DOES A MAN WITH GOOD EYES ALWAYS SEE CLEARLY?

Not always . . . your eyesight may be good, but your foresight faulty.

Living costs have doubled in the last decade. Have you had the foresight to step up your life insurance accordingly? If you haven't, it is certain that you are underinsured and your family underprotected.

Today it is highly important that you have a clear view of your family's increased needs.

FATHERS, TOO, ARE WORTH MORE NOW!

How much more are you worth to your family in the light of present-day living costs? Talk this vital question over with an experienced New England Mutual career underwriter. He can help you work out adequate protection.

Meanwhile, why not get more information on what modern life insurance can do for you and your family? A copy of our simply written booklet, "YOUR LIFE INSURANCE GUIDE," will be MAILED to you upon request. No charge, no obligation. Simply write Box 333, Boston 17, Mass.

The Route of THE BLACK DIAMOND

CORNELL ALUMNI NEWS

Phillips Hall of Electrical Engineering—Work has started on the third structure of the new College of Engineering Quadrangle, pictured here from East Avenue, along which it fronts south from Campus Road. To be built with a gift of \$1,635,000 from the Phillips Foundation, it is named for Ellis L. Phillips '95; will afford excellent facilities for the School of Electrical Engineering.

More New Buildings Start on Campus

POWER-SHOVELS and trucks are excavating along the upper side of East Avenue for Phillips Hall of Electrical Engineering, which will be the third structure of the new College of Engineering group at the south side of the Campus, ready in about a year. The new building, designed for the modern age of electronics and power, comes from a gift of \$1,635,000 from the Phillips Foundation and is named for its founder, Ellis L. Phillips '95, former president of Long Island Lighting Co.

Modern Electrical Engineering Center

With exterior of native stone from the University Quarry, Indiana limestone, and terra cotta trim, the building will occupy the block from Campus Road to South Avenue where stood the former Faculty homes, 1, 3, and 5 East Avenue. It will be in the form of a T, about 300 feet along East Avenue with a wing eastward to Campus Road, below Hoy Field.

Phillips Hall will provide up to date facilities for the work of the School of Electrical Engineering which has overflowed from Franklin Hall to the old annex behind it and to Morse and Rand Halls and the former heating plant behind the Old Armory. It will have efficient classrooms and offices, an auditorium with 200 seats, a student and Faculty lounge, shops and laboratories

specially designed for instruction and research in communications, illumination, servo-mechanisms, electrical machinery, and other phases of electronics and power. It will contain a large sound-proof, echo-free chamber for work in acoustics and audio research and laboratories designed for work with basic and industrial electronics, vacuum tubes, transistors, television, and radar. The roof will be used for research with antennas and other equipment. A computing section will house the pipeline network analyzer developed by Professor Malcolm S. McIlroy '23 and a Westinghouse network analyzer for studying power systems.

The architectural firm of Lawrence B. Perkins '30 and Philip Will, Jr. '28 designed the building from general plans which a committee of the Electrical Engineering Faculty has been developing for several years with Dean S. C. Hollister and Director Charles R. Burrows. Faculty ideas were gathered by Professors Walter R. Jones '24, Lawrence A. Burckmyer, Jr. '25, Alexander B. Credle '30, Howard G. Smith '30, Simpson Linke, MEE '49, and Clyde E. Ingalls. Contractor is White Construction Co., of which Robert A. Escher '42 is vice-president.

The donor of Phillips Hall is a well-known figure in engineering and utilities. Soon after he received the ME

(EE) in 1895 from Sibley College, he was with Westinghouse, Church, Kerr & Co., and he organized the consulting engineering firm of E. L. Phillips & Co. in 1904. In 1910, he founded Long Island Lighting Co., was president until 1937, then chairman of the board until he retired in 1945. He organized and consolidated, among others, Rochester Central Power Corp., Rochester Gas & Electric Corp., and United Gas & Electric Corp. From 1930-50, he was president of Eastern Seaboard Securities Corp. He received the LLD of Ohio Wesleyan University and Florida Southern College.

Navy Moves to Barton Hall

Naval ROTC headquarters, which occupied the house at 3 East Avenue since it was given up as Alumni House, have transferred to Barton Hall. A cement block structure designed and erected by the University Buildings & Grounds Department at the southeast corner of the drill floor has offices for the staff and a student lounge.

Further east, the hill between Bacon Cage and Schoellkopf Hall is being excavated for the new building to house squash courts for which Alumni Trustee Leroy R. Grumman '16 gave \$110,000. Designed by Chauncey A. Thompson '25 and erected by the Buildings & Grounds Department, it will have six playing courts and a gallery for specta-

Ellis L. Phillips '95—His Foundation gives new Electrical Engineering building now started on East Avenue.

tors. At the street level, across from Teagle Hall, will be ticket offices for football games, replacing the former brick structure. This face of the building will be of native stone; the others, of brick with stone trim. It is expected to be ready for use this spring or early summer.

State to Build Veterinary College

Contracts are being let by the State at nearly \$5,500,000 for the new Veterinary College at the east end of Tower Road. W. E. O'Neil Construction Co. of Syracuse will do the construction, expected to start April 1 for completion by June 30, 1956. A site of fourteen acres is cleared of its wartime temporary dormitories and will have a group of nineteen Veterinary College buildings with the most modern facilities for teaching and research. The plant as designed by Isadore Rosenfield, hospital architect, was described by Dean William A. Hagan, MS '17, in the *ALUMNI NEWS* for May 1, 1952. It will have complete and modern laboratories, classrooms, offices, and clinics, with an auditorium, library, and buildings for housing and treating animals, with adjoining yards.

When the Veterinary College moves to its new location, it is planned that its present buildings will be replaced and remodelled by the State for the School of Industrial & Labor Relations, which is now in temporary buildings on Sage Green.

Medical College Grants

ROCKEFELLER FOUNDATION has made a seven-year grant of \$150,000 to the University for biochemical research under direction of Professor Vincent du Vigneaud, Biochemistry, at the Medical College. The work is concerned particularly with the sulphur-containing amino acids, polypeptides, and hormones. The Foundation says: "One important present phase of the work pertains to oxytocin, a pituitary hormone which stimulates milk ejection. Through a long and brilliant series of studies, Professor du Vigneaud's group has developed a complete structural picture of oxytocin, and has synthesized a substance which, when given intravenously to human patients, induces milk ejection in twenty to thirty seconds. If this substance indeed proves to be oxytocin, as now seems almost completely assured, then the first synthesis of a polypeptide hormone will have been accomplished. This would be an achievement of great practical significance, one which will help establish methods of synthesizing analogous molecules and which may lead on to a large number of important new problems."

The Medical College has also been awarded a \$24,355 grant by the National Fund for Medical Education.

State Lets Contracts for New Veterinary College—This new and modern plant will be ready in summer of 1956 at the east end of Tower Road, at construction cost of nearly \$5,500,000. Nineteen buildings of brick and native stone will have convenient facilities for teaching, research, and care of animals.

It is part of a total of \$218,048 made to the nine medical schools in New York State. The awards are aimed at strengthening the medical schools' teaching standards and are unrestricted. The money is used primarily to retain valuable personnel, fill teaching vacancies, create new faculty posts, and initiate teaching experiments.

Creal '19 Becomes Trustee

NEW MEMBER of the University Board of Trustees, by virtue of his election as president of the New York State Agricultural Society, is Harold L. Creal '19. Ezra Cornell was an early president of the State Agricultural Society, and the University Charter provides that the holder of that office shall be a Trustee.

Creal succeeds Frank W. Beneway '15, who was president of the Society for two terms, 1952-53. Creal is the owner and operator of David Harum Stock Farm at Homer and since 1950 has been director of the New York State Fair, with offices in Syracuse. He served for six terms as a member of the State Assembly, from 1939-50; is a director of the Cooperative GLF Exchange; was the first president of the New York State Artificial Breeders Cooperative, 1941-46, and of Rural Radio Foundation and its Rural Radio Network, 1947-50. He has been active in the State Farm Bureau Federation, was a director of the Dairymen's League Cooperative Association, and is a member of the livestock advisory council to the College of Agriculture Department of Animal Husbandry, organized last year.

He entered Agriculture from Jamestown High School in 1915 and received the BS in 1921. He is a member of Alpha Gamma Rho. His brother is Donald S. Creal '30; daughter, Mrs. William J. Van Patten (Johann Creal) '44; stepdaughter, Lois B. Steele '45.

At the annual meeting of the State

Agricultural Society in Albany, January 20, citations for occupying the same farms for a century were given to the families of William S. Tozier '17 of Johnsonburg and of George S. Ennis '16 and his brother, Colonel Charles Ennis '19, of Lyons.

Add College Presidents

ALVIN E. CORMENY '36 has been chosen eighth president of Worcester Polytechnic Institute, Worcester, Mass. Since 1950 he has been vice-president and assistant to the president of New York Shipbuilding Corp., Camden, N.J. A graduate of Illinois College, he received the LLB at Cornell in 1936 and later joined the New York City law firm of Chadbourne, Hunt, Jaeckel & Brown. In 1941 he went to the general counsel's office of New York Shipbuilding Corp. He is a member of Phi Delta Phi and from 1944-45 served as a Naval officer in the Pacific Theatre.

Twenty other Cornellians are known to be heads of colleges or universities.

Concert Singer Pleases

JENNIE TOUREL, mezzo-soprano, well rewarded a large audience that braved sub-zero weather to attend her concert, January 12, in Bailey Hall. Miss Tourel has an excellent range, a fine dramatic sense, and a remarkable gift for languages. Among her offerings that brought out her fine voice and acting ability were the aria "Una voce poco fa" from Rossini's "The Barber of Seville" and two Russian songs, "I Love Him Still" and "My Darling Girls" by Dargomijsky. She was superb in Debussy songs "Fantoche" and "Recueillement" and lieder, including three by Schubert. She charmed with her occasional program notes. George Reeves was a fine accompanist.

Class Alumni Workers Plan Their Jobs

CLASS OFFICERS, Reunion chairmen, and Alumni Fund representatives gathered at the Westchester Country Club in Rye, January 16, to exchange experiences and discuss plans for their volunteer work for the University. More than 100 men and women alumni braved a snowstorm and icy roads to spend most of that Saturday getting information and inspiration for their varied Class jobs.

After separate sessions and "workshops" of Reunion chairmen, the Association of Class Secretaries, and Alumni Fund workers, all the group were addressed at dinner that evening by President Deane W. Malott. He told them especially of the financial problems facing the University and said that all their respective activities for Cornell were important and appreciated. The President was introduced by Alumni Trustee Edwin T. Gibson '08, who is chairman of the University Council. Gibson also called on Willard A. Kiggins, Jr. '21, president of the Alumni Fund, and Harry V. Wade '26, past-president of the Cornell Alumni Association.

Exchange Reunion Ideas

Reunion chairmen and secretaries of men's and women's Classes held separate morning sessions with Alumni Field Secretary Richard T. Cliggott '53 and Alumnae Secretary Pauline J. Schmid '25, to make plans for Class Reunions next June 11 and 12. Those responsible for this year's organized Reunions of

thirteen Classes got ideas and help from the experience of others in the general discussions.

Class Secretaries Elect

At an afternoon session of the Association of Class Secretaries, President William G. Rossiter '37 asked for reports of Allan H. Treman '21, chairman of a committee to revise the by-laws of the Association; of Charles E. Treman, Jr. '30, chairman of a committee to study Reunions; and called on G. Norman Scott '28, representative to the Alumni Association standing committee on Alumni Trustee nominations. H. A. Stevenson '19 gave a brief report on the present status of the Class group subscription plan for the ALUMNI NEWS, twelve classes having instituted annual dues for this purpose.

The Association elected Leo K. Fox '25 president, succeeding Rossiter, and Scott, vice-president. It re-elected Mrs. Robert L. Webster (Alice Schade) '31, treasurer, and Alumni Secretary R. Selden Brewer '40, secretary. Mrs. Laurence S. Bierds (Betty Clock) '33 was reelected to the Association executive committee and Roy Taylor '10 and John W. Todd, Jr. '35 are new members. Mrs. Bierds was designated to serve with President Fox as a director of the Cornell Alumni Association.

Twenty-eight women officers and Reunion chairmen of twenty-three Classes, from '04 through '52, attended these sessions and the registration showed

thirty-seven men of twenty-six Classes, from '96 through '53.

Organize for \$500,000 Alumni Fund

About sixty-five Alumni Fund workers spent the afternoon discussing the necessary Class organization to be effected now for the spring's intensive campaign to achieve the \$500,000 unrestricted Alumni Fund goal in this fiscal year ending June 30.

At an opening general meeting, president Kiggins introduced the Alumni Fund vice-presidents, Ernest R. Acker '17, Eugene M. Kaufmann, Jr. '26, John P. Syme '26, Edith L. Gardner '36, and Jansen Noyes, Jr. '39; chairman Gibson of the University Council who told of the need for a successful Fund campaign for unrestricted gifts this year; and members of the Alumni Fund office staff. Hunt Bradley '26, executive secretary, explained general plans for the campaign, outlined the functions of his office, and showed past and projected results. Syme reported as chairman for special gifts to the Fund.

Three workshop sessions followed, in which experiences and suggestions were exchanged. H. Cushman Ballou '20, chairman for Reunion Classes, and Bradley met with men of the committees for Classes holding Reunions this year. Fund representatives and committee members of other men's Classes were led by Kiggins and John B. Rogers III '45 and Joseph D. Minogue '45 of the Alumni Fund staff. Charles C. Colman '12 and Norman R. Steinmetz '26, Class representatives, told how their Class committees had worked. Women's Fund

Class Workers Gather to Assist the University—New idea of an all-day session at the Westchester Country Club in Rye, January 16, brought more than 100 Class officers, Reunion chairmen, and Alumni Fund representatives and committee members to exchange ideas and make plans for their volunteer activities. President Deane W. Malott addressed them at dinner.

representatives and committee members' discussions were led by Miss Gardner and Mrs. Olive Northup Snyder '22 of the Fund office.

Gives Beekeeping Library

VALUABLE LIBRARY of bee books amassed by the late John A. Anderson, world authority on beekeeping and editor of the *Scottish Beekeeper*, has been given to the University by Mrs. Anderson to memorialize the friendship between her husband and the late Professor E. Franklin Phillips, Apiculture. The collection will be housed with the Phillips Bee Collection in Mann Library of the Colleges of Agriculture and Home Economics. Professor Phillips, who came to the University in 1924 after nineteen years in charge of apiculture in the US Bureau of Entomology and retired in 1946, developed the Phillips Bee Collection of some 30,000 books, manuscripts, and periodicals on beekeeping. He died in 1951.

Glee Club on Television

TELEVISION viewers all over the country will see and hear the Cornell Glee Club, February 19, on the CBS-TV network of forty-eight stations. The Glee Club of fifty-five undergraduate men, directed by Thomas B. Tracy '31, will appear with Perry Como on the Chesterfield television program that Friday evening, 7:45 to 8, Eastern standard time. They will sing in the CBS television studios in New York City with Como and his regular cast of the Fontane Sisters, Mitchell Ayres and his orchestra, and announcer Richard S. Stark '34. The show will be transcribed and broadcast a week later by the 582 radio stations of Mutual Broadcasting System, at 7:45 Friday evening, February 26.

From their television appearance, February 19, Tracy and the Glee Club will go directly to the Cornell Club of New York to give an informal show for members and their guests. This is being arranged for the Club by Robert J. McNamara '37, Edith L. Gardner '36, Charles H. Shuff '36, and Alexander J. Dughi, Jr. '41.

The next evening, February 20 at 8:15, the Glee Club will give a concert in Arlington High School, Poughkeepsie, sponsored by the Cornell Club of Dutchess County and the Mid-Hudson Cornell Women's Club. Chairman of arrangements is William D. Knauss '45.

These concerts are in the nature of a "warm-up" for an extensive tour of the South and West that the Glee Club will make during the University's spring recess.

They will fly in a chartered DC-4 of Pan American Airways to sing under

auspices of Cornell Clubs in Atlanta, Ga., March 26; Houston, Tex., March 27; Mexico City, Mex., March 28; Los Angeles, Cal., March 29; Berkeley, Cal., with University of California Glee Club, March 30; Denver, Col., March 31; Tulsa, Okla., with the Dartmouth Glee Club, April 1; and Davenport, Iowa, April 3. An additional date may be arranged for April 2, according to Alumni Secretary R. Selden Brewer '40, who is graduate manager of the Glee Club.

Trustee Pew '26 Dies

UNIVERSITY TRUSTEE Thomas W. Pew '26 (above) died January 4, 1954, in his home at 3391 Sleepy Hollow Court, Houston 19, Tex. He was president of General Crude Oil Co. in Houston.

Pew was elected to the Board, October 20, 1950, for the term ending June 30, 1955, to fill the vacancy left by the death of H. Edward Babcock. He served on the College of Architecture Council, was chairman of the audit committee and a member of the planning and development committee of the Board of Trustees, and was a member of the University Council. He was chairman of the Greater Cornell Fund campaign in Texas, Louisiana, Oklahoma, and Arkansas, and was a member of the alumni committee which completed a fund of \$1,762,000 to pay for Kimball and Thurston Halls for the College of Engineering.

A native of Wilkesburg, Pa., Pew entered Sibley College from Haverford School in 1922 and received the ME in 1926. He was elected to Atmos and Red Key and was a member of Chi Psi. He entered the employ of Sun Oil Co. as a scout in Texas and Louisiana, was promoted to the production department and worked in oil fields of Texas and Oklahoma, and as supervisor in California. He became vice-president in charge of production when General

Crude Oil Co. was organized in 1933, and president in 1944.

He was a trustee of Baylor University college of medicine; a director of the Independent Petroleum Association of America and of the Second National Bank in Houston; was on the executive board of Boy Scouts of America and the board of Transcontinental Air, Inc.; was a member of the Cornell Society of Engineers, American Petroleum Institute, American Institute of Mining & Metallurgical Engineers, and Texas Society of Professional Engineers. He was the father of Antonia Pew '57, brother of James E. Pew '23, cousin of Joseph N. Pew, Jr. '08 and John G. Pew '24; his sister is the wife of Benjamin T. Burton '22.

Aid Defense Department

ASSISTANT SECRETARY OF DEFENSE (Supply and Logistics) is Charles S. Thomas '19, and Robert S. Pasley, Jr. '36 is Assistant General Counsel, Department of the Navy. Two other Cornellians recently in the news of the Defense Department are George C. Brainard '11 and Joseph P. Binns '28, appointed by Herbert Hoover to a new "Committee on the Business Organization of the Department of Defense." This is a sub-group of the Hoover Commission on Organization of the Executive Branch of the Government.

Thomas was appointed Assistant Secretary last summer after having served as Assistant Secretary of the Navy since February, 1953. Since 1937, he had been president of Foreman & Clark, a chain of retail clothing stores with offices in Los Angeles, Cal., and during World War II he was a special assistant to Navy Secretary James B. Forrestal and to Artemus L. Gates, Assistant Secretary of the Navy for Air. He came to the University in 1916 as a Sophomore from University of California and left in 1918; is a member of Psi Upsilon.

Pasley entered the Law School from Princeton in 1933 and received the LLB in 1936; was president of the Law Association and business manager of the Law Quarterly; member of Phi Delta Phi and Phi Kappa Phi. He joined the New York City law firm of Cadwallader, Wickersham & Taft. On leave in 1946, he headed the office established here by Professor Arthur J. Keeffe '24, Law, to study Naval court-martial procedures, for report to the Secretary of the Navy.

Brainard is board chairman of the Federal Reserve Bank of Cleveland, Ohio, and president of Addressograph-Multigraph Corp. In the first World War, he was in charge of artillery ammunition production for the Army and in the second, chief of the Cleveland Ordnance District and coordinator of

National Defense Contract Service, War Production Board.

Binns, vice-president of Hilton Hotels Corp. for Eastern operation and manager of the Waldorf-Astoria Hotel in New York City, was appointed chairman of a Hoover Commission "task force" on subsistence last November. He now heads a similar group on subsistence management in the over-all committee on the business organization of the Defense Department.

Dean S. C. Hollister is a member of the parent Hoover Commission.

These alumni should be added to the partial rosters of Cornellians who are active in the new administration in Washington which appeared in the ALUMNI NEWS last April 15 and May 1.

Club To Hear Cisler '22

ANNUAL LUNCHEON of the Cornell Women's Club of New York, at the Essex House, February 27, will feature an address by Trustee Walker L. Cisler '22 on "Nuclear Power for Peacetime Purposes." Tex McCrary and Jinx Falkenburg will interview Cisler, who is president of Detroit Edison Co.

Dr. Bella Steinberg Van Bark '27, a member of the faculty of the American Institute for Psychoanalysis, addressed the Club January 13 on "Sources of Tension in Marriage." February 10, Jerome M. Nathanson '28 spoke to the Club on "Inside our Values."

Students of All Faiths

RELIGIOUS PREFERENCES indicated by students at registration and compiled by CURW show that Jewish students lead again this year, with 2026 indicating preference for that faith. Roman Catholics are next, with 1385; Presbyterian and Dutch Reformed adherents combined follow with 1280.

The Episcopal with Greek Orthodox group has 1072; Methodist, 881; Congregational with Evangelical & Reformed, 430; Lutheran and Evangelical denominations, 387; Baptist, 290; Unitarian and Universalist, 132. Christian Science faith has 86 adherents; Friends (Quakers), 69; Community, Federated, Union, 48; Moslem (Islam), 36; Latter Day Saints (Mormons), 33; Buddhist, 23; Evangelical & United Brethren, 21; United Church of Canada, 18; The Christian Church, 15; Hindu, 13; Disciples of Christ, 9; Christian & Missionary Alliance, 6; Church of Christ, 5; Ethical Culture, 5; and a miscellaneous group including twenty-five to thirty other denominations, faiths, or sects, 65.

"Protestant" was designated by 274 students. "No preference" was indicated by 842.

Now In My Time! *Comyn Barry*

BULLDOZERS and steam shovels are biting rapidly into that hillside at the northeast corner of Hoy Field. Your aged historian shudders with anxiety at each bite, but no one else seems the least bit concerned; and at the moment of going to press, nothing had happened.

When your reporter took over at Schoellkopf on August 1, 1919, and was shown around the premises by the late Mr. Floyd Darling, what is now Hoy Field was a pretty desolate waste. Parts of it had been occupied during World War I by an Army School of Military Aeronautics, some of whose flimsy buildings were still on the site in a high state of disrepair; other parts had been plowed up in a patriotic attempt to raise potatoes. At the base of the hill in the northeast corner, however, we observed a stout, well-barred and padlocked door leading into the slope. When we asked Mr. Darling what was in there he replied, "Bombs, shells, and high explosives." Did he have a key? He had and also a flashlight and would open up and show us.

Thirty feet inside the tunnel, the man pointed out neat piles of stout wooden boxes of the Type 4.4 shells which had come in during the recent hostilities. They bore the familiar stripes of different colors and some of them had stenciled on them the letters "H.E." We'd seen enough and retired briskly to the outside air, to the evident relief of Mr. Darling.

Later in the week, we mentioned the incident to Colonel Barton and were shushed with the utmost politeness. He pointed out that the late School of Military Aeronautics had been conducted under entirely separate command and he had no responsibility for anything they might have left behind them, and desired none. He'd prefer to talk about something else.

The situation remained right there unchanged for another two years and until work began on the construction of the new baseball field on the Hill, which was later to be named for Mr. Hoy. But that construction was done by the Department of Buildings & Grounds and your reporter had little part in it. We did not mention to the engineers in charge the presence of high explosives in the hill, but inferred they'd heard about it from other sources when they removed the

door, stuffed the tunnel with dirt, smoothed off the outside surface, and planted it to grass. That solution quieted our anxieties and also those of the late Mr. Floyd Darling.

As a matter of historical interest, those lethal boxes will not be the only unsuspected items that will underlie the new squash courts. That hill was once the site of the University Barn which was removed when grading started for what is now Schoellkopf Field. It had been intended to remove the foundations of the old barn, too, but it was soon discovered that these had been built for the ages and would not yield either to bulldozers or dynamite. So here again, the same engineering solution of the problem was adopted that was later employed for the high explosives puzzle: the barn foundations were covered with dirt, the surface smoothed over and planted to grass. Nor are we inclined to criticize. "What you can't do anything about, cover up" seems to be as good a rule as any for the guidance of academic foundations!

What Cornell at the moment would seem to need most is a Bureau of Authenticated Records, Dubious Information, & Campus Folklore. One of these days, no doubt, it will be found necessary to excavate on that small level stretch back of the Crescent; and when that happens there will be discovered a vast collection of the bones of prehistoric quadrupeds. These will puzzle the gossips and the scientists, and the records of the University will be searched in vain for something to explain the find. But the late Mr. Floyd Darling could have revealed that for many decades that area had been the final resting place of all animals that died on the University farm and had always been known as Dead Horse Hill, although more delicately marked as Kite Hill on the official maps of the Campus. He always selected that spot as the site of his garden patch, and had produced some noteworthy crops there.

Most of these items are hearsay to your reporter, too; but not the one about the high explosives under the squash courts. We saw the boxes in the tunnel. We don't expect anything to happen as the result of what's going on; but any day we hear a dull thud from Ithaca, followed by the sound of broken glass in Jacksonville, we won't have to guess the cause!

INTELLIGENCE

Emerson Hinchcliff '14

THAT BOOKLET on "Secondary School Preparation for College" by Director of Admissions Herbert H. Williams '25 is carving quite a niche for itself. I have heard much favorable comment on it, and the Admissions Office is getting many requests from those who saw it mentioned in the ALUMNI NEWS and Letter from Cornell. A '14 Classmate who is a father, grandfather, and general secretary of the Worcester YMCA thinks the NEWS might have more on it than the brief announcement of last December 15, so I'll touch on a few high spots that particularly appeal to me. Parents of youngsters who are in their early high school years, or even younger, can get the full story by asking for the booklet at Admissions Office, Day Hall.

* * *

Many parents, I'm sure, don't know how to judge their local high school or independent school for effectiveness in preparing students for college. The great test is how many graduates does the school send on to college. If most of them go, and make good, obviously the school knows how to prepare them. The parent, then, needs to "find out from the school authorities, in rather concrete terms, just how many of their graduates of the past year or two have been accepted at colleges comparable to that to which his own child aspires. Then inquire, again asking for rather concrete information, as to the quality of school record and college board test scores which those particular accepted students attained while in the secondary school. With this information at hand, it will be quite clear that similar performance or better is the only safe goal for a child hoping to gain acceptance at any one of the colleges about which you have inquired, and that level of performance should be watched carefully throughout the high school or preparatory school years."

If a high school sends only a small percentage of its students to college, that doesn't utterly condemn it, but the child must stand at, or near the very top of his class. He should take the proper subjects; i.e., four years of English, plenty of math, enough science and foreign languages, etc., in the so-called "academic area." Sometimes one can get a better school by changing residence. Sometimes it may be advisable to choose a private "prep" school.

On this prep school question, the leaflet cites advantages (small classes, closer supervision, fewer distractions, tougher competition); but it also mentions disadvantages, such as "less experience in making his own decisions, choosing his friends wisely, and personally budgeting his time effectively." At Cornell, 70 to 75 per cent of our students come from high schools. I remember vividly what an Exeter boy told me once. They were all warned not to coast in their freshman year at college just because they would find themselves better prepared than most of their high school mates; if they did, they would find themselves outdistanced later.

* * *

Most schools have a "college recommending" mark which is higher than just passing, and Cornell does not accept for credit any course with less than that mark. Good grades are the fundamental measuring stick, though all factors are considered. School work is an indication of performance to date. The Scholastic Aptitude Test of the College Board is an indication of potential capacity for future work. It gives a comparison on a national basis; Cornell likes to see it taken in the junior year of high school. Extra-curricular activities are evidence of extra energy and capacity and of time-budgeting ability, but only if they supplement good academic performance. The unsupported conviction that a youngster "will do much better if he can just get in college" generally doesn't work out.

One can see that the author is permeated with the psychology of the school-aged. He talks earnestly of motivation, interest, and future aims; says they must come from within, that one can guide but can't force a child against his will or beyond his capacity, and that children will vary within a single family. You can see, too, that he wants well-qualified Cornell "legacies" to apply; he calls them potential "premium undergraduates," and welcomes correspondence with Cornell parents.

* * *

I have a little psychological slant of my own, in reverse, on the question of legacies. This was touched off by talking with a Classmate who could only get two of his six children to go to Cornell. He says his tactics on his grandchildren will be to talk up small colleges, saying they would never think of going to that terrible place, Cornell. He is willing to bet that they will fight to go to Ithaca. The scheme might work! I guess each child and each family is a problem all its own. Anyway, I am too frequently distressed by hearing of good second-generation Cornell material going elsewhere, especially when it is sheeplike following of their pals at prep school. My positive suggestion is that

the kids should show that they are leaders, not sheep, and bring other good prospects with them to America's most beautiful and stimulating Campus!

Change Plantations Control

IN THE CORNELL PLANTATIONS, Winter number, Wilbur A. Maynard, Jr. '26 writes of "A Breath of Fresh Air," concerning his move from the city to a country home in Westport, Mass. Editor Bristow Adams relates and shows with pictures that "The Water Supply is Being Reduced" and a description is given of the orchid plantings at the University. "The Rockies" by the late Professor Walter King Stone, Architecture, is illustrated from his painting of a canyon.

Reorganization of the Cornell Plantations administration committee is announced with the resignation of Professor John F. Cornman '36 as director and his replacement with George T. Swanson '36 of the Department of Buildings & Grounds. Professor Cornman remains a member of the committee, of which Professor Liberty Hyde Bailey is honorary chairman and Professor Laurence H. MacDaniels, PhD '17, is chairman. Professors Donald S. Welch, PhD '25, J. George Matthyse, PhD '43, and Gustav A. Swanson are the other members.

The Shakespeare Folios

BY PROFESSOR WILLIAM R. KEAST, ENGLISH

THE RESOURCES of the University Library were notably enriched during 1953 by the acquisition of four books of great rarity and value, the four folio editions of the plays of William Shakespeare, published in 1623, 1632, 1664, and 1685. The Folios came to the Library through the generosity of William E. Mennen '08, to whose library they had belonged. The presentation was made in a ceremony at the University, October 3; Mrs. Cyrus Hapgood, daughter of the donor, acted for her father and President Malott received the books for the University.

The problem of determining what Shakespeare actually wrote is extremely complicated; very different from that for most authors since the eighteenth century, who customarily oversaw the printing of their works, and whose manuscripts have often survived. No manuscripts of Shakespeare's plays are known to exist; his plays were often carelessly and incorrectly printed; there is no evidence that he saw the proof-sheets of any of his plays; several of them were printed in "pirated" or unauthorized versions; for nineteen of his plays there are two or more early texts, differing in important ways; and eighteen of his plays were not printed at all until after his death.

The importance of the Shakespeare Folios, and especially of the First Folio, arises from this state of affairs. Lacking texts which can be demonstrated to have had the author's approval, we must try to decide what Shakespeare wrote by comparing the different versions of his plays and weighing their relative authority. The First Folio was the first collected edition of Shakespeare's plays. Containing thirty-six plays (with one exception all that he wrote), it appeared in 1623, seven years after his death. Its great value rests first on the fact that it gives us the earliest printed versions of eighteen of the plays, including "The Tempest," "As You Like It," "Julius Caesar," "Macbeth," and "Antony and Cleopatra." The theatrical companies in Elizabethan times were reluctant, mainly for economic reasons, to allow the plays they owned to be circulated in print, and they had succeeded in keeping these eighteen plays out of the book-stalls. The other eighteen plays in the First Folio had already appeared in separate editions, but the Folio versions are usually more or less different.

The First Folio was printed under the supervision of the two senior members of the theatrical company to which Shakespeare had belonged, and which

still owned the manuscripts of his plays. The authority of the versions printed in the Folio is therefore very great: the editors, conceiving the books as in part a memorial to their great colleague, took pains to represent his work accurately. For the plays not previously printed, they supplied manuscripts from the playhouse, some of them, probably, in Shakespeare's hand; to correct and amplify the texts of plays already in print, they also used the company's manuscripts. Thus the First Folio, though it contains many errors and needs to be corrected from earlier editions of some plays, is the primary source for our knowledge of what Shakespeare wrote.

The other three folios were printed in 1632, 1663-4, and 1685; each is a reprint of the folio preceding it; each corrects some of the errors of its predecessor and introduces new errors of its own. The Second Folio adds Milton's great epitaph on Shakespeare, Milton's first published poem. In the Third Folio, seven plays were added to the original thirty-six; one of these, "Pericles," is by Shakespeare, but the rest are spurious.

The folios are large volumes, about 9 by 14 inches, of some 900 pages printed in double columns. The copies presented to the Library by Mr. Mennen are all in excellent condition: large, clean, and well-preserved. Three are beautifully bound in morocco by Riviere.

The Library plans for the spring an exhibit of the Folios, to mark this great addition to its collection and to express the University's gratitude to Mr. Mennen.

Journal Brings Lecturers

ANNUAL LECTURESHIP to bring distinguished philosophers to the Campus has been established by the Philosophical Review, a quarterly published by the University and the oldest journal of general philosophy in the United States. The lectureship was inaugurated November 21 by C. D. Broad, professor of moral philosophy, emeritus, at Cambridge University, who spoke in Olin Hall on "Berkeley's Denial of Material Substance." The lectures of the series will be published in the Philosophical Review.

The Philosophical Review has been edited continuously since 1892 by the Faculty of the Sage School of Philosophy. Its board of editors now are Professors Stuart M. Brown, Jr. '37, Max Black, and Gregory Vlastos. The Review circulates in forty-four countries, including the USSR, and prints articles and

discussions by foreign as well as American contributors.

BACK WHEN:

Thirty Years Ago

February, 1924 — Announcement made that the College of Law will become a graduate college in September, 1925. . . . Board approved final plans for new Cornell memorial union to be erected in the spring by Mrs. Willard Straight. . . . Red quintet defeated Yale in an amazing game here, 23-19. For the first time since 1913, when the team captained by Gil Halsted '14 and coached by Dr. Albert H. Sharpe won Cornell's first intercollegiate basketball championship, the Eastern college basketball crown will come to Ithaca again. . . . Charles Baskerville, Jr. '19, of Cornell Widow fame, is apparently finding little difficulty in securing contracts for free-lance illustrations. One of his recent assignments is for a series of cover designs for The Theater Magazine. . . . Professor Edward L. Keyes of the Medical College gives this prescription for the tired business man: sleep eight hours a night; take a hike before breakfast; if you must eat in fifteen minutes, order crackers and milk; steer off meat, pie, and cheese unless you can take two hours afterwards to rest up; and forget business troubles for a month each year.

Ten Years Ago

February, 1944—"Give Me Liberty—Or At Least a Pass," a variety show presented by the servicemen's committee of Willard Straight Hall for the benefit of the American Red Cross "and the cast's ego," packed Bailey Hall. Written, produced, and directed by members of service units on the Campus, the show was acted, sung, and danced by a cast of 300 enlisted soldiers, sailors, and Marines, handsomely abetted by members of the Dramatic Club, the Women's Glee Club and many other co-eds, the staff of Willard Straight Hall, and (for all we know) Olsen and Johnson. It boasted a "Cornellzapoppin'" pre-curtain clown act, two big choruses, a half-dozen separate sensuous pony-ballets, a good healthy orchestra, and a lot of heartfelt Campus humor. . . . The former open terrace of Willard Straight Hall is snugly closed in to provide messing space for the Army. Shortly after it was opened, some unidentified wag hung up a neatly lettered sign dubbing it "Whiting Hall" in honor of Edgar A. Whiting '29, the general factotum and assistant manager of Willard Straight. An Army student was heard to remark: "Wonder who this Whiting is? They sure don't miss a chance to name

buildings at Cornell!" . . . The war has added a new slant to houseparties. Four houseless fraternities, Alpha Delta Phi, Chi Psi, Kappa Alpha, and Psi Upsilon, dispossessed by service men, rented the second floor of the Clinton House for imports and co-eds and threw a whoop-doodle. Some forty-five couples were on hand for the tea dance Saturday night.

Teach Foreign Doctors

TEN PHYSICIANS from four countries are enrolled in a post-graduate course in internal medicine for Latin-American physicians which began September 1 at Bellevue Hospital in New York City, conducted by the Medical College. The six-months' course is part of a program of medical education for Latin-American physicians sponsored by the Kellogg Foundation and the American College of Physicians. It is directed by Professor E. Hugh Luckey, Clinical Medicine, who is director of the Second (Medical) Cornell Division of Bellevue Hospital.

Applicants were interviewed by representatives of the Kellogg Foundation and, in conjunction with the fellowship committee of the American College of Physicians, a program is designed for each man admitted. Most of them are oriented with Medical College instruction, using clinical facilities of the Second (Medical) Division of Bellevue Hospital. Thereafter, they are assigned

to individual preceptors in outstanding clinics throughout the country. They remain in this advanced work for a year or two before returning to their own countries.

In the last four years, thirty-nine fellows from twelve different Latin-American countries, representing eighteen medical schools, have been enrolled in the course. Eleven came from Chile, five from Brazil, four each from Paraguay and Peru, three each from Colombia and Mexico, two each from Costa Rica, El Salvador, and Venezuela, and one each from Argentina, Canada, and Ecuador. The success of the program is indicated by the responsible positions the graduates have assumed in their medical schools. Some are department heads, a large number head important sub-departments, and most of the others show continuing promise as contributors to medical education in their countries.

Professor Luckey and his colleagues have also given post-graduate instruction to more than fifty other foreign doctors, representing twenty-seven different countries from all parts of the world, from Siam to Norway, and from more than forty different medical schools.

Find Retirement Effects

EARLY FINDINGS in a study of occupational retirement being conducted by the Cornell Social Science Research Center were reported in an article by S. A. Schreiner, Jr. in the December 13 issue of Parade, Sunday newspaper magazine. Making a survey of 4,000 "pre-retirement" workers of both sexes in plants all over the country, Professors Milton L. Barron and Gordon Streib, Sociology & Anthropology, learned, according to Schreiner: "About 65 per cent of the 64-year-olds felt they were middle-aged or younger! Almost 50 per cent said they *never* wish they could be younger again. Approximately 75 per cent reported that they still enjoy their work, and more than 70 per cent would not change their jobs even if they had a chance. More than 85 per cent stated that they did *not* have to cut down on their daily activities such as driving, gardening, and walking. Approximately 70 per cent are in good or excellent health." Schreiner noted that the Cornell study indicates that "most older people feel they should be the judge of when to retire instead of being at the mercy of rules and regulations." Field Director Wayne Thompson, Sociology & Anthropology, is pictured helping a woman answering a questionnaire.

Grant of \$130,000 from the Lilly Endowment, Inc., of Indianapolis, Ind., supports the research on the effect upon individuals of retirement from active

Alumni Gather in Germany—Pictured at a "little private Reunion" in Germany during Christmas week end are (left to right) Lieutenants Simon L. Dingfelder '51, Hq. 327th QM Bn., APO 46, c/o PM, New York City; Michael C. Aiduk '52, 7856 QM Supply Control Branch, Hq. Giessen QM Depot, APO 169; Eliot W. Mitchell '52, 317th QM Recl. & Maint. Co., APO 46; and Peter B. Mitchell '52, Hq. US EUCOM, APO 128. Dingfelder returned shortly afterwards to the States on an emergency leave because of the illness of his wife.

work. Secretary of the Endowment corporation is J. K. Lilly III '39; University Trustee Nicholas H. Noyes '06, chairman of the finance committee of Eli Lilly & Co., is a director.

Veterinarians Meet

"New Look" at animal diseases was taken by some 450 veterinarians, including many alumni, at the forty-sixth annual Cornell Conference for Veterinarians, January 6-8. They heard twelve guest speakers and twenty-four members of the Veterinary College, discussing topics ranging from diseases of chinchillas to surgery in cows.

Vesta, life-size transparent replica of a female Great Dane which was created as a unique educational exhibit for the Gaines Dog Research Center, New York City, by the Deutsches - Gesundheits - Museums, Germany, creators of the Transparent Woman featured at the World's Fair in 1939, was a popular feature. Vesta is mounted on a pedestal that turns. Each of her organs lights up with its own individual color as she "lectures" (via tape recording) on the various organs of the canine body and their functions. The conference visit was Vesta's first stop on a transcontinental tour. There was a special showing for the public.

Feature of the annual dinner of the Veterinary College Alumni Association, January 6, was presentation to the University Athletic Association of enlarged pictures of Varsity athletes, Drs. Charles A. Lueder '02 and William S. Newman '07. Dr. Lueder won the "C" for rowing, football, and track and coached the crews, and Dr. Newman won the "C" for rowing and football.

The Veterinary Alumni Association elected as president Dr. William G. Robens '23 of Poland. He succeeds Dr. Frederick W. Schutz '31 and becomes a director of the Cornell Alumni Association. Dr. Walter J. Matuszak '43 of Syracuse is vice-president and Professor Stephen J. Roberts '37, Veterinary Medicine, was re-elected secretary-treasurer.

At the conference dinner in Statler Hall auditorium, January 7, Brigadier General James A. McCallum, USA (retired), president of the American Veterinary Medical Association, extended greetings, and Dean William A. Hagan, MS '17, and Professor Myron G. Fincher '16 described and showed pictures of their trip to Europe last summer to attend the International Veterinary Conference. Among guest speakers here for the conference were Dr. Robert W. Fuller '18, veterinarian with the State Bureau of Animal Industry, Batavia; Lieutenant Colonel Bernard F. Trum '35, Veterinary Corps, USA, Atomic Energy Commission, Oak Ridge, Tenn.; Dr.

Veterinary Alumni Honor Their Athletes—Veterinary Alumni Association at its annual meeting presented framed pictures of two famous Veterinary "C" men to the University Athletic Association. This composite photograph shows, from left, Ross H. Smith, Assistant Director of Athletics; Dr. Charles A. Lueder '02 and Mrs. Lueder of Jacksonville, with his picture; Dr. Frederick W. Schutz '31, outgoing president who presented the pictures for the Association; and Dr. William S. Newman '07 of Ithaca, with his picture.

Benedict V. Favata '38, neurological surgeon, Rochester; Dr. Delano L. Proctor, Jr. '42, Lexington, Ky.; and Dr. Henry M. Doremus '46, Towaco, N.J. Most of the sessions were in Statler Hall, with colloquia, clinics, and demonstrations in the Veterinary College buildings.

At Harvard Business School

CORNELLIANS at Harvard Graduate School of Business Administration met with Dean of Men Frank C. Baldwin '22, who attended a meeting of seventy deans at the School in Cambridge, Mass., January 10-16.

Alumni who are students at Harvard Business School are John J. Caminer '48, Jack G. Dorn '49, John E. Royer '49, Jules L. Bigio '50, Richard L. Freeman '50, Gordon Gardiner '50, William G. Jennings '50, Arno H. Nehrling, Jr. '50, Jonathan K. Woods '50, Burton A. Pierce '51, Charles J. Christenson '52, Leon V. Hirsch '52, Albert D. Klingenberg '52, James T. Yung '52, and Robert H. Abrams '53.

Magazine Features Diet

DIET SUCCESS story by Mrs. Mary Evelyn Dempsey of Groton, a "graduate" of the Cornell diet clinic, appeared in the January issue of Woman's Day, A&P stores magazine, under the title "I Lost Sixty-nine Pounds and Was Never Hungry!" The University diet clinic is headed by Dr. Norman S. Moore '23, Clinical & Preventive Medicine, and staffed by Professor Charlotte M. Young and others of the School of Nutrition. The diet adopted and tested by

the experimental clinic is the 1400-caloric diet developed by Dr. Margaret A. Ohlson of Michigan State College. Accompanying the story by Mrs. Dempsey is a question-and-answer article on the diet by Mrs. Kathleen K. Berresford '41, Public Nutrition. Pictured in color are three daily meals for a full week's diet menu, and menus for three more weeks are given, with some recipes. Mrs. Dempsey is the mother of Norma J. Dempsey '54.

Alumni at Fort Lee

FIRST LIEUTENANT John C. O'Donnell '52, QMC, sent in, January 9, the names of the following Cornellians who are or were recently at Fort Lee, Va. He believes that Cornell has the most alumni there. From Hotel, besides himself: Robert B. Alexander, Jr., John F. Craver, and Harry B. Coyle, Jr. '52; Stanley Abel, Gordon R. Dennis, John Ditchcos, Peter P. Fuller, Donald F. Johnstone, Ronald S. Lockhart, Henry P. Pitts, Jr., John R. Russell, Charles G. Shelley, Robert H. Sweeney, and Andrew J. Tullos '53. From Arts & Sciences: Jerome A. Shaffer '50; David W. Buckley, Larry J. Goldsborough, Douglas G. MacLean, and Harold Seidenberg '52; Andrew F. Hanley, Jr., Kenneth C. Merrill, and Robert J. Roseberry '53. From Agriculture: Francis P. Heffernan '50; Melvin G. Atwater, Foster B. Cady, Jr., Howard F. Crumb, and David P. Dirksen '53. From Industrial & Labor Relations: Robert S. Chabon and Oscar W. Rittenhouse '52; Jay E. Brett and Lafayette D. Rothston '53. From Chemical Engineering: Thomas E. Halloran '52; from Mechanical Engineering, Edward J. Carney '52.

On the Sporting Side

By "Sideliner"

Basketballers Lead League

WITH THREE DAYS of final examinations remaining, the Varsity basketball squad resumed workouts on Saturday, January 30, after a week's lay-off. It must now face the rugged part of the schedule.

Going into the second term, the team was leading the Eastern Intercollegiate Basketball League with five wins and no losses, having beaten Harvard, Yale, Columbia, and Brown at Ithaca, and Dartmouth in the only League game away. Over-all, the Cornell record at this point was eleven wins and two losses, both to Syracuse.

Just before term examinations interrupted, Cornell had beaten Columbia at Ithaca, January 5, in an overtime game, 81-73; defeated Brown at Ithaca, January 9, 72-54; was narrowly trimmed by Syracuse at Syracuse, January 13, 71-69; overwhelmed Dartmouth at Hanover, January 16, 79-58; took Sampson Air Force Base in Barton Hall, January 20, 79-72; and had trouble beating Colgate at Hamilton, 73-70, January 23.

The second term's schedule has all League games, six away and three at home. Cornell will meet Pennsylvania and Princeton for the first time, having beaten all the others during the first semester's play.

Team Has Good Record

To start this critical segment of its schedule, Coach Royner Greene's squad was stacking up well nationally in statistics. It was eleventh in the country's field-goal average with 343 of 838 for 40.9 per cent. For total offense it ranked twenty-third with a 77.2 average. John A. Sheehy '55 of Garden City was sixteenth in rebounds with 198 for a 15.2 average.

Co-captain Lee E. Morton '54 of Rochester was leading scorer for the team with 220 points, a 16.9 game average. Sheehy was second with 204 points for a 15.7 average. Charles G. Rolles '56, five-foot-six-inch phenomenon from Binghamton, was third with 194, a 14.9 average. Statistics covering all phases of play were recorded as

shown here and recently released by Wayne Jenkins who provides the figures for the CUA:

		FIELD GOALS			FREE THROWS								
	Ga.	Att.	M.	Pct.	Att.	M.	Pct.	Reb.	Ast.	PF	Pts.	Ave.	
Morton	13	181	76	41.9	94	68	72.3	70	47	39	220	16.9	
Sheehy	13	146	68	46.6	124	68	54.8	198	39	47	204	15.7	
Rolles	13	162	75	46.3	70	44	62.9	41	72	19	194	14.9

The team's most significant victories of the season were those over Columbia and Dartmouth. Dartmouth was predicted as runner-up to Cornell in the pre-season rating of the experts. Therefore the 79-58 outcome established Cornell as the team to beat for the League title. Columbia gave the Cornellians a good scare and forced them into an overtime game to achieve the 81-73 win.

A crowd of 4000 at Barton was not too surprised when the Columbia Lions caught up with the sometimes careless Cornellians, January 5. The last two times Columbia played at Ithaca, the games took two overtime periods to decide and Cornell won each time. This time it took only one overtime and the margin was decisive as the winners outscored the losers, 11-3, in this extra session.

In this mad five-minute period, Co-captain Lee Morton shot in three free throws. The first two put Cornell ahead, 72-70, after fifty-four seconds. Frank Thomas tied it at 1:15 with a lay-up basket. Morton got his third free throw and Cornell was home free. Little Chuck Rolles did much to make that possible with his brilliant ball handling and passing. He made a beautiful pass to his fellow Sophomore, Raymond D. Zepek, who put it in easily. A few seconds earlier, Sheehy stole the ball and passed to Zepek, who threw half the length of the court to Rolles, who was all alone and scored. This made it 77-72. Two

free throws and another basket finished it.

Dartmouth was a tough foe until the final quarter. It used a zone defense to advantage. For the first quarter and well into the second, the Cornellians were unable to break through with any consistency. Their outside shots kept the score even, however. In the last half of the second quarter, they broke through several times and went ahead 14 points. The half ended 42-31. During the third quarter, it was a rugged contest and Dartmouth picked up 5 points. The Greens were controlling the ace scorers, Morton and Rolles, but the other shooting artist, Jack Sheehy, was in good form and made 23 points. Morton made 19, Zepek 17, Rolles 12. Many of the Mor-

ton, Rolles points were made in the final period when Cornell outscored the home team, 25-10.

Syracuse's second victory over the otherwise unbeaten Cornell team was almost a duplicate of its first, except that this time it did not require an overtime. This contest at Archbold Gym became an Orange win by virtue of a climactic fifteen-foot set-shot by Captain Mel Besdin with six seconds to go, which made it 71-69.

It was a rough game and especially so the last five minutes. Cornell had led all the way and looked to be a safe bet for victory. A full-court press, just as happened at Ithaca in the first game, took its toll of the visiting players as the officials permitted heavy contact and with two minutes to go the game was tied at 66-all. The strength of the Syracuse bench again made the difference. Gus Castellini was substituted for foul-banished Ron Kilpatrick in the final period and he made 9 points and gave the Syracuseans the needed spark to tie and then overtake the tired Cornellians. Sheehy was high for Cornell with 22. Morton had 17; Rolles was held to 10. Besdin was high for Syracuse with 20 points, making 12 of twelve foul tries. Breland had 14.

One of the finest games of the year was the one with Sampson Air Force Base, January 20. The Varsity's win was well deserved. The score was tied seven times. Cornell had a shooting average of

43.1, hitting on 28 of 65. Sampson had an average of 31.2. Jack Sheehy was a strong factor in this victory as he took fourteen rebounds away from the taller opponents and made 17 points. Morton was high for Cornell with 19. Rolles had 18 as he hit on 8 of twelve shots. Bradfield got 12. Sampson's George Cook, former Kentucky player, was top scorer with 21. Sampson made 24 of thirty foul tries and Cornell made 23 out of thirty-seven.

Freshmen Win and Lose

The Freshman basketball team defeated LeMoyne College, January 5 at Ithaca, by a 47-43 score. Ithacan William R. Schanze was high scorer for Cornell with 13 points. Milton L. Kogan had 11. Mack of LeMoyne was the game's high counter with 16.

Two successive losses followed this victory as Manlius Military Academy beat the Frosh at Ithaca, January 9, by a 49-46 margin and Syracuse overwhelmed the Reds, 107-75, at Syracuse, January 13. The Sampson junior varsity was beaten, 79-72. Colgate's yearlings then took Cornell's at Hamilton, January 16, 78-69.

Kogan had 12 against Manlius for the only Cornell man to get into double figures; Manlius had three: Connors had 15; Clark, 14; and Chirlin, 10.

Syracuse set a new Archbold Gym scoring record in inundating the Cornellians. Syracuse clicked on an incredible 62 per cent of its shots. Cohen and Clark each had 22 points. Louis Breger of Los Angeles had 19 for Cornell. Breger and Kogan had 12 against Colgate, but the Colgate freshmen had five men in double figures: Martin, 17; Ralls, 16; Allen, 15; Giordano, 14; Nichols, 13.

Breger had a hot night against the Sampson jayvees. This five-foot-nine-inch Californian made 23 points to lead the scoring. He had eight field goals and seven fouls. Philip A. Monroe of Delhi was second high for Cornell with 11.

Track Men Beat Dartmouth

WINNING twelve of the thirteen events, setting two new meet records and equaling another, the Varsity track team won its opening indoor contest by sweeping past Dartmouth with an 88½-20½ score at Barton Hall, January 16, before 2000 spectators.

The only Dartmouth victory came in the sixty-yard dash when Newell Stultz beat out John L. Herr '54 and John F. Morris '55.

Michael J. Browne '55 surprised by beating Dartmouth's captain and David Pratt '54, and setting a new meet record with a strong 4:27.5 in the mile run.

Captain MacAllister Booth '54 barely beat Richard S. Mathewson '55 in the sixty-yard high hurdles, but he made a

new meet record of 7.5 seconds. He set the old one of 7.8 seconds last year. Norman H. Beachley '55 tied the pole vault meet record of 13 feet. The summaries:

35-pound weight throw—1, Albert Hall, C, 51 feet 2¼ inches; 2, Fred Weicker, C, 47 feet 4½ inches; 3, Robert Riggio, D, 45 feet 10 inches.

Broad jump—1, Richard Allison, C, 21 feet 6¾ inches; 2, Peter Todd, C, 21 feet 2½ inches; 3, Robert Carrie, C, 20 feet 9½ inches.

Mile run—1, Michael Browne, C; 2, Walter Clarkson, D; 3, David Pratt, C. Time 4:27.5. (New meet record; old record 4:31.6 set by Robert Mealey, Cornell, 1950).

600-yard run—1, Andrew Dadagian, C; 2, Peter Jebson, D; 3, Dudley Heath, D. Time 1:14.9.

60-yard high hurdles—1, MacAllister Booth, C; 2, Richard Mathewson, C; 3, John Chapman, D. Time 0:07.5. (New meet record; old record 0:07.8 set by Booth in 1953).

60-yard dash—1, Newell Stultz, D; 2, John Herr, C; 3, John Morris, C. Time 0:06.6.

16-pound shot put—1, Joseph Simon, C, 43 feet 2¾ inches; 2, Frank Vadney, C, 42 feet 1 inch; 3, Paul Margulies, D, 38 feet 9¾ inches.

1000-yard run—1, Jack Rosenbaum, C; 2, Edward Storrs, D; 3, David Pratt, C. Time 2:21.5.

Two-mile run—1, Donald Farley, C; 2, David Willig, C; 3, James Klein, C. Time 10:02.3.

High jump—1, Donald Wechter, C, 6 feet; 2, Richard Mathewson, C, 5 feet 10 inches; 3, tie between Thomas Hiben, C, and John Chapman, D, 5 feet 8 inches.

One mile relay—1, Cornell (John Herr, Richard Stanton, John Morris, Albert Sebald); 2, Dartmouth (Richard Danforth, Paul Berry, Newell Stultz, Dudley Heath). Time 3:31.

Two-mile relay—1, Cornell (Michael Browne, Allen Smith, Andrew Dadagian, John Rosenbaum); 2, Dartmouth (Peter Jebson, Edward Storrs, Carl Marshall, Walter Clarkson). Time 8:21.

Pole vault—1, Norman Beachley, C, 13 feet. (Ties meet record set by G. W. Bailey, Dartmouth, 1939); 2, tie between Lawrence Sutliff, C, and Ernest Metzger, D, 12 feet 6 inches.

Varsity Runners Do Well

In other track events, Cornell representatives did fairly well. At the Philadelphia Inquirer Games, January 22, the Cornell mile relay team composed of John Herr, John Morris, J. Albert Sebald '54, and Andrew Dadagian '55 finished third behind Penn State and Manhattan. The winning time was 3:26.8. Penn State thus took the first leg on the new Liberty Bell Trophy. Cornell retired the old cup last year, having won three times. The two-mile team of Paul W. Loberg '55, John J. Rosenbaum '56, Mike Browne, and Charles M. Trayford '54 were also third, behind Pennsylvania and Fordham.

Cornell was second in both the mile and two-mile relay events at the Washington (D.C.) Star Games, January 23, with exactly the same personnel who ran at Philadelphia the night before. Princeton won the mile relay and Pennsylvania won the two-mile.

Richard Mathewson was fourth in a fast field of fifty-yard high hurdlers at

the Boston A.A. Games, January 30. First was Harrison Dillard, Olympic champion; Charles Pratt of Manhattan, 1953 Intercollegiate champion, was second; and Pete McCreary, 1951 Intercollegiate champion, was third.

Military Fencers Win

THE SERVICE ACADEMIES at West Point and Annapolis were hosts to the Varsity fencing team on successive Saturdays and both defeated their guests. January 9, Army won by a 15-12 score and January 16, Navy won, 16-11.

Co-captains Philippe Mocquard '55 of Paris, France, and Kenneth G. Paltrow '54 of Bayside each won two foils matches against the Army and Richard W. Pew '56 of Garden City won three epee bouts. Army won the epee, 5-4, the sabre, 6-3, and Cornell took the foils, 5-4.

Cornell captured seven of the nine foils bouts with Navy but the Midshipmen took the sabre and epee. Albert J. Eckhardt '54 won the only Cornell bout in the sabre. William W. Post '56 won all his bouts with the foil and Co-captains Mocquard and Paltrow each won two of three bouts in foils. Pew won two bouts in epee.

Wrestlers Lose and Win

VARSITY WRESTLERS were victimized by Penn State, 20-6, at State College, January 9, and by Navy at Annapolis, January 16, by a 17-9 margin; then turned about and defeated Army at West Point, January 22, by a 16-12 score.

Bruce G. Blackman, Jr. '54 and J. Richard Soars '54 were the only Cornell winners in the Penn State meet as they won the 130 and 177-pound classes by decision. It was Penn State's thirtieth straight dual meet victory.

Many of the matches with the Navy were close and the outcome of the meet was always in doubt until the last two events. In the 177-pound class, Navy footballer Pete Gattuso was doggedly aggressive throughout and finally made Dick Soars give ground. His aggressiveness gave him a 6-3 decision. John H. Gerdes '54, at 245 pounds, outweighed Navy Pete Blain in the heavyweight match, but the Navy man was too clever and took a 13-3 decision. Co-captains Bruce Blackman and Paul E. Steiger '54 and C. Walter Farrell '56 were the Cornell winners in the 130, 147, and 157-pound classes, all by decisions.

Results in the Army meet were as follows:

123—Rex Boda, Cornell, decisioned Tony Benn 3-2.

130—Bruce Blackman, Cornell, decisioned Tony Wetzel, 12-0.

137—Pete Fikaris, Army, decisioned Arno Niemand, 7-0.

147—Paul Steiger, Cornell, pinned Jim Karns in 4:55 with a crucifix.

157—Dale Ward, Army, decisioned Walt Farrell, 8-4.

167—Berkely Briggs, Cornell, pinned Lou Mentillo in 7:37 with a body press.

177—Jerry Tebbens, Army, decisioned Bob Soars, 6-0.

Heavyweight—Jerry Lodge, Army, decisioned John Gerdes, 9-1.

Freshmen Still Undeclared

Freshman wrestlers continued their spotless team record in beating Syracuse and Navy. It was a close one at Navy, January 16. The last bout decided the outcome as Thomas P. Brady defeated Navy's Putnam on decision to bring the score to 18-14. All the other Cornell victories were by falls. Ernest L. Boda, 123 pounds; Charles P. Gratto, 130 pounds; and George B. Woodin, 177 pounds, pinned their men.

Syracuse was beaten, 27-10, at Syracuse, January 9. Boda, Gratto, and Woodin again scored falls and were joined this time by A. Robert Bassett, 137 pounder, and Thomas Brady, 177 pounder.

Swimmers Take All

VARSITY SWIMMING team was undefeated after meeting Niagara, Lehigh, and Colgate. January 9, it overwhelmed Niagara, 56-28, in the Old Armory pool; January 16, at Bethlehem, it took Lehigh by precisely the same score; and there was only one point difference for each team, 55-29, in the Colgate meet at Hamilton.

Cornell team won seven of the ten events in the Niagara meet. The trio of Robert E. Browning '56, back stroker, William A. Macomber '54, breast stroke, and Thomas J. Herbert '54, freestyle, won the medley in the good time of 3:06.9.

The 440-yard freestyle relay team came within $\frac{7}{10}$ of a second of the Old Armory pool record as it won in 3:36.8. The quartet was composed of Roy L. Swanson '55, Herbert, Robinson Ord '55, and Captain Frederick W. Peirsol '54. It did set a record in the Lehigh meet as it negotiated the distance in 3:36 for a Lehigh pool and a Cornell team record.

Roy Swanson set a Lehigh pool record of 1:38 for the 150-yard individual medley which was three seconds under the old record.

Bob Browning set a Cornell record of 2:24.8 in winning the 200-yard backstroke against Colgate. The results of the Colgate events were:

300-yard medley relay: Won by Cornell (Browning, Macomber, Herbert) time: 3:06.5.

220-yard freestyle: Won by Branch (Col) second: Manelski (Cor) third: Cooledge (Col) time: 2:18.8.

50-yard freestyle: Won by Ord (Cor) second: Deleplane (Cor) third: Goodman (Col) time: 0:23.7.

150-yard individual medley: Won by Swanson (Cor) second: Grohe (Col) third: Caldwell (Cor) time: 1:37.0.

Fancy diving: Won by Underhill (Col) second: Byron (Cor) third: Wardon (Cor) winners 82.5.

100-yard freestyle: Won by Ord (Cor) second: Cooledge (Col) third: Deleplane (Cor) time: 0:54.8.

200-yard backstroke: Won by Browning (Cor) second: Moskof (Col) third: Manelski (Cor) time: 2:24.8.

200-yard breaststroke: Won by Branch (Col) second: Swanson (Cor) third: Macomber (Cor) time: 2:35.2.

440-yard freestyle: Won by Caldwell (Cor) second: Branch (Col) third: Cochran (Cor) time: 5:05.5.

400-yard relay: Won by Cornell (Deleplane, Herbert, Ord, Peirsol) time: 3:39.7.

Final meet score: Colgate 29, Cornell 55.

Honor Alumnae Doctors

TWO CORNELLIANs were among nine women physicians who received, January 24, Elizabeth Blackwell Citations of the New York Infirmary. Dr. Emily Dunning Barringer '97 was cited "for practice of gynecology and obstetrics," and Dr. Mary M. Crawford '04, "for developing the medical department of the Federal Reserve Bank of New York." The annual awards honor the founder of the New York Infirmary.

Attend Medical College

EIGHT CORNELLIANs are reported in their first year at the State University of New York College of Medicine in New York City. They are Robert M. Green, Stanley S. Siegelman, Herman L. Wolf, and Walter Zuckerman of the Class of '53; Peter M. Cole, Albert J. Salzman, Daniel W. Schwartz, and Martin Zeluck of the Class of '54. Their school mailing address is 350 Henry Street, Brooklyn 1.

Contributor Wins Prize

OTTO P. EBERLEIN '53 of Lakewood, Ohio, won third award of \$150 in the mechanical awards division of the 1952-53 engineering undergraduate competition sponsored by James F. Lincoln Arc Welding Foundation of Cleveland, Ohio, with his paper "Design of a Welded Main Bearing Support." A fifth-year student in Mechanical Engineering, Eberlein conducts the page "An Undergraduate Observes..." in the ALUMNI NEWS; is a member of the Engineering College Council and of the honor society Pros-ops, and of Delta Upsilon. An article by him and Roger C. Waugh '53 in The Cornell Engineer last May won for them and the magazine first prize of \$200 for each in the annual American Welding Society contest for published technical articles by undergraduates.

Coming Events

Friday, February 19

Glee Club on Perry Como Show, 48 CBS-TV stations, 7:45-8 p.m. EST

New York City: Glee Club show at Cornell Club of New York after TV broadcast

Ithaca: University concert, Cleveland Orchestra conducted by George Szell, Bailey Hall, 8:15

New Haven, Conn.: Basketball, Yale
Rochester: Cornell Club Washington's Birthday Dance, University Club, 9

Saturday, February 20

Ithaca: Fencing, MIT & Syracuse, Barton Hall, 2:30

Freshman swimming, Wyoming Seminary, Old Armory, 2:30

Kingston, Pa.: Freshman basketball, Wyoming Seminary

Freshman wrestling, Wyoming Seminary
New York City: Basketball, Columbia

Swimming, Columbia

Philadelphia, Pa.: Wrestling, Pennsylvania

West Point: Track, US Military Academy

Poughkeepsie: Glee Club concert, Arlington High School, 8:15

Sunday, February 21

Ithaca: Sage Chapel preacher, Rabbi Arthur J. Lelyveld, National Director, B'Nai B'rith Hillel Foundations of American Universities, 11

Monday, February 22

West Point: Swimming, US Military Academy

Thursday, February 25

Ithaca: Dramatic Club presents Henrik Ibsen's "Hedda Gabler," Willard Straight Theater, 8:30

Friday, February 26

Glee Club radio broadcast with Perry Como, 582 MBS stations, 7:45-8 p.m. EST

Ithaca: Dramatic Club presents Henrik Ibsen's "Hedda Gabler," Willard Straight Theater, 8:30

Providence, R.I.: Basketball, Brown

Saturday, February 27

Ithaca: Fencing, Columbia, Barton Hall, 2:30

Wrestling, Columbia, Barton Hall, 8

Dramatic Club presents Henrik Ibsen's "Hedda Gabler," Willard Straight Theater, 8:30

Cambridge, Mass.: Basketball, Harvard

Kingston, Pa.: Freshman swimming, Wyoming Seminary

New York City: Trustee Walker L. Cisler '22 speaks on "Nuclear Power for Peacetime Purposes" at Cornell Women's Club annual luncheon, Essex House, 12:30

IC4A track meet, Madison Square Garden
Oneonta: Freshman basketball, Hartwick

Sunday, February 28

Ithaca: Sage Chapel preacher, the Rev. Frederic C. Lawrence, St. Paul's Church, Brookline, Mass.

Dramatic Club presents Henrik Ibsen's "Hedda Gabler," Willard Straight Theater, 8:30

Monday, March 1

Ithaca: Freshman basketball, General Electric, Barton Hall, 6:15

Basketball, Dartmouth, Barton Hall, 8:15

Tuesday, March 2

Ithaca: Chamber Music concert, Hungarian String Quartet, Willard Straight Theater, 8:15

An Undergraduate Observes . . .

Ho P. Eisen

ABC Board Stops Class Parties

THERE HAS BEEN disturbing, but increasing, feeling in the last few years that the average undergraduate on the Hill would have to think twice if someone asked him which university he attended. The relative lassitude or exuberance toward school associations and so-called "school spirit" is probably as hotly debated in Freshmen dorms and Student Council meetings now as when I was a Freshman. By this fact alone we realize that, as undergraduates, we have a rather loose association with Cornell, at least as compared to other Eastern schools. Freshmen and undergraduate bodies spend considerable time wrestling with the problem. Sophomores spend a little less, and the fifth-year engineer, unless he stops to count all his marbles, has forgotten all about it.

In the last eighteen months, a relatively new effort at knitting the Classes together crept into view in the form of mass cocktail parties, generally sponsored by Class Councils, inviting the entire Campus if they so desired (for a moderate fee). These functions were not howling successes at the outset, but were developing this year into events which a great many of us looked forward to. It seems, however, that activities such as these constitute the sale of liquor without a license, which is naturally frowned upon in this or any other county. The result is that (1) a local bartender with a temporary permit may cater the parties; or (2) the cocktails will be prune-juice floats. The first alternative will raise the tab and cut markedly into attendance; the second will drop the attendance even more, as bitter experience has shown. This is far from an editorial advocating the overthrow of the Alcoholic Beverage Control Board, but it does seem more than a bad break that one of the few mediums for developing true University associations must be cut down in its prime.

Nothing so subtle as panty raids kept the children off the streets this year. The ejection of lingerie through dormitory windows has evidently breathed its last. To replace same, more than 150 good men and true stormed the walls of Sage and demanded real live Sophomore coeds to pelt with good old-fashioned snowballs. The mob relented after pleas for mercy by the combined forces of housemothers and v-p's, and contented themselves with chucking pellets to each other in the downstairs halls. After giving the same treatment to Dickson, the group dispersed like the snow in the

halls. Everyone seemed to have a ball except the Campus Patrol!

As a prelude to sorority rushing, Mortar Board, Senior women's honorary, held a panel discussion for all new students on the pros and cons of independent and sorority life. This attempt to clarify the issue for Freshman women this early in the game deserves applause from the entire Campus for filling a long-felt need in women's rushing procedure. Speaking for the independents were Judith E. Greifer '54 of Philadelphia, Pa., and Margaret M. Lurton '54 of Scarsdale, while the sororities were represented by Louise J. Schaefer '54 of Scarsdale and Roberta J. Niederman '54 of Hewlett.

January 11 marked the 147th anniversary of the birth of Ezra Cornell, and the occasion was celebrated with a special Chimes program from the Libe Tower. Chimesmaster Gardiner W. Powell '54 drew such as "Ode to Joy," "Holy, Holy, Holy," and the "Founder's Hymn" from an impressive repertoire as a pleasant prelude to Monday's dinner.

GRADUATES these days will have pretty sheltered lives. Old tales of the reeking dungeons of the cruel cold world which formerly caused the Senior lower lip to quiver in February are now replaced by esoteric dreams of world-wide tours personally conducted and all expenses paid by Uncle Sam; or by fair-haired, smiling, pearly-teethed men, their pockets lined with greenbacks and their manners inspiring the most timid interviewees to exude confidence from head to toe. These are the recruiters, who will tell you without opening more than one eye whether you have the qualities of leadership, personal and social grace, native genius, and good looks to fit you as Draftsman No. 3806 at General Boiled Ham Co. for the next fifty years. At the moment they are only a handful on Campus, but incomplete lists for February and March only show that representatives of 246 companies will be coming here for you, and the total company activity before graduation will doubtless exceed all previous records. Chemical & Metallurgical Engineering alone finds more than 100 companies with the hook out for the School's thirty-eight graduates. The situation is almost as good all over; and it's nice to bask while the sun shines!

Tray-sliding at Cornell seems an almost unique pastime. Visitors passing over the Hill in the late afternoon have gone through mild hysteria watching Cornellians of every shape and form manning the midget sleds for an often inverted trip down the Library slope. It's a lot of fun once you try it, and never fails to amuse hundreds right through the day of the racing "finals" during Junior Week End. Anticipating the rush, the Safety Division closed West Avenue every evening from 4:30 to 11:30 in favor of the tray-sliders. Hundreds of us are at it again nightly, while the Safety Division toys with plans for barrier erection, straw bale courses, rubber bumpers, and other stop-gap measures to keep the mayhem from growing too serious.

Guide service is now available for Campus visitors on weekday afternoons and Saturday mornings. Student guides are provided from the Alumni Office in Day Hall by the Undergraduate Committee on Secondary Schools, established last year to improve relations between the University and students accepted for admission.

Hart House Glee Club of the University of Toronto and the Cornell A Cappella Chorus gave a combined concert at the University of Toronto, late in November. The concert continues those given by the same choirs in Ithaca and Toronto last year. President of the Cornell group is R. Bruce Archibald '55, son of Walter D. Archibald '20.

Time was when February graduating classes folded their tents and silently stole away; a rather anticlimactic finish to four or more years of work and/or play. Men's and women's Senior Class Councils took a step in the right direction in January, providing a banquet at the Straight for the '54 midyear graduates as a final group-meeting opportunity. Guests of honor included the Deans of men, women, and Faculty. General Alumni Secretary R. Selden Brewer '40 acted as toastmaster, and the remainder of the Senior Class was represented by '54 Council presidents Stanley R. Byron '54 of San Mateo, Cal., and Sandra M. Berkman '54 of Norwich, Conn.

The three ROTC departments conducted the largest blood collection in the four years of Bloodmobile operation in Tompkins County, early in January. Thirty of the more than 250 appointments were rejected because of colds, but the pints of blood collected exceeded by more than 10 per cent the best previous drive. This more than rewarded the efforts of Eagle & Anchor, Scabbard & Blade, Arnold Air Society, Pershing Rifles, and Pi Tau Pi Sigma Signal, who sponsored recruiting for the drive.

THE FACULTY

University Trustee **Maxwell M. Upson '99** was the subject of an article in the January 25 issue of *Time*. He is chairman of the board of Raymond Concrete Pile Co., New York City, which is constructing US bases in Spain. Plans call for one naval base and four air bases at a cost of \$250 million.

Federal Commission on Intergovernmental Relations has appointed Dean **Edward H. Litchfield**, Business & Public Administration, to a panel of four consultants who will conduct a survey of certain States to determine the impact of federal aid programs. **John E. Burton**, University Vice President-Business, is a member of the Commission.

Professor **Benton S. Monroe '96**, English, Emeritus, was elected captain of the Ithaca Protective Police (Fire Company 8), succeeding Dr. **Norman S. Moore '23**, Physician-in-chief of the University Infirmary & Clinic. Professor Monroe has been secretary of the organization for the last fifteen years.

Professor **Hans A. Bethe**, Physics, spoke on the future development of atomic energy before an international gathering of physicists in Durham, N.C., November 30.

December issue of the bulletin of the New York State Bar Association contained an article by Professor **John W. MacDonald '25**, Law. The article, "What the Proposed Code Means to Lawyers," discusses the uniform commercial code proposed by the American Law Institute and the National Conference of Commissioners on Uniform State Laws. Professor MacDonald is executive secretary and director of research for the New York State Law Revision Commission.

Portrait of Mrs. **Livingston Farrand**, widow of the University's fourth President, went on display in the White Art Museum, January 12. The portrait was painted in 1929 by the late Professor **Olaf Brauner**, Fine Arts, and was given to the University by Mrs. Farrand.

Professor **Kenneth Evett**, Fine Arts, is one of twenty-one artists from eleven States invited by a Nebraska commission to submit work for consideration in choosing a muralist for the State capitol building.

Former prisoner of the Chinese Reds, Lieutenant **Robert L. Toomey** has been assigned as adjutant of the Air Force ROTC staff at the University. Lieutenant Toomey was shot down in January, 1952, after twenty-nine jet fighter missions over Korea. Captured immediately upon parachuting from his F-80, he was interned in a camp near the Yalu River. He remained a prisoner for twenty months. For the first three months of his imprisonment, Lieutenant Toomey says that he was given Communist literature, including the *New York Daily Worker*, and was forced to attend propaganda lectures. After an unsuccessful

attempt to escape in August, 1952, he was placed in solitary confinement for ninety days, and lost forty-two pounds on a diet of cabbage and rice. Repatriated in August, 1953, he was hospitalized until December, when he reported for duty at the University. Lieutenant Toomey received the AB at Bowdoin in 1949.

Coach **George K. James** was named a trustee of the American Football Coaches Association at the Association's annual convention in Cincinnati, Ohio, January 8.

Professor **A. Henry Detweiler**, Architecture, has been appointed architectural adviser to the American Academy in Rome, Italy, for excavations at the ancient city of Cosa. He hopes to find evidences of Etruscan culture which was flourishing when the city was conquered by the Romans in 275 B.C.

Professor **Melvin G. de Chazeau**, Business & Public Administration, has been named consultant to the President's Council of Economic Advisers in Washington, D.C. Commuting between Ithaca and the Capitol, Professor de Chazeau works for the government each Tuesday through Friday, and teaches at the University Mondays and Saturdays.

Major **Carl J. Reinhardt** has reported for duty with the Air Force ROTC staff at the University. For the last two years, Major Reinhardt was headquarters commandant of the 13th Air Force and commanding officer of headquarters squadron section, Clark Air Force Base, Philippine Islands. As assistant professor of Air Science & Tactics, he will instruct Sophomores in the basic course.

Professor **Irving S. Wright '23**, Clinical Medicine at the Medical College, married Mrs. Lois Elliman Findlay, in New York City, October 31.

Among twenty-six Ithaca residents who became naturalized American citizens, November 10, were Professor **Carlo Ripabelli**, Aeronautical Engineering, and **Judith Littauer**, concert manager and assistant to the chairman of the Music Department.

Professor **Gordon H. Fairbanks**, Modern Languages, is on sabbatical leave this year at University of New Mexico, Albuquerque. He received a fellowship from the American Council of Learned Societies to write a structural history of the Russian language.

Professor **Frederick S. Erdman, PhD '41**, Heat-Power Engineering, has designed a vernier slide assembly which makes it possible to measure, with a vertical manometer, gas pressure differences in a range from twenty-four inches down to a few thousandths of an inch of water. The instrument, described in the August 15 issue of *Design News*, represents a great refinement over the conventional method of measuring pressure differences.

Professor **Lincoln D. Kelsey**, Extension Service, has returned from a six-month sabbatic leave spent working with the Technical Assistance program in Iran. He was one of a team of US Extension Service specialists who went to Iran last May to aid in establishing an extension service there.

Professor **E. Laurence Palmer '11**, Rural Education, Emeritus (above, right), is presented with the Nash Conservation Award by George W. Mason, president of Nash-Kelvinator Corp., at the first annual awards dinner in Washington, D.C., January 7. Professor Palmer received a plaque and \$500 as one of ten professional conservationists who have made outstanding contributions to conservation of the nation's natural resources.

Professor **Elton J. Dyce, PhD '31**, Apiculture, has been elected an honorary member of the Bee Research Association of Great Britain. He is the second American scientist to receive this honor for research in apiculture.

American Society of Animal Production elected Professor **John I. Miller, PhD '36**, Animal Husbandry, vice-president at its annual convention in Chicago, Ill., November 28. The Morrison Award of \$1,250, a gold watch, and a framed citation, given annually at the convention by Professor **Fredrick B. Morrison**, Animal Husbandry, and Mrs. Morrison, for "outstanding research in the animal husbandry field," was presented to Professor Max Kleiber of University of California. As vice-president of the Society, Professor Miller will head this year's Morrison Award committee.

Professor **Peter E. Kyle '33**, Chemical & Metallurgical Engineering, married Mrs. Mary Savage Wells '40, November 27. Mrs. Kyle is the daughter of the late Professor **Elmer S. Savage, PhD '11**, Animal Husbandry.

Professor **Charles E. Palm, PhD '35**, Entomology, opened the annual meeting of the Entomological Society of America in Los Angeles, Cal., December 7. During 1953, he was the first president of this newly-organized society. He will serve on the governing board this year.

Donald E. Lundberg, PhD '46, assistant professor in Hotel Administration from 1946-49, is the author of "Selling the Traveler," in the January issue of *American Motel Magazine*. Since 1950, Lundberg has been head of the department of restaurant and hotel management at Florida State University, Tallahassee, Fla.

Professor **Howard S. Liddell, PhD '23**, Psychology, attended a World Health Organization study group on "The Psycho-

biological Development of the Child" in London, January 7. He reports on "Conditioning and Emotions" in the January Scientific American, based on his research at the University Animal Behavior Farm.

Arthur Davies, building maintenance supervisor at the College of Home Economics, received a \$50 award from the State Employees Merit Award Board for his design of a spill-proof inkwell for use in Mann Library. This is the fourth such award for Davies, who has received cash prizes for the invention of a safety device for a steam kettle, used in a Home Economics kitchen, and for two efficiency designs for the Food & Nutrition laboratories.

January issue of the *ALUMNI NEWS* erroneously reported that **Robert J. Kane '34**, Director of Athletics, had been named chairman of the US Olympic rowing committee. The post is held by Clifford Goes, Syracuse University alumnus.

Professor **Clyde B. Moore**, Education, has been re-elected treasurer of the State School Boards Association. He is president of the Ithaca Board of Education.

Professor **Royden C. Braithwaite, PhD '50**, has been appointed director of family life education at Brigham Young University, Provo, Utah. In 1950-51, he was associate professor of Child Development & Family Relationships in the College of Home Economics.

Professor **Philip Morrison** and Research Assistant **Jerome Pine**, Nuclear Studies, received the first annual Boris Pregel Prize of \$500 from the New York Academy of Sciences for their paper on "Radiogenic Origin of the Helium Isotopes in Rock."

Professor **Keith Falkner**, Music, sailed in December for England, to sing in three recitals. Two were with **John Hunt**, who was visiting professor of Music at the University last year. Professor Falkner returned to Ithaca earlier this month.

Miss Brewer Dies

SARAH LUCILLE BREWER, Grad '15-'16, widely known food expert, formerly on the Faculty of Home Economics, died January 8, 1954, in Ithaca, where she lived at 128 Hudson Street.

Miss Brewer was appointed instructor in the Department of Home Economics in 1916 and promoted to Extension professor in 1926. While here, she wrote a number of bulletins on foods which had wide circulation, and many food articles for magazines, including the old *Delineator* when Professor Martha Van Rensselaer was its homemaking editor. In 1931, Miss Brewer resigned to take charge of the consumers' laboratory for General Foods, New York City, but in 1936 returned to Ithaca where she established the GLF test kitchen and worked on development of specifications for GLF flour. In 1941, she published a cook book later revised under the title, *The Country Home Cook Book of Kitchen*

Hints and Selected Recipes. Widely known as a lecturer, demonstrator, and judge of foods contests, she retired in 1945, but continued to accept special assignments, such as judging food products at the New York State Fair. She was a graduate of the University of Montana and had also studied at other schools. In 1927, she received a diploma from the Cordon Bleu, famed Paris cooking school. She was a charter member of the Cornell chapter of Epsilon Sigma Phi, national honorary Extension fraternity, and the first president of the Ithaca Business & Professional Women's Club.

Club Plays Fry Comedy

CHRISTOPHER FRY's romantic comedy, "The Lady's Not for Burning," was the Dramatic Club offering January 14, 15, 16, and 17.

Cast and the director, George P. Crepeau, Speech & Drama, were highly successful in bringing out the spice of the English playwright's conversation. Susan Warhaftig '56 played Jennet Jourdemaine, accused of witchcraft by the townspeople of an English community "in the 15th Century, either more or less exactly," and Story Talbot '54, acting with a nice professional touch, was Thomas Mendip, the disillusioned young man who wants to be hanged and who claims to have murdered the man

Jennet is thought to have bewitched. Paul R. Nemiroff '54 was excellent as Nicholas Devis; Sanford Stern '57 did a fine job in his brief appearance as drunken Skipps; and Esther K. Usiskin '54 was fine as Nicholas's mother. Michael E. Goldberger '57 and Jane R. Amster '54 played their "ingenue" roles with a charming sincerity. Michael Ephron '56 as Nicholas's brother, Jordan L. Pecile '54 as the Mayor, Frank Emanuel '54 as the Chaplain, and Anders J. Kaufmann '56 as a justice rounded out the able cast.

The set was stylistic rather than naturalistic. Frames serving as doors, yards of drapery, a small fire, and a few other props comprised it. The costumes were colorful and the lighting good.

For Alumni in New York

INTERCOLLEGIATE ALUMNI of New York was headed last year by John F. Kandl '45 as president, with Robert L. Newton '50, vice-president. Samuel P. Mason '28 is a member of the advisory board of this social organization for young college graduates employed in New York City. Membership is open to men of thirty and women of twenty-six or younger, at \$5 a year. The 300 members are graduates of more than fifty colleges and universities. Headquarters are at 215 West Twenty-third Street, New York City 11.

Study 300-Million-Year-Old Plants—To find out what New York State's first land plants looked like, Professor Harlan P. Banks (right), PhD '40, head of the Botany Department, pours a "peel" on a plant fossil, and Charles B. Beck, MS '52, removes a peel for use in microscopic study of the plants. Professor Banks and his students would like to get more rock fossils from the area south of the Albany-Buffalo line. Nodular or ball-shaped lumps of rock found in the sandstone or shale beds of gorges may contain black streaks of varying length and width. These "streaks" are carbonized stems, branches, roots, or other parts of plants. The botanists cut them with a diamond saw, polish the surface, and then pour a "peel" (liquid similar to colorless nail polish) over the fossil. The hardened peel, with its imprint of plant cells, is removed and studied under the microscope as if it were living tissue. Other rocks with black or brown streaks may contain the flattened plant.

NEWS OF THE ALUMNI

Addresses which appear in these pages are in New York State unless otherwise designated. Class columns headed by Class numerals and the names and addresses of the correspondents who write them are principally those of Classes which have purchased group subscriptions to the News for all members. Personal items, newspaper clippings, or other notes about Cornellians of all Classes are welcomed for publication.

'81 AB—**Frederick D. Carman**, 522 South D. Street, Herrington, Kans., attended the annual directors' meeting of Bank of Herrington for the fiftieth consecutive time, January 8, two days prior to his ninety-sixth birthday. He retired in 1949, after forty-five years with the bank. Carman has a son and two daughters, **Genevieve Carman '24** and Mrs. **Albert L. Klein- eke (Julia Carman) Grad '22-'23**.

'00, '01 AB—**Kelton E. White**, 503 Locust Street, St. Louis 1, Mo., is chairman of the Better Business Bureau of St. Louis, a member of the St. Louis Municipal Opera Board, and a member of the St. Louis Council, Boy Scouts of America. White retired from active business in 1940.

'02 Men—The regular annual luncheon to **William C. Geer** was held on Tuesday, January 12, at the Huntington Hotel, Pasadena, Cal. The others present were **C. L. Edmonston**, **E. H. Gimper**, **G. M. Kohler**, and **W. J. Norton**. Letters were received from **Fred Emmons**, **Lee S. Pratt**, and **Edgar S. Bowman**, and all expressed the hope that they could attend the 1955 meeting.

—**W. J. Norton**

'04 ME—**Charles P. Wood**, industrial engineer with Lockwood Greene Engineers, Inc., New York City, contributed the article on factory construction and planning in the current edition of *Encyclopedia Britannica*. His address is 410 East Fifty-seventh Street, New York City 22.

'05—**Dr. Henry S. Dunning**, professor of oral surgery, emeritus, at Columbia University, received a distinguished service award, October 13, the first of its kind to be given, in connection with the twenty-fifth anniversary of Columbia-Presbyterian Medical Center in New York City. One of the original founders of the school of dental and oral surgery at Columbia, Dunning received the award for his contributions to the growth and development of the Medical Center. He is a fellow of the American College of Surgeons, and a member of the American Board of Plastic Surgery and the Academy of Medicine. His address is Weed Street, New Canaan, Conn.

'07 ME—**William P. Gruner** is with Gruner-Fisher Co., lumber wholesalers, 3736 Grandel Square, St. Louis 8, Mo.

'10 **Roy Taylor**
Old Fort Road
Bernardsville, N.J.

The following golfers please take particular notice (**Larry Bandler**, **George Dutney**, **Eddie Goodwillie**, **Hill Jones**, **Jim Rutherford**, and others dabbling with the game) that on January 11, playing in a foursome, at Lake Worth Golf Club, Lake Worth, Fla., **Lyman C. Judson**, our Class treasurer, shot a hole-in-one on the 3 par

15th hole, a distance of 165 yards, using a #5 iron.

To quote Juddy: "After some thirty-odd years of golfing, I figure I have shot between 9,000 and 10,000 times at 3 par holes and this is the first hole-in-one. You can figure the odds. If some of the other old 1910 golfers are still interested, they might figure how close they are to the 10,000 shot limit. They may still come through."

So far as your correspondent can determine, this is the first 1910 member of the Hole-in-One Club. A saliva test has been completed, and the other three members of the foursome attest to the fact that the feat was performed without the aid of mirrors.

If, in the forty-four years since we all left Ithaca, some one else in 1910 has accomplished this exploit, please send us the particulars and we will see that he receives proper credit in this column.

Henry C. Thorne was appointed full-time planning director for the City of Ithaca. Henry is, at present, assessor for the city and will continue in that capacity until July 1. His address is PO Box 213, Ithaca.

Maximillian Elser, Jr. was honored on December 30 at the sixteenth triennial convention of the Cum Laude Society held at the Hotel Commodore in New York City. Max became the first student member of the society in 1906. He was introduced to the 160 delegates present by Cecil A. Ewing, registrar general of the society, and by Max's geometry teacher 50 years ago at Tome School, Port Deposit, Md., where the society was founded.

The Cum Laude Society now has 29,829 members with 153 chapters in preparatory schools and high schools. Its purpose is to encourage and recognize scholarship in the way that Phi Beta Kappa does in higher institutions.

'11 **Frank L. Aime**
3804 Greystone Avenue
New York 63, N.Y.

Winton G. (Wint) Rossiter, ME, (above) 61 Broadway, New York, acquired the financial outlook years ago but still has that engineering mind, as you will see. He worked for a time for J. G. White in Ohio then joined General Chemical Co., 1912-25. Always interested in finance, as was his father, he then went with Jas. H. Oliphant & Co. and still is there, becoming, in due course, a member of the firm and of the New York Stock Exchange. He was governor of the Stock Exchange and presently is also a trustee of Broadway Savings Bank, of which, you remember, **Tom Cox** is president. Wint has been a floor member for years, as was Tom too, a gruelling job. Among Wint's partners are **Floyd W.**

Mundy '98, author of a well-known and authoritative book referred to as *Mundy's Railroads*, and of **Floyd W. Mundy Jr. '28**. About that savings bank trustee deal: when Tom was chairman of the nominating committee of the Stock Exchange, there was a rumor that whenever either one wanted a raise or something to happen, a wink across the board at the right time did the trick. Mutual aid societies are very popular, but you cannot believe everything!

Years ago when the oldest son Bill was making up his mind, he announced, in spite of years of careful exposure to Cornell by way of trips, etc., that he and his cronies were "going to Princeton." Wint was that disturbed because Cornell has a warm place in his heart and he wanted all his children to go there. Before giving up, he put on a real sales effort by taking Bill and the cronies, total of 7 boys, to Ithaca with the help of **Dick Heidelberger '31**, crew commodore. "The maneuver was successful because all those 7 eventually matriculated at Cornell and were fine additions to our alumni body." In a 3-year stretch in the early '30's, a total of 24 boys were driven up on similar trips, of whom 23 matriculated. He thinks Cornell Day is a splendid organized effort, but denies any credit for it. Bill (**Winton G., Jr.**) '37 was followed by **Clinton L. '39**, associate professor, Government, who spoke to us at our 40th and who recently won the Woodrow Wilson Foundation Award and the Guggenheim Prize for his book, *Seedtime of the Republic*, Harcourt, Brace & Co. There are 2 daughters, Mrs. A. R. Berry and Mrs. Joan R. Tillinghast. Awhile back, when Wint read in this column of **Geo. Brainard's** 11 grandchildren, he was "considerably embarrassed" as he had only 8. Believing George's prowess was no greater, he put that engineering training to work, called the entire brood into executive session and as a result, a 5-year plan was adopted with 10 additional members as the norm.

On December 17, **Bill Thorne** wrote: "Tomorrow I'm being married to an old friend, Mrs. Helen Thomas Files of Syracuse, by Dr. Randolph Ray at the Little Church Around the Corner (NY)." Congratulations and felicitations! **Herb Ashton**, 5229 Elliott Rd., N.W., Wash'n 16, D.C., reports a pleasant trip in November to Lima, Peru, as US representative at a meeting in connection with Pan American High-

way Congress in Caracas next June. On the trip back, visited Cerro de Pasco smelter at Aroya, 12000 ft., going on the world's highest standard-gage railroad, 15620 ft. **Nils O. Lundell, MD**, 1105 Beach Channel Dr., Far Rockaway, reports he still is active surgically and medically. A note in this column about you Florida boys calling **Whisper Heath** resulted in letters from **Edwin Clark**, Ogdensburg, **Sandy Brown** and **Bill Rose**, Cambridge Springs, Pa. Well, that's a good start, keep going. **Harold "Ep" Epstein** left Gibbs & Hill at Aiken, S.C., and joined Grinnell Corp. which has a heavy contract for piping and process equipment for the H plant. Address: 33 Shawnee Ct., Western Hills Apts, Chillicothe, Ohio. Just before **Ken Sowden** passed on, he sent me a report about **Earl A. Ryder, ME**, as one of the authors of *Temperature Measurement in Engineering*, John Wiley & Sons, N.Y. The other 2 are H. Dean Baker and N. H. Baker. Earl is consulting engineer to Pratt & Whitney Div. of United Aircraft Corp; has been an aircraft designer since the days of the Lafayette Escadrille. When P & W was organized, he was appointed asst. engineer and was one of those responsible for the design of P & W's original engine; is active on several research committees of SAE, ASTM, and CRC; holds no less than 22 US patents granted since '25, several before that.

'12 LLB—**Walter J. Donovan** addressed the Massachusetts Bar Association at its annual meeting recently at Swampscott, Mass., on the Berkshire County system of conciliation of automobile tort cases. Donovan was named chairman of a committee on "Building a Sound Law Practice" at the New England Law Institute Legal Clinic held in Boston last October. He practices law in Adams, Mass.

'12 AB—**Ross W. Kellogg**, who for 25 years was secretary of the Class of 1912, is now a member of the staff of the Rochester Chamber of Commerce, Rochester. He was secretary of the Ithaca Chamber of Commerce, 1917-22, and later of the Norwalk (Conn.) Board of Trade. His address is 55 St. Paul Street, Rochester 4.

'13 **M. R. Neifeld**
15 Washington Street
Newark 2, N.J.

A labor of love is its own reward but nevertheless words of appreciation are music to the ears, and **Fred Norton**, **Vic Underwood**, **Art Beale**, **George Rockwell**, **Harry Southard**, **Joe Strahan**, **Ced Major**, and the others who worked so hard on the 40th Reunion find most harmonious this keen appraisal by **Al Norton**, the foundry expert from Pittsburgh: "I most thoroughly enjoyed the Reunion at Ithaca this year. It is a great pleasure to see how every Classmate seems to have a real genuine personal interest in each other one. We have been most fortunate in having the affairs of the Class steered by a group who are interested enough to help steer, but who

show their solid good sense by avoiding anything that sounds like directing. I believe that attitude has been a major factor in the success of the Class organization, and this is greatly to the credit of those who have been responsible for it. Steering a voluntary organization as successfully as it has been done with our Class takes a lot of time, and a lot of ability, and we have been very fortunate in having such able men who are willing to put in the time." Al was on hand in Ithaca, on October 17, for a meeting of the Foundry Educational Foundation. "Yale must have heard about it because they are sending their football team there the same day. I didn't know the football team was interested in foundry education. [Editor's note: Many things have changed since they outlawed the two-platoon system.] I hope to see some of the old gang down there."

What is one man's water is another man's beer. From **Vic Underwood's** financial report on the Reunion to Class Treasurer **Don Beardsley**: "We saved \$450 on beer due either to rainy weather or to the fact that the boys have just dried up, possibly both."

"No wonder Ithaca is celebrated; one woman was faithful there."—Anon.

Letter from **Fred Norton** to the ABC-TV program, "The Name's the Same." "As one who has consistently watched The Name's the Same, I congratulate you on an exceedingly interesting and well-produced program. For a long time I have been on the point of sending in the name of a friend of mine. Last night I finally wrote down your address.

"I would like to submit the name of **John Paul Jones**, of John Paul Jones, Cary & Millar, Consulting Engineers, 1740 East 12th Street, Cleveland 14, Ohio. Whether or not he was a descendant of the great Naval leader, John Paul Jones of Revolutionary War fame, I do not know. However, I thought this might be an interesting name for you to consider for your program. It would be a particularly good name for **Bill Stern** to struggle with. Between 1909 and 1913, while at Cornell, 'J.P.' was Captain of the Track Team, and while there set a record in both the half and the mile races which stood for quite a few years afterwards.

"I am sorry that I do not have a picture of 'J.P.' but I saw him in June and he is still a good looking fellow."

'14 **Emerson Hinchliff**
400 Oak Avenue
Ithaca, N.Y.

Heard a delightful story yesterday when **Chuck Bassett** and **Andy Denny** were over for tea (yes, tea!). I knew Andy would stir up news when he came back to Ithaca last fall to enter I&LR. **Lint Hart** told the tale to Chuck originally. It appears that in a Savage Club show the locale of which was on the Island of Hulamagoo, Andy was supposed to escape from a huge boiling pot, and then go into a dance. In the actual

performance, during his emergence from the pot, a nail ripped his pants, exposing most of Andy Denny, but our hero, unaware, went tumultuously on with his dance (with President Schurman and family in one of the front rows) until the stage manager rang down the curtain. Lint thought the curtain boom hit **Clarence Morse** on the noggin and knocked him cold, but Clarence says it wasn't he, so it must have been his brother, **Brick '13**. Andy says the curtain never did go up again, but largely because it was a poor show and they were glad of an excuse to put it out of its misery. He said he hid his head for weeks. Which reminds me of a squib in the ALUMNI NEWS a couple of years ago by **Leonard Treman** in which he mentioned a Masque performance of "Pinafore" with **Stoddard Stevens** as Little Buttercup, the late **Bunny Merz** as Hebe, and **Bill Myers** in the chorus.

Chuck Bassett was here on Reunion business, as well as to see his son **Jim**, a Soph in the Hotel School. His Tau Bete brother, **Robert S. '16**, stayed in Buffalo to run the business. Chuck had a daughter who graduated from Cornell and four other (heavenly) children.

Frank Sullivan has belabored me for doubting that he has a wooden sword, saying: "I don't take my wooden sword to bed with me. You ought to know you can't do that. I take my Winnie the Pooh bear to bed with me but it was not visible in the photograph you saw in the Herald Tribune." Frank writes that he is sticking pretty close to his home in Saratoga Springs these days (135 Lincoln Ave.). Sorry to have doubted his veracity. He hopes to get to Reunion, though he questions whether anybody will know him. Another indication of doubtful veracity! You'd be surprised, Francis, how friendship revivifies at Reunion.

The New Jersey State Board of Medical Examiners was increased to nine last December in the person of **Isadore R. Asen** (above) of East Orange. Izzy has been, since 1920, owner and director of the Clinical Laboratory in Newark, in the Medical Tower, and is a director of National Association of Clinical Laboratories and past president of N.J. Association of Clinical

CLASS REUNIONS IN ITHACA, JUNE 11 & 12

'94, '99, '04, '09, '14, '19, '24, '29, '34, '39, '44, '49, '51

Laboratory Directors. This is the first time that a non-MD has ever been appointed to the Board except for doctors of chiropractic and chiropody. His nice daughter, **Betty '41**, and her husband, **B. A. Linden, DVM '41**, have presented him with two fine grandsons: one 4½, and the other still a baby.

I see **Thomas E. Milliman** regularly at Rotary. He gave us a very interesting talk on birdsfoot trefoil recently, which sounded like a wonderful thing to plant on hilly or not-too-good soil. Tom is director of research, I think it is, in GLF, and also owns a big dairy farm up Rochester way. This farm was written up in quite an article in the January Farm Journal entitled "Cross-breeds—No Fighting Word Here!" It told how he was working out his theory, which is being copied by his neighbors, that a good way to bring up the size and quality of a herd and the quantity of the milk it produces is to cross-breed with good bulls. Starting twelve years ago with his grade Guernseys and adding Holstein, Ayrshire, Jersey, Brown Swiss, Red Dane and South Devon blood, he has added 200 lbs. per cow and 2100 lbs. of milk over twelve years. A subsidiary aim is to get a large quantity of fluid milk, which is in demand, but still to keep good color with enough butter fat. Here is a nice piece of technical reporting: "They had big barrels—room for plenty of roughage. They had wide rumps, and were fairly level on top." Good 1914 stock!

'15 *Charles M. Colyer
123 West Prospect Avenue
Cleveland 1, Ohio*

Don't try to fool us by hiding behind that fringe! We knew you in the Law School. The gent on the reader's right in the above picture is Count (**W. R.**) **Cuthbert**. He lives at 1941 University Avenue, Eugene, Ore. The picture was taken at his summer ranch in the Cascades. Count sends in his dues and inquires, "What's all this talk in the News about grandchildren? How does one get to be a grandfather, anyhow?" (Who are all those nice-looking young folks in the picture, Count?)

Herb (**H. J.**) **Adair** is roughing it, with a summer home on the Pine Valley Golf Course, Clementon, N.J., and a winter home in Palm Beach, Fla. He has three children and two grandchildren. Herb is president of Artloom Carpet Co., Philadel-

phia, Pa., and usually throws a cocktail party for Cornellians at the Barclay after the Penn game.

Art Peters and Mrs. Peters (**Jessie King**) '16 "took a nine weeks cruise and stopovers through the Middle East, Greece, Italy, and Spain this summer [1953] surveying the deeds of our 'do-gooders,' finding some of it good and some of it bad. Saw no '15ers, but met Cornellians young and old aboard ship and in various spots enroute. It's a fine thing for an ex-editor from the Arts & Sciences College to discover what a solid job the Engineering College and the Agricultural College did on some of our boys. Hope to see you at the 40th Reunion."

Ray (M. R.) Riley is vice-president, National State Bank, Newark, N.J.

Nick (Howard G.) Nichols has retired from the Bureau of Internal Revenue after 36 years of service. He will continue his home at 4636 Hawthorne Lane, NW, Washington 16, D.C.

Bob (R. C.) Candee, Brig. Gen. US Air Force (Ret.), now living at 700 Stewart Ave., writes, "Living back in Ithaca again after 38 years absence, 36 in the Army and Air Force. Good to renew acquaintance with so many old Classmates and other friends, though most of them seemed to have changed in appearance since 1915."

Chuck (Charles) Shuler, Jr., the old bone-crushing halfback on Doc Sharpe's teams, and Mrs. Shuler are on the Alcoa cruise in the Caribbean. Chuck's note reads "**Red Phoenix, Mutz Priester**, and myself are all in good health and getting along well. I know you are just as spry as any of us. (Chuck: I think that old third-rail stuff of prohibition days is catching up with me.)" Address: 409 Putnam Building, Davenport, Iowa.

House and Home, in a recent issue, has the following to say about Snooze (**Harold R.**) **Sleeper**: He "is an author of note, as well as an architect of broad experience. His books include Architectural Graphic Standards which he co-authored with Charles G. Ramsey; The House for You which he co-authored with his wife, Catherine, and Architectural Specifications which he authored alone." Address: 8 East 48th St., New York City.

Gordon A. Mayer, Grad '45-'47, son of **Karl H. Mayer '15** and **Dorothy Wilson Mayer '14**, married Dorothy Prather at San Clemente, Cal., December 24, 1953.

Al (Alan F.) Williams writes from San

Marino, Cal.: "On November 25, there were three of the Cornell Class of 1915 present at the Penn-Cornell Rally in Los Angeles: **A. S. Patrick CE**, **Juston Malone**, Arch Ag., and myself. **Harold Hock, CE '16**, was also present, along with some 30 other Cornell men and about 50 Pennsylvania men. We are looking forward to the visit of the Cornell Glee Club in Los Angeles this spring."

'16 *Harry F. Byrne
123 William Street
New York 7, N.Y.*

"**Hoot Mon**"—The moors of Gramercy Park was the widely-heralded rendezvous of the Clansmen of 1916 for their annual meeting for haggis and barley-corn. No pipers blew their bags for high skirling this time as has been the accepted and undying custom of this clan at all its great gatherings. Like all the Scots, we're a hardy clan but thrifty, aye so thrifty, and know well that pipers come high. So we had to dispense with "Scots, Wha Hae" on this occasion and confine our activities to the reverence of the haggis (a fine turkey dinner) and the lifting of the glass. The immortal **Bobbie Burns** contended that "freedom an' whuskey gang thegither."

Do you see what **Collie Collins'** chowder and marching lads and lassies from Stamford, Conn. have done to our Class habits? Sure, and its made us strictly and unadulterated Gaelic! Well, for example, **David MacFreudenthal** untied his "sporrán" (some act for a Scot) and bought each clansman present a wee Dock an' Dorris, for free, mind you! Then **Jack O'Borges** pulled what we at first thought might be rabbits from beneath his tartan and, to our complete shock, we found them to be bottles of bonded "whuskey," also for free, except for an old Scotch trick of "tapping" our purse strings for assistance in a little matter of "mooching."

About forty of us Macs and Mcs were on hand consisting of the usual steady-coming comics, crepe-hangers, kibitzers, pundits, and intellectuals, all too Celtic to be intelligible or newsworthy if recorded in the ALUMNI NEWS. Suffice it to conclude with our clans' motto, "Deoch-Slàinte" (cheerio) to all.—**F. H. Thomas**

'17 ME—International Heater Co. of Utica has appointed **William R. Landmesser** factory representative for the New

"Hoot Mon" Class of '16 Dinner—See story

York-New Jersey metropolitan area. His home is at 1496 Springfield Avenue, New Providence, N.J.

'17 BS—Mrs. Roy W. Shaver (**Marion Hess**), Dover Dale Farm, Dover Plains, is spending the winter at the Hotel Stratford, Alton, Ill., where her husband is consultant for Alton Board Co. Mrs. Shaver, who is Class representative for the Alumni Fund, announces the birth of her third grandchild, Becky Lou Shaver, last May.

'17, '18 BS—**Donald E. Maclay**, 48 Hawthorne Place, Summit, N.J., writes that he now has two undergraduate sons in the University: **Donald T. Maclay '56** and **John C. Maclay II '58**. They are both majoring in Mechanical Engineering.

'18 ME—**Marvin W. Wickham** has been promoted to the post of supervising engineer of eastern engineering, Bell Telephone Co. of Pennsylvania. His address is 113 Redman Avenue, Haddonfield, N.J.

'19 **Alpheus W. Smith**

QUOTES . . . CLOSE QUOTES from the Second Double-Postcard News Roundup:

Samuel E. Binswanger, 511 Riverside Drive, Richmond 25, Va. (new address): 'Taint news to folks hereabout, but is for Cornellians in general: for sometime now I've been president of Binswanger & Co., Inc., a glass and building supply firm founded by my grandfather in 1872, 82 years ago, here in Richmond.

Paul N. Boughton, 1½ Dolson Avenue, Middletown (new address): After 10 years

of operations in Warwick, have just moved to continue my same line of work: selling and exchanging farms, homes, land.

William R. Buell, East Aurora: Recently sold our home near East Aurora and bought a farm near Holland. The farm pond is full and the house is nearly remodelled. Pretty soon we can offer trout for breakfast, a swim and a walk through the woods for '19'ers and their grandchildren. Daughter married, son at St. Lawrence, and daughter at Rockford College, Ill.

Samuel S. Goldberg, 369 W. Hudson Street, Long Beach: Same address for the last 24 years. Son, **Dr. Joseph H. Goldberg '43**, practicing dentistry in Long Beach. Two grandchildren. Still connected with the State Supreme Court in Brooklyn as a trial term clerk.

Howard B. Ortner, 567 Crescent Avenue, Buffalo 17: See you in June. Still operating Camp Otter for future Cornellians, and at Nichols Country Day School in Buffalo. Grandpa to 3, one a future full-back for the Big Red.

Robert A. Philipson, 1700 Eye Street, N.W., Washington 6, D.C.: Hold certificate of C.P.A. from State of New York and have been practicing public accounting in Washington since 1925. Have one son, Bruce, who recently passed the D.C. Bar. Played golf recently with President Eisenhower and Vice-President Nixon. Active in Jewish affairs, and served as city-wide chairman of the Israel Bond Campaign. Spent two months in Europe and Israel in 1951, and was thrilled to observe the tremendous progress made in the world's newest democracy. Regret cannot come to the

35th Reunion because of similar trip planned for this summer.

Ralph G. Starke, 260 Holmes Road, Pittsfield, Mass.: Four C.U. alumni in the family now: **Ralph M.**, Hotel '52, assists the general manager at the Waldorf-Astoria [**Joseph P. Binns '28**]. His wife is the former **Billie Robbins**, Home Ec. '52. Our daughter, **Emilou Starke Piper**, took her MA in '53. Mrs. S. thinks the, too, would like to join the crowd.

Dr. William A. Wall, 105 N. Main Street, Cortland: Practice medicine. Three children, 2 grandchildren.

'20 **S. Jack Solomon**
152 West 42d Street
New York 36, N.Y.

Well, February has arrived and by now most of the usual New Year resolutions are a thing of the past, except the one you made to start planning to return to Ithaca for your Thirty-fifth Reunion next year. Stick with that idea, and may you find your Nineteen-Fifty-Four Leaf Clover, and earn your Fifty-Fortune (after taxes). Put some of it aside for the Alumni Fund and for your "Thirty-Five in Fifty-Five" gathering of the 1920 Clan. **Kelly Sachs** promises that the kilted bag-pipers will be there again to welcome you. For the present, however, here's what's cookin' now.

Harry C. Clair, Jr., now at 1630 S.W. Clifton St., Portland, Ore. should definitely come back to Reunion, as he has retired and has nothing to do but play around with photography, philately, and keep an eye on his two sons, one daughter, and

CORNELL ALUMNI:

Pictured above is a new bridge currently under construction at Lowden Point, New York, which extends over a lateral expressway leading from the State Thruway to Hamlin Beach State Park. The State has selected Lenroc Ashlar and granite arches for the stone-work. Lenroc Stone was selected because of its durability, competitive price, and attractive appearance.

We prepared many sketches of alternate possibilities of coursing patterns and sizes of stone units so as to achieve the right "scale" and horizontal feeling appropriate for this bridge design.

Lenroc Stone is under consideration for other bridge and highway work; the preliminary study that goes into a project of this kind is more extensive than you might imagine. Once a determination is made, we place specific instructions in the hands of the erection contractor. This results in a favorable bid price, speed of erection and quality of workmanship. Lenroc Stone is delivered to the job in the proper proportions of specified sizes together with sketches showing the character and appearance that is wanted.

The approach to selling, design and quarrying of stone has changed considerably in the past decade so as to keep pace with modern building practice. This is a far cry from the old days when rough stone would be dumped on the job, and at high cost, the stone would be fashioned by hand and placed in the wall. On all classes of building construction, we attempt to coordinate the work of the design engineer or architect, the quarry and the mason contractor, to insure better building at lower cost.

Cordially,
Robert M. Mueller '41

FINGER LAKES STONE CO. Inc.

ELLIS HOLLOW ROAD
ITHACA, N.Y. ■

LENROC STONE, from the Ithaca Quarry from which
MANY FAMOUS BUILDINGS at CORNELL
UNIVERSITY HAVE BEEN BUILT,
is now available for commercial use.

NATURAL STONE A MODERN BUILDING MATERIAL
LENROC IS QUARRY-CUT TO MODULAR DIMENSIONS

FOR ECONOMICAL CONSTRUCTION

Experts agree that much building must be done in the next decade. This construction can be undertaken only if improved methods can be effected. One hope for lower building costs lies in use of modular materials, cut or fabricated in multiples of a standard unit. The generally accepted module is the 4" dimension.

With a mortar backing, Lenroc Ashlar produces a normal 4" curtain wall which conforms to the standard module size. LENROC STONE is diamond-sawed in the quarry to multiple rises of 2¼ inches, the brick module. This results in great installation economies. It also permits the stone to be used interchangeably with brick without the necessity of re-dimensioning plans, wall sections or elevations.

LENROC is VERSATILE and DISTINCTIVE

With LENROC Stone there is no limit in design possibilities and effects. It is suitable for all buildings, from a small residence to a large monumental building. Being a natural stone, Lenroc will weather to different shades of color. Moreover, by varying the size of stone and by using any one of many ashlar patterns, each building will have a distinct character. Our architectural service recently completed a folder showing many different patterns that are possible with LENROC SAWED-BED ASHLAR. The variety of the patterns is really surprising.

This coursing booklet, featuring these drawings, is available to all interested persons. For your copy simply write to:

THE RIGHT APPROACH

Will Improve Your Investing Score Too!

Our "game" is the management of money and securities. It's a serious, full-time job these days . . . hardly one for a part-time amateur.

If your security holdings range upwards of \$75,000., the Investment Advisory Service offered by this Trust Company (*whose primary function is the prudent care and management of money*) deserves your prompt and serious consideration. Wouldn't it make sense for you to consult this outstanding financial institution about your personal investment program?

Sound investment planning requires specialized training, broad experience and contacts, extensive research and statistical facilities, as well as the seasoned judgment of career investment men. You'll be agreeably surprised when you compare the modest cost (usually tax deductible) with the many tangible values of our Investment Advisory Service.

We suggest that the right approach for you is to talk it over with us, or if you prefer, write for a complimentary copy of our brand new booklet called "*How To Get The Most Out of Your Investments.*"

City Bank Farmers Trust Company

Affiliate of
The National City Bank of New York

brand new grandson, **William H.** (for Henry) **Gauger** has already promised to come back. He is now professor of chemistry at Moravian College, Bethlehem, Pa. and has stopped playing chess long enough to raise two boys and one girl. **G. Graydon Curtis**, living at present in Wolcott, will also be among those present in 1955. Glen has one son about to finish high school and must be doing O.K. as he is building a new home in Rochester.

This photo was not taken during the Gay 90's, but quite recently in Cleveland during the eighth annual Glidden Tour. It shows **Warren S. Weiant, Jr.** and his charming wife in their 1899 Locomobile. Wy was one of the founders of the Ohio branch of the Antique Automobile Club of America back in '46, and keeps out of mischief by finding and restoring old cars. He spent six years restoring this one, doing practically all the work himself, and it is now the oldest car in Ohio still in operating condition. His Locomobile was awarded the Chrysler trophy for the best steam car in the Glidden Tour. There are seven old cars in Wy's "stable," four of which have already been restored, thanks to the help from his wife, Eleanor, in the upholstery and brass polishing departments. When not crawling under these old wrecks he's at home in Newark, Ohio, in business growing cucumbers, tomatoes, and lettuce, all under glass. Seven acres of it! Weiant Gardens must be quite a greenhouse! Wy's older son, **Edmund '46**, has been with the Library of Congress since he received the Doctorate degree in history at Basel, Switzerland in 1950. The younger son, **Warren III**, who somehow or other went to Ohio State, is recently back from his honeymoon and has been in business with Pop for the last four years. Oh yes, there are three grandchildren through the courtesy of son Edmund and wife.

If published, this will be my fourth column and already fan mail is pouring in. **O. G. Daily** writes from Evanston, Ill. that he thinks it is "Terrific!" (Oh Gee, thanks O.G.) When you come to New York City please attend the first meeting of my fan club. They meet the seventh Tuesday of each month in the first empty phone booth at Grand Central Terminal. I'll be seeing you there. In the meantime remember, "Thirty-Five in Fifty Five!"

'21 *George A. Boyd*
80 Maiden Lane
New York 38, N.Y.

Department of Nostalgia: One evening recently, while passing through the halls of The University Club in New York, I heard voices uplifted in song from one of the dining rooms. The Delta Chi's were re-uning, to the tune of, "I want to go back to the old days, the good old days on the Hill."

Memory flashed back to the Strand in the fall of 1917 or the spring of 1918. A vaudeville act had incurred the displeasure of the audience, which hooted the performers off the stage. A tall, thin man of engaging personality, who, I was told, was Dillon, the manager, came before the foot-lights. Pleading for a fair break for the "artists," who were only trying to make a living, he proceeded to apply the old technique of distracting the infants' attention by singing a song which he had just composed. The applause was vigorous, after which the vaudevillians returned to finish their act in comparative peace.

I never heard Dillon's song again while at college, but years later it took its place in the Cornell repertoire. And now, in 1954, the strains, "I'm longing, and yearning, and always returning to my own Cornell" followed me down the hall, leaving me to muse on the forms of immortality and the legacies that a man may leave behind.

All of which brings us to **E. B. White**. Having learned that "Andy" was about to bring forth another book, I waited for the publication, on January 18, of *The Second Tree from the Corner*, intending to review it. The intention proved superfluous. No one could surpass Irwin Edman on the front page of *The New York Times Book Review*. "It is high time to declare roundly what a good many people have long suspected, that E. B. White is the finest essayist in the United States. . . . One sometimes wonders what Thoreau might have written about, what he might have written like, if he had lived for the most part in New York City a century later than he lived in Concord, Mass. I suspect he would have written about some of the things E. B. White writes about and in something of the way he writes. He could scarcely have done it much better."

"Andy" would have been himself under any circumstances, but speaking of legacies, let us not forget Professor Martin Wright Sampson.

Another Classmate who has decided to live his own life is **Walter J. Dockerill**. "Doc" has retired from the coal business and has moved his family from Larchmont to the Ocean Park Apartments, 2115 North Ocean Boulevard, Fort Lauderdale, Fla. He hopes his Classmates and friends will stop in and say "hello" when in Florida. "Doc" bought the eleven-unit apartment as an investment and a home. He and his wife Jane will manage it as a high class resort apartment and hotel on a twelve-month basis. **Walter J. Dockerill, Jr.** '51 was expected home from Korea late in January, after serving as a lieutenant, Quartermaster Corps, US Army with the KMAC for one year.

'22 LLB—**Barton Baker** just returned

from a tour of Iceland, England, France, Belgium, and Holland. He was accompanied by his wife (**Bernice Dennis**) '25. In London he made a study of the British courts. He is a member of the law firm of Baker & Carver (**Elbert H. Carver**) '26 in Rochester. The Bakers live at 100 Brookwood Road, Rochester 10.

'22 AB—**John P. Huestis** is production manager of General Fireproofing Co., Youngstown, Ohio, where he lives at 279 Benita Avenue.

'22—**Alexander G. Lewi** was elected president of Macy's, Kansas City, November 30. He had been acting head of the store since February 1. Lewi had spent twenty-six years in retailing and merchandising at L. Bamberger & Co., Newark, a division of the company, before moving to Kansas City, Mo. as senior vice-president and general merchandise manager in 1950.

'22 ME—**David S. Ramirez**, P.O.B. 9154, Santurce, Puerto Rico, is a consulting engineer for the manufacture of Portland cement in Puerto Rico and the Caribbean Islands. Ramirez resigned in 1950 as vice president of Puerto Rico Industrial Development Co.

'23 ME—Promotion of **James N. Livermore** (above) to the position of assistant director of design engineering was announced by **Walker L. Cislser** '22, president of Detroit Edison Co. Livermore was formerly a mechanical division engineer in the construction engineering department. He lives at 5 Hanover Road, Pleasant Ridge, Mich.

'24 *Duncan B. Williams*
30 East 42d Street
New York 17, N.Y.

'24—**Edwin O. (Ed) Steinmann** echoes the sentiments of his Classmates in congratulating **Johnny Brothers** on the swell job he is doing as secretary of the Class which, among other things, involves a lot of letter writing and pleas for \$5 checks for the Class dues. If you haven't sent in your check, please do so promptly. Ed has two daughters, **Marion**, who graduated from Cornell in '50, and **Elinor**, in the Class of '57. Ed lives at 324 Aldine Street, Rochester 11.

GREETINGS FROM THE NEW CORNELL CAMPUS STORE !

At long last a dream has come true! The new store has been completed and we have left our temporary quarters in the Old Armory and are back in Barnes Hall.

But it's a much different Barnes Hall store than the one you remember. The outside of the building hasn't changed much, but when you step inside, you enter a modern college store, just about the finest in the country.

When you visit Ithaca again be sure to stop in. The new store is one of the showplaces of the campus—two big floors with new fixtures, new floors, new lighting and completely air-conditioned.

Our enlarged space also enables us to carry more stock and we will be telling you about some of our new items from time to time. Send us your inquiries and orders for everything which concerns Cornell.

'24—**Leslie R. (Les) Hawthorn** married the former **Ruth Reynolds '26**. Their eldest daughter, Shirley Ann, recently spent a year at Cornell with her husband, **W. H. M. Morris**, who obtained the Ph.D. (in Agr. Eng.) there this year. Their second daughter died soon after birth, and a third, Doris Marlene, is currently attending the Utah State Agricultural College, Logan, Utah, as a freshman. After approximately six years at the N. Y. State Agricultural Experiment Station at Geneva, the Hawthorns moved to Texas where they lived for nearly fourteen years. There Les worked for both Texas A. & M. College and the US Department of Agriculture. Currently he is a horticulturist with the Department, and is stationed at the Utah Experiment Station at Logan. In 1952, he was one of the six official delegates representing the United States at the 13th International Horticultural Congress held in London. He gave a lecture at the Congress on some of the research being done by the US Department of Agriculture in the field of vegetable seed production. With Dr. L. H. Pollard of the Utah Experiment Station, Les is an author of the forthcoming text and reference book, *Vegetable and Flower Seed Production*, being published by Blakiston Co. of New York. It is scheduled to come off the press in early January, 1954, and is one of the few, if not the only text in English on this rather specialized, but nevertheless important subject.

'24—**Clarence K. (Dutch) Gundaker** is a member of the law firm of Moore, Panfil & James, with offices in the Lincoln-Liberty Building, Philadelphia, Pa. In spite of a

serious operation last spring, he hopes to make the 30th Reunion so, he says, he "can be there to annoy our fellow Classmates."

'24 AB—**Max Schmitt** (above), our Class president, was recently named president of the Wool Bureau and took up his new duties on January 1. His offices will be located at 16 W. 46th St., New York City 26. He brings to his new position a broad background of experience in the advertising field, having been formerly associated with Collins & Aikman Corp., J. Walter Thompson Co., and Foote, Cone & Belding. Max is vice president of the Cornell Club of New York and a past president of the Association of Class Secretaries. He is also a past president of the Cornell Club of Westchester County. He lives at 192 Rock Creek Lane, Scarsdale.

'24—**Herbert J. Reich** has successively taught at Cornell, Illinois, and Yale Universities. He has been a professor of electrical engineering at Yale University since 1946. Professor Reich was on leave from 1944-46 as a special research associate at the radio research laboratory at Harvard University. In addition to contributing approximately 50 papers and articles to leading technical periodicals, he is the author of "Theory and Applications of Electron Tubes," "Principles of Electron Tubes," co-author of "Ultra-High-Frequency Techniques," and editor of "Very High Frequency Techniques." He is serving as editor of Van Nostrand's series on communications.

In the January issue of the *ALUMNI NEWS* we announced that a pre-Reunion Class Dinner will be held at the Cornell Club in New York City on Wednesday, March 24. **Fred Brokaw**, who is chairman of the committee arranging the dinner, advises that the first mailing to members of the Class in connection with this affair, will go out on February 23. A return postcard will be included, and Fred wants everyone to return these cards promptly because a second mailing will go out on March 12, to which will be attached a list of acceptances.

Fred has arranged for a distinguished speaker, **Dick Cliggott '53**, former Cornell football star. We have already reported that **Chick Norris** and **Carl Schraubstader** will be there with their usual high grade entertainment; so plan to attend the dinner on March 24. Please return promptly the postcard you will receive with the February 23 mailing from Fred.

'25 AB, '29 MA—Mrs. **Helen Peavy** Washburn, 122 Judd Falls Road, Forest Home, has received the University's Guilford Essay Prize of \$120 for her essay, "Searcher." She is a candidate for the PhD degree and is majoring in Child Development & Family Relationships.

'26 EE; '25 CE—**H. H. Clark**, 22000 Calverton Road, Shaker Heights 22, Ohio, is superintendent of transportation for Erie Railroad, Cleveland, Ohio. He passes on the news that fellow employee **John S. Parsons** '25 has been promoted to assistant chief engineer of the Erie, in charge of maintenance of way. Parsons is married to the former **Bonnie Belden** '25 and lives at 1570 Mars Avenue, Lakewood 7, Ohio.

'26 AB—**Edward C. Newfang**, 663 Millbrook Road, River Edge, N.J., was elected vice president of Chemical Bank & Trust Co., 165 Broadway, New York City 15. Except for 1941-45, when he was in military service, Newfang has been with the bank continuously since 1926.

'27, '28 ME—**Henry N. Fairbanks**, 170 Penfield Road, Brighton, has been appointed assistant superintendent of research and development at Eastman Kodak Co., Rochester. He has been with the company since 1929 and for many years has been concerned with motion picture development work.

'27—**Harold Gassner**, vice president of Rosedale Foundry & Machine Co., Pittsburgh, Pa., has been elected president of the Pittsburgh Foundrymen's Association. His address is Box 25, RD 1, Gibsonsia, Pa.

'28 BS—**John W. Williams**, 1798 South Dahlia Street, Denver 20, Colo., opened a consulting engineering office (Williams & Woodward, Engineers) in Denver last May, specializing in land development, sewer and water work. He is president of Cornell Club of Colorado and is busy planning for the Glee Club concert in Denver, March 31.

'28 ME—**Whitford S. Wyman** was appointed, January 1, vice president of Dominion Oxygen Co., division of Union Carbide Canada Ltd., 805 Davenport Road, Toronto 4, Canada.

'28 Women—**Ione Barrett** married recently. Her husband is Thomas L. Jarvis and their home is at 263 South Green Road, South Euclid 21, Ohio. **Elizabeth Baker Wells**, her husband, **John W. Wells, PhD** '33, professor of Geology at Cornell, and their daughter **Ellen B. Wells** '56, a Cornell student, are leaving on February 1 for a year in Australia. Professor Wells has a fellowship to University of Australia and Ellen will continue her studies there. Mrs. Ronald H. Cooper (**Edith Christensen**) is secretary to the president of Lincoln Savings Bank of Brooklyn. She commutes to her work from her home at 286 Wood Ridge Street, Wood Ridge, N.J. **May Elish Markewich** and her husband, **Arthur Markewich** '26, live at 175 Riverside Drive, New York City. Arthur is a city justice and May is working toward the Doctorate at Teachers College, Columbia University. They have two sons, Reese and Danny. **Anne Gasool**, Comstock House, Smith College, Northampton, Mass., is a professor of French at Smith.

—Mrs. **Ruth Pederson Powers**

HOW TO SUCCEED WHILE YOU'RE STILL YOUNG

IT SURPRISES many people to learn that the average age of the men who respond to our advertisements is closer to forty than to twenty. But it's not hard to understand why this is true!

Most young men are *satisfied* with their progress in business. Their native ability and energy are enough to win them regular promotions and salary increases. They find success only a matter of time.

But the day comes, often with a shocking suddenness, when this easy and casual progress ends abruptly.

Many a man wakes up with a start in his thirties or forties to find that his income has leveled off, and that promotions have ceased.

"I'm not getting ahead as fast as I should," he says to himself. "Where am I going to be ten years from now?"

Why does this pathetic pattern appear in so many promising careers?

The answer is simple: Sheer ability and energy can carry a man to the mid-way point in business . . . *but only a thorough knowledge of business fundamentals can help him beyond that point.*

If you realize that fact while time is still on your side—and act on it—you can succeed while you're still young.

FREE . . . "FORGING AHEAD IN BUSINESS"

We do not claim that you must have the Alexander Hamilton Course in order to succeed in business. But we do say that *you*

cannot succeed without what is in the Course!

All the Institute does is offer you a convenient and time-saving means of bringing this knowledge to you in your spare time; and in a form that has *proved* to be practical and effective for more than forty years.

So that you may judge for yourself whether or not you think the Institute can help you, we have published an informative 48-page book titled "Forging Ahead in Business."

We believe that this little book will help any man get down to bedrock in his thinking; however, there's no cost or obligation for it because—frankly—we've never been able to put a price on it that would reflect its true value. Some men have found a fortune in its pages.

If you would like a complimentary copy of "Forging Ahead in Business," simply sign and return the coupon below. It will be mailed to you promptly.

ALEXANDER HAMILTON INSTITUTE

Dept. 240, 71 West 23rd Street, New York 10, N. Y.

Cornell Blankets, now at **The Triangle**, are just the thing for picnics next summer and football games next fall. We think that at **\$10.50** you can't match them anywhere.

The heavy, 100 per cent wool, dark Cornellian Red blankets measure 54" by 72" and might be just the thing you're looking for to dress up that den or the rooms at school of your sons and daughters. A large block C. in the center and white stitching around the edge give that distinctive Cornell appearance.

Also 60" by 80" at **\$15.00**.

We'd like to remind you again that a **Cornell Class Ring** makes a fitting gift for the June graduate. Perhaps you'd like one for yourself. We can supply any Class numerals desired and can have the ring on your finger a few weeks after your order is received. Please include size, numerals, and initials.

Men's—10 carat gold:

8 pennyweight, military or rose gold finish—Ruby stone—buff or faceted\$27.50
plus 20% tax

10 pennyweight, military or rose gold finish—Ruby stone—buff or faceted\$33.00
plus 20% tax

Women's—10 carat gold:

8 pennyweight, with class Numerals and block "C" inscribed in red or dark blue stone \$17.75
plus 20% tax

The Builder—By Philip Dorf

Sheldon Court, Ithaca, N.Y.

'29—**Will H. Rowand** (above), vice president of Babcock & Wilcox Co. of New York, was awarded the Newcomen Medal for achievement in the field of steam, at a joint meeting of the Newcomen Society and The Franklin Institute in Philadelphia, Pa., January 18. The medal, which is awarded by the Society not more than once every three years, was presented to Rowand for his many contributions to steam progress, among which was his invention in 1936 of the cyclone steam separator. His address is 38 Slope Drive, Short Hills, N.J.

'29, '30 ME—**Robert M. Smith**, vice president of sales of Medical Economics, Inc., Rutherford, N.J., was elected to the board of directors of National Business Publications, Inc., last November. He lives at 79 Park Slope, Ridgewood, N.J.

'31—**Willard E. De Camp**, 1226 Harvard Terrace, Evanston, Ill., is zone manager for Nash-Kelvinator Sales Corp., 6700 Lincoln Avenue, Chicago 45, Ill. His son, **Richard E. De Camp '57**, is a Sophomore at Cornell, majoring in Chemical Engineering.

'32 CE—**Robert M. Scott** is a project engineer with Campbell Soup Co., Camden, N.J. His address is 7148 Crittenden Street, Philadelphia, Pa.

'33 ME—**William E. Neff** was transferred last July from "Ducilo" S.A., Buenos Aires, Argentina, to the Du Pont Cellophane plant in Clinton, Iowa, where he is technical superintendent. He writes that he, his wife, and three children returned by way of Europe. They covered approximately 13,000 miles and visited cities in nine countries. "We have just enjoyed a wonderful white Christmas in the US," Neff says. "It is the first one the children really remember."

'33 BArch—**Charles V. Northrup** announced, January 1, that **Roger O. Austin '42**, **Carl F. W. Kaelber, Jr. '44**, and **William P. Roberts '40** have become members and associates of the firm of Waasdrorp & Northrup, Architects, Rochester.

'34 BS—**Mrs. Carl Harris (Ruth Broderick)** is in graduate school at University of Tennessee, Knoxville, Tenn. Her address is 1209 Farris Avenue, Knoxville 18, Tenn.

'34 AB—**Thomas E. Fairchild**, Box 172, Verona, Wis., is a partner in the law firm of Fairchild, Charne & Kops, 135 West Wells Street, Milwaukee, Wis. Fairchild,

who was Attorney General of Wisconsin from 1948-50, was Democratic nominee for the US Senate and ran against Senator McCarthy in the 1952 elections.

'35 BS—A daughter, **Catherine Ray**, was born to **Mrs. Roy C. Jones (Margaret Robinson)**, November 9. Mrs. Jones, who lives at 2428 Camp Avenue, Bellmore, retired from teaching last June. She is the daughter of **Edward W. Robinson '09** and **Mrs. Anna Ray Robinson '06**.

'36 AB—**Mrs. Elmer E. McKeen (Josephine Biddle)**, 793 South Main Street, Lewistown, Pa., was elected secretary of the newly-organized Mifflin County Health Council. She is a member of the board of directors of Pennsylvania Tuberculosis and Health Society.

'37

Alan R. Willson
State Mutual Life Ins. Co.
Worcester, Mass.

Seward Butler lives with his wife, son and daughter at 1053 South Hudson Avenue, Los Angeles 19, Cal. He is senior internal auditor with Lockheed Aircraft Corp., and is a member of the New York State Society of CPA's and Institute of Internal Auditors. Sew left Ithaca to graduate from Georgia Tech, and then went on to get the Master's Degree at Harvard Business School. He served as a warrant officer with the Army Engineers during the war. We wonder if Sew still has his saxophone?

Word comes to us that **Charles Fagan** of 125 Penarrow Road, Rochester, has recently been appointed manager of the Rochester branch of Burroughs Corp.

Dick Lounsberry has a new feather in his hat; he was recently elected New York State Assemblyman from Tioga County.

Charles H. MacQuigg, who lives at 5338 South Drive, Fort Worth, Tex., recently changed his business affiliation. He is now in the contact and sales department of Fort Worth Pipe and Supply Co.

Roy Norton recently moved from Winnetka, Ill. to Princeton, N.J., where he is now living with his wife, Louise, and their three children.

Bradley J. Patch lives at RFD 2, Owego. He and his wife (**Beatrice Wood**) '45 recently announced the arrival of another Cornellian, **Edward Wood Patch**, who arrived last September. This is their second son. Mrs. Wood's father, **Edward J. Wood**, is also a Cornellian, Class of '15.

John F. Reilly was recently appointed general solicitor of Lackawanna Railroad. Congratulations, John! Why not send us some more information about yourself so we can tell the gang where you live, what you like to do, etc.?

John Calderwood Weld lives at 8 Dorchester Road, Snyder 21, with his wife, one son, and one daughter. He is in charge of labor and employee relations for Sylvania Electric Products in the radio and TV division in Buffalo. Johnny is also part owner of a summer resort, Weld's, on Lake Clear, in New York State. He writes that although he holds a law degree he is not actively practicing at the present time. Johnny served as a lieutenant in the Navy during the war.

'39 ME—**William T. Mills**, 15 Woods Road, Ramsey, N.J., is married to the former **Mary Ferguson '37**, and has three sons,

David F. ten, Robert A. eight, and John D. six months. He writes that he had dinner recently with Classmates **Alfred F. Dugan**, **Aertsen P. Keasbey**, **John H. Nevius**, and **Jansen Noyes, Jr.**, for informal discussion of plans for the Fifteenth Reunion next June.

'39—**Robert R. Van Valkenburgh, Jr.**, 49 South Forest Road, Springfield, Pa., is staff service engineer in the transportation field service department of Baldwin-Lima-Hamilton Corp., Eddystone, Pa. His third child, Anita Lyn, was born January 4.

'39 **Women**—Plans for our Fabulous Fifteenth Reunion are under way and Class President **Ethel Piness Abrams**, Secretary **Sally Splain Serbell**, and Reunion Chairman **Margie Paddock Haller** are in the throes of "organizing." Circle the dates for June 11, 12, and 13! Send your suggestions to Margie at 1081 Montague Road, Park Hills, Covington, Ky. Here is one good time not to miss! —**Dawn Rochow Balden**

'40 *R. Selden Brewer
Alumni Office, Day Hall
Ithaca, N.Y.*

John Brock, who will be remembered as our official photographer at the Reunion in 1950, was recently elected president of the Tompkins County Firemen's Association. John is a photographer with the Photographic Science Laboratory here at Cornell and he resides in Brooktondale, about seven miles east of Ithaca.

Arnold Nye, Abbott Martin Road, Nashville, Tenn., is an architect with E. A. Keeble Associates, Inc.

George L. Freeman, treasurer of Capital Plastics, Inc., Rochester, is married and the father of three girls and a boy, ages 4½, 3½, 1½, and six months. He and his family live at 602 Lincoln Road, South, East Rochester.

Cliff Morehouse, who will be remembered for his prowess on the soccer team, is married to **Rhea Dillon '43**, and has three children, William, Catherine, and Edward. Cliff is research engineer with Air Reduction Co. Laboratory in Murray Hill, N.J., where he has been since graduation. He also represents Airco on the cylinder test committee of the Compressed Gas Association. The Morehouse family resides at 274 Claremont Avenue in Verona, N.J.

A recent release from Hewitt-Robins, Inc., Stamford, Conn., bring the good news of the promotion of **Forrest Griffith** to the newly-created post of general sales manager of the company's rubber and conveyors division, with headquarters in Stamford. The rubber division of Hewitt-Robins manufactures belting, hose, and other industrial rubber products. The conveyors division designs and manufactures conveyor machinery. Unfortunately, the release did not bring us up-to-date on Forrest's marital or family status but we do know that he resides at 2 Harrison Avenue in New Canaan.

A welcome telephone call was received last week from **Dick Meister** who was in Ithaca for several hours in connection with a meeting for fruit growers. Dick didn't give much personal news except to indicate that he still swings a mean golf club by flaunting a challenge to any and all comers. Six inches of snow on the University Golf Course might have been responsible for

YOUR WIFE CAN HAVE \$8,622 A YEAR FOR LIFE

Mr. Cornellian, that's if she is age 55 when you die and you have your life insured with our Gold Standard Policy. This policy has the lowest premium and most liberal settlement options of any policy of its kind issued in the United States. Have your insurance counselor write us for details.

such confidence, so if any of you happen to be in the Cleveland area this spring or summer, I hope you will discover whether or not he is the golfer he intimates. Dick's address is RFD 2, Willoughby, Ohio.

The "Michigan Cornelian," published monthly by the Cornell Club of Michigan, reports that **Spencer Gates** recently bought a new home at 179 Suffield in Birmingham. Finishing touches were completed just in time for the arrival of his second daughter, Pamela, born on May 11.

Former Glee Clubbers will be interested to know that **Burch Mayo** is heading up a committee to sponsor a Glee Club appearance in Tulsa this coming April 1. Another 1940er, **John Flowers**, who is head man of our alumni club in Houston, will have similar duties when the warblers invade that Texas stronghold on March 27.

'40—Enid McKinney McCord ★ (above), Freeville, receives the bars of her new rank, captain, from Colonel Charles F. Cruse, executive officer of Tokyo Army Hospital. Captain McCord, a general duty nurse at the hospital, entered the Army in May, 1942 and has been overseas since March, 1952.

'41 BS—John J. McNamara is with Rheem Manufacturing Co., Philadelphia, Pa. His address is Greene Manor Apartments, Johnson & Greene Streets, Philadelphia 44, Pa.

'41 BSinAE(ME)—Thomas C. Shreve was married to Betty N. Richmond, in Hastings-on-Hudson, December 26. Shreve is the son of the late **Richmond H. Shreve '02** and Mrs. **Ruth Bentley Shreve '02**.

'38 MA, '42 PhD—Elmira College announced, January 5, the resignation of President **Lewis Eldred**, effective July 1. Eldred, who lives at 855 College Avenue, Elmira, will continue as vice president in charge of academic affairs.

'42 DVM; '41 BS—Dr. Leo A. Wuori and Mrs. Wuori (**Virginia Buell**) '41, of 54 Hazelton Circle, Briarcliff Manor, announce the birth of twin sons, Kenneth Floyd and Kirby Reese, December 12. They join Stephen, who is eight this month, and Susan, age three-and-one-half.

'43 Women—Marian E. (Betty) Keller was married to John F. Cullen, December 5, in Scarsdale. They are living at 315 East 77th Street, New York City. We hear he's a wonderful guy! Mrs. Fay Wm. Brandis (**Mary Ellen Pearson**) and family have moved upstate to Waterville. They are enjoying small town life with their two sons, Gregory and Gordon. Mrs. Joseph Klockner (**Doris Fenton**) and her husband are

the proud parents of their fourth child, Linda, born October 27, in Upper Montclair, N.J. Jean Lawrence Swezey was born, October 29, to Mrs. Lawrence Swezey (**Betty Ann Bischoff**) of 1812 Karen Street, Burbank, Cal. He is their third boy. Mrs. Robert T. Cochran (**Alice Kincaid**) of 172 Blackburn Road, Summit, N.J., presented her husband with their fourth child, Richard, November 3. One lone girl graces their family! Mrs. Richard Forgham (**Betty Bockstedt**) and her family, which includes three sons, Richard, Ronald, and Earl, sailed, January 5th, for Port-au-Prince, Haiti. Her husband sold his beverage plant in Florida, and is now resident manager of the Coca-Cola plant in Port-au-Prince. This should be some experience for the entire family! Mrs. F. Cushing Smith (**Margaret Kirkwood**) and her husband have bought a house outside of Chicago, where she says they can breathe good, fresh air again. Margie didn't give an address! Mrs. **Grace Wood Munschauer** and her husband, **John Munschauer '40**, are the proud parents of a daughter, Lynn, born September 8, in Ithaca.—**June G. Klitgord**

'45 Men—**Mason Britton**, BME, 1851 Yorktown Road, Cincinnati 37, Ohio. After a tour of duty in the Navy, Mason is back with Cincinnati Milling Machine Co. **Irwin Spear**, BS, 2005 Stanford Lane, Austin, Tex., announced the birth of a son, Scott Jay, on October 7. He has been appointed assistant professor of botany at University of Texas in Austin. He received the PhD from Harvard last June. **Fred Bondi, Jr.**, BS, reports that he has been working in Paris now for several months, and is enjoying it hugely. He is working for the government on a European construction program. Major **Russell F. Greer**, DVM, who received the Veterinary degree from Cornell in February, 1945, has transferred from Camp Detrick, Md., where he was engaged in veterinary medical research work, to 72 Medical Gp., Ramey Air Force Base, Puerto Rico, where he is base veterinarian in public health. His wife, Gloria, and two sons, Michael and Randall, joined him there this fall. **Alvin Silverman**, BA, is associated with the law firm of Wien, Lane, Klein, & Purcell with offices in the Empire State Building, New York City. Al is specializing in real estate, corporate, and estate law and lives at 897 Fulton Street, Valley Stream. **John H. Muller**, ME, of 68 Randolph Place, West Orange, N.J., has been promoted to lieutenant in the Navy. He is in the Supply Corps, and is serving as training officer in the Ships Office of Naval Supply Activities, Brooklyn. **Clayton Ryder**, AB, 963 Commonwealth Avenue, Boston Mass., has just been appointed district sales manager for GE Tube Department replacement sales. His territory will include the Boston, Bangor, Manchester, and Portland trading areas. With GE since 1948, Clayt, before his new appointment, was a sales assistant in the Tube Department. Previously he was associated with advertising and sales promotion activities in the GE Apparatus Group in Schenectady and in New York City. **Dr. Alvin M. Donnenfeld**, MD, 345 West 88th St., New York City 24, has been appointed assistant instructor in obstetrics and gynecology at New York Medical College, Flower - Fifth Avenue Hospital. **Roderick C. Richards**, MD, ★ wrote in last summer to say that he ex-

pected to be leaving the Air Force in October. Rod is a doctor and has been serving with the Air Force hospital located in Weisbaden, Germany, which is the only Air Force general hospital in Europe. He anticipated returning to the States and pediatric practice in Scarsdale. While in Europe, he mentioned seeing **Bill Grant** of the Class of '45 who was stationed in Garmisch, Bavaria. Word has been received that **Julius J. Haberman**, DVM, is now on active duty as a lieutenant in the US Army. He has been assigned as a veterinarian with Headquarters, First Army, and is stationed at Fort Slocum, New Rochelle. **Joseph S. Klockner**, BS, 98 Mt. Hebron Road, Upper Montclair, N.J., announced the arrival of a new baby girl, Linda, in Montclair on October 27. She joins three other children: Christina 8, Joseph, Jr. 6, and Karen 20 months. Joe is president of Klockner Steel Products in Rockaway, N.J. **Robert B. Trousdale**, BEE, MEE, 542 Countryside Lane, Webster, has a son, William J., who weighs 6 lbs. 2 oz., and was born on October 3. Bob married **Gladys Binns**, '51 MS. He is a research engineer with Stromberg-Carlson Co., Rochester.

—**J. D. Minogue**

'45 BS—**Eleanor B. Dickie**, 235 East Twenty-second Street, New York City, joined the national staff of Girl Scouts of the USA, last September, as an adviser on leadership. Her headquarters are at 155 East Forty-fourth Street, New York City.

'46 AB—**Marjorie A. Montrose**, 616 West 116th Street, New York City 27, is working towards a professional diploma at Teachers College, Columbia University. She writes that "it's a full time schedule as I am working as secretary to the intake supervisor in the guidance laboratory. I am certainly enjoying these two years in New York that were partially made possible by the \$1,500 fellowship that I was awarded by Kappa Alpha Theta in June, 1952."

'46 BChemE; '48 BS—**Robert H. Olson** and Mrs. Olson (**Mildred Smith**) '48, of 18 Artillery Lane, Baldwinsville, announce the birth of a son, Carl DeWitt, on December 30. The baby's grandparents are **Chester B. Smith '21** and Mrs. **Mildred Sherk Smith '22**. Olson is a chemical engineer with Solvay Process Division, Allied Chemical & Dye Corp., Syracuse.

'46, '48 AB, '49 MA—**Dr. Arthur S. Samuels** received the MD degree from Tulane University last June and is now serving his internship at Touro Infirmary, New Orleans, La. Dr. Samuels is married to the former **Ruth Steinman '49** and has one child. Address: 80-A Stadium Place, New Orleans 18, La.

'47 AB—**George H. Dunning**, Weed Street, New Canaan, Conn., recently returned from South Africa where he was representative of Farrell Shipping Line for nearly five years in Capetown and Johannesburg. He is now head of the passenger division in the firm's home office at 26 Beaver Street, New York City.

'47, '46 BS—Mrs. **Milton Marten (Theadora Liebman)** has a boy, Kenneth Lowell, who was one year old, January 25. Mrs. Marten taught kindergarten in Mineola for five years and hopes to resume teaching next September. She lives at 93-43 222d Street, Queens Village.

"At 65,
I Get My
Money Back..."

... Yes, all the money I'm now paying for life insurance will be returned in full ... plus dividends!"

Under the new family security "insurance or money-back" plan offered by one of North America's leading life companies, the **SUN LIFE ASSURANCE COMPANY OF CANADA**, you can buy a policy which provides life insurance protection for your family until you are 65 and guarantees that, if you live to 65, all the money you paid will be returned to you in full ... plus accumulated dividends.

OR... these proceeds at age 65 can be

- (a) used to provide an annuity;
- (b) left on deposit with a guaranteed rate of interest;
- (c) used to purchase a paid-up policy for the original sum assured, with a balance which can be taken in cash or as a guaranteed income.

Call the Sun Life representative in your district for more information about the Sun Life "money-back" plan, or mail the coupon below.

COUPON To the **SUN LIFE OF CANADA**

8th Floor, 607 Shelby St., Detroit 26, Mich.

'51 BS—**Jane A. Shevlin**, 214 St. Johns Place, Brooklyn 17, is a homemaking teacher at East Lake School, Massapequa Park.

'52 Men: Lt. St. Clair McKelway
83d Air Rescue Sqn.
APO 123, c/o PM, N.Y., N.Y.

After long and arduous journeys we are settled again in Spangdahlem, Germany, a small town and a big base near Trier am Mosel in the heart of the wine district. Any Cornellians passing through this part of the forest are urged to stop and sip a few, or what have you.

About this time of year many of the ROTC lads in the Class will be promoted to first lieutenant, which is nice for them. Aside from the extra pay and prestige, there is that warm feeling which comes to a man when he realizes he is almost due to be let out, which is usually before he accumulates two years of service and merits an extra thirteen dollars a month. The austerity program, you know!

Herbert Hern, who believes in saving ★ up a whole lot of scoop for one issue, reports that from October 1950 to December 1952, he was exec on an LST in Korea. He married Betty Jane Criswell in August 1951 and they have a son, Michael Roy, age 15 months. Lt. Hern is presently materiel officer of the recruit training command, NTS San Diego, Cal. Mail will reach him at 8406 Jordan St. in San Diego, Cal.

Lt. **Alfred H. Pagano**, ex-Baker-★ beaker-breaker associate of ours, is at Wright-Patterson AFB, Dayton, Ohio, after winning the MA in chemistry at Columbia. Lt. Pagano became engaged to Miss Iris M. Comiskey, of Queens, last January.

Herbert W. Mishler, 3923 Hudson Dr., Youngstown, Ohio, is a welding engineer doing research for the Battelle Memorial Institute in Columbus.

William B. Matthews is with the fleet ★ in the Pacific. On April 4, he married Miss Enriqueta Pretzer of Lima, Peru. Bill expects to get out of the Navy this summer and will then take up the hotel business.

Jack Craver, father of Jeffery Lloyd ★ Craver, age 6 months, has seen many, many people at Ft. Lee, where he is a personnel officer waiting to go to food service school. Among the Cornellians he has run into are: **Ken Merrill**, **Pete Fuller**, **Harry Coyle**, **Ed Carney**, **Jay Brett**, **Al Rose**, **Jim Stanley**,

"I've certainly had no regrets"

As a student in the Business School of the University of Minnesota, Hubert D. Wheeler prepared himself for the general insurance business.

In this work, he found that people kept asking him about life insurance. And he became interested enough to find out the answers.

"The more I saw of life insurance," says Hubert Wheeler, "the more I liked its human side. Somehow, I felt a greater sense of personal accomplishment on behalf of the client when I had helped him with his life insurance."

"I joined New England Mutual full time in 1937. I've certainly had no regrets. I have the satisfaction of doing an important job and of receiving compensation in direct relation to the effort I bring to it. And I have my own time for work and for recreation."

He has worked effectively enough to have become a member of the Million Dollar Round Table as well as our general agent in Duluth.

If you like to help others as you help yourself, it may pay you to investigate the opportunities offered at New England Mutual. Mail the coupon below for a booklet in which 15 men tell why they chose a career with New England Mutual.

WHITMAN, REQUARDT & ASSOCIATES Engineers

Ezra B. Whitman '01 Gustav J. Requardt '09
Roy H. Ritter '30 A. Russell Vollmer '27
Thomas S. Cassidy Theodore W. Hacker '17
1304 St. Paul St., Baltimore 2, Md.

Bud Grice, Bob Muser, Bob Chapon, Spike Gerwin, Hal Seidenberg, Hal Lewis, Bill Rittenhouse, Mike Farrell, Jim Jerome, Cyril Stelzenmuller, and Bill Ash.

Ensign Philip F. Gottling is engineer-★ ing officer of the USS Scout. Phil became engaged to Barbara Ann Johnson '54 last May.

Joseph W. Acker, 1283 Clifton Prado, Lakewood, Ohio, was married in July to Lucy Jane Miller, late of Wells College. Joe is now employed as an engineer with the Fawick Airflex Co.

Lt. William T. Blackwell is assistant ★ manager of the Fijiva Hotel near Yokohama, Japan. His address is Special Service Hotel Detachment, 8248th AU, APO 50, San Francisco, Cal.

Arthur Frank Flatley, who left Cornell in 1950 to attend Union College in Schenectady, is enrolled as a freshman at Albany Medical College.

Ensign Lawrence L. Burckmyer is as-★ sistant engineering officer of the USS Perry (DD 844) in the Atlantic. He can be reached through the FPO in New York City.

Paul C. Franks, 216 Holmes Rd., Pittsfield, Mass., is a graduate student and instructor at the University of Kansas. He would like information leading to the whereabouts of A. E. Burford, who was at University of Tulsa graduate school.

Incidental Intelligence: Zinck's now has a television set and football murals on the walls. They are going to tear down the Ivy Room (sob).

'52 Women: Phebe Vandervort
Monroe-Woodbury School
Monroe, N.Y.

Judith S. Winter was married to Robert Mitchell Burger in New York City on December 20. Judy is attending Teachers College at Columbia University.

Lois Flachsland married Gordon Vetal last May. Their address is 7098 Sheldon Road, Plymouth, Mich.

Joan Aten Beach and her husband, Stafford "Sandy" Beach '51, have a son, Jeffrey Stuart, who was born on December 29. They live at 28 Chase Lane, Levittown.

Lt. O. William Rittenhouse '52 and ★ Mrs. Rittenhouse (Barbara Galvin) are living at 4211 Garrett Road, Drexel Hill, Pa. Bill is at the Philadelphia Quartermaster Depot, and Barbara is a receptionist in a law firm.

'53 Men: Samuel D. Licklider
2375 Tremont Road
Columbus 12, Ohio

Loyal '53er Howie David sends word by letter that he is now with Batten, Barton, Durstine & Osborn advertising agency in New York City. With obvious satisfaction he reports on two of his accounts: My-T-Fine Desserts and Bond Bread. His address: 83-43 118 St., Kew Gardens, Long Island.

By letter from his mother (Mrs. Mabel ★ P. Boehringer) comes news of John R. Boehringer's marriage to Carol L. Ballagh '53 at the Overbrook Presbyterian Church, Philadelphia, Pa., on Sept. 12. The wedding was attended by Dick Smith, Dick Groos, Eli Manchester, Mark Stratton '52 and a host of other Cornellians. A past president of Interfraternity Council, Jack is presently a 2nd lieutenant in the Ord-

nance Department of the Army.

Assistant protocol officer in Tokyo at ★ Headquarters, Far East Air Forces, William H. Marsh gives his address as HQ FEAF, Box 885, APO 925, c/o PM, San Francisco, Cal. According to Bill, his job is concerned with the "meeting, greeting, and care of VIPs," and he promises all visiting Cornellians VIP treatment. In fact, Philip Fleming '52, Murray "Chip" Shelton '52, and Roy T. Norton have already gotten the "full fifty cent tour." Bill recently made his third trip over to Korea and heard the Cornell Club of Seoul was still functioning. He says the Cornell Club of Japan (meeting in Tokyo) is a real going concern.

Burton Spiller, 23 Clay St., Le Roy, drops word by postcard that he is a sophomore in dentistry at University of Buffalo. He was recently initiated into Alpha Omega, professional dental fraternity.

Harlowe Hardinge is in the Business School, in his second and last year. He reports a record enrollment of 180 in the Business School. "Cork" is another '53er who toured Europe last summer, seeing France, Italy, Switzerland, and England, and finding their attitude toward Communism one of indifference.

William Smith, an ensign aboard the ★ USS Sirba at Norfolk, Va., has become engaged to Betsy Udall of Wilson College, Chambersburg, Pa. The news was sent by letter from his mother, Mrs. W. H. Smith, Valley Rd., Newport, R.I.

From 21-38 80th St., Jackson Heights, New York City 70, Clifford V. Rowland writes that he and Jeanette are expecting a new arrival in the family, and at the same time anticipating transfer to Peru or Chile with W. R. Grace & Co. this spring. Cliff would like to get in touch with Classmates Bill Landmesser and Lee Banigan.

Married last summer to Lois Anne McClure of Ithaca College, Ronald B. Furry is working for the MS degree in the Department of Agricultural Engineering and concurrently instructing in that department. Address: 420 N. Geneva St., Ithaca.

Stephen Greenberg announces his engagement to Sherry H. Vogel '55. Steve's address is 317 Lefferts Ave., Brooklyn 25.

'53 Women: Mrs. D. Livingston
260 East Broad St.
Westfield, N.J.

Barbara Mestel announced her engagement to Ira R. Schaeffer, Dec. 27. She is teaching kindergarten in Brooklyn.

Nona Sutton was married Dec. 19 in Anabel Taylor Chapel to Nathan G. Pond '54. The reception was held at the DKE house, and the wedding trip was to Jefferson, N.H., for skiing and mountain climbing. Nate is a Senior in Agriculture, and Nona is a laboratory assistant in Poultry Nutrition, Rice Hall. Their address is RD 2, Varna.

Mrs. Willis D. Landon (Ruth Christ-★ off), 31 Adorn St., Weymouth, Mass., has a baby girl, Barbara Gail, born Sept. 26. Her husband, Bill '52, is stationed at HQ Btry, 514th AAA Gun Bn., Ft. Banks, Mass., but he'll be a civilian in the spring. Do you remember Schatze, their Dachshund, who used to sleep through classes with her? She just had triplets!

'93 PhB—Mary Josephine Hull, sister of the late Professor Charles H. Hull '86, History, Emeritus, December 29, 1953. A lifelong resident of Ithaca who lived at 413 East Buffalo Street, she was for many years treasurer of the Ithaca Children's Home and member of the board of the Home for Elderly Ladies. In her will, Miss Hull bequeathed to the University her books on lace and lacemaking; \$3000 to install a memorial window to her brother in Sage Chapel beside the window to his friend, the late Professor Ralph S. Tarr, Geology; and the residue of her property to be added to and become a part of the Hull Publication Memorial Fund. Kappa Kappa Gamma.

'94 ME (EE)—William Hallesen Gallacher, December 19, 1953. He operated a

farm in Murrysville, Pa., for thirty years. Sister, Sarah M. Gallaher '95.

'95 CE—**Norman Banks Livermore**, December 27, 1953, at his home in Ross, Cal. He was the oldest director in point of service of Pacific Gas & Electric Co.; was president of Coffin-Reddington Co., wholesale druggists in San Francisco; was a director of many other Western businesses and banks; and was president of the board of trustees of California Academy of Sciences. Psi Upsilon.

'96—**George Roy Clark**, October 29, 1953. His address was 901 North Third Street, Minneapolis 1, Minn. Beta Theta Pi.

'96 AB—Mrs. Joseph A. Greene (**Carolyn Wygant**), 10 Maurice Avenue, Ossining, July 10, 1953. Sons, Francis W. Greene '27 and M. Whitney Greene '29.

'97—**Francis Porter Johnson**, September 4, 1953, in Terrace Park, Ohio. Psi Upsilon.

'98 BSA, '24 MSA—**Edgar Lewis Andrews**, December 17, 1953. He was professor of agriculture for many years at University of West Virginia, Morgantown, W. Va., where he lived at Des Moines Avenue.

'99 MD—**Dr. Winifred Davey Banks**, 31 Washington Street, East Orange, N.J., in January, 1954. A member of the first Class in the Medical School, she was one of the first women physicians to practice in the East Orange area. She was a charter member of the Business & Professional Women's Association of the Oranges and was active in many medical organizations.

'00 DVM—**Dr. Clarence Lyon Barnes**, in April, 1953. He lived on Vassar Road, Wappingers Falls.

'01—**John Parke Gilbert**, Box 2, Cypress, Cal., December 6, 1953. He was production manager for Healy Tibbetts Construction Co., San Francisco Cal., developing a submarine oil field operation off the California coast. He had previously been engaged in general contracting and marine construction work. Phi Kappa Psi.

'03 ME—**Thomas Spencer Ramsdell**, former plant engineer and vice-president of Monument Mills Inc., Housatonic, Mass., at his home on Stockbridge Road, Great Barrington, Mass., November 30, 1953. He retired in 1949 after forty years with the company. As a consulting engineer, Ramsdell held many patents on inventions in the textile field. Chi Phi.

'03—**Crist Harvey Stevick**, December 23, 1953, at his home in Sarasota, Fla. Before his retirement in 1937, he was assistant to the vice-president of Consolidated Edison Co. of New York. Kappa Sigma.

'03 AB—**Ransford Clarke Thompson**, 820 Loring Street, Pacific Beach, San Diego 9, Cal., November 6, 1953. He had been principal of Oil City (Pa.) High School for twenty years until his retirement in 1943.

'05 CE—**Thomas Lilly Fountain**, April 20, 1953. His home was at 154 North Riverside, Fort Worth 3, Tex.

'07 AB—**Rufus Daniel Smith**, December 31, 1953, in Bangkok, Thailand. He retired in 1952 after eighteen years as provost of New York University and was in Thailand with a Fulbright grant to serve on the political science faculty of Chulalongkorn Uni-

versity in Bangkok. After graduation, he was instructor in Economics here for two years, then went to University of Pittsburgh. In 1915, he became assistant in government at NYU and remained on the faculty until his retirement. His address was 103 Cedar Shore Drive, Harbour Green, Massapequa. Mrs. Smith was Georgia Burr '10. Theta Delta Chi.

'08 LLB—**Richard Anthony Geis**, January 3, 1954. He lived and practiced law in Hampton Bays. Son, Richard A. Geis, Jr. '39. Sigma Phi Epsilon.

'08 CE—**Matthew Derbyshire Mann**, 625 Locust St., Roselle, N.J., December 2, 1953. Former operational head of the Bayway Refinery chemical products plant of Esso Standard Oil Co., he had been with the company for twenty-nine years before his retirement five years ago. He was known in the petroleum industry for his developments of production improvements; Esso holds thirty-two patents developed by him. Brother, Richard L. Mann '12. Kappa Alpha.

'09 LLB—**Albert J. Argue**, 567 Crescent Avenue, Buffalo, October 7, 1953. He was a county probation officer until his recent retirement because of ill health.

'09—**Ermond Fermor Brunn**, 2900 Sixth Avenue, San Diego 3, Cal., November 25, 1953. Before his retirement due to ill health in 1935, he was a student counselor and athletic adviser at Pratt Institute, Brooklyn. Phi Kappa Psi.

'09 AB, '12 MD—**Dr. Edwin Stanley Ingersoll**, 35 Oak Lane, Rochester, January 8, 1954. From 1919-37, he was chief of staff at Rochester General Hospital and, since 1915, chief surgeon at Rochester Dental Dispensary. He was a member of many medical organizations. Delta Tau Delta.

'10—**Margaret Maud Fish**, October 23, 1953, at her home in Williamsville, Vt., where she had lived for the last ten years. She was formerly manager of printing and publishing for the American Museum of Natural History, New York City, and had spent five years in France as an instructor in agriculture for the YMCA.

'10 CE—**Otis Stevens Van De Mark**, 2311 Rosedale Avenue, Houston 4, Tex., in November, 1953. As a director of American Construction Co. in Houston, he had a part in building many of the modern skyscrapers there. After his retirement in 1950, he continued to operate a real estate holding company. He was a life member of the Associated General Contractors of America.

'11 ME—**John Oscar Fuchs**, 2 Fairmont Street, Poughkeepsie, November 8, 1953. He was electric production manager of Central Hudson Gas & Electric Corp. and had been with the firm for thirty-seven years. Brother, Fred Fuchs '20. Delta Phi.

'11 LLB—**William Emery Hawke**, 14 Boundry Road, Malden 48, Mass., December 29, 1953. He was secretary and assistant treasurer of McGraw-Hill Book Co., Inc., New York City, for twenty-nine years before retiring in 1950. Chi Phi, Quill & Dagger.

'11 ME—**William Kenneth Sowdon**, December 12, 1953, at his home at 465 Broadway, Hastings-on-Hudson. He was owner

Picture of a man changing his motor oil

It's hard to believe now, we know.

But several years back—before you could buy Royal Triton in most any city—some people who had discovered the amazing purple motor oil on a visit to California were in the habit of ordering it by mail after their return home.

When a product earns this kind of loyalty you think twice before you do anything to it, even to improve it.

Yet we have just announced Royal Triton motor oil in two new all-weather, all-climate grades: Royal Triton 5-20 and Royal Triton 10-30. They lubricate with the thoroughness of a light winter oil, protect with the toughness of a heavy summer oil.

This is only one of hundreds of times since the end of World War II that we have improved a

product you, the customer, were more than happy to keep right on buying as it was.

Why don't we wait until you *demand* these new and better things? Because we can't afford to. We are competing for your business, and if we don't constantly better our products our competitors will better us.

Obviously, no matter which oil company comes in first in this race, the real winner is...*you*.
