Vol. XXII, No. 24

Ithaca, N. Y., March 11, 1920

Price 12 Cents

WOMEN in medicine, under a recent ruling of the Trustees, may hereafter take the first year's work at the Medical College in New York. Hitherto women have been required to spend their first year of professional medical study at the college in Ithaca. The change was made on the recommendation of the medical Faculty.

SIGMA DELTA CHI, the fraternity for journalists, announces the election of several new members: R. Warren Sailor '07, managing editor of the *ALUMNI NEWS*; Harry G. Stutz '07, editor of *The Ithaca Journal-News* and a member of the *ALUMNI NEWS* Board; Henry F. Pringle '20, of the staff of the *Journal-News*; Elbert Parr Tuttle '18, of the publicity service of the Cornell Endowment Fund; William C. Murray '21, associate editor of *The Widow*; and Eugene B. Sullivan '19, former business manager of *The Cornell Countryman*. This fraternity is a national organization, of which the Cornell chapter was formed near the close of last year. The names of the charter members may be found in our issue of December 18.

THE CORNELL RIFLE TEAM in a dual match with Harvard on the evening of March 2 was defeated by a score of 974 to 878. The five highest scores made by the eight marksmen on each side were counted in determining the final record. Each team shot in its own indoor range, the results being exchanged by telegraph. It is expected that the two colleges will shoot in an outdoor match during the spring months.

COLGATE and Cornell met in debate at Hamilton on Friday, March 5. The Cornell team, comprising two seniors, W. N. Farnham and Peter A. Schultz, both of Buffalo, N. Y., and one junior, Francis D. Wallace, of Geneva, N. Y., had the affirmative of the proposition: "Resolved, That the United States should intervene in Mexico in order to establish a stable government." Decision was rendered in favor of Colgate.

THE CORNELL FLYING CLUB has selected the pilots who will direct airplanes in the Intercollegiate Air Derby early in May. The four men chosen are First Lieutenant Paul C. Wanser '20, Tarrytown, N. Y., and Second Lieutenants George A. Benton, jr., '20,

Spencerport, N. Y.; Leslie N. Duryea '22, Auburn, N. Y.; and Harold A. Jewett '21, Fredonia, N. Y. Duryea is registered in Sibley College, the others in Arts and Sciences. All have seen active service in France and are therefore well qualified for flying as a cross-country sport. Should any of these men become incapacitated, alternates who are also experienced aviators have been named to take their places. The entrance of Cornell and Syracuse into the Intercollegiate Flying Association may lead to such a modification of plans that Ithaca will be included in the course. These matters will be definitely settled at a meeting in New York on March 12.

WALTER G. KRUM has resigned his position in the Department of Poultry Husbandry and on April 1 will take charge of a country estate at Mount Kisco, Westchester Co., N. Y. Mr. Krum has been on the staff of the College of Agriculture since 1912, first as assistant and since 1916 as instructor.

PROFESSOR JAMES T. QUARLES, University organist, on February 26 dedicated a new organ at Colgate University.

AN OFFICERS' CLUB is in process of formation among the commissioned men in the R. O. T. C. A temporary organization will be made permanent at an early meeting, when a committee on constitution will report. With the growth of the Military Department there is room for such a society. Before the war there was at Cornell a flourishing chapter, Company C, of Scabbard and Blade. Whether this chapter is now to be revived, with possible modifications befitting a new era, or the proposed club is to be *ab ovo* wholly independent is yet to be determined.

THE REV. MARTIN D. HARDIN, of Chicago, has accepted a call to the Ithaca Presbyterian Church, entering upon his work here sometime this month. The Presbyterian pulpit has been vacant since the resignation of Dr. John A. MacIntosh last July. Dr. Hardin is a son of Parker Watkins Hardin, former governor of Tennessee. He has studied at Center College, Kentucky, and in Edinburgh, Scotland; and is a graduate of the Auburn Theological Seminary; his D. D. was conferred by Davidson

College, North Carolina. He has held charges in Philadelphia, Minneapolis, Charlotte, N. C., and Chicago, and served with the Red Cross in France. Mrs. Hardin is a daughter of Adlai E. Stevenson, Vice-President under Cleveland. Two sons are now students in Princeton.

CONTRIBUTIONS to the Jewish Relief Fund have been asked of the University community during the past three weeks. The amount sought is \$1,000; this sum being in addition to \$1,700 already subscribed in Ithaca. Several fraternities have given to this cause; and the proceeds of a dance recently held at a chapter house went the fund. The campaign is directed by Professor John H. Tanner '91, of the Department of Mathematics, and Professor Samuel A. Goldberg '14, of the Veterinary College.

THE DEPARTMENT OF FORESTRY has made a change in the time of its camp in the woods. Hitherto placed in the autumn of the senior year, the camp will hereafter come in the summer following the freshman year. The forestry camp, like the field trip in civil engineering, is required of all students in the department. The change in time means that practical experience in the forest will now precede the greater part of the more largely theoretical course at the University. Further practice is had each year by work with a lumber company or with the United States Forest Service.

THE LATEST DEVELOPMENT of the fraternity system is seen in the formation of what is described as an honorary fraternity among students interested in salesmanship. A chapter is now in process of organization at Cornell, one of forty or fifty that are getting under way at various colleges. Unlike the fraternity proper, this new society, apparently not yet named, has its distinct commercial connections. It was inspired, at least largely promoted, by business firms that employ students during the summer. Ability as a salesman is the primary qualification for membership: a member must have earned at least a thousand dollars by this means during the long vacation. Like the fraternity, however, it proposes to be secret and to have its badge, in the form of a key.

The Endowment Campaign

City of Ithaca Subscribes \$113,000—
Second City in State of New York

At a campaign luncheon Friday, March 5, at the Dutch Kitchen, the Ithaca Committee announced that they had raised \$113,250 in the first ten days of their intensive campaign. L. P. Smith, president of the Ithaca Board of Commerce and chairman of the local citizens' committee, presided at the luncheon and spoke of the great benefit of Cornell to Ithaca. He said that Ithaca merchants, realizing what the University means to the city, had raised over \$40,000 among themselves in three hours after the matter was presented to them. The local members of the University Board of Trustees contributed \$61,700 of the total, and residents of the city and members of the University Faculty subscribed the rest.

Professor Samuel P. Orth spoke of the cordial relations which existed between the University community and the townsfolk, saying that he knew of no University in the country where the relations between "town and gown" were better than at Ithaca. The total announced by the local committee places Ithaca second in the New York State list and eighth on the national honor roll.

A letter recently received at headquarters from a member of the Faculty shows that, although many of the professors are unable to make financial contributions to the Endowment Fund, they are making use of every opportunity to help Cornell in any possible way. This particular professor is in a department that might be called a "dead" subject by some people, but wishes like many scientific men, to make his particular department of scientific research a permanent institution for the good of Cornell. To this end, he outlines his plan for helping—to devote the best of his life and a part of his meager income to the development of his subject, with the promise to leave his collection and his library to the University at his death. Tracts of land owned by his family have been set aside for the endowment of libraries in the various departments, thus giving permanent aid to Cornell and also making his contribution to the subject in which he is spending his life.

"For years," he says, "it has been my intention to so accumulate materials, library, and cash that these subjects may be carried on here eventually at

little expense to the general University funds. . . My motto is, let each professor try to save enough so that he may practically return all the University has ever paid him, save interest on the money while he is alive. He can then feel that he has actually given his life to higher education."

The following information, taken from the *News Sheet* of the New England Committee, shows what the Pilgrims are doing to help Cornell:

Eleven per cent of the Cornellians in that district have subscribed \$105,101, an average subscription of \$973. A comparison with the rest of the United States shows that only seven per cent of the living Cornellians the country over have subscribed so far. Forty-eight per cent of the living alumni of Harvard have subscribed to their fund, and fifty-two per cent of the alumnae of Smith College have responded to their appeal.

Returning from a two weeks' trip to Pittsburgh, Chicago, Akron, and Cincinnati in the interest of the campaign and starting out again on a six weeks' campaign tour of fourteen States, Professor Durham stopped long enough between trains in Ithaca to report that Chicago had collected \$33,852 more since the last report, making their total some \$331,000; that he found plenty of good Cornell spirit everywhere; and that a complete report of the enthusiastic Cincinnati dinner would come direct.

Professor Durham's present tour will take him through fourteen States of the middle West and Southwest, and will keep him on the road continuously until early in May. He will visit the States of Illinois, Wisconsin, Minnesota, Missouri, Indiana, Kansas, Nebraska, Colorado, Utah, Texas, Alabama, Oklahoma, and returning to the East, Pennsylvania, Ohio, and Delaware, being entertained in cities in each State at gatherings of Cornell alumni. He will leave for Chicago and Milwaukee this week.

A. H. Leavitt, former president of the Cornell Club of Akron writes, after their dinner in honor of Professor C. L. Durham that Akron may now be expected to do its full share in the Endowment Campaign. He says:

"I want to tell you that you can look for results from Akron, results of which neither Akron nor the University need be ashamed. For heaven's sake, don't let any other locality get started on this endowment campaign without sending to them some one of Professor Durham's ability and character to get them started

on the right foot. If Professor Durham had not come here and given us the message he did, all I could predict for the Endowment Fund in Akron would be dismal failure. As it is, all I can say is, 'Watch results.' Any results which come from Akron should be absolutely credited to Professor Durham, as he has been able to show us this proposition in a wonderful and emphatic manner."

At the same meeting W. S. Voris '04 was appointed chairman of the local endowment committee for the Cornell Club of Akron.

MENNEN MEMORIAL FUND

William G. Mennen '08, and his sister, Mrs. Elma Mennen Williams, of Detroit, have subscribed \$100,000 to establish the Mennen Memorial Fund in memory of their parents, Gerard and Mrs. Elma C. Mennen. According to the terms of the gift, the principal is to be eventually used for the erection of a new University dormitory named in honor of the donors' parents, but until that time the University may use the income from the gift as it may see fit. The subscription further requests that when the new dormitory is built it shall be run so that the income from it will equal that from the other invested funds of the University, and that this net income shall be used as the University sees fit. The Mennen Memorial made in this form will not only provide an additional residential hall at Cornell but it will also provide an income on \$100,000 which may be used for increasing salaries of the teaching staff or for any other urgent purpose.

DANCE FOR THE ENDOWMENT

A series of dances for the benefit of the Cornell Endowment Fund are being given by the Cornell Women's Club of Washington. The dance held on February 26 proved a success, and another will be given on April 9. All who are interested, particularly Cornell men and women, are asked to communicate with the secretary, Jean Stephenson, 2952 Newark Street, N. W., Washington, D. C. She writes that the club hopes to raise at least \$500 for the endowment and perhaps more. It is thought that there are at least 100 Cornell women in Washington, but the active membership of the club at the present time is only about 25. An attempt is being made to build up the club and arouse the interest of the Cornell women now living in Washington.

Alumni Directors Meet

Make Decisions on Convention and This Year's Reunions

The regular spring meeting of the Board of Directors of the Associate Alumni was held in Ithaca on March 6.

It was decided that the convention, which the directors at the December meeting had voted to hold in May, should not be held. It was pointed out that the effort would interfere to a great extent with the work that must be done by the alumni for the Endowment Fund, and also that hotel accommodations for a convention would be difficult to secure unless the city holding the convention were selected with that alone in view.

The annual meeting of the association was fixed for Saturday, June 19. It was recommended that classes holding reunions this year hold them on Friday and Saturday, June 18 and 19. The question of holding general reunions after the plan of the Semi-Centennial was discussed and the president was asked to appoint a committee to investigate, consider, and report at the June meeting.

Among the routine business considered, a decision was reached to issue the annual report of the association immediately after the June meeting.

The board took the opportunity to address to President Schurman a resolution of appreciation in the following terms:

"Since the last meeting of this Board, announcement has been made of the resignation of President Jacob Gould Schurman.

"Be it therefore resolved that the Board of Directors of the Associate Alumni of Cornell University record their appreciation and deep sense of indebtedness for the distinguished and devoted service which President Schurman has rendered the University during his twenty-eight years in office and that they hereby extend to him most cordial good wishes for many years of health and freedom in which to continue his useful service to the nation."

Opportunity was taken to address the Board of Trustees of the University a memorandum of characteristics desirable in the next president of the University. The memorandum is as follows:

"Recognizing that your body now has the task of selecting a successor to President Schurman, we respectfully suggest, as the sense of our Board and as we believe, the general sense of the Alumni whom we represent, that these

qualities should be sought in the man who is to be president of Cornell University:

"1. The ability to give to the entire University community the inspiration that comes from inspiring leadership, character, and example.

"2. The ability and intense desire to elevate the tone of the University.

"3. A dignified, honorable, and scholarly background.

"4. A reasonable amount of tact and social grace.

"It should be the job of the new president to make the University deserve support. To other agencies should be left the task of getting that support."

AN IMPORTANT COMMITTEE

Announcement has been made of the personnel of the Trustees' committee, described in last week's issue, which is charged with the duties of investigating the administrative needs of the University and of reporting on the qualifications of candidates for the positions suggested by their investigation.

The work of the committee will cover, not only the discovering of candidates for President of the University, but the investigation of the duties of all administrative officers. Under this latter the question of a new line-up of functions is to be included, and the need of new officers, such as the proposed Alumni Officer.

The chairman of the committee will be chosen by its members. The committee consists of the following members of the Board of Trustees: The Chairman of the Board (Judge Hiscock); Faculty Representatives Comstock, Kimball, and Wilcox; and Trustees Moody, Pound, R. H. Treman, Westervelt, J. DuP. White, and R. H. Williams.

AKRON CLUB'S MEETING

"Akron is not only going to have the reputation of building the most tires in the world, but its local Cornell organization is going to have the reputation of assisting the University in the same way we are able to produce rubber goods," writes Arthur H. Leavitt, former president of the Akron club. The annual meeting was held on Thursday evening, February 26, at the University Club of Akron, and the principal speaker was Prof. C. L. Durham, who was present at the request of the organization to speak on the present day requirements of the University. His message was most enthusiastically received.

Officers for the following year were elected as follows: president, R. Saalfeld; vice-president, E. H. Baker; treasurer, H. A. Flannery; secretary, R. U. Carr, 197 Spicer Street. The retiring officers are: president, A. H. Leavitt; vice-president, A. C. Johnson; secretary, R. C. Gulick; and treasurer, F. A. Pierce.

It was also decided to hold a regular weekly luncheon at some place to be designated at a later date.

CORNELL CHEMISTS IN BUFFALO

The following Cornell men are employed at the Buffalo works of the National Aniline and Chemical Company, Inc.: Thomas H. McKaig '11, works construction superintendent; Clarence E. Forster '15, construction department; David L. Cownie '17, appraisal department; Walter M. Ralph '13, manufacturing chemist; Irving T. Beach '17, analytical chemist; John D. Kerr '17, John B. Slimm '17, J. Bert Wilson '18, Mrs. John B. Slimm (Helen L. Waters '18), Hugh R. Johnstone '17, and Eugene J. Hasselbeck '19, research chemists.

CLEVELAND LUNCHEON HELD

Eighty-five attended the regular luncheon of the Cornell Club of Cleveland held at the Hotel Statler last week. C. N. Green '88 of the Cornell Engineering Society of New York City was present and spoke, and the singing was unusually good. The special feature was Ray's Jazz Orchestra from the Rudolph Wurlitzer Company.

The last luncheon of the season will be held on March 11, and the annual banquet will be held at the University Club on March 13. 112 tickets for the banquet had been sold last week to members of classes from 1875 to 1919.

NEW YORK WOMEN

The next meeting of the Cornell Women's Club of New York will be held on Saturday, March 13, at the Women's University Club, 106 East 52d Street, New York City, promptly at three o'clock.

The subject of "Americanization" will be presented by the following speakers: Miss Clara B. Springstead, Assistant Supervisor of Immigrant Education; Miss Frances Kellor '97, director Inter-Racial Council; and Miss Anna Husted Branch, director of Christodora House.

Miss Branch will also give a reading

from her poems. Tea will be served about half past four.

The meeting to be held on May 8 will be out of town, probably at the Hotel Gramatan, Bronxville.

The call is signed by Mabel E. Rose, corresponding secretary, 950 Marcy Avenue, Brooklyn.

NEW SECRETARY IN DETROIT

Owing to the sudden death on February 7 of William Henry Yates '06, secretary of the Cornell University Association of Michigan, Knibloe P. Royce '16 has been appointed secretary for the remainder of the year. His address is in care of the Burke Electric Company, 1904 Dime Bank Building, Detroit.

FRUNDT WINS. D. S. C.

Captain Oscar Christian Frundt '11, Medical Corps, U. S. A., has received the Distinguished Service Cross for extraordinary heroism in action while commanding a hospital train in Eastern Siberia in June, 1919. The award was given for his expeditious treatment and care of the wounded and the skillful handling of the hospital train while under fire.

Frundt is a son of Mr. and Mrs. Henry Frundt, of Jersey City, and is a graduate of the Medical College, class of 1911.

A MEETING OF EDUCATORS

At the semi-centennial meeting of the Department of Superintendence of the National Education Association held in Cleveland on February 23-28 the following Cornellians were scheduled to take part: President Alexander Meiklejohn, Ph.D. '98, of Amherst, was to speak on "The Integrity of a Liberal College Course." Professor William C. Bagley, Ph.D. '00, of Teachers College, was to discuss "The Relation of the Federal Government to Education." Dean William F. Russell '11 was to present the report of the committee on education in state universities. The University was represented by Professors Robert M. Ogden '01 and George A. Works.

ROYCE WINS CROIX DE GUERRE

Frank G. Royce '19 has received the Croix de Guerre, with star, with the following citation:

"Private, first class, Royce, Frank G., of S. S. U. No. 637. Enlisted as a volunteer from the beginning, has always

GILMORE DOBIE—FOOTBALL COACH

The new football coach has had a remarkably successful record for the past decade, winning every game in his twelve years of college coaching, and ending the Naval Academy's string of defeats by beating West Point. If Dobie's luck does not change, Cornell's will.

shown himself a model of coolness, endurance, and willingness. During the operations from the 18th to the 24th of July, 1918, attended without rest to the evacuation of French and American wounded under particularly dangerous conditions. Was exposed the 29th of July to a violent bombardment by gas and high explosive shell. PETAIN."

Royce left college in the spring of 1917, to join S. S. U. 19, which was organized by Edward I. Tinkham '16, and which later became S. S. U. 637. He received his discharge in France on April 2, 1919, and returned to this country in May. He is now attending the Wharton School, University of Pennsylvania.

He is a son of Mrs. Bertha L. Royce, of Fulton, N. Y., and a brother of Knibloe P. Royce '16, of Detroit. is a member of Delta Chi.

THE LEHIGH VALLEY RAILROAD on Monday added to its Ithaca staff as traveling passenger agent Frank H. Wingert. Wingert, known to Cornellians from 1899 to 1916 as Frank Lehigh, returns to his former position after three years' absence. During this time he was purchasing agent for the Peninsular Portland Cement Company of Jackson, Michigan, of which John L. Senior '01 is president. Wingert was

in poor health in 1919, and returned to the employ of the Lehigh in the freight department in North Tonawanda. He was assistant treasurer of the ALUMNI NEWS while he was in Jackson.

McCOURT DEAN OF ENGINEERING

Prof. Walter Edward McCourt '05, head of the department of geology of Washington University, has been appointed dean of the schools of Engineering and Architecture of the institution. He will assume the duties of his new position at once.

The appointment was made to fill the vacancy caused by the resignation of Alexander Suss Langsdorf.

Professor McCourt was a graduate student here in 1904-6 and proceeded A. M. in 1905. He was an assistant in economic geology in 1903-4 and an instructor in practical geology and mineralogy in 1905-6. He went to Washington University in 1906 to take charge of the department of geology and has remained there ever since.

Dean McCourt is chairman of the Faculty Committee on Athletics at Washington University and president of the Student-Faculty-Alumni Athletic Council. He has frequently represented the local university at various athletic meetings of the Missouri Valley Conference.

He is a member of the American Institute of Mining and Metallurgical Engineers, being secretary and one of the founders of the local chapter. He is also a member of Sigma Xi. He has served with the New York State Museum and the New Jersey and Missouri Geologic Surveys, and has compiled and written a number of scientific reports.

He is thirty-six years old and resides at 6060 Pershing Avenue, St. Louis. In 1908 he married Miss Edna Wahlert, a graduate of Washington in the senior class of that year.

THE SPRING PROGRAM of the Field Artillery, as outlined by Captain Christian, includes, besides the routine drills, extensive practice with the guns and some long marches in which the battery will be away over night. New men and those who have had work in the artillery through one term will form a division by themselves. Those having more ample experience will divide their time between mounted draft work and instruction in motors and equipment. During the winter all the motors in the department have been overhauled and some new machines added.

Vocation Conference

Intercollegiate Meeting Held at Cornell—Noted Speakers Give Addresses

The fourth Intercollegiate Conference on Vocations for Women was held at Cornell on March 5 and 6, and included morning, afternoon, and evening sessions at which addresses were made by men and women of acknowledged leadership in the fields which they represent. The meetings were well attended by Cornell women, and the delegates from other universities, colleges, and schools numbered about thirty-five, representing some twenty institutions.

Among the principal speakers were Dr. John M. Brewer, director of the Vocation Bureau of Harvard University, who urged the need for vocational guidance in colleges; Prof. A. W. Browne, Ph.D. '03, of Cornell, who spoke on industrial chemistry; Miss Frances Perkins, of the New York State Industrial Commission, whose subject was industrial research; Miss Flora Rose, of Cornell, who told of opportunities in household economics; Mrs. Edith Shatto King, of the National Social Service Workers' Exchange, who spoke of the need for well trained social workers with the scientific point of view; Miss Margaret S. Gray, editor of the women's section of *The Philadelphia North American*, who spoke on newspaper work; Mrs. Arthur L. Livermore, of the Women's Republican Committee of New York City, who urged the need for social and civic service by women through the field of politics; Miss Clara Porter, of the Bond Department of the Guaranty Trust Company of New York City, who told of opportunities in that field; Miss Betsy Campbell, of the educational department of Halle Bros., Cleveland, Ohio, who told of the need for such work in large department stores; Miss Mildred Nason, whose subject was "Psychiatric Social Work"; Mrs. Lois Peirce Hughes, social hostess of the McAlpin Hotel, New York City; Dr. J. I. Wyer, jr., director of the State Library School at Albany; and others.

Addresses of welcome were delivered by Prof. W. A. Hammond, Dr. Georgia White, adviser of women, and Catherine Filene, of the Intercollegiate Vocational Guidance Association.

The meetings were held in Risley Recreation Room with the exception of the Friday evening session, which was held in Barnes Hall. The delegates were entertained at luncheon and at

dinner on Friday, on Saturday Dr. White acted as hostess at luncheon, and a tea was given at Sage in the afternoon, members of the Women's Self-Government Association acting as hostesses.

Presiding officers at the meetings were Regene R. Freund '20, chairman of the Vocational Guidance Committee, and Mary H. Donlon '20, president of the Women's Self-Government Association.

There was also an exhibition of vocational books, pamphlets, etc., at the registration booth in Risley Hall.

There is no vocational secretary at Cornell but all vocational work is done by an undergraduate committee, working in close connection with the Adviser of Women. The committee is without authority to recommend specific courses to be taken to fit the undergraduate for her chosen vocation, but it tries through talks, etc., to emphasize the advisability of correlation of University courses with a chosen vocation. For the student who comes without a definite idea of the work for which she wishes to fit herself, the committee has arranged a shelf at the Library containing books and pamphlets regarding numerous vocations open to women. During the year, under the auspices of the committee, vocational speakers of note are brought to Ithaca for addresses and individual conferences.

Another phase of the work done by this committee has to do with attempts to put seniors in touch with congenial work. Qualifications and preferences are filed and catalogued and through alumnae organizations prospective employers are frequently placed in communication with seniors, eliminating time of unemployment after leaving college.

STATIONS AFFILIATE

The State College of Agriculture at Ithaca and the State Agricultural Experiment Station at Geneva, always hitherto working together harmoniously, have now become more formally affiliated, to the resulting advantage of both. Each will retain its separate organization and carry on its own appropriate work; in addition provision is made for somewhat closer correlation, for ready exchange of all facilities of research and experimentation, and for more frequent conferences. To these ends the Trustees of the University have appointed to the staff of the college eight persons on the staff of the station at Geneva:

Whitman H. Jordan, director; R. J. Anderson, chemist; Robert S. Breed, bacteriologist; R. C. Collinson, chemist; U. P. Hendrick, horticulturist; Percival J. Parrott '06, entomologist; Fred C. Stewart '98, botanist; and L. L. Van Slyke, specialist in fertilizers. And reciprocally the Board of Control has appointed to the Geneva staff six members of the Agricultural Faculty: Professors Chandler, Emerson, Herriek, Lyon, Reddick, and Stocking.

This closer relationship promises benefits not only to the college, particularly in enlarging the regular opportunities of graduate students and investigators, but also to the farming interests of the State, to whom the combined efforts and results are valuable. The affiliation, thus bringing a mutual extension of privileges, is characterized by the authorities as a gain to both institutions without cost or loss to either.

THE SUGGESTION, said to have been made by "influential Republicans in various parts of the State," that President Schurman become a candidate for the United States Senate turns out to have been political gossip and nothing more. *The New York Times* for February 27 said: "Foes of United States Senator James W. Wadsworth, jr., who are planning an active campaign to defeat him for renomination, were reported yesterday to have agreed upon Jacob Gould Schurman, who recently resigned as president of Cornell University, as their candidate. Whether Mr. Schurman will consent to make the race against Senator Wadsworth could not be learned." On the following day President Schurman issued a statement denying his candidacy. "I am not a candidate for any office," he said, "and I will not run against Senator Wadsworth." He added that, although he had opposed Senator Wadsworth on the suffrage question, he believed that in reality the suffrage fight had already been won.

FIVE NEW MEMBERS of the Student Council were elected on Friday to fill vacancies due to graduation and other causes. Three seniors, K. A. Mayer, H. R. Ashton, and H. H. Straus, and two juniors, J. L. Dickinson, jr., and S. Vermilye were chosen. A president, who is *ex-officio* president of the senior class, remains to be elected from the members of the council to succeed F. T. Shiverick '18, who graduated in February.

OBITUARY

David S. Pratt '08

David Shepard Pratt, recently assistant director of the Mellon Institute of Industrial Research at the University of Pittsburgh, died in St. Louis on January 28 of pneumonia. At the time of his death he was arranging to enter consulting chemical practice.

Pratt was born in Towanda, Pa., on September 20, 1885, the son of Charles Manville and Louis Hale Woodford Pratt. In college he became a member of Phi Kappa Sigma and Sigma Xi, and later joined Alpha Chi Sigma and Phi Lambda Upsilon. He was a fellow in chemistry here in 1909-11 and received his Ph.D. degree in 1911. He then went into the Bureau of Chemistry, Washington, as assistant chemist, leaving shortly to become chief of the Organic Division of the Bureau of Science in Manila, P. I., where he spent three years in chemical research and as a member of the Pure Food and Drug Board. Returning to America in 1914 he served until 1917 as professor of organic chemistry in the University of Pittsburgh, being also head of the department. Then he went to the Mellon Institute, from which he resigned on January 1 last.

He was known principally for his investigations on phthalic acid derivatives, but was also an authority on chemistry in the Philippines. He was a member of the American Chemical Society.

He is survived by his wife, formerly Fredonia Elizabeth Johnson, and by an infant son, David S., jr.

Frederick C. Torrance '11

Frederick Calkins Torrance died of pneumonia on February 15, at his residence, 143 South Laurel Street, Hazelton, Pa.

Torrance was born on February 13, 1888, the son of Mr. and Mrs. S. C. Torrance, of Ithaca. He studied at the Geneva, N. Y., High School, and the Ithaca High School, and entered Sibley College in 1907, receiving his degree in 1911. In his senior year he was president of the Sibley Engineering Club.

For a year following his graduation he was with the Tennessee Copper Company, Copper Hill, Tenn.; then he entered the steam engineering department of the Lackawanna Steel Company, of Buffalo, leaving this position in the the mechanical engineering department

of the University of Illinois. In 1915 he returned to the Lackawanna Steel Company as assistant to the steam engineer. In the spring of 1917 he became engineer of the River plant of the Buffalo General Electric Company; the following year he was employed in the engineering department of the Vulcan Soot Cleaner Company, of Du Bois, Pa.; and at the time of his death, he was efficiency engineer with the Harwood Electric Company, of Hazelton, Pa.

He was married on November 27, 1913, to Miss Mary A. Travis, of Buffalo, who survives him.

Gladys E. Smith '16

Miss Gladys Elizabeth Smith, an instructor in dietetics and research work in the Department of Home Economics, died on February 13 'at her parents' home in Ithaca, after a week's illness with bronchial pneumonia.

Miss Smith was born on January 28, 1893, and was the only child of Mr. and Mrs. Simon P. Smith, of Ithaca. She prepared at the Ithaca High School, and entered the College of Agriculture in 1912, receiving the degree of B. S. in 1916. She was a member of Wayside Aftermath, Alpha Tau Alpha, and Frigga Fylgae.

For two years after her graduation, she was an instructor in the Normal School at Farmington, Maine; then she was called to Ithaca to instruct in the Department of Home Economics. Leave of absence was granted her last term, to obtain her master's degree at Columbia; she returned to Ithaca early in February and was preparing to resume her duties in the College of Agriculture, when she was stricken with the illness which caused her death.

Martha H. McNitt '23

Miss Martha H. McNitt, a freshman in the College of Agriculture, died of pneumonia at the Cornell Infirmary on February 11, after a week's illness.

She was a daughter of Mr. and Mrs. E. S. McNitt, of Pulaski, N. Y., and a sister of Robert L. McNitt '20.

673d ORGAN RECITAL

Bailey Hall, Thursday, March 11

Professor JAMES T. QUARLES, Organist
Concert Overture in E flat-----*Faulkes*
In the Morning, from "Peer Gynt
Suite" ----- *Grieg*
Chorale in B minor----- *Frank*
Dreams ----- *Wagner*
Blanik, Symphonic Poem----- *Smetana*

ATHLETICS

Wrestling Team Defeats Columbia

The Cornell wrestling team easily defeated Columbia in a dual match in the Drill Hall Saturday night winning by the score of 25 to 8. The Cornell team won five out of seven matches and all of them were falls. Columbia's two victories were decisions.

One of the features was the match between Paul Miller of Cornell and Fargo of Columbia in the heavyweight class. It was the veteran football guard's first appearance in a wrestling match and he opposed sheer strength and power against strength plus skill. For nine minutes Miller fought off the powerful and more skilful Columbian. In the first extra period neither man could gain an advantage. In the second period of three minutes the judges decided that for one minute Fargo had had the advantage and awarded him the match. The summary:

115-pound: Mackey, Cornell, threw Harner, Columbia, 6 min. 3 seconds.

125-pound: Ackerly, Cornell, threw Molinus, Columbia, 7.14.

135-pound: Conroy, Cornell, threw Leinhardt, Columbia, 3.03.

145-pound: Kirkland, Columbia, defeated Maier, Cornell, on decision, 9 min.

158-pound: McBride, Cornell, threw Barrish, Columbia, 5.05.

175-pound: Beam, Cornell, threw Barrish, Columbia, 6.33.

Heavyweight: Fargo, Columbia, defeated Miller, Cornell, on decision, 15 min.

Basketball Team Loses to Penn

The basketball team was defeated by Pennsylvania by the score of 20 to 15 last Friday night, but only after a great battle. The team put up the best game it had played this year. It actually played "over its head." For half of the game there was nothing to choose between the two teams. Indeed the first half ended with the score 11 to 10 in Cornell's favor. It was not until the second period that superior defensive and smoother team play gave the Quakers the advantage which yielded them a five-point margin and victory.

Penn took the lead in the first half when Sweeney threw two foul goals and Graves shot the first field basket. Porter then threw two foul goals and after a foul and another basket by Graves gave the Quakers a short lead, Cornell's

right forward caged the first basket for the home team. A spectacular shot by Spader, another difficult shot by Molinet, and Porter's final toss in the last minute put Cornell one point ahead when time was called.

In the second half the Cornell forwards found it impossible to break through Penn's defense, all of the four points scored in this period being made by Porter on foul tries. Penn here showed greater skill and a stronger attack and rolled up 15 points in this period, living up to its reputation as having the best college basketball team on the floor this winter. The summary:

Penn (20)	Cornell (15)
Rosenast -----l.f.-----	Porter
Sweeney -----r.f.-----	Molinet, Capt.
Graves -----c.-----	Rippe
McNichol -----l.g.-----	Sidman
Peck -----r.g.-----	Spader

Field Goals: Penn, Graves 3, McNichol 2, Peck, Rosenast; Cornell, Porter 2, Molinet, Sidman.

Foul Goals: Penn, Sweeney, 6 out of 7; Cornell, Porter, 7 out of 8.

Substitutions: Zucker for Rosenast. Referee: Tom Thorpe, Columbia. Umpire: Metzdorff, of Rochester.

Lacrosse Schedule

Following is the lacrosse schedule for the season:

April 1—U. S. Naval Academy at Annapolis, Md.

April 2—Maryland State College at College Park, Md.

April 3—Johns Hopkins University at Baltimore, Md.

April 5—Swarthmore College at Swarthmore, Pa.

April 24—Hobart College at Geneva.

May 1—Penn at Ithaca.

May 3—Harvard University at Ithaca.

May 7—Yale University at Ithaca.

May 14—Hobart College at Ithaca.

May 21—Syracuse at Ithaca.

May 29—Crescent A. C. at Bay Ridge, N. J.

May 31—Crescent A. C. at Bay Ridge, N. J.

INTERCOLLEGIATE NOTES

ACCORDING to a writer in the January number of *The Vanderbilt Alumnus*, fifty colleges and universities are conducting campaigns for sums that amount to approximately \$150,000,000. This does not represent the total effort of this sort; only a few representative institutions are here included. The list appended is as follows: \$25,000,000,

Northwestern; \$16,000,000, Pittsburgh; \$15,250,000, Harvard; \$14,325,000, Princeton; \$10,000,000, Boston, Cornell; \$8,000,000, Massachusetts Institute of Technology; \$5,285,000, Oberlin; \$5,000,000, Association of Wisconsin Colleges (nine); \$4,000,000, Smith; \$3,000,000, Brown, Mt. Holyoke, Wesleyan; \$2,000,000, Bryn Mawr, Worcester Polytechnic; \$1,500,000, Hamline, Phillips Exeter, Phillips Andover, Goucher; \$1,170,000, Barnard; \$1,075,000, Louisiana College; \$1,000,000, James Milliken, Rutgers, Swarthmore, Baldwin-Wallace, Washington and Lee, DePauw (completed), Temple, University of the South; \$800,000, Lafayette; \$700,000, Georgetown; \$500,000, Centre, Chattanooga, Muskingum, St. John's, Marietta, Peabody College for Teachers, Kansas Wesleyan, Yale (annually); \$300,000, Purdue (for a memorial and union building); indefinite, Bowdoin, Ohio Wesleyan, Tufts. It has been estimated that altogether American colleges and universities are asking for about \$200,000,000.

TEXAS, like Cornell, favors the ratification of the Treaty without amendments or reservations. 874 voted that way, while 448 favored any compromise making ratification possible, 109 voted in straight opposition, and 102 voted in favor of ratifying but only with the Senate reservations.

LAST FALL certain psychological intelligence tests were given to all Yale College freshmen. The report on the results shows that 85.5 per cent of the freshmen obtained a rating of A (very superior) as compared with 77 per cent of the two million Army drafted men and 48.4 per cent of the Army officers; and 13.7 per cent obtained B (superior) as compared with 12.7 per cent of drafted men and 34.6 per cent of the officers. All of the freshmen got C plus (high average) or better, as compared with 40.8 per cent of the drafted men and 96.8 per cent of the officers.

THE DARTMOUTH FACULTY has voted that beginning with 1921-2 "any student from an approved school, graduating with an average in scholarship for the four years of his school course with an average in scholarship which places him in the first quarter of his class, and offering three units of English and two and one-half units of mathematics among his list of subjects, shall be admitted without conditions."

THE YALE Bureau of Appointments is now extending the services of its industrial department to all Yale men, whether now employed or not. Up to January 1 the bureau had filled 278 out of a total of 886 positions for which recommendations were made, or 31.37 per cent. It had had a total of 857 registrants, of whom 582 were inactive.

PROVOST EDGAR FAHS SMITH, of the University of Pennsylvania, has resigned, his resignation taking effect on June 30 next. He has been provost since 1911, and has taught altogether for forty-four years.

THE NEW CHAPEL of the University of Chicago, plans for which are now being drawn by the architect, Bertram A. Goodhue, of New York, will be a beautiful specimen of Gothic architecture. It will have a tower approximately 216 feet high.

KANSAS scholarship records for 1918-19 were recently announced. The following were the averages: sororities, 89.1; non-fraternity men, 80.01; non-sorority women, 79.5; university average, 76.61; fraternities, 75.13; colored women, 63.45; colored men, 62.49. Gamma Phi Beta led the sororities and Acacia the fraternities.

PRINCETON, up to February 21, had secured \$5,510,000 of the \$14,000,000 she is seeking. The New England district leads with 58.3 per cent; then comes New York, with 52.1 per cent, followed by New Jersey with 46.7 per cent, and Chicago with 38 per cent.

THE CORNELL DRAMATIC CLUB gave the second of this year's series of one-act plays on Thursday, Friday, and Saturday evenings, February 26-28. Forced by illness in the east to postpone the presentation from January, the club has been able to take the stage thus early this term, before other agencies of entertainment were under way. The three plays in the present series were "Where But in America?" by Oscar M. Wolfe '97; "Sabotage," by Hallem, Delcros, and D'Estroe; and "Lima Beans," by Alfred Kreymborg. Current comment pronounces the second play the best in the group. Each play had, as usual in the club's performances, its separate coach and property manager. All three were staged under the supervision of A. G. Ashcroft '21, of Brooklyn; and the costumes were designed by Dorothy F. Levy '20, of Philadelphia. The club's playhouse is the amphitheater of Goldwin Smith Hall.

Published for the Associate Alumni of Cornell University by the Cornell Alumni News Publishing Company, Incorporated.

Published weekly during the college year and monthly during the summer; forty issues annually. Issue No. 1 is published the last Thursday of September. Weekly publication (numbered consecutively) continues through Commencement Week. Issue No. 40 is published in August and is followed by an index of the entire volume, which will be mailed on request.

Subscription price \$3.60 a year, payable in advance. Foreign postage 40 cents a year extra. Single copies twelve cents each.

Should a subscriber desire to discontinue his subscription, notice to that effect should be sent in before its expiration. Otherwise it is assumed that a continuance of the subscription is desired.

Checks, drafts, and orders should be made payable to Cornell Alumni News.

Correspondence should be addressed—

THE PROBLEM OF THE STRANGER

An alumnus of some years' standing, in a recent letter to a friend, used these words: "The University did almost nothing for the timid, sensitive, physically unfit boy who went to it in the person of myself. I used to want what I could see others were getting but I didn't know how to go about it, nor did the institution see or meet my particular need. I now realize that I was not strong enough to get much from college, but no one then told me nor showed me how or what to do. The one thing that stands out in my memory to-day is a word of good cheer given me by President Schurman when I once went to him at the time of an examination which I could not take because I had been ill. He assured me that no injustice should be done me and his word of good cheer brought me comfort."

That any alumnus should carry away with him such a feeling as that expressed in the first part of the quotation,

it will be conceded, is highly unfortunate. Such a thing, however, is far less likely to happen to-day than it was a few years ago. The system of Faculty advisers has since been instituted, and there can be no question that the professors who serve on the board of advisers have a great opportunity to help the timid student to keep from thinking himself a misfit. We believe, too, that the great majority of Faculty advisers take their duties seriously and that the time they spend in the work of conferring with students is highly profitable to the latter.

Moreover the fraternity system has in recent years been much extended and it is not a difficult matter for any student who is not positively eccentric to find a mutually congenial group. There is room for more fraternal organizations here; perhaps the chief problem for them is to keep subordinate the matter of expenses, but that can be done.

Worthy of note, too, are the efforts of the Christian Association and the Cosmopolitan Club to give all men and women, including the shy and diffident, the opportunities for good fellowship which we now see to be an essential part of the bright college years. And we must not overlook the efforts of the local churches in this direction.

A good many professors, too, entertain their students occasionally in their homes, and we prophesy that more of this kind of thing will come about as the Endowment Fund Campaign begins to bear fruit and members of the Faculty have a little more leisure time.

There is no valid reason why a large university should afford fewer or less helpful social opportunities, relatively, than the small college, whose boast it is that everyone knows everyone else.

ON ITS FIRST TRIP away from Ithaca, the University Orchestra gave concerts on February 27 and 28 in Auburn and in Watertown. The program was substantially that given at the Ithaca concert during Farmers' Week, special features being a saxophone trio and a violin solo of Kreisler's. There were forty-five musicians, under the direction of George L. Coleman '95 as conductor. In Auburn the men were entertained at dinner by the Board of Commerce and in Watertown by the Black River Club. A special train brought the orchestra back home early on the 29th. The audience in Watertown was notably large; and the trip as a whole, despite bad weather, a success.

LITERARY REVIEW

The Experts Discuss Thrift

The New American Thrift. Edited by Roy G. Blakey, Ph.D., Assistant Professor of Economics, University of Minnesota. Philadelphia. Volume LXXXVII, No. 176 of the *Annals of the American Academy of Political and Social Science*, for January, 1920. Price, paper, \$1; cloth, \$1.50.

This is a most timely collection of thirty-six essays by some of our foremost business and professional men on various phases of the promotion of thrift. The editor, Dr. Roy G. Blakey, recently associate director of the Savings Division, Treasury Department, and formerly an instructor here, discusses "America's New Conception of Thrift." He points out that what was once associated with parsimony is now seen to be a sensible and necessary virtue—the use and care of means so as to achieve the greatest results.

Professor Thomas N. Carver, Ph.D. '94, of Harvard, writes on "The Relation of Thrift to Nation Building." He says the same thing in different words: thrift is living within your income and spending wisely. What is true of individuals is likewise true of nations.

Professor Benjamin R. Andrews '01, of Teachers College, also an assistant director of the Savings Division, Treasury Department, writes on "Thrift as a Family and Individual Problem; Some Standard Budgets." He shows how the need of thrift exists everywhere in the life of the family: not merely saving money, but spending wisely or withholding for future wise spending. He appends five family and four individual budgets.

Adolf C. Miller, formerly an instructor here, now of the Federal Reserve Board, discusses "Thrift and the Financial Situation." There is food for thought in his assertion that "if everyone had done his full duty during the war by voluntarily rationing himself and saving to the requisite degree, most of the expansion of credit and currency and inflation of prices, from which we are suffering, would have been avoided. Because there were financial slackers who did not do their duty, expansion of credit and currency was carried to the point of inflation." The only sure way to reduce credit and money is to save.

Professor George F. Zook, Ph.D. '14, of Pennsylvania State College, writing on "Thrift in the United States," pro-

duces an interesting historical sketch of the various thrift movements from Franklin's time down. He also supplies a useful select bibliography of twenty-nine titles.

Alvin Johnson, late of Cornell, now editor of *The New Republic*, discusses "The Promotion of Thrift in America." His is one of the most highly original and stimulating papers in the lot. Taking up in succession the various classes of our population, he considers what special kind of education in thrift each needs; he shows that the problem is ultimately complex and worthy of the careful attention of the best minds.

Space considerations forbid even the mention of the other papers; but all are interesting and important. This number of the *Annals* should circulate very widely; the country needs it.

Books and Magazine Articles

The current number of *The Theatre Magazine* contains an illustrated article on the activities of the Cornell Dramatic Club.

In *The Physical Review* for December Robert W. King '12, now connected with the research laboratories of the American Telephone and Telegraph Company and the Western Electric Company of New York, writes on "The Calculation of Audion Constants." An abstract is printed of a paper by Professor Floyd K. Richtmyer '04 and L. F. Curtiss on "Magneto-Resistance Effects in Films of Bismuth."

In *Science* for February 20, Professor Benjamin F. Kingsbury, M. S. '94, writes on "The Development Origin of the Notochord."

A series of travel sketches entitled "The World Is Hers" by Marjorie B. Greenbie '12 is now appearing in *The Green Book*. "Adventure like the vote," says Mrs. Greenbie, "is no longer a masculine prerogative." She proceeds to demonstrate it by an account of her unique experiences in queer corners of the world during war time. Mrs. Greenbie (formerly Miss Marjorie Barstow) is the wife of Sydney Greenbie, himself a wanderer, the stories of whose adventures have been appearing in *Harper's Monthly*, *The Dial*, *The North American Review*, and other magazines, and whose book "Japan: Real and Imaginary" will be published shortly by Harper & Brothers.

The Stanford Illustrated Review for February includes a sonnet entitled "A Modern Bayard: to David Starr Jordan

on His Birthday," by Professor William H. Carruth, and selections from another and longer poem by Professor Melville B. Anderson, "To David Starr Jordan, Commemorating a Friendship of Half a Century (1870-1920)."

In *The American Journal of Public Health* for February, Delos Lewis Van Dine '01, entomologist of the U. S. Bureau of Entomology at Mound, La., writes on "Mosquito Work of the Bureau of Entomology."

In the *Journal of the American Institute of Architects* for January Frederick L. Ackerman '01 writes on "Preliminary to City-Planning—Zoning."

In *Scribner's* for February Esther C. Dunn '13 writes on "Inman's Portrait of Wordsworth." The picture itself hangs in the library of the University of Pennsylvania. The article is illustrated by a reproduction of the portrait and by pictures of the artist, Henry Inman, and of the late Professor Henry Reed, of the University of Pennsylvania, at whose instigation, in 1844, the portrait was made.

Ivan Wright, '17-18 Grad., contributes to *The Bankers' Magazine* for January an article on "The Use of Cattle Loans."

In *The American Historical Review* for January Professor Louise Fargo Brown's "The Freedom of the Seas" is reviewed by J. S. Reeves. Samuel B. Harding, '90-1 Grad., reviews Friedrich Meinecke's "Preussen und Deutschland im 19. und 20. Jahrhundert" (Munich, Oldenbourg).

Professor Wilbur C. Abbott, '92-5 Grad., writes in *The Yale Review* for January on "Except America!" dealing in a trenchant way with the failure of the President and the Senate to ratify the Treaty.

In *The Review* for February 14 Jerome Landfield '94 writes on "The New Republic's Exhilaration." His conclusion is this: "The real tragedy of all this mass of falsehood and twaddle is that self-styled 'liberals' should have exerted their great efforts, in the name of self-determination, in behalf of a system that is crushing all democracy out of the Russian people and which they are helpless to resist, and that these 'liberals' are thereby promoting reaction in its most tyrannical form."

In *The American Political Science Review* for November Professor Albert H.

Washburn '89, of Dartmouth College, reviews "America Among the Nations" (Macmillan), by H. H. Powers, formerly a professor here. There is an anonymous notice of Miss Louise F. Brown's "The Freedom of the Seas."

The Political Science Quarterly for December includes a review of Professor W. C. Abbott's "The Expansion of Europe (1415-1789)" by William R. Shepherd. In the same number is a notice of "The Foundations of National Prosperity" (Macmillan) by Professors Richard T. Ely, Ralph H. Hess, and Charles K. Leith of the University of Wisconsin and Professor Thomas N. Carver, Ph.D. '94, of Harvard. Professor Carver's contribution to this book deals with the conservation of human resources.

Horace Kephart's department in *Outing*, beginning with the March number, is called "Guns, Ammunition, and Equipment."

In *Chemical and Metallurgical Engineering* for March 3, Harry D. Gibbs '94 writes on "Problems Investigated at the Color Laboratory of the Bureau of Chemistry."

In *The New Republic* for February 25, under the title "The Economics of the Treaty," Professor Ailyn A. Young reviews, sympathetically but searchingly, John Maynard Keynes' "The Economic Consequences of the Peace" (Harcourt, Brace and Howe).

In *The Saturday Evening Post* for February 14 Kenneth L. Roberts '08 informs us about "The Rising Irish Tide." In the issue of February 28 Walter C. Teagle '99 prophesies as to "The Destiny of Our Merchant Marine."

Professor Edwin W. Kemmerer's "The A B C of the Federal Reserve System" has just gone to a fourth printing.

FOOTBALL MANAGERS for 1920 have been selected by the Athletic Council: of the varsity team, W. T. Terry '20, of St. Louis; assistant, E. J. Murphy '22, of St. Paul, Minn.; of the freshman team, B. E. Wrigley, jr., '22, of Philadelphia; assistant, H. G. Prétat '22, of Waterville, Conn.

A WINTER FROLIC, patterned after the Hardly Fair of a year ago, but "bigger and better in every detail," will be held on March 13 at the Drill Hall. This affair, a sort of indoor Spring Day, is for the benefit of athletics.

ALUMNI NOTES

'72 BS—The Rev. William S. Niles is minister of the Presbyterian Church at Roscoe, N. Y.

'93—Harry Gold Peek is with the American Smelting and Refining Company, at 120 Broadway, New York.

'93 LLB—Mrs. Alan W. Bosworth-Smith, formerly Mrs. Mary Kennedy Brown, is living at 65 Seventh Avenue, New York. She is a sister of James C. Kennedy '79.

'94 ME—Frederick R. Slater has left the Texas Power and Light Company, and has organized the Pentagon Sales Corporation, with headquarters at 2025-27 Main Street, Dallas, Texas. This corporation is distributor for the Turn-Auto and other automobile specialties in Texas, Oklahoma, Louisiana, Arkansas, and New Mexico.

'96 AB—The Rev. George R. Baker has resigned as minister of the First Baptist Church of Ithaca, to accept a call to the Northern Baptist Convention. He will serve as associate secretary of the Board of Education, of the Depart-

ment of Survey and Statistics; and of Publicity. Mr. Baker came to Ithaca in 1915, having served for thirteen years previously as pastor of the Baptist Church at Leominster, Mass. His resignation has been accepted to take effect on April 1. In his new work he will be associated with Dr. Frank Padel-ford at 276 Fifth Avenue, New York.

'96 PhB—Professor William H. Glas-son, of Trinity College, N. C., was last fall elected a member of the Board of Education of the City of Durham, for a term ending in 1923. The voters of Durham have just authorized a \$650,000 bond issue to enable the board to build a new high school, and to make other improvements in the physical equipment of the Durham schools. The board has recently fixed \$1,200 as the minimum salary to be paid a college graduate teaching in the elementary schools of the city, with provision for annual increases up to \$1,800.

'01 CE—Roger B. Williams, jr., was elected president of the Central New York & Southern Railroad at the meet-ing of the board of directors in New York on February 25; he was also

chosen a director of the company. His father, Roger B. Williams, of Ithaca, who is a Trustee of the University, was elected vice-president. Mr. Williams, jr., has been elected also to the board of directors of the Ithaca Traction Cor-poration, of which he was formerly president, but will not be active in the management. He is actively engaged in business with the National City Com-pany of New York.

'05 ME—William J. Miskella is presi-dent of the Lamberson Japanning Com-pany, 2334 West Kinzie Street, Chicago, and is Western manager of the DeVillis Manufacturing Company, of Toledo, manufacturers of paint spraying ma-chines. He lives at 736 South Lyman Avenue, Oak Park, Ill.

'05 CE—Hoxie H. Thompson is now living at 758 Franklin Street, Denver, Colo.; he still retains his interest in the Thompson Bros. Lumber Company, and the Thompson and Tucker Lumber Com-pany, of Houston, Texas, being presi-dent of the former company.

'05 ME—Wetmore H. Titus has re-sumed his position with the Goulds Manufacturing Company, of Seneca

... and at the Hotel Statler,
St. Louis.

A fact:

At the Statler in St. Louis, this relatively in-ex-pensive cigarette, Fatima, is steadily the leading seller. This preference is well-founded. It is based on Fatima's logical blend—not too much Turkish as in straight Turkish brands; not too little, as in blends less delicately balanced; but "just enough Turkish" to *taste* right and leave a man *feeling* right—always.

Liggett & Myers Tobacco Co.

FATIMA
A Sensible Cigarette

*Fatima contains more Turkish than
any other Turkish blend cigarette*

Falls, N. Y., having received his discharge from the service in January, 1919. He lives at 5 Prospect Street.

'08 ME—Mr. and Mrs. Emanuel Fritz, of Berkeley, Calif., announce the birth of a daughter, Edith Roberta, on February 25.

'10 ME—Samuel C. Stoeker is with the Stocker Sales and Engineering Company, 1718 Olive Street, St. Louis, Mo.

'11—Kenneth B. Fiske is Eastern divisional manager of the Gerrard Wire Tying Machines Company; his address until April 1 is Hotel Margaret, Brooklyn, N. Y.

Men who have had the experience as Industrial Engineers, General Managers, Works Managers, Factory Managers, Superintendents and Production Managers are desired.

Salary Commensurate with worth.

Address: Box E, care of Cornell Alumni News, Ithaca.

ROXBURY

Roxbury's success has been due to the efficiency of teaching method. There are no forms. After a careful physical and psychological test each boy is assigned to classes no larger than 5. *The number of hours' instruction in each course, the size and character of class entered, and the number of courses a boy may carry are determined by his ability and state of preparation.*

Large faculty—one master for each five boys. One hundred and fifty-acre campus and farm. Three dormitories. All athletic teams, gym work, boxing, wrestling, under expert coaches and instructors. Ten saddle horses for boy's use. A large open-air swimming pool to be constructed next spring. Two months' summer session for boys who need additional work, and boys preparing for September examinations.

Roxbury's record has been extraordinary. This summer only two out of over one hundred *final* candidates failed to enter college.

Students admitted any time during the year when there are vacancies.

THE ROXBURY SCHOOL
CHESHIRE, CONN.

W. L. FERRIS, A. B. Headmaster.

manager for the Kittinger Furniture Company, of Buffalo, manufacturers of high grade living-room furniture. He lives at 6 Roanoke Avenue.

'15 AB—Allen L. Woodworth is secretary and general sales and advertising manager of Thomas J. Lipton, Inc., international tea merchants and importers, with offices in the Hoboken Terminals Building, Hoboken, N. J.; he lives at 120 West 103d Street, New York.

'15 CE—Oscar E. Zabel was married on September 30 to Miss Anna M. Porter, daughter of Mr. and Mrs. Chauncey Porter, of Irondequoit, N. Y.; they are living at 640 Magee Avenue, Rochester, N. Y. Zabel is inspector of construction with the Eastman Kodak Company, of Rochester.

'15 AB—Norman Renne is with the Soulé Mill, of New Bedford, Mass., manufacturers of cotton goods. He lives at 45 Willis Street.

Miss Livingston served from the time of her graduation until last June in the Department of Home Economics at New Hampshire State College, Durham, N. H.

'17 BChem—Arthur L. Stern is with the Max Marx Color and Chemical Company, 192 Coit Street, Irvington, N. J.

'17—Ellis T. Baker is now with L. Grief and Brother, Baltimore, Md.; he lives at 923 Cathedral Street.

*Fresh from
the Big Game*

Movette

That forward pass that saved the day, that sprint of twenty yards that swept the whole field off its feet or that accurate kick clean over the goal they were all caught by *Movette* in *actual motion* and held 'for keeps'. You can now refer to them at any time and see just how each play was carried out. No still, lifeless snapshot will serve the purpose. It was all *motion and motion alone* can produce it.

It's the easiest thing in the world to do this with Movette.

You simply place the small film package in the camera, turn the crank, and return it to us for developing and printing. The result is motion pictures as clear as those you see in the theatres but smaller—just the right size for the fraternity house or club.

Send for beautifully illustrated catalog describing the system in detail

Movette, Inc.

Rochester, N. Y.

'18—Roger V. Farquhar is out of the Navy, and is now with the Farquhar-Moon Manufacturing Company, 4107 West Jackson Boulevard, Chicago.

'18 AB—Dorothy McSparran is an instructor in English in Bryn Mawr College; her address is The Low Buildings, Bryn Mawr College, Bryn Mawr, Pa.

'18—Malcolm B. Carroll has returned to the University to complete his course in the Law School; he lives at 110 North Baker Hall.

'18—E. Harvey Hedgecock is in the engineering department of the American Car and Foundry Company, Chicago.

'18—William H. Ball is with Ball Brothers Company, Muncie, Ind.

'18—Mr. and Mrs. Alanson B. Houghton, of Corning, N. Y., have announced the engagement of their daughter, Eleanor Wickham, to Glenn Walker Cole, also of that city. Cole served in France for two years, as a lieutenant in the 308th Machine Gun Battalion.

'18 BS—Miss Mirmam C. Jones is assistant director of the dining rooms at Sage College, Ithaca.

'18—Clayton A. Wolfe is employed by the Commonwealth Chemical Corporation at their factory in Newark, N. Y. His address is 156 East Union Street.

'18—Lieut. Archie M. Palmer, who has been on a tour of the State of Ohio, in charge of the famous Camp Sherman Hut Truck, in the interests of recruiting for the Regular Army, has been granted four months' leave of absence to return to the University and complete his course in arts. He lives at the Scorpion House, 320 Wait Avenue.

'18—P. Francis Powers was discharged from the Army on August 18, 1919, after twenty-seven months of service. He returned to the University last fall, and expects to complete his course in agriculture in June.

'18—Lieut. Lee S. Hultzen, who has been in the Army Hospital at Fort McHenry, Md., has returned to the University to finish his course in arts; he lives at 300 Highland Avenue.

'19 AB—Miss Gertrude A. Gillam is head of the history department and says: "You probably know more of French schools than I do, and I needn't tell you how different they are from ours. It was all a shock to me, for no one had prepared me in the least. I hardly miss basketball, and dramatics,

teacher of junior English at the Fassifern School, a private college preparatory school, at Hendersonville, N. C. Her mail address is Box 375, Hendersonville.

'19 ME—Stanley Mott-Smith is an instructor in the Department of Experimental Engineering in Sibley College.

Rothschild Bros. - - Ithaca

and dances any more, which seem essential to school life in America; and I have learned to get on without butter and sugar and hot and cold showers; the most difficult thing to get used to, though, is the lack of liberty. There is a fifteen-foot stone wall all around the school, with massive iron gates leading from the courtyard onto the street. If you know any girls who find the Student Government regulations severe, tell them for me to delight in their good fortune. I can leave the school *only* on Thursday and Sunday afternoons, from two until eight o'clock, and mother must come for me and sign a receipt, which she countersigns when she brings me back! . . . I have tried to arrange my courses as nearly like those I would have had at Cornell this year as possible. I have French history, psychology, and French literature—two courses in the last—one a little more advanced than the other. We study the famous French writers very thoroughly—their lives and works. Also I am studying French grammar with all the classes from the twelve-year-olds up." Miss Severance is a daughter of Mr. and Mrs. Frank H. Severance, both '79, of Buffalo, and a sister of Hayward M. Severance '09 and Miss Mildred Severance '15.

The Powder Maker

Considering how important his work is to the public, it is fitting that more should be known about the powder maker and his job.

The characteristics which fit him for his work are as largely mental as physical, and the work itself develops his acuteness of mind—his powers of observation, judgment, and decision.

The powder worker trained in the school of the Hercules plants learns to take in all his surroundings at a glance. If he enters one of the small buildings on a dynamite or black powder line nothing escapes him. He sees instantly many things which the casual observer might gaze at for minutes without noticing.

A large part of the explosives used in the United States, and much that is used in foreign countries, is made by the men in twelve Hercules plants—four for dynamite and eight for black blasting powder.

Behind all our manufacturing industries and our railroads, behind all the useful and beautiful objects fashioned out of metals—from hob nails to scarf pins, and from steam shovels to limousines—stands the powder worker. Without the explosives he supplies—hundreds of millions of pounds annually—the miner's efforts to move the vast inert bodies of ore and coal would be as futile as the scratching of hands.

The Service of an Electrical Research Laboratory

The research facilities of the General Electric Company are an asset of world-wide importance, as recent war work has so clearly demonstrated. Their advantages in pursuits of peace made them of inestimable value in time of war.

A most interesting story tells of the devices evolved which substantially aided in solving one of the most pressing problems of the war—the submarine menace. Fanciful, but no less real, were the results attained in radio communication which enabled an aviator to control a fleet of flying battleships, and made possible the sending, without a wire, history-making messages and orders to ships at sea. Scarcely less important was the X-ray tube, specially designed for field hospital use and a notable contribution to the military surgical service. And many other products, for both combatant and industrial use, did their full share in securing the victory.

In the laboratories are employed highly trained physicists, chemists, metallurgists and engineers, some of whom are experts of international reputation. These men are working not only to convert the resources of Nature to be of service to man, but to increase the usefulness of electricity in every line of endeavor. Their achievements benefit every individual wherever electricity is used.

Scientific research works hand in hand with the development of new devices, more efficient apparatus and processes of manufacture. It results in the discovery of better and more useful materials and ultimately in making happier and more livable the life of all mankind.

Some of the General Electric Company's Research Activities During the War:

- Submarine detection devices
- X-ray tube for medical service
- Radio telephone and telegraph
- Electric welding and applications
- Searchlights for the Army and Navy
- Electric furnaces for gun shrinkage
- Magneto insulation for air service
- Detonators for submarine mines
- Incendiary and smoke bombs
- Fixation of nitrogen
- Substitutes for materials

Booklet, Y-863, describing the company's plants, will be mailed upon request. Address Desk 37
