Do You Use Press Clippings?

It will more than pay you to
secure our extensive service cover-
ing all subjects, trade and personal
and get the benefit of the best and
most systematic reading of all
papers and periodicals, here and
abroad, at minimum cost.

Our service is taken by progres-
sive business men, publishers, au-
thors, collectors, etc., and is the
card index for securing what you
need, as every article of interest
is at your command.

Write for terms or send your
order for 100 clippings at \$5, or
1,000 clippings at \$35. Special
rates quoted in large orders.

CORNELL ALUMNI NEWS

VOL. XX, No. 24

ITHACA, N. Y., MARCH 7, 1918

PRICE 10 CENTS

THE Pledge Committee brought its active canvass of the class of 1918 to a close on March 1. Seniors in residence and mechanical engineers at work in Wilmington have promised to give to the University \$2,515 annually as a class memorial. Additional subscriptions in response to letters mailed to scattered members of the class have yet to be reported. A gratifying feature of the campaign is the fact that of the seniors now in Ithaca all of the 364 men except eight and all of the 134 women except six have united in making a percentage of donors believed to be larger than that of any preceding class. The canvass was carried on by twelve teams, one at Wilmington, two among the women, and nine among the men. The first payment is due on March 1, 1919.

WILD LIFE course lectures for the month include "The Economic Value of Birds" and "The Cat and Rat Problem," by E. H. Forbush, state ornithologist of Massachusetts; four lectures on pheasants, breeding, care, and rationing of the young, combatting of vermin and disease, and miscellaneous problems, by E. A. Quarles, of the American Game Protective Association, and H. T. Rogers, superintendent of the State Game Farm; "The Breeding of Wild Turkeys" and "The Breeding of Diving Ducks," by H. K. Job, of the National Association of Audubon Societies.

THE NEW YORK ORGANIZATION of the Grand Army of the Republic will hold its annual encampment in Ithaca on June 19, 20, and 21. The Board of Commerce is already busy with plans for entertaining the old soldiers. The estimated attendance of five thousand means the largest convention that this city has undertaken to care for. Arrangements will doubtless be made for using some of the University buildings.

PROFESSOR EDWARD A. WHITE, of the Department of Floriculture in the College of Agriculture, will spend the spring and summer as a leader in school and home garden work throughout the State, virtually a part of the extension service. Co-operating with the Departments of Rural Education and Vegetable Gardening, he will act as an adviser to school

superintendents and local garden committees; endeavoring especially to stimulate interest among children in cities and towns. Since he is undertaking this work as a war emergency measure, in order that he may be wholly free, Professor White has been relieved of his teaching during the remainder of the academic year.

THE CORNELL CADET BAND and a battalion of cadets from the Reserve Officers' Training Corps formed a part of the escort last week of drafted men leaving for Camp Upton. These men, eighty-two in number, constitute Tompkins County's fourth contingent for the National Army. In the parade, from the Court House to the Lehigh Station, were civic officials and clergymen, other bands, and military organizations of Ithaca and Groton. The train also carried some four hundred young soldiers from the western part of the State.

A HIGH WIND which swept over and through Ithaca last Tuesday uncovered one of the laboratories in Morse Hall. A section some forty feet square of the temporary wooden roof which was put on after the fire in 1916, its fastenings insufficient against the gale, was torn off and scattered over the rest of the building and the ground. Repairs were begun at once and instruction in the laboratory was resumed early this week. No other serious damage was done on the campus. In the city some injury was wrought to trees, telephone poles, show windows, and awnings. The velocity of the wind at its highest was fifty-eight miles an hour. Greater velocity is recorded by the Weather Bureau of sixty-eight miles on April 30, 1909, and of seventy miles on January 22, 1910.

CADETS in the School of Aeronautics last week came nobly to the aid of one of their number who was taken critically ill. Within a few minutes they raised a fund of one thousand dollars and summoned a Buffalo specialist to Ithaca by special train. Moreover, several cadets voluntarily submitted to loss of blood for transfusion to their comrade. The specialist's charge left about four-fifths of the sum subscribed as a fund to be drawn upon in case of similar necessities in the future. The father of the sick

soldier expresses his conviction that Germany cannot win against such a spirit as this among the boys of America.

MUCH SMOKE AND A LITTLE FIRE early last Saturday morning did slight damage to the Phi Kappa Sigma Fraternity lodge at 626 Thurston Avenue, near Triphammer bridge. The flames were confined to the basement, where they started apparently from defective wiring. A number of volumes in the library were injured by smoke and chemicals.

THE DEPARTMENT OF PLANT BREEDING is cooperating with the Federal Department of Agriculture in breeding improved cereals. By continued experimentation the department has developed some new types which promise a larger yield, and has supplied new seed to farmers through the State. Reports show that the yield from the improved seed is considerably larger. The crops particularly affected are oats and wheat. The experimental work at Cornell is under the direction of Professor H. H. Love and Instructor William T. Craig.

THE SCHOOL OF AERIAL PHOTOGRAPHY will remain in Ithaca. A report sent out from Washington that the schools at Langley Field, Fort Sill, and Cornell were to be consolidated in a single large school at Rochester is declared by Lieutenant Jacoby, in charge of the work here, to be, as far as pertains to Cornell, without foundation. A new division will, however, be formed at Rochester. About one hundred cadets are now at work in the Ithaca section, having headquarters in Rockefeller Hall.

THE WOMEN'S DRAMATIC CLUB gave its second series of one-act plays on Saturday, both plays consisting entirely of feminine roles. The first play was "Mrs. Willis' Will," an adaptation from the French of Emile Souvestre, with Marian Irish '20 as Mrs. Robinson, Margaret Luckings '18 as Lady Spindle, Rosalie Ulrich '20 as Mrs. Dwindle, Sarah Spear '21 as Jenny, and Margaret Remsen '21 as Rachel. The second play was "Soldiers' Daughters," by Cosmo Hamilton, with Janet MacAdam '21 as Helen Meredith, Gladys Bleiman '19 as Pamela Meredith, and Rebecca Davis '19 as Jane. The performance was given in the recreation room of Prudence Risley.

THE POOL ON THE QUADRANGLE

The huge puddle shown here is not the new natatorium, nor was it built by Mr. Carnegie for a rowing lake. It is the result of the thaw on February 12. The students in the distance are shown in characteristic garb, with open "gooloshes," which suggest Shanghai roosters as much as anything else.

Photograph by O. D. von Engeln '08

A Description of the Union

A. D. Weil '86 Sends Interesting Data on the Accommodations Provided in Paris

The American University Union in Europe is doing good work in making a comfortable home for college men when on leave in Paris. The Cornell Bureau and other like organizations are taking care of their own members in good shape. Many groups are holding dinners and other reunions. Princeton has formed a European Alumni Association which will soon hold a dinner at the Union, and Yale men scheduled a dinner for February 23, while the "Sig in France" Chapter of Sigma Chi, and Boston "Tech" both had dinners on February 2.

The Cornell Bureau is anxious to receive direct communications from alumni and will be glad to furnish any information desired or render any possible service. Circulars such as announcements of Cornell dinners and luncheons

in America are always posted on the bulletin board and are always read with great interest, some of the American club secretaries having placed the Cornell Bureau on their mailing lists.

A. D. Weil '86, the director of the Cornell Bureau, has given some interesting information about the Union. The Union has eighty outside rooms with accommodations for a hundred men. There are forty-two modern bathrooms, and running water in each bedroom. The municipal authorities have allowed the use of hot water daily, instead of twice a week, the usual war allowance. A canteen in the lobby carries books, toilet articles, flash lights, stationery, tennis balls, chocolate, and tobacco. Tennis rackets may be rented there. It is open from noon to 9:30 p. m.

The restaurant has a high reputation. It supplies luncheon for 4½ francs, dinner for 5½ francs, and a moderate priced

petit déjeuner. Board by the day is 10 francs for the three meals. Pension by the day may be had for 15 francs up, everything included. Fees and tips are not allowed, but a service charge is made of ten per cent on one's first week bill and seven per cent thereafter, which is distributed among the servants. In view of the high cost of supplies in Paris, where anthracite sells for \$60 to \$70 a ton, and with the franc worth only 17½ cents, the charges seem most moderate, as board and room in the most ordinary hotel in America cannot be expected lower than \$2.63 per day. The charge for similar accommodations at the new Y. M. C. A. recreation centers for American troops at Aix-les-Bains, Chambéry, and Challes-les-Eaux are from \$2.20 to \$3.40 a day.

The Union now has the appearance of a university club rather than of a hotel, although it is still the Royal Palace

Hotel. An attractive sign, "The American University Union," replaces that of the hotel. The lobby has been remodeled to include special rendezvous for men of the same college; and one of these is the Cornell Cozy Corner. The whole place is most homelike and attractive. When the accommodations are insufficient for the crowd, the Hotel Montana and other hotels in the neighborhood of the Place du Théâtre Français take care of the overflow under special arrangements with the Union management.

Obviously the changes mentioned cover only the cost to the Union of the hotel accommodations. The intention is to charge the soldiers for only such items as are used by them individually. The cost of maintaining the Union itself, as distinguished from the hotel features, has to be paid in some other way. In a university club in America these other costs are paid with membership dues and initiation fees, which, of course, in the Union would be impossible, or would be contrary to the idea of service that is fundamental in it. It is to cover such items as clerical expense, bureaus, circularizing, and other expense not belonging to the hotel business, that American college men at home are being asked to contribute what they will. Cornell contributions received by C. D. Bostwick, Treasurer of Cornell University, Ithaca, will go to defray the expense of the Cornell Bureau and the part of the overhead expense proportional to the use Cornell men will make of the Union.

EDUCATION TO WIN THE WAR

The United States Commissioner of Education, Philander P. Claxton, speaking before the National Education Association in convention at Atlantic City last week, declared that the Government does not approve of enlistment in the Army by men now in college. The Associated Press reports Commissioner Claxton's statement as follows:

"The sentiment of the Administration, approved by the Council of National Defense, is that attendance and educational standards be kept normal. No students should leave college but to fill a position that can not be taken by another, or unless definitely called by his country. I personally think the war will be long, and not brought to an end until 1920 or 1921. It is a war of invention; of the engineering expert behind war against the airplane and the submarine. It may be that the thousand trained men behind will be worth ten thousand at the front."

MILITARY NOTES

AT THE M. I. T. SCHOOLS

J. Emery Ward '99 has entered as a cadet the military training school at the Massachusetts Institute of Technology. He finds a number of Cornell men there as his letter, which follows, indicates.

EDITOR ALUMNI NEWS:

I thought you would be interested to know that a number of Cornell men are attending this [military] school and also the Naval School of Aeronautics located here. There are about ten in our school and about thirty in the naval school.

We have been kept so busy that we have had no opportunity to get together, but I have met the following men: in the army school, Hugh C. Edmiston, jr., '15, Charles H. Landon '16, Thomas G. Spates '13, Walter Sturrock '16, O'Brien '17, Lieut. Philip K. Lindsay '16, and Harold M. Searles '17; in the navy school, Russell Wells '16, Arthur W. Mellen, jr., '17, Charles L. Funnell '16, Elwyn L. Smith '17, and Allan W. Carpenter '16.

I seem to be out of my class as far as age is concerned but am holding my own so far with only ten more days to go and am getting younger every day.

J. E. WARD '99.

Indiana Men in Service

The secretary of the Cornell Alumni Association of Indiana reports that the following Indiana Cornell men are now in the service:

August C. Bohlen '09, captain, Ord. R.C., 505 Farragut Apts., Washington, D. C.
Laurance W. Hitt '09, lieutenant, U. S. Mil. P. O. 721, Am. Exp. Forces, France.
H. Roy Kelley '17, lieutenant, 89th Division, Camp Funston, France.
Willfred K. Krauss '13, lieutenant, F.A.R.C., Camp Taylor, Louisville, Ky.
Owen M. Mothershead '00, captain, care University Club, Indianapolis, Ind.
William E. Munk '12, lieutenant, 308th Engineers, Chillicothe, Ohio.
Robert B. Rhoads '11, First Air Depot, Am. Exp. Forces, France.
Russell J. Ryan '13, captain, Puritan Apts., Louisville, Ky.

Oswego Men in Service

The secretary of the Cornell Club of Oswego reports that the following members of that club are now in the service: Harold E. Bullis '09, captain, C.A.R.C., Fortress Monroe, Va.
Frank G. Corregan '16, Officers' Tr. Camp, Camp Upton.

Edward Dowdle '09, captain, Medical R.C., Walter Lee Hospital, Washington, D. C.

ALUMNI ASSOCIATIONS

THE NEW YORK CLUB

With about a quarter of its membership in active service in France, in the training camps, or in Washington, the Cornell Club of New York has been able to keep its end up because many of the older men, who have been quiet in Cornell affairs in the past, are stepping forward to take the places of the men who have gone.

The Saturday afternoon talks, which were such a prominent feature of the club's activity last year, are now running regularly, again under the direction of Ensign James O. Winslow '11, as chairman of the entertainment committee. It has been proved that to invite a speaker to a Saturday luncheon makes a much more popular entertainment, at least from the point of view of the club members, than an evening affair. The Saturday talks are thus becoming an established institution.

During the past month, three exceptionally popular entertainments have been given. Louis A. Fuertes '97 spoke on February 2 on camouflage from the scientific point of view, Arthur Williams spoke the following Saturday in his capacity as Federal Food Administrator for New York City, and on the 16th Major Francis A. Stoddard, jr., told of his three months in London and Paris studying anti-aircraft defenses.

The governors of the club are anxious that it should be more generally realized among Cornell men that whether or not a man happens to be a member makes no difference in his welcome at the club house. This is true at all times, and a special invitation is extended for Saturday noons.

WESTERN PENNSYLVANIA

The regular luncheons of the Cornell Association of Western Penna. are now being held every Friday at the Hotel Chatham, Penn Avenue, Pittsburgh. It was found that to meet every other week was somewhat confusing, as the members were inclined to forget which week was "on" and which was "off" in arranging their engagements. The attendance is not appreciably affected by this arrangement. The capacity of the hotel is not being taxed by these luncheon parties, but enough of the old guard show up regularly to keep the organization together, and Pittsburgh on the map.

THE GENERAL ADMINISTRATION Committee of the Board of Trustees will meet on Saturday in the President's office.

Bell Phone Absorbs the Ithaca Federal Telephone Holdings Purchased by the New York Co.

That bane of the Freshman's existence, the service, as it is called, of two telephone companies, with the consequent misunderstandings and other complications, is soon to be a thing of the past. Deeds were filed recently transferring the entire physical plant of the Ithaca system to the Bell system. The deal involves several million dollars and lines in about eighteen counties in western New York. The transaction has been pending since fall; permission to merge was recently received from Government officials and the Public Service Commission.

The consideration named in the formal deed of conveyance is one dollar. Face-tious persons have been heard to remark that they considered it reasonable. The Ithaca 'phone, nevertheless, has served a useful purpose in providing, for a decade and a half, a complete service to the University, with a campus switchboard and operator, at a price that the University could afford to pay. Since its installation the Bell service has improved to a marked degree, though as much cannot be said of the Federal service. It has, however, been usable, and the statement is made that the expense of service on both 'phones is no higher than it formerly was on the Bell alone.

Whether the application of these facts is a correct one, or whether the increased efficiency and decreased cost are due to advances in telephone efficiency generally, the Federal system had outlived its usefulness to the students and townspeople, while many small groups of Faculty members have felt obliged to subscribe jointly for Bell 'phones. The regret at the passing of the second system will not be general, and the hope is expressed that the pessimist in *The Ithaca Journal* was wrong when he prophesied a delay of a year or two before the necessary physical changes can be made.

PROFESSOR DEXTER S. KIMBALL, head of the Department of Machine Design and acting dean of Sibley College, has declined appointment, tendered some ten days ago, as major in the Signal Corps of the United States Reserves.

PROFESSOR WILLIAM F. DURAND, of Stanford, formerly of Cornell, has been made chairman of the National Advisory Committee for Aeronautics.

LITERARY REVIEW A Debater's Manual

How to Debate. By Edwin Du Bois Shurter '92. New York. Harper & Brothers. 1917. 8vo, pp. xii, 319. Price, \$1.35 net.

The number of text-books dealing with argumentation and debate is already considerable, as indicated by the bibliography in this volume; yet Professor Shurter fully justifies himself in producing the present work. It is an outgrowth of his "Science and Art of Debate," published ten years ago, and is thus an attempt to present the pertinent material anew in the light of continued successful experience in teaching, and especially to adapt it to the needs of high school students. But the author has done more than make a mere text-book. He has given us a readable and interesting discussion of the subject, well suited to the needs of the average reader who wishes to know the secret of successful debating.

The successive chapters deal with the proposition as to matter and form, analysis of the question, proof, evidence, constructive arguments, and methods in school and college debating. In an appendix are given about a hundred and fifty questions for debate, a specimen debate (between Texas and Missouri men) on "Preparedness," the rules for parliamentary procedure, and ample bibliographical references.

There is a lack of uniformity in citing references; and some misprints have been noted. The absence of the index is regrettable. Yet the merits of the book are so manifest that it deserves and will undoubtedly have wide use.

Books and Magazine Articles

A book on "Religion and the School" by Professor Emil Carl Wilm (Ph.D. '05) of Boston University has just been published by the Abingdon Press. The price is thirty-five cents, net.

"Food in War Time" is the title of an excellent little book by Dr. Graham Lusk, professor of physiology in the Cornell University Medical College, New York. The book is published by the W. B. Saunders Company, Philadelphia, and is sold for 50 cents. It has three chapters, entitled "A Balanced Diet," "Calories in Common Life," and "Rules of Saving and Safety." The first and second chapters were written as magazine articles. They are far from technical in style, and they contain a great deal of information and some interesting facts from Europe's experience

of restricted food supply. The chapter on calories contains useful tables of the energy values of various foods. Dr. Lusk does not preach any particular cult in diet. His test of proper food is that it should not only supply calories but also satisfy the appetite.

Dr. David Starr Jordan '72, chancellor emeritus of Stanford University, has completed his autobiography, which will be published at once by the World Book Company of New York.

Two interesting forestry articles, "Cornell University Forestry School in Summer," by Bolling Arthur Johnson, and "Seeing Forestry Work in the Adirondacks," by Professor Samuel N. Spring, the latter dealing with a visit of inspection to the old Cornell Forestry Camp, have been reprinted from *The Lumber World Review* for November 10.

Professor William H. Glasson '96, of Trinity College, Durham, North Carolina, has in press a comprehensive work on "Federal Military Pensions in the United States." The book is an account of the national provisions that have been made for pensions and relief to disabled soldiers and to the dependent relatives of deceased soldiers from the Revolutionary War down to the recently enacted War Insurance Law. Professor Glasson has been engaged for several years in preparing this volume for publication under the auspices of the Carnegie Endowment for International Peace, and its completion comes at a time when the subject has greatly increased in importance and timeliness.

The Quarterly Journal of Economics for February includes an article by Margaret L. Stecker '06 on "The Founders, the Molders and the Molding Machine."

William Henry Hudson, formerly of the University Library staff, has recently published a volume of 630 pages on "France: the Nation and Its Development." It is published by Stokes at \$3.50.

In *The History Teacher's Magazine* for February Professor Carl Becker's article on "The Monroe Doctrine and the War" is reprinted from a recent issue of *The Minnesota History Bulletin*. It is an admirable exposition of President Wilson's dictum that in entering the war we are not really renouncing but only extending the Monroe Doctrine; for that doctrine means clearly that we have hitherto insisted on making the Western Hemisphere safe for democracy. Miss Harriet E. Tuell (Ph.D. '94), of the Somerville, Massachusetts, High School,

contributes to the same number a review of Hutton Webster's "Early European History" (Heath).

Cornell is included in the list of colleges visited by Hildegard Hawthorne and described by her in "Rambles in Old College Towns," lately published by Dodd, Mead & Company. While in no sense critical, the book conveys pleasantly a good deal of information. It is well illustrated.

In *Science* for February 22 David Starr Jordan's new work on "The Genera of Fishes, from Linnaeus to Cuvier, 1758-1833," in writing which he was assisted by Barton W. Evermann, and which is published by Stanford University, is reviewed by T. D. A. Cockerell.

"Headquarters Nights," Professor Vernon L. Kellogg's record of experiences at the German army headquarters in Belgium and France, which first appeared in *The Atlantic Monthly*, has been published in book form by the Atlantic Monthly Press.

"Maria," a *novela americana* by Jorge Isaacs, has been edited by Professor R. H. Keniston in a volume of 223 pages published by Ginn and Company of Boston.

Professor Nathaniel Schmidt writes on "The Future of Turkey in Europe" in *The Nation* for February 21.

"America Among the Nations," by Professor H. H. Powers, formerly of Cornell, has lately appeared from the press of the Macmillans.

Two new volumes announced for early publication by the Macmillans in Dr. Bailey's "Rural Text-Book Series" are "Butter," by Professor E. S. Guthrie of the Dairy Department, and "The Book of Cheese," by Charles Thorn, of the U. S. Bureau of Chemistry, Department of Agriculture, and Assistant Professor Walter W. Fisk, of the Department of Dairy Industry.

Professor Horace L. Jones (Ph.D. '09) publishes in *The Classical Weekly* for February 11 a review of C. E. Robinson's "The Days of Alcibiades," lately published by Longmans. The second volume of Jones's translation of Strabo, which is appearing in the Loeb Series, will soon go to press.

Professor Charles E. Bennett of Cornell is preparing for the Loeb Series a translation of Frontinus' "Aqueducts of Rome" and "Strategemata," a work on strategy. Professor Bennett's "Odes" of Horace in the same series is now in its second edition.

SKATING ON CAYUGA IN 1912

Under date of February 19 Floyd R. Newman '12 writes from the office of the Ordnance Department, Washington, to THE ALUMNI NEWS as follows:

I read with a great deal of interest the first two paragraphs on the first page of your issue of February 7th, particularly in regard to skating on Beebe Lake. Perhaps it would be of interest to you to have recalled a few of the incidents of the winter of 1911-1912.

After an unusual stretch of cold weather, the undergraduates were delighted to see, one morning, Cayuga Lake frozen as far from Renwick as the eye could see. This occurred on the Wednesday of Junior Week, 1912. R. V. Proctor '13 and the writer ventured down to Renwick on this afternoon and skated up the lake from the pier, a distance of about four miles, and were finally forced to shore, after a thrilling skate over the thin ice.

However, after two more days and nights of very cold weather, five of us took to the ice on the following Friday and skated away to the north end of the lake. Those in the party were T. R. Briggs '10, Geo. I. Dale '10, L. E. Deyoe '12, G. W. Kugler '12, and the writer. We started from Renwick Pier about two o'clock in the afternoon, and skating over exceptionally hard and smooth ice, arrived at the north end of the lake about five o'clock in the afternoon. We had dinner at a small village, the name of which I do not remember, on the east shore at the end of the lake and returned to Ithaca by way of the "Short Line."

The excellent skating continued on Saturday and a large number of undergraduates took advantage of it. Saturday night a thaw occurred and a wind storm came up which broke the ice in many places; and on Sunday two students who ventured too far over the broken ice were unfortunately drowned.

Yours very truly,

F. R. NEWMAN '12.

'93 REUNION POSTPONED

The secretary of the class of '93, C. S. Northup, announces that after discussion among several members of the class it has been found that for a number of reasons a large attendance at a reunion in May would be impossible, and it is therefore deemed wise to postpone the next reunion until after the close of the war. Those who come to Ithaca May 17 and 18 this year will take part in the general Alumni Days activities.

EXCEPTIONAL WIRELESS COURSE

The course in radio-engineering which the members of the senior class in electrical engineering elected instead of work in the General Electric plant at Schenectady is exceptionally good. Similar courses are given in forty-five engineering schools, but the requirements are very much stiffer than those required by the Government. A selected lot of students, therefore, are taking the course, admission being dependent on previous standing in electrical engineering work. The Cornell registration is not the largest in the country, but it is expected that the work done will be equal to any. Seventeen students are taking the course. The largest enrollment is said to be at the Sheffield Scientific School, Yale University, where the registration is nineteen. The immediate purpose is to train radio-engineers for military work; but there is of course a desirable field in this work for civilians after the war. Registration does not necessitate military service, but the men who are taking the course here all expect to enter the Signal Corps.

KNIGHT WINS SECOND PRIZE

Frank Hyneman Knight, Ph.D. '16, now an instructor in economics at the University of Chicago, won the second prize of five hundred dollars in the 1917 competition for the prizes in economics offered by Messrs. Hart, Schaffner, and Marx, of Chicago. Knight's essay was entitled "Cost, Value, and Profit." According to a press despatch, Knight is the fourth Cornell man to win one of these prizes. Chicago has had ten winners, Northwestern six, Harvard five, Washington and Lee four, Oberlin three, and Ohio Wesleyan two. There is to be a similar contest for the present year.

BUREAU FOR COLLEGE WOMEN

Cleveland is making an effort to aid in meeting the demand for trained women in all fields of work, by the establishment of the Bureau of Occupations for Trained Women, in the State-City Labor Exchange. The bureau is in a position to give advice and assistance to college graduates who are interested in finding positions in or near Cleveland in business, social work, library work, home economics, and many special branches of opportunity. No charge is made to either applicant or employer. Further information may be secured from the secretary, Miss Lucy M. Park '15, Room 108, City Hall, Cleveland, Ohio.

Published for the Associate Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly in July and August; forty issues annually. Issue No. 1 is published the first Thursday of the college year in September and weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40, the final one of the year, is published the last Thursday in August and is followed by an index of the entire volume.

Subscription price \$3.00 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies ten cents each.

Should a subscriber desire to discontinue his subscription, notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

A GENEROUS GIFT

In recognition of the burden the New York Cornell Club is carrying, with over twenty-two per cent of its membership in service, Mrs. Collis P. Huntington, the owner of the clubhouse at 65 Park Avenue, has very generously reduced the rental by \$2,500 for the year beginning May 1, 1918. In these days when so much is heard of profiteering and generally high prices with the war as a pretext, it is particularly gratifying to the management of the club to have this very tangible expression of appreciation and co-operation on Mrs. Huntington's part. That enlistments have brought up special problems for alumni clubs with clubhouses is substantiated by the recently announced amalgamation

of the Yale Club and the Princeton Club in New York into the Yale-Princeton Club for the duration of the war.

CAP AND GOWN AGAIN

The Sun, replying to our recent editorial on the cap and gown, points out that the Student Council voted not to use the cap and gown this year as a matter of University policy and hence did not submit the question to a vote of the senior class; that economy is against the wearing of the cap and gown this year; that the tradition should not be considered this year; that if we at Cornell rent caps and gowns, others will have to buy; that a few coming back for one day will find it difficult to be fitted with cap and gown upon their arrival.

THE ALUMNI NEWS does not desire to prolong discussion of this subject. We will merely point out here one or two considerations. First, we are thinking of Cornell's needs, not those of any other institution; the others will take care of themselves. Secondly, there are plenty of caps and gowns available, already made up, whether for sale or for rent; consequently, the argument of economy and the need of conservation of labor disappears. Thirdly, we quite agree that if this tradition is not justified it should go; we believe, however, that it is amply justified, for many reasons. One of these is that the senior women have decided that this academic uniform is for them a direct economy, which will at the same time furnish "the desired homogeneity of appearance." Finally, the local dealers guarantee to fit any senior who may come back at the eleventh hour, no matter how curious his shape may be.

We are still, therefore, of the opinion that if we are going to have Commencement exercises they should be characterized by such formality and such dignity as the occasion demands. Especially is this true of the Commencement of our semi-centennial year.

A CHANCE TO HELP

Secretaries of local clubs can give a great deal of pleasure to Cornell men in Europe by placing the Cornell Bureau on their mailing lists so that they receive announcements, directories, and other matter pertaining to Cornell alumni clubs. Our fighters have not forgotten their University, but in fact have probably grown to a greater appreciation of the meaning of education as they observe the important part which educated men are taking in the war.

OBITUARY

George Kingsley Birge '72

George K. Birge, one of the most prominent of Buffalo business men, died of pneumonia at his home on January 17. He was born in Buffalo in 1850 and was the son of Martin H. and Elizabeth Ann (Kingsley) Birge. At Cornell, where he remained only a year, he became one of the first members of Alpha Delta Phi, and wrote the words of the song "We'll Honor Thee, Cornell." After leaving college, he engaged for some years in the wall paper business; since 1900 this has been conducted under the name of M. H. Birge & Sons Company. The house has always been an influential one and has for years maintained international connections.

At an early date Mr. Birge became interested also in the bicycle and automobile industries, becoming associated with the George N. Pierce Company, later the Pierce-Arrow Motor Company, of which he was long president, retiring in 1916. For his interest in the Pierce company he is said to have received seven millions.

In 1878 he married Carrie Humphrey, daughter of Judge James M. Humphrey of the old Superior Court. His wife, one son, and two daughters survive him.

He was a generous and public-spirited citizen, with a keen interest in municipal, philanthropic, and charitable enterprises. He was a member of the First Presbyterian Church, the Buffalo, Saturn, and Country Clubs, the Historical Society, and the Arts Club of New York. He was also a trustee of the Buffalo Academy of Fine Arts.

Frank Findlay Hanbidge '10

Lieutenant Frank F. Hanbidge of the Medical O.R.C. died of pneumonia while in the service of his country in France, on January 31.

Hanbidge was born June 17, 1887. He was the son of Dr. and Mrs. W. B. Hanbidge, of Ogdensburg, N. Y., and entered the College of Architecture from the Ogdensburg Free Academy in 1906, graduating with the degree of B.Arch. in 1910. He was a member of the Cornell Club of New York, and his death is the first recorded of members of the club who have died in the service. Hanbidge studied medicine in Philadelphia, and received his M.D. in 1916.

Lindley H. DeGarmo '12

Lindley Haines DeGarmo was killed on Saturday, February 17, in an airplane accident at Stamford, England. DeGarmo was a son of George J. De-

Garmo of 131 Joralemon Street, Brooklyn, and was prepared for college at the Ridgewood, New Jersey, High School. At Cornell he took the course in mechanical engineering, and belonged to the A. I. E. E. and the Rifle Club. He later studied architecture in Columbia. Last year he enlisted in the Aviation Section of the Signal Corps and went to Miami for his preliminary training. He had been for some months training in England with members of the Royal Flying Corps. He was twenty-seven years old. Two younger brothers of his are now in the aviation service.

Frank Harris Gardner '13

First Lieut. Frank H. Gardner, U. S. A., Medical Reserve, died at his home, 131 West Seventy-ninth St., New York, February 23, of pneumonia as a result of overwork and exposure in the performance of his duty at the Surgeon's Office, Port of Embarkation, Hoboken, N. J.

Lieutenant Gardner had been transferred to New York from Fort Oglethorpe, Georgia, about six weeks ago. He had been suffering with a bronchial affection while in Georgia and although scarcely recovered, threw himself into his new duties at the Government reserve in Hoboken without regard for his physical condition. On Wednesday he fainted in his office but insisted on going home rather than to a hospital.

Gardner was born in Montrose, Pennsylvania, August 31, 1889. His father, Dr. Edward R. Gardner, is a practicing physician in Montrose, and his brother, Braton R. Gardner '16 LL.B., is a corporal in the National Army.

Gardner entered Cornell from the Ithaca High School in 1909, to take a course in law, but left before completing his work here, and graduated from Jefferson Medical College, M.D. '16. He was married last September to Miss Lillian Titsworth of Montrose. He was a member of the Alpha Tau Omega Fraternity.

A military guard accompanied the body of Lieutenant Gardner to Montrose for the funeral services.

James Russell Mailler '16

James R. Mailler, one of the fifty-two Cornell men designated to attend the R.O.T.C. at Camp Upton, died there of pneumonia on February 24. Mailler was the son of Alex C. Mailler, of Mountainville, N. Y. He was born September 2, 1891, and entered the College of Agriculture in 1912 from the Cornwall, New York, High School. He received the degree of Bachelor of Science in the fall of 1916.

ATHLETICS

Basketball

Cornell 39—Columbia 26

The Cornell basketball team defeated Columbia last Wednesday night by the score of 39 to 26, the second victory of the season over the New York five. The game was one of the most interesting and spectacular of the local season, and not until the last ten minutes of play did the Cornell men draw away. Spectacular shots by the forwards of both teams enlivened the contest. Cornell was superior to the New Yorkers in team play, particularly in the last half, but the fast floor work and accurate shooting of Farer and Latour, left forward and center respectively of the Columbia team, kept the New Yorkers well in the running for a good share of the game. They penetrated Cornell's defense frequently in the first half, but in the second Cornell's guarding was closer, and the visiting team was checked.

Stewart of Cornell played a brilliant game, leading his team mates in scoring with five goals, and being in the thick of the fray most of the time. Whenever Columbia threatened to draw up he would start a rally which would put his team ahead. Tripp also proved effective in throwing baskets, caging four from the field.

Columbia went to the fore in the first few minutes of play, but shots by Stewart, Allen, and Tripp evened the score and Cornell then began to forge ahead, holding at the end of the half a lead of 21 to 15. At the beginning of the second period the New Yorkers staged a rally, Latour throwing two baskets, and bringing his team within three points of Cornell. The local five then cut loose with a rally which clinched the game. The summary:

Cornell	Columbia
Stewart.....	L. F.....Farer
Tripp.....	R. F.....Alexander
Karr.....	C.....Aebli
Allen.....	L. G.....Latour
Kendall.....	R. G.....Weinstein

Goals from field—Cornell: Stewart 5, Tripp 4, Karr 2, Allen 4, Kendall 1; Columbia: Farer 5, Latour 3, Alexander 2, Aebli; foul goals—Stewart 7, Latour 2; substitutions—Columbia: Newman for Weinstein, Keindl for Latour, Horschasitas for Alexander; referee—W. C. Hickok, Ithaca; time of halves, 20 minutes.

Cornell 32—Rochester 15

The Cornell team went to Rochester Saturday and defeated the University of Rochester five by the score of 32 to 15, the second time this season that the Ithacans have defeated the up-state five. Cornell had no trouble in winning this

game, excelling the home team both in team play and in goal shooting. Cornell's passing was smooth and accurate and the goal shooting was effective. Cornell ran up a safe lead at the outset and was never headed.

In the second half the Ithacans turned the game into a rout. Tripp and Kendall were the principal figures in the offense, Cornell's right forward scoring six goals during the game, while Kendall had four to his credit. The summary:

Cornell	Rochester
Tripp.....	R. F.....Henderson
Stewart.....	L. F.....Harper
Karr.....	C.....Stein
Allen.....	R. G.....Merson
Kendall.....	L. G.....Wattell

Goals from field—Rochester: Harper 2, Wattell 2, Stein; Cornell: Tripp 6, Kendall 4, Stewart 2, Karr 2, Allen; foul goals—Harper 5, Stewart 2; substitutions—Rochester: Merson for Henderson, Messinger for Merson, Wallace for Merson, Messinger for Wattell, Wattell for Stein; Cornell: Lurio for Stewart, Minasian for Allen; referee—Mr. Dreher of Buffalo; umpire—Mr. McKinney of Oberlin; time of halves, 20 minutes.

The Intercollegiate Revived

The Intercollegiate, as the annual track and field championship games of the Intercollegiate Association of Amateur Athletes of America are popularly known, will be revived this spring, according to a decision of the Association at its annual meeting held last Friday and Saturday in New York City. Cornell was represented at the meeting by Eugene A. Leinroth, track manager, and Romeyn Berry '04.

The Association unanimously adopted the recommendation of the executive committee that the meet should be held May 31 and June 1 at Franklin Field, Philadelphia.

The dates chosen for the meet come after Cornell's Commencement, which is scheduled this year for May 23. In view of this fact there is doubt as to whether Cornell will enter a team in the championships. The matter is now being considered by the athletic authorities and a decision should be reached soon.

It will be recalled that the meet was abandoned last spring because the declaration of war had temporarily put an end to track activities in practically all of the universities and colleges which are members of the Association.

The usual program of events will make up the program of the meet this year. Pennsylvania made an effort to substitute the javelin throw for the hammer throw, and to add to the events the discus, wall scaling, and hand grenade throwing. The executive committee

rejected this proposition, but recommended that these events, namely the javelin throw, wall scaling, hand grenade, and the discus throw be offered by the Pennsylvania management in the way of exhibitions or demonstrations. The Association approved the decision of the executive committee. Gustavus T. G. Kirby of Columbia was appointed referee of the meet, and Roland C. Fenner of Pennsylvania, manager. Representatives of Yale, Harvard, and Princeton indicated that it was doubtful if these three institutions would enter teams in the meet, and as pointed out before, there is grave doubt if Cornell will be represented.

The University of Pittsburgh was elected to membership in the Association.

National Rowing Regatta

Cornell will be invited to enter a varsity eight in the proposed national regatta to be rowed at Annapolis on the Severn River in the spring, according to an announcement from New York City. Plans for such a regatta were discussed at a meeting of the American Rowing Association held in New York last Saturday. Cornell was not represented at the meeting, which was attended by Charles H. Mapes of Columbia, chairman of the Board of Stewards of the Intercollegiate Rowing Association, Dean William McClenahan of Princeton, Francis S. Bangs of Columbia, Thomas Reath of Pennsylvania, Julian Curtiss of Yale, Lieut. Commander Cuyler of Annapolis and John A. Brown of Pennsylvania.

Press dispatches say that plans for this regatta crystalized in the minds of some of the men promoting it when it became certain that the usual rowing classics, the Poughkeepsie and New London regattas and the American Henley at Philadelphia, would not be scheduled this year. It is understood that high officials of the Government approve the plan.

According to the announcement it is planned to invite every Eastern college which usually turns out a crew, to enter the regatta.

Cornell's rowing plans are still unsettled, and there is as yet no indication as to what course the Athletic Association will take if the invitation is forthcoming.

A SERIES OF TEA DANCES is being given in the Sage College drawing rooms on Saturday afternoons by the Women's Mobilization Committee, for the benefit of the Red Cross.

ALUMNI NOTES

'79 BCE—James C. Kennedy is a mining engineer and metallurgist, specializing in mining geology, examinations, and mill designs. His address is Manhattan, Nevada.

'81 BAg—At the recent meeting of the New York State Grange at Syracuse, Professor Henry H. Wing was made one of the directors of a co-operative stock corporation which the Grange has organized to facilitate the purchase of supplies for members.

'86 CE—Major Charles B. Wing, Engineer R. C., is assigned to the 23d Engineer Regiment for duty.

'90 BSA; '98 PhD—Professor James E. Rice delivered an address on March 4, at the annual conference of the American Game Protective Association, held at the Waldorf-Astoria Hotel in New York. His subject was "Teaching Game Farming at Cornell University." On March 5, Professor James G. Needham spoke on "The Conservation of Wild Life in War Time from the Standpoint of the Agricultural College."

'92 ME, '93 MME; '93 BS—Arthur H. Timmerman and Frank N. Jewett are with the Wagner Electric Manufacturing Company, of St. Louis. Timmerman is chief engineer and Jewett is chief salesman. They live at 6400 Plymouth Avenue.

'95 BS—John V. E. Turin is assistant to the president of the Equitable Life Assurance Society of the United States, 120 Broadway, New York. He resides at The Turin, 331-333 Central Park, West, New York.

'96 PhB—Dr. Fayette E. Moyer, of the DeWitt Clinton High School, New York, has been appointed a member of the committee from the Association of History Teachers of the Middle States and Maryland which has been instituted to cooperate with the National Board for Historical Service.

'97—Captain Harry O. Austin, Engineer R. C., is attached to the 32d Engineers, Camp Grant, Rockford, Ill.

'97 ME—Major William H. Wardwell, Engineer R. C., has been assigned to Washington, D. C., for duty.

'90 AB, '03 MD—First Lieut. Floyd R. Wright is contract surgeon at Camp Upton, his assignment involving special work on the lungs.

'98 BSA—Professor William C. Baker, of the Department of Drawing, College of Agriculture, is giving an exhibition of

oil paintings at the University Club, which will continue until March 11.

'99 ME—John Beaver White is a member of the War Trade Board, as representative of the Food Administrator.

'99 BSA, '01 FE—Professor Walter Mulford, of the University of California, is a member of the War Committee of the Society of American Foresters.

'00 ME—John V. McAdam has been promoted from captain to major in the Ordnance Reserve Corps, and is now Chief Ordnance Officer with the American Expeditionary Forces.

'01 BSA, '04 AM—On January 18 Professor Arthur G. Ruggles was appointed station entomologist at the University of Minnesota; this position carries with it the office of state entomologist. He will begin his work with the beginning of the next academic year.

'01 AB—Alexander N. Slocum is sales manager with the H. W. Johns-Manville Company, Pittsburgh, Pa. His third son, Richard Clark Slocum, was born last November.

'02 BArch, '04 MArch—J. André Smith, of New York City, is one of eight American artists chosen by the Government to go to France on the job of picturing the war for historical record and public information. He has received a commission as captain in the Engineer Reserve Corps. He is the first of the "art squad" to leave for "over there." General Pershing recently cabled to the War Department for four official artists for special service, and a committee was appointed to make recommendations. The committee was headed by Charles Dana Gibson and consisted mostly of National Academicians. It has recommended eight artists, putting André Smith's name at the head of the list. Captain Smith has made a reputation as an etcher. When he received his present assignment to France he was a first lieutenant in the Engineer Reserve Corps, and was attached to the camouflage division. He had received a commission after attending the officers' training camp at Plattsburg. The other artists recommended are First Lieutenant Walter J. Enright, illustrator, now in the Signal Reserve Corps; Harvey Dunn, painter, Chicago; George Wright, illustrator, New York; William J. Aylward, painter, New York; Harry Townsend, painter, New York; Wallace Morgan, illustrator, New York, and Ernest C. Peixotto, painter, San Francisco.

'02 CE—Shirley C. Hulse is superintendent of the Jarrett-Chambers Com-

pany, Division C, Hog Island, Philadelphia, Pa.

'03 BArch, '08 MArch—Herbert P. Atherton is employed in the Board of Public Works at the Hampton Roads Naval Operating Base. His address is 514 Yarmouth Street, Norfolk, Va.

'03 ME—First Lieut. Stuart Hazlewood has been appointed sub-depot officer in the 424th Depot Detachment.

'05 ME—Captain Andrew J. Lowndes, Q.M.C., N.A., is on active duty with the American Expeditionary Forces, as superintending engineer of transports.

'07 ME—Captain Arthur Knapp is assigned for duty to the 36th Engineers.

'07 AB—A daughter, Elizabeth Laura, was born to Mr. and Mrs. George F. (Count) Rogalsky, of Ithaca, on Washington's Birthday.

'08 ME, '13 AM, '14 PhD—Dr. Edwin G. Boring, of the Department of Psychology, has been granted a leave of absence, and is taking a two months' training course at Camp Greenleaf, Fort Oglethorpe, Ga., at the completion of which he will receive a commission as captain in the Sanitary Corps.

'08 AB, '12 PhD; '10 AB—R. P. Anderson is still with the United National Gas Company at Oil City. The note in THE ALUMNI NEWS of February 14 reporting that he had been made captain of ordnance was in error. A daughter, Katherine, was born on February 9 to Mr. and Mrs. Anderson at Oil City. Mrs. Anderson was Katherine Miller '10.

'09 AB—Professor Martha Van Rensselaer of the Department of Home Economics in the College of Agriculture has been appointed director of the Division of Home Conservation, one of the sixteen divisions in which the Federal Food Administration is organized. Under leave of absence, she will devote her entire time to the work of her division, entering upon her duties at Washington early in March. Her courses at the University will be carried on by Professor Flora Rose. Miss Van Rensselaer is specially qualified for this service to the Administration. To her administrative experience in organizing and directing the Department of Home Economics and in conducting extension courses which have given her a wide knowledge of domestic conditions, she has added more direct experience in carrying forward the work of organized conservation through the State since the declaration of war. Her new duties call for similar supervision throughout the country.

'09 CE—Charles F. Seifried received a

commission as first lieutenant in the Engineer Reserve Corps on September 22, and is now in Company 8, Engineer Officers' Training Camp, Camp Lee, Va.

'09 ME—Lieutenant Roger S. Findley was married on February 5 to Miss Helen Barnett Pitcairn at the John Paul Jones Memorial Temple, Annapolis, Md. Lieutenant Findley is assigned to the U.S.S. Georgia.

'09 ME—First Lieut. Richard E. Bishop, Ordnance R. C., is assigned to the Procurement Division, Miscellaneous Branch, Washington, D. C.

'09 ME—*The Electric Railway Journal* for February 9 included the following: "Robert W. Tassie, who has been assistant electrical engineer of the Havana Electric, Light and Power Co., Havana, Cuba, has been promoted to the position

of electrical engineer, succeeding C. S. Sanderson. In his new position Mr. Tassie has charge of the electrical and commercial engineering work of the company."

'10 CE—Captain Glenn B. Woodruff is assigned to the 32d Engineers, Camp Grant, Ill.

'10 CE—First Lieut. Allan L. Trimpi is on duty with the 104th Engineers, Camp McClellan, Anniston, Ala.

'10 ME—Blaine B. Ramey was married in September, 1917, to Miss Eva Cribbs of Butler, Pa. Mr. and Mrs. Ramey are at home at 3258 Dawson Street, Pittsburgh, Pa.

'10 ME—First Lieut. Russell B. Hurlburt, Ordnance R. C., has been assigned to the Northwestern Ordnance Company, Madison, Wis., as an inspector.

DON'T GET THE IDEA

from another advertisement in this issue that I have given up the Haberdashery and Shirt business.

One I do for the fun of it, the other for my bread and butter. I spent forty minutes impersonating "Uncle Samuel" in The Eagle's Eye, and I spend eight hours each day grinding out shirts.

The Spring stock is now in. Send to-day for samples and I will mail you the handsomest line I ever had. Every color guaranteed. Every shirt a fit. Our prices have advanced only 25 cents the shirt and I am making them better than ever.

I have thousands of measures on file and if I do not happen to have yours, I will enclose an Easy Measuring Blank and guarantee a fit. Shirts delivered at your door express prepaid.

Send postal to-day for samples.

(Don't fail to see The Eagle's Eye. It's the greatest motion picture of its kind ever produced.)

'10—Captain John P. Swift has been transferred from Camp Funston, Kansas, to the School of Fire, Fort Sill, Okla. He is in Class 6.

'11 BSA—Waldemar H. Fries has been commissioned a first lieutenant in the Aviation Section, Signal Reserve Corps, and is assigned to the aviation camp at Fort Sill, Okla. He is at present acting as pilot for artillery observers under training.

'11 AB, '12 BS—Captain Jay D. B. Lattin is with the 7th Machine Gun Battalion, 3d Division, Camp Greene, N. C.

'11 BChem—Harry Eastwood has been promoted from engineer of tests to chief engineer, in the Ordnance Department, and assigned to the Milton Manufacturing Company, Milton, Pa.

'11—Bert L. Sivyer was married on January 22 to Miss Eleanor Shank of Spokane, Wash.

'11 BArch—Edward L. Bullock, jr., has received a commission as second lieutenant in the construction division of the U. S. Air Service, and is at present on duty at Dorr Field, Arcadia, Fla.

'11 AB—Charles C. Marshall was graduated from the U. S. Army School of Military Aeronautics at Princeton University on February 16, and is now at Camp Dick, Dallas, Texas.

'11—Captain Leeland M. Uhl is with the 342d Field Artillery, Camp Funston, Kansas.

'11 LLB—Lawrence M. Mintz, of the 108th U. S. Infantry, has recently been promoted from corporal to sergeant. He is stationed at Camp Wadsworth, Spartanburg, S. C.

'12 CE—First Lieut. Hugh A. Powell, Engineer R. C., was married on November 8, 1917, to Miss Nina Nicholson, daughter of Mr. Maury Nicholson of Birmingham, Ala. Joe B. Chaffe, jr., '12, of Anniston, Ala., was one of the attendants. Lieutenant Powell is assigned to the Nitrate Division of the Ordnance Department, as inspector of transmission lines being built in connection with the Government nitrate plant at Muscle Shoals, with headquarters in Birmingham, Ala. His address is 1101 Twelfth Avenue, South.

'12—C. W. Floyd Coffin is with the V. P. Franklin Railway Supply Company, Inc., 30 Church Street, New York. He resides at Englewood, N. J.

'12 BArch—Paul Weigel is engaged in designing aviation hangars and army buildings for the U. S. Army. His ad-

dress is Balboa Heights, Panama, Canal Zone.

'12 ME—Calvin E. Davis has been appointed a second lieutenant in the Aviation Section, Signal Reserve Corps. His orders were to report to the commanding officer, School of Military Aeronautics, Massachusetts Institute of Technology, Cambridge, Mass., for training in aviation engineering.

'13 CE—Russell D. Welsh is office engineer with the Valier, Montana, Land & Water Co. His address is P. O. Box 375.

'13 ME—First Lieut. Percival S. Goan, F.A.R.C., is with the American Expeditionary Forces, unassigned.

'13—Announcement has been made of the engagement of Miss Ruth Wood Slavens, of New York, to Ensign Samuel H. Packer, of the U.S.N.R.F.

'13 ME—First Lieut. Donald K. Champaign, Ordnance R. C., is assigned to Washington for duty.

'13 ME—Percy G. McVetty has been an instructor in the engine laboratory of the U. S. Army School of Military Aeronautics at Cornell since the opening of the school last June. He has recently received a commission as first lieutenant in the Aviation Section, Signal Reserve Corps, and is awaiting orders.

'13 ME—Harold G. Weidenthal is with the General Steel Company, Milwaukee, Wis.

'13 ME—Marshall De Angelis has been appointed a second lieutenant in the Ordnance Reserve Corps, and assigned to Washington, D. C.

'14—Ovid E. Roberts, jr., has been commissioned a first lieutenant in the Sanitary Corps, U. S. Army. He is Divisional Gas Officer of the 27th Division, Camp Wadsworth, Spartanburg, S. C.

'14 BS—Yervant H. Maxudian, president of the Maxudian Phonograph Company of Ithaca, has enlisted in the land division of the Signal Corps, and left on February 25 for Fort Leavenworth.

'14 BS—Alexander Lurie is horticulturist in the Missouri Botanical Garden, St. Louis, in charge of the School of Gardening, and all outdoor collections. He has a daughter, Phyllis, two and one-half years old.

'14 AB—H. Vernon Davis received a commission as second lieutenant, at Fort Niagara, and is now attached to Company L, 359th Infantry, Camp Travis, Texas. He was married on December 11 to Miss Nettie Craswell of Sheridan, N. Y.

'14 CE—William H. Hanchett is assistant engineer with the Nashville, Chattanooga & St. Louis Railway, stationed at Nashville, Tenn.

'15 DVM—Second Lieut. Alfred T. Baeszler, Veterinary R. C., has been assigned to Field Hospital No. 310, Camp Dix, N. J.

'15 LLB—Captain A. Edward Krieger, Infantry, U.S.R., was married on December 8, 1917, to Miss Myrtle Grace Miller of Salamanca, N. Y. He is now in the First Company, R.O.T.C., Fort Oglethorpe, Ga., and has been an instructor at the second and third training camps.

'15 CE—William D. Clark is employed by the H. Koppers Company, Indian Head, Pa., as chief of party on construction for the development of coal lands.

'15 ME—William C. Andrae is engaged in war work with the Bureau of Standards, Washington, D. C.

'15 CE—George M. Heinitsch completed his course in the Ground School of Aviation at Princeton, N. J., on February 16, and is now in Squadron 13, Camp Dick, Dallas, Texas.

'15 AB—Ralph C. Smith is assistant to the plant engineer of the Hydraulic Pressed Steel Company, of Cleveland, Ohio. His address is 9818 Marietta Avenue.

'16 BS—Newton C. Rogers is a cadet in the Aviation Section, Signal Enlisted Reserve Corps. His address is U. S. Air Service, American Expeditionary Forces.

'16 ME—Second Lieut. Harold T. Sutcliffe, Engineer R. C., is in Company B, 318th Engineers, Vancouver Barracks, Wash.

'16 ME—Lieutenant Robert K. Livingston, Engineer R. C., is on duty with the 101st Engineers, American Expeditionary Forces.

'17 BS—Ensign William S. Vanderbilt, jr., U.S.N.R.F., has been transferred to the Naval Training Camp, Pelham Bay Park, New York.

'17 BS—J. Leland Edwards is with the 186th Aero Squadron in France.

'17 CE—Harold G. Miller has been commissioned a second lieutenant in the Signal Officers' Reserve Corps, and ordered to report to the district manager of inspection, Dayton, Ohio.

'17 CE—Ellsworth L. Filby is in Red Cross Sanitary Unit No. 25, City Hall, Augusta, Ga.

'17 CE—Henry H. Bätjer and Robert D. Ingalls have been commissioned sec-
