LIGHTS AND SHADOWS ON THE SNOW AT THE APPROACH TO TRIPHAMMER BRIDGE

## Acetylene still shows the way

Your nicest textiles—as well as vitamins, headache remedies, plastic garden hose, or welding on your car—may stem from this versatile gas

**FORTY YEARS AGO** acetylene gas made from calcium carbide was used for home and street lighting, and was in common use for bicycle and automobile lights. Though these old lights have long since gone out, acetylene has gone on to chemical greatness.

**IN CHEMICALS**—Today, acetylene is the parent of hundreds of chemicals and chemical products used to make plastics, insect sprays, vitamins, aspirin, sulfa drugs and many other things.

Acetylene is the source of some of the basic chemicals in *dynel*, the new wonder textile fiber. It also goes into the Vinylite plastics used in beautiful home furnishing materials, protective coatings, and a host of other products.

**IN METAL FORMING**—In the production and use of metals, acetylene teamed up with oxygen has revolutionized many industries. From mines-to-mills-to-manufacturer,

you will find oxy-acetylene cutting, welding and metal conditioning.

**50 YEARS OF PROGRESS**—The people of Union Carbide have produced acetylene for over half a century. Through continuous research they have made many remarkable acetylene discoveries important in the lives of all of us.

### STUDENTS and STUDENT ADVISERS

Learn more about the many fields in which Union Carbide offers career opportunities. Write for the free illustrated booklet "Products and Processes" which describes the various activities of UCC in the fields of ALLOYS, CARBONS, CHEMICALS, GASES, and PLASTICS. Ask for booklet O-2.

# UNION CARBIDE

## AND CARBON CORPORATION

30 EAST 42ND STREET **UCC** NEW YORK 17, N. Y.

UCC's Trade-marked Products of Alloys, Carbons, Chemicals, Gases, and Plastics include

PREST-O-LITE Acetylene • LINDE Oxygen • PRESTONE and TREK Anti-Freezes • BAKELITE, KRENE, and VINYLITE Plastics • SYNTHETIC ORGANIC CHEMICALS  
NATIONAL Carbons • ACHESON Electrodes • PYROFAX Gas • HAYNES STELLITE Alloys • ELECTROMET Alloys and Metals • EVEREADY Flashlights and Batteries

# Does your present job hold the proper future for you?

**1. Do you want independence as well as security?** You're in business for yourself in life insurance . . . with an able general agent and a strong company guiding you to success.

**2. Do you like to help other people?** New England Mutual men have a strong urge to combine service to others with their chosen career. This business provides that kind of satisfaction as few others do.

**3. How much income can you earn?** There's no top limit—or speed limit—on the earnings of New England Mutual sales representatives. After your financed learning period, your own efforts and ambition set the pace. Many young graduates of our training program make over \$5000 in their first year. Many of our "older hands" earn well into five figures.

**4. How can you tell whether you'll succeed in life insurance?** New England Mutual gives you special aptitude tests and tells you frankly whether or not it thinks you will make good.

**5. Is New England Mutual a good company to represent?** Its liberal, flexible policies cover every sales need and are nationally advertised—and its men are stimulating and congenial to work with. The company has been established on both coasts for over a century, and its resources have doubled in the past 10 years.

**6. How quickly could you get going?** First, send in the coupon for more complete answers to your questions. Then, if you and New England Mutual like each other, you can start selling under expert supervision even while you are training.

These two booklets will give you a good idea whether you'll find what you want in life in life insurance work.

## CORNELL alumni now achieving successful careers as our agents:

# A DESCRIPTION OF CAREER OPPORTUNITIES AT GENERAL ELECTRIC

## Information you may want to pass on to someone planning his future

This new booklet contains brief introductory descriptions of such General Electric training programs as:

1. The Test Engineering Program, offering engineering graduates opportunities for careers not only in engineering but in all phases of the Company's business.
2. The Business Training Course, open to business administration, liberal arts, and other graduates . . . for careers in accounting, finance, administration.
3. The Manufacturing Training Program, open to graduates with a technical education or

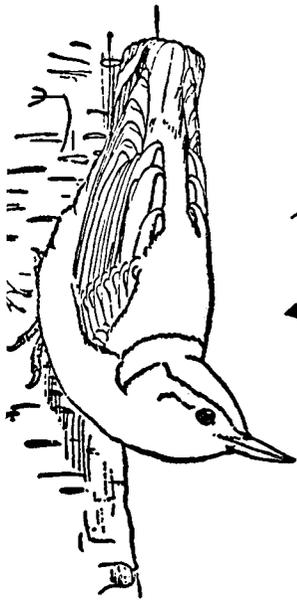

a general education with technical emphasis . . . for developing manufacturing leaders.

4. The Chemical and Metallurgical Program, offering rotating assignments and studies for chemists, chemical engineers, and metallurgical engineers.
5. The Physics Program, the gateway by which physics majors begin careers with General Electric.
6. The Sales Training courses, equipping young men to serve G-E customers through expert technical assistance.

A card to us will bring you a copy of the booklet. Or let us send it for you to someone who will want to know the variety of futures that are possible at General Electric. Write to Dept. 221A-6, General Electric Co., Schenectady, N. Y.

# American Bird Songs

RECORDED BY DRS. P. P. KELLOGG AND A. A. ALLEN FOR  
THE ALBERT R. BRAND BIRD SONG FOUNDATION,  
LABORATORY OF ORNITHOLOGY, CORNELL UNIVERSITY

## Volume One

A partial list of birds heard in Volume One. Olive-backed Thrush. Veery. Wood Thrush. Hermit Thrush. White-throated Sparrow. Whip-poor-will. Scarlet Tanager. Rose-breasted Grosbeak. Slate-colored Junco. Yellow-bellied Sapsucker. Alder Flycatcher. Olive-sided Flycatcher. Song Sparrow. Robin. Catbird. Baltimore Oriole. Yellow Warbler. Flicker. Chickadee. Wood Pewee. Chipping Sparrow. Red-eyed Vireo. Yellow-throated Vireo. Warbling Vireo. Indigo Bunting. Pine-woods Sparrow. Pine Warbler. Orchard Oriole. Yellow-breasted Chat. Carolina Wren. Mockingbird. Brown Thrasher. Cardinal. Summer Tanager. Chuck-wills-widow. Barred Owl. Bobolink. Meadowlark. Western Meadowlark. Vesper Sparrow. Field Sparrow. Red-winged Blackbird. Prairie Horned Lark. Savannah Sparrow. Lark Sparrow. Killdeer. Spotted Sandpiper. Burrowing Owl. Ruffed Grouse. Bob-white. Wild Turkey. Dusky Grouse. Prairie Chicken. Chachalaca. Gambel's Quail. California Quail. White-winged Dove. Woodcock. Canada Geese. Mallard Ducks. Wren Tit. California Thrasher.

Six ten-inch vinylite records,  
twelve sides. In an album.

**\$8.50**

## Volume Two

A partial list of birds heard in Volume Two. Bluebird. Phoebe. White-breasted Nuthatch. Mourning Dove. Bronzed Grackle. House Wren. White-eyed Vireo. Tufted Titmouse. Blue Jay. Screech Owl. Red-eyed Towhee. White-eyed Towhee. Cowbird. Least Flycatcher. Starling. Western Meadowlark. Dickcissel. Chestnut-collared Longspur. Clay-colored Sparrow. Willet. Common Loon. Whistling Swan. Lesser Canada Goose. Western Grebe. Pied-billed Grebe. Sandhill Crane. Coot. Kingfisher. Boat-tailed Grackle. Limpkin. Red-winged Blackbird. Yellow-headed Blackbird. Long-billed Marsh Wren. Short-billed Marsh Wren. Swamp Sparrow. American Bittern. Wilson's Snipe.

Five twelve-inch records,  
ten sides. In an album.

**\$10.50**

### VOICES OF THE NIGHT

*The Calls of 26 Frogs and Toads  
Found in Eastern North America.  
Frogs heard include Spring Peeper,  
Green Tree Frog, and the Bullfrog.  
Album of 4 vinylite records. \$6.50*

"A fascinating collection! . . . Playing the records, one begins to fear a visit from the landlord with the stern warning that tenants are not allowed to keep birds in apartments."—*The New York Times*

## President Speaks at New York Dinner University Council Announces Plans

PRESIDENT DEANE W. MALOTT and Mrs. Malott were greeted by 550 alumni and wives and husbands at a dinner given by the Cornell Alumni Association, February 7, in the Starlight Roof of the Waldorf Astoria, New York City. Henry L. O'Brien '21 vice-president of the Alumni Association, introduced the President. O'Brien was chairman of the committee which arranged the dinner, with presidents of the men's and women's Cornell Clubs of the Metropolitan area.

In his first appearance at a general alumni gathering in New York City, President Malott gave his impressions and discussed some of the problems of the University of which he became the sixth President last July 1. He had come to Cornell, he said, because he "just couldn't resist" the invitation, but he finds the University "the most complicated spot on the face of the earth." He and Mrs. Malott, he said, had been "captivated by the virile strength of the place," and he paid tribute to Trustees, Faculty, and administrative officers, students, alumni, and townspeople of Ithaca. "My greatest regret," he said,

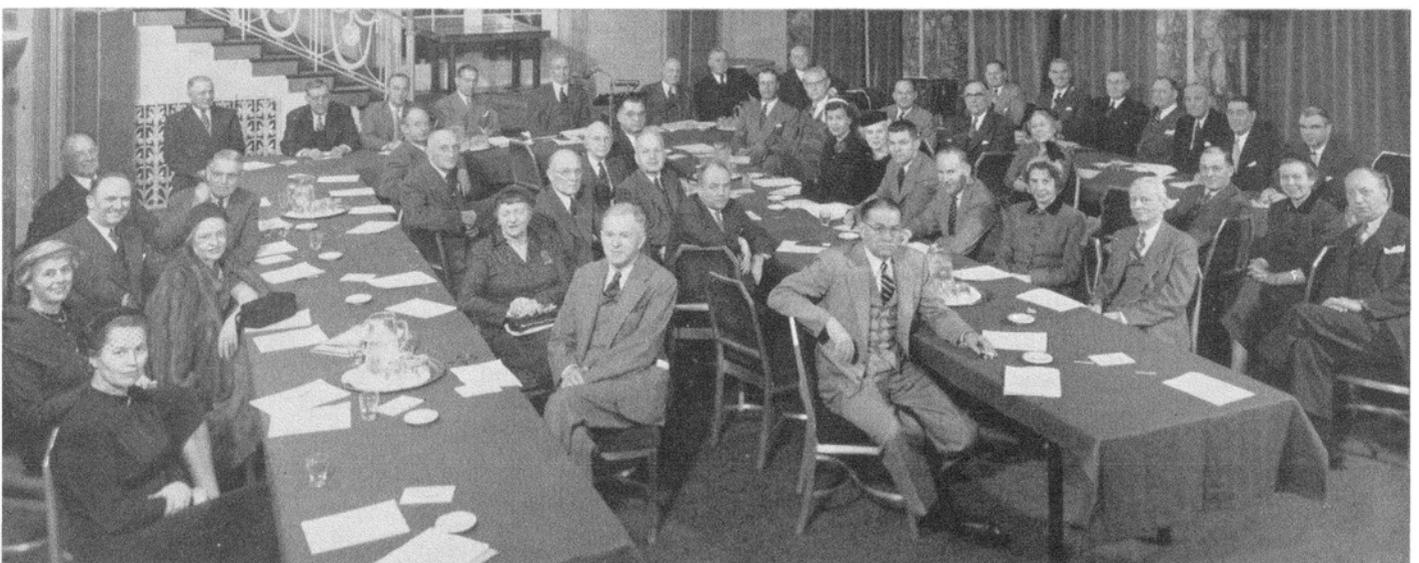

"is that I am not a Cornellian." He called himself a "chore boy" to help solve the problems of the University.

"In education," the President said, "we have to do two or three dollars' worth of effective work for each dollar we possess," and he expressed doubt that the University budget will ever again be balanced. "Our product is turned out in four to seven years, with each 'unit' an individual," and this requires a highly-specialized Faculty. The President said he would recommend to the Trustees for a baccalaureate degree any student who had learned the ability to acquire facts, a tolerance of other persons, a sense of humor, and some understanding of human nature.

He spoke of the financial situation of endowed universities as "important for the American way of life" and said, "We must get additional support from the public or we will get it from the government." The President referred to a report made by Vice-president Willard I. Emerson '19 to members of the University Council that afternoon that the University had received more than \$3,000,000 in gifts and grants in the last six

months of 1951 and spoke of the appointment of Edwin T. Gibson '08 as chairman of a new committee of the Council, formed "to obtain support for Cornell from industries and business enterprises which are convinced that they can strengthen America by strengthening its colleges and universities in a time of urgent financial need." He spoke also of the appointment of a committee to advise the University in encouraging bequests, headed by Ezra Cornell III '27; of the appointment of James A. McConnell '21 as chairman of a committee to raise funds for expansion of work in the School of Nutrition and University Clinic; and of a committee of the Law Association headed by Ralston R. Irvine '26, appointed to develop plans for annual giving by Law School alumni. The President paid tribute to Harry V. Wade '26, president of the Cornell Alumni Association, who has travelled more than 14,000 miles at his own expense, visiting Clubs and promoting the interest of alumni in the University. "It is heartening to know that Cornell has such people," the President said, "who are willing to give their time and talents for their University."

University Trustees and alumni officials were seated at the head table with President and Mrs. Malott. An invocation was pronounced by the Rev. Rich-

**First Regional Meeting, Cornell University Council**—Members of the Council from the Metropolitan area gathered at the Waldorf Astoria in New York City, February 7. At the speakers' table, left to right, are Trustee Emeritus Ezra B. Whitman '01; Ezra Cornell III '27, chairman of new bequests committee; Dean Paul M. O'Leary, PhD '29, Arts & Sciences; President Deane W. Malott; Trustee Francis H. Sheetz '16, chairman of the Council; Willard I. Emerson '19, Vice-president for University Development and executive director of the Council; Neal D. Becker '05, chairman of the University Board of Trustees; and Ellis L. Phillips '95. *Drucker-Hilbert Co.*

ard B. Stott, Episcopal student chaplain, and Thomas B. Tracy '31, director of the Glee Club, led the singing. Howard A. Heinsius '50 sang the "Alumni Song" and the Cayuga Waiters of the Glee Club sang several selections.

### Council Hears Dean O'Leary

First regional meeting of the Cornell University Council preceded the Alumni Association dinner. For two hours at the Waldorf, some sixty members of the Council from the Metropolitan area heard reports and discussed plans for the development of the University. The chairman of the Council, Trustee Francis H. Scheetz '16, presided.

Dean Paul M. O'Leary, PhD '29, spoke of the prospects and accomplishments of the College of Arts & Sciences of which he was recently elected head. He called attention to specific needs which he said he hoped the University Council will help to meet.

### Arts College is Cultural Center

"The College of Arts & Sciences has a place of peculiar importance at Cornell," he said. "Although just under 30 per cent of the University's students are in the College, its Faculty teach a few more than 45 per cent of the student hours taught in Ithaca. Some of this so-called 'accessory instruction' is essentially professional, or at least pre-professional in nature: mathematics and physics for students in Engineering, chemistry for Agriculture, zoology for pre-medical students. But many undergraduates in other Colleges elect our courses for their general cultural content, which they know is lacking in their vocational or professional courses as they are now taught.

"The Faculty of the College take seriously the role of the College as the cultural center of the University. Sometimes we have to resist well-meaning but misguided efforts of some of our University colleagues to make our courses for 'their' students 'more practical.' The Arts College Faculty is aware of the pressing need for one to know how to make a living, but many of its members feel that their own living can most justifiably be made by helping young men and women to learn to live well: to live with taste and discernment in a world which seems to many of us to show distressing signs of exalting mass values, group standards, and stereotyped reactions at the expense of individualism, humanism, and genuine personal creativeness. For this reason, many persons in the College feel that the *soul* of the Arts College resides in the humanities, though all of us value greatly the *body* consisting of the sciences, natural, physical, and social. Like most souls, the soul of the Arts College tends to be neglected. Yet it is still strong and vigor-

ous. With careful attention and adequate resources it will increase in strength and vigor."

More scholarship funds, the Dean said, are "badly needed" for assisting good students, in the face of competition from other universities. He cited the recent endowment of Freshman scholarships by Spencer L. Adams '93 as "a fine example of the kind of help we need." More endowed professorships are also needed. "Good students and fine teachers are necessary for a great College." He cited the need for a "new or much expanded Library building if Cornell is to stay great" and the need for better student housing. "Decent physical conditions for students and Faculty to work under are important, but good students and a great Faculty are the indispensable, fundamental conditions of real academic greatness. The College of Arts & Sciences," he concluded, "has a great and exciting future and a highly creditable past. It is today sound, vigorous, and in many ways outstanding. With your help, it can become finer and better in many ways."

### Committee To Advise on Bequests

President Malott hailed the University Council as of great value to the University, outlined the plans and progress being made in new buildings and facilities, and spoke especially of the need for expansion of the Library and for new men's dormitories. Ezra Cornell III '27 told of plans for the bequest committee of the Council to advise the University in interesting prospective donors through bequests in their wills. Serving with him are Thomas B. Gilchrist '06, Lawrence G. Bennett '09, Harold T. Edwards '10, Charles M. Thorpe, Jr. '16, Frank B. Ingersoll '17, Alfred M. Saperston '19, Alexander Pirnie '24; Trustees Francis H. Scheetz '16, Elbert P. Tuttle '18, Mary H. Donlon '20, and George R. Pfann '24; Professor John W. MacDonald '25, Law; and Robert B. Meigs '26, University Counsel.

### Gifts Increase This Year

Vice-president Emerson reported a substantial increase over last year in gifts and bequests received by the University in the six months to December 31, 1951, for a total of \$3,002,381, a 25 per cent increase over the same period a year ago. Gifts from corporations and business enterprises totalled \$593,000 as compared with \$562,000 last year; from foundations and charitable trusts, \$1,185,000 as compared with \$787,000; bequests and income from trusts under wills, \$339,000 as compared with \$169,000; and from individuals, \$883,000 as compared with \$873,000 last year.

The raising of funds for the University, he said, is divided into three categories: continuing gifts including annual giving through the Alumni Fund

and by non-Cornellian parents of students and a special campaign for the Library; student aid in the form of scholarships, fellowships, loan funds, and prizes; and special efforts to provide for endowment of professorships, buildings, and similar long-term needs of the University. In this category, he reported progress on the campaigns for the Babcock Memorial Professorship and Endowment, for funds to complete Kimball and Thurston Halls for the College of Engineering, for maintenance funds for Anabel Taylor Hall, an enlarged objective for operation of the Laboratory for Virus Diseases of Dogs, from non-Cornellian sources, and announced plans for enlarging the program of the School of Nutrition, with new facilities for the University Clinic.

### Gibson '08 Heads Corporation Program

Emerson outlined the findings of the survey his office has made of corporation support of education and research and announced that Edwin T. Gibson '08 would head a Council committee to develop gifts from corporations to the University.

Gibson retired this year as executive vice-president of General Foods Corp. He entered the Law School in 1904 and received the LLB in 1907. After practicing law in New York City, he was in the legal department of National Biscuit Co. from 1912-15. From 1916-26, with an interlude of war service as a major in the AEF, he was with American Sugar Refining Co., first as assistant to the president, then as secretary of the company. For four years, 1926-30, he was president of Brooklyn Cooperage Co.; then for two years was executive vice-president of Empire Bond & Mortgage Corp., becoming president of Frosted Foods Co. in 1933. He was made vice-president of the parent General Foods Corp. in 1939.

Gibson won the "C" in football three years and helped to coach the team in 1907. He is a member of Phi Kappa Psi and Phi Delta Phi, Quill & Dagger, and the Savage Club; has been president of the Cornell Club of New York. Edwin C. Gibson '53 is his son.

### Gather in Africa

EIGHT CORNELL ENGINEERS, working in various parts of North Africa, met January 17 at the Key Club in Casablanca, Morocco. "It was a real Cornell get-together complete with Cornell Chimes on the phono and loud bellowing of the Alma Mater," writes Salvator J. Scacciaferro '21. The others present were William F. Summers '14, Michael Martirosian '30, Walter A. Rutes '49, David J. Swift '50, Louis J. Amadio '50, and Alexander D. McDonald '51. The group hope to meet monthly.

# New University Division Aids Able Students in Wrong Niche

LIKE OTHERS of the Faculty, I had some doubts about the success of the experiment; but now I am confident and enthusiastic. I only wish that someone could devise a better name for it."

This is the comment of Professor Blanchard L. Rideout, PhD '36, newly-appointed Director of the University Division of Unclassified Students which started operation at the beginning of the spring term, February 4, with twenty-two students admitted.

The basis for the Director's optimism is that already the new Division has demonstrated that it will not be just a "dumping ground" for youngsters who are in scholastic difficulty, or a subterfuge by which those who are dissatisfied can transfer at will from one College or School to another. This reservation had been expressed by more than one Faculty doubter in the several discussions of the plan before it was adopted. But the records of the twenty-two students who have applied and were admitted (and the fact that an equal number were refused admission) have convinced the Director and many others that the new Division can, in fact, serve a most important function to the University.

## Serves Varied Circumstances

Professor Rideout sums it up by showing the diversity of the Cornell experience of the twenty-two Freshmen and Sophomores who have enrolled in his Division and the widespread variety of the Schools and Colleges to which they aspire. Ten of this first group were admitted from Mechanical Engineering, four from Chemical Engineering, three from Electrical Engineering, two from Arts & Sciences, and one each from Civil Engineering, Agriculture, and Architecture. After a term or two in the new Division, thirteen hope to be accepted in Arts & Sciences, two each for Agriculture and Architecture, and the others are aiming for Hotel Administration, Industrial & Labor Relations, Home Economics, Civil Engineering, and Engineering Physics. The fact that they have applied and been admitted from so many divisions, and that they promise eventually to be accepted for transfer to an even greater number shows, Professor Rideout is sure, that the new Division can accomplish a University-wide service of real importance.

Here are typical cases:

Freshman A entered Arts & Sciences last fall with a high rating in the scholastic aptitude tests and an excellent school record. He chose Cornell because of the diversity of opportunity it offers and with some indecision as to whether he wanted the five-year course in Engineer-

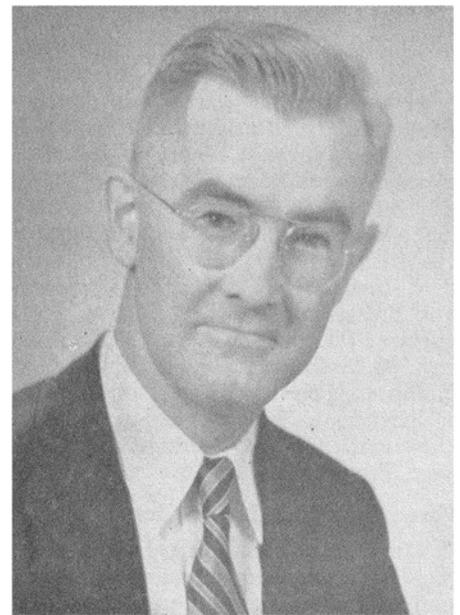

ing Physics or to prepare himself for medical school later. He decided to enter the pre-medical course, and made identical grades of 94 in Mathematics, Physics, and Chemistry, 88 in Psychology, and 77 in English. But the rules of the Arts College limited him to fifteen credit hours, all in the College, during his Freshman year. Having crystallized his thinking along the lines of Engineering Physics (one of the most difficult courses in the University), he learned that that division requires Descriptive Geometry in the first year and a course in Castings the next, neither of which he could take as a student in Arts. This excellent student therefore applied to the Division of Unclassified Students, was accepted, and is taking more than fifteen hours, for which he has ample capacity, and getting this term the courses he will need to enter Engineering Physics next fall as a full-fledged Sophomore.

Freshman B, the son of a Peruvian land-owner, went to school in Canada and entered Agriculture last fall to study Animal Husbandry. He finds now that his interests lie in the hotel business, so has entered the Division of Unclassified Students for a term to take courses outlined by the Hotel School with the object of transferring to that School next fall if his inclination and abilities prove out.

Another boy whose father ran a canning business in Maryland came to Mechanical Engineering last fall, but shortly after, his father died, leaving the business to him and an older brother. The family situation changed the boy's objective toward taking courses in food science and food processing in Agriculture, so he has entered the Division with a selection of courses in both Engineering and Agriculture to make sure of his decision.

Finishing her third term in Arts & Sciences with an average grade of 79, a woman student decided that she would like to be a home economics teacher. With a successful record and at the advice of Director Rideout and advisors in the College of Home Economics, she has enrolled for a new course of Home Economics studies in the Unclassified Division this term, to prove to herself that her choice is right.

Two boys after three terms in Mechanical Engineering were not doing well with the technical engineering courses, but both showed ability in those dealing with drawing and design. They applied for the Division of Unclassified Students independently, and after examination of their records and talking with them and with Dean Mackesey, Director Rideout enlisted an advisor in the Col-

Director Rideout—Heads new University Division of Unclassified Students

lege of Architecture who has suggested a program in the Division leading toward enrollment in the new course in Industrial Design offered by Architecture.

The Division of Unclassified Students (which everyone agrees is poorly described by its name and needs a better one right away) was devised to meet a generally-recognized need to give special attention to those students, potentially able, who find themselves in the wrong niche after a term or two in the University but who could make a more satisfying career in some other division than the one in which they had started. Such students, especially since the post-war "bulge" in enrollment when quotas were set up for each College and School, have sometimes had great difficulty in transferring from their original courses. Some who could have made a success in other lines have failed or left the University as a result.

## Meets Long-Standing Need

Actually, this situation was recognized and a good many cases were handled, unofficially, by the University Director of Veterans Education, Professor Loren C. Petry and later Donald H. Moyer, when the problem first became acute and when many of the students affected were war veterans. It was done then by negotiations with the separate Faculties concerned. But since the departure of the veterans, the problem of "salvaging" able students has remained, with no agency to handle it. The present solution evolved in a somewhat roundabout way, as these things often do.

The President's conference of Deans and Directors in September, 1949, concerned with "Freshman orientation," appointed a committee with Professor Petry as chairman, to study and report

on the problems to be met in a comprehensive University program. At its first meeting this committee sought and received permission to consider as the Freshman's orientation period his whole first year in the University. Its other members were Deans of Men and Women Frank C. Baldwin '22 and Lucile Allen; Dean of the Faculty Carleton C. Murdock, PhD '19; Director of Resident Instruction A. Wright Gibson '17 and Professor Lincoln D. Kelsey, Agriculture; Professor Robert F. Chamberlain '08, Assistant Dean of Engineering; Rollin L. Perry, chairman of the Arts & Sciences advisory board for undergraduates; and Dr. Edward C. Showacre, Preventive Medicine.

### **Came from Faculty Studies**

Three aspects of the Freshman year in the University were pursued: the function and operation of the student advisory system in the various Colleges by a committee headed by Director Gibson; study of fraternity rushing, which was referred to the Faculty committee on student activities headed by Professor Petry; and the study of transfers within the University which was undertaken by a special committee headed by Dean Thomas W. Mackesey of the College of Architecture.

Dean Mackesey's committee had also Deans Murdock and Baldwin, Professor Rideout who was then Assistant Dean of Arts & Sciences, Director of Admissions Herbert H. Williams '25, Professor Marvin D. Glock, Rural Education, Director of the University Testing & Service Bureau; and Professors Cedric H. Guise '14, Conservation, and Everett M. Strong, Grad '24-'26, Electrical Engineering. Looking into the experience at other comparable universities, the committee found that all seven institutions it queried had organized special divisions similar to the one now set up at Cornell to facilitate the transfers of deserving students.

This committee reported its findings and recommendations to the Dean's conference, which approved the report and referred it to the Faculty committee on University policy. That committee made some revisions and recommended the establishment of the new Division to the University Faculty, which discussed it at length at its meeting last September and finally adopted the report for approval by the Board of Trustees at its fall meeting.

### **Students Retain All Privileges**

The legislation authorizes the Division of Unclassified Students as a three-year experiment from last November 15. It gives broad authority to the Director, "appointed by the Board of Trustees upon nomination by the President, and an Administrative Committee consisting of the Director as chairman and mem-

bers of the University Faculty appointed by the President so as to give representation to those Colleges and Schools into which transfer of students is likely to be frequent and so as to provide for rotation of the membership of the Committee." The Administrative Committee is given power "to enact regulations and adopt operating procedures under the general supervision of the University Faculty" and has "the same authority to admit students, drop them, place them on probation, or remove them from probation that is exercised by a special Faculty with respect to the students of its College." Students in the Division are regular students in the University; if in good standing they may participate in extra-curricular activities the same as any others.

The University Faculty provided that "Any student who has been in residence as a candidate for degree in any of the Colleges or Schools of the University may apply for admission to the Division of Unclassified Students. Each student admitted to the Division shall be assigned a Faculty advisor who will normally but not necessarily be a member of the Administrative Committee of the Division. An unclassified student may, with the approval of his advisor, elect courses for which he is qualified in any division of the University subject, however, to limitations as to the size of the course.

### **Each Gets Individual Advice**

"A student registered in the Division of Unclassified Students may apply for admission to any College or School of the University. In considering his application, the admissions committee of the College or School to which he applies shall consult with the Director of the Division and the student's advisor and take into consideration their recommendations and the quality of the work which the student has done during his registration in the Division. If at the end of two terms, he has not been accepted as a candidate for a degree in a College or School of the University, he may not be permitted to re-register in the Division except by special action of the Administrative Committee."

With the Director, the other present members of the Administrative Committee are Dean Mackesey, Professor Guise for the College of Agriculture; Professors LeRoy L. Barnes, PhD '32, and Chandler Morse, Arts & Sciences; and Howard M. Giff, Engineering.

A student who wishes to enter the new Division applies at the University Registrar's office. (He need not consult the College or School in which he is registered.) When he fills out his application, his College or School is notified and a transcript of his academic record, together with the complete file of information gathered when he first entered

the University, is sent to Director Rideout. This includes his secondary-school reports, results of his scholastic aptitude tests, reports of interviews by alumni, and all other original application data. After studying the record, Director Rideout has interviewed each applicant to find out his reasons for wishing to change his course and what division he aims to enter. If he feels that the student is potentially able and has good basis for his choice, the Director then consults with the admission committee of the ultimate School or College and if they agree, asks them to suggest the right advisor for the student from their division, to work with him while he is in the Unclassified Division. Thus each student admitted to the Division has a definite prospect of acceptance in the School or College of his choice, if he demonstrates ability in that field, and has the advice and assistance of an interested and informed Faculty member in selecting courses in line with his interests and aptitudes.

"From that point," Director Rideout says, "it is up to him to show what he can do with the very best help that the University can give him. We may perhaps make mistakes in our judgments; it is to be expected that some students may 'bust out' of the Division; but at least, if they do, they will have had every opportunity to make good; and most of them, we hope, will be saved from the disappointment and frustration of just 'being stuck forever on the wrong track' or of losing the opportunity of a Cornell career because of being influenced to the wrong original choice. Only time will tell the ultimate success of the experiment, but after talking with each one of our first 'class' in the Unclassified Division, I am thoroughly optimistic."

The Director's optimism is contagious!

### **"A Sleep of Prisoners"**

"A SLEEP OF PRISONERS," by Christopher Fry, brought to the University by CURW for one performance, February 7, attracted a capacity audience to Bailey Hall. With expert lighting in place of changes of scene and with but few properties, the British cast of Leonard White, Donald Harron, Stanley Baker, and Clarence Derwent gave an impressive and moving performance of this allegory which has attracted considerable attention when given in churches throughout the country. Bailey Hall took on the setting of a great cathedral housing the four prisoners of war. The author's allusions were sometimes difficult for the uninitiated to understand, but most of the audience found the play a stimulating and rewarding experience.

The Cornell Daily Sun the next day questioned the advisability of bringing the show to the University, on the

**Sigma Phi Tops Again in Achievement**—H. Victor Grohmann '28 (second from left), president of the Interfraternity Alumni Association, presents to Anthony W. Bryant '52 for Sigma Phi the Association's plaque for outstanding performance in scholarship and Campus activities beneficial to the University, at a dinner in Statler Hall, February 10. The fraternity also won the award last year. At left is President Deane W. Malott. Next to Bryant are Interfraternity Council President John R. Boehringer '52 and Dean of Men Frank C. Baldwin '22. *Cornell Daily Sun: Coleman '54*

grounds that it had been difficult to understand. This editorial criticism brought a series of letters to the Sun from those who had enjoyed the play, even without understanding it completely.

## Sigma Phi Wins Again

INTERFRATERNITY ALUMNI ASSOCIATION and Interfraternity Council honored the outstanding fraternities on the Campus at a dinner in Statler Hall, February 10. It was the first time that the two groups had joined together in presenting their annual awards. The gathering included the alumni advisers and undergraduate chapter presidents of the fifty-nine fraternities and men's associations.

H. Victor Grohmann '28, president of the Interfraternity Alumni Association and toastmaster for the evening, presented the Association's plaque for outstanding performance in scholarship and Campus activities beneficial to the University community to Sigma Phi, which won the same award last year, and to Theta Xi the Association's plaque for the greatest improvement toward that goal since last year. The fraternities retain the large plaques for one year. They were given replicas for permanent possession.

Interfraternity Council plaques, presented by Council president John R. Boehringer '52, went to Sigma Phi for greatest participation in extra-curricular activities, as last year; to Alpha Zeta again as the house with the highest scholastic average; to Phi Kappa Psi for the greatest contribution to University life; and to Kappa Alpha for great-

est improvement in scholarship.

Speaking on the importance of fraternities as contributors to the Cornell way of life, President Deane W. Malott called the fraternities the "focal point in Cornell leadership." He praised what they have done in the last year toward raising their social standards, and said that room for improvement is still great. Dean of Men Frank C. Baldwin '22 also lauded the improvement in fraternities during the last few years.

## Invite Freshmen's Parents

INVITATION to attend a Freshman Parents' Weekend on the Campus, April 18-20, has been extended by President Deane W. Malott in a letter to the parents of each Freshman. Early returns indicate that many parents are planning to attend.

A committee of University administrators, Faculty members, and students, working with the Freshman Class Councils, is arranging a program for the weekend which is designed to better acquaint the parents with the University and with each other. Plans include an open house Friday night, where President Malott will welcome the parents and Faculty members will be on hand to greet them; meetings with the Faculty advisers of their sons and daughters; Campus tours; College exhibits; a baseball game with Pennsylvania and a lacrosse game with RPI Saturday afternoon; and a Bailey Hall show Saturday night, with the Men's Glee Club and Freshman talent entertaining.

William A. Morgan, Jr. '52 and Jack R. Vinson '52 are co-chairmen of the

Student Council Parents' Weekend committee. The committee includes Professors George E. Peabody '18, Extension Teaching & Information, and James D. Burfoot, Jr. '29, Geology; General Alumni Secretary R. Selden Brewer '40; Dean of Women Lucile Allen; Dean of Men Frank C. Baldwin '22; Alumni Field Secretary John A. Krieger '49; Robert W. Storandt '40, Associate Director of Admissions; W. Robert Brossman, Director of University Public Information; Robert O. Shaffer, PhD '51, Assistant to the President; Martha L. Ludwig '52, Edith L. Quinn '53, and John W. Bradshaw '53.

## New York Leaders

THREE CORNELLIANS, Henry Bruere '02, Peter Grimm '11, and Harold R. Riegelman '14, are among the five recipients of awards made by the Citizens Budget Commission of New York City for the first time this year, for distinguished service in city affairs. The Commission was founded twenty years ago in the midst of municipal crisis by these five men to arouse all citizens into active participation for better government. The awards will be made each year to citizens (not government officials) who have aided notably in raising the standards of city government.

## University Gets Bequests

FROM THE ESTATE of the late Paul H. Minton '20, left to the University for its unrestricted use, has come about \$486,000. Minton was killed October 8, 1949, when his helicopter crashed near his farm in Washington, N.J. He had invented machines for making absorbent filters for pipes and was manufacturing the filters in a small plant on his farm and supplying them for Medico Pipes. When the University inherited the estate, it continued to operate the business until it could be sold advantageously.

Minton entered Sibley College from Newark, N.J., Academy in 1916, enlisted in the Naval Reserve in June, 1918, and served as a Warrant Machinist on the USS Herbert L. Pratt, returning in January, 1919, and receiving the ME in 1921. He rowed on the Freshman crew; was a member of Sigma Nu and the Savage Club.

From the widow of Dr. Joel D. Holston, who took a special course in the Medical College in 1923-24, the University has received a bequest of \$40,900 to establish the Joel D. Holston, Jr. and Harriet C. Holston Fund, the income to be used for "scholarships for deserving boys and girls." Dr. Holston had received the MD in 1896 at Eclectic Medical College in Cincinnati and practiced medicine in Massillon, Ohio. He was

the uncle of Mrs. William E. Brainard (Eleanor Holston) '27 and Mrs. Richard R. Brainard (Beatrice Holston) '32.

## Serve Aeronautics

NATIONAL ADVISORY COMMITTEE for Aeronautics has this year on its technical committees for aid in design of superior aircraft and missiles eight members of the University and Aeronautical Laboratory in Buffalo. Reappointed chairman of the committee on aerodynamics for 1952 is Theodore P. Wright, University Vice President for Research. Director William R. Sears of the Graduate School of Aeronautical Engineering is a member of the subcommittee on fluid mechanics and Carl W. Gartlein, PhD '29, Physics, of the subcommittee on the upper atmosphere.

From the Aeronautical Laboratory, Director Clifford C. Furnas is on the committee on aircraft construction; W. F. Milliken, Jr., manager of flight research, subcommittee on stability and control; Clem Trimbach, head of the armament group, development division, subcommittee on aircraft fire prevention; Alexander H. Flax, head of aerodynamics research, committee on aerodynamics; and William M. Duke, pilotless aircraft manager, subcommittee on aircraft structures.

Selected for their technical ability, experience, and recognized leadership in their special fields, subcommittee members meet regularly to consider problems in their technological areas, to review research being conducted in NACA laboratories and elsewhere, to recommend research projects, and to assist in coordination of research. They include engineers in the aircraft industry and the

airlines, scientists from universities, and experts from the civil and military agencies of the Government most concerned with aeronautics.

Vice-president Wright and William Littlewood '20, vice-president of American Airlines, are members of the parent National Advisory Committee for Aeronautics. The Committee operates Langley Aeronautical Laboratory at Langley Field, Va., Ames Aeronautical Laboratory at Moffett Field, Cal., and Lewis Flight Propulsion Laboratory at Cleveland, Ohio, Hopkins Airport.

## Club Dines Legislators

ANNUAL DINNER given by the Cornell Club of Albany for Cornellians in the State Legislature and other officials of the State had fourteen alumni members of the Assembly, three Assemblymen who are fathers of Cornellians, one whose wife is an alumna, and several State officials who are ex-officio Trustees of the University.

Following dinner at the Fort Orange Club in Albany, January 22, Arthur C. McHugh '27, president of the Club, introduced Nelson R. Pirnie '21 as toastmaster. President Deane W. Malott was the principal speaker. Others were President Harry V. Wade '26 of the Alumni Association and President Alfred M. Saperston '19 of the Federation of Cornell Men's Clubs.

The alumni Assemblymen present were Henry D. Coville '93, Joseph W. Ward '13, William J. Reid, Winter Course '14-'15, Joseph R. Younglove '16, Wheeler Milmoie '17, Searles G. Shultz '20, Lawrence W. Van Cleef '20, Vernon W. Blodgett '22, J. Eugene Goddard '23, Thompson M. Scoon '24,

John F. Wadlin '24, Ray S. Ashbery '25, Samuel Rabin '26, and Hyman E. Mintz '29.

## Add Third Generation

TWO MORE third-generation Cornellians entered the University last year, in addition to the twenty-three who were listed in the ALUMNI NEWS December 1. Both are Freshmen in Arts & Sciences.

Henry C. Purcell, Jr. '55, son of Henry C. Purcell '31 and Mrs. Purcell (Mary Barvian) '31 of Chaumont, is also the grandson of the late Francis K. Purcell '01 and the late Eugene J. Barvian '06. George A. Rauh, Jr. '55, son of George A. Rauh '24 and Mrs. Rauh (Ysabel Muller) '25 of 1007 Central Avenue, Union City, N.J., is also the grandson of the late Enrique K. Muller '97. Both were listed with their fathers and mothers but not as third-generation Cornellians.

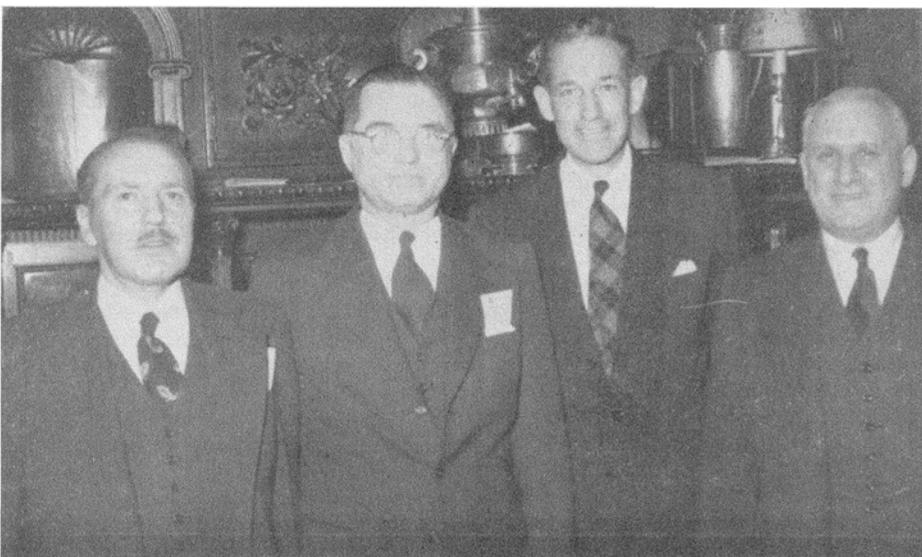

Sometimes entering students do not give all the names of their Cornell relatives, as they are requested to do. Corrections and additions to the published lists of alumni children are welcome for the University records and for publication.

## Plan Cornell Day April 26

CORNELL DAY chairmen in thirty-six Cornell Clubs are making plans to select boys who are juniors in the secondary schools of their areas to attend Cornell Day on the Campus, April 25-27. Last year, 258 boys were brought by alumni "chauffeurs" from thirty Clubs to get a preview of life at Cornell.

The prospective Freshmen will be housed and fed in fraternities. They will be taken on tours of the Campus, given the opportunity to talk with Faculty members and students in the various Schools and Colleges, shown exhibits and demonstrations, entertained at a Cornell Day rally and athletic events.

Chairmen of Club committees to bring boys to Cornell Day are Albany, John R. Hawkins '28; Bergen County, N.J., Frederic K. Lovejoy '24; Broome County, J. Donald MacQueen '26; Buffalo, William H. Harder '30; Central New Jersey, John F. Mattern '42; Chicago, Ill., Frederick W. Wendnagel '30; Cleveland, Ohio, W. Earl Monson '15; Delaware, J. Thompson Linster '28; Dutchess County, Bartholomew M. Jordano '48; Elmira, Henderson G. Riggs '44; Essex County, N.J., Louis A. Winkelman '23; Harrisburg, Pa., John W. Magoun '12; Hartford, Conn., Edward J. Daly, Jr. '50; Lackawanna, N.J., George Munsick '21; Lehigh Valley, Pa., Burnett Bear '22; Maryland, Seth W. Heartfield '19; Michigan, Edgar W. Averill '28; Mohawk Valley, Moses G. Goldbas '39; Nassau County, Raymond

Four Cornellian Presidents Meet—Speakers at the annual dinner given by the Cornell Club of Albany for Cornellians in the State Legislature were, left to right, President Arthur C. McHugh '27 of the Albany Club, President Harry V. Wade '26 of the Cornell Alumni Association, President Deane W. Malott of the University, and President Alfred M. Saperston '19 of the Federation of Cornell Men's Clubs. *A. C. McHugh, Jr.*

A. Kohm '23; New England, Peter T. Wood '40; Penn-York, Charles F. Kellogg '38; Philadelphia, Pa., Charles A. Olson '31; Pittsburgh, Pa., Darwin F. Carrell '23; Rochester, Donald C. Hershey '27; Schenectady, Glen W. Bennett '27; Skaneateles, Albert R. Nolin '21; Southern Ohio, John B. Brush '34; Syracuse, W. Dean Wallace '40; Toledo, Ohio, Milton L. Byron '24; Trenton, N.J., John H. Nevius '39; Union County, N.J., Louis J. Dughi '36; Washington, D.C., Joseph C. Gardner '22; Westchester County, Irving J. Bland '26; Western Massachusetts, James A. Mullane '35; Wyoming County, Donald G. Robinson '41; York County, Pa., William C. Stitzel '30.

Robert W. Storandt '40, Associate Director of Admissions, has been working with the Cornell Clubs on plans for bringing the boys here. Alumni Field Secretary John A. Krieger '49 is in charge of Campus arrangements for the week end activities.

## Dean White '96 Memorial

CORNELL WOMEN'S CLUB of Boston, Mass., is taking the initiative in raising for the University a Georgia Laura White Fund in memory of Georgia L. White '96, who was Dean of Women at the University from 1918 to 1926. Income from the Fund will be used as loans to women students, and if enough is raised it will also support a Federation Scholarship to be named for Dean White.

Approximately \$2000 has thus far been received. Mrs. James B. Palmer (Martha Kinne) '24, chairman of the campaign for the Fund, has written to the presidents of all Cornell Women's Clubs, pointing out that \$25,000 will be required to yield income of \$1000 a year for student loans, and that \$15,000 more will endow a Scholarship of \$600 a year. Clubs are urged to sponsor benefits for the Fund before October, 1953. Reports of plans were to be made at a meeting of Club representatives in New York City, March 1.

Dean White died in Boston, May 15, 1949. Before she entered the University, she and her brothers, the late Leonard N. White '91 and the late Judge W. Cravath White '94, lived in Ithaca; their father, George L. White, teaching music and was in charge of Sage College. Dean White had a long and distinguished career as an educator; her portrait, given by WSGA, hangs in Prudence Risley Hall. An outline of her career has been prepared by Dr. Juanita P. Johns '22, with whom she lived after she retired.

Contributions to the Georgia L. White Memorial Fund may be made to Cornell University and addressed to Box 303, Ithaca.

## Now In My Time!

*Romeyn Perry*

PERHAPS YOU'D LIKE TO HEAR about what has happened, and is happening, to College Town, meaning the twenty acres or so of closely-huddled structures to the south and southeast of Cascadilla Place which is pierced by portions of Eddy Street, Dryden Road, and \*Huestis Street?

In my time, that area was dedicated largely to student lodging houses of the baser sort with a sprinkling of business establishments which made no pretense of attracting trade on any basis other than the immediate and stark necessity of the customer. A news stand and tobacco shop, a drug store that sold bottled beer in case lots only, a pair of short-order restaurants, a barber shop, a laundry agency, and a clothes pressing place completed the tally at the turn of the century.

The change started when the East Hill House burned down and Sheldon Court was erected on its smoking embers; when Mr. Gainey invested the accumulated profits of his egg-sandwich business in the construction of the Gainey Block at the southwest corner of Huestis Street and Dryden Road. From the start provided by those daring and successful ventures in free enterprise the up-swing has been steady and marked until now College Town has a proud, individual identity, along with a Business Men's Association and a large municipal parking lot of its own. Gone are the student boarding and lodging houses of my time, and in their place Huestis Street from Pop's Place to the Firehouse, Eddy Street from the Campus Gate to the top of Buffalo Street, are lined with modern shops and business establishments and there's nothing a Hill dweller really has to go downtown for any more except the movies. And College Town would probably have had a movie theater by now had not television given the promoters pause.

All of which is reported as evidence of better and more sanitary surroundings for the current crop of students; along with the marginal note that your reporter, and others with him, vastly preferred things as they were.

\*Huestis Street has been College Avenue for more than forty years, but our correspondent stubbornly refuses to recognize the change in name!—Ed.

College Town now glistens at night with blinking signs and neon lights, but seems to have lost the color that in my time was supplied so bountifully by Mr. Gainey, the drug store, Hank Norwood's Dog, and Mr. Field, the eloquent barber, whose hot-water supply was limited to the contents of a small saucepan on the back of the stove.

We've heard Mr. Field convince many a student, as he completed a pretty sketchy shampoo by holding the subject's head under the cold-water tap in the kitchen sink, that the growing tendency to baldness in American manhood was caused entirely by the practice of washing the hair in warm water.

The color of Hank Norwood's Dog has been adequately dealt with by this reporter in another place (Behind the Ivy, p. 173), but perhaps you've forgotten Mr. Gainey who ran the egg-sandwich business into a modest fortune at five cents per sandwich.

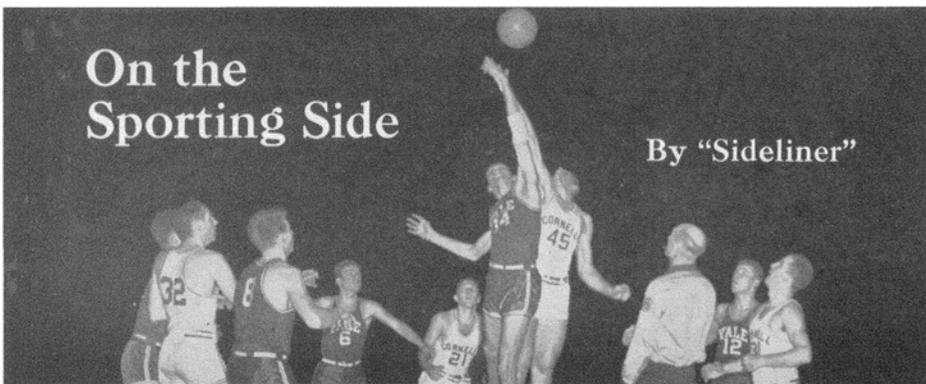

At that price, Mr. Gainey couldn't afford to use the Grade A exclusively, and naturally had to resort to case-eggs at times. Experience had led him to crack each egg and scrutinize its contents before dumping it into the frying pan, and that habit brought about the incident which was given considerable publicity at the time by Harry F. Vincent '04.

Mr. Vincent had stepped into the Gainey place to repair the wastage of an evening of hard study with a fried-egg sandwich and a cup of coffee, and the usual routine had been followed up to the point where Mr. Gainey cracks the egg and inspects its contents. But here occurred the departure from the script that occasioned all the comment. This time, the examination of the egg selected for Mr. Vincent brought a sharp ejaculation of astonishment from Mr. Gainey. "Gee", he said, "that's an awful good egg. That's good enough to poach." He then dumped that egg into a cup which he placed to one side while he reached in the box for a regular egg to fry for Mr. Vincent!

O, well! The changes are probably all for the better. No case of barber's itch has been reported by the Medical Office in years and the Infirmary seldom has to deal with food poisoning. It's our only point that all these improvements have been purchased with a great price. Where will College Town now get its enduring anecdotes with Mr. Gainey gone and Mr. Field, the eloquent barber, no more than a fading memory?

## On the Sporting Side

By "Sideliner"

### Basketball Ties at Top

THE FIRST Cornell defeat in the Eastern Intercollegiate Basketball League was soundly administered by Princeton, 68-54, in its Dillon Gymnasium, February 16. Princeton's only loss in the League had been to Cornell at Ithaca by an even greater margin, 67-51. Princeton beat Yale, February 20, to share the League lead with Cornell, each having won six games and lost one. But the remainder of the League schedule favored Princeton, as it was to meet its most difficult foes on its home court, whereas Cornell was to travel to meet Columbia, Pennsylvania, Dartmouth, and Harvard.

In the game at Princeton, the home team's uncanny accuracy in shooting, 42 per cent, finally overwhelmed a stubborn but poor-shooting Cornell team. The Varsity missed no less than seven lay-up shots, many of them in the third quarter when they were desperately needed. In the second quarter, Princeton outscored Cornell, 12-2, in the first four minutes and this proved too much to overcome.

Fred Tritschler, Princeton's six-foot-two jump-shot artist, set a Dillon Gym record of 24 points. John Werner '52 was high for Cornell with 18 points. Inability of Co-captain Fred J. Eydt '52 to retrieve the ball from either backboard and defensive lapses by Raymond L. Handlan '53 and Werner throughout were other contributing factors in this loss to the tall, fast-moving Tigers. Reminiscent of the football coaching tactics employed by Charles Caldwell last October 27, Coach Cappon did not make a substitution for his smooth-working first five.

Harvard's visit to Barton Hall, February 13, gave a 69-44 win to Cornell in one of the duller games of the year. Anticipating this, only 2500 spectators turned out.

Cornell started off with a most brilliant display of team play and the first-quarter score was 19-5. It took six and a half minutes for Harvard to score. But soon Harvard had Cornell playing its type of helter-skelter game, and Harvard actually outscored the Varsity, 14-10, in the second quarter. After a few words of

advice from Coach Royner Greene during halftime intermission, the Cornell poise and fluid team-play returned, and Harvard had not a chance. Werner was high with 18 points. Eydt had 14, Handlan, 12. Dennis and Hansen scored 10 apiece for Harvard.

The Yale game, February 9 at Barton Hall, was a well-played contest with Cornell victorious, 71-61. A 10-point bulge during the third period, in which Cornell outscored the visitors, 20-10, did it. Yale devised a zone defense for Coach Greene's boys which bothered them considerably, but John Werner's 28 points, a new Barton Hall record for a Cornell player, were decisive. Werner made ten field goals and tossed in eight foul shots without a miss. Weber scored 19 for Yale.

### Freshmen Stay Unbeaten

The fine Freshman basketball team continued undefeated as it took Ithaca College Jayvees, 68-47; the General Electric of Syracuse, 73-58, at Ithaca; and Wyoming Seminary, 84-77, at Wyoming, Pa. John Sheehy of Garden City, was high scorer in each game with 23, 29, and 40 points, respectively. The latter was a new Cornell record, which he achieved with eighteen field goals and four foul shots.

### Fencers Lose and Win

THE FENCING TEAM lost to Navy, 19-8, at Annapolis, Md., February 9, and won from St. Lawrence at Barton Hall, February 16, by a score of 16-11.

### Wrestlers Win and Tie

VARSAITY WRESTLERS made their best showing of the year at Annapolis, Md., February 9, when they scored an unexpected 15-11 victory over the US Naval Academy. William R. Van Gilder '53, at 137 pounds, Captain Frank A. Bettucci '53, at 147 pounds, John R. Arnold '53, at 157 pounds, Donald G. Dickason '53, and Lester D. Simon '53, heavyweight, won by decisions. Simon, a 167-

pounder, filled in at heavyweight for John H. Gerdes '54, scholastically ineligible, and outmaneuvered Navy's powerful Parker, taking a 6-2 decision.

Rutgers tied Cornell 12-12, at Barton Hall, February 16, by taking the last three bouts. William C. Morgan '54, 123 pounds, Van Gilder, Captain Bettucci, and Paul L. Sampson '53, 157 pounds, won for Cornell, all on decisions.

### Freshmen Beat Wyoming

The Freshman wrestlers defeated powerful Wyoming Seminary, February 16, by a score of 18-11. Rexford A. Boda, 123 pounds and Alexander L. Rago, 147 pounds, won by decisions. Captain Kenneth Hunt threw his opponent in thirty-seven seconds with a body press, and Joseph P. Simon produced a fall in the heavyweight class in 3:36 with a hammer-lock and half-nelson.

### Beat Princeton at Polo

THE POLO TEAM beat Princeton, 12-9, in the Riding Hall in a hard fought game, February 16. Robert M. Schless '54 played a spectacular game at No. 3, scoring 5 field goals and excelling on defense. James W. Leaton '53 scored 4 and Peter K. Johnson '54 scored 3.

### Army Wins Track Meet

ARMY's well-balanced track team outscored Cornell, 73-36, in the West Point fieldhouse, February 16. Captain Meredith C. Gourdine '52 and Arthur Gardiner '52 scored 23 of the Cornell points.

Gourdine won the high hurdles in 0:07.4, the broad jump with 23 feet, 2 inches, and took second to Bruce Hardy of the Army in the sixty-yard dash. Gardiner won the shot-put with a heave of 49 feet, 6 inches, and the thirty-five-pound weight event with a throw of 51 feet, 11 inches. The mile relay quartet of Gourdine, James M. Lingel '53, Clement L. Speiden '52, and Harold K. Chadwick '52 won in good time, 3:22.3

### Swimmers Break Even

VARSAITY SWIMMING team won from Pennsylvania, 65-19, in the Old Armory pool, February 9. James M. Hines '52 set a new pool and Cornell record by negotiating the 150-yard individual medley relay in 1:42.0. He held the former record of 1:43.0. Thomas J. Herbert '54 swam a brilliant 440 yards freestyle and nosed out Penn's John Casani in the last few feet. The only Pennsylvania winner was Captain Gene Clark in diving.

The swimmers did not fare so well against Colgate at Hamilton, February 16, when they took at 63-21 beating. Colgate won eight of the ten events.

Robert D. Olt '53 was the only Cornell winner, in the 50- and 100-yard freestyle events.

### Freshmen Take Two

The Freshman swimming team beat the Colgate yearlings twice, at Hamilton February 9, 44-31, and at Ithaca February 16, 55-20. Robinson Ord set a Cornell and Huntington Gym pool record in the first meet by doing the fifty-yard freestyle in 0:23.5. He repeated this time in the second meet in the Old Armory pool. The Cornell 200-yard freestyle relay team established a new Freshman record of 1:39 at Ithaca. Members of the team were Leo J. VanDijk, Roy L. Swanson, E. William Holman, and Ord.

### "Ivy" Presidents Cut Football

PRESIDENTS of Brown, Cornell, Dartmouth, Harvard, Pennsylvania, Princeton, and Yale announced, February 19, an eight-point program designed to produce a de-emphasizing effect on intercollegiate football.

The only regulation which seemed to create much of a stir in Ithaca was the prohibition of spring drills for football. Sentiment very clearly did not favor the ban among students, Faculty, and townspeople. An officer of the Faculty spoke of the Presidents' manifesto as "eye-wash." Captain Victor A. Pujo '52 of last fall's football team represented the players' opinion in declaring, "I got through just in time. Cornell needs spring practice to produce a good football team. Some of the boys who developed during this period have been responsible for our success these last few years. Without them, we cannot face the tough schedules ahead. We have to *make* football players at Cornell. Now we are deprived of the opportunity."

Under Coach James, football candidates have been invited to practice for four weeks each spring and at the conclusion of spring practice the squad was divided into two teams for a scrimmage game. The Cornell Daily Sun last November 8 published the results of a poll in which it questioned forty-seven Varsity football players on the issue of spring drills, and only two declared in opposition. Of thirty-five Freshman football players who were likewise polled, three favored discontinuance.

President Deane W. Malott, who voted against the spring practice dictum on the first vote, but changed when Cornell became the only dissenter, said: "While from the point of view of Cornell athletic policies, some of these steps are of comparatively little significance, it seemed important to support the 'Ivy League' in its effort to maintain football in proper academic perspective."

The eight presidents agreed:

"(1) To abolish so-called football

clinics; that is, the practice of assembling high school coaches to explain and demonstrate coaching methods of the staff.

"(2) To abolish spring football practice because of the peculiar pressures on football and their desire to avoid intensity of athletic specialization in a single sport. In taking the action, the Committee recognizes that the same evils may exist in other major sports and they are proceeding with a study of this matter.

"(3) To start fall football practice for all institutions on Thursday, September 4, 1952.

"(4) That beginning with the fall of 1953, each institution would play every other institution in the group at least once every five years.

"(5) To study ways and means of reducing the number of games scheduled.

"(6) To reaffirm the principle of the control of athletics by the academic authorities; this control to include scheduling policy, eligibility, the award of scholarships and student aid.

"(7) To amend the eligibility rule in the present agreement by including the following: 'Beginning in 1954 no student shall be eligible whose secondary school education was subsidized or whose post-college education is promised by an individual or group of individuals not closely related to the family as a consideration for his attending the college which he now attends.'

"(8) To amend the rule in regard to post-season football contests to read as follows: 'The subscribing institutions shall not engage in post-season football contests or any contests designed to settle sectional or other championship, and no player representing these institutions shall participate in such contests, and no coach shall undertake to coach teams entered for such contests.'

Points 7 and 8 refer to an agreement made by the presidents of the eight "Ivy League" institutions in 1945, regulating their relations in football.

### Miscellany

By winning the National AAU 600-yard run, February 16 at Madison Square Garden, Charles H. Moore, Jr. '51, now in his final term in Mechanical Engineering and running for the New York Athletic Club, completed the "grand slam" of American track and field: victories in the four top championship meets, indoors and out. Moore shattered the AAU record with a sizzling 1:10.9 as he whipped Ollie Sax, Penn State's sensational freshman, Olympic 800-meter champion Mal Whitfield, and defending AAU titlist Hugh Maiocco. His "grand slam" includes the National AAU outdoor 400-meter hurdles in 1949 (record-holder at 51.1), 1950 and 1951; National Collegiate AA 440-yard run in

1949 and 220-yard low hurdles in 1951; IC4A indoor 600-yard run (record-holder at 1:11.0) in 1950 and outdoor 440-yard run in 1950; and Pennsylvania Relays 400-meter hurdles in 1949, 1950 (record-holder at 51.5), and 1951.

A two-man rowing tank has been built in the Old Armory basement and Coach R. Harrison Sanford, the designer, is very happy with the results attained so far. The tank is curved at both ends to aid in the circulation of the dead water which limits the use of the tank to eighteen to twenty strokes a minute. Coach Sanford says, "If we can get in some effective blade work in this tank, then we shall be ahead when we get on the water. Every year we are hampered by a late start. We should have had a tank years ago. This one, of course, is highly inadequate but it is better than no tank at all. We are looking forward eagerly to the two eight-man tanks planned for the new Teagle Gymnasium."

### Forty-five Years Ago

*March, 1907*—The Vigilance Committee has departed from among us, and the Freshmen are to be trusted to observe the customs which student sentiment has decreed to be fitting for men of their station in life, unwatched except by public opinion. . . . Goldwin Smith Hall, the new home of the College of Arts & Sciences, is now about completed.

### Forty Years Ago

*March, 1912*—For the second consecutive time, Cornell defeated both Pennsylvania and Columbia in debate and won the annual triangular league contest. . . . Dr. Albert H. Sharpe (Yale 1902) of Philadelphia has accepted the offer of the Cornell University Athletic Association and its invitation to coach the Cornell football team. . . . Cornell's four-mile relay team, which last year took fifteen seconds off the world's record for the distance, reduced the time one-fifth of a second more in a race with the University of Pennsylvania team on the same track at Buffalo. . . . Upperclassmen next fall are going to try to make things easier and pleasanter for the newly-arrived Freshmen. They will undertake to call on every member of the entering Class and help him to get started right. A beginning will be made this month when members of an upper-class committee will call on each of the sixty men who matriculated in February.

### Thirty Years Ago

*March, 1922*—The average expense of an education at Cornell is now about \$1150 a year, as compared with \$285

fifty years ago, according to figures recently published by the Sun. . . . Hotel operation and management may be taught in a special course in the College of Agriculture, provided the bill is passed which was introduced into the New York Senate, March 6, providing an appropriation of \$11,000 for the purpose. . . . The rabid criticism lately being made of the lack of conventionality of present-day college women does not seriously disturb Miss Georgia L. White '96, Dean of Women of Cornell. In a recent interview with her on the subject, published in the Chicago Daily News, she declares it to be her opinion that self-responsibility is being substituted for conventionality, and that college women are less prone to the excesses charged against them than are non-collegiate women of the same age.

## Clubs Elect

CORNELL CLUB of Southern Ohio elected officers to serve for the next two years at its January 23 meeting in Cincinnati. John B. Brush '34 was elected president; William H. Hopple, Jr. '43, vice-president; Warren W. Schrader '28, secretary; and Halbert E. Payne '48, treasurer.

New officers for this year elected by the Cornell Club of Hawaii are A. Lester Marks '15, president, and Dickson G. Pratt '50, secretary-treasurer. Pratt's address is 129 South King Street, Honolulu, Hawaii.

Cornell Club of Central New Jersey elected Dr. Edward A. Brady, Jr. '41 president, and re-elected Bernard J. R. Carples '18 of New Brunswick, secretary-treasurer.

## Expand Industry Courses

INDUSTRIAL & LABOR RELATIONS School began January 22 a fifteen-week course in "Human Problems of Supervision" at the Sanderson-Halcomb Works of Crucible Steel Co. of America in Syracuse for about 150 managerial personnel, representing all levels of management at the plant.

Eight supervisory groups meet two hours each week. Sessions are led by Professors John W. McConnell, Lynn A. Emerson, and Alpheus W. Smith '19. Archibald Hudson, Grad, under supervision of Professor Earl Brooks, is studying the effectiveness of the program, to determine further needs for supervisory development in the plant. The teaching and research are coordinated by Professor Ralph N. Campbell, director of the School's Extension Division.

Financed by Crucible Steel, this is the second of a new series of long-term educational programs within industry conducted by the School. A two-year course on executive development at the Am-

sterdam plant of Bigelow-Sanford Carpet Co. was started last October.

### MONDAY, MARCH 3

Ithaca: Messenger Lecture, "Primitive World View and Civilization," Professor Robert Redfield, Olin Hall, 8:15

### TUESDAY, MARCH 4

Ithaca: Messenger Lecture, "Man Makes Himself," Professor Robert Redfield, Olin Hall, 8:15

### WEDNESDAY, MARCH 5

Ithaca: Messenger Lecture, "The Transformation of Ethical Judgment," Professor Robert Redfield, Olin Hall, 8:15

Dramatic Club and Glee Clubs present Gilbert & Sullivan's "Pirates of Penzance," Willard Straight Theater, 8:30

### THURSDAY, MARCH 6

Ithaca: Dramatic Club & Glee Clubs present "Pirates of Penzance," Willard Straight Theater, 8:30

### FRIDAY, MARCH 7

Ithaca: Dramatic Club & Glee Clubs present "Pirates of Penzance," Willard Straight Theater, 8:30

### SATURDAY, MARCH 8

Ithaca: Freshman wrestling, Manlius, Barton Hall, 1:30

Wrestling, Columbia, Barton Hall, 2:30  
Swimming, Syracuse, Old Armory  
Track meet with Yale, Barton Hall, 8

Dramatic Club & Glee Clubs present "Pirates of Penzance," Willard Straight Theater, 2:30 & 8:30

Philadelphia, Pa.: Basketball, Pennsylvania  
Buffalo: Fencing, Buffalo

### SUNDAY, MARCH 9

Ithaca: Sage Chapel preacher, Chaplain Glenn A. Olds, University of Denver, 11  
University Band concert, Bailey Hall, 4

Dramatic Club & Glee Clubs present "Pirates of Penzance," Willard Straight Theater, 8:30

Manchester, Vt.: Ski team in Howard-Bromley slalom

### MONDAY, MARCH 10

New York City: Basketball, Columbia

### TUESDAY, MARCH 11

Ithaca: University concert, The Mozart Orchestra, Bailey Hall, 8:15

### THURSDAY, MARCH 13

Syracuse: Freshman basketball, General Electric

### FRIDAY, MARCH 14

Bethlehem, Pa.: Wrestling Intercollegiates at Lehigh

New Haven, Conn.: Swimming Intercollegiates at Yale

New York City: Fencing Intercollegiates at Columbia

### SATURDAY, MARCH 15

Ithaca: Basketball, Dartmouth, Barton Hall, 8:15

Bethlehem, Pa.: Wrestling Intercollegiates at Lehigh

New Haven, Conn.: Swimming Intercollegiates at Yale

New York City: Fencing Intercollegiates at Columbia

Mohawk: Glee Club show, "Out of Our World," High School, 8:30

### SUNDAY, MARCH 16

Ithaca: Sage Chapel preacher, the Rev. Joseph R. Sizoo, president, New Brunswick, N.J., Theological Seminary, 11

Piano concert by Monroe Levin & Cameron McGraw, Music, Willard Straight Memorial Room, 4

### MONDAY, MARCH 17

Ithaca: Forty-first Farm & Home Week opens Rice Debate Stage, Warren Hall, 7:30

### TUESDAY, MARCH 18

Ithaca: Farm & Home Week lecture, "Are We Equal To Our Job?" Herschel Newson, master, National Grange, Bailey Hall, 2

### WEDNESDAY, MARCH 19

Ithaca: University Concert Band, Bailey Hall, 1

Lieutenant-General Albert C. Wedemeyer, US Army (Ret.), "A Strategy for Peace," Bailey Hall, 2

Tea for Home Economics alumnae & faculty, Van Rensselaer Hall, 3-5

University Orchestra with Professor John Kirkpatrick, Music, piano soloist, Bailey Hall, 8

University boxing championships, Barton Hall, 8

### THURSDAY, MARCH 20

Ithaca: Agriculture Alumni Association annual luncheon & meeting, Willard Straight Hall, 12:15

Cayuga Waiters & organ recital by Joanne P. Muenscher '53, Bailey Hall, 1

President Deane W. Malott, "American Citizens in the Years of Crisis," Bailey Hall, 2

Eastman Stage contest, Warren Hall, 7:30  
Farm & Home Week country dance, Barton Hall, 8

Perry: Glee Club show, "Out of Our World," High School, 8:30

### FRIDAY, MARCH 21

Ithaca: Farm & Home Week student livestock show, Judging Pavilion, 10-12 & 1-4:30

Pittsburgh, Pa.: Glee Club show, "Out of Our World," Carnegie Music Hall, 8:30

### SATURDAY, MARCH 22

Ithaca: Spring recess begins, 12:50

Buffalo: Glee Club show, "Out of Our World," Kleinhans Music Hall, 8:30

### SUNDAY, MARCH 23

Lima, Ohio: Glee Club show, "Out of Our World"

### MONDAY, MARCH 24

Detroit, Mich.: Glee Club show, "Out of Our World," Pierce Junior High School, 8:30

### TUESDAY, MARCH 25

Toledo, Ohio: Glee Club show, "Out of Our World," Doerrmann Theater, University of Toledo, 8:30

### WEDNESDAY, MARCH 26

Indianapolis, Ind.: Glee Club show, "Out of Our World," Caleb Mills High School, 8:30

### THURSDAY, MARCH 27

Bloomington, Ind.: Glee Club joint concert with University of Indiana Glee Club

### FRIDAY, MARCH 28

Milwaukee, Wis.: Glee Club show, "Out of Our World," Pabst Theater, 8:30

Ruxton, Md.: Cornell Club annual dance, L'Hirondelle Club

### SATURDAY, MARCH 29

Chicago, Ill.: Glee Club show, "Out of Our World," Drake Hotel, 8:30

### MONDAY, MARCH 31

Ithaca: Spring recess ends, 8 a.m.

# An Undergraduate Observes . . .

Charles D. Graham, Jr. '52

## Campus Considers "Discrimination"

Discrimination has overshadowed all other topics as a source of Campus activity and discussion.

The coincident observance of Brotherhood Week and Negro History Week, beginning February 17, brought an influx of guest speakers, discussions in fraternity houses and elsewhere, and workshops. Among the speakers were Margaret Mead, noted anthropologist; George I. Kelsey, associate general secretary of the National Council of Churches; Fred S. Riggs of the Public Administration Clearing House in New York City; Harvey R. Wellman '37, chief of the US State Department's Caribbean section; and several others.

Sponsoring the various events were Cornell United Religious Work; Watermargin, inter-racial living unit; Telluride Association; One World Club; the Cornell chapter of the National Association for the Advancement of Colored People; and the Cornell chapter of Students for Democratic Action.

The Debate Association arranged an interfraternity tournament on the topic, "Resolved: That fraternities should be compelled to eliminate discrimination," the sides determined by lot. Elimination matches were held in the fraternity houses and the final in Willard Straight Hall. Winner's trophy went to Acacia.

Student Council committee on discrimination has changed its name to committee on human relations, and is hard at work on its comprehensive survey. The Interfraternity Council's discrimination committee, sticking to its unglamorous title, is interviewing representatives from each of the fifty-one member houses to determine the present state of affairs with respect to discrimination. This committee has an immediate goal of trying to help Cornell chapters eliminate discriminatory clauses from their national constitutions.

Army ROTC rifle team has won first place in marksmanship in competition with twenty-seven other institutions in the First Army area. The Cornellians scored 7534 of a possible 8000 points. Cadet Lieutenant Colonel Bruce T. Wilkins '52, captain of the squad, was presented with the First Army intercollegiate match trophy by Colonel George S. Smith, Commandant of the Army ROTC unit, in a ceremony at Barton Hall, December 19. Other members of the winning team are Cadet First Sergeant David A. Ogden '53, Cadet Ser-

geant Charles F. Roth, Jr., '53, Cadet Sergeant Burt G. Lewis '54, Cadet Corporal Nicolas G. Luykx '53, Cadet Private First Class John C. Holler '53, Cadet Private Michael Gilman '54, Cadet Private Robert L. Bael '54, and Cadet Private Bertram H. Rosen '54.

**Matthew J. Lawlor '53** won a run-off election to become president of the Industrial & Labor Relations School Student Organization. He will become a member of Student Council, ex-officio. Other officers of the Student Organization are John J. Mahon '54, vice-president; Harris M. Abramson '54, treasurer; Joan M. Murray '55, recording secretary; and Leonard I. Axelrad '55, corresponding secretary.

**President Deane W. Malott** visited Army, Navy, and Air Force ROTC classes, February 15, in a well-publicized inspection tour. Accompanied by Colonel George S. Smith, Captain Frederic S. Habecker, and Colonel George T. Crowell, commanding officers of the three units, the President observed "classes as usual."

**David M. Kopko '53** and James R. Bul-lard '53 have been elected co-editors of the *Widow*. Other officers are Harlow Hardinge '52 and John H. Depew '52, business managers; Henderson Cleaves '53, Bernard Finn '54, and Gardner McKay '54, associate editors; Michael J. Greenberg '53, assistant to the editors; and Earl Combs '54, art editor.

Considerable interest in new dormitories for men is being evinced, although the source of money to build them with remains obscure. A group of five Senior architects, the Student Council men's housing committee, and the student-Faculty-administration conference have considered the need at some length. In addition, the question of social, recreational, and eating facilities in new dormitories has played a major role in hearings on deferred rushing recently concluded by the Faculty committee on student activities.

**FOLLOWING a recommendation of the Arts & Sciences Faculty committee on the conduct of examinations, most Arts students sat through four or five explanations of the official definition of academic dishonesty, and the possible punishments in store for the wrongdoer. All professors were requested by Dean Paul M. O'Leary, PhD '29, to explain the policy in their Arts College classes.**

**Dramatic Club's** forthcoming production of Eugene O'Neill's "Desire Under the Elms" found itself deluged by reams of free publicity with the appearance of a Letter to the Editor of the Sun from Richard Griswold '50, denouncing the play as "beyond the bounds of decency," "obscene," and "pornographical." A series of fiery answers defended freedom of art and of artistic expression.

**The long-debated question** of compulsory voting, or actually "compulsory registration," in Women's Self Government Association elections is again being discussed. This perennial topic for Sun editorials has been "referred to corridor meetings for discussion" in the women's dorms so many times that experienced dormitory VP's must know the arguments by heart!

**Eastern Intercollegiate Poultry Judging Contest** was won for the fifth successive year by a Cornell team. In New York City, Leslie B. Cranmer '53, Joel S. Silberberg '54, and Stanley J. Connelly '52 scored 3,330 of a possible 3,900 points to beat eight other college teams.

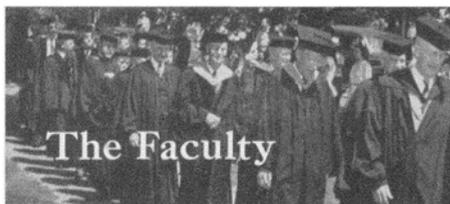

**Concern** over the fact that only two courses on religion are regularly offered to undergraduates in the University has led CURW to offer a non-credit course on "The Literature and History of the Old Testament." More than seventy students have registered for the course, which will be taught by the Rev. Edward L. Christie, Congregational pastor, with the assistance of other pastors as guest speakers.

**Officers** of the Kline Road Council, composed of representatives from each of the temporary dormitories on Kline Road, are Howard Adler '53, chairman; Brian Greenman '54, vice-chairman; Frank Wolff '53, secretary; and Kenneth Trieber '53, treasurer.

**New officers** of Pi Delta Epsilon, journalism honor society, are Gilbert M. Kiggins '53, president; George W. Sutton '52, vice-president; Terrence B. Blake '52, secretary; and Michael V. Rulison '53, treasurer.

**Faculty and staff** contributions to the Ithaca Community Chest totalled \$34,-565.67. Twenty-two team captains and many more members of their teams worked in the University division under chairmanship of Professor Joseph A. Dye, PhD '25, Physiology.

**Eight students** in the basic Air Force ROTC program have been selected as a Student Advisory Council to report student complaints and reactions to the program. The Council turns its findings over to Colonel George T. Crowell, in charge of the Air ROTC course.

President **Deane W. Malott** expressed opposition to the proposal for Universal Military Training when he addressed the 100th annual meeting of the New York Press Association in Syracuse, February 9. The President's father, Michael H. Malott, died February 18, in Abilene, Kans. He was chairman of the board of the Citizen's Bank of Abilene.

Mrs. Livingston Farrand, wife of the late **President Farrand**, has announced the marriage of her daughter, Mrs. Margaret Farrand Eaton to Rear Admiral Charles Conard, USN, retired, January 19. Mrs. Conard is the widow of the late Harry A. F. Eaton '16 and the mother of Henry F. Eaton '53.

**Cornelis W. de Kiewiet**, president of University of Rochester and former Acting President of Cornell, was chairman of a conference of educators and officials of the Mutual Security Agency which met in Washington, D.C., February 4, to help work out a program for educational activities in the MSA Far East Operations. Professor **Lauriston Sharp**, Anthropology, was one of nine educators who took part in the meeting.

An Award of Merit and honorary fellowship in the George Washington Carver Memorial Institute were presented to **Frank E. Gannett '98**, Trustee Emeritus, during the Institute's Lincoln Day meeting, February 6, in Miami, Fla. Gannett was cited for "outstanding contributions to the betterment of race relations, human welfare, and Americanism."

Professor **Clyde B. Moore**, Education, sailed for Europe, January 30. He will study the part that Scandinavian schools play in forming the "sturdy character" of the Scandinavian peoples. On sabbatical leave, Professor Moore will visit teacher-training institutions in Norway, Sweden, and Denmark. Before returning to Ithaca in June, he and Mrs. Moore plan also to travel in Italy, Austria, Germany, and England.

Dr. **Erl A. Bates**, adviser on Indian Extension, is on sabbatical leave this term. He plans to spend most of it at Tulane University where he will have access to 50,000 valuable manuscripts of the Middle American Research Institute. He is studying the dawn of American agriculture.

"Impressions of Two Long Journeys" were described by Professor **Walter F. Willcox**, Economics, Emeritus, to the Ithaca Rotary Club, January 23. Referring to his recent trip to New Delhi and Calcutta, India, where he attended sessions of the International Statistical Conferences, and to his own life from 1861 to 1951, he spoke of India's Prime Minister Nehru as "one of the few great leaders of the modern world," of the beauty of the Taj Mahal and the fifteen acres of garden which surround Government House, and of world politics.

"... If there be one thread running through history since the battle of Marathon, it is the quest for liberty, which I define as the opportunity for continuous initiative," he asserted. To the men in uniform present, the ninety-one-year old professor said, "You are crusading to liberate the world from the worst slave system it has ever seen."

**James B. Hall**, PhD '49, English, is the father of a daughter, born January 15.

"Male Hormone For Starch" in the January 12 issue of Science News Letter, reports the discovery of the muscle-starching effect of testosterone upon teen-age boys by Professor **Samuel L. Leonard**, Zoology.

Dr. **Alexander Zeissig '23**, associate professor of Bacteriology in the Veterinary College, 1926-45, has joined the staff of Merck & Co., Inc., manufacturing chemists in Rahway, N.J., as director of the veterinary research department. During the last year, he has been in the Montevideo, Uruguay, office of the Pan American Sanitary Bureau, regional office of the UN World Health Organization.

Professor **Felician Foltman**, PhD '50, Industrial & Labor Relations, and **Christina Steinman Foltman '42** have a daughter, born January 21.

Professor **Schuyler D. Hoslett**, Business & Public Administration, resigned, February 1, to become director of the executive development program at Columbia University school of business.

Professor **Frederick E. Winch, Jr.**, MF '37, Forestry Extension, was elected to a two-year term as New York section chairman of the American Society of Foresters at a meeting January 25 in Albany.

Professor **Victor Lange**, chairman of German Studies, is visiting professor of German literature at University of Cologne, Germany, this term. Before going to Cologne, he lectured at Oxford, Manchester, and Bristol universities in England and conducted a seminar in the Institute of Germanic Studies at University of London.

**Donald D. Phillips** of Toronto, a specialist in cancer research, has been appointed instructor in Chemistry. He was graduated at University of Alberta in 1949 and received the PhD at University of California.

First Lieutenant **James T. Farr**, assistant professor of Air Tactics, Air Force ROTC, has been promoted to captain, US Air Force.

Professor **Rudolf B. Schlesinger**, Law, has a daughter, born January 12.

A course on Meat & Meat Products given in the Animal Husbandry Department by Professor **Jeremiah J. Wanderstock '41** for Hotel Administration students has been amplified and transferred to the School of Hotel Administration and Professor Wanderstock becomes a member of the School Faculty.

Professor **Glenn W. Hedlund**, PhD '36, Business Management, is acting head of the Department of Agricultural Economics. He succeeds Professor **Forrest F. Hill**, PhD '30, who has been appointed University Provost. Hedlund, who received the BS at Univer-

sity of Nebraska, was at Cornell from 1930-41 except for a year as professor of the University of Nanking; was professor and head of the department of agricultural economics at Pennsylvania State College from 1941-46, when he returned to Cornell. In 1939 he was a member of a commission appointed by the Bermuda government to study means of improving their agriculture. He is secretary of the New York State Council of Farmer Cooperatives; is a member of Alpha Zeta, Phi Kappa Phi, and Sigma Xi.

## Chamber Music Concert

HUNGARIAN STRING QUARTET, which appeared at the University in December, 1950, during their first United States tour, returned to the Campus, February 5, to again captivate a Willard Straight Theater audience. Their excellence as a chamber music ensemble was evident throughout the program, particularly in their superb rendition of Debussy's beautiful "Quartet in G Minor, Op. 10."

The group also performed "Quartet in F Major, K. 590" by Mozart; "Quartet in A Minor, Op. 51, No. 2," by Brahms; and two encores, a "Serenade in C Major" by Haydn and a "Canzonetta in G Minor" by Mendelssohn.

Members of the Hungarian Quartet are Zoltan Szekely, leader and violinist; Alexandre Moskowsky, violin; Denes Koromzay, violist; and Vilmos Palotai, cellist. Their concert was the third in the current University chamber music series.

## Dance Club Does Well

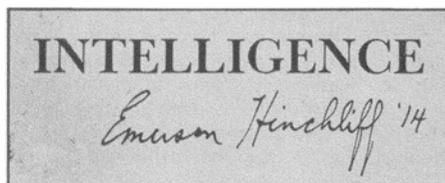

DANCE CLUB annual concert delighted capacity audiences in the Willard Straight Theater, February 8 and 9.

Introductory dance, "Allegro Scherzando," a group work with choreography by May Atherton, Director of Dance at the University, and with music by Mrs. Gertrude Rivers Robinson '47, composer-accompanist for the Dance Club, got the program off to a very successful start and was followed by a varied and well executed set of numbers. Highlight was the finale, a group dance, "Folksay," by Sophie Maslow, based on poetry from Carl Sandburg's "The People, Yes" and folksongs.

The number represented an unusual experiment in dance. It was the first time that a professional dance was reproduced by a college group without the choreographer present. Mrs. James W. Halporn, whose husband is in the Graduate School, made graph scores using the Laban system of dance notation, in use by dance groups for only a few years, which permits dance movements to be reproduced just as the choreographer intended them, and she directed the dance. Miss Atherton performed excel-

lently the lead role, ably supported by eight dancers and guitarists Abby Weitman '52 and Daniel N. Isaacson '53.

Solo and group dances comprised the rest of the program. Miss Atherton repeated beautifully her solo, "Stone Weather," with poem by Harvey Shapiro, English, and score by Professor Robert M. Palmer, Music. Mrs. Robinson performed well her "Wayfaring Stranger." A delightful group dance, "2.50," satirized today's gadget-girl. Choreographer of the number was Sally A. Allen '52; decor was by Professor Thomas J. Baird '25, Engineering Drawing. Nice choreography for group dances was done by Carlene L. Dyke '52, Nadine Bixby '53, and Joyce Guthrie '54.

ULYSSES-LIKE, I shook the snow of Ithaca off my boots and Lehighed me off to the Metropolis the first week in February for the big dinner the Alumni Association from Ithaca gave for President Malott. It was a fine party. The Starlight Roof of the Waldorf-Astoria was jammed (I saw scores of old friends and Classmates). The vocal entertainment was delightful with the Cayuga Waiters dedicating a new "Give My Regards to Davy" verse to Mr. Malott and Howard Heinsius '50 singing the "Alumni Song." Toastmaster Henry L. O'Brien '21 wittily brought Kansas into the picture, first evoking applause for Eisenhower and then dimming it with mention of Alf Landon. And then the President spoke, as reported elsewhere in this issue. Of course, he made his usual pleasant impression.

I worked up to the dinner by sitting in that afternoon on the regional meeting of the Cornell University Council, and was struck again by the high calibre of the men who give so generously of their time and brains in the service of their Alma Mater. Of particular interest was the planning of ways and means to tap corporations for support.

The following night, I topped off with a busman's holiday at one of the famous Rock Spring Country Club secondary school parties of the Cornell Club of Essex County, N.J. At the little dinner for school people that preceded the arrival of the boys, I had the pleasure of sitting next to the principal of Barringer High School and found that he was the father of a former Cornell quarterback. Professor Frederick G. Marcham, PhD '26, History, and Herbert H. Williams '25 and Robert W. Storandt '40 of the Ad-

missions Office were the working team.

\* \* \*

Altogether, my trip was a stimulating experience. Quite unexpectedly, it needed me into clarifying my own thinking as to what education is! President Malott, in humorous vein, poked some fun at the teaching of English and at the time spent on the study of mathematics and foreign languages. But I am sure he must recognize the value of the mental discipline involved and acquired in wading through some perhaps distasteful math and some apparently useless foreign language. In the first, students are taught to make equations come out even, for one thing; and in the second, they learn how to build up a coherent sentence and make it come out even. Here, too, one develops a handy tool if he travels abroad or has occasion to read the language studied. An extra dividend is added knowledge of English grammar and of the derivation of English words.

\* \* \*

What is education, anyway, if not the accumulation of vocabulary and practice in the art of putting it to use? By vocabulary I don't just mean a long list of English literary words. I mean the basic vocabulary of science, art, music, philosophy, law, medicine, government, religion, and the many other aspects of modern life in which an inquiring mind would like to exchange ideas with other human beings. If you can add a foreign language or two, it widens the horizon immensely, because, by understanding the odd quirks and turns a foreign language takes, you can get an idea of the national mentality of those native to it.

Ability and willingness to use the dictionary is a big part of education. The dictionary loses its savor, however, if you have to look up half a dozen other words to find out the meaning of the one you started to trace. That usually shows lack of basic vocabulary, and that, in turn, is usually the result of laziness in one's formative years. Hence, for the student, I would stress the need of *willingness* to use the dictionary; for the adult, *ability*. (Of course, I mean all kinds of dictionaries and encyclopedias.)

There are several gradations of vocabulary. The widest includes words we recognize but do not attempt to use ourselves. There are some, frequently slang terms, that we will use in speaking but not in writing. The ones we really know, or can handle the dictionary well enough to make sure of, we will use in writing. Putting it down in black and white, where you can't help get your thoughts across by intonation, gestures, or elaboration: that's the real test. There's where a solid foundation in grammar and rhet-

oric helps. In speaking, a big hurdle is pronunciation, though some people who can handle "who" and "whom" and "he" or "I" for "him" or "me" in writing, get carried away by apparent euphony in talking and "make the judicious grieve."

\* \* \*

Education in the sense of vocabulary-building never ceases. Just as a Sophomore reaches his upperclass years and starts his major, so the graduate commences to specialize in his particular job or field. In it, he assimilates the specialized vocabulary of this field, with all its synonyms, nuances, special usages, and probably its own slang and idiomatic expressions. In Spanish, idioms are called "*modismos*," which is a contraction of the word "*idiotismos*," which goes back to both Latin and Greek. It means really the common or vulgar manner of speaking, though my dictionary refers back to "idiot" and mentions that "Idiots are incapable of connected speech or of avoiding the common dangers of life." On the other hand, many proverbial and idiomatic sayings are marvelously expressive and are priceless under certain circumstances.

So here's to education, and may its vocabulary be high, wide, and handsome!

## Offer Atomic Studies

OAK RIDGE SCHOOL of Reactor Technology has a Cornell Faculty member as one of its consultants and another Cornellian among its students. Professor Trevor R. Cuykendall, PhD '35, Engineering Physics, now a consultant, was on the staff from September, 1950, to February, 1951. Walter J. McCarthy, Jr. '49 entered the School last fall from the Public Service Electric & Gas Co. of Newark, N.J.

The School, which will begin its third year of operation next September, was established by the Atomic Energy Commission to provide advanced specialized training in reactor theory and technology to selected engineers and scientists who will engage directly in the AEC's reactor development program. It is conducted by the Oak Ridge National Laboratory, operated by Carbide & Carbon Chemicals Co., a division of Union Carbide & Carbon Corp. Students are selected for the twelve-month course from recent graduates of universities and representatives from industry and government agencies. Applicants must hold a Bachelor's degree or higher in chemistry, engineering, metallurgy, physics, or engineering physics. Recent graduates from universities are paid \$285 a month for the training period and the others remain on the payrolls of their home organizations. Address of the School is PO Box P, Oak Ridge, Tenn.

NEWS OF THE ALUMNI

Personal items, newspaper clippings, or other notes about Cornellians of all Classes will be welcomed for these pages. Addresses as printed are in New York State unless otherwise designated.

Certain Classes, principally those which send the ALUMNI NEWS to all members, have special columns written by their own correspondents. Each such column is designated at its beginning with its Class numerals. Material for those columns may be sent either to the NEWS for forwarding or directly to the respective Class correspondents, whose names and addresses follow:

- '10 Men—Roy Taylor, Old Fort Road, Bernardsville, N.J.
- '13 Men—M. R. Neifeld, 15 Washington Street, Newark 2, N.J.
- '15 Men—C. M. Colyer, 123 West Prospect Avenue, Cleveland 1, Ohio.
- '19 Men—Alpheus W. Smith, 705 The Parkway, Ithaca.
- '20 Men—W. D. Archibald, 8 Beach Street, New York City 13.
- '21 Men—Allan H. Treman, Savings Bank Building, Ithaca.
- '51 Men—Stuart Minton, Jr., 1160 Park Avenue, New York City 28.

\* \* \*

'94 LLB—Glenn S. Warner was named "Coach of Many Years" at the coach-of-the-year banquet of the American College Football Coaches Association, January 10, in Cincinnati, Ohio. Warner lives at 1623 Esobita Avenue, Palo Alto, Cal.

'97—Charles M. Remy has been named a "Hand of the Cause of God," the highest spiritual station conferred on followers of the Baha'i World Faith. Elected president of the International Baha'i Council in Haifa, Israel, last year, he is the architect of the house of worship to be built at the world center of the faith at Haifa. He lives at the Cosmos Club, Washington 5, D.C.

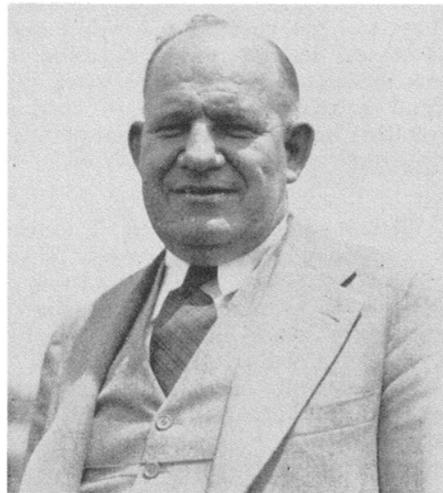

'00 LLB—The 1951-52 American Legion award for youth services was given to John T. McGovern, counsel to Voluntary Code Administrative Agency & Photo-Engravers Board of Trade of New York, Inc., 60 East Forty-second Street, New York City 17. He has been invited again to referee the Yale-Harvard-Princeton track meets for the twenty-second year.

'00 AB, '01 AM, '03 PhD—"El Grillo," a Spanish translation of "The Cricket" by Nathan E. Truman, appeared in the September 30 magazine section of the Havana newspaper, Excelsior. It is one of a collection of Truman's poems that was published by the Exposition Press in December, 1950. He lives at 19 North Main Street, Bainbridge.

'02—"For nearly half a century your orchards and fields have been maintained

according to the rich traditions for which agriculture in Burlington County long has been renowned," reads a citation for distinguished service presented to Henry H. Albertson by the New Jersey State Board of Agriculture. The award was made at the thirty-seventh agricultural convention during 1952 Farmers' Week in Trenton, N.J. Albertson lives on Green Hill Farm, Burlington, N.J.

'04—Edward A. Moree is with John Price Jones Co. Ltd., 1440 Catherine Street West, Montreal 25, Canada.

1910 MEN

For John W. Hurley (above) the journey to Ithaca in the fall of 1906 was a short one; just from the George Junior Republic at Freeville, where he had been a prominent citizen serving first as judge and then as president, and of which he is now both a trustee and a distinguished alumnus. His baggage consisted largely of a reputation for energy and integrity, together with a scholarship at Cornell supplied through the Republic, which never made a better investment.

After his graduation, John joined the US Engineers and spent the next nine years in combat with the Mississippi River in the Memphis area through the construction of revetments and the Abattis dikes. After thirty years, both the Mississippi and the Hurley job are holding up and fighting each other to a mutually-creditable draw. There followed a tenth year at Memphis in which the man, as resident engineer for Swift & Co., built the Consumers' Cotton Seed Oil Mill.

But it wasn't until 1920 that John found his permanent niche in life, this time with the Griffin Wheel Co., manufacturers of railroad-car wheels in eleven plants scattered around the country. Beginning as

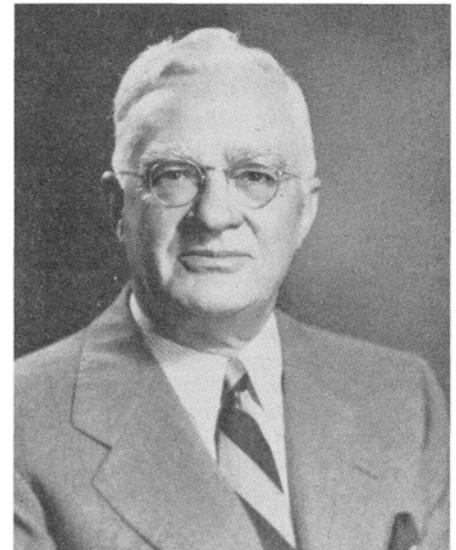

resident engineer, he became, in 1927, chief engineer of the Griffin Engineering Co., which under him has greatly improved foundry practice through the development of the Griffin hot blast cupola which utilizes waste gases to pre-heat the ingoing cupola blast, and is now considered standard equipment by the Ford Motor Co., International Harvester, and others.

The Hurleys live at 436 Arlington Street, Glen Ellyn, Ill., where both have served on the board of education; John also as park commissioner. They have a son and two daughters, all married, and to date four grandchildren. The office address is 445 North Sacramento Boulevard, Chicago 12, Ill. John writes that among the Classmates he sees are Tommy Barnes occasionally; more frequently the Merwin Armstrongs, who live in the neighboring town of Hinsdale.

Stanton Griffis has resigned as US Ambassador to Spain after ten years of practically uninterrupted service in the diplomatic corps. The papers quoted him as saying he "wanted to return to private life," a not unnatural desire after heading American Embassies in such untroubled spots as Poland, Egypt, the Argentine, and lately, Spain.

C. Scott De Golyer is chairman of the Wyoming County board of supervisors. He recently broke ground for a new \$1,600,000 building of the County community hospital at Warsaw. The Buffalo and Ithaca offices of Thomas H. McKaig '11, consulting engineer, designed the structural engineering for the new building.

Jac C. Holman lives at 42-10 208th Street, Bayside. He is manager of building construction for the Fred T. Ley Co., 30 East Fortieth Street, New York City. He writes, "the most interesting and the largest volume of work I've done has been accomplished since I reached sixty."

'11 CE—Frederick Ohrt (above) has been elected an honorary member of the American Society of Civil Engineers. The recognition came because of his work in

1952 CLASS REUNIONS IN ITHACA, JUNE 6 & 7

'92, '97, '02, '12, '17, '22, '27, '32, '37, '42, '47, '50

water development and conservation, and his studies of salt water intrusion on Pacific islands, with special emphasis on the water resources of Hawaii, during the last quarter-century. Ohrt is manager and chief engineer of the Honolulu water system; lives at 2958 Nuuanu Avenue, Honolulu, Hawaii.

'11 BSA—After thirty-six years, **Arthur K. Getman**, Assistant New York State Commissioner for Vocational Education, retired February 1. After a short vacation he will help the State Education Department in preparation of materials and methods of instruction in the field of moral and spiritual values. His address is c/o State Education Department, Albany 1.

'12 ME—**Stephen C. Hale** is chief engineer at Fulton Bag & Cotton Mills, Atlanta, Ga.; lives at 1403 Emory Road NE, Atlanta, Ga.

'12—President of the Raymond Corp., formerly the Lyon-Raymond Corp., is **George G. Raymond** of Greene. **George G. Raymond, Jr.** '43 is executive vice-president. The company manufactures electric industrial trucks and hydraulic elevating equipment.

'13 AM, '14 PhD—"The Girl Who Was Top Secret," an article by Mrs. **Nancy Barr Mavity**, appeared in the December *Cosmopolitan*. Mrs. Barr, who has one husband, a cameraman, two cats, two children, and three grandchildren, is on the staff of the *Oakland Tribune*; lives at 5633 Ocean View Drive, Oakland 11, Cal.

## 1913 MEN

Never underestimate the power of a woman; or the pulling power of this column! No sooner was the January issue in the mail than, from Washington, D.C., where she is at National Cathedral School, Classmate **Elna Merrick** sent the news about Professor **Joseph Q. Adams, PhD '06**, asked for by **Fred Hopping**. Dr. Adams died in 1947 in Washington, where for many years he had been at the Folger Library.

Cracking through the iron curtain of modesty that shrouds the doings of so many Classmates, in the very next mail Mrs. **Brayton A. Porter** informs us that "Port" returned last September from Australia, New Zealand, and Fiji (32,000 miles by air in seven weeks) in time for the birth of Jonathan Woodward Porter, the first grandson. "Port" did not see any Cornell men in foreign parts except **John Townley**, in Rome, but all through the United States he has met many Classmates: **John Wood**, sales engineer for Blaw, Knox in Pittsburgh (daughter, Cornell '40); **Ed Jackman**, Evanston, district manager, Forth-Sterling Steel Co., Chicago; **Carl Rex** and **Herm Coors** in Los Angeles; **Berk Snow** in Seattle; **John T. C. Lowe**, the mountain-climbing barrister from New York who married the girl from Sheffield, England; and many others. "Port" covers the globe because he checks on-spot operations of Pratt & Whitney engines for United Aircraft of East Hartford, Conn. The Missus had four years of travel in all European countries with "Port", but the arrival of the grandson overshadows all other thrills.

We are grateful to the distaff side of '13 for rushing to the aid of a disturbed columnist in these two instances. Which suggests that if you are the shrinking-violet type who feels it is bragging to write news about

yourself for use in the *CORNELL ALUMNI NEWS*, commission the little lady of the house to do it. She'll be objective!

**R. W. (Bill) Walker** is now executive vice-president of Brunswick Ordnance Corp. at New Brunswick, N.J. That makes New Jerseyites of the two Walkers in '13. The other is **Andrew S. Walker** who lives at Cape May.

One of the sixty-seven listed as "Address Unknown" in the '13 Directory has been located. He is **George Morganstein**, who teaches at Madison High School, Brooklyn.

A forecast made last July in the "little dividend" report was validated by a card from **Donald B. MacDonald**. Catherine MacDonald Thomas arrived January 14, 1952, to daughter **Eloise**, Beaver College '47. That makes two grandchildren for Mac.

Has any '13er ever seen a letter written by **Art Shiverick**? **Tris Antell** claims that he has! Is that some sort of a record? Art, the one-letter man, runs Tobey Furniture Co. in Chicago.

A few alert Classmates noticed that "Philadelphia, Pa." was not included in the address of the reply envelope which came with the recent letter, to carry your \$5 Class dues to **Don Beardsley**, the Class treasurer. Don't worry if you mailed it! A letter from Ithaca to the Dead Letter Office it is hoped will bring any such to Don.

**Dr. Henry H. Haft**, clinical professor of medicine at Syracuse University and a practitioner of internal medicine, died January 23, 1952, in Syracuse. "Bill" was with us for Freshman year and then switched to the newly-opened State College of Forestry at Syracuse. Upon graduation, he turned to the study of medicine and subsequently had a distinguished Army medical career in both world wars.

**1914 Men**—Present at the dinner in New York City for President Malott were **Frank Bowers**, **Ike Carman**, Mr. & Mrs. **Weightman Edwards**, **Joe Iglehart** (whom I hadn't seen in ages), Mr. & Mrs. **Bill Reck**, and Mr. & Mrs. **Carlton Ward**. While in the Big City I also managed to see **Alex Hayes** and **Walter Addicks**. Walt tells me of the formation at a recent meeting of the Metropolitan Section of the Class of 1914. They wished the job of chairman on him and of secretary on **Harry L. Drescher**; their addresses are, respectively, **Cutler, Hammer Inc.**, 8 West Fortieth Street, New York City, and 1260 East Twenty-eighth Street, Brooklyn 10. Harry would enjoy receiving dues of \$1 a year from any prospective members. The group will run the annual New York dinner of the Class.—**Emerson Hinchliff**.

'14 CE—"Differential Coated Electrolytic Tin Plate," an address by **James J. Munns**, vice-president of Weirton Steel Co., Weirton, W. Va., has been published in brochure form.

### CLASS CULTURAL CONTEST

Category, Music; *Question*: CERTAIN MEMBERS OF THE UNIVERSITY ORCHESTRA, PREPARATORY TO EACH WAGNERIAN PROGRAM, CALLED ON THE RHINE MAIDENS. THEY SAID THESE VISITS DOWN THE VALLEY WERE INSPIRATIONAL. DO YOU THINK THERE WAS ANYTHING IN THAT?

Speaking of orchestras, we are happy to report some real culture in the Class of

1915. **George C. Ruby**, who was in the flute section of the University Orchestra (along with "Shorty" Barr), is past president of the York (Pa.) Symphony Orchestra. He occupied the first flute chair of that organization for nineteen years. George, now retired from Home Insulation Co., has gone in for painting; Mrs. Ruby is an artist. As an undergraduate, George also played in the University Band and the Mandolin Club. He sang in the Vesper Choir. And an ME too! Address: RFD 6, York, Pa.

**Rube** (Howard H.) **Ingersoll** was recently made manager of the Atlantic Refining Co. Southern marketing region with headquarters at Charlotte, N.C. Rube has been assistant general manager of the domestic sales department since 1931. Other big-time guys in the oil line from the Class of 1915 are **Squi Craft**, Sun Oil, Boston, Mass., and **John Pennywitt**, Gulf Oil, New York City. Anybody else?

**Eldon F. Colie** who "read law," too, in Boardman Hall, represents the Kittinger Co. of Buffalo, furniture manufacturer. Showrooms and office in the Merchandise Mart, Chicago, Ill. Home address: 747 Chatham Road, Glen View, Ill.

**Mandy (W. Manville) Johnson**, who did some fancy pitching for Danny Coogan on Percy Field, is treasurer of Aerial Products, Inc., Elkton, Md. Two daughters and a son: graduate of the Naval Academy in 1947, Masters degree in civil engineering at RPI. "Mandy" goes in for boating on Chesapeake Bay.

The following were good enough to send in their dues but, to our regret, no news: **Charles H. Blackburn**, Hormiguero, Cuba (formerly Park Ridge, N.J.), **Y. T. Char**, 3217 Kaimuki Ave., Honolulu 16, T. H. **Col. J. F. Crosby**, 2275 Beach St., San Francisco 23, Cal., **B. H. Hendrickson**, 505 Bloomfield St., Athens, Ga., **Philip D. Houston**, 137 E. Calhoun Ave., Memphis 2, Tenn., **Dr. Leo Loewe**, 177 New York Ave., Brooklyn 16, **Judge S. S. Leibowitz**, 120 Schermerhorn St., Brooklyn 2, (see New York City papers from time to time for account of Sam's activities), **H. Ridgway**, c/o American Bridge Co., 71 Broadway, New York City 6, **John M. Rogers**, 107 N. Canyon View Drive, Los Angeles 49, Cal., **William Schultheis**, Dublin, Ga., **F. F. Sullivan**, 28 Tillinghast Place, Buffalo 16, **W. W. Turner**, 40 Locust Rd., Winnetka, Ill.

'16 ME—**Howard P. Corwith** is vice-president in charge of development and research of Western Union Telegraph Co., 60 Hudson Street, New York City 13.

'17 AB—**Gertrude Thilly** is working for Lester Beall, graphic and industrial designer; lives at 151 East Eighty-third Street, New York City 28.

'18 BChem—**Harold D. Kinney** is executive vice-president of B. O. Kinney, Inc.; lives at 6 Sterling Street, Gouverneur.

'19 AB—Mrs. **Elizabeth Reigart Gilchrist** is president of the Twentieth Century Club of Washington, D.C.; lives at 5949-Thirtieth Place, NW, Washington 8, D.C.

(Continuation of President's report): Since last year's report, our first Class Directory was distributed. **Dean Wiggins** headed the committee and personally did most of the work in collecting the data over a period of two

CAN-11

years. The relatively few Class directories published by other Classes have included only the names and addresses taken from the Alumni Office records in Ithaca. The 1919 approach was original, as usual, in that occupation and business and home addresses, as well as vital statistics on the number of children and grandchildren, were included which took more time and trouble but produced a more useful and interesting directory. If your Class Directory has strayed or been lost, you can obtain a new copy (for free) by writing me at Day Hall, Ithaca.

A meeting of the Class executive committee and advisory council was held May 10, 1951, attended by **Mal Beakes, Al Eckhardt, Everett Gidley, Jim Hillas, Johnny Hollis, Hal Lalley, Randy LeBoeuf, Johnny Ross, John Shepard, Dean Wiggins**, and yours truly. At that meeting approval was given to eliminate from our ALUMNI NEWS group subscription list, Class deadheads who had not sent back their questionnaires for the Directory, who had never replied to other Class communications, had not attended either our Twenty-five or Thirty-year Reunions, had never paid Class dues or contributed to the Alumni Fund, and otherwise had failed to show a spark of interest either in the University or in our Class. Other Classes which undertook the group subscription subsequent to ours had taken this action previously, and the general conclusion was reached that interests of both the University and our Class would be better served by concentrating our efforts on interested Classmates. This means for all of you who are now receiving the ALUMNI NEWS and are reading this report: Welcome to the "Cream of the Class" category. Upon you now rests the future of our Class activities and the assistance which we can give to Cornell.

Another meeting of our executive committee was held February 6, 1952, at the Cornell Club in New York attended by Beakes, Hillas, Hollis, Wiggins, **Bo Dial, Parker Monroe**, and Emerson. At that meeting it was decided to hold our next Class dinner at the Cornell Club of New York, Thursday, April 10, at 7 p.m., preceded by refreshments starting at 6:30 p.m., and a meeting of our executive committee and advisory council at 5 o'clock. **Bob Storey** was appointed chairman of the dinner committee. Notices will be mailed the first week of March to all our Classmates in the Metropolitan New York district, but all of you wherever located are urged to attend if you can possibly do so. The new technicolor movie, "Spring in Ithaca," will be shown and preliminary plans for our Thirty-five Year Reunion will be discussed. This will afford an opportunity to meet Classmates you have not seen in years and to see how much they have changed while you have remained the same virile young man you were when you left Ithaca; or have you? Make your plans now to have an enjoyable evening and a good dinner!! (to be continued.)

—Willard I. Emerson

HEARTH & HOME DEPARTMENT (*Steel Division*): Back early in 1951, **Wallace B. Quail** went on leave from Armco Steel Corp., Middletown, Ohio, to serve as deputy director of the Iron & Steel Division of the National Production Authority, Washington, D.C. Later, he was promoted to director of the Division. Last month, "Birdie"

Cornell Alumni News

1 **Ben Franklin** chuckled in delight  
As lightning zig-zagged down his kite,

2  
When suddenly there flashed the sign  
Of three-ring beer by Ballantine!

3  
"Gadzooks!" he cried, then off he sped,  
And at his favorite tavern said,

4  
"He means It Tastes Better!"  
Ballantine brews for flavor.  
For lightness, yes.  
For dryness, of course.  
But first, last and always—  
**Ballantine brews for flavor!**

"In truth, a most refreshing brew...  
Electrifying flavor, too!"

Ask the man for **BALLANTINE BEER** — with that famous 3-Ring Flavor!

P. Ballantine & Sons, Newark, N. J.

Pres., Carl W. Badenhausen, Cornell '16  
Vice Pres., Otto A. Badenhausen, Cornell '17

returned to his position as manager of the central area of Armco, back home in Middletown.

**FLYING SOUTH ? DEPARTMENT (Maritime Division):** When you reach Tampa or St. Petersburg, Fla., check in with **Chester A. R. Kurtz**, P.O. Box 442, Tampa, for diesel-powered "Miss Birmingham," and head for deep sea fishing with ship-to-shore radio. Skipper is Mrs. Kurtz. You'll find the boat (bait and hand-line furnished) at the southeast side of John's Pass Bridge, on the Gulf west of St. Petersburg.

**SON-TO-BE-MARRIED DEPARTMENT (Class of 1952 Division):** **Richard P. Starke '52**, son of Mr. and Mrs. **Ralph G. Starke**, 260 Holmes Road, Pittsfield, Mass., will marry in June **Wilma Mae Robbins '52**, of Bloomfield Hills, Mich. Best wishes to the bride-to-be, Senior in Home Economics and former student of your correspondent; and congratulations to the groom-to-be, Senior in Hotel Administration.

**U.S.A. DEPARTMENT (Eagles Division):** **Charles Ennis**, Colonel, United States Army, is stationed at the Recruiting Publicity Bureau, Governors Island. From 1929 to 1934, he served with Cornell ROTC. Daughter: **Sarah Ennis '52**, Arts & Sciences.

**1920 MEN** The response to Joe Diamant's card reminding us of our Class dues was very encouraging. As you know, the suggested amount for the dues donation is \$5, but some Classmates have been sending in \$10 and even more.

We are planning to hold a New York area

Class Dinner in the spring and we hope to announce the date and complete plans very soon.

Our Class President, **Don Blanke**, left February 15 for two weeks in Nassau. That sounds like a good place to be this time of the year!

**S. Dudley Nostrand** (above) has just been elected executive vice-president of Cross & Brown Co. Dud succeeds William A. Campbell, who has retired from this leading real estate organization. Nostrand joined the Cross & Brown office in 1945 after three years in the Navy. In 1950 he won the Real Estate Board of New York

annual award for the most ingenious deal of the year, for his lease to Lever Bros. of the site of its new office building on Park Avenue at Fifty-fourth Street in New York City. And Dud says, with a twinkle in his eye, that there are not many graduates of Cornell who were both Phi Beta Kappa and Kappa Beta Phi!

The dinner held in New York, February 7, in honor of President Malott was a very enjoyable affair. Our Class had two tables, with more than twenty Classmates present. Among those present were **Edward E. (Cactus) Conroy**, originally 1919, but now a convert to 1920. He lives at 356 Burns Street, Forest Hills.

The fame of **Stew Solomon's** Thirty-year Reunion sound movies has spread to such an extent that we have had an extra copy made for any 1920 groups that have been unable to enjoy this picture at one of the regular meetings. Any group of Classmates interested in borrowing it should write **T. C. Hulbert**, Masonite Corporation, 15 West Forty-eighth Street, New York City 20. It takes a 16 mm. sound projector.

'21 AB—"Wonder if anyone can remember back to 'Fuffy' of the Berry Patch? Oh, the nostalgia of it!" writes Mrs. Jo Swerling (**Flo Masnon**), wife of the co-author of "Guys and Dolls" and mother of **Peter Swerling '49** and **Jo, Jr.** Her address is 722 North Walden Drive, Beverly Hills, Cal.

'21 AB—Mrs. Robert C. Osborn (**Agda Swenson**) has been reappointed to a five-year term as a member of the New York State Tenure Commission by Governor

# FOR ALL ALUMNI

## Wedgwood Cornell Chinaware

Complete assortments of the popular **Cornell Chinaware**, made by Wedgwood in England, are again available. Your choice of two colors—**Mulberry** or **Staffordshire Blue**. While the stock lasts, orders will be shipped prepaid anywhere in the United States, safe delivery guaranteed, in about ten days from receipt of order and payment. Please use Order Form below.

**Dinner Plates** are 10½ inches in diameter. They have twelve different center designs of Campus buildings (see list below) by E. Stewart Williams '32. Your choice of two border patterns—white, moulded Wedgwood **Patrician Border**, illustrated at left above; and the familiar and popular **Cornell Border with Seal**, printed in color and illustrated at right above. Both patterns are priced at \$3 each, \$15 a half dozen, or \$30 a dozen Plates.

Graceful **Teacups and Saucers** are printed in color with the Cornell Border only and the University Seal inside the Cups. Price, \$4 each set of cup and saucer, \$20 a half-dozen, \$40 a dozen sets.

Thomas E. Dewey. She lives at 303 North Aurora Street, Ithaca.

'22—**Roland G. Fowler**, vice-president and plant manager of the National Cash Register Co. Adding Machine Division in Ithaca, has been elected a director of the Tompkins County Trust Co.

'22 AB—Mrs. James W. Kideney (**Isabel Houck**) is chairman of the New York State Board of Regents' council on high school adjustment, a committee of civil leaders and educators trying to learn why so many students quit high school before graduating. Her address is 172 Ashland Avenue, Buffalo 22.

'23 ME—Vice-president **Alfred R. Thomas** has been advanced "to become associated with general management" of the Guaranty Trust Co. of New York. He has been a vice-president since 1943. His home is at 8 Ridgewood Road, Rye.

'24 ME—**Albert J. Blackwood**, assistant director of research for Standard Oil Development Co., has been appointed to the National Advisory Committee for Aeronautics subcommittee on aircraft fuels. He is also a member of the panel on fuels for air-breathing power plants of the US Research and Development Board, lives at 1005 Boulevard, Westfield, N.J.

'24, '26 BChem—**Henry C. Givan, Jr.** is president of C. R. Rogers Corp., wholesale distributors of Sylvania television, radios, and household appliances in Western Pennsylvania and the tri-state area. His daughter Barbara hopes to come to Cornell in the fall. His address is 7441 Richland Manor Drive, Pittsburgh 8, Pa.

'25 CE—Project accountant for the Upper Holston projects of TVA is **Claude L. Brownell** of 927 Walker Street, Elizabethton, Tenn.

'25—**John J. O'Connor** is general counsel of US Fidelity & Guaranty Co., 100 Maiden Lane, New York City. His son, **Donald J. O'Connor**, is a Junior at Cornell.

'26, '27 BArch—**Leonard Lyons** in his syndicated newspaper column relates of **Hugh C. Troy, Jr.**, "the most celebrated practical joker in New York," that "For some unaccountable reason, he had saved fifty copies of the morning tabloids of the day after the 1936 elections. Then, on election night in 1948, he had a party at his house. And when his fifty guests left at 2 a.m., he gave each a copy of the 1936 tabloid. And that morning subway riders, awaiting the outcome of the Truman-Dewey race, were startled at seeing passengers reading papers whose headline was "FDR By Landslide!"

'27 Men—Fifteen members of the Class Council met at the Cornell Club of New York, February 14, to elect Class officers for the next four years and appoint committee chairmen for the Twenty-five-year Reunion in Ithaca, June 6 and 7. New president of the Class is **Eugene W. Goodwillie**. **Robert B. Brown**, resigned as secretary, was elected vice-president; secretary-chairman under the new Class organization is **G. Norman Scott**; and **Jesse M. Van Law** is treasurer. **Franklin H. Bivins** was appointed Class Alumni Fund representative and **Adolph H. Villepique** is general Reunion chairman.

'27 AB—Retired from duty as commanding officer of a gunboat division in the South

Pacific, **Paul W. Hessel** is chief of contracts division, legal department, New York City Housing Authority. He lives at 3840 Cypress Avenue, Brooklyn 24.

'28 BS—**Lee R. Forker** has returned from a sixty-day European trip as technical consultant for ECA. He made seventy speeches in eight countries. Secretary and assistant treasurer of Quaker State Oil Refining Corp., he lives at 417 West Third Street, Oil City, Pa.

'28—Lieutenant Colonel **Arthur L. ★ Kent** is stationed in Tokyo, Japan. His address is General Headquarters, AG Sect., APO 500 c/o PM, San Francisco, Cal.

'29 ME—"Swarthmore Borough is governed by seven councilmen of whom four are Cornellians and graduate Mechanical Engineers," writes **Thomas W. Hopper** of 10 Dogwood Lane, Swarthmore, Pa. They are **Lindley J. Peel '23**, president; **William H. Gehring '24**, **Charles G. Thatcher '16**, and Hopper.

'31—"Smitty Has His Tonsils Out," a picture-story with photographs by **M. Louise Boyle** and text by Mollie Stevens Smart, formerly with Child Development & Family Relationships, appeared in the February issue of McCall's magazine. Miss Boyle lives at 115 Cayuga Heights Road, Ithaca.

**1932 MEN** "WHOOPERDO FOR '32" Better get used to that slogan all over again, because you're going to be hearing a lot of it between now and June. Yup, it's time for our Twenty-year Reunion, and a lot of diligent guys are already hard at work behind the scenes to make it the biggest and best ever. The general committee includes **Pete McManus** and **Howard Munsey** in Ithaca, and of course **Freddy Biggs** as competent adviser in his capacity as Reunion chairman, emeritus. (He sure set an enviable mark for us to shoot at with the successful record he chalked up as chairman of our Fifteen-year Reunion back in '47—remember?)

**Dick Stewart**, now assistant to the president of Standard Oil of Ohio, is taking time from his executive duties—and from a host of civic duties, too—to act as general attendance promotion chairman. He's already hard at work appointing a staff of local chairmen to whoop it up for the Whooperdo, so don't be surprised if you hear from him, or from his local appointee before long. (Better still, why not drop him a line: Midland Building, Cleveland, Ohio, and tell him you want to get on his bandwagon?)

And **Joe Comtois**, now a prominent insurance man, has managed to find time in his own busy schedule (conducting his own agency, serving as Sunday School principal for his church, etc.) to take over the portfolio of publicity chairman. So you'll be hearing a lot from him, too; not only in future issues of this column, but in the regular Class paper, The Whooperdo, soon to be revived to summarize the information recorded in the customary Class questionnaires now being prepared for mailing.

Other committee appointments include **Stan Hubbel**, now assistant treasurer of Marine Midland Trust Co., in New York, who will officiate as chairman of the Friday dinner (June 8, that is, in Ithaca), and **Doug Colman**, vice-president of Johns Hopkins Hospital and of the Johns Hopkins Fund in Baltimore, Md., who has agreed to serve

as regional attendance promotion chair in that area.

There are plenty of other posts open, though, if you want to have a hand in running the festivities. So drop a line to the Reunion chairman, **Jack Hazlewood**, 800 Bulkley Building, Cleveland 15, Ohio, and tell him what you'd like to do. In any event, start to lay your plans now to join the gang at the Twenty-year Whooperdo for '32, June 6, 7 and 8, in Ithaca—it's gonna be somepin!—J.H.

'32 AB—"I have two small children, live on the old Failing homestead in the beautiful Mohawk Valley, teach in the Fort Plain school system," writes Mrs. Wilson R. Failing, Jr. (**Mary Mack**) of RD 1, Fort Plain.

'33—**Charles L. Clapp** is a partner in the accounting firm of Williams & Clapp, 401 Clinton Building, Rochester 4, and lecturer on accounting and taxation at the University of Rochester.

'33 ME—Plant engineer for Art Color Printing Co., Eastern division of W. F. Hall Printing Co. of Chicago, Ill., is **Herman A. Dreyer**. He is married and the father of three children; lives at 311 Pemberton Avenue, Plainfield, N.J.

'34 BS, '37 LLB—Assistant claim manager of Allstate Insurance Co. is **Joseph R. Mangan**, former Varsity distance runner. Mangan's address is 236 South Crescent, Beverly Hills, Cal.

'35 BS—**John S. Andrews** is in the planning department of Morse Chain Works in Ithaca; lives on Bank Street, Newfield. He is married and the father of Nancy, five, and Edward, six months.

'35, '36 BS—Formerly Manhattan district manager of Park & Tilford Distillers Corp., **Daniel Lind** (above) has been made New Jersey branch manager. He and Mrs. Lind and their two sons live at 91 Woodruff Avenue, Brooklyn.

'36 BS—**Walter R. Biedermann, Jr.** is senior industrial engineer at Watson Stillman Co., Roselle, N.J.; lives at 350 Warwick Avenue, West Englewood, N.J. **Edwin A. Stillman '08** is president.

'36 AB—Lieutenant Colonel **Robert N. ★ Denniston** has been assigned to the G-2 section, Office of the Chief of Army Field Forces, Fort Monroe, Va.

'36 CE—**Alan B. Mills, Jr.** is with Mills & Petticord, architects and engineers, Washington, D.C.; lives at 136 Glenbrook Road, Bethesda, Md.

## *"Good Place to Work"*

Telephone people know from their experience over many years that the telephone company is "a good place to work."

Wages are good, with regular, progression raises. There is a complete Benefit and Pension Plan with all costs paid by the company.

The work is interesting, with many opportunities for advancement. Last year,

for instance, more than 45,000 Bell Telephone men and women were promoted to higher jobs.

Telephone people have found respect and opportunity in the business. They've found pleasant associates and fair play; significantly, about one out of every four new employees is recommended by a present employee.

**BELL TELEPHONE SYSTEM**
