## Professors as People

A Discussion of the Activities of Two Heads of Colleges When They Are Off Duty

### HERMAN DIEDERICHS '97 M.E.

*Professor of Experimental Engineering and director of the Sibley School of Mechanical Engineering.*

Professor Diederichs' greatest enjoyment is gardening. Early and late he is likely to be found at work on the many flowers and shrubs he has so carefully tended at his home in Cayuga Heights for the past twenty years. Professor Diederichs was born in Germany and inherited his love for plants and flowers from his mother. When he first came to Ithaca as a student, he had neither time nor money to carry on his hobby, but as the years passed and he advanced in his profession he was able to take up where he had left off. His gardens now are among the best in this section. Classes in landscape architecture are taken there to see examples of careful planting and arrangement. He does not specialize in any one or two varieties, but rather seeks to grow as many species as possible. From early Spring to late Fall the gardens are a mass of blending colors. When the days begin to shorten and the frost puts a halt to outdoor growing, Professor Diederichs turns to his conservatory. Here he enjoys many plants not suited to the outdoor climate of this North country. To see him at work in his gardens or conservatory, one would take him for an ardent botanist rather than an eminent engineering professor.

After gardening, he is devoted to reading. He reads history, biography, travel, some novels; but mostly history. He is especially interested in the Civil War period. His magazines include *Harper's*, *Scribner's*, and *The Atlantic Monthly*. He advises young engineers to read widely and keep abreast of the times. "Too frequently," he says, "the engineer is apt to become tied to the slide rule and to limit his vision, because he has not kept posted through reading." Before turning in, Professor Diederichs invariably takes up a book to read for an hour or so. It takes his mind from the work he has been doing all day and prepares him for a restful sleep.

He likes to drive his automobile and takes many motor trips, some of them as far as the West Coast. While driving he looks for historical spots and travels miles out of the way to visit battlefields of the Civil War. In California he has explored all the Mission houses and learned their history.

In 1906 he translated one of the largest books in German on internal combustion engines. In 1907 with Rolla C. Carpenter, '88 M.M.E., then head of the department of experimental engineering at Cornell, he wrote *Internal Combustion Engines*. In 1909 with Carpenter, he revised *Experimental Engineering*. In 1930 with William C. Andrae '15 M.E. he published Volume I of a new book, also entitled *Experimental Engineering*. He is now working on Volume II.

As president of the athletic council of Cornell, he has for years maintained an active interest in sports and athletics. He regrets that he never learned to play any musical instruments; he listens to symphony orchestras whenever possible and has no use at all for modern jazz. "Today's 'love' songs," says Professor Diederichs, "are all whines."

Miss Rose

This is the first of a series of articles on Cornell professors and administrators—with a view to making them more "human" to the alumni

Professor Diederichs

### MISS FLORA ROSE '07-'08 GRAD.

*Director of College of Home Economics and Professor of Home Economics.*

Miss Rose is fond of the outdoor life. In Long Lake in the Adirondacks, she has a thirty-acre island on which are a log house and several open log camps. Here she spends her summers and entertains many friends. She runs her own launch, paddles a canoe, and does considerable climbing, walking, and swimming. She is fond of motoring and drives well. She was one of the first women automobile drivers in Ithaca, and in her former trips through the State on extension work, she made many friends with whom she has kept in contact through the years.

During the school year she finds time for a walk at the end of each day. She is a good bridge player and enjoys a hard game. She does a great amount of reading, favoring biography, philosophy, and books on education. She likes modern novels for the social trends revealed in them and enjoys thrilling detective stories.

Earlier in life she read much of Dickens. This, probably more than anything else, determined her interest in personalities and human relations. She gives much of her time toward helping her students to adjust themselves and to take their places in Cornell life. She wants her students not only to learn home economics, but to learn to play an effective part in our changing society. She encourages them to think for themselves. Her house is always open to students, and in the informal gatherings there, she advocates free expression of idea and opinion.

After the War, at the request of President Hoover, she made a study of the nutrition and health of 5,000 Belgian school children. In the recent meeting of representatives of the Association of Land Grant Colleges, Miss Rose was asked to speak on home economics. This was the first occasion that a woman has had the honor of addressing this group.

Another hobby she enjoys is picnicking. Any fair week-end she is likely to take up the telephone and call together a group of friends for a picnic in one of the neighboring State parks. To whatever she does, she gives her whole hearted interest. At the end of a full day's work she possesses a vitality that is the wonder of her friends.

## About Athletics

The Athletic Council of the University has elected captains of football, cross country and soccer, and awarded 94 varsity insignia and freshman numerals.

Walter Switzer of Williamsport, Pa. was elected football captain, while Bruce Kerr of Ithaca was elected cross country captain and Olig Petroff of Montclair, N. J. was elected soccer captain.

Those receiving awards follow:

### Varsity Football C

W. H. Borger '36, Pearl River  
T. C. Borland '35, Oil City, Pa.  
Jerome Brock '34, Buffalo  
J. S. Brown, Jr., '35, Burlington, Vt.  
J. J. Ferraro '34, Buffalo  
A. J. Frederick '36, Elmira  
J. I. Goldbas '34, Utica  
R. S. Grant '36, Ithaca  
E. M. Hutchinson '37, Chicago, Ill.  
F. J. Irving '35, Los Angeles, Calif.  
N. E. Kossack '34, Kew Gardens  
P. M. Nelson '35, Jamestown  
H. F. Nunn '35, New York City  
J. L. Puterbaugh '35, Dallas, Tex.  
E. C. Schumacher '34, Flushing  
Harry Shaub '34, New York City  
W. D. Switzer '35, Williamsport, Pa.  
J. W. Terry '34, Walton  
J. M. Wallace '34, Brooklyn  
H. S. Wilson '36, Philadelphia, Pa.

### Freshman Football Numerals

B. C. Avery, Aurora  
J. M. Batten, Cape May, N. J.  
B. M. Broscoe, Elmira  
M. C. Carroll, Baldwinsville  
Gregory Clement, Philadelphia, Pa.  
B. C. Eisenberg, Brooklyn  
K. M. Hanson, Bethesda, Md.  
I. A. Jenkins, New York City  
N. H. Johnson, Beacon  
J. A. Joseph, Jr., Buffalo  
R. G. Meagher, Elbridge  
E. G. Moran, Groton  
J. J. Murray, Ovid  
B. R. Norton, Drexel Hill, Pa.  
A. P. Paltrow, Bayside  
J. C. Paquin, New Bedford, Mass.  
E. W. Pfeiffer, New York City  
W. G. Rossiter, Bronxville  
J. W. Scott, Niagara Falls  
A. M. Slawson, Canisteo  
E. R. Steele, Philadelphia, Pa.  
E. W. Stiles, Richville  
S. S. Verbeck, Manlius  
J. H. Weidman, Jr., Marcellus  
Griswold Wilson, Cleveland, O.  
W. W. Ziegler, Oil City, Pa.

### Varsity Cross Country C

R. W. Agor '36, Mahopac Falls  
W. P. Davis '34, Crown Point  
E. R. Frisbie '36, Westport  
E. H. Hamilton '34, Weedsport  
J. F. Hazan '34, West New Brighton  
J. R. Mangan '34, Rutland, Vt.  
E. H. Taylor '35, Springfield, Mass.

### Cross Country Numerals

C. W. Egbert '36, Upper Montclair, N. J.  
H. L. Huber '36, Buffalo  
H. L. Setz '36, Syracuse  
W. V. Bassett '37, West Newton, Mass.  
N. C. Healy '37, Hamburg  
S. S. Jones '37, Philadelphia, Pa.  
J. A. Meaden '37, La Grange, Ill.  
E. V. Mezzit '37, Weston, Mass.  
W. H. Robbins '37, Geneva  
M. W. Sampson '37, Ithaca  
O. D. Smith '37, Fayetteville.

### Fall Track Numerals

J. A. Clausen '37, Passic, N. J.  
L. W. Collings '36, S. Orange, N. J.  
W. B. Conable '36, Warsaw  
Kermit Coell '36, Brooklyn  
J. H. Goodwillie '36, Toledo, O.  
D. T. Houpt '36, Ambler, Pa.  
J. L. Leone '36, Ithaca  
H. E. Linders '36, Jersey City, N. J.  
W. C. McLaughlin '36, Poughkeepsie  
R. A. Scallan '36, Terrace Park, O.  
C. R. Scott '36, Upper Montclair, N. J.  
H. L. Setz '36, Syracuse  
N. C. Healy '37, Hamburg  
J. H. Hucker '37, Buffalo  
J. A. Meaden '37, La Grange, Ill.  
C. Y. Neff '37, Buffalo  
N. M. Rosenberg '37, Canisteo  
R. W. Schmidt '37, Cincinnati, O.

### Varsity Soccer

B. I. B. Adler '36, Ithaca  
L. T. Bermijillo '35, Madrid, Spain  
R. S. George '34, Ithaca  
W. B. Hershey '36, Rockville Center  
F. F. Drews, '34, Woodcliff, N. J.  
R. E. Mulford '35, New York City  
O. P. Petroff '33, Montclair, N. J.  
P. M. Riabouchinsky '34, N. Y. C.  
Q. J. Scranati '34, Rochester  
A. C. Taylor '34, Wyomissing Hills, Pa.  
Bruce Taylor '34, Gardner, Mass.  
Hendrick Versluis, '34, New York City

### Freshman Soccer Numerals

E. H. Atwood, Jr., Olean  
J. W. Atz, South Orange, N. J.  
C. P. Carter, Watertown  
Adolph Coors, 3d, Golden, Colo.  
A. P. Cook, Jackson Heights  
A. R. Davies, Granville  
D. D. Dugan, Hamburg  
R. D. Florance, Brooklyn  
W. P. Frankel, New York City  
R. H. Hemmerich, Wyomissing, Pa.  
T. R. Heyward, Pittsburgh, Pa.  
C. B. Ingersoll, Cleveland, O.  
G. G. Hollockwost, Brooklyn  
F. T. Kniffen, Ithaca  
B. W. Pechan, Brooklyn  
J. C. Weld, Watertown, Conn.

### CPT Polo Insignia

R. H. Baldwin '35, Makawao, Hawaii  
R. S. Hunsberger '34, Middletown  
C. L. Ranney '35, Santa Ana, Calif.  
W. E. Ryder '35, Hempstead  
R. M. Scars '33, Baldwinsville  
D. S. Stevenson '34, Camden, N. J.  
M. F. Untermeyer '34, Elberon, N. J.

## Football Schedule

The University will play a seven game schedule of football this year, according to official information released this week. The only new-comer to the Cornell schedule is Princeton who will be met on October 27 at Princeton. Michigan, who played Cornell in the early part of last season, will not be engaged again this year. The arrangement was for only one year to take the place of the usual Princeton game. Of special interest is the game scheduled with Syracuse, which will be played in Ithaca for the second time in a row, on October 13. Following a lapse of thirty-two years, the two neighboring institutions resumed football relations last October, with Syracuse winning its first game from Cornell and incidentally crossing the Cornell goal line for its first score in the eleven times the two teams have met.

The schedule again contains two open dates in order to give the members of the team an opportunity to catch up on their studies.

The schedule approved by the faculty committee on student activities follows:

Sept. 29	<i>St. Lawrence</i> at Ithaca
Oct. 6	<i>Richmond</i> at Ithaca
13	<i>Syracuse</i> at Ithaca
27	<i>Princeton</i> at Princeton
Nov. 3	<i>Columbia</i> at New York
17	<i>Dartmouth</i> at Ithaca
27	<i>Pennsylvania</i> at Philadelphia

## Crew Has Commodore

The captain of the Cornell crew is now officially called Commodore. Although he has so been designated since 1904, the official title has been "Representative of the Crew." The Athletic Council, however, at the December 21 meeting officially recognized the customary title of Commodore. The official term "Representative of the Crew" has been used, because prior to 1904 almost every time that the Cornell navy elected a Commodore, he would be unable to make a berth on the next year's crew. This led Coach Pop Courtney to suggest that the title of Commodore be dispensed with. Some member of the navy, however, had to be present at the meetings of the Athletic Council, so one of the squad members was chosen to perform this job and given the official title of "Representative of the Crew." The first man officially to resume the title of Commodore of the Cornell crew is Fritz Garber '34 who is to lead the eights this spring.

## Basketball

Cornell's basketball team opened the season December 21 in the Drill Hall with a victory over Toronto to the tune of 30-13. Coach Ortner gave his entire squad of 17 varsity men an opportunity to play, sending in two complete teams in the final period.

Voelker started the scoring with a foul shot, and Houck followed soon after-

ward with a neat goal from under the basket. Freed, who paired with Ferraro at the forward posts, later looped two beautiful goals from outside the foul line. From then on, Toronto's scoring was held primarily to foul shooting, while Cornell's lead continued to increase.

At the half, the Red team was out in front and did not seem to be taking any chances on mid-court attempts. The Toronto defence was open most of the time, but the Cornell team held their tosses until they were within the foul line. McGraw was the star of the game, giving a fine exhibition of passing and scoring eight points to capture individual scoring honors. Ferraro and Freed each scored six points. Downer, a sophomore, played a magnificent game at the pivot position, making two spectacular goals when Ferraro snared the rebounds from the Toronto backboard and tossed the ball far down the court where Downer stood unprotected.

The team checked back fast after losing possession of the ball, and had little trouble holding off the Toronto attack. Their passing, however, was ragged, and numerous fumbles occurred. Coach Ortner's emphasis on going after the rebounds appeared to have taken effect, as Downer and Ferraro kept the ball away from the Toronto team time and again with fine leaps from under the net.

#### ANOTHER CORNELLIAN CALLED

Again a Cornell professor has been called on to help smooth the affairs of an economically troubled world. Professor Van B. Hart '16 B.S., '23 Ph.D. of the farm management department and acting director of extension at the New York state college of agriculture has been granted a year's leave of absence beginning January 1 to accept the presidency of the Springfield Production Credit Corporation. This corporation is a production-credit bank for farmers and was recently organized at Springfield, Massachusetts to supervise the organiza-

tion of local farm credit associations in the district which includes New England, New York, and New Jersey. Its purpose is to furnish short-term credits to farmers from funds derived from the sale of bonds and debentures to the investing public. Professor J. F. Harriot, also of the agricultural economics department, has accepted a position with the same corporation as vice-president.

After receiving his Ph.D. in 1923 Professor Hart was appointed assistant professor in charge of economic extension work at Cornell. He spent many years on farm management and marketing extension work and teaching in the University summer school. He was appointed full professor in 1927. In 1930 he spent sabbatic leave with the extension service of the United States department of agriculture organizing economical extension work in different states. In the spring of 1933 he passed three months with the Federal office of cooperative extension, reorganizing the extension program. He was called back to Cornell in June 1933 as acting director of extension for a six-month period. He was named a delegate to the international agricultural economic conference in Germany and spent six weeks of the summer of 1933 traveling in northern Europe and Russia inspecting agricultural schools and farms. In December, 1933 he returned to his position as extension professor of farm management and continued in this capacity until he accepted the post as president of the Springfield Production Credit Corporation.

His place as acting director of extension is being taken by Lloyd R. Simons '11 who returns as director after a six-months' leave of absence.

#### DINOSAUR

Most Cornellians who have taken geology in the University at one time or another no doubt have seen the massive stone slab in the south entrance to McGraw Hall, on which, it is asserted on a plaque, are to be found tracks left by the prehistoric dinosaur. The Department of Geology in historic times has always been handicapped in this exhibit by the absence of information among spectators as to just what a dinosaur is, or was, and what it looked like.

This difficulty has now been surmounted. Above the stone slab has been placed a prehistoric landscape, about fifteen feet by four feet, in prehistoric blues, greens, and grays, in which are represented five of the venerable reptiles of various ages and sizes, in various postures. The work is entitled "A Mesozoic Landscape," and was painted last year for the Department of Geology by Margaret H. Cornell '28 Sp., great grand-daughter of Ezra Cornell.

The dinosaur is said to have been the largest land animal on record, having attained the length of sixty or seventy feet

in its best days. The dinosauria which Miss Cornell has pictured represent three species, and five different genera, based on a study of the authorities on Reptilia. The dinosauria shown include Anomoeopus, Podokesaurus, Brontosaurus, Macrotoenopteris Magnifolia, and Pterodactyl, and can best be described in appearance as a cross between a giraffe and a hippopotamus. They are shown in shallow water on the margin of an inland sea.

The painting was made at the suggestion of Professor Oscar D. von Engeln '08, Ph.D. '11, professor of physical geography, and was executed in the laboratory on the third floor of McGraw Hall.

#### THE HOTEL CODE

The effects of the hotel code upon that industry and more particularly on Cornell's graduates of the course in hotel management was recently summarized by Professor Howard B. Meek '29 Grad., in charge of hotel courses. The adopted code requires the abandonment of the "split-shift" and the adoption of the "straight shift." It has also brought an end to the seven day week. As a result many of the smaller hotels find it necessary to engage relief men. After several weeks of controversy, the NRA decided to allow tips to employees to be counted as part of wages.

Since the President has signed the code, Cornell's hotel department has been requested to make recommendations for sixteen vacancies, many of them for major jobs in the hotel industry. One was for a manager of a 365 room modern hotel in a city of 100,000 population in Illinois, two were for the management of prominent clubs in the East, and one called for the manager of the convention bureau of a leading Middle-western city.

On the first of September 1933, all of the 198 graduates of the course were employed. Since that time the closing of resort hotels has put some seasonally out of work. Unemployment among hotel alumni reached its all-time peak of ten per cent about the first of November, but at the present time it is only about two per cent.

FOUR OFFICIALS of the College of Home Economics have been invited by Mrs. Charles H. Sabin, chairman of the women's committee of the state Civil Work's Administration, to work with her in organizing opportunities for unemployed women. The four are Flora Rose '07-'08 Grad., director of the college, Ruby Green Smith '14 Ph.D., State leader of home demonstration work, and two assistant State home demonstration leaders, Mrs. Edward Eddy and Dorothy C. DeLany '23 B.S., '31 M.S. The representatives of the college will also work on the personnel of Mrs. Sabin's State advisory committee.

## PROFESSOR REED For Gold Standard

While one of Cornell's famous economists in the person of George F. Warren '03, fiscal advisor to the President, is advocating the use of silver along with gold as a basis for the nation's currency, another of them in the person of Harold F. Reed '14 Ph.D. is demanding an immediate return to the gold standard. This demand was made as a resolution adopted by the executive committee of the Economists' National Committee on Monetary Policy of which Reed is a member. The action was taken at Philadelphia, on December 28, where the committee met simultaneously with the annual convention of the American Economic Association. The resolution read as follows:—

"We disapprove of those aspects of the monetary policy pursued by the government which are destroying public confidence in the value of the dollar, are distorting the normal movement of investment funds and discouraging sound investments, thereby retarding an orderly and enduring recovery. It is undesirable to subject the money, the savings and the trade of the American people to the uncertainties of arbitrary political policies.

"The present policy of monetary experimentation should be abandoned immediately.

"Efforts to depreciate the value of the United States dollar by manipulation should be stopped. A definite policy of returning to a gold standard should be adopted immediately.

"Announcement of the adoption of this policy would tend to dissipate the widespread fear of inflation and reduce the financial demoralization now retarding recovery. The necessary amount of money will flow into circulation with the increase in production activities.

"Criticism of the monetary policy of the government is not to be interpreted as an attack upon the general recovery program of the administration."

## DEAN BURDICK Clarifies Law Examinations

Dean Charles K. Burdick described the comprehensive examinations in force at the Cornell Law School before the Association of American Law Schools in Chicago, December 28. This system of third year comprehensive oral and written examination was introduced by the Cornell faculty in 1931-32. Under its provisions, a typically complex case, preferably one which has come into the office of a practicing attorney, is given each candidate for the LL.B. degree. He is given a week to study the case with the use of the library, and to outline the problems involved, as he sees them, with his conclusions supported by argument and authority. Then he presents the case orally before three faculty members. At the end of his last term he takes sixteen

written examinations on four successive days in place of course finals.

Dean Burdick pointed out that this method tests a student's general legal education and his capacity for handling real legal problems in a lawyer-like manner; it stimulates a general review, minimizes in the student's mind the somewhat arbitrary division of law into subjects for purpose of instruction, thus inducing a greater feeling of unity of the law; and it encourages independent reading and study not for the purpose of passing particular courses but for the purpose of a broad legal education.

On the last day of the American Law Schools' convention, Dean Burdick presented a paper on *Provisions of Substantive Penal Code*. Other members of the Cornell Law School who attended the three session were Professors Robert S. Stevens, Henry W. Edgerton '10 and Lyman P. Wilson.

## ANOTHER PROFESSOR Goes to China

To see that Chinese farm families eat better is the new job of Leonard A. Maynard '15 Ph.D., professor of animal husbandry at Cornell. At the end of January he leaves for China to assist in the development of a program of research and education for the improvement of the nutrition of the Chinese farm family. Professor Maynard enters this work at the invitation of the University of Nanking.

Data as to food grown and consumed on the farm have been gathered by workers under the direction of Professor J. Lossing Buck '14, husband of Pearl S. Buck '25 A.M., world-renowned author. Professor Buck's data suggest that even in times of plenty the diet of the farm family is inadequate in certain essentials. From a further study of these data, from observations in the field, and from studies of the incidence of dietary disease, Professor Maynard hopes that a clearer picture can be obtained of the magnitude of the farm nutrition problem in China, as a basis for determining what it is practicable to do to solve it.

The problem in China is a tremendous one, particularly as the farm families

there must rely for their food supplies almost entirely on products grown on the farms, and because economic considerations of land utilization must be the primary factor in determining what is grown. These considerations limit the variety and quality of farm diets.

The University of Nanking probably will make this problem a long-time project, comparable in scope to the crop improvement project on which Professor Harry H. Love '09 Ph.D., Professor Clyde H. Myers '12 Ph.D. and other Cornell scientists have been aiding the Chinese for the last five years.

Professor Maynard with Mrs. Maynard will sail from San Francisco about the last of January. Mrs. Maynard will return through Europe, reaching Ithaca about the first of August. Professor Maynard will remain in China for a short time longer.

## CHEMISTS HONOR Henry Feehan

The Chemistry Department gave a party Friday night, December 22 in honor of Henry Feehan who has been with that department for the last 51 years as head stock room attendant. Mr. Feehan has seen Cornell's Department of Chemistry grow from an old wooden building three stories high situated on the north west corner of the ground where Goldwin Smith now stands to the upper three floors of Franklin Hall and then to Morse in 1891, and finally in the fall of 1923 to Baker Laboratory. Henry, as he is called by Cornell students, has seen generations of Cornellians come and go.

At the party he was presented with an illuminated testimonial plaque with the following inscription:—"The Alumni, the Staff, and the Students of the Department of Chemistry of Cornell University, in sincere appreciation of the Loyal Services of Henry Feehan, extend to him this expression of their gratitude for his fifty-one years of whole-hearted devotion to the interests and welfare of the Department. His genial and kindly nature, his willingness to aid, and his unfailing humor have endeared him to several generations of Cornellians who hold his friendship invaluable and consider his half-century of unselfish service an outstanding achievement. Done this fifteenth day of December, 1933 at Ithaca, New York."

FLOYD L. CARLISLE '03 A.B. announced his resignation on January 3 as a member of the board of directors of the Northern New York Trust Company. His resignation was brought about through a government ruling that directors of securities or other financial institutions may not be directors of commercial banks.

Professor Maynard

## PROVOST MANN On Farm Foundation

Provost Albert R. Mann '04 has been named as a University member of the Farm Foundation organized by the late Alexander Legge for the study and solution of many problems affecting the welfare of farming and our rural population. Mr. Legge endowed the foundation with an original gift of \$400,000 and his will revealed another \$500,000 for its use.

The Board of Trustees of the Farm Foundation is made up of 21 members, seven chosen at large and the other 14 classified and chosen as experienced in and representative of farming, manufacture, merchandising, transportation, finance, the farm press, the radio, and state universities maintaining agricultural departments.

Dr. Mann, who is signally honored by being included on the Board, was dean of the New York State College of Agriculture at Cornell from 1916 to 1931, when he was appointed Provost of the University, and was also dean of the College of Home Economics after it was founded in 1925. Before his election to the deanship of the College of Agriculture he was registrar of the College and editor of its publications.

The will of Mr. Legge, soon to be filed in DuPage County, Illinois, recites, "I am interested with others in the formation of a foundation to be devoted to the general welfare of the farming population of the United States and improvement of the conditions of rural life." Mr. Legge contributed \$400,000 to the Farm Foundation at the time it was organized and in his will he bequeathed an additional \$500,000.

Frank O. Lowden, chairman of the Board of Trustees of the Farm Foundation, announced that it was organized only recently, and that public announcement was to be deferred until all those active in its formation had made their contributions to the original endowment. Mr. Legge's untimely death made an announcement by the Trustees appropriate.

Mr. Legge had felt the need of such a foundation for some time, and the need was also voiced in the report of a committee, appointed by the Chamber of Commerce of the United States and the National Industrial Conference Board, in 1927. A group in New York was working on a plan similar to Mr. Legge, and the setting up of the Farm Foundation by execution of a Trust Agreement.

The Foundation is to be free from local or political considerations. Its object and scope are set forth in the conclusion of Mr. Lowden's statement. "The Foundation is permanent and it is the hope of the founders that it may become a helpful factor contributing over the years to the solution of many problems affecting the welfare of the farming and rural population of our country. Its field, which is not duplicated by any other existing founda-

tion, is broad, covering any social, educational, economic or cultural problems of interest to any substantial portion of the rural population and including the sound coordination of the agricultural life of the country with the urban and industrial life."

## PATENT FOR DIRECTOR LINCOLN

Director Paul M. Lincoln of the school of Electrical Engineering, has been granted a patent from the government for his invention of a "thermal electric meter" in which claim to seven unique ideas was admitted. The decision was made after a wait of more than two years, Lincoln having filed application for patent on October 26, 1931. Manufacturing rights still rest with him as he has made no arrangements for placing the article on the market. The meter is described as "an improved thermal watt meter comprising, in combination, an indicator, a tubular spring element connected with the indicator, and a reservoir connected with the tube; a heater connected with an electrical supply and arranged to influence the volumetric condition of the liquid. The liquid having a greater expansive effort than the tubular spring under the applied heat condition for the purpose of compensating for the inherent expansion lag of the tubular spring, whereby an accurate indication of the flow of current through the heater will be obtained."

## BLACK COFFEE And How to Take It

The old belief that black coffee "sobers one up" has been confirmed in psychological experiments at Cornell University. This conclusion was reported December 28 before the American Association for the Advancement of Science at Cambridge, Massachusetts. The experiments were made by Andrew L. Winsor '29 Ph.D., assistant professor of rural education, and Eduard I. Strongin '31, a graduate student.

The effects of the two drugs were observed by having the subject attempt to keep an electric light focused on a moving photoelectric cell. The tests showed that alcohol and coffee are enemies within the human body, having the tendency to counteract one another. When taken simultaneously, the one drug neutralized the other leaving the drinker about where he started. The tests also showed why drinkers are thirsty for water as an aftermath of alcoholic indulgence. It is because, although alcohol stimulates the flow of saliva from the parotid gland while it is being sipped, it greatly reduces the saliva flow once it has entered the bloodstream. The flow of saliva reaches a minimum about 45 minutes after the liquor is drunk.

Another point revealed by the photoelectric cell tests was that alcohol in-

creased errors on the part of the drinker. When the subject failed to keep the light focused on the cell, an automatic record was made and he was credited with three errors for every second the light was off the cell. Imbibing alcohol increased errors from two per minute up to twenty-five and the unsteadiness continued for two hours.

Coffee increased the flow of saliva, it was found. In the experiments for accuracy, the drinking of coffee by a sober man actually improved his co-ordination. If a man drank alcohol first and coffee afterwards, his co-ordination first dropped off, and then improved as the coffee took effect. But if the effect of the coffee wore off first, then the intoxicating effects of the liquor reappeared. In this way, then, a person could obtain two "jags" from the same round of drinks. The tests were all made on an empty stomach. The alcohol diluted with two parts of water was taken in quantities from 30 to 75 cubic centimeters (roughly from a quarter to half of a large water glass). The doses of coffee were one pint each.

## THE BLACK WIDOW'S FIRST BITE

The recent story of a University of Alabama scientist who allowed a "Black Widow" spider to bite him in order to study its effects, calls to mind a similar experiment made in 1923 by William J. Baerg Ph.D. '22, who was at that time making detailed studies of these spiders.

The "Black Widow" is quite common in the southern part of the United States and in Mexico and is generally given a wide berth by picnickers and others who come in contact with it. Reports that its bite caused death were widely circulated, and Baerg determined to find out if this were true. He induced one of the spiders to bite him on the finger. The poison began to work, and Baerg spent some time in bed under the care of a physician, convinced that while the bite does not normally kill adult humans it does cause them considerable distress.

Professor Cyrus R. Crosby '05, entomologist at Cornell, has two live specimens of the "Black Widow" spider in his new office in Comstock Hall (formerly Home Economics building). They are about a half inch in length and are coal-black with red and yellow markings. Near them he has a huge tarantula which is very much alive, and certainly a fierce looking insect if ever there was one. However, despite its formidable appearance, the tarantula's bite is less harmful than a bee sting. No, we didn't let it bite us to find out. We asked Professor Crosby.

JAMES D. MCGILL '23-'25 Grad. was elected president of the Rochester Board of Education at a board meeting held January 4. He is a professor at the University of Rochester.

## CORNELL ALUMNI NEWS

ITHACA, NEW YORK

FOUNDED 1899

INCORPORATED 1926

Published for the Cornell Alumni Corporation by the Cornell Alumni News Publishing Corporation.

Published weekly during the college year and monthly in July and August: thirty-five issues annually. Issue No. 1 is published in September. Weekly publication ends the last week in June. Issue No. 35 is published in August.

Subscription price \$4.00 a year, payable in advance. Canadian postage 35 cents a year extra; foreign 50 cents extra. Single copies fifteen cents each.

## DEAN LADD

DEAN CARL E. LADD '12 B.S. of the College of Agriculture brought a new honor to Cornell in his appointment on December 20 as the head of Governor Lehman's newly formed State Farm Debt Conciliation Committee which is designed to get immediate financial relief for distressed farmers. The Governor suggested as other members of the conciliation committee: Van Breed Hart '16 B.S., professor of Farm Management; Edward R. Eastman '22-'23 Agr., editor of the *American Agriculturist*; Jared Van Wagenen, Jr., '91 B.S. of Lawyerville; Otis A. Thompson, chairman of the agricultural committee of the New York State Bankers Association; and James Roe Stevenson of Cayuga.

Dean Ladd is chairman also of the State Agricultural Advisory Commission, and was recently appointed by the Governor to go to Washington and hasten action on Federal allotments for work relief projects in New York State.

The central Farm Debt Conciliation Committee which the dean is to set up will in turn organize county committees "to cooperate with the activities of the Federal Farm Credit Administration in the relief of farm debtors who are in distress and in danger of losing their farms." County committees will be organized in those counties where "in the judgment of the state committee there is sufficient need for them." Already six and possibly more counties have been so designated, in a survey made through county extension agencies working under Dean Ladd.

In his letter appointing Ladd head of the committee, the Governor said: "It is my hope that this whole matter may proceed as rapidly as possible in the coun-

ties of the state where there is need and that due publicity may be given to the organization of the county committees in order that immediate steps may be taken to start proceedings to relieve the distress of debtors who are in danger of losing their farms."

In connection with his mission of hastening action of Federal allotments for state work relief projects, Dean Ladd made a trip to Washington shortly after New Year's. The projects for which aid is sought have been endorsed by the Governor's Agricultural Commission of which Ladd is chairman. They include building a new industrial exhibit at the state fair grounds in Syracuse, the establishment of regional markets at Albany and Syracuse, a farm-to-market roads project, and the elimination of bovine tuberculosis from the state.

The Governor has also requested Dean Ladd to seek Federal aid for New York State's battle against the Dutch elm beetle. Botanists now fear that the Dutch elm disease may be as destructive to New York State's finest tree as the chestnut blight has been in ruining every chestnut tree of nut bearing age in the state. Dean Ladd believes with Governor Lehman that Federal aid is imperative since the disease knows no state boundaries and is already rampant in several adjacent states. As yet the Ithaca and Tompkins county section has not been invaded by the beetle, but, unless more funds are forthcoming, the beautiful elms that have so long graced the campus may fall prey to the disease.

## CHEMISTRY SYMPOSIUM

The fifth national Organic Chemistry Symposium of the American Chemical Society was held at Cornell University December 28, 29 and 30 with more than 250 of the leading organic chemists of the country in attendance. Professor Wilder D. Bancroft, who is chairman of the Cornell section of the Society, welcomed the visitors to Cornell at the opening meeting in Baker Laboratory on Thursday, December 28. Professor Bancroft later presented a paper on *Phase Rule Study of Proteins*. Professor Melvin L. Nichols '18 is vice-chairman of the local section, and Professor Clyde W. Mason '24 Ph.D. is secretary-treasurer. Professor John R. Johnson headed the local Cornell committee for the symposium, assisted by Professor Nichols, Ralph C. Tallman '31 Ph.D., R. A. Conner, Harold R. Snyder, Marcus G. Van Campen, Jr., '30 Grad., J. H. Bryant, Milton T. Bush '29 Grad., L. C. Davy, and Tom L. Jacobs '30 Grad.

Frank C. Whitmore of Pennsylvania State College presented a paper on *The Mechanism of the Polymerization of Olefins*. Everett S. Wallis of Princeton University spoke on *Molecular Rearrangements Involving Optically Active Radicals*. James F. Norris of the Massachusetts Institute of

Technology read a paper on *The Measurements and Significance of Chemical Reactivity*. Edgar C. Britton of the Dow Chemical Company spoke on *The Hydrolysis of Aromatic Halogen Compounds*. *The Rearrangement of Aromatic Pinacola* was discussed by W. E. Bachmann of the University of Michigan. Hans Clarke of Columbia University read a paper on *Certain Aspects of the Chemistry of Cystine and Allied Compounds*. Rudolph J. Anderson of Yale discussed *The Composition of Bacterian Lipids*. The topic of R. L. Shriner of the University of Illinois was *Asymmetric Syntheses Using Optically Active Nitrates*. L. G. S. Brooker of the Eastman Kodak Company addressed the chemists on *Sensitizing Dyes and Their Use in Photography*.

F. B. LaForge of the United States Department of Agriculture gave a paper on *The Determination of the Structure Rotenone*. Lyndon F. Small of the University of Virginia spoke on *Recent Developments in Morphine Chemistry*. S. M. McElvain of the University of Wisconsin presented his findings on *The Acetoacetic Ester Condensation*. L. Charles Raiford of the State University of Iowa discussed *Formation of Benzoxazoline in the Attempt to Prepare Certain Mixed Diacyl Derivatives of O-Aminophenol*. Cecil E. Boord of Ohio State University gave *The Synthesis and Physical Properties of the Olefins in Relation to Their Structures*.

Among the distinguished visitors to the symposium was Jean Piccard, twin brother of Auguste Piccard, pioneer stratosphere balloonist. He registered at Baker Laboratory as coming from Marshallton, Delaware.

## BOOK REVIEW

*How to Collect Installment Accounts*, by Samuel W. Guggenheim '15. The Credit Press, Rochester, N. Y.

Many worried creditors who have been unsuccessfully striving to warm their frozen assets to the melting point will find plenty of condensed fuel in this little book of 66 pages. It is clear, concise, and well-planned. It contains many good examples of how to write and how not to write collection letters. Also included are letters, notices, and examples of how creditors act. The material is organized under five chapter heads; "Well Begun is Half Done," "Keeping up Regular Accounts," "Forcing the Reluctant Payer," "Oh Where is My Wandering Skip Tonight?" "Ted Gibbons Makes a Sale." The main criticism of the book is that some heads blind the serious reader to the actual content of the chapters.

LEONARD R. GRACY '08 BS, who is conducting The Gracy Bridge Studio at 14 Undercliff Road, Montclair, New Jersey, sails on the *Resolute* on January 14th on a world cruise. He is in charge of the bridge activities for the trip.

# The Week on the Campus

At the End of One Year and the Beginning of Another

**T**HIRTY YEARS ago floods on the flats were an expected annual event in connection with the January thaw and the spring freshets. The fair grounds were under water every year and a bridge or two was supposed to go out every now and then. But for many years—not since the late C. E. Treman got the lake level lowered and the late Henry St. John brought the three creeks under control by dykes and dredging—there have been no floods, and most Ithacans had forgotten what was once a constant menace.

THE STRANGE WEATHER of Christmas week recalled the past. There had been snow in the hills. On Thursday night the mercury fell to 15 below zero and ice made fast through Friday. The warm weather and the heavy rains of Saturday and Sunday then reconstructed old fashioned flood conditions. Down from Groton, Dryden, and Caroline came a yellow wall of water which broke the heavy anchor ice and piled it up in dams. Cellars were flooded, bridges were threatened and once again boats were the only feasible conveyances in the western part of town. All night the blasts of dynamite against the ice packs rattled the dark windows of the University and gave the semblance of a city bombardment.

THE LAST EXPLOSION came in the nick of time, as did a sudden cold snap which froze and held the small waters in the back country. A major flood was narrowly averted. Once again Cascadilla flows unvexed to the sea.

JAMES A. GRIFFIN—Jimmy da Griff—has passed on to join Senator Murphy in whatever Valhalla exists for picturesque characters of a college town. Jimmy died here on December 28 of heart ailments in the forty-seventh year of his age.

JIMMY GRIFFIN first attracted attention in the early part of the present century as a small boy who collected laundry from students and sometimes brought it back. He was one of the only two persons who ever fell down the Fall Creek gorge without being killed. Jimmy was carrying fourteen bags of laundry the time he slipped off the trail in the dark. These—and a recent slide of soft snow at the bottom saved his life, but the laundry was never recovered. At the age of fifteen Jimmy was a lightweight boxer of marked promise. He and another boy used to tour the fraternity houses on Saturday nights. For \$2 they'd put on a fast four round bout and practically beat

each other to death. Then they'd go on to the next house and repeat the act. Some nights they'd cover as many as ten houses. His medical friends have always thought that these terrific head poundings at an impressionable age had much to do with his subsequent development.

INCREASING POUNDAGE took Mr. Griffin out of the athletic category and made him for a decade a popular and well known bar tender. Since the war, however, he had fallen into virtual retirement except as he emerged each June to help some reunion class with its housekeeping problems and as he went down last year to assist the Cornell Club of New York in opening and popularizing its new bar. Class reunions will never be the same without Jimmy da Griff and many will miss him.

CHANGES in the political complexions of our City and County governments at the first of the year brought about a general shuffle of our public servants, most of whom are Cornell men. Fitch H. Stephens '06 succeeds Allan H. Treman '21 as City Attorney. Charles H. Newman '13 has become County Attorney. Professor Will H. Sawdon '08, former mayor, has been made a member of the Board of Public Works. Professor Benton S. Monroe '96 succeeds Dr. Luzerne Coville '87 as City Historian. Many other of our graduates entered the public service as members of municipal boards and commissions.

IN A TOWN like this few city jobs have salaries attached to them. Public office generally seeks the man and frequently in order to get him has to chase him upstairs and pull him out from under the bed. On the other hand Ithaca is among the relatively few cities of our land which still balances its budgets, pays its bills and comes out in the black.

THE EDITORIAL board of the CORNELL ALUMNI NEWS wishes this department to record as current news the receipt (by the editorial board of the paper) of many letters from former friends and subscribers dealing with certain differences of opinion, as to the monetary system of our country, between Professor Warren and his colleagues at the East end of the Campus (and Washington) and Professor Reed and his group on the West side. It is the general trend of this correspondence that the paper leans to the Warren side and evidences a certain partiality by printing more column inches about the Warrenists than about the Reeders. It is

impossible to print all of these letters and difficult to answer them. Suffice it here that the Board has no opinion on any issue that it wholly fails to understand. If it prints more news about the Warren group it is because for the moment the Warren group is creating more news—a situation that may speedily correct itself.

THE CAMPUS continues to talk about *The Mikado*. When it was first suggested that the Dramatic Club, the Glee Club, the Women's Glee Club would combine their resources in a gala performance of this ancient favorite, everyone was pleasantly expectant but no one was prepared for the excellence of the performance or for the public response thereto. Bailey Hall was packed for two performances. People came from all the surrounding towns and cities. After the show the campus talked about it for weeks—and is still talking about it—just as twenty years ago it would have talked about a dramatic athletic contest won by the home team in a surprising finish.

CHARLES T. CAREY '35 of the College of Architecture was awarded first prize medal by the department of mural paintings of the Beaux Arts Institute. The award was for first place in the Institute's recent competition for the best design of a collector's museum in a private home. The two other Cornell students—Arnliot R. Brauner '34 and Miss Brownley Leesnitzer '35 who entered the contest received honorable mentions.

THIS YEAR for the first time in many years and for the second time in recorded history the toboggan slide was filled and ready for operation by the time the students returned from their Christmas vacation. Nine inch ice is required for this purpose and the mere filling and fixing takes nearly a week. You can see that protracted winter weather is a condition precedent to all this and that a mere cold snap will not do the business.

AFTER TWO open winters with no tobogganing, little skating, and not a single hockey match on Beebe Lake, the Campus had become dubious about our climate but now we look forward hopefully to a normal season of winter sports. Records meticulously kept for 30 years show that these two years last past have been freaks. Up to 1931 we had never had less than 35 days of paid skating and the average was 63. In a number of seasons there have been over 80 days when the red ball has been up at Beebe. R.B.

## About The Clubs

### Rochester

At the annual meeting of the Cornell Club of Rochester, held on December 11, 1933, the following officers were elected:

President: John Arthur Jennings '18 (re-elected), vice-president: Leslie E. Briggs '21, secretary: Albert H. Carver '26, Genesee Valley Trust Building; treasurer: Fred Goodelle '26 (re-elected), asst. treasurer: Fred W. Armbruster, Jr., '18 (re-elected), membership secretary: Robert H. Wendt '28.

Members of the Board of Governors: Louis B. Cartwright '17, Robert Keller '30, Harold A. Meng '17, James K. Quigley '03, Roy L. Stone '07, Walter L. Todd '09, and George A. West '23.

Nominating Committee: Arthur B. Curran '16, Fred M. Dorris '25, Philip D. Rupert '20, Max Schweid '11, and George E. Wynkoop '06.

The meeting was held at the University Club with one hundred twenty-five members in attendance. Dinner was served and following the meeting Professor James Mason and Senator Royal S. Copeland addressed the gathering.

### New York Women

Professor Bristow Adams was principal speaker at the Founders' Day gathering of the Cornell Women's Club of New York, held at the Hotel Barbizon on Saturday, January 13. He talked on "What Cornellians Have Achieved," using as source material the many Cornell contacts he made during his recent trip around the world. Members of the men's club joined the women in hearing "B. A." and in paying tribute to Ezra Cornell.

Alan Villiers, author-sailor-lecturer, will give his amazing talk, "By Way of Cape Horn," illustrated by motion pictures, in the recital room of the Barbizon on Wednesday evening, January 24, at 8 o'clock. As a courtesy to Miss Nina Smith '15 of the Sheardon-Smith lecture bureau, Mr. Villiers will give his talk without charge, and proceeds from the ticket sale will go to the house fund. Admission will be fifty-five cents for members and seventy-five cents for guests, and it is hoped that all New York Cornellians who read this announcement will attend and bring their families and friends. The author of "Grain Race," "By Way of Cape Horn," "Falmouth for Orders," etc., Mr. Villiers has spoken before many important groups, among them being the National Geographic Society, Cornell University, Yale, Dartmouth, Columbia, Princeton, Stanford, Williams, the University of California, and others. Elsie Rand Tucker '07, is chairman of arrangements.

On Saturday, December 30, the Cornell Women's Club was hostess at a reception for undergraduate women who reside in and around New York City. Marie Reith, chairman of the afternoon, was assisted by Agnes Gaaney '30 and Katherine Ganzenmuller '31. A large group of recent graduates greeted the guests.

"COURAGE, HONESTY, and common sense are what is needed as preparation for college," said Professor Charles L. Durham '99 in an address before 125 members of the Cornell Club of Syracuse on December 27. "Prospective Cornellians," he added, "should acquire in their high school and preparatory academy days, that type of character which will make it possible for them to get the most out of college. The matter of acquiring advanced knowledge must be left largely to the University. If a man comes to Cornell with courage, honesty, and common sense, he is prepared to concentrate on intellectual attainments." Professor Durham closed his address by expressing hope that the sub-freshmen present "might align yourselves with the Cornell men who realize that nothing can replace the value of honesty and courage."

A NEPHEW OF King Prajadhipok and Queen Rambaiarni of Siam, who are expected to make another visit to the United States soon, is now a Cornellian. He is Chakratong Tongyai of Bangkok, a junior in the College of Agriculture. During his sojourn in Ithaca Tongyai has talked about his country several times at Cosmopolitan Club gatherings. He was among the foreign students introduced at the two international Rotary Club luncheons this fall and winter.

EVERETT F. PHILLIPS, professor of apiculture, was elected president of the American Association of Economic Entomologists in session at Boston Friday, December 29. An authority on the bee, Professor Phillips has been president of the International Apis Club. A year and a half ago he was called to Russia by the Soviet government to give advice on the introduction and improvement of bee culture there.

RETAIL MEAT DEALERS gathered at the College of Agriculture December 27, 28 and 29 to learn the latest in carving and preparing meat. This free short course is conducted yearly by the department of animal husbandry and is designed to show how to cut carcasses of beef, lamb and pork; how to bone and roll meat. It also includes lectures on the meat industry and the use of meats.

## Concerning The Alumni

'08 CE—Mr. and Mrs. Albert J. Love announce the birth of a son, Richard Joy Love, on December 3. They are residing in Aurora, Illinois.

'09 ME—James W. Cox, Jr. for the past many years president of the Sibley Manufacturing Company and Enterprise Manufacturing Company of Augusta, Georgia, Manufacturers of colored cotton goods, on January 1st resigned as both President and Director of both companies. He also resigned as director of the Gregg Dyeing Company and Graniteville Manufacturing Company of Graniteville, South Carolina, affiliated with the Sibley and Enterprise groups. He intends to take an extended vacation in Florida and the Nassau Bahamas. He has not yet announced his plans for the future. Temporarily he can be reached through care of Cox & Fuller, 320 Broadway, care of University Club, 1 West 54th Street, New York City, or care of Thomas R. Cox, Highview Road, Englewood, New Jersey.

'15 BArch—Harold L. Sleeper is writing regularly for the *House Beautiful*, *Architectural Forum*, *American Architectural Record*, on building and housing problems, and also for other non-technical magazines, usually on the same subjects.

'18—Herbert M. Olney is trust officer of the Underwriters Trust Company at 37 Broadway, N. Y. His residence is 1640 Madison Place, Brooklyn.

'18 ME—Mr. and Mrs. Charles F. Hendrie of 212 Montclair Avenue, Newark, N. J., announce the birth of a daughter, Marcia, on December 19, 1933.

'20 AB—Mr. and Mrs. Albert H. Whetten of Chicago, have announced the marriage of their daughter, Mildred, to Thomas L. Kelly '20, on June 17 last.

'22 AB—Emmet J. Murphy has been promoted to Agency Manager of the Equitable Life Assurance Society of the U. S. and has been assigned to the Philadelphia office, at 123 S. Broad Street.

'24 BChem—John D. Macdonald is operating manager of the mortgage division of the New York Trade Facilities Corp. His address is 299 West 12th Street, New York City.

'24 C.E.—Mr. and Mrs. Mark A. Wallace, of Evanston, Illinois, announce the marriage of their daughter, Mary Virginia, to C. Longford Felske on October 21, 1933, at St. Luke's Episcopal Church, Evanston. Among the bridal party were H. Ross Poulson '25 C.E., and Millard F. Bingham, 3d, '27 A.B. Mr. and Mrs. Felske will be at home after December 1 at 703 Forest Avenue, Evanston.

'26 AB, '29 MD—Sara Bass opened an office January 1st for the practice of medicine at 459 Victory Boulevard, Staten Island, New York.

# Radio puts **CRIME** on the **SPOT!**

Police Radio enables police to strike with lightning speed . . . to catch criminals on the spot . . . to make thousands of arrests otherwise impossible. In many cities, headquarters now broadcasts the alarm via

Western Electric apparatus . . . *instantly* radio patrol cars are racing to the scene of the crime!

Naturally police insist upon equipment that is de-

pendable day and night, year after year. And they get it in Western Electric Police Radio—backed by 50 years of making Bell telephones.

Western Electric has also pioneered in manufacturing equipment for radio telephone broadcasting, aviation radio, talking pictures, sound amplifying and distribution, aids for the hard-of-hearing. This Company has steadily maintained its leadership in the field of sound transmission.

'26 AB—Frank C. Podboy is with the Western Electric Company in Philadelphia. His residence is 1124 Allengrove Street. He writes that A. J. Podboy '28 A.B. is practicing medicine near Harrisburg.

'26 ME—William S. Loeb is production manager for the Wilkening Mfg. Co., makers of Pedrick Piston Rings. His address is 812 Sedgwick Street, Philadelphia.

'26 CE—Maurice B. White is a telephone engineer and his address is 64 Park Avenue, Bloomfield, N. J. A son, Gordon Eliot, was born on October 25 of this last year.

'26—Coleman S. Williams and Mrs. Williams announce the birth of a son last October 8th. Williams lives in Saugatuck, Conn., but is now on an expedition to South America for the American Museum of Natural History. Williams is a son of Roger H. Williams '95, trustee.

'27 BArch—Mr. and Mrs. Harry I. Johnstone are now living at 3532 Washington Boulevard, Indianapolis, Ind. They have a son, Montgomery, born last November. Johnstone is in the advertising department of the United Mutual Life Insurance Company.

'27 CE—Herbert B. Olmstead is an engineer in Bridge Designing Section of the Connecticut State Highway Department. His address is Maple Hill, New Britain, Conn.

'27 HE—Dr. and Mrs. A. M. Gehret announce the birth of a son, John, on November 5, 1933 at 311 N. Broom Street, Wilmington, Del. Mrs. Gehret was Ruth E. Matz '27.

'27 ME—The engagement has been announced of Miss Elizabeth Pitkin of Englewood, N. J. to Robert DeW. Hobbie '27, engineer with the Telephone Company. His address is 86 Heller Parkway, Newark, N. J.

'27 EE—Philip S. Van Blarcom was married on September 23rd last to Miss Virginia E. Homer, daughter of Mrs. Robert Homer of East Orange, N. J. Van Blarcom is in the engineering department of the Luzerne County Gas and Electric Corporation and lives at 30 Filbert Street, Forty Fort, Pa.

'28 EE—Robert B. Gear is assistant field engineer with the Commonwealth Edison Company of Chicago. He was recently promoted to this position. A son, Robert, Jr., is about a year old. Gear writes that he had a visit from D. Verner Smythe '28 for about a week during the Century of Progress Exposition.

'28 AB—William C. Graf graduated in June, 1932 from the Long Island College of Medicine. He interned at the Wyckoff Heights Hospital. His present address, where he has entered general practice, is 124 Merrick Avenue, Merrick, L. I.

'28 CE—Charles L. Walker is assistant secretary for the Diamond Ice and Coal Company in Wilmington, Del. His address is 2201 West Eleventh Street.

'28 ME—Foster T. Rhodes was married recently to Miss Josephine Williams of Glens Falls. Mr. and Mrs. Rhodes are living at 304 Waverly Avenue, Syracuse.

'28 EE—Bertram G. Trevor, son of Mr. and Mrs. J. E. Trevor of Ithaca, was married on October 22 to Miss Josephine Maria Weber, of Queens Village, L. I. Mr. and Mrs. Trevor will reside in Riverhead, where Trevor is research engineer for the Radio Corporation of America.

'28 ME—John S. Fair, Jr., car repairman in the Altoona Car Shop of the Pennsylvania Railroad, has been "acting gang foreman" in the passenger car shop, since September 1. He has also been appointed captain, 104th Cavalry, of the Pennsylvania National Guard and is commanding Troop C. of their Altoona regiment.

'28 AB—John A. Johnston has just completed five years' service with the Retail Credit Company at 420 Lexington Avenue, N. Y. His home address is 143 Home Avenue, Rutherford, N. J.

'28 CE—A son, Richard Henry, was born on December 1, 1933 to Richard F. Walter of 27 Hilldale Road, South Weymouth, Mass. Walter is Unit Manager for the Equitable, with offices at 100 Milk Street, Boston.

'28 CE—Claude E. Hinds is technical employee with the Long Lines Department of the American Telephone and Telegraph Co. His address is 55 Hanson Place, Brooklyn.

'28 AB—Dorothy Knapton is a laboratory assistant in Biology at the Newton High School, Elmhurst, L. I. She has completed a two years' examination and is now awaiting her license and an appointment in a New York City High School. Her address is 6806 41st Avenue, Woodside, L. I. She writes that James H. Knapton, Jr., was married last June to Emily C. Twine who is secretary to the director of the Tuberculosis Division of the New York City Department of Hospitals. Knapton is running his own confectionery and ice cream business. His store on Woodside Avenue is headquarters for stamp collectors. Mr. and Mrs. Knapton are living at the above address with Miss Knapton.

'28—Thomas C. Wilson is an associate geologist engaged in geological field work in the Department of Norte Santander, Colombia. He expects to be in the United States on a vacation early in 1934. His address is Apartado 100, Cucuta, Colombia, S.A. c/o the Colombian Petroleum Co. He writes that Avery Turner '12 is an engineer with the same company, at present supervising construction work. Hollis D. Hedberg '26 is a paleontologist [Continued on page 152]

## NEW YORK CORNELL CLUB

Score 1934 to 1933

## BIG VICTORY FOR THE RED AND WHITE

1933 Gives Way to 1934 In Thrilling New Year's Eve Contest to the Music of Roy Pirkin, Princeton, and his Illimitable Orchestra.

Hansom Cabs, Automobiles and Coaches poured out a gay throng of 200 guests about 10 P.M. on December 31st at the canopied entrance of The Cornell Club of New York, 245 Madison Ave., to celebrate its Annual New Year's Eve Party.

It was a "handsomely appointed" affair on a very particular night in America's history with all the Hotels and Clubs filled to overflowing. The Club's facilities in the matter of guest-rooms were entirely inadequate to take care of its large out-of-town membership.

One might have thought the Club had been taken over by a new night-club management, and, with equipment and catering from Louis Sherry, Inc., the party raged well into the morning. George Coleman had sent down some of his orchestrations, so *Cornell Victorious* went hand and foot with *Stormy Weather*.

The Lounge took care of the Dancing, with tables at either end of the room reserved for Charles H. Blair '97, Frank B. Stratford '95, George Rector '99, Victor D. Herriman '08, Tom Ludlam '11, Walter R. Kuhn '12, C. E. Davis '12, V.

E. Mann '13, Wallace B. Quail '19, Donald R. Schively '22, John S. Parke '23, T. S. Chadeayne '26, W. L. Cressman '27, N. T. Shelton '29 and F. E. Schmitt, Jr., '31.

The austere but very efficient Library under care of Dr. Henry P. de Forest '84 was given a jolt which must have knocked some of the old masters a few sheets into the wind with tables fully filled by Harper A. Holt '17, Robert D. Warren '24, Arthur A. Somers '27, R. L. Riedel '32, and their respective parties.

And what a change in the bridgers' and kibitzers' room. At the table of Fred P. Frantz '32 were Carleton H. Endemann '31, Howard A. Baker '32, Wm. F. Bleakley, Jr., '34, Wm. H. Borie '35, Forbes Shaw '27. Bruce S. Cornell '28 also had a table.

The Dining Room had the most tables reserved, for C. F. Heitmann '18, J. W. McConnell '27, Wm. A. Whitwell '30, L. E. Stiles '31, Louis H. Abel '26, Walter M. Bacon '30, John L. Slack '26, Dudley F. Phelps '26, Max F. Schmitt '24, Drs. John & William Stubenbord '28 & '29, and Herbert A. Goertz '17.

Just a stone's throw from the Dining Room is the best ventilated and sunniest Bar in New York City under control of Carl Hallock (Zinck's) '00. It did a nice business.

And out into the morning went the party home or to Child's. T.R.L. '11

## FEDERAL APPOINTMENT

Howard W. Beers '26 B.S., '29 M.S., instructor in the department of rural social organization, has received an appointment with the Federal Emergency Relief Administration. He will be assistant to Dr. Ellis L. Kirkpatrick '22 Ph.D. who heads the Administration's research work on the coast of living in rural areas in various states. Dr. Kirkpatrick is now on leave from the University of Wisconsin. While he was at Cornell studying for his advanced degree he made several studies of the cost of living on New York farms. He left here to carry on his investigations in other areas. When Harry Hopkins was made head of the Federal Emergency Relief Administration he placed Dr. Kirkpatrick in charge of the cost of living research work.

Beers was selected by Dr. Kirkpatrick to carry on the field work for this research. His headquarters will be at Washington, but most of his time will be spent making studies in rural areas.

ADOLPHE J. MENJOU who attended Cornell as a member of the class of 1912, is rated by tailors of London, New York, and Hollywood as one of the ten best dressed men in the world. Menjou was one of four Americans so listed. It is said that Menjou probably has more suits than any actor in the cinema capital in California.

## Cascadilla Day Preparatory School

Ithaca New York

IN our second semester, which opens January 30, a student may complete entire year courses in mathematics, science, history or languages. This program has in the past saved for many students a half year or more of time in preparing for college.

Students like our methods, which develop self-reliance, responsibility and mental capacity. We will be pleased to advise concerning personal problems or questions of program or credentials.

C. M. DOYLE, '02, Headmaster

# Be A Cautious Man!

Cautious men are aware of the expense involved in the adjustment of an estate.

*There are taxes to pay, perhaps outstanding debts to discharge, legal fees and other imposts.*

*All these charges, which otherwise would be deducted from the estate, may be provided for with a Life Insurance policy designated for that purpose.*

Wise Men Protect Those  
They Leave Behind!

## The Prudential Insurance Company of America

Edward D. Duffield, *President*

Home Office, Newark, New Jersey

This advertisement of SCHENLEY DISTILLERS CORPORATION is published for your information.

We are cooperating with the President's Code for Distillers. It is our intent to follow the provisions of the code. The domestic whiskies referred to in this advertisement, bottled under OLD, FAMOUS BRAND-NAMES, are at this time blended from stocks of STRAIGHT WHISKIES with no alcohol or spirits added.

# LIQUOR . . .

## A heartening word about quality

**A**FTER these 14 years of barred distillery doors, of rusting vats and stills, of grapes rotting on neglected vines, and empty warehouses, in which fine old whiskey should have been richly mellowing—after these 14 years of such discouraging inactivity, you must be inclined to wonder how really fine wines and spirits may now be produced or bought.

The Schenley Distillers Corporation has a cheering word for you today. Though, during those dark years, many discouraged leaders of our country's legitimate liquor industry lost their hope, and turned to other trades, yet there still were a few who never lost faith in the ultimate decision of America's millions. Never disheartened, those few, born and bred with all the treasured traditions of this great industry, have been building earnestly, soundly, confidently through those 14 years of shadow, in preparation for the dawn.

### Plants and Equipment

During your long wait, this undiscouraged organization has been quietly visiting and inspecting the most famous plants

throughout the country—the plants whose methods, equipment and personnel had produced the choicest liquors in the land. Year after year, when the merits of various institutions had been thoroughly weighed, we gathered together under our protection those distilleries and warehouses which measured up to our highest standard.

### Golden Wedding

One of the Schenley Corporation's very first victories was the acquisition of Jos. S. Finch & Company, the respected old Pennsylvania concern that had been making *Golden Wedding* whiskey ever since 1863, when its output was but three barrels per day. To this world-famed whiskey and its distillery on the Allegheny River is due, in a great part, the high reputation of Pennsylvania whiskies—for in the whiskey world, the cask-mellowed spirits from the Allegheny and Monongahela valleys rival the age-old brandies from the valley of Cognac.

### Old Stagg, O. F. C.

Down in the Kentucky Bluegrass region, there is an equally famous old distillery—

The Geo. T. Stagg Company plant, established way back in 1837.

In the historic distillery of Geo. T. Stagg they have carried on a tradition generations old—making whiskey in little fifty-gallon tubs—mixing, fermenting, and watching each little batch with as much tender care as a mother making a birthday cake for her one and only. Such a renowned institution, with its devotion to the finer traditions of the whiskey business, is the type of institution which most attracted the interest of Schenley. It was indeed a bright spot in the darkness that day when Schenley closed a deal which added to the already impressive list of brands the two famous brands of Geo. T. Stagg . . . *Old Stagg* and *O. F. C.*

### James E. Pepper

There was still another whiskey in the Bluegrass country which has always shared the demand for finer whiskey with *Old Stagg* and *O. F. C.* That whiskey is *James E. Pepper*—a favorite with three separate generations. James E. Pepper, "Born with the Republic"—your father and grandfather will remember that slogan—and that marvelous flavor. Founded way back in 1780 while George Washington was still alive, this grand old brand has enjoyed a reputation for upholding its original quality that has caused it to survive for 143 years, while thousands have come and gone. The Schenley Distillers Corporation—fortunate enough to add *James E. Pepper* to its ever-growing list—is fully mindful of the treasure it is holding in its hands—and faith will be kept with its ancient founder.

### Old Quaker, Monticello, Greenbrier, Melvale, Gibson, Sam Thompson, Belle of Anderson

So on through the years—famous names, famous brands, secrets, formulae, warehouses, yes—and stocks of precious old liquor have been accumulated and guarded by Schenley for you when the day arrives. *Old Quaker, Monticello, Greenbrier, Melvale, Gibson, Sam Thompson, Belle of Anderson*—and scores of other match-

less brands you used to enjoy—you will still enjoy, for Schenley has not been idle. It has preserved them all.

Old equipment in all these plants has

been modernized. New equipment has been installed. Warehouses have been repaired, new buildings have been put up. Thousands of barrels have been made and charred. The choicest grains have been bought and binned. Preparing for this day did not begin yesterday . . . It began in 1919, and has continued year in and year out. And you will reap the harvest.

### The Men Behind the Famous Brands

Those men, who have persisted through these years in preserving the integrity of the famous brands of bygone days, are whiskey men, born with all the better traditions of this ancient industry in their blood.

In charge of the Geo. T. Stagg distillery, you will find its loyal president, Albert Blanton, whose grandfather originally owned the site on which the present distillery was built—and whose father operated the little distillery which pre-

ceded the modern one standing on this spot today.

There too you will meet George Stagg's devoted son, Frank, who has never known another job than this. And if you ask who that veteran right-hand man of president Blanton may be, watching the quality of *Old Stagg* and *O. F. C.* with an eye trained through over forty years of whiskey experience, they will proudly tell you: "That's W. B. Fithian—he's been here since 1889."

Go up to the *Golden Wedding* plant, and you'll find the story just the same. The grandfather of the modern distilling industry, Harry Wilken, will be there to greet you. And the Dean of yeast chemistry, Dr. Alfred Lasche—for 20 years the head of one of America's most famous schools for distillers—he, too, has been there, helping safeguard *Golden Wedding* quality ever since 1921.

And so it goes in the Schenley organization. Men, distilleries, equipment, warehouses, formulae, secrets—and rich ripe liquor—fully matured through the years. This is no idle promise of quality to you; it is cold figures. According to the recent official estimates, there now stands under the guardianship of the Schenley Distillers Corporation at least 25% OF THE TOTAL WHISKIES NOW EXISTING

# Schenley DISTILLERS CORPORATION

# and FAITH

...for the 73% who voted "Yes"

IN THE UNITED STATES. For your convenience we have listed the brands which we can honestly sponsor. Ten of your minutes spent upon committing this list to memory should repay you many, many times!

## Imported Wines, Brandies and Liqueurs

In July of last year, when the strongest kind of public sentiment pointed in favor of repeal, the Schenley wheels were set in motion to secure the agency for the Old Country's choicest wines and liqueurs. Because of our faith in early repeal, we fearlessly made connections with the oldest continental establishments, securing by our prompt action what we believe to be universally acknowledged the finest list of foreign goods that will be offered to the American public.

To the Schenley Wine & Spirit Import Corporation has been awarded the sole agency for Dubonnet—an aperitif and cocktail ingredient with a unique flavor and bouquet that has made it the first choice of millions. Gonzalez Byass, one of the greatest port and sherry houses of the world, and particularly famous for its delicious *Diamond Jubilee* brand, likewise gave to Schenley its American representation. And Bacardi, with a matchless mellowness and delicacy that has made it the standard of the world—Bacardi, too, is on the exclusive list of Schenley importations. Barton & Guestier Sauternes, Clarets and Burgundies; Charles Heidsieck and Morlant Champagnes, Noilly Prat French Vermouth, Bardinet Liqueurs, D. Leiden Rhine and Moselle Wines, Henkes' Holland Gin, Barone Ricasoli renowned Brolio Chianti, Peter F. Heering Cherry Liqueur, Drioli Maraschino, George Roe Irish Whiskey of the Dublin

Distillers Co., Bulldog Bass Ale and Bulldog Guinness Stout—these names speak for the quality and variety you may expect from Schenley far more eloquently than our mere words could ever do. When you seek a wine, brandy or cordial of rare flavor, of supreme quality beyond question, your thoughts will wander to those famous old names listed on this page—and you may rest assured that they will be delivered through your dealer in the most perfect condition, for in the cool Schenley cellars they will be guarded like the precious treasures that they are.

A couple of your minutes spent upon committing this list to memory should repay you many, many times.

### Concerning the Alumni

*Continued from page 146* with the Venezuela Gulf Oil Company at Maracaibo, and Lloyd Colston '25 is with that company at Cabimas, Venezuela.

'29 ME—William E. Burbank is a dealer and salesmanager for the Curtis Publishing Company in Baltimore. Mrs. Burbank (Marion Bretsch '31) is teaching home economics in the Baltimore Public Schools. Mr. and Mrs. Burbank live at 1906 Warwick Avenue, Baltimore.

'29 AB—The engagement of Constance Cobb to William E. Pierce, Jr., (Colby '29) was recently announced.

'29 BS—Frank K. Beyer is an instructor in the Department of Forestry. He recently resigned a position in the U. S. Forest Service to take up his new work, and also to study for a doctor's degree.

'29 CE—George H. Creasy, Jr., was recently married to Miss Caroline E. Forward at Forest Grove, Oregon. Mrs. Creasy is a member of the Class of 1930 at Pacific College, Oregon. Mr. and Mrs. Creasy live at 639 Manida Street, New York City.

'29 BArch—Harold C. Fincke is a landscape engineer, in charge of highway designing with the Tennessee Valley Authority in Knoxville, Tenn. His address is care of the Division of Land Planning and Housing. He writes that Tracy B. Augur '17 is employed there as a town and regional planner in the same Division.

'29 AB—Morton Singer announces that he has opened offices for the practice of law at 45 John Street, New York, Suite 310.

'30 AB—John Teagle is a geologist with the Humble Oil and Refining Company. His address is 101 Gatewood Court, San Antonio, Tex.

'30 AB—Hilda Irmschler is teaching German and living at the Ogontz School, Ogontz P.O., Penna. Her permanent resi-

dence, however, and where she spends her week-ends, is 423 Perkiomen Avenue, Lansdale, Penna.

'30 AB—Percy B. Jessup is doing full time work in the Harvard Graduate School of Education. His address is Wayland, Mass.

'30 AB—Isabelle Rogers is teaching civics and history in the Curtis High School, Staten Island. Her address is 36 Scribner Avenue, New Brighton, S. I.

'30 AB—Jean Munson is teaching in P.S. No. 14 in Yonkers, N. Y. Her address is 241 Warburton Avenue, Yonkers.

'30 AB—Mr. and Mrs. George W. Leibig of Bechtelsville, Pa., have announced the engagement of their daughter, Ruth, to William C. Whitwell of New York.

'30 AB—Mr. and Mrs. Henry C. Lamb of Cleveland have announced the marriage of their daughter, Isabel, to Max M. Wylie, son of the Rev. E. M. Wylie, pastor of the Park Avenue Presbyterian Church, New York. Mr. Wylie is a graduate of Hamilton College '28. He is a member of the production staff of the Columbia Broadcasting Company, New York. Mr. and Mrs. Wylie will live at 201 E. 35th Street, New York.

'30 AB—Truman K. Powers, connected with the law offices of Allan H. Treman '21 at Ithaca, New York, announces his engagement to Frances Batterson of Ithaca. Miss Batterson is a graduate of the dramatic department of Ithaca College '33. Powers' residence is 510 Dryden Road.

'30 AB; '31 BS—Mr. and Mrs. Walter Nuffort of 900 South 16th Street, Newark, N. J. announced the engagement of their daughter, Helen Louise Nuffort to Mr. Donald Burt Saunders, son of Mrs. Oliver H. Saunders and the late Mr. Saunders of Brooklyn, N. Y. on December 30th. Miss Nuffort is a member of Kappa Alpha Theta. Mr. Saunders belongs to

Theta Delta Chi and to the Cornell Club of N. Y. Walter Nuffort is a member of the Class of 1900. Mr. Saunders' sister, Mrs. Roy Woodleton was graduated in the Class of 1916.

'31 CE—Harold W. Hansen writes that he recently resigned his position as vice-president of the General Indemnity Corporation to go West with his father and assist him in testing a new gold-extraction process. They have established a permanent experimental mill in Helena where tests will be run this winter and next spring. Hansen has also secured an interest in several gold properties and is engaged in development work for proving them. The largest one is at Independence, Montana. Hansen's address is P. O. Box 696, Helena, Mont.

'32—Mr. and Mrs. Harry Scott Partidge announce the marriage of their daughter Helen, to Ralph H. Bevier on the 29th of last June. Mr. and Mrs. Bevier reside at the Hotel George Wythe, Wytheville, Va.

## CORNELL CLUB LUNCHEONS

Many of the Cornell Clubs hold luncheons at regular intervals. A list is given below for the particular benefit of travelers who may be in the some of these cities on dates of meetings. Names and addresses of the club secretaries are given. Unless otherwise listed, the meetings are of men:

<i>Name of Club</i>	<i>Meeting</i>	<i>Place</i>	<i>Time</i>
Akron (Women)	1st Saturday	Homes of Members	1:00 p.m.
Secretary: Mrs. Ralph B. Day '16, 245 Pioneer Street, Akron.			
Albany	Monthly	University Club	12:30 p.m.
Secretary: George W. Street '23, 158 State Street, Albany.			
Baltimore	Monday	Engineers' Club	12:30 p.m.
Secretary: Leslie E. Herbert '30, 806 E. North Ave., Baltimore.			
Boston	Monday	American House,	12:30 p.m.
Secretary: Walter P. Phillips '15, 11 Beacon Street, Boston. 56 Hanover Street			
Boston (Women)	Tuesday (3rd)	Y. W. C. A.	4:00 p.m.
Secretary: Mrs. M. Gregory Dexter '24, 24 Somerset Street, Worcester.			
Buffalo	Friday	Hotel Statler	12:30 p.m.
Secretary: Herbert R. Johnston '17, Pratt & Lambert, Inc., Buffalo.			
Buffalo (Women)	Monthly	College Club	12:00 noon
Secretary: Miss Alice C. Buerger '25, 3900 Main Street, Eggertsville.			
Chicago	Thursday	Mandels	12:15 p.m.
Secretary: C. Longford Felske '24, 33 South Clark Street, Chicago.			
Cleveland	Thursday	Cleveland Athletic Club	12:15 p.m.
Secretary: Charles C. Colman '12, 1836 Euclid Avenue, Cleveland.			
Denver	Friday	Daniel Fisher's Tea Room	12:15 p.m.
Secretary: James B. Kelly '05, 1660 Stout Street, Denver.			
Detroit	Thursday	Union Guardian Bldg.	12:15 p.m.
Secretary: Edwin H. Strunk '25, c/o Packard Motor Co., Detroit.			
Los Angeles	Thursday	University Club	12:15 p.m.
Secretary: Clarence D. Coulter '18, 816 W. 5th Street, Los Angeles.			
Los Angeles (Women)	Last Saturday	Tea Rooms	Luncheons
Secretary: Miss Bertha Griffin '09, 1711 W. 66th Street, Los Angeles.			
Milwaukee	Friday	University Club	12:15 p.m.
Secretary: Henry M. Stillman '30, 727 Maryland Street, Milwaukee.			
Newark	2nd Friday	Down Town Club	12:30 p.m.
Secretary: Milton H. Cooper '28, 744 Broad Street, Newark.			
New York	Daily	Cornell Club, 245 Madison Avenue	
Secretary: Andrew E. Tuck '98, 245 Madison Avenue, New York.			
Philadelphia	Daily	Cornell Club, 1219 Spruce Street	
Secretary: Stanley O. Law '17, 907 Fidelity-Philadelphia Bldg., Philadelphia.			
Philadelphia (Women)	1st Saturday	Homes of Members	Luncheon
Secretary: Miss Mildred H. Hiller '25, 812 W. Birch Street, Philadelphia.			
Pittsburgh	Friday	Kaufman's Dining Room	12:15 p.m.
Secretary: George P. Buchanan '12, Hotel William Penn, Pittsburgh.			
Pittsburgh (Women)	Monthly	Homes of Members	Afternoon
Secretary: Mrs. James P. O'Connor '27, Coronado Apartments, Pittsburgh.			
Rochester	Wednesday	University Club	12:15 p.m.
Secretary: Leslie E. Briggs '21, 236 Powers Building, Rochester.			
Rochester (Women)	Monthly (usually Wednesday)	Homes of Members	Evening
Secretary: Miss Esther M. Rhodes '27, 224 Alexander Street, Rochester.			
San Francisco	2nd Wednesday	S. F. Commercial Club	12:15 p.m.
President: Walter B. Gerould '21, 575 Mission Street, San Francisco.			
San Francisco (Women)	2nd Saturday	Homes of Members	Luncheon or Tea
Secretary: Mrs. Wilson D. Clark '10, 732 Contra Costa Avenue, San Francisco.			
Syracuse	Wednesday	University Club	12:30 p.m.
Secretary: Robert C. Hosmer '02, 316 South Warren Street, Syracuse.			
Syracuse (Women)	2nd Monday	Homes of Members	6:30 p.m.
Secretary: Miss Leah M. Bladen '24, 139 Wood Avenue, Syracuse.
