federation of Students:—

"The Work of the German Freie Studentenschaft for International Friendship and Understanding," Dr. John Mez (Germany); Paul F. Baumgarten (Germany).

"The International Polity Club Movement and the Work of the Garten Foundation in Great Britain," B. N. Langdon-Davies (England).

"The Work of the International Committee of the Young Men's Christian Association," Charles D. Hurrey (North America).

"The World Chinese Student Federation," S. K. Tsao (China).

7:30-9:30 p. m.

"Relation Between the Corda Fratres Movement and the World's Student Christian Federation," Dr. John R. Mott.

"The Scholar and the United World," Edwin D. Mead.

Sunday, August 31.

Through the courtesy of the Ithaca Automobile Club, the delegates will be taken in automobiles on a trip to Taughannock Falls, and possibly to George Junior Republic.

Taughannock Falls is situated on the western shore of Cayuga Lake, about ten miles from the city of Ithaca. It is said to be the highest waterfall east of the Rocky Mountains, its height being 215 feet.

George Junior Republic is located a mile out of the village of Freeville, Tompkins County, in the Western part of New York State. It is about ten miles from Ithaca. Its purpose is to train boys and girls in good citizenship and thus fit them to become eventually trustworthy and efficient members of the Big Republic. The motto of the Republic is: "Nothing Without Labor."

Delegates are requested to report at the Cosmopolitan Club before 9 a. m.

Monday, September 1.—9:30-11 a. m.

The Future Organization of the International Student Movement.

General discussion of the program of reorganization introduced by papers on the subject by Dr. John Mez (Germany), and Mario Marini (Italy).

Among the plans the following will be discussed:

1. Congresses, Correspondence, Hospitality, etc.
2. The establishment of Corresponding

ROGER LEWIS, PRESIDENT OF THE ASSOCIATE ALUMNI. MR. LEWIS IS A GRADUATE OF TWO CORNELL COLLEGES, THE COLLEGE OF CIVIL ENGINEERING (1895) AND THE COLLEGE OF LAW (1897). HE IS A LAWYER AND LIVES IN NEW YORK CITY.

Secretaries in different countries to serve as bonds of union and means of communication of the different branches of the movement.

3. "The establishment of an International Bureau of Students, with its best means for support and organization," President Charles F. Thwing of Western Reserve University.

4. The literature of the movement, exchange of literature, language, publicity expense, etc.

5. The establishment of an International Student Magazine.

6. Financial support of the movement.

7. Membership, types of members, how to keep in touch with alumni, etc.

Appointment of committees to work out plans on the above subjects and others suggested.

11:15 a. m. 12:30 p. m.

Special Committee Meetings.

2:30-4:30 p. m.

Soccer game.

7:30-9:30 p. m.

Reports of the Committees on Organization.

Discussion of these reports.

Appointment of Committees on Constitution, Resolutions, Student Problems:

- (a) Economic.

- (b) Hygiene and Morals,
- (c) Education,
- (d) Student Government.

Tuesday, September 2.—9:30-11 a. m.

Reports of committees on Constitution, Resolutions, and Student Problems.

Discussion of these reports.

Appointment of Committees on Congresses, Nominations, Propaganda and Publications.

11:15 a. m.-12:30 p. m.

Sectional meetings to consider the subject matter of the various papers presented. Mimeographed syllabus will be provided whenever possible.

2:30-4:30 p. m.

Sectional meeting or picnic at Rogues Harbor on the eastern coast of Cayuga Lake.

7:30-9:30 p. m.

"The Hague Conference: Past, Present, and Future," Dr. Andrew D. White, first President of Cornell University, former Ambassador to Germany and Russia, and President of the American Delegation at the First Hague Conference.

Concert.

Address.

Cornell Songs.

Wednesday, September 3.—9:30 a. m.

Closing Session.

Report of the Secretary.

Election of new officers of the Central International Committee of Corda Fratres.

Address by the newly elected president.

Selection of the place for the next meeting.

A tour has been arranged for delegates, to follow the meeting in Ithaca. It will consume two weeks and will take in Buffalo, Niagara Falls, Philadelphia, Annapolis, Washington, and New York City.

The Chinese Students

About 150 delegates from eastern American universities are expected to attend the conference of the Chinese Students' Alliance. They will live in Sage College and hold their meetings in Barnes Hall. Among the speakers will be Dr. Andrew D. White, Professor J. W. Jenks, Professor Schmidt, and Mr. T. T. Wong, the Director of Chinese Students in America. There will be competitions of various sorts, oratorical, athletic and otherwise, including a track meet, in which the Cornell students will defend the championship which they won last year at Williamstown. The prize in the oratorical contest is a silver cup given by Dr. L. L. Seaman '72, of New York.

Ithaca on the Films

Scene of "Dear Old Girl," "The Way Perilous," and Other Thrillers

The moving picture men have discovered Ithaca. All summer long a company of more than twenty actors of the Essanay Company, one of the large producers of "photoplays," has been working here. They have a studio on Cornell Heights, where they stage their indoor scenes, and whence they range all over the county of Tompkins for outdoor scenic effects. Their lease of the present quarters will expire on September 1st, but the manager has announced that Ithaca is so good a field for production that he is going to buy a lot and build a \$20,000 studio and produce plays here the year round. So Cornell graduates who go to the "movies" will probably see a good many bits of familiar scenery in some of the Essanay films.

The Essanay man discovered the possibilities of photography in Ithaca when he came here last fall to take some pictures of the Penn State game and the campus—pictures which were shown at several alumni dinners last winter. He says that every scenic setting that can be desired for a "photoplay" can be found in the neighborhood of Ithaca. He has made use of the waterfalls, the gorges, the lake, University buildings and fraternity houses. "Wild West" scenes have been enacted. An automobile containing two dummy figures was sent over the brink of Taughannock gorge. A "fight-to-the-death" was photographed on the footbridge back of Sibley College.

Not only familiar scenes, but familiar faces, may be seen in many of the pictures. The rotund figure of the University Proctor will appear in wild west costume. Several Ithacans, including well-known residents of the Heights, have filled in, either for fun or for the three dollars a day that the company pays to supers.

The titles of the plays that have been produced with Ithaca backgrounds this summer are: "The Hermit of Lonely Gulch" (the gulch being Fall Creek gorge); "The Whip Hand," "Sunlight," "The Way Perilous," "For Old Times' Sake," "Little Ned," "A Woman Scorned," "The Right of Way," "Antoine the Fiddler," "The Love Lute of Romany" (showing a real gypsy camp near Beebe Lake), and "Dear Old Girl." The manager said that "Dear Old Girl" was the only strictly collect story of the lot, but he expected to produce others.

OBITUARY

Harold S. Warner '05

Harold Saleno Warner, of Buffalo, a member of the class of 1905, was killed in an automobile accident near Buffalo on August 11. His father-in-law, Charles C. Calkins, of Buffalo, was killed at the same time.

The two men were driving to Buffalo from Mr. Calkins's summer home near Athol Springs, on the lake shore. Mrs. Warner was preceding them in a car driven by J. B. Fenton '98, who took a different route. The road which Mr. Calkins took has a dangerous crossing where three railroads run parallel. The tracks of the Lake Shore are nearest the lake and that crossing is safe because the tracks are elevated. But just beyond it are the Nickel Plate and the Pennsylvania tracks, which cross the road at grade. The approach to the Nickel Plate tracks is a steep rise which a driver encounters directly after coming out from the culvert under the Lake Shore. The car containing Calkins and Warner reached the Nickel Plate tracks just in time to be struck by the locomotive of an east-bound passenger train. Both men were killed.

Harold S. Warner was born at Buffalo on July 1, 1883. He studied at the Masten Park High School, and entered the College of Arts and Sciences at Cornell in 1901. He was a member of the Delta Tau Delta fraternity, Sphinx Head, Aleph Samach, Dunstan, Mummy Club, Bench and Board, Mermaid, and the Sunday Night Club. He was on the Glee Club three years. He was business manager of the 1905 *Cornellian* and was editor-in-chief of the *Class Book*. He served on the sophomore smoker com-

mittee and the junior promenade committee of his class.

After his graduation Warner was employed by lumber companies at Austin, Pa., and in Humboldt County, California. In 1908 he returned to Buffalo and became associated with his father in the real estate and building business, under the firm name of Warner & Warner. He was married to Miss Helen Calkins on October 29, 1910. She survives him, with an infant son.

L. H. Dunham '14

Linderman Harlow Dunham, of Hornell, N. Y., a member of the class of 1914 in Sibley College, was drowned in Silver Lake, N. Y., while canoing on July 15. He was twenty years old. He was a member of the Sigma Phi Sigma fraternity and the Glee Club.

S. H. Young '16

Sylvanus Harry Young, of Batavia, N. Y., a member of the class of 1916 in the College of Agriculture, died in the Batavia Hospital on August 12 from the effects of injuries received in an accident the day before. He was thrown from a motorcycle against a tree and his skull was fractured. He died without regaining consciousness. He was a brother of Hobart C. Young '10, of Warren, Pa., one time captain of the varsity track and cross-country teams, and was a member of the Phi Gamma Delta fraternity.

Lloyd W. Mulford

Lloyd W. Mulford, the nine-year-old son of Professor and Mrs. Walter Mulford, died on July 28.

Isabelle Horton Sailor

Isabelle Horton, the daughter of Robert Warren Sailor '07 and Queenie Horton Sailor '09, died at Chicago on July 23. She was one year old.

SUBSCRIPTION—\$3.00 PER YEAR

Published by the Cornell Alumni News Publishing Company. John L. Senior, President; Woodford Patterson, Secretary and Treasurer. Office 110 North Tioga Street, Ithaca, N. Y.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the first Wednesday of the college year in October and weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40, the final one of the year is published the last Wednesday in August and contains a complete index of the entire volume.

Single copies ten cents each. Foreign postage 40 cents per year. Subscriptions payable in advance.

Should a subscriber desire to discontinue his subscription notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to the Cornell Alumni News.

Correspondence should be addressed—

THIS NUMBER completes Volume XV of the NEWS, except for the Index, which will be printed immediately. A copy of the Index will be sent free to any reader who asks for it. Publication of the NEWS will be continued about the first of October.

A GREAT PRIVILEGE is enjoyed by Cornell University in the opportunity to entertain the delegates to the International Congress of Students and to the conference of the Chinese Students' Alliance. In many countries the importance of the International Congress is more clearly recognized than it is in the United States. Governments and newspapers abroad give it more attention than it is receiving in this country. The parliaments of several nations, including Italy, Hungary, Argentine, Peru,

Chili, Uruguay, and Brazil, have voted appropriations toward the traveling expenses of student delegates to Ithaca. American universities which have Cosmopolitan Clubs have been quick, however, to do what they might in the way of welcome to the visitors from abroad. Harvard, Yale, Columbia, Wisconsin, Johns Hopkins and others will entertain them on their tour. The University of Pennsylvania and the city of Philadelphia have made thorough preparations to entertain all the delegates who go to that city. Boston has given a warm welcome to a party of forty European university men who have come under the leadership of Dr. George Nasmyth to attend the Congress. The *Old Penn Weekly Review* of the University of Pennsylvania says: "We congratulate Cornell University and its Cosmopolitan Club upon the honor of being hosts to the convention, while we are conscious of a friendly envy."

FOR CORNELL'S SAKE, we wish the meeting might be held during the university year, when all the Faculty and students are here. Not only the Cornell Cosmopolitan Club but the whole University could then give a welcome to Cornell's guests, and the whole University would profit by their presence. The matters they are to consider are of high importance to an institution which enrolls students from all countries. A good many people in this country think the Federation of Students is organized to promote international peace. Of course it was not started with that ambitious purpose. In this country the Cosmopolitan Clubs grew out of the presence of foreign students in our universities and the discovery by American undergraduates that there was pleasure and profit to be obtained by association with the foreigners. The Cosmopolitan Clubs formed a union with one another and then discovered that there were similar organizations in other countries, notably the *Corda Fratres* (Brothers in Heart) of the European universities. A world-wide union was the result. It is promoting amity between nations, not so much because it set out to do so as because amity and better understanding of national character result naturally from international intercourse and acquaintance. The active advocates of conciliation have found it to be a powerful means of better understanding, now and in the future, between nations, and are encouraging it. Its delegates are welcome to Cornell, where

its motto, "Above all nations is humanity," was first written in stone by Goldwin Smith.

THE ALUMNI FUND

The Secretary of the Cornellian Council reports the following new subscribers to the Alumni Fund for the general support of the University:

W. A. Mossrop '88, A. B. Trowbridge '90, E. J. Hedden '92, R. S. Hale '93, Anna L. Van Benschoten '94, Leona Bowman '95, Gilbert Crossman '98, R. L. Alexander '00, R. L. Hastings '00, Morgan L. McKoon '03, Jerome B. Chase '03, Karl W. Woodward '04, Henry J. Porter '05, Benjamin Kohn '06, L. C. Welch '06, James W. Persons '06, C. L. Bradley '08.

CORNELL'S COURSE IN CITIZENSHIP

Boston Transcript

Cornell University deserves public commendation for the course in citizenship which has been added to that institution's curriculum for the coming academic year. We hope to see the course soon made a part of every college and university in the country. The obligations which the citizen owes the Government—national, state and municipal—are to many minds too vaguely outlined and by many others wholly ignored. It is a custom to which many professional and business men adhere, that of dividing the community into two classes, those who are in politics and those who are altogether out of it. "Politics" has come to mean to many people a scramble for office with which men without ambition in that direction need have no concern. The truth is that the burden of responsibility for many of the evils in the body politic today rests even more heavily upon those who eschew politics altogether because they can see nothing in it for themselves, than upon those who are in politics for what they can get out of it. At least it can be said of the latter class that occasionally they are compelled to pander to the general good in order to retain control of the offices which are the sources of their power and opportunity. If every graduate of our colleges throughout the country left his alma mater each year informed with respect to the duties and obligations of citizenship in the way in which the Cornell course proposes, it would not be long before the hands of efficient public servants elected to office or nominated would find supporters in abundance among the college graduates through the country, who in

turn could be relied on without injury to their life pursuits to devote a reasonable amount of time to the demands of better government in city, state and nation. The Cornell course is to be made a part of the regular work in the College of Arts. It might well be listed among the compulsory courses for that degree.

NEW BOOKS

A Translation by Lane Cooper

Dr. Lane Cooper of the department of English has translated and adapted for use in colleges and universities the "Poetics" of Aristotle (Ginn and Company; in press). His aim has been to make this most important of all works on the drama, and on literary criticism in general, as intelligible as may be for a first reading by students of English and other modern literatures. It attempts to put some of the results of classical scholarship at the disposal of the general reader.

A Simple Book on Beauty

Number 6 of the Cornell study bulletins for teachers is "Aesthetic Education," by Professor Charles De Garmo; it was published recently by C. W. Bardeen, Syracuse. (\$1.) Professor De Garmo believes that "every child should acquire in school a first-hand aesthetic view of the world, as he now acquires an intellectual or a moral view of it." His purpose in this book is to lead the teacher to seek for beauty and the elements of beauty not only in the fine arts but more especially in nature and in the arts that pertain to daily living.

Agricultural Drafting

Messrs. John Wiley & Sons, New York, have published "Agricultural Drafting," by Charles B. Howe, M.E. ('93), a text-book on the principles of mechanical drawing for students in agriculture. It is a quarto volume of 46 pages, with 45 figures and 22 plates. Problems are furnished on loose leaf sheets to be selected and used at the discretion of the teacher. The drawing exercises are real problems, not copy work, and require the student to understand the principles and to exercise his own judgment and imagination in rendering. The book is one of the latest in The Wiley Technical Series, of which the editor is J. M. Jameson '93, professor of physics in Pratt Institute, Brooklyn. Another book in the same series is "Gas Power," by C. F. Hirshfeld and T. C. Ulbricht, of the faculty of Sibley College.

ATHLETICS

Football

Football practice will begin about the middle of September. A large squad is expected to report at that time, when Dr. Sharpe will have returned to Ithaca from Chautauqua, and when his various assistants will be here.

Five places on the team were left vacant by the graduation of 1913 men. They are quarterback, left halfback, left end, center and right guard, and were filled respectively by Captain Butler, O'Connor, Eyrich, J. S. Whyte and Champaign. For these places there is some good material among the scrubs, and perhaps better material among the men who played on the freshman team last fall.

The schedule follows :

September 24, Ursinus at Ithaca.
September 27, Colgate at Ithaca.
October 4, Oberlin at Ithaca.
October 11, Carlisle at Ithaca.
October 18, Bucknell at Ithaca.
October 25, Pittsburgh at Ithaca.
November 1, Harvard at Cambridge.
November 8, Michigan at Ithaca.
November 15, Lafayette at Ithaca.
November 27 (Thanksgiving Day), Pennsylvania at Philadelphia.

Cross Country Running

Pennsylvania, With Orton Coaching, Expects to Be a Contender

The outlook for a winning cross-country team at Cornell this fall is not bright. For the first time in years there is not a man who can be counted on by reason of proved ability to finish well up in the intercollegiate run at Cambridge in November. For the last three years J. P. Jones has been the mainstay of the team. In every one of the three years he won the individual championship. Of the five men who counted for Cornell in the race last year, four, including Jones, have graduated; the only one left is A. G. Cadiz '15, who finished in seventeenth place. The others were Brodt, sixth; Longfield, ninth; and Finch, fifteenth. In developing a team this fall, Coach Moakley will have to depend upon unusually inexperienced men.

After being a close second to Cornell in 1911, Harvard last fall went after the race with such determination that Cornell was defeated for the first time in eleven years. Under the coaching of

RAND HALL, THE SIBLEY COLLEGE SHOP BUILDING

Shrubb the Crimson had developed a first-class team. Now Pennsylvania is going after cross-country honors. In an article in the *Buffalo Express*, Edward R. Bushnell of Philadelphia says that Dr. George W. Orton, the successor of Mike Murphy as track coach at Penn, is under contract to devote his entire time to cross-country running this fall. Heretofore the runners have had to shift for themselves because Murphy had to give his entire attention to the football men in the fall. As a student, in the early nineties, Dr. Orton was a great cross-country runner. He expects to have a squad of from 100 to 200 at work this fall. He has some good men for a nucleus, including Captain Wallace McCurdy, the two-mile champion; Madeira; Earl Humphreys, a sophomore, holder of the scholastic two-mile record, and finally Meredith, who, although he is best known in the half-mile, has had experience in longer distances and was the best cross-country runner that Mercersburg Academy ever had. Mr. Bushnell says :

"Present indications are that there will be a great boom in intercollegiate cross-country running this fall. Harvard University has just engaged Alfred Shrubb, the noted runner and holder of the world's two-mile record, to coach the Crimson team. It is worthy of note that the leading cross-country teams have been trained in a different manner of late years. Instead of having a man acting as a trainer

who can merely oversee their work, the tendency is to secure a coach who can run with the men. This is what Shrubb does for Harvard. Indeed, the Crimson coach can still beat all of his star performers. George Orton, the Pennsylvania coach, although his college career ended sixteen years ago, is still a good cross-country runner and works out regularly every fall. He will probably do the same with the Pennsylvania candidates this year. Last year, Yale developed a number of very good distance runners, and most of the Elis' success was due to the coaching they received from Billy Queal, the old professional runner, who ran with them. Moakley of Cornell does not need to do this kind of coaching, even if he were physically able. Moakley must be given credit for developing the present cross-country system. He has made cross-country running popular with the student body, and every year has a squad of more than 200 men to work, many of whom run solely for health.

"The announcement that Meredith will run cross-country has once more started the argument as whether or not cross-country running hurts the speed of half and mile runners. Mike Murphy, the former Pennsylvania and Olympic coach, contended that it did not, but a good many middle-distance runners are afraid to take the risk. A study of the intercollegiate individual champions, from 1899 to date, shows a number of

star half and mile runners among the winners. John Cregan of Princeton, who won the event in 1899, could run the quarter mile in better than .50 seconds, and the half and mile in correspondingly fast time. The same was true of Alexander Grant of Pennsylvania, the winner in 1900. Franchot of Yale, who won the event in 1901, was likewise a good half-mile runner. Bowen of Pennsylvania and Schutt of Cornell, the winner in 1902 and 1903, were both two-milers, and each intercollegiate champions at their event.

"E. T. Newman, who won the event for Cornell in 1904, is the only cross-country champion who was neither an intercollegiate track winner or point winner. W. J. Hale of Yale, winner in 1905, was likewise the I. C. A. A. A. champion two-miler and a good mile runner as well. L. P. Jones of Pennsylvania, who won in 1907, was the half and mile champion of the same year. Young and Berna of Cornell, the winners in 1908 and 1909, were both two-mile runners, Berna still holding the collegiate record of 9:17 for the two miles.

"The only man who ever won the cross-country championships three years in succession was J. P. Jones. He won in 1910, 1911 and 1912. Jones was about the most versatile man who ever ran this distance. He could do close to 49 seconds for the quarter; he still holds the intercollegiate record of 1:59 4-5 for the half mile, while his mile record of 4-14 2:5 is now history. Trainer Moakley contended, and with good reason, that Jones could have been a world's champion at any distance from half a mile to ten miles, providing he had the time and specialized on each particular event. A study of the men running cross-country discloses some curious facts. Last year, for instance, a member of the winning Harvard team was DeGozzaldi, who scored fourth place in the I. C. A. A. A. 220-yard run in 1912. It is very rare that a sprinter also runs cross country. Fogg of Syracuse, whose best distance was the quarter, also ran cross country, and last year Harry Hillman of Dartmouth had all of his quarter milers in the big race. This all goes to show that sensible college coaches have given up the idea that cross-country running is fatal to the speed. In other words, they are beginning to realize that the presence of a big squad of cross-country runners means the addition of a good many points in the I. C. A. A. A. track and field championships later. That likewise explains why new colleges are entering their teams each year."

ALUMNI NOTES

'75, B.S.—George Hamlin Fitch, literary editor of the San Francisco *Chronicle*, has published a volume entitled "The Critic in the Orient." The book is a series of desultory sketches which were written, in the form of newspaper letters, during a journey which the author made in 1911. They relate to a dozen cities from Tokio to Cairo.

'75, A.B.—Judge Frank H. Hiscock of the State Court of Appeals is one of the delegates appointed by Governor Sulzer to represent New York State at the fifth annual meeting of the American Institute of Criminal Law and Criminology, which will meet in Montreal on September 3 and 4.

'76, A.B.; '77, A.M.—In the August number of the *North American Review* is an article by Theodore Stanton, entitled "The Political Side of Public Ownership in France."

'79, B.S.—Five members of the West Virginia legislature who were accused by Colonel William Seymour Edwards of attempted bribery in the United States Senatorial election last winter have been convicted and sentenced to imprisonment. Colonel Edwards was one of the candidates for the senatorship.

'80—Thomas Carmody, Attorney General of the State of New York, was married to Miss Agnes E. Flynn, of Albany, on July 29.

'83, B.S.—Bulletin XV. of the Geological Survey of Ohio, entitled "Devonian and Mississippian," by Professor Charles S. Prosser of Ohio State University, is claiming attention as a work of the first importance on the geology of the eastern United States. The author gives fossil and other evidence to prove that the Huron, Chagrin, and Cleveland shales, regarded by many as distinct formations, are all merely different outcrops of the Ohio shale. He has also found strong evidences of long continued erosion in the Bedford shale, heretofore regarded as belonging to the Carboniferous era, and his conclusion, supported by fossil evidence, is that the Bedford was a Devonian deposit. This period of erosion between the Bedford shale and the Berea sandstone, overlying it, he makes the dividing time between the Devonian and Carboniferous eras. The facts upon which this conclusion is based are set forth also in an article by Professor Pros-

ser in the June number of the *Journal of Geology*.

'84—Herbert S. Howland lives at 24 Rue d'Artois, Paris.

'91—Dean B. Mason, U. S. Consul at Algiers, is in America this summer.

'95, A.B.—Eugene P. Andrews, assistant professor of archaeology, has been at Candia, in the island of Crete, this summer, and from that point has made several expeditions about the island. He writes: "I'm putting in the resting time between trips studying in the Museum at [Candia], which is where they will all have to come for this pre-Greek stuff. It's all very surprising, of course,—the high state of civilization that is revealed, but no higher, I suppose, than we ought to have expected if we hadn't ignored so much in Homer as being pure imagination." He adds: "Am being bitten up worse than I ever was before, but that's one of the things you have to take to get what I'm getting. The English are just returning from some supplementary excavations at the Kamarais cave and have left one of their camp beds for me, which may make my further stay in Crete less sanguinary."

'01, A.B.—Alexander N. Slocum is vice-president of the Titan Copper Products Company, manufacturers of brass, bronze and aluminum castings, Buffalo, N. Y.

'03, C.E.—Henry F. Badger, jr., was married to Miss Elsa Wilhelmina Speyer, daughter of Mrs. Anna Speyer, at Kalamazoo, Michigan, on June 28.

'03, LL.B.—Mrs. Catharine Loyola Lurker announces the marriage of her daughter, Estelle Loyola, to Clarence Blyler Kugler, jr., at Philadelphia, on August 1st.

'03, LL.B.—S. H. Kelleran has formed a partnership with Wilson R. Gay for the general practice of the law, with offices at 1102-1105 Alaska Building, Seattle, Wash.

'03, A.B.—Professor Edward Kidder Graham, dean of the University of North Carolina, has been appointed to act as president of the university next year while President Venable is abroad. Mrs. Graham was Miss Susan Williams Moses, of the class of 1903.

'03, A.B.; '07, Ph.D.—L. F. Hawley, formerly in charge of the section of wood distillation and chemistry of the United States Forest Service, is now the director of a forest products department recently established by Arthur D. Little, Incor-

porated, 93 Broad Street, Boston, Mass. The department will be equipped for efficiency studies, the examinations of new processes, or the solution of any problem in connection with turpentine, rosin, or other forest product, wood distillation, or the utilization of wood wastes.

'04, A.B.—*Science* says that the National Geographic Society has made a grant to Professor Lawrence Martin, of the University of Wisconsin, to enable him to make detailed studies in September at Grand Pacific and Muir Glaciers. He will (a) measure the recession of several ice tongues in Glacier Bay, (b) look for advances of glaciers, (c) study the exhumed forests in relation to former glacial oscillations, and (d) make soundings in Canada's new harbor and other uncharted waters recently vacated by the glaciers, to see the effects of ice sculpture below sea-level.

'04, M.E.—Captain and Mrs. John L. Shepard announce the marriage of their daughter Dorothy to James Chapman Rockwell, at Yokohama, Japan, on May 8. Mr. and Mrs. Rockwell will live at Manila, P. I. Rockwell is general superintendent of the Manila Electric Railroad & Light Company.

'05, Ph.D.—James M. Bell, associate professor of physical chemistry in the University of North Carolina, has been promoted to a professorship.

'05, A.B.—Mr. and Mrs. James Edward Burr have announced the marriage of their daughter, Kathryn Meigs, to Robert Asahel Gardner, on August 2, at Scranton, Pa. Mr. and Mrs. Gardner will be at home after October 1st at Dalton, Pa.

'05, A.B.—A. D. Camp's address is 25 Richardson Avenue, Wakefield, Mass. Camp was married on September 14, 1912, to Miss Dorothy Bingham, of New York City.

'05, A.B.—Arthur B. Zerns has returned to the Philippines after a vacation at Watertown, N. Y. He is in the Bureau of Civil Service at Manila.

'06, C.E.—George G. Underhill, of Albany, was reported in July to be virtually under siege in a construction camp on the Conchos river, about thirty miles from Santa Rosalia, in the state of Chihuahua. Underhill is employed by S. Pearson & Son, of London, and is superintendent on the construction of a dam which the Northern Mexico Power Company is building in the Conchos river. Several thousand laborers are employed there. In June, however, work had practically

been stopped by the revolution. Federal troops had destroyed railroad bridges and it was impossible to get material for the construction work. Word of the situation was brought to Underhill's parents in Albany by John Hull, an English engineer who came out with the body of Henry Burton, of Albany, another engineer on the same job. Burton was shot and killed by a Mexican rebel in Santa Rosalia. Underhill's brother, H. O. Underhill, is a member of the class of 1913.

'06—Herman F. Schnirel, A.B., of Geneva, Member of Assembly from Ontario County, is one of the board of managers of nine members appointed by the Speaker to prosecute the articles of impeachment against Governor William Sulzer before the court of impeachment in September. The committee appointed to formulate the articles of impeachment included Karl S. Deitz, LL.B., '06, Member of Assembly from Kings County.

'06, B.S.A.—W. G. Brierley received the degree of Master of Science in Horticulture at Washington State College (Pullman) in June. He is now at the University of Minnesota, where he has been appointed assistant professor of horticulture. His address is Division of Horticulture, University Farm, St. Paul, Minn.

'06, A.B.; '07, A.M.—Frank B. Crandall, who has completed his junior year in the Harvard Divinity School, won the Perkins Fellowship for 1913-14, offered by the American Unitarian Association, and, for the second time, a Harvard Divinity School scholarship. During the summer Mr. Crandall is acting minister of the old Second Parish and Second Church (dating from 1738) in Marshfield, Marshfield Hills, Mass.

'06, M.E.—Announcement has been made of the engagement of Miss Marguerite Rodgers, daughter of Mr. and Mrs. J. Kearny Rodgers, of Wilmington, Del., to J. Edmonds Forgy, also of Wilmington. Forgy is with the Charles Warner Company as chief engineer.

'06, A.B.—Harry S. King is manager of sales of the Comepack Furniture Company, Toledo, Ohio.

'06, A.B.—Fred Louis Nussbaum, who has been assistant in modern European history at Cornell for two years past, will next year be an assistant in history at the University of Pennsylvania.

'07, M.E.—Harry H. Gildner has a son, Harry H., jr., born in March. Gildner is with the Standard Roller Bearer Company of Philadelphia and lives at Bryn Mawr, Pa.

'07, M.E.—R. B. Gerhardt is at 604 C Street, Sparrows Point, Maryland.

'07—Robert Stanton passed *cum laude* in July at the Paris University the examination for the degree of licentiate in natural sciences. In mineralogy he stood second among seventy candidates.

'07, A.B.—Mr. and Mrs. W. J. Crawford, jr., announce the birth of a son, Willard John Crawford III, on July 26, 1913, at their home, 2301 Stillman Road, Cleveland Heights, Ohio.

'08, M.E.—Mark H. Landis is general manager and superintendent of the Landis Engineering & Manufacturing Company, Waynesboro, Pa.

'08, B.S.A.—The address of Edwin Earle, jr., is changed to Carters Bridge P. O., Virginia.

'08, M.E.—Mr. and Mrs. David H. Goodwillie, of Toledo, Ohio, announce the birth of a son, David Bryant Goodwillie, on July 15.

'08, C.E.—A son, John C. Brigham, jr., was born on July 10 to Mr. and Mrs. J. Chester Brigham, of Ossining, N. Y.

'08, C.E.—Mr. and Mrs. John J. Noonan announce the marriage of their daughter, Edith Grose, to Guy Hildebrand Hunt, at Washington, D. C., on July 9. Hunt is a member of the faculty of the Case School of Applied Sciences, Cleveland, Ohio.

'08, A.B.; '10, D.V.M.—Miss Emma Florence Strang, daughter of Mr. and Mrs. J. William Strang of Waterloo, N. Y., was married to Dr. Howard Kelsey Aiken of Trumansburg, N. Y., on August 7. Mr. and Mrs. Aiken will live in Trumansburg.

'08, M.E.—Conant Van Blarcom has changed his address from Pittsburgh to 3922 Prospect Avenue, Cleveland, Ohio. He is with James L. Stuart, constructing engineer, New England Building.

'08, C.E.—The firm of Gilmore & Cook (Alvin L. Gilmore), consulting engineers and surveyors, of Binghamton, N. Y., have been appointed engineers of a proposed new water supply system for the village of Lisle, N. Y. The supply will be drawn from several large springs in the hills and the system will include storage reservoirs and two and three-fourths miles of piping. Water will be supplied to the whole village at a pressure of seventy pounds to the square inch.

'08, B.S.A.—Andrew William McKay was married to Miss Margaret Curtis (A.B., '09), daughter of Mr. and Mrs.

Gram Curtis, at Newcastle, Pa., on July 23. McKay is in the bureau of pomology of the U. S. Department of Agriculture and will be located in Portland, Oregon, for at least a year to come.

'08, B.Arch.—Lester G. Chapin is in charge of the office of W. M. Vories & Co., architects, at Hachiman, Omi, Japan, in the absence of Mr. Vories, who is America. Chapin expects to be in America for architectural study after Christmas, 1913, coming by way of Europe.

'09, C.E.—Robert C. Dewar has changed his address from East Orange, N. J., to 9 Washington Street, South Norwalk, Conn. He is with the McHarg-Barton Company, of New York.

'09, A.B.—Mr. and Mrs. Philetus Bell announce the marriage of their daughter, Miss Amelia Bell '(09), to Mr. Hiram Lambert Ricks, on June 12, at Eureka, Cal. Mr. and Mrs. Ricks will be at home after August 15 at 1005 G Street, Eureka.

'09, LL.B.—A Washington dispatch to the *New York Times* on August 2 said: "In order to have the United States adequately represented in Venezuela during the revolutionary disturbances fomented by Cipriano Castro, President Wilson today sent to the Senate the nomination of Henry F. Tennant of New York to be Secretary of Legation at Caracas. Mr. Tennant will take passage on the United States cruiser Des Moines, now at Brunswick, Ga., and ordered yesterday to proceed to La Guayra, the port of Caracas, to protect American interests. Elliott Northcott, the American Minister at Caracas, resigned recently, and Jefferson Caffery, who was secretary of the legation there, is in the United States on leave. Only a clerk was in charge of legation affairs. In these circumstances, it was deemed advisable to send somebody of experience to represent this Government in Venezuela. Mr. Tennant was born at Maysville, N. Y., March 2, 1886.

He is a graduate of Cornell, and took a degree as Bachelor of Laws. He entered business in New York City as a bond salesman and practiced law in Buffalo for a time. He then obtained an appointment as clerk in the United States Legation at Lisbon and remained there for nearly two years. In August last year, after a civil service examination, he was appointed Third Secretary of the Embassy in Mexico City. He was recently promoted to be Second Secretary there. Mr. Tennant is a popular member of the diplomatic service, and is regarded at the State Department as a discreet and well-informed young man."

'09, C.E.—Jay W. Toms is with C. W. Lane & Co., general contractors, of Atlanta, Ga. His present address is Cambria, Va.

'10, A.B.—Mrs. Celia C. Durand announces the marriage of her daughter, Alice May, to Henry White Edgerton, on June 28, at Oberlin, Ohio. Mrs. Edgerton is a sister of Edward Dana Durand (Ph.D., '96), lately director of the United States Census, and of Dr. Albert C. Durand (A.B., '06; M.D., '09), of Ithaca.

'10, A.B.—A son, Harold Eaton Riegger, jr., was born on July 21 to Mr. and Mrs. H. E. Riegger, of Ithaca.

'10, M.E.; '11, A.B.—A son, Carl Wilhelm, was born on July 14 to Mr. and Mrs. Ernst J. C. Fischer, 154 Hanover Street, Wilkes-Barre, Pa.

'10, A.B.—Morris Kush, who graduated from the Cornell University Medical College in June, is on the staff of Mount Sinai Hospital, 100th Street and First Avenue, New York City.

'10—Mr. and Mrs. John Heffron announce the marriage of their daughter, Mary Gabrielle, to Hugh Samuel Lavery, on June 25, at Saint Mary's Church, Glens Falls, N. Y. Mr. and Mrs. Lavery will live at 334 Glen Street, Glens Falls.

'11, B.S.A.—Jackson Demary is agricultural county agent for Orange County, Vermont, since July 9.

'11, A.B.—Jacob Cohen is teaching in the high school at Albay, Albay Province, Philippine Islands.

'12, B.S.—Gustavus Edward Bentley was married to Miss Lesbia Harriet Andrews (Special, '12), daughter of Mr. and Mrs. Earle Deloss Andrews, at Busti, N. Y., on July 26. Their home will be at Fluvanna, N. Y.

'12, A.B.—A son, Jacob Sloat Fassett 3rd, was born to Mr. and Mrs. Jacob S. Fassett, jr., on August 1st, 1913, at their summer home in Longwood, Mass. Fassett is a clerk in the Second National Bank of Elmira, N. Y.

'12, A.B.—Milton R. Sanderson was married to Miss Dora Cohn (A.B., '10), daughter of Mr. and Mrs. Simon Cohn, of El Rio, California, on July 25, at Chicago, Illinois. Mr. and Mrs. Sanderson will be at home after October 1st at 216 West Fall Street, Seneca Falls, N. Y.

'12, B.Chem.—Everett H. Rankin, who has been with the Standard Oil Company at New York City for a year, has been sent by the company to Batavia, Java, and sailed from San Francisco on July 16. He expects to be in Java for at least three years.
